**Every picture tells a story...** 

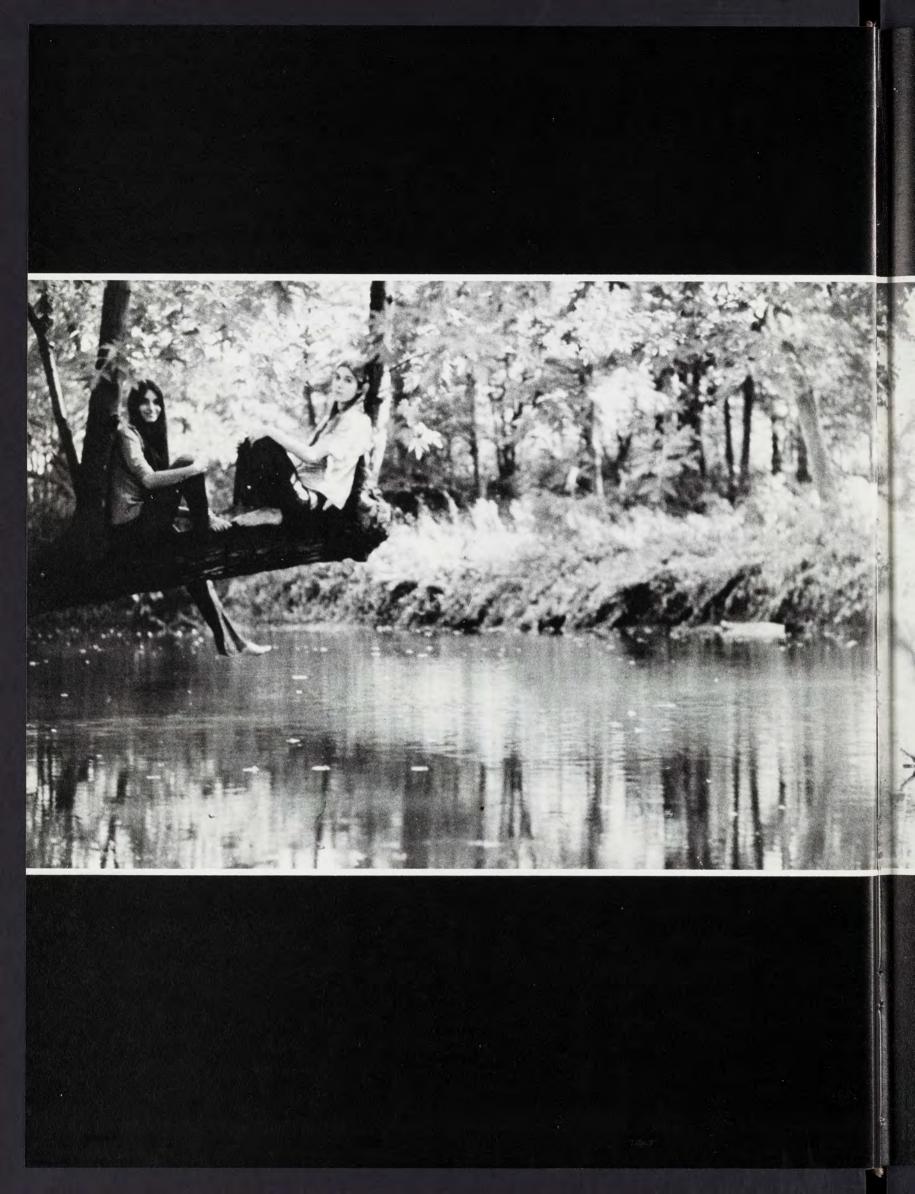

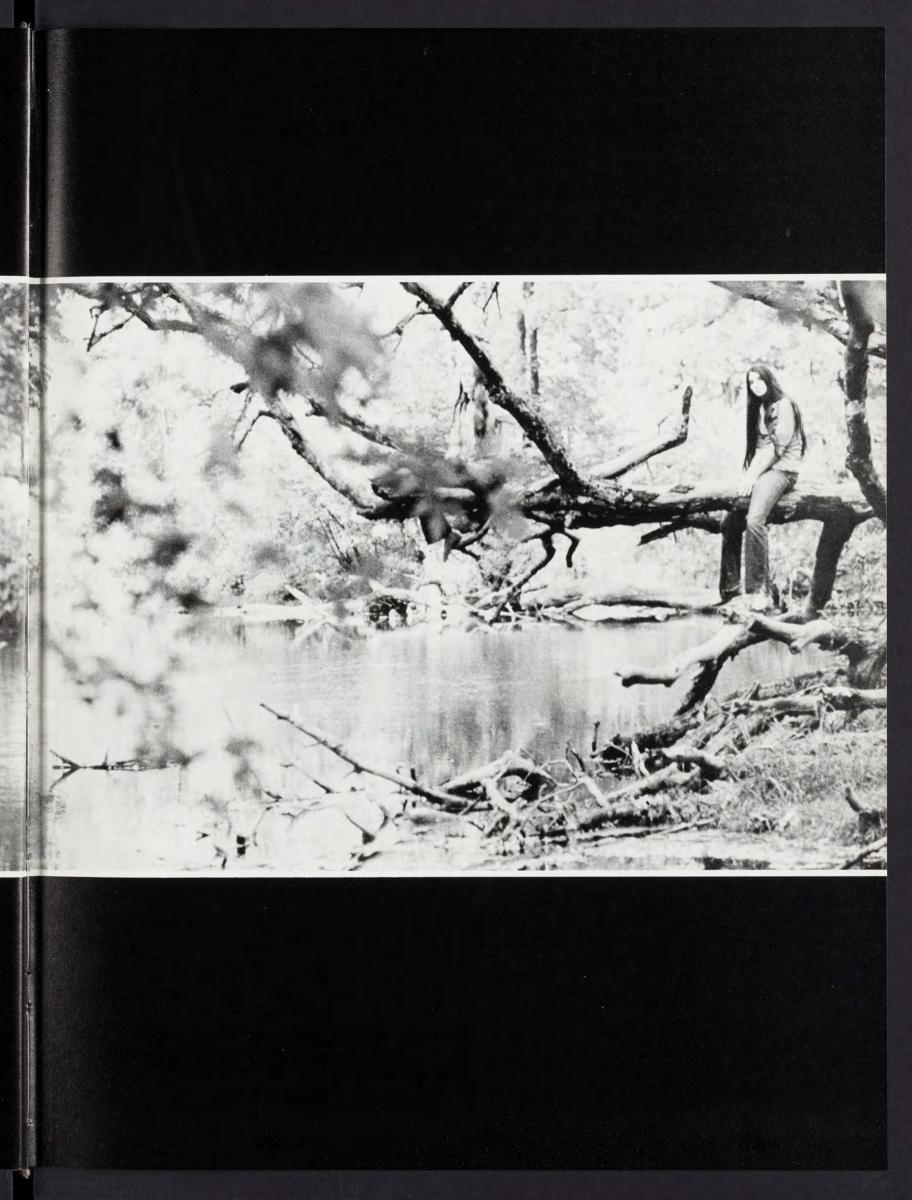

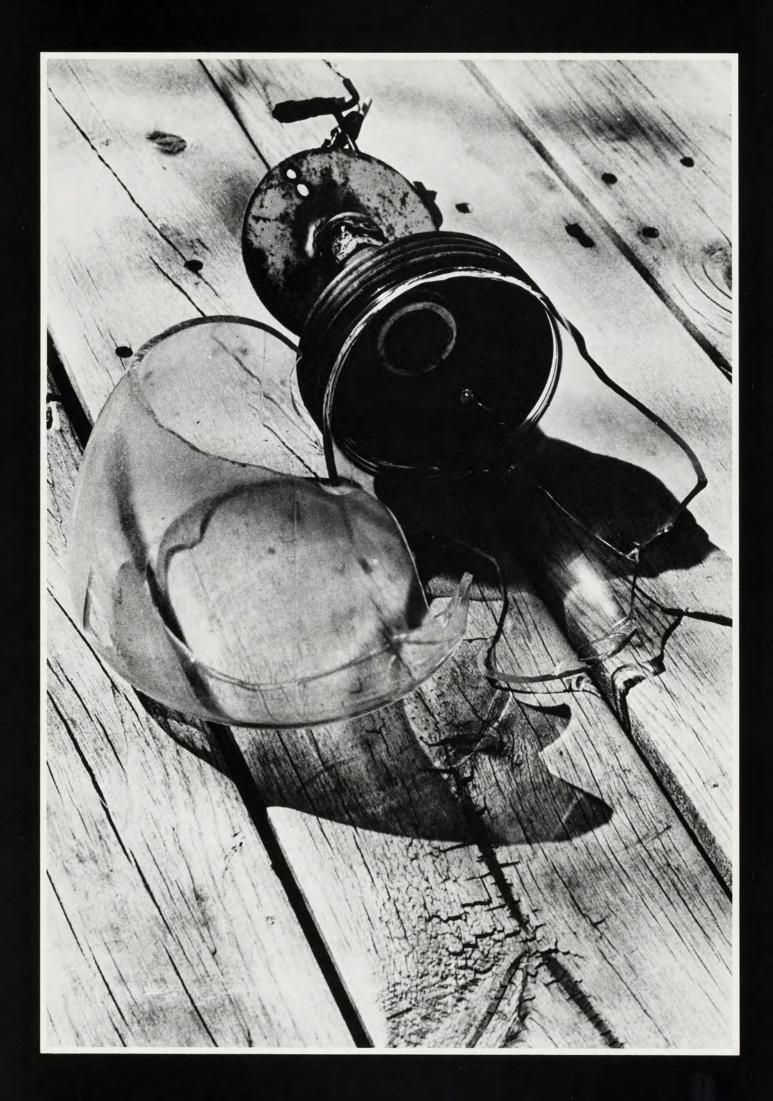

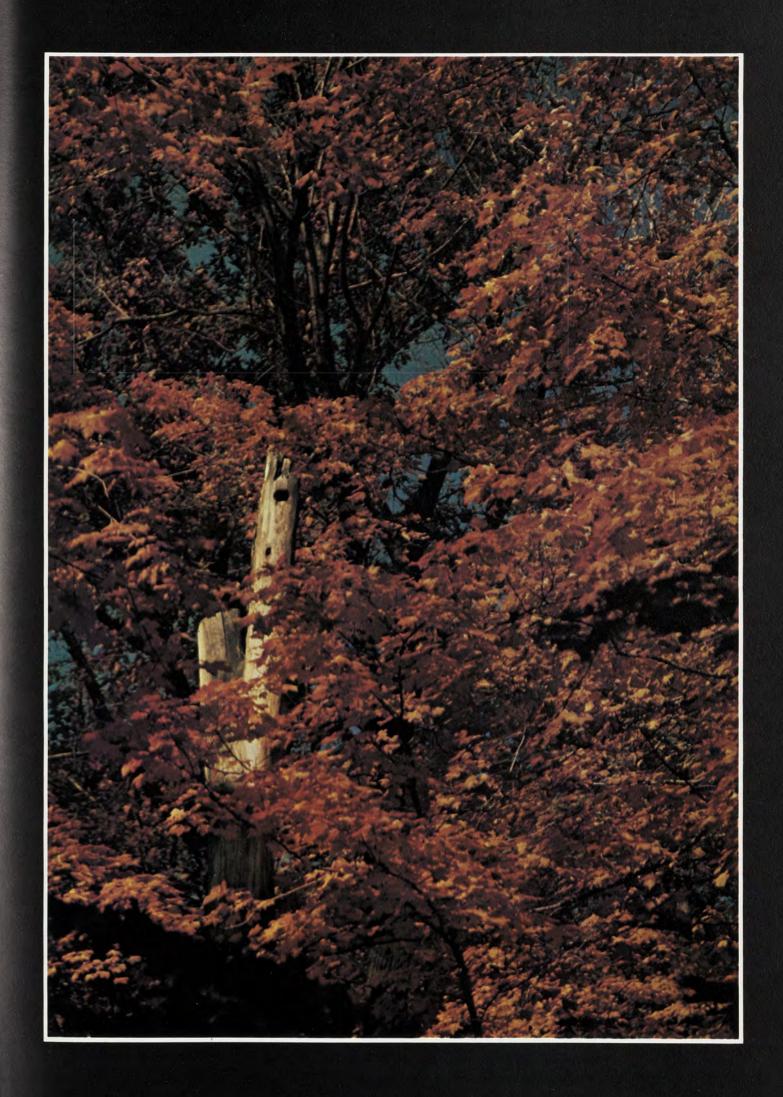

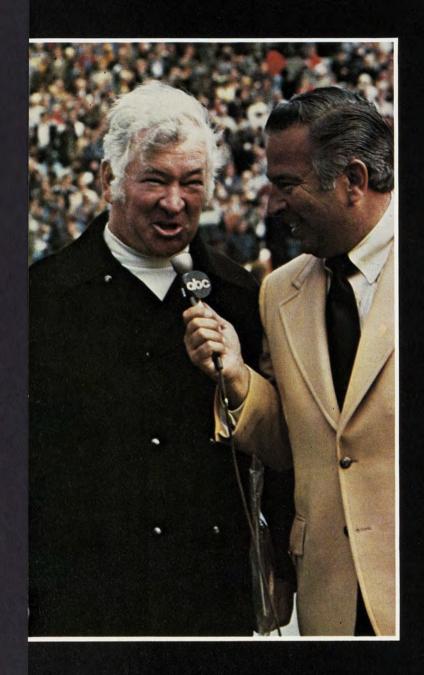

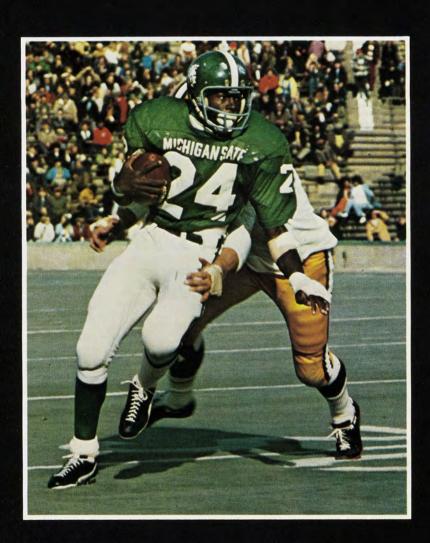

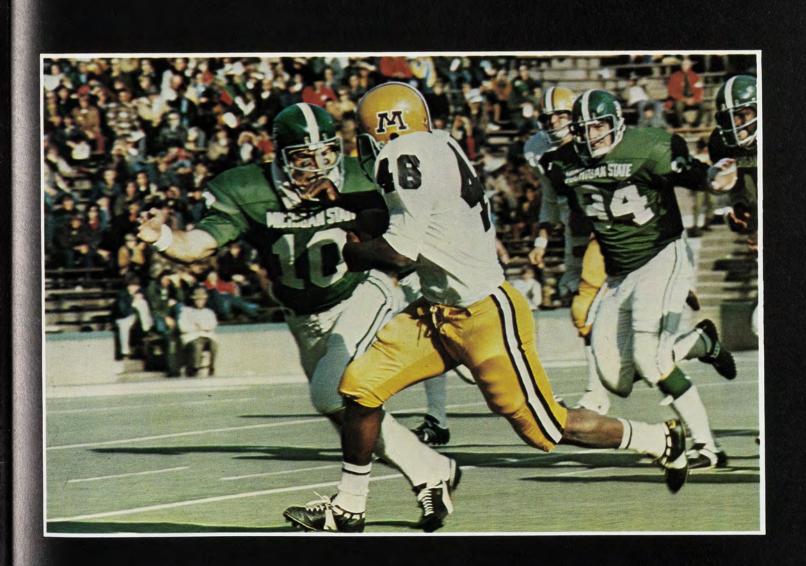

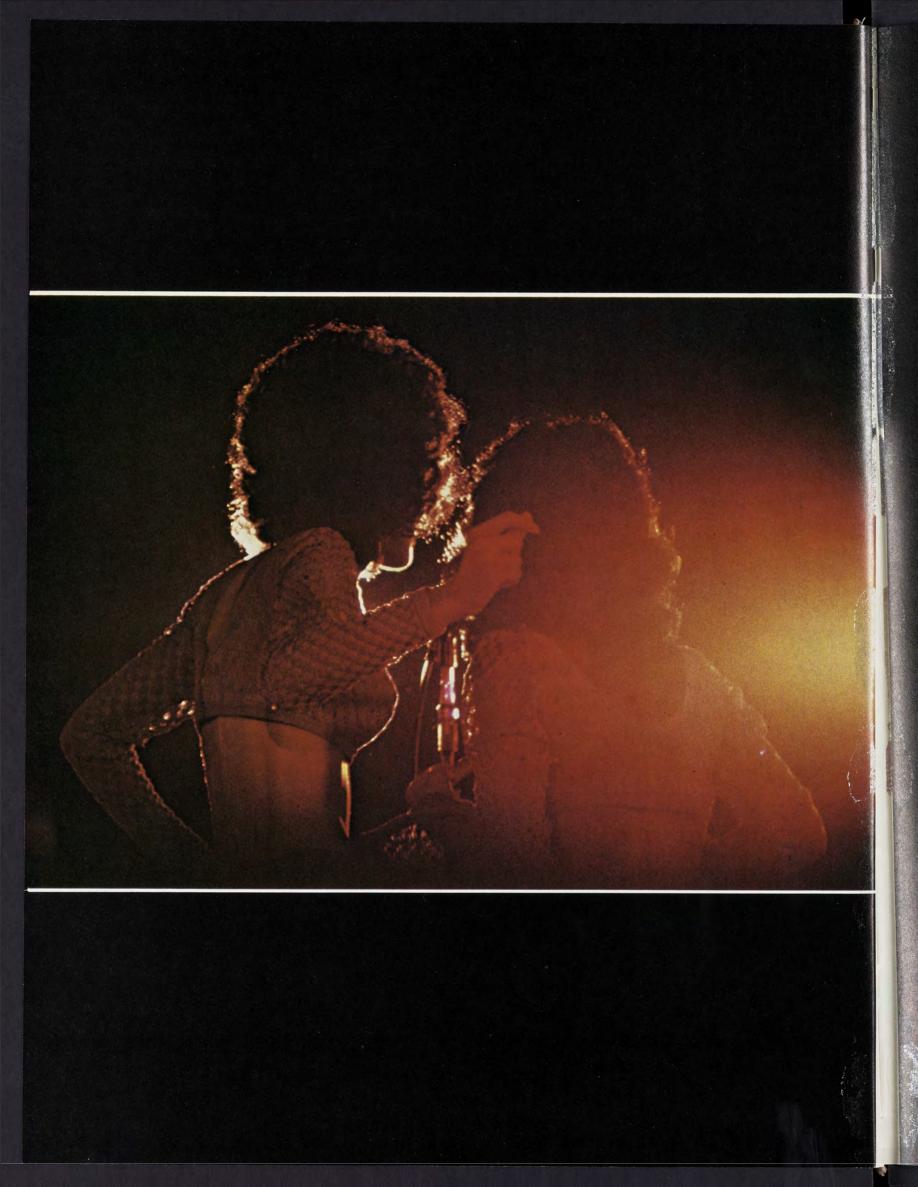

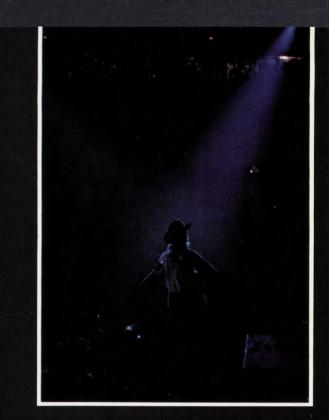

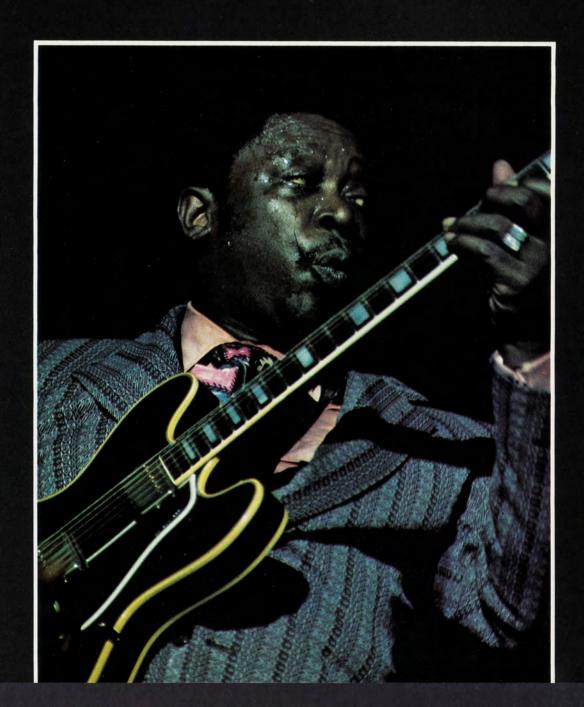

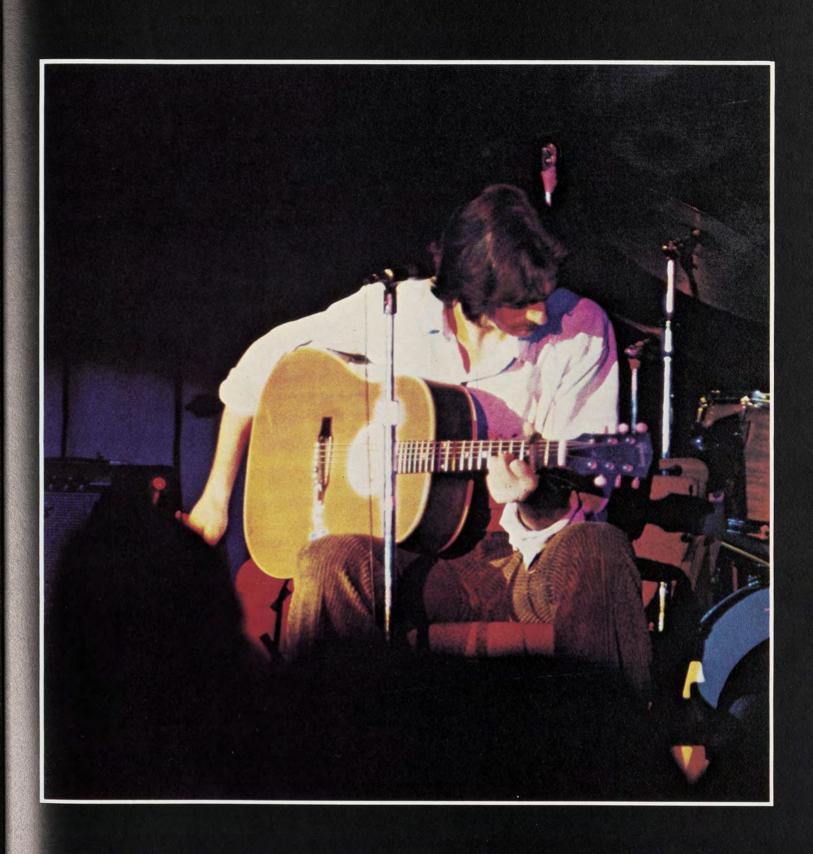

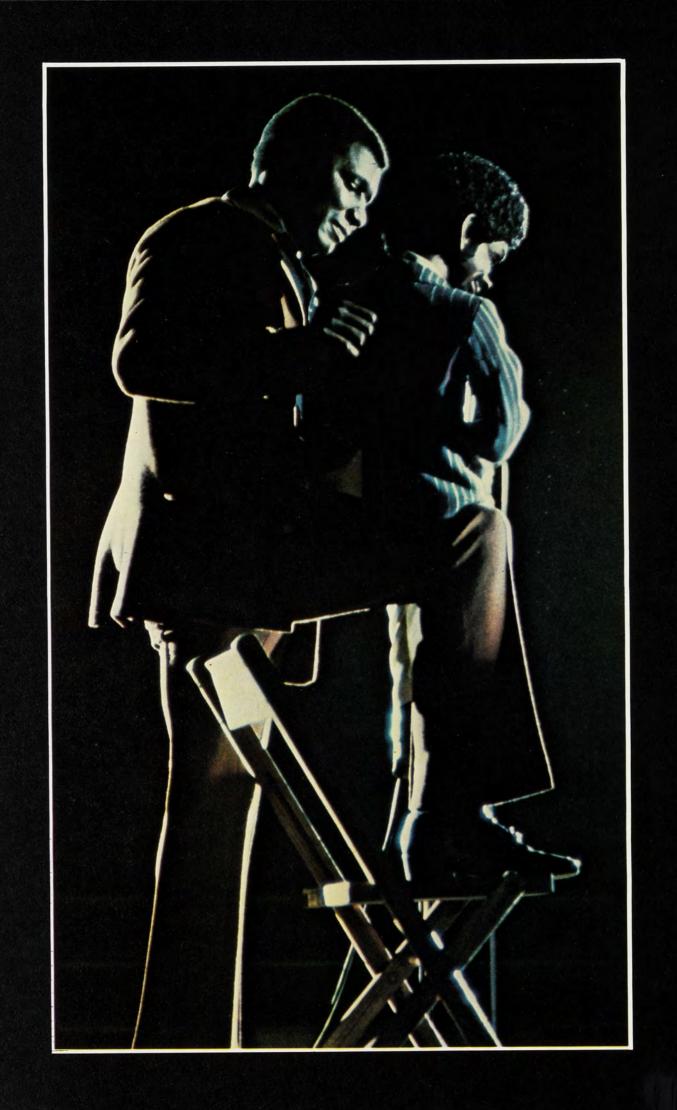

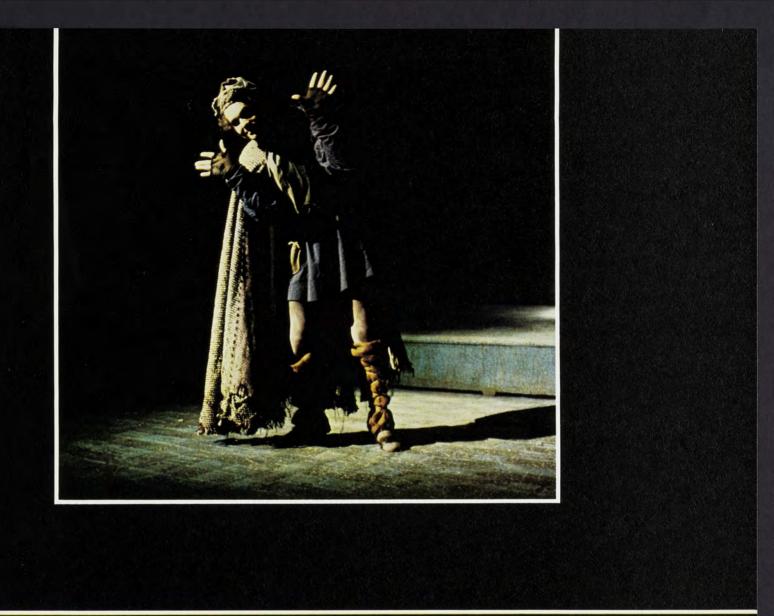

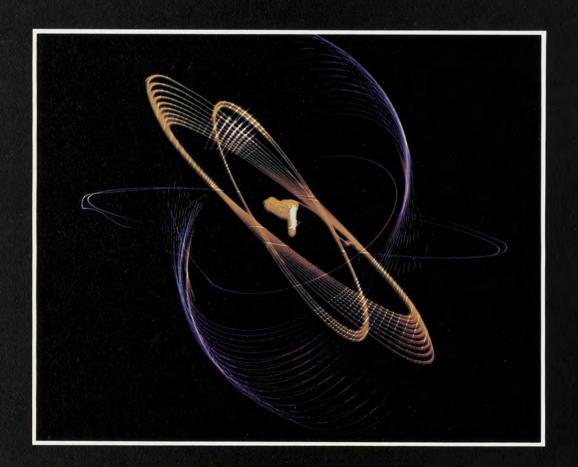

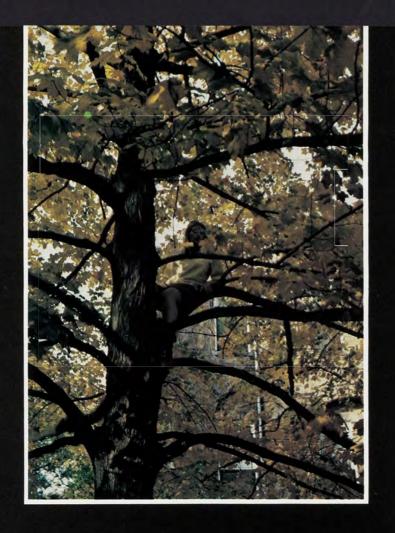

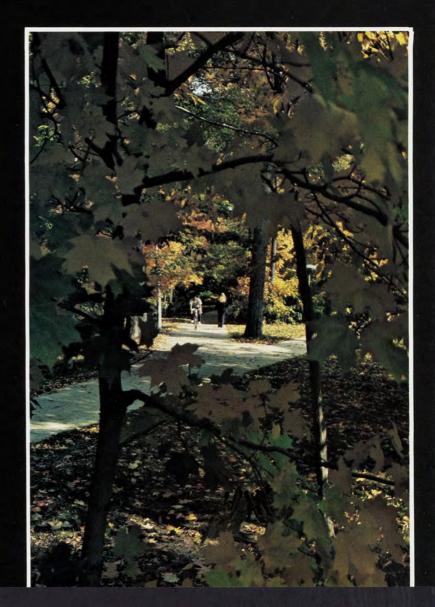

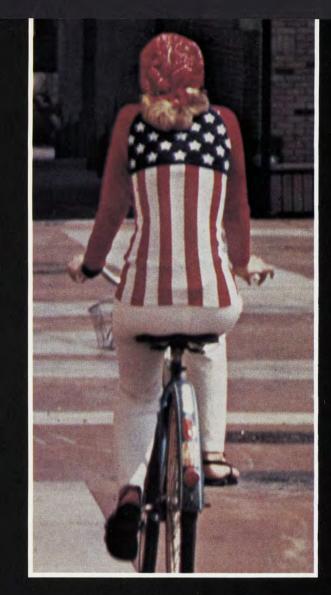

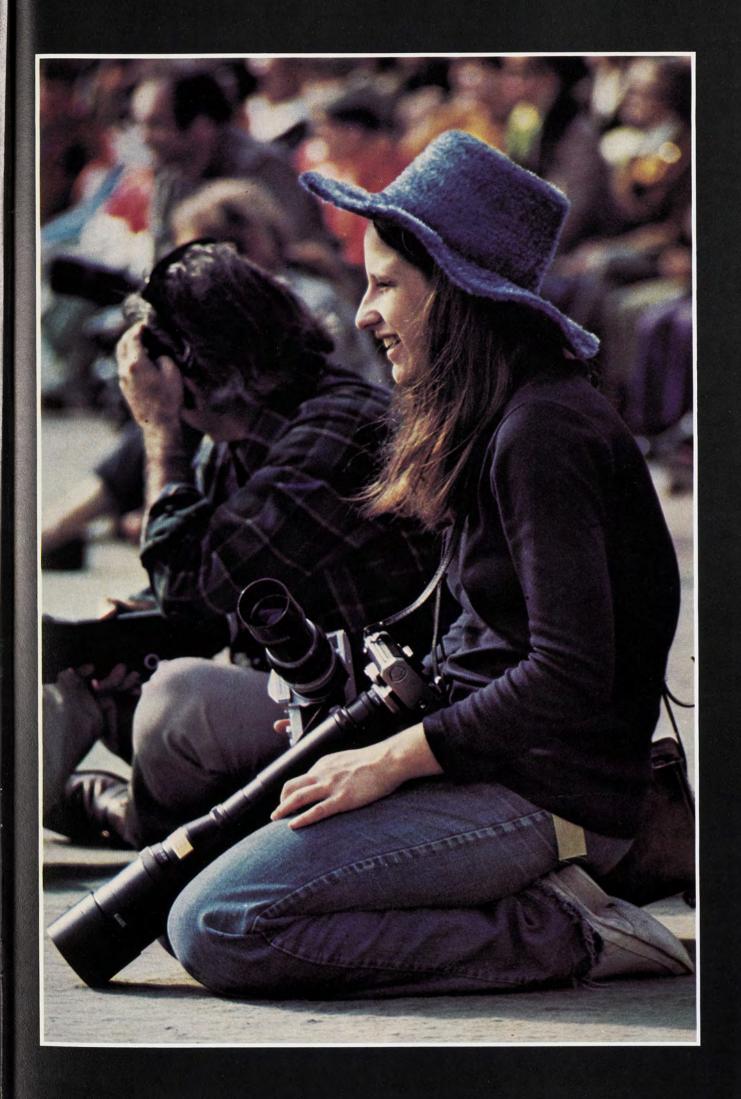

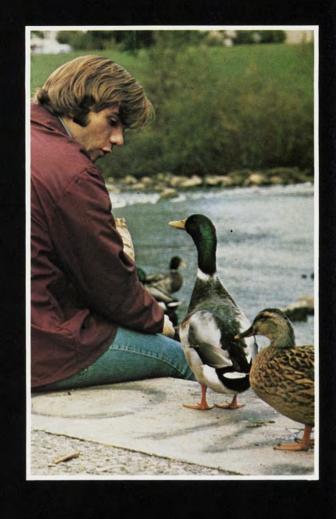

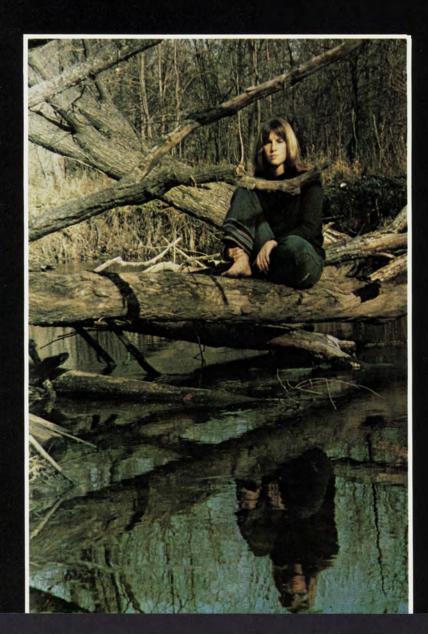

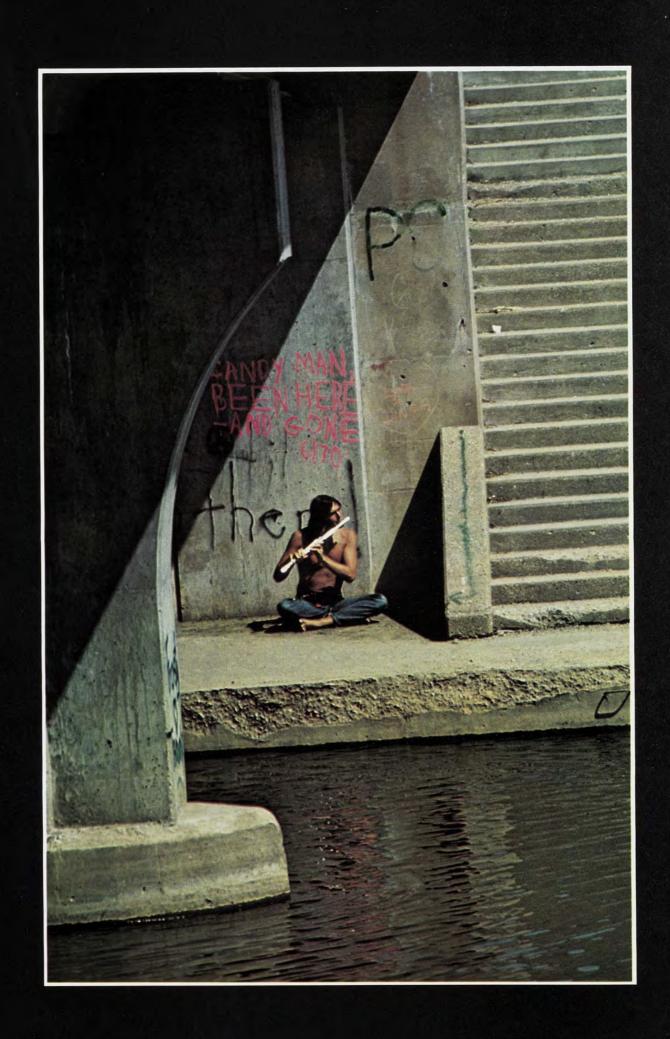

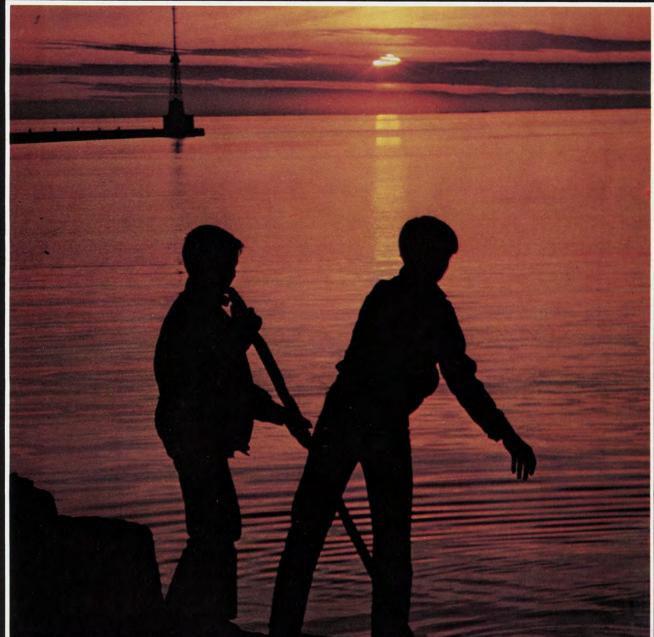

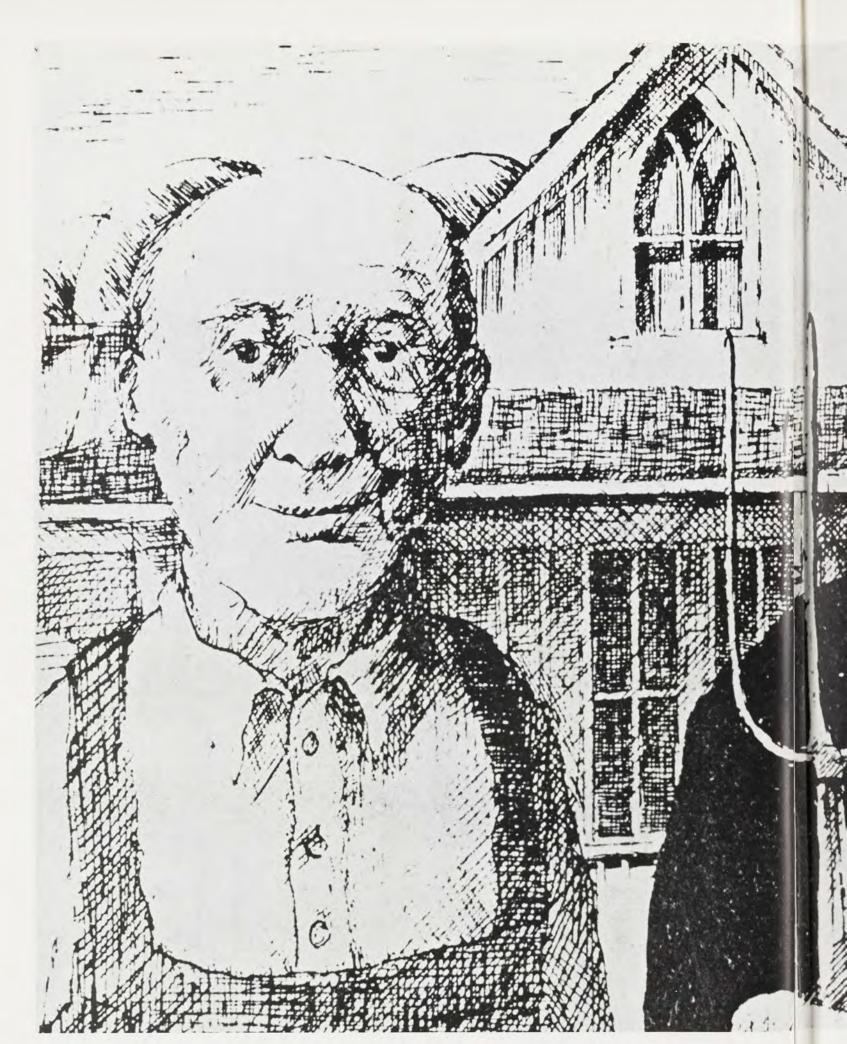

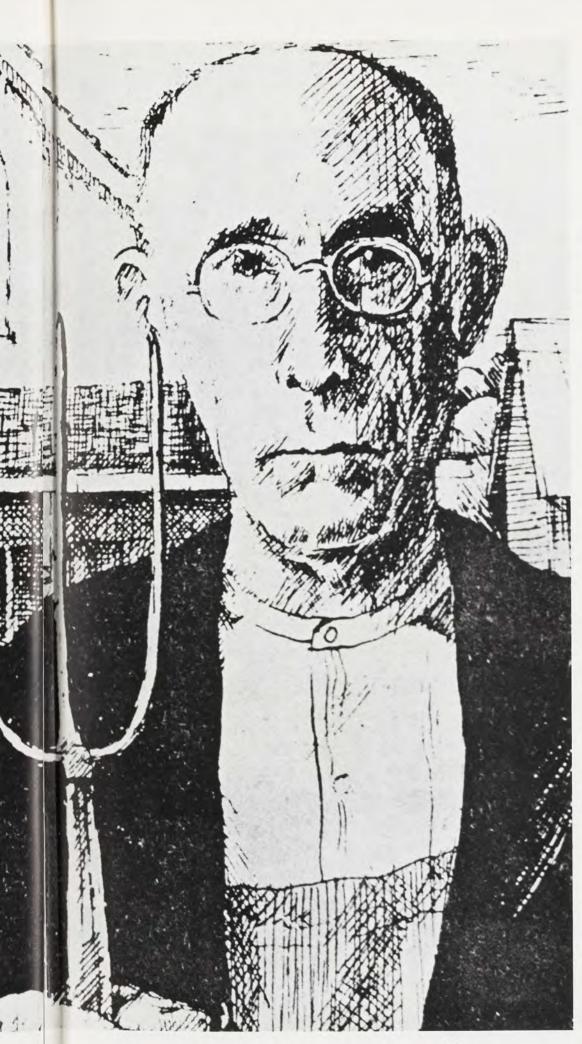

## ... doesn't it?

## MONOGRAPH: On being gay

Gay is beautiful. I always thought so, but until I joined the Gay Liberation Movement I was afraid that I was the only person on this campus - maybe in the world - who felt this way. This campus reflects the attitudes of society - and society says that homosexuals are sick. Well, society is wrong. The people on and off this campus must realize that we as homosexuals care deeply about the quality of the lives we and everyone else lead. We are not interested in issues not connected with homosexuality. And we are tired of being persecuted because society says we are different. You see, the only way we are different is that we are not afraid to love everyone - whether or not a person is of our own sex makes no difference. I love my gay sisters and brothers, and I think that together we are beginning to make the people around here understand that love - all love — is beautiful.

Left: A wry example of gay humor. Above: Editor's Note — with this article written by a member of MSU's Gay Liberation contingent, we introduce the "Monograph" series. Throughout the book, first-person articles written on a variety of subjects will appear under the "Monograph" banner.

### The best of

## POLICE BRIEFS

#### Oh get serious:

POLICE ARRESTED TWO students Saturday night at 10:50 p.m. for breaking into a room in Rather Hall and allegedly stealing a bottle of Strawberry Hill wine, a bottle of Gordon's gin, and a martian glump, described as a humanoid shaped stuffed doll with green and purple polka dots. Police arrested the men outside the hall after they observed the stuffed toy in their possession.

#### The Melancholy Dane:

AWAKENING BRIEFLY DURING an operation, a sedated Great Dane bit a medical student participating in the operation on the ear, police said. The medical student was treated and released from the University Health Center.

#### Our boys in blue:

THE MSU POLICE are proud to announce that for the first time in recorded history, Officer Kelly turned in his report on time Wednesday at 2:30 p.m.

#### I wonder what she meant by that?:

AN OBSCENE TELEPHONE call was reported to officers by a female resident of Holden Hall. The girl told officers the man called at 4:45 p.m. Thursday and after a normal conversation propositioned her in a vulgar manner, at which point the coed answered, in no uncertain terms, that the conversation was terminated and hung up. Police are investigating.

#### But would Julia Child approve?:

A 15-YEAR-OLD East Lansing resident was arrested Thursday evening and charged with possession of marijuana when MSU police picked him up in front of Phillips Hall for violation of curfew. Officers said when they began searching the suspect after the curfew violation, the juvenile took a plastic bag filled with a marijuana-like substance and began to eat it. Police recovered enough of the bag's contents for evidence. The juvenile was released to his parents.

#### The Great Pumpkin knows:

RESIDENTS were arrested at 1:58 a.m. Wednesday for larceny after officers discovered they had taken the two 69 cent pumpkins

TWO EMMONS HALL they were carrying. The officers were told the pumpkins were taken from Frandor. The two were subsequently referred to the Lansing police.

#### But officer, no matter how I set my camera, these pictures keep coming out over-exposed!:

A CASE HALL COED was sexually assaulted Monday evening by a man who offered her a ride from the Men's Intramural Building to Case Hall. She told officers the man drove directly to the grounds maintenance nursery, fondled her body and then drove her back to Case Hall, at which time she noted his license number and called police. He was subsequently arrested and released, officers said, pending further information.

A COED WAS walking by an apartment in Spartan Village when she heard a knock. She responded, and saw a man in a second story window exposing his buttocks. The incident took place at 3:30 p.m. Monday and the police are investigating.

AT 7 p.m. MONDAY a coed was walking by the south side of Fairchild Theatre when she saw a man standing in the bushes about six feet from the sidewalk, officers report. She told them the man, a white male about 25 years old, 6 foot tall and 190 pounds, was wearing only shoes and woolen socks. She immediately fled. Police are seeking the suspect.

#### Parking Ticket of the Year:

POLICE ARE SERVING complaints against Chesapeake and Ohio railroad for blocking campus streets for more than the five-minute limit. In two separate incidents, the trains allegedly blocked a street for eleven and ten minutes, respectively. Police said the complaints resemble a parking ticket, and will probably cost the railroad \$500-\$1,000 per violation.

Turn to the front page of any daily newspaper, and what you're apt to see is bound to make you sick. The State News, MSU's purveyor of glad tidings, is no exception. If it isn't an atrocity in Southeast Asia, it's another in Ireland, or perhaps the Middle East. Honestly, it's enough to

drive a sane man mad, or at least partially off his rocker.

Fortunately for all of us save that disgruntled few who chose to eliminate their option to read the State News in exchange for cold cash, our resident tabloid features a daily item entitled "Police Briefs." A compendium of

hot-off-the-wire local misdoings, said item never fails to bring grins — if not gales of well-directed laughter — to a News-weary campus community. Here then is presented for your enjoyment a select sampling of MSU's answer to "Dragnet" — the best of "Police Briefs."

Sarge, d'ya think we should induce vomiting?:

THE MANAGEMENT of Hubbard Hall told police a student illegally entered the dining room at 6 p.m. Monday evening and stole a meal. The meal had an estimated value of \$1.75. Police are investigating.

#### When Nature calls:

TWO STUDENTS WERE arrested Wednesday night for urinating in the bushes in front of the courtyard light near the Administration Building, police said. The students told police that they "had to go to the bathroom."

### Couldn't you've gotten a better description?:

THREE MSU STUDENTS told police they were walking from Brody to Bryan Hall Saturday night when they passed a man standing with his pants around his ankles.

He reportedly said, "Hi there" to the three, who continued walking and called police. Police said they did not find the man after a search of the area.

He was described as a white about 20 years old, about six feet with a thin build and medium length hair, last seen wearing a dark jacket and pants and white underpants.

### I wonder what he meant by that?:

A 20-YEAR-OLD STUDENT living in East Lansing who used what police said was an obscene verb to express his feelings over a hold card was arrested late Wednesday morning during class registration.

The incident reportedly occurred at the Men's Intramural Bldg. near the tellers' fee receiving area in front of five University Business Office employes, including three women, and an officer.

Police said the student was upset over the library fine hold card and directed the verb to the tellers. Police added the verb was used as an adjective ending in "ing" to describe the Library.

The student was arrested for using obscene

The student was arrested for using obscene language in the presence of women. He was reprimanded by the officer and released until further action by prosecutors.

## I wonder who's kissing me now:

A COED TOLD police she was sexually molested by four white males who pinched her buttocks and attempted to kiss her while she was walking near Shaw Lane and Bogue Street Monday evening. The coed told police she things she would be able to identify the men if she saw them again.

#### Vicious Mystery Assailant Stalks Campus:

AN EAST OWEN HALL resident was bitten by a squirrel in the courtyard of Van Hoosen Hall, police report, as he was attempting to feed the animal Wednesday afernoon. He was taken to University Health Center, treated and released. Authorities are attempting to locate the squirrel.

#### Those madcap Greeks:

FOUR UNIVERSITY OWNED SHEEP with a total estimated value of \$460 were recovered Friday night after residents in three East Lansing sorority houses reported the animals were roaming unattended.

Four members of a fraternity admitted to releasing the sheep as a prank and this week await action by county prosecutors. Police said they located the men from a description of their station wagon given by witnesses.

The sheep were reportedly removed from the sheep research pastures on Hagadorn Road and were apparently pushed out of the vehicle at the sorority. An MSU officer and a sheep barn employe collected the sheep and returned them.

#### Kall out the Keystone Kops:

A PIZZA DELIVERY man making telephone call in the lobby of Emmons Hall Saturday night reported to police that while he was talking on the telephone with a pizza balanced in one hand, an unidentified male grabbed the pizza and fled into Bryan hall. Police said the delivery man chased the thief and hit him several times with an empty box, but the suspect got away.

# Administration eyes campus "cooling-off"

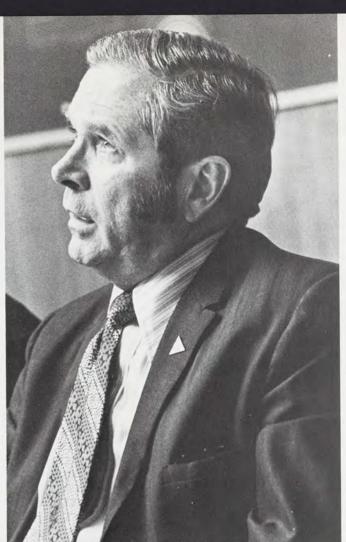

This was a year of a strange placidness on college campuses throughout the country. Kent State and its related rumblings passed into the history books, and a new wave of calm and reflection seemed to supplant the uneasiness of just a year before. MSU was no exception; the Administration conducted business-as-usual in a most matter-of-fact manner. No strikes, no demands, no threats, and, well, no "news." Surprising how unsettling tranquility can be . . .

Right: President Clifton Wharton, Jr. Below: Spectators at a Trustee meeting. Opposite page, top left: Trustee Pat Carrigan. Opposite, top right: Trustee Don Stevens. Opposite, bottom: Board of Trustees vote on a University business issue.

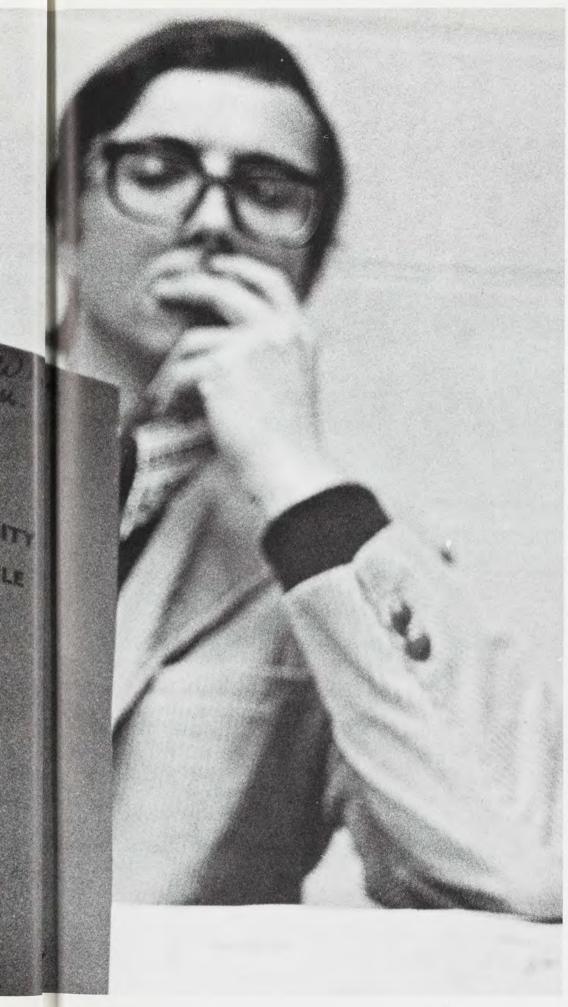

MICHIGAN STATE UNIVERSITY REVISED SALARY SCHEDULE 1971-1972

## The price isn't always right

Who has the right to know the salaries of every faculty and staff member on the MSU payroll? Trustee Clare White seemed to think that everybody should when he leaked a copy of that formerly-secret pay list to local newspapers. So did Professor Robert Repas, who subsequently mailed a similar list to all faculty members.

Apparently, the Academic Council didn't think so, and that body moved to censure both White and Repas. Neither did President Wharton, who recommended to the Board of Trustees to keep the list under wraps.

But, said the Board, these figures need to be published. And in a 7 to 1 vote, they agreed to make the list public, ending a campus controversy which had all the intrigue of the Pentagon Papers and the Howard Hughes mystery.

Copies of this much-heralded tome are being kept at the Library and at all departmental offices. Although in a strictly literary sense the book leaves much to be desired, it nevertheless makes for fascinating — and in some cases, downright shocking —reading.

### Academic Council implements student rep by-laws

As of Winter Term 1972, 31 student representatives have seats on the Academic Council, capping a three-year drive to secure that representation. Students now enjoy full voice and vote privileges on this most auspicious of University governing organs.

The Academic Council itself specified that three campus groups should be tapped for student reps: the University-at-large, the Council of Graduate Students, and the indivi-

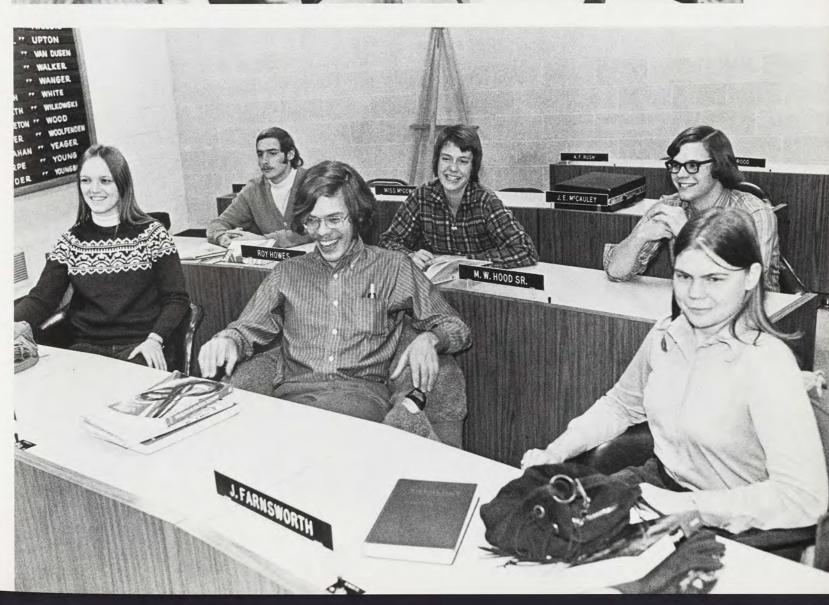

dual colleges. These stipulations also provide for a "systematic representation" of the views of non-whites and women through further seating conditions. President Wharton has remarked that he feels the University has taken a "positive step forward" in providing for adequate and thorough-going student participation in academic governance.

It is difficult to tell at this stage whether or not increased

student participation will have a marked effect on the course of MSU's internal affairs. There are those who fear that, like some of their faculty and administration counterparts, the new student reps will lose interest in the proceedings, and will eventually shrug their shoulders in apathetic frustration. After such a long and embattled struggle to arrive at what we have finally achieved, that would be a grand tragedy indeed.

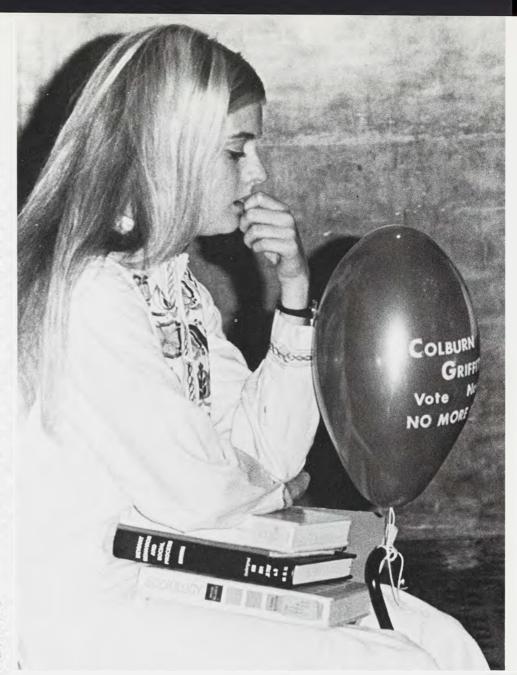

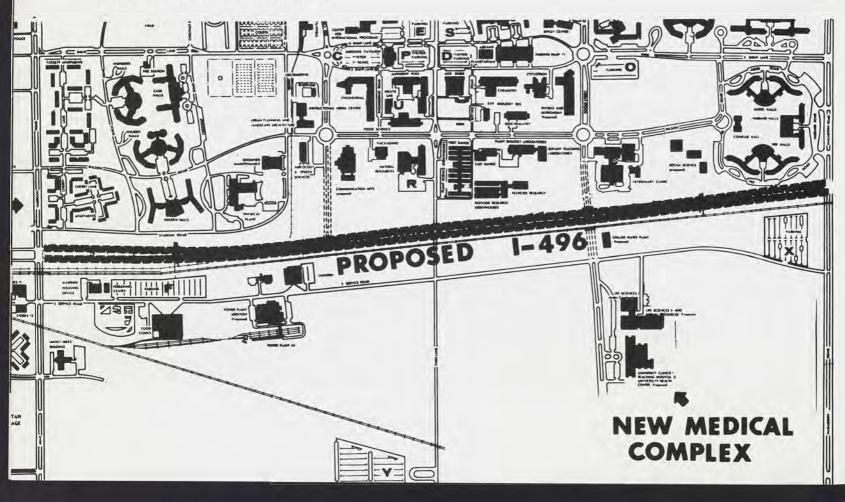

### **Dead end**

A resounding victory for environmentalists was scored this year when the MSU Board of Trustees, after a lengthy period of public hearings on the subject, voted unanimously to "table" the plan for a cross-campus super-highway indefinitely.

Ironically enough, the original plans for this thoroughfare were made in 1949 when the Board of Trustees of Michigan State College voted to give the State Highway Department the right of way for the construction of a road cutting across the south of campus. Recent controversy arose between local merchants, who advocated the construction of the highway as "good business," and ecologists, who saw the proposal as a disastrous upset to MSU's natural environment. In the end, the ecologists won out, and for once, "progress" was shelved in favor of preserving our natural resources.

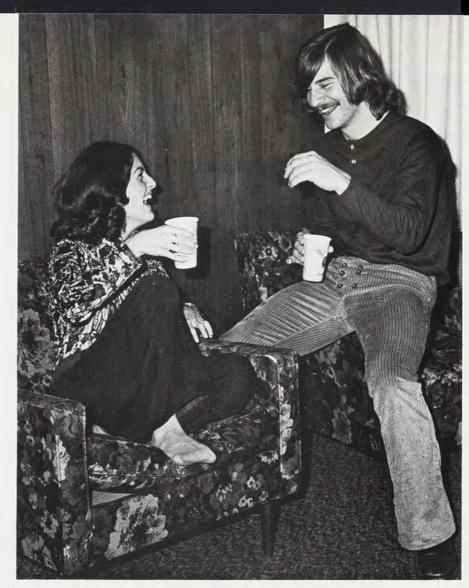

Right: A concerned co-ed advocating defeat of the highway proposal listens to the controversy unfold at a public session. Below: Map illustrating the proposed route. Opposite page: Scenes at the public hearings surrounding the cross-campus highway debate.

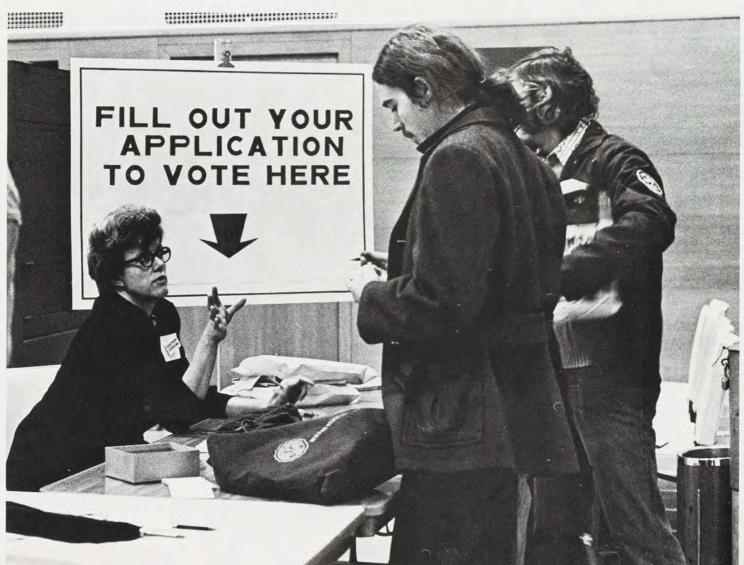

Right: The end of an era — for many MSU socialities, the once exhilaratingly clandestine TG's suddenly have become legal.

Below and opposite page: The beginning of a new era — the eighteen-year-old vote becomes a long-sought-after reality.

## And now, boy becomes man at age 18

According to new legislation passed by the state government, a boy becomes a man in Michigan when he turns 18. The new laws empower 18-year-olds to vote, sign legal contracts, place bets at race tracks, and, yes, to consume alcoholic beverages. The effects of this legislation are far-reaching.

Student voters in East Lansing proved their ability to influence local elections, as no less a source authority than *Time* magazine reported. Area tavern owners are also realizing the great potential in the newly-created youth market, and their booze prices have skyrocketed accordingly. Some local lawyers have even noted a few recently enfranchised citizens making applications for wills. The possibilities are endless.

But where does that leave all the rest of us poor souls who had to wait like our forebears until we were 21 to partake in all this merriment? Suddenly, area bars, in the words of one campus wag, resemble Romper Rooms. Veteran chuggers are being turned away from Lizard's because the former teeny-boppers are lined up ten-deep at the bar. This younger generation . . .

## Wanted: fastacting traffic decongestant

As might be expected of any oversized university, Michigan State is not without its traffic problems. Each year, the number of cars and bicycles registered with the university rises dramatically; each year, parking space for all those vehicles becomes increasingly dear.

Traffic violations have also risen in recent years, as anyone who has had to dole out money for parking tickets can tell you. Not surprisingly, the theft and vandalism rates have gone up accordingly; the list of stolen tape decks, slashed convertible tops, "confiscated" tires, and ripped-off bikes is woefully enormous.

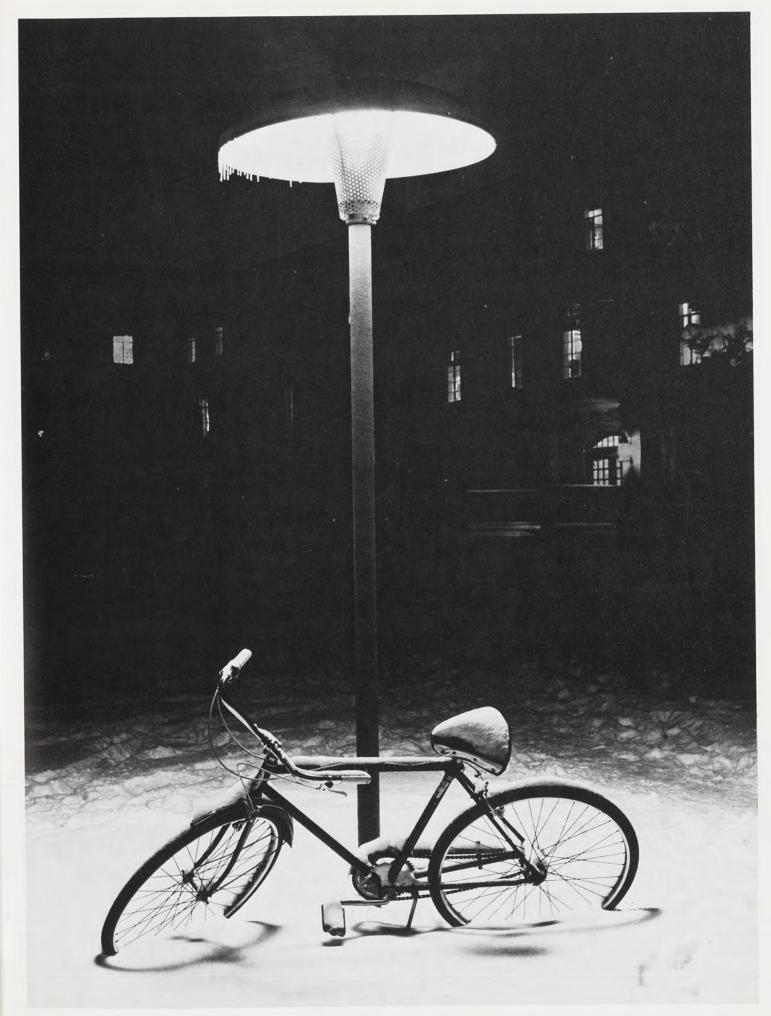

What, then, can be done to stem this tide of too many people with too many machines? Solutions offered have ranged from the elimination of all motor vehicles from campus (an environmentally sound, but practically foolhardy, suggestion) to a return to a university of "manageable" size. Until that glorious day in the elusive future when the people attending this university can live in perfect harmony with their mechanical servants/masters, perhaps we should be content to shrug our shoulders and watch where we step.

### MONOGRAPH: The loneliness of the longdistance editor

You're used to reading these things at the very back of the book. My apologies . . . I never could resist a captive audience.

A yearbook can be a quirky, tedious affair. Deadlines crop up faster than planned, pictures can be unexpected disappointments, copy can read like the Congressional Record. Staff members are not without their moments of despondence, panic, animosity, and confusion. An idea for an all-color introduction looks great on paper, but the budget says an emphatic "no." There is a running discrepancy between the world of the real and the world of the ideal.

The person who must manage such a seemingly chaotic operation is not without those dismal moments when he wants to throw up his hands in a combination of helplessness and disgust. A careless word, an unclear instruction, an uncalled-for inference — the combined effect of a number of these upon the psyche can be damagingly depressing. During times like those, a person can truly appreciate the dead-silent solitude of the job and the loneliness of the long-distance editor.

Nevertheless, there are friends who can help you out of the doldrums to brighten your outlook on life and make the book work. Surprisingly enough, not all those friends need be right in the office; some can be hundreds or even thousands of miles away. The 1972 Wolverine, then, is dedicated to those friends who make the rough times a little easier to take. My love and deepest appreciation to you all.

### Not just a place, but an idea

Imagine a brightly painted room filled with old round tables and chairs, colorfully painted windows, mattresses scattered over the floor, a small stage, and volunteers running around making sure that things work. Add to this the sound of warm and sometimes heated conversations, soft folk-singing, and political films. Let the imagination roam and picture a hand-printed sign saving, "Move out of the darkness and extend yourself." Now follow the footsteps of hundreds of students to 547 E. Grand River, climb the stairs, walk through a small room, and enter the coffeehouse atmosphere of the

In its third year of operation, the non-profit Albatross opens its doors every Wednesday through Sunday evenings, offering programs with enough variety to appeal to every type of person. Come in on Wednesday to participate in "The Sing

Thing" — a get-together where all are welcome to share their individual musical talents. Or come in on Thursday night, when political films are shown and discussions follow. On Friday and Saturday, the Albatross hires folk-singers to entertain the customers, and the usual pretzels, potato chips, and the like are served, for a small cover charge. Finally, on Sunday evenings the Albatross sponsors community dinners, to which everyone is invited.

Students have found that the main appeal of the Albatross is its warmth. For the person who feels the need to escape from the massiveness of a large lecture, the small coffeehouse on Grand River offers the contrast of answering the needs of the student as an individual, instead of as a number. There, people are able to "move out of the darkness" and talk with a stranger as if he was their brother.

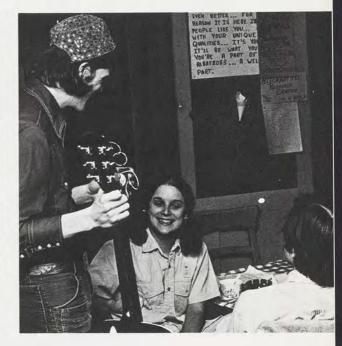

Opposite page, bottom: Regular local folk-singers add to the weekend activities at the Albatross.

Left: Community dinners are held every Sunday.

Bottom: The "Sing Thing" tears loose on Wednesday nights.

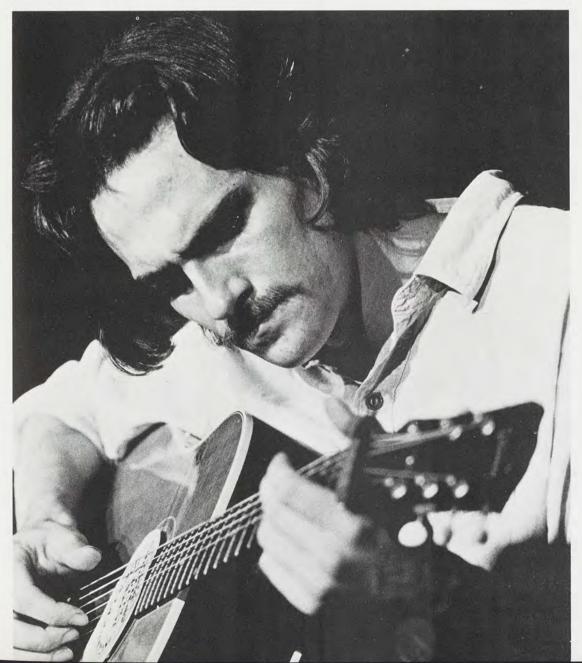

## Pop Entertainment: sold out again!

At a time when people are always able to find something wrong with their surroundings, ASMSU Pop Entertainment did their utmost to satisfy everyone during the 1971-72 school year, and succeeded in selling out all three shows in the fall.

Opening the fall term series was the downto-earth concert of James Taylor. His soft, lowkeyed performance more than made up for the inconveniences of phony tickets and an inadequate sound system.

B.B. King demonstrated why he is recognized as the greatest blues guitarist in the world. He and his guitar, "Lucille," made the audience feel that he was the blues.

The 5th Dimension, with their liveliness and wide appeal, kept the audience singing, dancing, and clapping right along with them, and it was hard to tell who had more fun.

## Entertainers play to responsive audiences

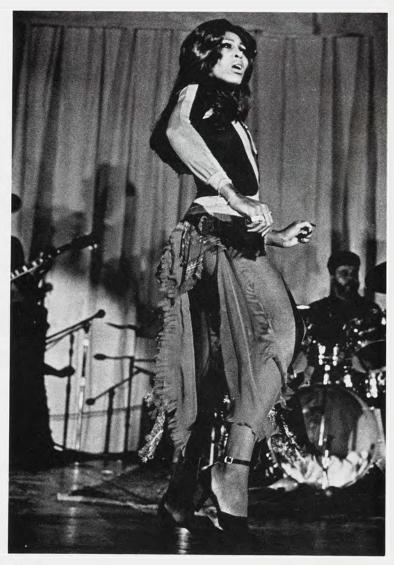

During winter term 1972, the Pop Entertainment program included such stars as the husband and wife team, Ike and Tina Turner. Their style of heavy soul was complimented by good background, choreography, and attractive costuming. The Revue appeared with Mitch Ryder and his group, Detroit, who performed some of their golden oldies along with new songs.

Gordon Lightfoot appeared in February for an evening of relaxing, personal interaction between performer and audience. Backed up by his two guitarists, Lightfoot seemed to know exactly what his audience wanted to hear. His repertoire included such hits as "Sit Down, Young Stranger" and "If You Could Read My Mind"; he played all requests, plus some newlywritten material.

In a weeknight concert, Don McLean and Rita Coolidge played to a 2/3-full house, but the audience responded warmly and gave them both standing ovations. While Rita Coolidge expressed herself through her songs, McLean gave the impression of communicating mainly through his guitar.

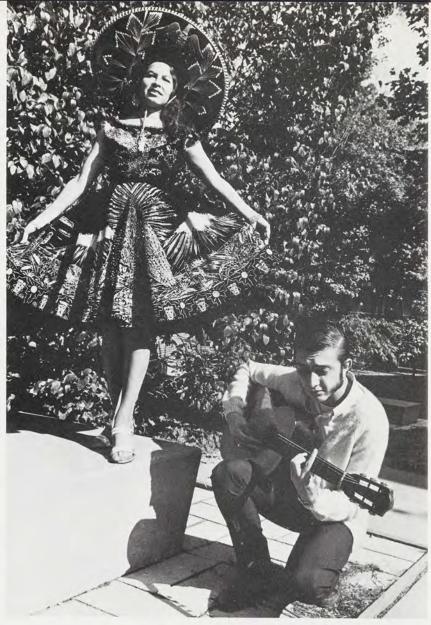

Opposite page, top: Don McLean Opposite, bottom left: Rita Coolidge Opposite, bottom right: Tina Turner Above: Gordon Lightfoot

## Someday we'll be together

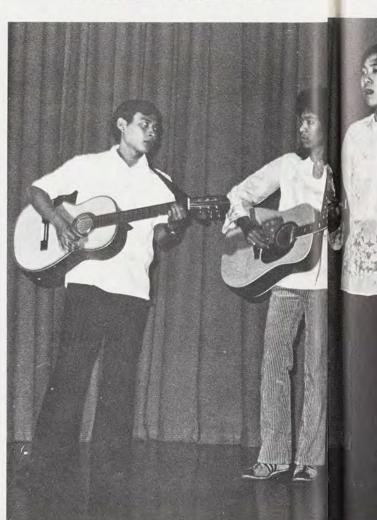

An international cultural musical presented by the International Students of MSU led off campus festivities during Michigan's first International Week. The program, "Some Day We'll Be Together," was a tour of dance and drama through several countries. The proceeds went to aid the eight million East Pakistani refugees in India.

A variety of traditional folk dances were performed by students from the Philippines, India, Thailand, Greece, and Latin America. American and foreign students also presented "Onion of Intelligence", a satire on society and politics.

Presentations by the Asian and Africal Studies Centers, poetry readings, distinguished speakers, and films also highlighted the week.

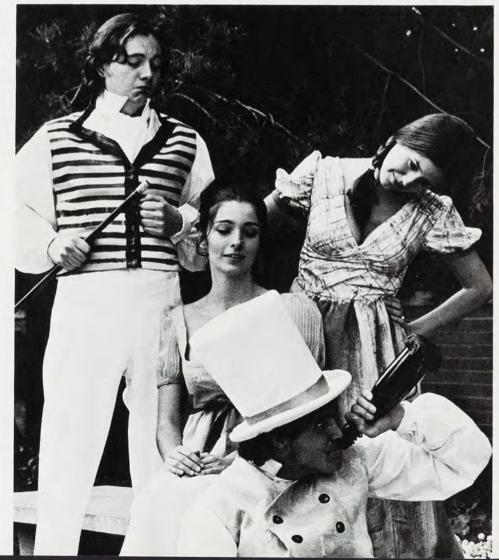

Opposite page, top: Maria Sol Martinez and guitarist Luis Berruecos present a "Latin American Bonanza."

Opposite, bottom: Sir Toby has a duel with Viola (Scottie Shumaker) while Olivia and Maria look on in horror, in a comical scene from "Twelfth Night."

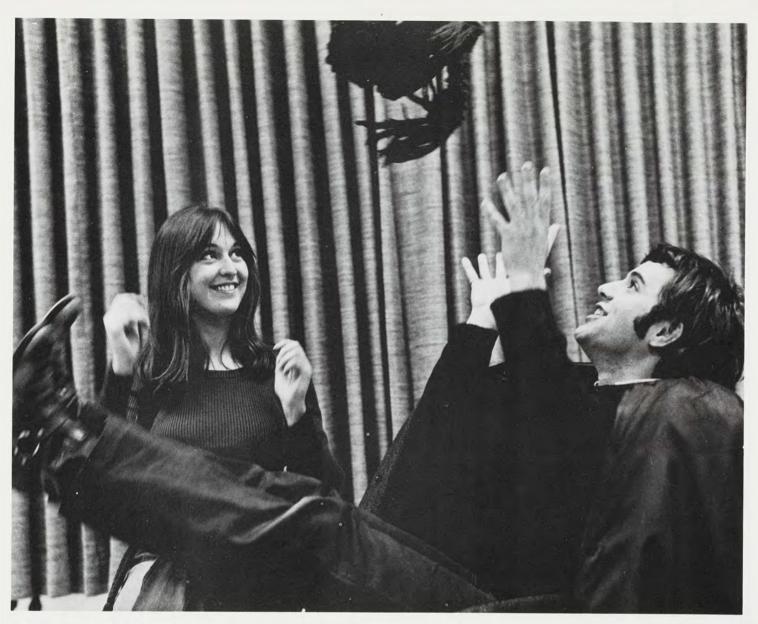

## PAC brings culture to the campus

Twenty-two graduate assistants and several theater majors worked together to create a variety of productions for the 1971-72 Performing Arts Company, and continued to make MSU a center for the fine and cultural arts.

The first PAC performance fall term was an interpretation of Shake-speare's popular comedy, "Twelfth Night," which recounts the hilarious misadventures of a twin brother and sister.

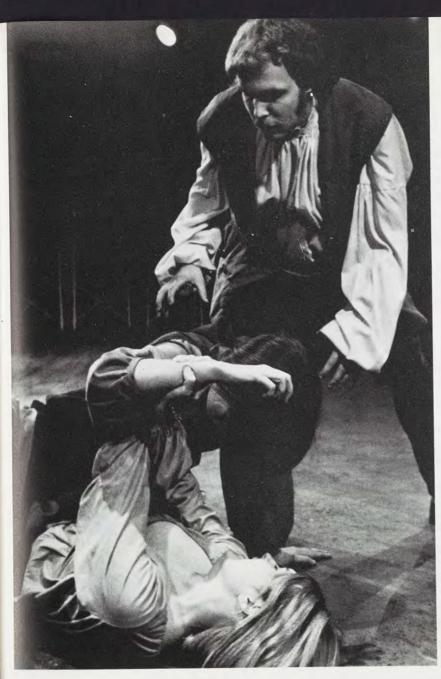

The group also produced Tom Stoppard's "Rosencrantz and Guildenstern are Dead," a look of the story of Hamlet from the point of view of these two bumbling friends. The play, a parody of Shakespeare's "Hamlet," was previously the winner of both the Tony and Critics' Awards in New York.

## Grads, undergrads perform dramas

Theater-goers had little to complain about when February rolled around, as the Department of Theater presented William Gibson's "A Cry of Players," and the Performing Arts Company performed Peter Nichols' "Joe Egg." While both plays concentrated on man and his need for individualism, they also provided a beneficial outlet for MSU's budding actors.

Thirty undergraduates performed "A Cry of Players," which depicts the early years of "Will" (Shakespeare), a Stratford-on-Avon poet searching for identity. The storyline tells of a real hell-raiser; Will was infamous as a heavy drinker and ladies' man . . . while leaving his wife Anne at home.

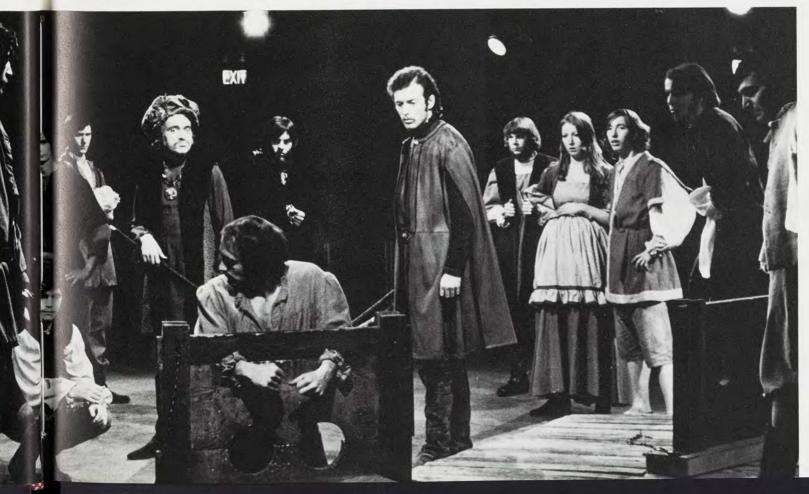

Graduate students in theater find a dramatic outlet in the regular P.A.C. productions. "Joe Egg" stressed society's attitude toward retarded children. A school teacher and his wife try to raise their ten-year-old spastic child in a manner which contradicts society's standards.

Opposite page, top: Sheila (Judy Wright) and Bri (Frank Krenz) in a scene from "Joe Egg".

from "Promises, Promises." Opposite, bottom right: Los Indios Tabajaras.

#### L-C draws crowds

With full houses for several events during the 1971-72 year, the Lecture-Concert Series is drawing ever-greater attention from students.

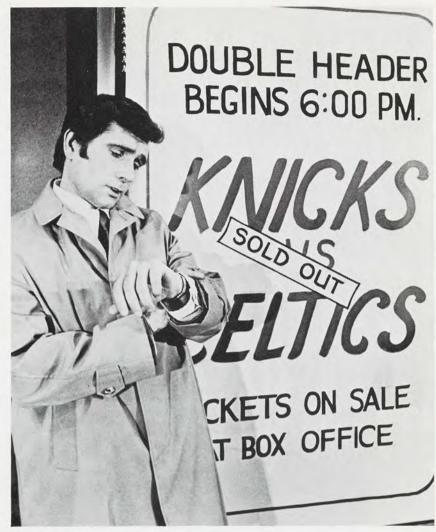

Besides drawing large crowds for their performances, members of the Alvin Ailey American Dance Theater made a special effort to meet students through several on-campus dance classes and lecture demonstrations.

Broadway's "Promises, Promises" offered MSU an evening of music by Burt Bacharach and "oneliner" repartee by Neil Simon. The musical deals with a lovelorn executive who lets his bosses borrow his apartment for their love affairs — unaware that one of the women involved is the girl he loves.

Making their first appearance at MSU were Los Indios Tabajaras. These Brazilian brothers, who taught themselves to play the guitar, have achieved international fame in only three years.

Perhaps the most controversial event of the year was the appearance of the Osipov Balalaika Orchestra of Moscow, which triggered off demonstrations protesting the treatment of Soviet Jews. The show itself was virtually a sellout, featuring instrumental soloists, dancers, and opera and folk singers backed by a balalaika orchestra. Bass singer Yuri Gulayev, as well as the entire company, drew standing ovations from the audience.

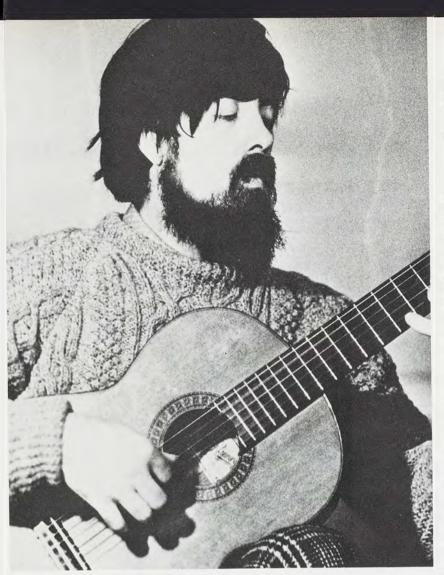

#### L-C Series offers more scope in '72

From the beautiful sonatas of gutarist Oscar Ghiglia to the strong beat of the Sierra Leone National Dance Troupe, MSU's Lecture-Concert Series continued to widen its scope of artists.

Ghiglia appeared with recorder virtuoso Frans Brueggen in a joint recital winter term. Packing Fairchild Theater with an enthusiastic student audience, they demonstrated the incredible versatility of the two instruments.

Opera star Martina Arroyo, however, impressed her audience with the range and brilliance of the human voice. One of the leading sopranos of the Metropolitan Opera, she exemplifies the growing number of outstanding black artists who are making a name in classical music.

"Last of the Red Hot Lovers" added to the abundance of Neil Simon comedies appearing on campus during the year. This one was about a so-called playboy who just can't seem to find the right playmate.

Appearing for the first time at MSU, the Sierra Leone National Dance Troupe presented native African dances, the roots and origins of black culture.

## Fall Term Lecture-Concert Series features orchestra and Moog

The Lecture-Concert Series at MSU offers a wide variety of professional productions to students and the general public alike, with students receiving a substantial discount on tickets. These range from the Broadway Theatre package to "Festival '71" — six consecutive fall evenings devoted to young artists and ensembles playing familiar works. Then there is the weekly World Travel series, featuring personally narrated travel films; these are free to MSU students, who need only show their ID's at the door.

Five Tuesday evenings made up the fall term Chamber Music series. One of the featured artists was Ralph Kirkpatrick, a harpsichordist acclaimed throughout the world for his recordings of Bach and Scarlatti. Another was violinist James Buswell, who played in a trio with Lynn Harrell and Seth Carlin. Buswell also appeared as soloist with the Chamber Orchestra of the Saar during the "Festival '71" program.

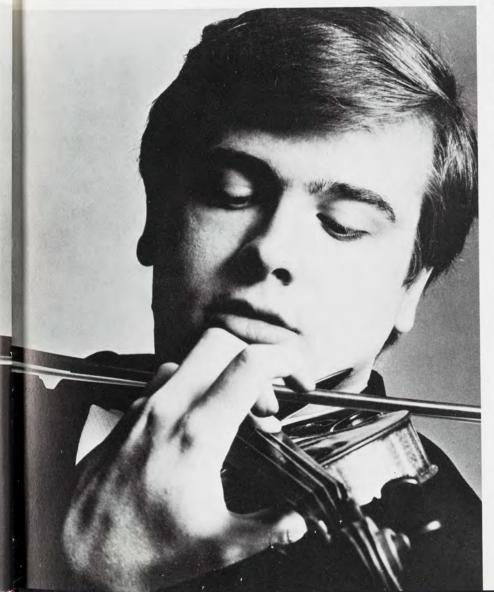

Performing for the first time at MSU was Gershon Kingsley's First Moog Quartet. This multi-media presentation featured four Moog synthesizers backed with live voice and instruments, showing versatility in the rock and pop styles, as well as with the classics and jazz.

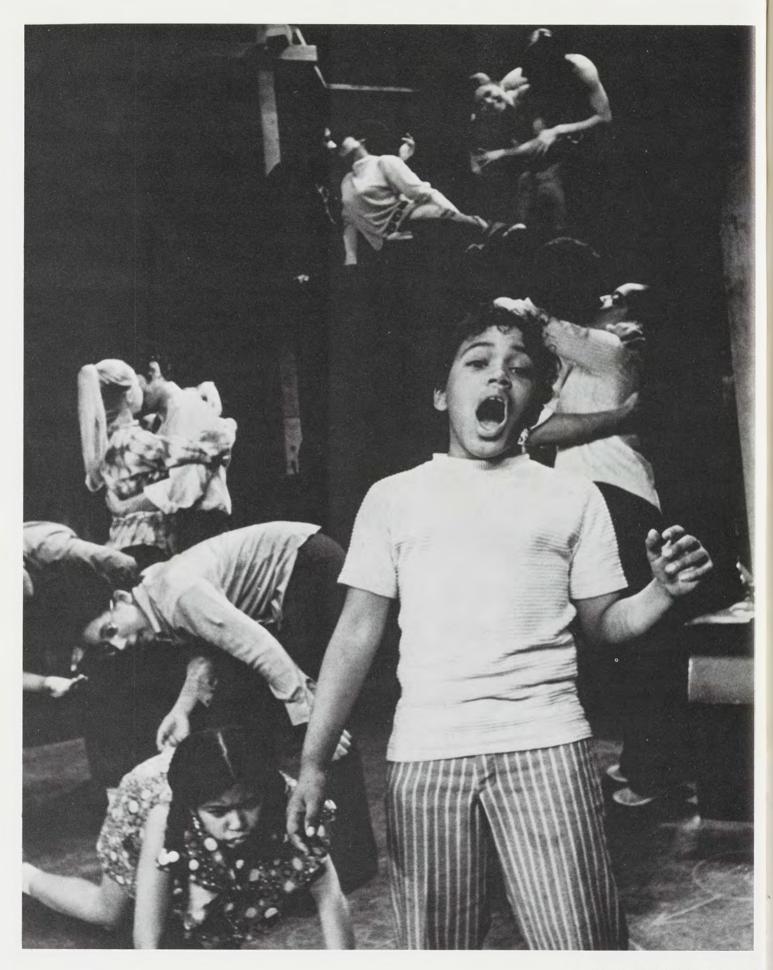

Opposite page, left: The Saar Chamber orchestra appeared for the first time at MSU. Bottom, center: Violinist James Buswell appeared with the Saar during "Festival '71." Above: "The Me Nobody Knows" Opposite page, top: "You're A Good Man, Charlie Brown" Opposite, bottom: "Butterflies Are Free"

#### Lecture-Concert presents: Broadway!

This season's Lecture-Concert series offered a variety of Broadway's brightest and most poignant productions.

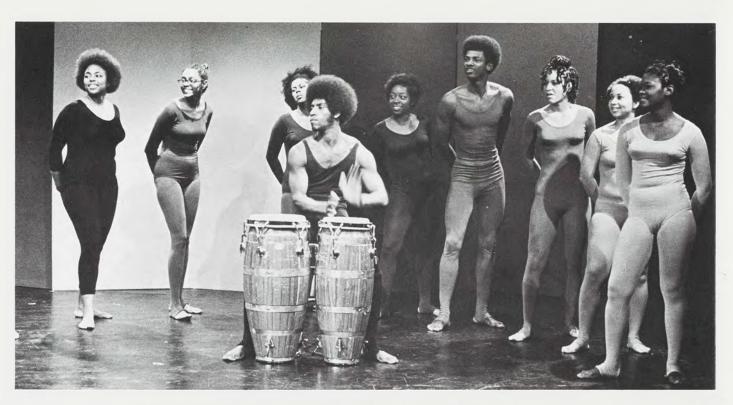

"The Me Nobody Knows," based on actual writings of ghetto children, was a musical expression of the hopes, joys, and sorrows of these people.

In contrast, "You're a Good Man, Charlie Brown" was a jubilant show based on the subtle combinations of wit and sentiment of Charles M. Schulz, creator of "Peanuts."

In "Butterflies Are Free," an innocent blind youth leaves home for Greenwich Village and meets a girl; she proves to be an enticing challenge, which the young man's "Mama" doesn't like.

nows" Good own" Free"

#### Rhapsody in black

During a time when the white people of the world are being awakened to the cry for black identity, a group of black students at MSU decided to translate their desires into actions.

The Black Arts Festival, founded in September 1971, was created as a means of expression for black students on campus. Financed largely through proceeds from performances and from individual donations, the group produced two memorable shows fall term.

The first show included the play "Happy Ending", sketches, and individual song and dance routines. The second presentation was the black history saga, "Tell Pharoah," and more song and dance expression.

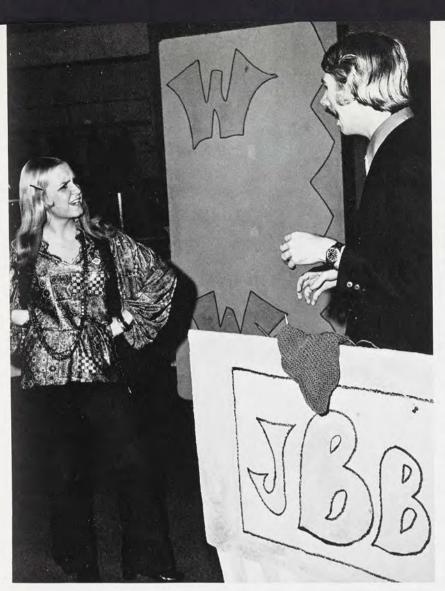

Directed by Festival members and supervised by the Center for Urban Affairs, the Black Arts Festival offered a worthwhile and meaningful outlet for black cultural expression.

## How to succeed at entertaining

The Company's contribution to campus winter activities was the performance of the now-classic musical comedy, "How to Succeed in Business Without Really Trying." The spoof follows the story of a young man who rises from window washer to chairman of the board.

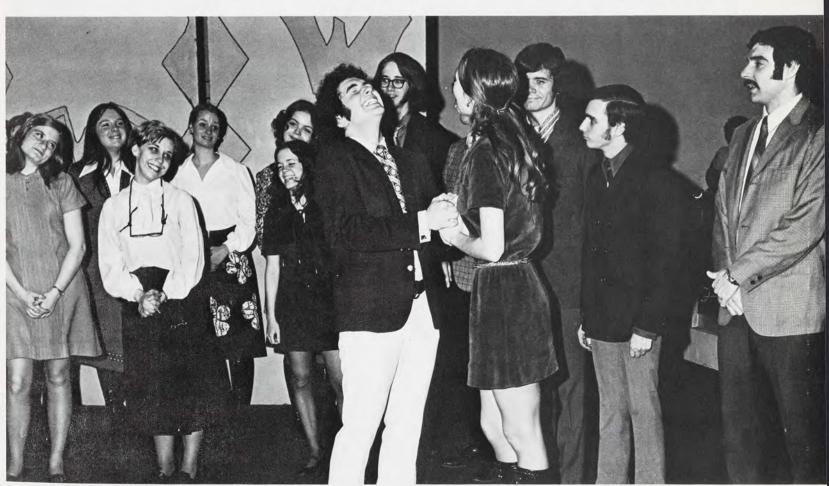

The New Players' performance of The Who's rock opera, "Tommy," was musically backed by the Plain Brown Wrapper and financially assisted by ASMSU. "Tommy" is the story of a blind, deaf, and mute boy who still retains the sense of touch and becomes a pinball wizard.

Musical interests are expressed by the MSU Opera Workshop, which produced Menotti's "Amahl and the Night Visitors" fall term, and Gilbert and Sullivan's "The Gondoliers" in the winter, presenting opera to the student community.

Opposite page, top: Amahl offers his crutch as a gift for the Christ Child in "Amahl and the Night Visitors". Opposite, bottom left and right: Two rehearsal scenes from the rock opera, "Tommy".

Left: Hedy LaRue argues with J.B. Biggley in "How to Succeed in Business Without Really Trying".

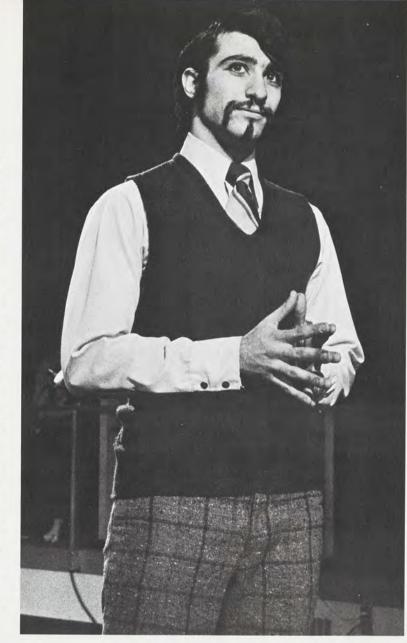

Below: In another scene from "How to Succeed", Finch announces his promotion to Rosemary while the staff looks on.

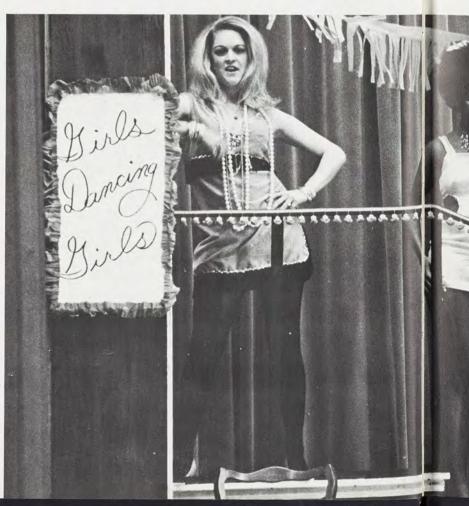

Who ever said that there was no place on campus for people to gather and express themselves through drama? To dispel this quiet murmur among students, two new acting companies were formed, and their fall term productions provided several enjoyable evenings of musical comedy.

One of these, "The Company," opened its season with "Damn Yankees" — which is about a baseball fanatic who so strongly supports his team, the Senators, that he sells his soul to the devil to help them try for the pennant. Involving the talents of more than 45 students, "Damn Yankees" offered the least expensive entertainment on campus fall term at 99¢ per admission.

Also producing a musical comedy, the other student theater group called itself "The Cabaret Company." Their initial production, "Sweet Charity," tells the story of an endearing dancehall girl who is continuously taken advantage of. She is even dropped by the man who was about to marry her, when he discovers her profession. Several veterans of other student productions added their talents to make "Sweet Charity" a success.

#### Musical comedies brighten fall term

Above: Charity once again hopes that she's found her man.

### Homecoming cheers MSU's wet weekend

As green leaves turned into autumn golds, Homecoming 1971 brought Al Hirt, a new queen, and a football victory to MSU students and the alumni. Although float competitions on campus seem to have become a thing of the past, many traditions do remain.

The campus prepared for its annual home-coming with a pep rally a few days before the game. Red-headed Denise "Rusty" Richmond was chosen as the 1971 Homecoming queen following three nights of interviewing by a panel of five judges. Miss Richmond was crowned by last year's queen, Carol Kaste, during half time of the MSU-lowa football game.

The queen was not the only attraction of the game. The damp and dreary day had little effect as the Spartans pulled off a definite victory over Iowa, with a 34 to 3 showdown.

The crowd left the game in high spirits, to be entertained later by a rousing performance by trumpeter Al Hirt, a special Lecture-Concert event. The MSU Marching Band also gave a performance in the Auditorium during Homecoming festivities.

Opposite page, top: A part of Al Hirt's success, and never to be forgotten, are his accompanists Short Legs and the Saints. Opposite, bottom left: With Sparty towering over them, the MSU cheerleaders arouse the spirit of the crowd during the Homecoming pep rally.

Above: A crown and a bouquet of roses were sure to convince Denise "Rusty" Richmond that, yes, she really was the Homecoming Queen.

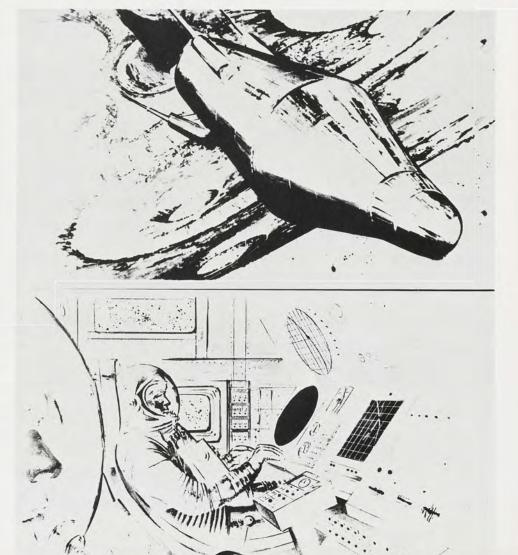

Left: Huffing and puffing their way through a song, the MSU Marching Band performs as part of the festivities.

## Art center offers a variety of exhibits

When there's "nothing to do" on campus, it's because many students forget — or don't know about — the Kresge Art Center and Abrams Planetarium.

Contained within the art center are classrooms and studios, used by the art department and its students. Often the highlights of the year, however, are the exhibitions displayed in the main gallery.

This year, two shows of special interest were presented: the architectural vision of Paolo Soleri, and the Midwest Photographers exhibition. While the photographers displayed their talents through intriguing and interesting pictures, Mr. Soleri used photo-enlargements to explain "arcology", his vision for the future of man and his cities.

Abrams Planetarium offers free "Sky Scan" shows the second Thursday of each month, examining the current night sky. Special programs are also offered, such as "The New World" during spring term, 1971, and "UFO" this year.

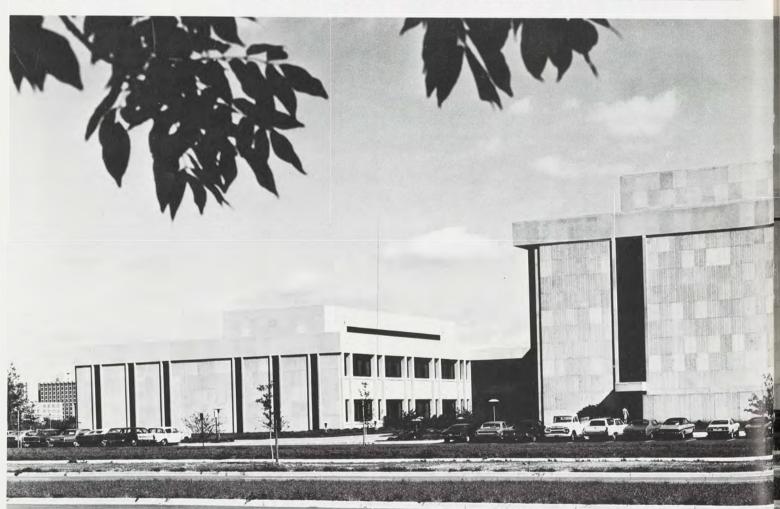

Academics

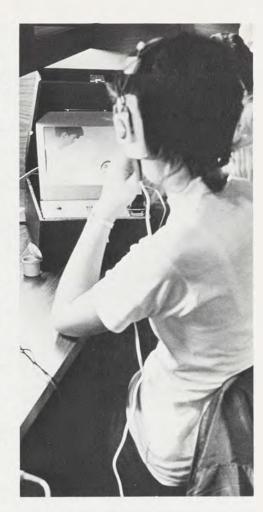

## Life Sciences I: cornerstone of a 69 million dollar dream

After years of planning, construction, and outright dreaming, the Life Sciences I building is at last a reality. It represents the beginning of a \$69-million medical complex which will place MSU's entire medical program among the foremost in the nation.

The building itself houses a number of related medical fields under one roof. The Colleges of Human Medicine, Nursing, and Pharmacology, as well as the Department of Human Development all have offices in the new facility. Also included in "L.S. I" are some of the most modern and advanced study materials and experimental equipment now available.

The picture at the far left depicts the use of videotape recorders to provide visual records of medical procedures; at left is the actual groundbreaking ceremony for L.S. I in April of 1969, with then-president Walter Adams assisting; at right is one of the ingenious study carrels used by nursing students, which combines a battery of audio-visual aids; directly below are two medical students involved in the surgical scrubbing practice; and below left is a view of the building itself, as seen from a vantage point in Baker Woodland. Additional photos may be found on the following two pages.

Eventually, the complex will consist of a second Life Sciences building and a large health center, to further expand MSU's burgeoning medical programs. With the help of these facilities and a staff of skilled personnel, MSU could join the ranks of the country's finest medical schools in the not-too-distant future.

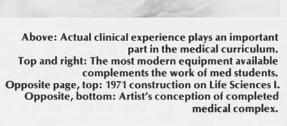

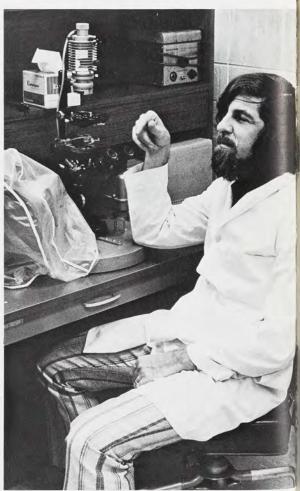

#### "Personal" academic tailoring

Several specialized colleges have been established at Michigan State University to meet the academic needs and desires of certain segments of the total MSU student population. These smaller, more personal colleges include the Honors College and three residential colleges — Justin Morrill, James Madison, and Lyman Briggs.

Such colleges afford the individual student opportunities to personally tailor his total scholastic program. For example, the Honors College is now offering more honors courses in more colleges and departments than ever before. The Honors College Lecture Program has brought in speakers such as Paolo Soleri, the "visionary architect" as part of the lecture series. Designed for the prodigious undergraduate, Honors College allows qualified students to

structure a self-styled curriculum aided by appropriate college-major advisors.

The main concept behind Justin Morrill is a college-major designed for the adventurer who wants to increase interaction with classmates and faculty, and a free hand in the structuring of courses.

Concentration in James Madison College is on public policy problems. Undergraduates who are in Political Science find outside involvement through extracurricular activities and a wide exposure to professionals in their field.

Students with a leaning toward the sciences and mathematics may number among the Lyman Briggs enrollment. It gives them a small residential atmosphere with the benefits of University courses.

#### Learning to interact with the environment

We are living in the Age of Ecology; everyone is concerned with relating to the environment. In keeping with this current trend, the Colleges of Arts and Letters, Business, Engineering, and Human Ecology encourage their students to interact productively with their surroundings.

Specifically, the College of Arts and Letters, through its programs of English, Romance languages, pre-law, music, drama, art, philosophy, and humanities, promotes a personal understanding between the student and the environment. The College of Business promotes a course of action which places the student in direct relation to the public, whether in business administration or restaurant and hotel management.

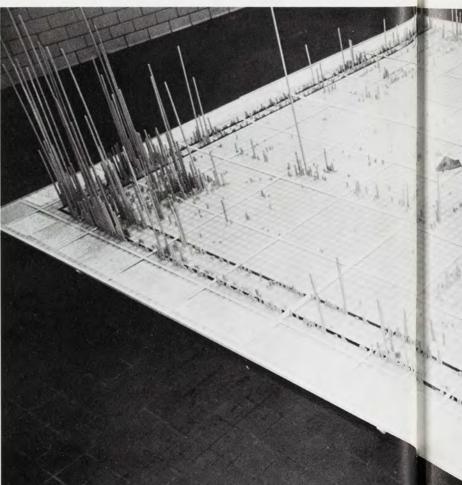

While centering on the technological achievements of society, the College of Engineering has become more aware of the students' need for functional relationships between technology and social awareness. Reflecting the current ecological trend, the College of Home Economics underwent a name change and became the College of Human Ecology. Through their programs, all of the colleges recognize the need for interaction between the student and his society.

## Influential colleges reach out to greatest number of students

Four particular MSU colleges, more than any others, reach out to perhaps the greatest number of students. There is not a student on campus whose academic life is not influenced by University College, the Colleges of Education and Communication Arts, and Free University.

The majority of MSU students are required to spend two years in the University College. During this time each student must take four courses, designed to instill, in the words of the college itself, "the knowledge, skills and awareness needed by educated people." Yet these courses are often criticized by students. Thus, University College continues to renovate its programs.

Different course-tracks are offered which allow a variety of approaches to each subject and a variety of learning situations for the students. One of these new techniques is the Foreign Studies program — ATL, Social Science, and Humanities can now be taken in Europe both Spring and Summer terms.

Much to the dismay of would-be applicants, admission to the College of Education is fast becoming an impossibility. A teaching certificate is no longer a side-benefit with graduation; admissions are opened very briefly to only a few chosen students. Even those lucky students already admitted must wait in long lines for student teaching posi-

tions, and they can only hope that a school exists that will need their particular teaching skills.

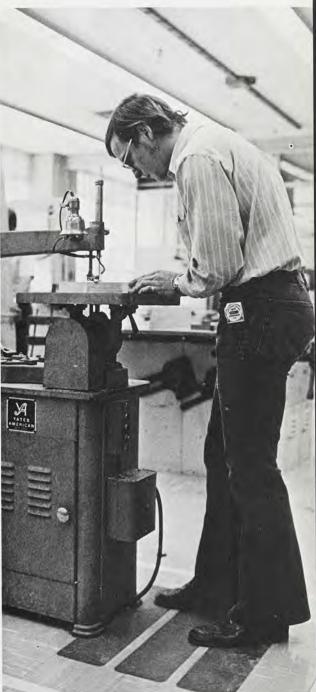

Based on the principle that good communication is required for a good society, the College of Communication Arts trains students to improve both their own and society's communication systems. This training is done through the study of these systems and an actual application of communication skills. One new area of study is in crosscultural effect of communications—the sociological and linguistic aspects of international relations.

Enjoyable learning with neither cost nor grades is the big selling-point of Free University. The study of the human personality, problems of society, and practical application of many arts are but a few of the varied study areas offered by Free-U. These classes afford students alternatives to structured learning. There are no "majors", "pre-requisites" or "credits," per se—the degree of course structuring rests on the interests of those involved.

Top right: Cueing in is an important part of radio communications.

basis for another 191 experiment. Below: An MSU coed ponders the problems posed by a complete University College reading list.

#### "Getting back to the land"

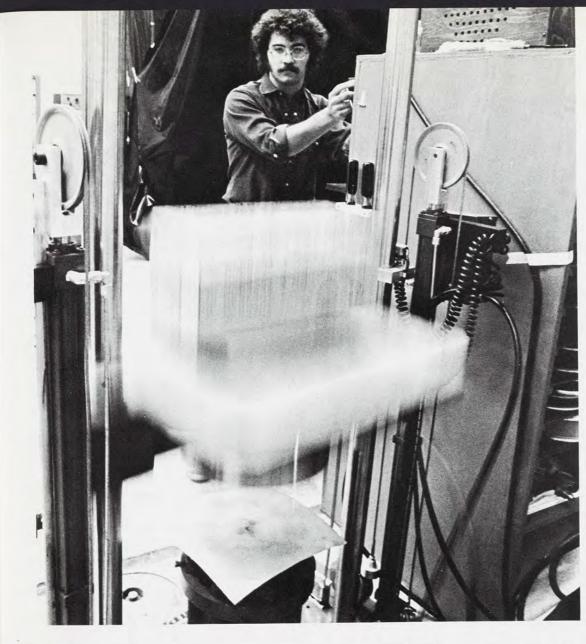

For as long as man has been on this earth, he has pondered his ultimate role within the context of the universe. Toward that end, the College of Agriculture and Natural Resources, Natural Science, Social Science, and Veterinary Medicine endeavor to better define that complex relationship.

The purpose of the College of Agriculture and Natural Resources is "to get back to the land": to uplift the living standards of underdeveloped nations through practical applications of agricultural techniques. By exploring the sciences, the College of Natural Science attempts to answer the time-honored

questions of man's creation and existence.

The College of Social Science has implemented specific programs to acquaint the student with man's cultural heritage. The African Studies Center undergraduate program enables the student to study the economic, social, educational, and political problems of Africa. The Center also is responsible for organizing several highly-respected publications. The College of Veterinary Medicine trains its students in diagnosis, disease prevention, medical treatment and surgery. This training opens the door to a muchneeded valuable profession.

#### Grads seek out assistantships

Graduate school is not an inexpensive proposition, as any grad who is putting himself through can tell you. In order to fund their postgraduate studies, many graduate students take on assistantships in both teaching and research.

Teaching assistants often serve as a more approachable link between students and their professors, as someone a student can talk to on his own level. TA's who take on entire classes also provide an indispensable service for professors.

Pure research assistantships also prove attractive to grads. The hope and excitement of making new discoveries in your field, be it chemistry, art, or child development, is scarcely to be matched elsewhere.

The chance to gain field experi-

ence is one of the most rewarding aspects of a graduate assistantship. Grads enjoy meeting the challenge of applying textbook theories to real situations — situations which have the frustrating habit of refusing to fit into any of the categories they so painstakingly learned in class.

Right: Grad student experiments with clay impressions as a new technique for a sculpture.

# MSU services — ready when you need them

A service is something that is often taken for granted, especially if you're a student. But stop and think a moment about what would happen at MSU if there were suddenly no health center, no library, or no bus system.

If it weren't for the Grounds Maintenance Department, we'd be knee-deep in wet leaves in the fall, snowed in during the winter, and lost in grass jungles in the spring.

Students grumbled when the library closed during Thanksgiving weekend; what would happen to all those term papers if it were always closed?

It might be better ecologically if buses were banned and everyone walked; but thousands of MSU students place their bus sticker second in value only to their ID.

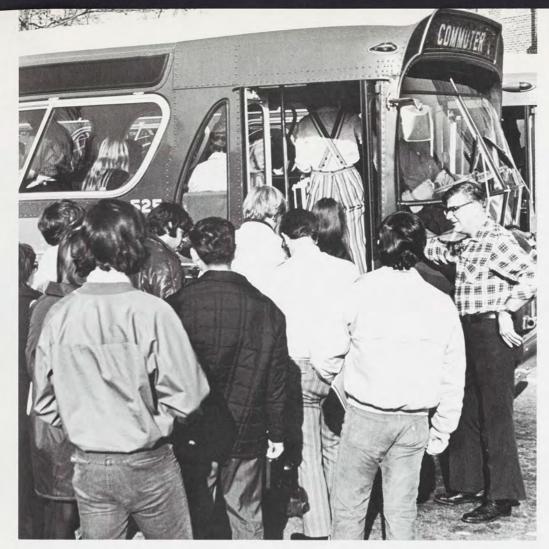

Opposite page, top: A hurried registrant discovers that sometimes, two hands aren't enough.

MS for col

end Cli suc ter set Un cu pu she

### Beautiful as well as functional

Various facilities are maintained by MSU to supplement classroom learning for the student, and for the use of the community. These range from the sciences, with the planetarium and Vet Clinic, to varied areas in the liberal arts, such as Kresge Art Center, Kellogg Center for Continuing Education, the museum, and even Beaumont Tower. The University also maintains formal horticultural and botanical gardens on campus. Planetarium programs and light shows, art exhibits, museum displays, and the concerts at Beaumont prove that these facilities are used for entertainment as well as for research.

Right: Believe it or not, MSU buses are given periodic maintenance checks.

Bottom, right: The Department of Grounds Maintenance contributes its share to the beauty of the MSU campus.

Below: Wilson Library offers a quiet atmosphere for students in South Complex.

### Conspicuous by their absence

Certain vital services to the university are noticed only when they are absent. The spacious grounds of MSU must be cared for, the snow removed, the parking facilities checked, the dorms and classrooms cleaned, the food prepared for hungry students, and the "U" machinery kept in working order. Other services are geared more directly to the students. Buses provide transportation, the Public Safety people work to keep order on the campus, Olin provides student health care, and the Placement Bureau and Counseling Center work on individual problems. For all this work, there is often too little praise.

it's a first down.

The explosive wishbone offense, triggered around Eric "The Flea" Allen, led the 1971 Michigan State football team to their best finish since 1966, with Allen setting 2 NCAA, 4 Big 10, and 9 MSU records.

The Duffy Daugherty-coached Spartans earned themselves a tie for third place in the Big 10 with Ohio State and Illinois, compiling a 5-3 mark, and 6-4 overall.

The powerful wishbone-T-offense installed for the initial time against archrival Michigan gained just 59 yards rushing and 13 points, but it was the start of something big. The Spartans amassed 105 points in their next three games due to their new offense.

The biggest game of the season for the Spartans was their 43-10 rout of Purdue. Allen rushed for 350 yards, an NCAA record in 29 carries eclipsing Michigan's Ron Johnson's 347 yards in 1966, plus Clint Jones' MSU record set in 1966 of 268 yards. He also set the single game all-purpose running mark with 397 yards total. Other records set by Allen this season were total points, 110, and most touchdowns scored, 18, both Big 10 records. MSU marks that Allen holds are most rushing yardage in a season, 1494, and season rushing attempts, 259. Coach Daugherty well summed up not just Allen's performance but the entire team's when he stated, "This is the best performance by an MSU team since 1966 both offensively and defensively."

Recapping the year, the Spartans opened up their season with Big 10 for Illinois, shutting them out 10-0. Billy Joe Dupree caught eight passes, setting a Spartan record in a single Big 10 game, while Allen's 37 carries tied Don Highsmith's record set two years

The Spartans then traveled south for their first meeting with Georgia Tech. Although the Yellow Jackets failed to complete a pass against MSU's tough secondary, they blanked the Spartans 10-0.

Next Duffy Daugherty's squad entertained Oregon State and in winning 31-14 coach Daugherty chalked up his 100th victory here at Michigan State. Safety Brad VanPelt intercepted two passes returning both for touchdowns of 47 and 40 yards. Frank Kolch, who had moved from the #3 quarterbacking spot to #1, completed 10 of 17 aerials for 144 yards and two touchdowns, good enough to earn himself UPI's Midwest Back of the Week honor.

In a nationally-televised game, the Spartans took on their oldest rival the Fighting Irish of Notre Dame, falling 14-2. Then came the game everyone was waiting for — State versus its arch-rival Michigan. The Wolverines, 2nd ranked in the country, met the Spartans at Spartan Stadium and the two teams played to the largest crowd ever, 80,093. The Spartans held Michigan in check for three quarters until bowing 24-13.

The Spartans then traveled to Wisconsin and fell to the Badgers 31-28 in their first meeting since 1968. The wishbone offense came into its own the following week against Iowa, as the Spartans, in front of their home fans, pummeled the Hawkeyes 34-3. Allen scored three touchdowns and rushed for 247 yards to earn himself the UPI Midwest Back of the Week honor. Kicking specialist Borys Shlapak began to make the headlines as he booted a 54-yard field goal, tying his own record that he had set last year. Next was Purdue and the 43-10 win gave the Spartans a 3-2 Big 10 record, .500 for the season.

Duffy Daugherty's mauraders were then thrust into the role of spoilers as they ventured to Woody Hayes-land to tackle the Ohio State Buckeyes. Ohio State sorely needed a win to keep alive their Big 10 title hopes but the Spartans, with the aid of Allen's 12th and 13th touchdowns of the season, ended a personal four-game losing streak to the Bucks by defeating them 17-10. Added to Woody Hayes frustration was the fact that it was the Bucks' first Big 10 loss at home in 16 games.

The Spartans continued to win with the wishbone offense, rolling past Minnesota 40-25 for their first win over a Gopher squad since 1957. Allen scored four more touchdowns and Shlapak kicked his third 54-yard field goal.

In the season's finale against Northwestern, the runner-up spot to Michigan was at stake. The Spartans had the momentum going for them, but they were up against the league's premier passer in Morrie Daigneau. Daigneau backed the Spartans up against a wall as the Wildcats outplayed MSU to a 28-7 victory.

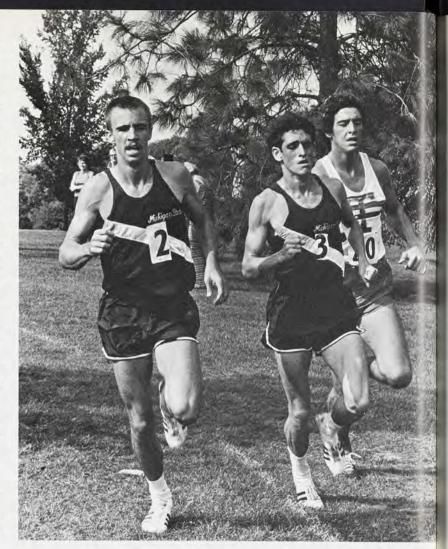

It was tough for the Spartans to end the year on a sour note with things going so well, but at least Coach Duffy Daugherty had unveiled the Spartan offensive of the future.

It most certainly should be a bright future.

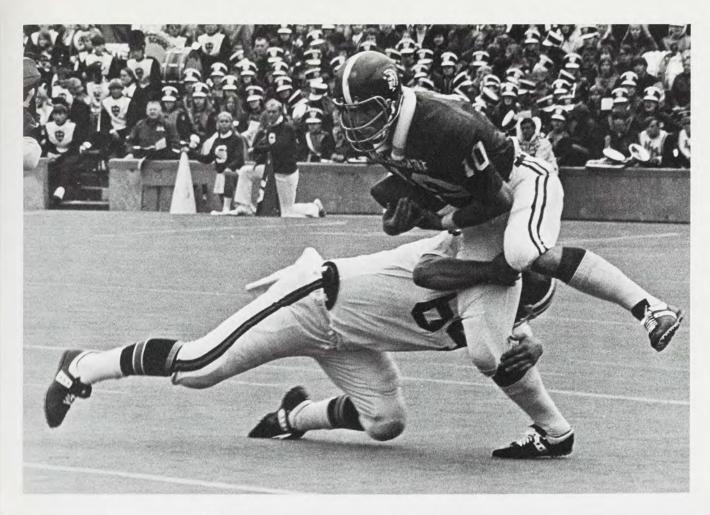

The 1971 Spartan harriers, racking up a 4-2 dual meet record, successfully defended their Big 10 championship for the 14th time in 22 years.

The harriers, with a five man track of Ken Popejoy, Randy Kirkpatrick, Dave Dieters, and the identical-twin combination of Ron and Rob Cool, lost their opening dual meet of the season to Miami at the Spartans' home course, Forest Akers, but MSU then put together a three game winning streak defeating first Tennessee, 19-39. Popejoy took first place honors, with a time of 25:22. The middle meet of that winning streak saw the harriers knock off Ohio State for the sixth straight time since 1948.

Top: Randy Kirkpatrick (2) and Ken Popejoy (3)
lead the field against Tennessee.

Opposite page, top: Brad VanPelt (10) handles one of his two interception
TD's against Oregon State.
Opposite, bottom: Borys Shlapak (5), with Mike Rasmussen
holding, kicks an extra point.

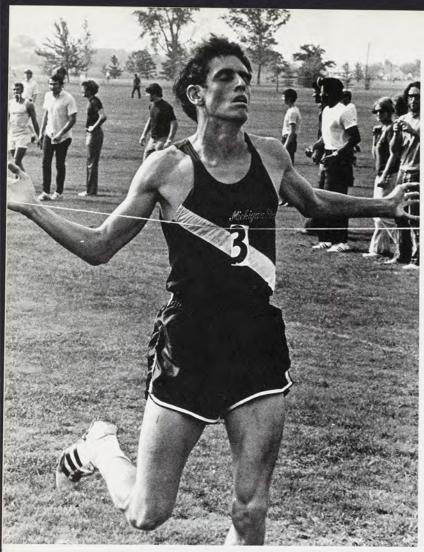

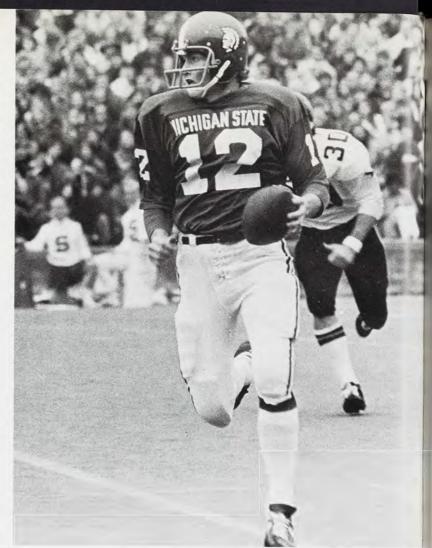

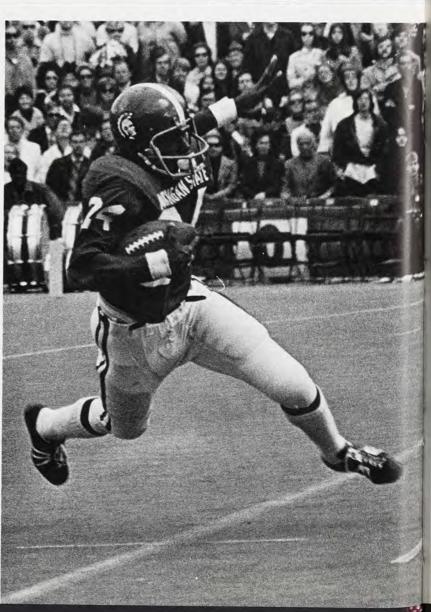

The Spartans then placed first in their own Spartan Invitational, but then came the formidable task of facing two top-ranked teams on successive weekends: Minnesota and Indiana. The Spartans traveled to Minnesota to run against one of the top runners in the country, Gary Bjorklund. The Gophers had a string of 19 consecutive dual meet victories, but the Spartans defeated them taking positions two through five as All-American Ken Popejoy finished second followed by Kirkpatrick, Rob Cool, and Dieters.

Coming home to meet Indiana, the Spartans dropped a 22-37 decision despite Popejoy's 1st place finish running the 6-mile course in 30:53. Then at Notre Dame, the harriers warmed up for their Big 10 meet defeating the Fighting Irish handily.

After capturing the Big 10 title up in Minnesota, the Spartans traveled to Knoxville, Tennessee for the NCAA meet amidst 36° temperatures. Out of a field of 92 schools entered, MSU claimed 13th place, topping all other Big 10 teams. The front finishers for MSU were Popejoy, Kirkpatrick, and Rob Cool.

Although it was the worst finish for MSU in six years, they had still won more team titles at the event than any other school.

Above: Billy Joe DuPree heads for the end-zone after his Minnesota defender dropped out of the race. Right: Nick Dujon works the ball downfield against Akron. Opposite page, top left: Ken Popejoy wins first place against Indiana. Opposite, top right: Mike Rasmussen runs the option against Iowa. Opposite, bottom: Eric Allen during another fine run.

Opposite page, top: Coach Jim Gibbard gives the crosscountry team a pep-talk before the Tennessee meet.
Opposite, bottom: Goalie Dave Goldman makes the save while Nigel Goldman (23) screens a Wooster opponent.

For the second time in two years the MSU soccer team was jolted in their season finale, keeping them from seeking a NCAA playoff berth. Coach Payton Fuller's squad at 7-1 encountered Akron with a mark of 6-2-2 here at East Lansing where the Ohio team knocked off the Spartans 2-1 in the season's final game.

One aspect of MSU soccer teams was defense and the Spartans boasted a strong one this past year. Through their first five games they allowed a mere five goals.

Following an opening day win over Cinncinati in which Lennox Robinson scored two goals, the soccer team defeated Wooster College, 3-1.

The Spartans then stopped Michigan 6-2 behind Nick Dujon's three-goal outburst. The victories kept mounting as the defense became stingier in the 2-1 victory over the Spring Arbor Cougars. It was the fourth straight win for the Spartans as Dujon tallied two more goals.

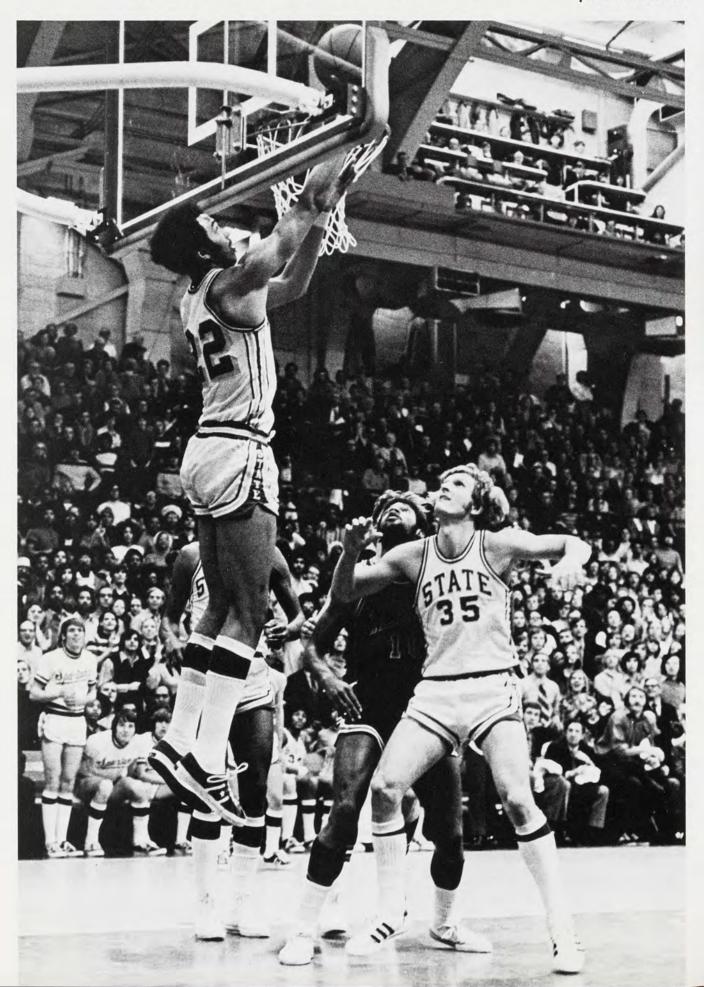

Coach Fuller, a bit apprehensive about his next opponent, Wisconsin-Green Bay, stated, "We'll have to move very fast and work extra hard to get by them." The Spartans played a fine game but lost 1-0.

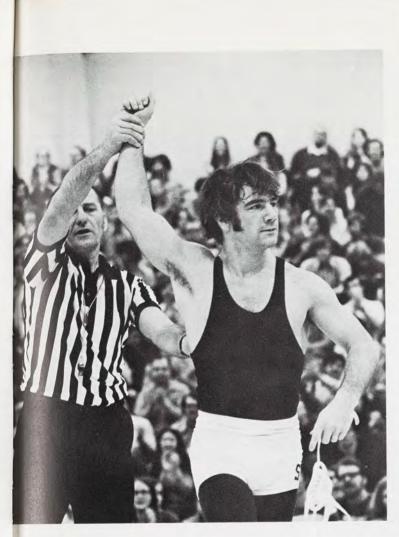

The booters next defeated Western Michigan, then Ohio University, 4-3 as Rudy Mayer counted four goals in the two games. In the victory over Ohio, Fuller cited his squad's showing as the "finest team effort of the season." After a win over Bowling Green 3-0 behind Dujon's two goals, the Spartan season came to an end with their 2-1 loss to Akron.

## Indoor track, wrestling lead winter sports finals

Below: Bill Kilgore (22) hits for two points while

Opposite, bottom: Jim Watts steals the puck to prevent another shot.

The 1971-72 winter sports season brought to MSU two Big 10 championships and a flock of other prestigious titles.

Coach Grady Penninger's wrestling squad, ranked 2nd nationally, captured its 7th straight Big 10 title with a 6-1 mark, while Coach Fran Dietrich's indoor track team won its second Big 10 championship. The grapplers, 11-1 overall, with their lone loss coming at the hands of the Iowa Hawkeyes, went into the NCAA match at College Park, Maryland as second choice to top ranked Iowa State. That was the way they came out as the Spartans placed a solid second. The Spartans sent to the final match two-time national champion and three-timeBig 10 champ, 118-pound Greg Johnson, along with Tom Milkovich, 142pound three-time Big 10 title holder and possessor of an 18-0 season record. Also competing were Big 10 champ, 126-pound Pat Milkovich; two-time Bit 10 heavyweight champ Ben Lewis; 167-pound Gerald Malecek; Rick Radman, Dave Ciolek, and Conrad Calander.

The top match of the season came against power-house Oklahoma State, who has the nation's top 126-pound wrestler in Yoshira Fujita. Although Milkovich lost 6-3, it was the defending NCAA title holder's toughest dual match of the year as the Spartans sent Oklahoma State down to a 20-15 defeat.

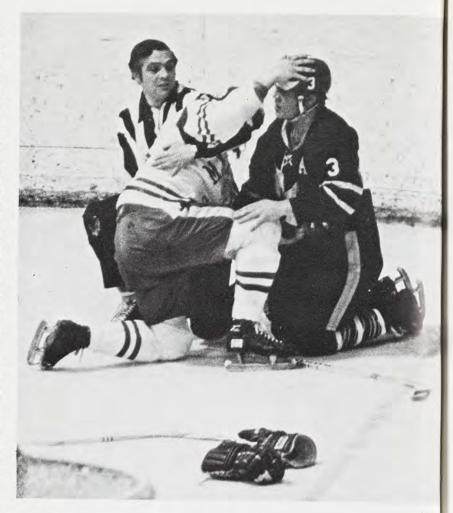

The track team on the other hand rode atop the Big 10 with a 3-0 mark, sending 11 members to the NCAA Meet at Cobo Arena in Detroit. Winning the Big 10 Meet with 65 points and six first place finishes, the trackmen went to Detroit in hopes of dethroning Villanova and beat out favored University of Southern California.

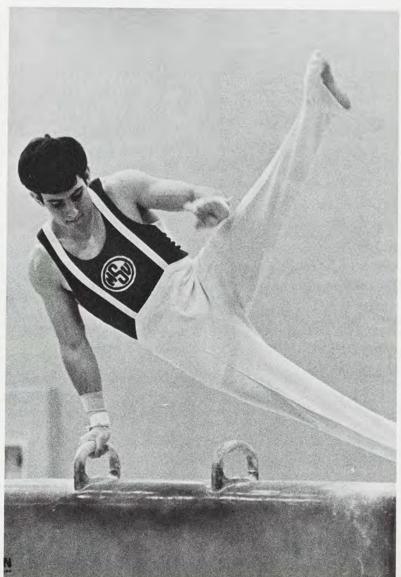

Herb Washington captured first place honors at the coveted event, placing well ahead of teammate Marshall Dill with a time of 06:1. This, along with Ken Popejoy's 4:02 victory in the mile, enabled the Spartans to runner-up honors a mere one point behind Southern Cal. After the first day of competition, the Michigan State team had been shut-out while USC built up a 16 point lead. State battled back on the second and final day with 18 points to the Trojans' three, to place second.

Although the State hockey team made it all the way to the semi-finals of the WCHA play-offs, the season could have been much brighter for them had it not been for their mediocre beginning. Losing nine of ther first 14 games, Amo Bessone's icers

put away 12 of their next 15 games into the victory column enabling them to finish 4th in conference competition. This gave the icemen the home ice advantage for the start of the WCHA play-offs with Minnesota-Duluth. In a two game stand decided by the highest goal total, the Spartans advanced themselves to the semi-finals by knocking off Duluth, 5-3, 4-2. State was then halted by a stubborn Denver team with whom they had little success with during the regular season.

Don "Zip" Thompson broke several MSU records as he tallied 30 goals in the regular season to break the old mark of 29 set in the 1964-65 season by Mike Jacobson. His 63 points also enabled him to surpass the 61 scored by Doug Roberts in that same year. Much of the hockey team's success, though, went to the brillant netminding of Jim Watt, who allowed an average of just three goals per game. Mark Calder and Michel Chaurest scored 27 and 21 goals respectively to give the Spartans the extra 1-2 punch.

The swim team, finishing with a 7-4, 4th place finish in the Big 10, suffered only one serious setback and that was expected. It was to Indiana. Taking that fourth place finish in the Big 10 Meet compared to Indiana's first place total of 567, exceptional performances were turned in by Ken Winfield, who finished second in the butterfly and third in the 100. Jeff Lanini placed third in the breastroke while the 400 medley relay team also took a third.

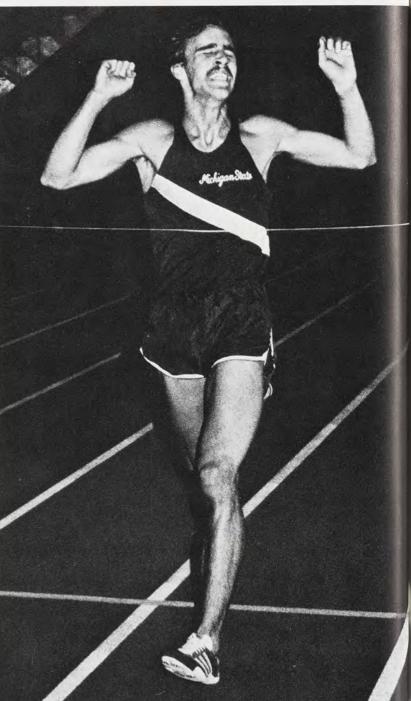

Meanwhile, the fencing team headed by Charlie Schmitter failed to successfully defend their Big 10 title as they also finished fourth in the Big 10 Meet at Madison, Wisconsin with 22 points. Illinois captured first place as only one MSU man, Paul Herring, fared well enough to place second in epee competition. Going 9-6 throughout the season, the fencers won five of their opening six matches before tail-spinning toward the end.

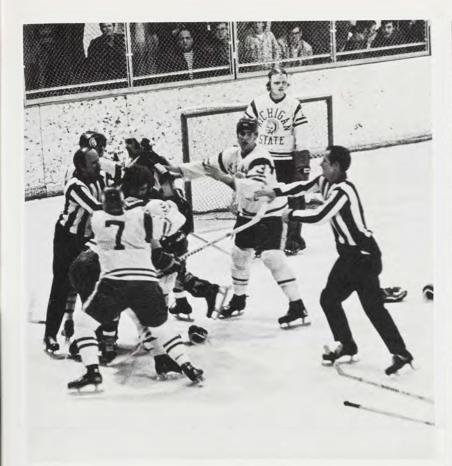

The gymnastics team at 5-4 finished a meager fifth in the Big 10 at 3-2. Perhaps one notable event during the course of the year made things brighter, that being MSU's narrow defeat at the hands of Iowa, 155.75 to 154.95. Iowa was the conference champion. Randy Balhorn placed second in all-around performance in the Big 10 Meet while Charlie Morse took second in the parallel bars division.

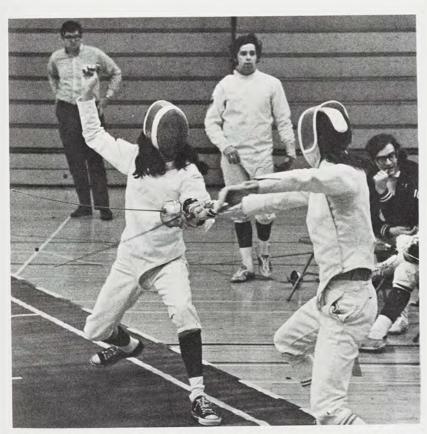

Last but certainly not least comes the saga of the Spartan Basketball team. Thirteen and eleven overall, the MSU cagers finished a surprising 6-8 in the Big 10. Surprising, considering that when the college polls came out at the beginning of the season, the first and last place teams were automatically filled in. It was guesswork as to the order of the next eight. The Spartans were automatically ranked 10th.

Dill, Herb Washington.

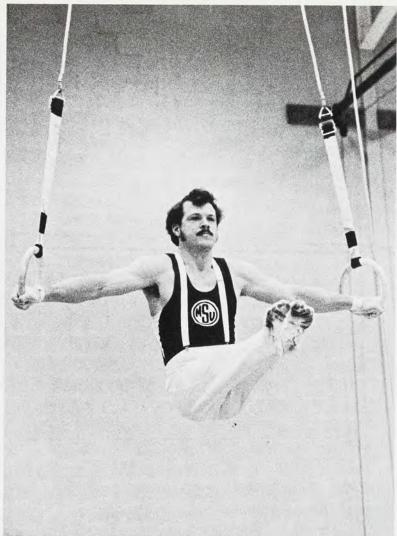

Although the season actually began in early December for the Spartans it did not really begin until March 4th. Much of the load throughout the season was on the shoulders of sophomore sensation Mike Robinson who finished as the Big 10's leading scorer with nearly 25 points per game. Robinson, who was State's leading scorer in all but five of the team's 24 games, was aided immensely on the boards by center Bill Kilgore. Kilgore, with more than 250 rebounds to his credit, also led the team in rebounding in all but five games.

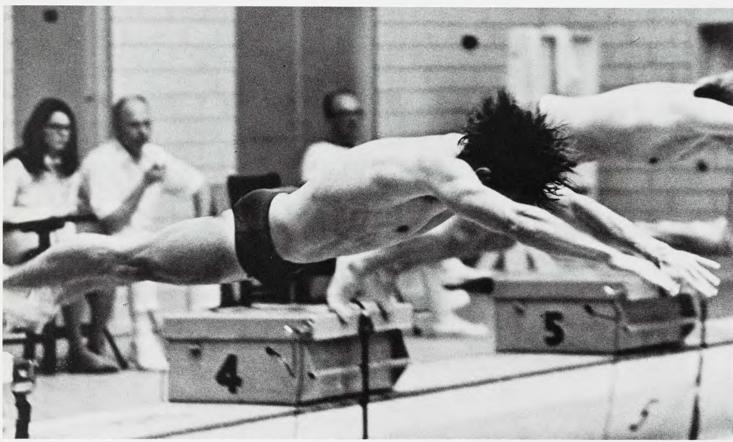

Following an opening game loss to Missouri, 77-67, the height deficient Spartans reeled off four straight wins including a major upset over nationally ranked Kentucky — much to coach Gus Ganakas' liking.

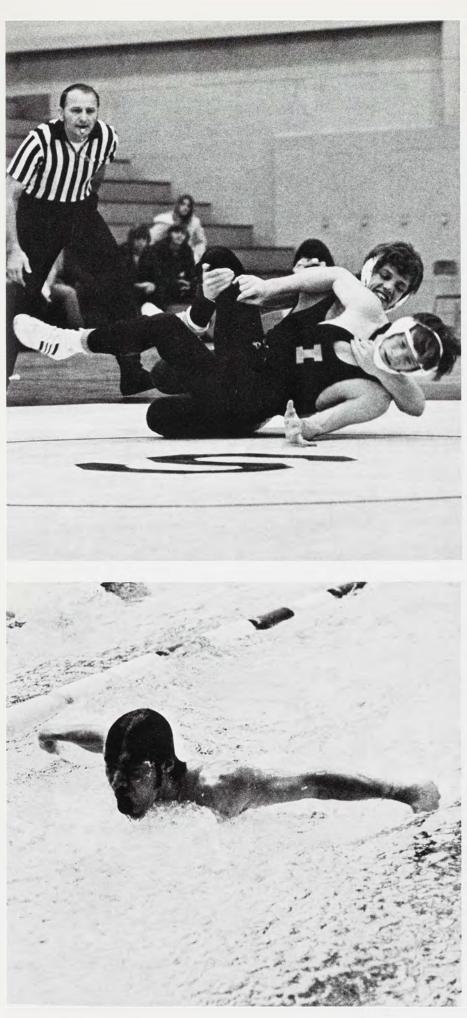

The cagers then lost three out of five as they entered Big 10 play with a loss at the hands of the University of Michigan, 83-75. Going 5-6 through their next eleven games, including a 38-point performance by Robinson in the 100-91 victory over Iowa, Michigan State played Michigan again to the throngs of a full house at Jenison Fieldhouse. The Wolverines needed a victory to stay in the Big 10 title race (to win and stay near the number one spot), but they left with a defeat and a stern struggle for the number two spot now. The Spartans behind Robinson's 37 points, Pat Miller's career high 26 and Allen Smith's 12 plowed over Michigan and its title hopes, 96-92. The Wolverines' ace, Henry Wilmore, guarded the most part of the game by the 5'5" Gary Ganakas, was limited to just 22 points as he hardly looked like the star he is acclaimed to be.

Michigan State then lost to powerful Ohio State before closing out a somewhat surprising year with a 57-54 conquest of Northwestern.

## Big Ten baseball title caps banner spring

"We have everything it takes to have an excellent team. We have batting power, good defense, strong pitching . . ." —Danny Litwhiler, MSU Baseball Coach.

It appears as though Litwhiler, in his eighth season as coach of the Spartans, had called all the shots. The MSU team ranked second nationally in the polls until beaten twice in the seasons final tournament the NCAA District Four. The Spartans captured the Big 10 championship for the first time since 1954 with a record of 13-3.

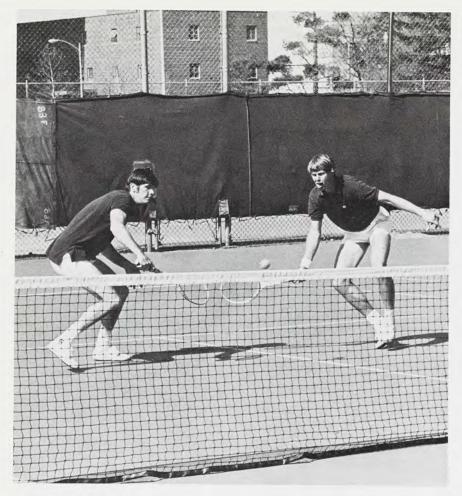

The major factor behind the club's climb to first place and their 36-10 overall mark (best ever in MSU history) was their remarkable batting power. As a team, the Spartans pounded out a .307 batting average with eight batters over the .300 mark.

The leading hitter, Rob Ellis, who Litwhiler considers to be one of the greatest Spartan players, finished the season with a hefty .407 average.

In so doing, Rob broke three MSU records while tying another. His 14 home runs this past season eclipsed the old record by five giving him a career total 21. Ellis also holds the season record for RBI's (44), most total bases (123), and triples (6), a feat he shares with teammate Ron Pruitt.

Litwhiler was hoping to have Ellis back for the 1972 season, but the 6', 180 pound junior has since signed a pro contract with the Milwaukee Brewers as a third baseman.

As a Spartan outfielder, Ellis was voted MVP by his teammates. He was also named Collegiate Baseball Player of the Year and was placed on *The Sporting News* All-American Team.

Another standout on the team, catcher Ron Pruitt was also regarded very highly by Litwhiler as he hit for a .350 clip while being given honorable mention rating on *The Sporting News* All-American Team.

The Spartan pitching staff, one of the finest in the country, was led by sophomore Rob Clancy who posted a 10-1 record and a 2.01 ERA. Sophomore Larry Ike and senior Kirk Maas posted 8-1 and 7-3 records respectively. Maas was the workhorse on the staff pitching 70 innings and striking out the same number.

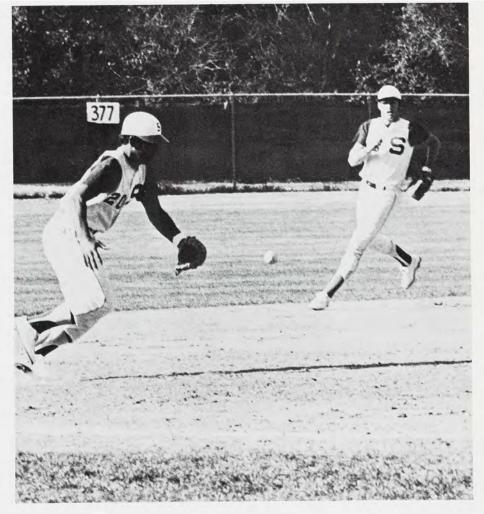

On May 22nd at Champaign, Maas hurled a no hitter at the Fighting Illini in a 2-1 win. It was the first nohit game for the Spartans since Robin Roberts turned the trick in 1946.

The outdoor track team and golf team both experienced winning and rewarding seasons this 1971 year as did the tennis team, but the second year lacrosse team, although improving on their first year mark, still continued to falter.

Coach James Gibbard's cindermen won two of their three dual meets in 1971 to finish fourth in the Big 10 while Bruce Fossum's linkmen fell one short of capturing their second conference title. The netters, led by third year man Tom Gray, found the going tough in attempting to equal 1970's 9-3 regular season record and the lacrosse team, while making giant strides toward becoming a winner, tailed off to a 4-7 mark.

Right: Dick Bradow awaits the outcome of a drive.
Opposite page, top: Tom Gray serving against U of M.
Opposite, bottom: Michigan State's baseball team leaving the dugout for another inning of play against Western Michigan.

The track team set and tied numerous records in 1971, one coming on sprint star Herb Washington's 9.4 time in the 100 yard dash, tying Jesse Owens. Also, Eric Allen set a Big 10 meet record in the triple jump going 50-51/4. Finally, the Spartan shuttle hurdle relay team of Wayne Hartwick, Rich Jacques, Dave Martin, and John Morrison combined to win two major championships in the Florida and Kentucky Relays. The runners tied the NCAA record of 56.7 in beating Tennessee at Florida. In addition, Kim Hartman was the recipient of the Chester L. Brewer Award—given to the outstanding senior track star.

Led by Rick Woulfe and John Vander-Meiden, All-Big 10 Team selections, the golf team shot their way to their third highest finish in 11 years. The linkmen took first place finishes in the Western Michigan Tournament at Kalamazoo, and in defending their Spartan Invitational Tournament, swept by 27 other colleges in successfully upholding their title. Fossum's squad finished a strong second to Ohio State in the Northern Invitational, 2nd to Indiana in the Kepler Invitational, and 2nd in the Big 10 meet.

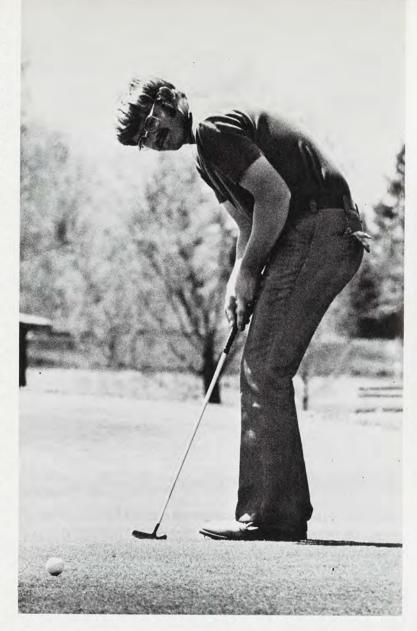

Coach Stan Drobac's netters jumped off to an excellent start winning five of their first six encounters, but then ran into some bad luck, suffering four defeats in their next six matches. They were paced by Tom Gray, Big 10 runner-up at the number one singles spot as a sophomore, and number two as a junior, who more or less seemed destined to capture the elusive title in his final season. Gray combined with number two singles man, DeArmand Briggs, in 12 matches this season for a 20-3 record, and Mike Madura in the doubles position posted a 7-0 mark.

The lacrosse team, after winning their opening Midwest Lacrosse Association contest against Kenyon 6-5, tailspinned, dropping their next six meetings before winning their last three on route to a 4-7 season record. Coach Ted Swoboda has at least one member of his team to boast about, that being Ted Kalvelage. Kalvelage established numerous records this season, three in one game by scoring four goals, adding four assists, for a total of a record eight points. All this was accomplished in a 16-6 thrashing of Ashland. The victory was the largest defeat imposed upon an MSU opponent. Kalvelage also holds Spartan marks for most goals, 15, assists, 17, and points, 32, in a single season.

In looking ahead to this coming year, the track team expects better things as they will once again have the services of Herb Washington and Eric Allen. In golf, an amazing fourteen members will return, three being letterwinners, as they try to recapture the Big 10 title they held in 1969. The netters will return to the court with all five of their letterwinners with the exception of Tom Gray.

Opposite page, top: Bill Dickens putting at the Spartan Invitational.
Opposite, bottom left: DeArmond Briggs strains to return the ball against Ohio State.
Left: Ken Popejoy and Dave Dieters in the back stretch against Purdue.

Forest Akers Golf Course.
Opposite, top right: Randy Kilpatrick wins
the mile run against Purdue.
Opposite, bottom: Mike Madura and Fred
Vetter playing doubles against U of M.

The Spartan golf team should be in serious contention for the Big 10 championship. Hopes of the 1972 lacrosse team rest on the shoulders of Kalvelage, as he and his teammates will be out to break all kinds of records. After all, the team can really go nowhere but up.

### The Biggie Munn years

Serving in his 18th year as director of athletics, Clarence L. "Biggie" Munn has built the Michigan State University athletic program into one of the strongest in the country.

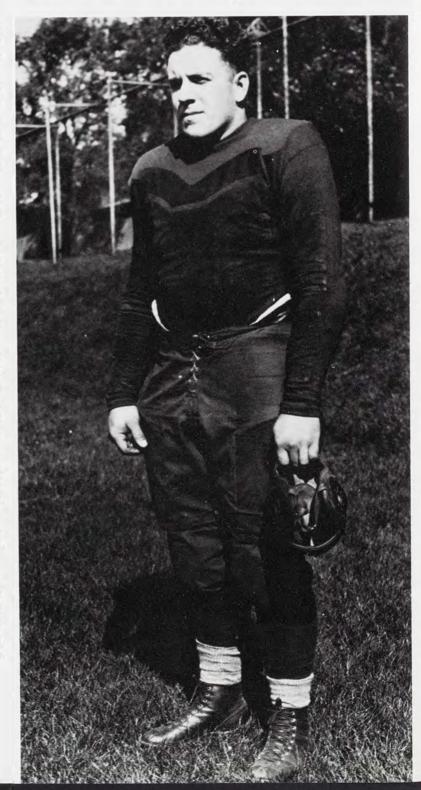

Heading an intercollegiate athletic program now numbering fifteen sports, the 63-year-old Mr. Munn took over his reign as director in 1954, being promoted from his head football coaching duties. In his seven years as the head coach of the Spartan varsity football team, Biggie compiled a remarkable record of 54-9-2.

Biggie Munn's fifteen years at Michigan State served to cap a fine career which started in 1932 as a coach.

Starring in high school as a fullback, Mr. Munn attended the University of Minnesota as a tackle and a fullback. In his senior year, 1931, he switched to guard where he won national acclaim. That year he was unanimously voted to the Big 10 and All-American teams, while the Chicago Tribune awarded him the Big 10's MVP.

The following year, 1932, Mr. Munn was appointed assistant head football coach at Minnesota where he held his position for three seasons. In that span of time, his Gopher squad rolled up a 17-3-4 mark plus two undefeated seasons. Biggie then moved up in rank being named head coach and athletic director at Albright College in Reading, Pennsylvania, compiling a 13-2-1 record in two seasons. Biggie then moved on to Syracuse as an assistant coach in 1937, then to Michigan for eight years as a line coach. He then returned to Syracuse for a year as head coach. While at the University of Michigan, Mr. Munn's squad mastered the art of winning with 56 victories against 14 defeats and two ties.

From Ann Arbor Biggie was brought to East Lansing as the head coach of the Spartan football team. In his seven years of tenure he built Michigan State into a football powerhouse feared throughout the nation. From the fourth game of the 1950 season through the fourth game of the 1953 schedule,

Opposite page: Clarence "Biggie" Munn as a member of Minnesota's football team. Left: Mr. Munn, head football coach at Michigan State University from 1947-1954. Below: (I to r) Guard Hank Bullough, Biggie Munn, and tackle Alex Beahu.

Biggie rolled to 28 consecutive victories and two unbeaten and untied seasons. Chalking up an incredible 54-9-2 record in his seven years, Mr. Munn also added a national championship in 1952 and a Big 10 championship and Rose Bowl conquest in 1953. He was named Coach of the Year in 1952.

In rendering his services to college football for 40 years, Mr. Munn can claim such outstanding achievements as election to Michigan and Minnesota's Sports Hall of Fame and his pick to Sports Illustrated's Silver Anniversary team. Mr. Munn was also inducted into the National Football Hall of Fame for both his playing and coaching careers. His selection to Christy Walsh's 25-year All-American team and the Football News naming him to their 100-year team are just a few of the major honors bestowed upon him.

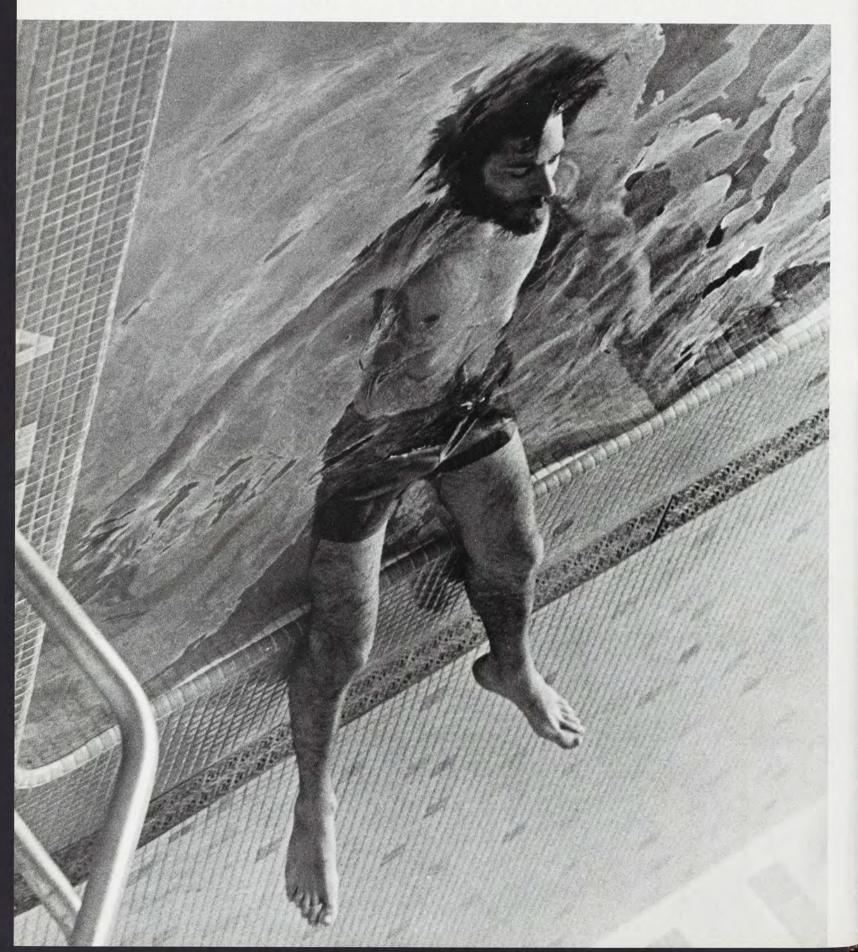

Closer to the home front, Mr. Munn prides himself on the superb Intramural program here at Michigan State which he has molded into one of the country's foremost and successful programs. The current I.M. building is one of the largest and most complete facilities for athletic activities in the nation.

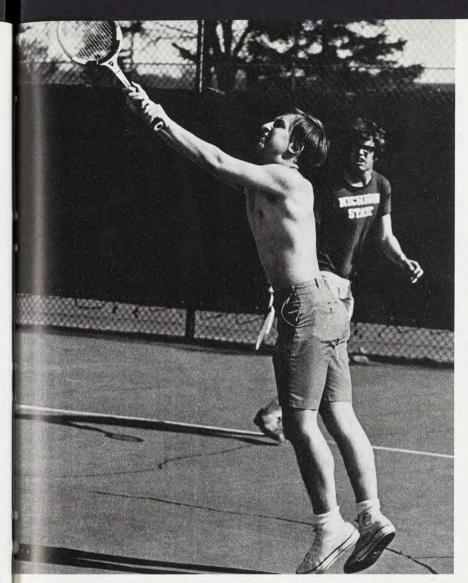

In the fall of 1971, Mr. Munn suffered a stroke which impaired his ability to fulfill the rigorous demands of his job as athletic director here at Michigan State. This setback to the university is great, but the corresponding loss to the Sports World is incalculable. There will always be an athletic director at MSU — but there will never be another Biggie Munn.

Top: Biggie Munn, the Athletic Director at Michigan State University from 1954-1972. Above right: Biggie Munn hands over head football coacning duties to Duffy Daugnerty as Mr. Munn becomes Athletic Director in 1954.

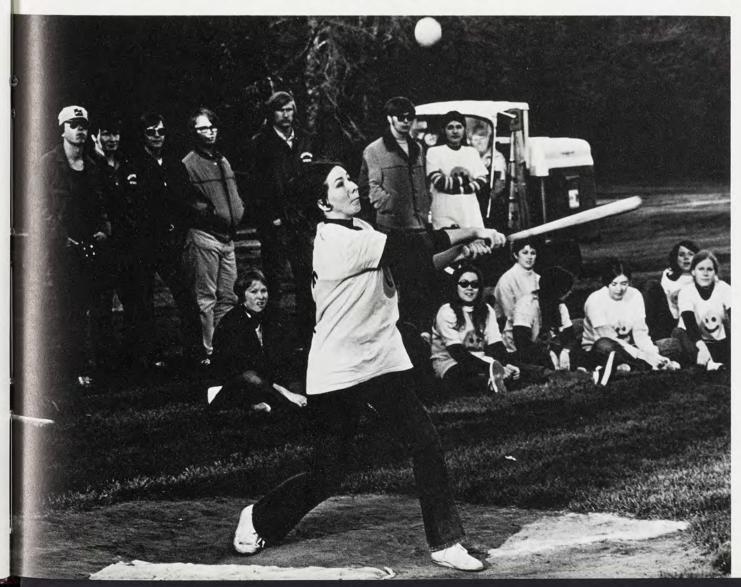

#### Rapidly-growing Intramural program on the move

The Michigan State University Intramural program is one of the finest in the country as it gives students athletic participation and stiff competition in 30 different sports.

Although total participation in scheduled competition dropped last year from 24,789 to 22,819, marked increases were noted in team events. With budget reductions cutting the number of sports provided by eleven, the number of teams entered in the various sports were on the uprise.

Men's touch football jumped from 307 to 324 teams while basketball saw an increase of 23 squads and softball 17.

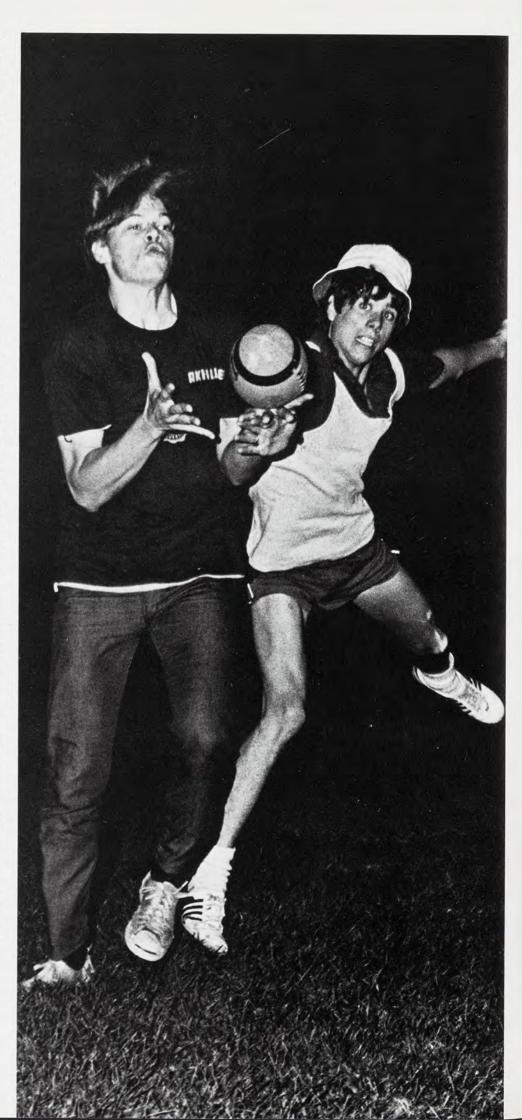

Spring sports appeared to be the major drawing card this past year — netting 7,072 participants, 5,610 in the softball league, while touch football in the fall attracted 4,860 members.

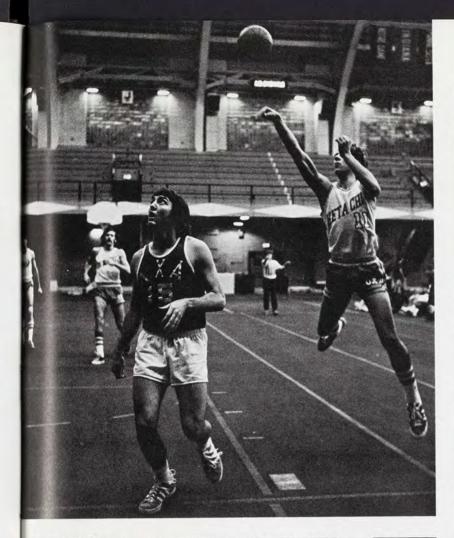

There were four All-Sports Champion teams crowned during the 1970-1971 season with Sigma Chi capturing the fraternity title. Holden wrapped up the title as the residence hall champs, the Royal Mounties were Independent winners, and the Impressions were named Independent Individual All-Sports Champions.

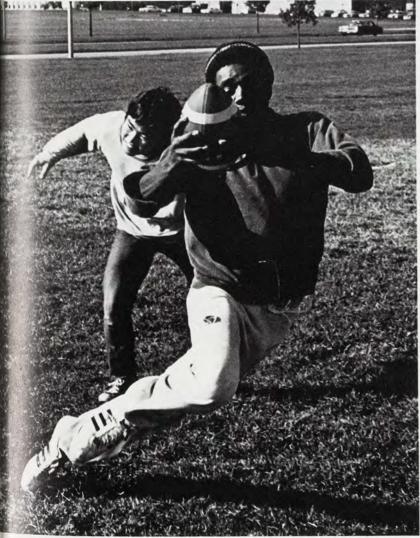

The I.M. Building is open approximately 85 hours per week including Saturdays and Sundays. It is run quite efficiently by director Dr. Frank Beeman and assistants Russ Rivet and Larry Sierra. Students are provided with a variety of sports inside the huge and complex building, ranging from football and basketball to fencing and handball. A few other sports facilitated at the mens I.M. are paddleball, badminton, soccer, handball and a variety of others.

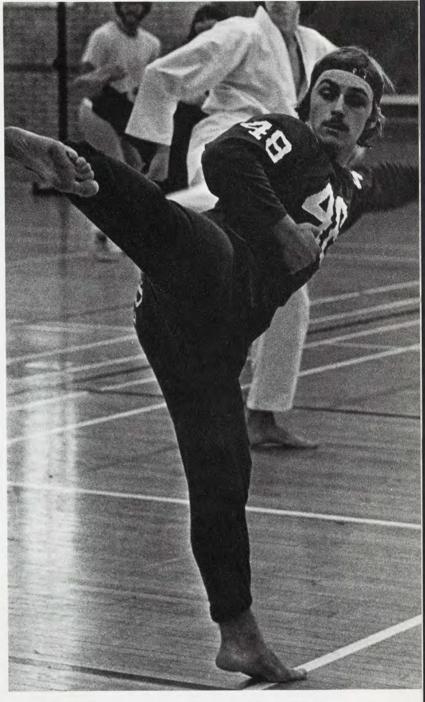

Tartan Turf for the first time has been installed in the men's intramural building on one gym floor surface, allowing a host of athletics to be played there. Football, baseball, basketball, and tennis can all be played on the new plastic grass.

The new turf is just another aspect of what makes the Michigan State University Intramural program one of the tops in the country.

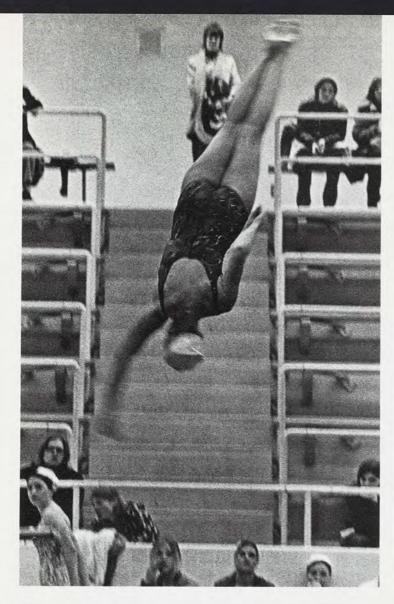

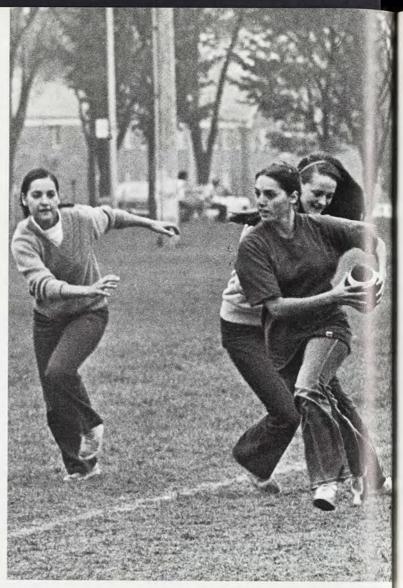

Opposite page: The pass receiver is jolted as the defender neatly breaks up the play.

Above: Some karate kicks are powerful as demonstrated here.

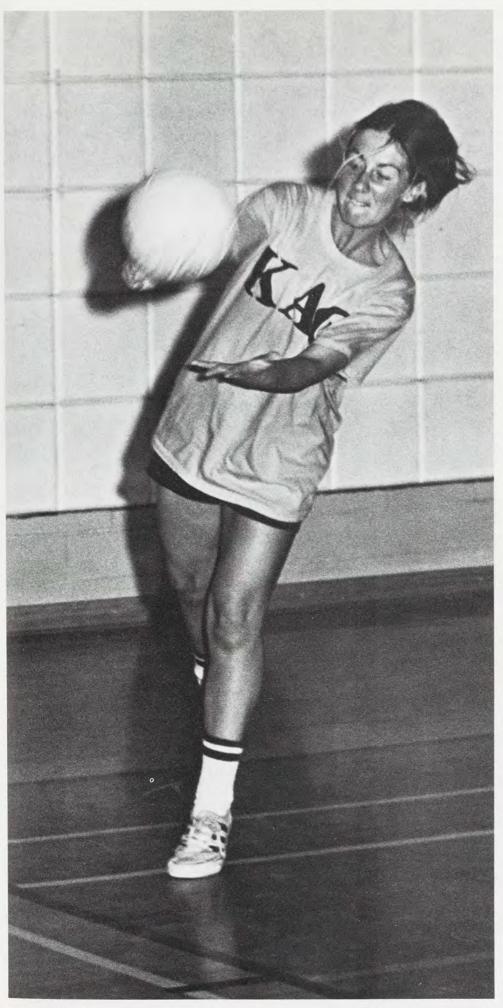

Above Left: Playing on the tartan turf in Jenison Field House, a Theta Chi player shoots over a Lambda Chi Alpha.

Left: Here a runner escapes the clutches of an opposing player in an East Campus intramural football game.

The sports world no longer belongs solely to the male, and the women at MSU have certainly asserted this point. When Carol Harding became director of the Women's Intramural program in 1962, participation was a meager 2,000. With the aid of increased funds and the help of students and faculty, the Women's I.M. programs and services were expanded and improved. In 1970, participation exceeded 122,000, 60 times the number just a

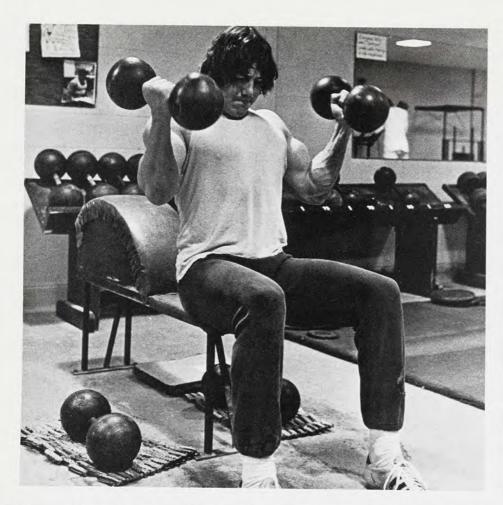

scant eight years before.

The majority of women are interested in the informal "drop-in" approach. A "drop-in" is one who stops by the I.M. at her leisure to participate in what she wants to. Although most facilities can be used without making reservations, some activities require that advance reservations be made to assure access to a court or gym. Some of the activities that one may participate in are swimming, dance, handball, basketball, volleyball, and badminton. To fill the wide range of interests and needs of MSU's women population the I.M. Building is open every day, and usually twelve to thirteen hours a day.

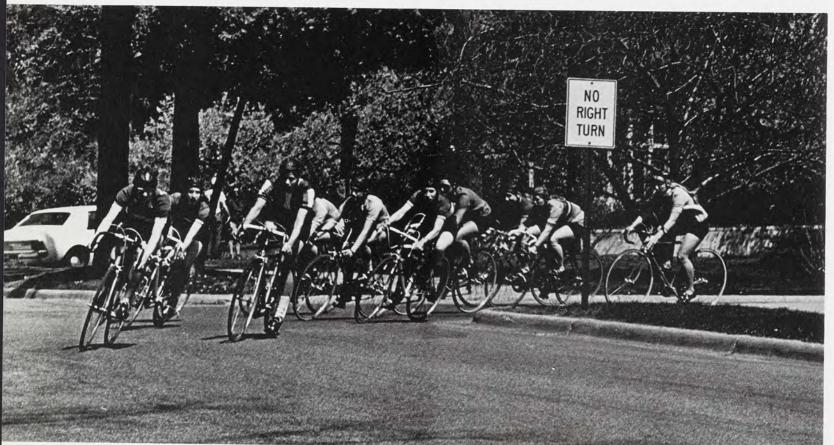

To those interested in a more competitive program there are team and individual tournaments. Each team has its own set of competitive sports, and each sport is scheduled according to four leagues: residence halls, sorority, independent and open-independent. The team events in fall term were volleyball and field hockey. Individual competition was in swimming and basketball free throw. Winter term was the time for basketball, bowling and swimming for the teams, and badminton for the individual. Competition between teams during spring term was in blooperball and residence hall bowling. The individual events were tennis, archery, track and field, and golf.

Another area which has wide appeal to both men and women on campus are the sports activity clubs. Most clubs are co-recreational and they cover a wide variety of activities.

The future of the I.M. program looks excellent as, each year, more and more people participate in it. To the Women's I.M. staff, "a sport for every girl and a girl in every sport". They say it and they mean it.

## MONOGRAPH: Mgr. Thorburn examines food, dorm situation

As manager of the MSU residence halls and food service, I have the responsibility of directing business operations. We try to establish harmony in the various operations of this division in the university.

This year our staff, under the direction of T. L. Smith and R. C. Underwood, initiated the use of color photographed dining hall cards as a more positive means of identifying students. This process we feel is more flexible than past ones, and will help decrease the amount of "free-loaders" in all university cafeterias. Experimentation of this process was made at McDonel Hall last year where it proved to be more effective than the old system.

Michigan State, being the first large university to establish a choice menu system for the residence halls, set up a committee which puts together food menus which they feel will provide all the students with a variety of items, and a balance of meals. The products for this service come from major packers and producers throughout the United States. We buy only the best choice grades of meat and fresh produce for our residence halls.

Most of the dorms' food processing of rough vegetables such as lettuce and celery, is done on automated equipment in the Central Services Building. Each residence hall makes certain it orders an adequate supply of products to meet its needs.

Last year there was a shortage of students in the dorm system due to a decrease in enrollment. Since student enrollment was increased this year some overcrowding resulted in dormitories. Provisions are being made to remedy the situation as quickly as possible.

The university tries very hard to compete favorably with off-campus facilities. We realize that not all people want to live in residence halls. We try to improve our facilities so that we can accommodate the students.

Both residence halls and food services are important to a great number of students. We work for creativity, keeping the student first in our thoughts. We are here to serve the students. Should a student feel he needs help, we are ready and willing to assist him. We hope that food services and residence halls will run smoothly and make this a successful academic year.

Lyle a. Thorsem

Lyle A. Thorburn

Manager, Food & Dorm Services

# Hall complex stereotypes begin to fuse

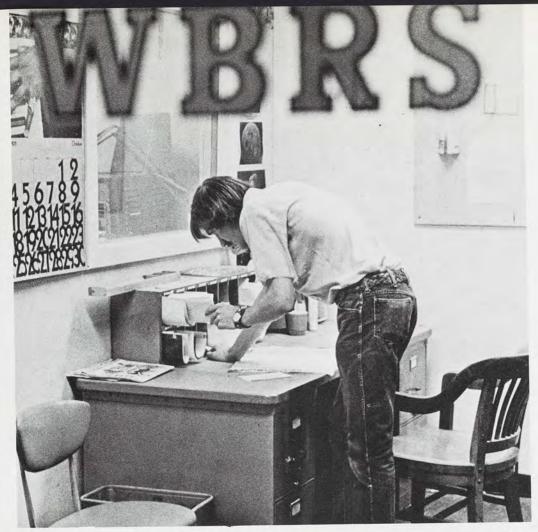

Working in the Phillips cafeteria, or volunteering to answer the phone at the Hubbard Information Center, or conducting a radio program at WBRS, is as much a part of a day's routine as attending classes and studying.

Looking forward to mail, reading the State News, or enjoying a pleasant meal with friends also constitutes part of the daily routine of dorm life — but a welcome part at that.

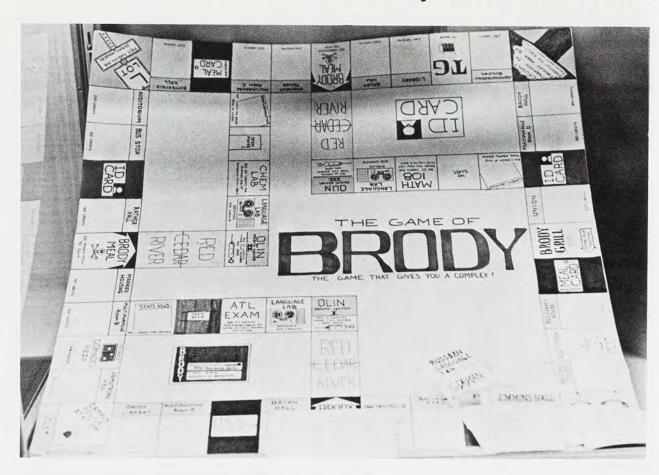

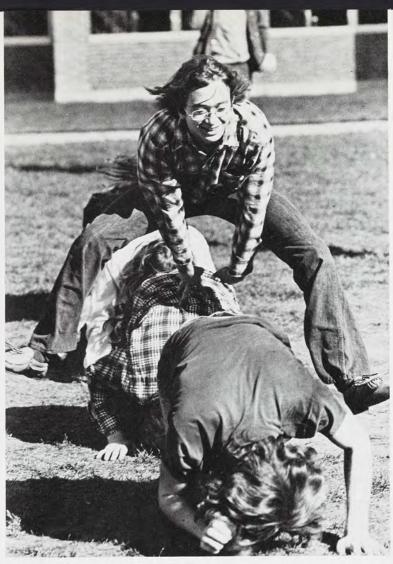

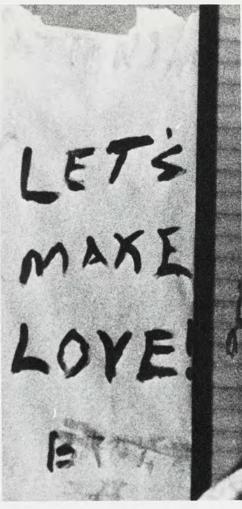

#### The child in me yearns to be free

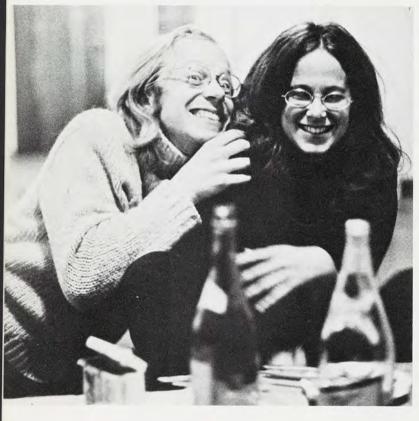

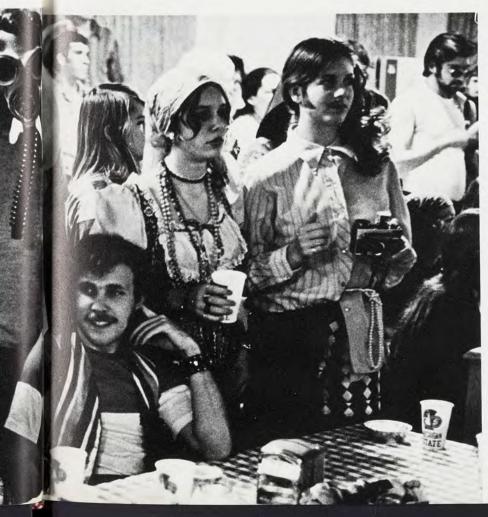

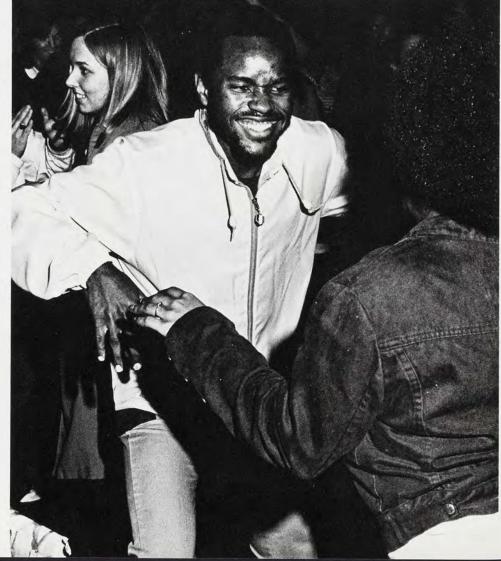

### We live, learn, and play together

#### **Dorms offer variety**

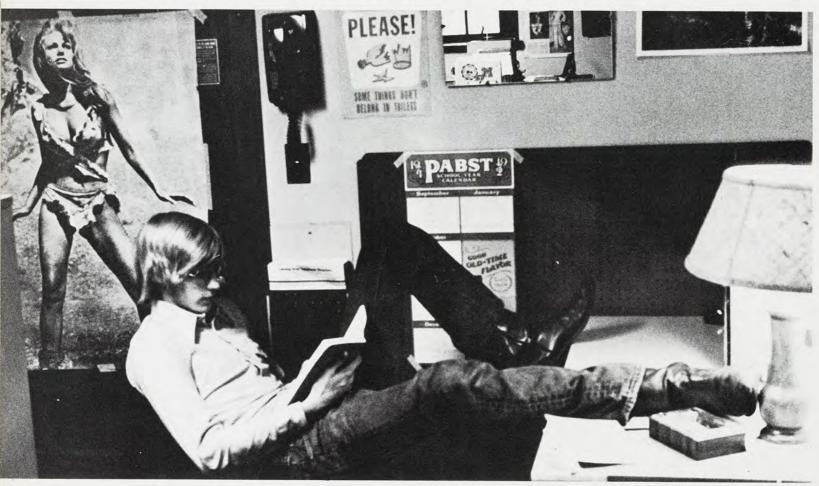

Dorm facilities offer residents many opportunities to express themselves. Rock bands give concerts regularly in many complexes. A number of dorm councils have organized symposiums in the halls themselves, giving residents an opportunity to informally discuss such topics as women's liberation, environmental control, sexuality, and minority groups. Most dorms provide a grill, TV lounge, an exercise room, a music room, and a recreation room for the student's leisure time. In addition each floor usually elects an activities chairman who schedules intramural sports activities between dorms.

Special seasonal activities such as masquerade parties and Valentine's Day dinners break up the monotony of everyday class and study routines.

The physical set-up of dorm environment brings about a great deal of personal interaction. Close bonds of friendship are formed. Sometimes this interaction takes the form of body painting parties, shaving cream fights, and all-night "pajama" parties.

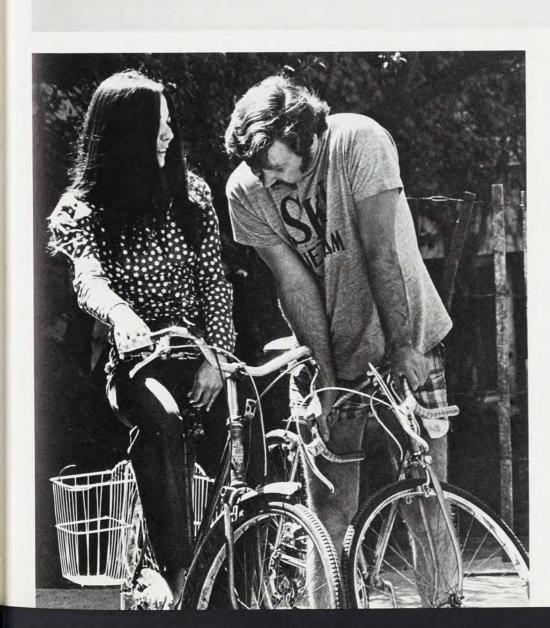

Dorms are no longer just places to eat, sleep, and study. The stereotypes of dorms have changed.

### MONOGRAPH: Always ready to listen

I am a Resident Assistant, an RA: I am a big sister, a listening ear, a crying post, a counselor, a mother, an information service.

A day does not pass when I don't listen to concerns about school -"I'm flunking out, Who's a good ATL prof?"; concerns about roommate problems — "She's so noisy and inconsiderate, We can't talk"; concerns about relations with the opposite sex — "We just had a fight and broke up"; concerns about being informed — "How do I know who my adviser is? or Where can I get some information about birth control?"; and most of all concerns about one's self-awareness -"Who am I? What am I doing here? Why do I act the way I do? How can I change?"

The best thing about it is that my floor and I work on all these things together toward a common goal — a goal to grow as individual human beings. My awareness of my worth, my capabilities, and my limits has been broadened by those precious experiences of working with the kids on the floor. By sharing experiences, beliefs, and values with each other, we gain insight and better understand one another and ourselves. We can grow "firmer, simple — quieter, warmer."

The sign on my door does not mean a thing unless I show the people on my floor what it means to me to be an RA. I show them I genuinely care about them as students, as individuals. I am responsible to them — that is part of my job — and will help them in any way I can.

When the day comes when everything goes wrong, I will be there down the hall ready to listen. That's a lot closer than going home or half-way across campus to talk it out.

I'll be able to feel with you not just because I am an RA but because I am a student, a friend, and a human being, too.

judy haas

### RA: one individual, many talents

Above: "Pioneer Bob" Boyer, RA in third floor Snyder Hall, expresses one side of himself through music. Opposite page, left: A true Renaissance man, "Pioneer Bob" takes time out from his RA duties to enjoy himself. Opposite right: "Pioneer Bob", after a lengthy hall meeting, pauses to refresh.

## MONOGRAPH: Marrieds find "U" housing "ample, reasonable"

When friends ask how it is to live in married housing, the answer is usually, "O.K." But actually if one stops to think of what is offered for the amount of money spent, the "O.K." turns out to be a "pretty good."

There isn't any exorbitant deposit to make before the signing of the lease. The only utility that has to be paid is long distance phone calls. Parking is no problem at all; in addition, the location in relation to campus is ideal. If any maintenance problems occur, they are taken care of that day or the next. This is much more convenient than waiting for a week or so until it is finally repaired. As far as noise is concerned, we have never had any complaints made on us nor have we ever felt the need to complain about any of our neighbors.

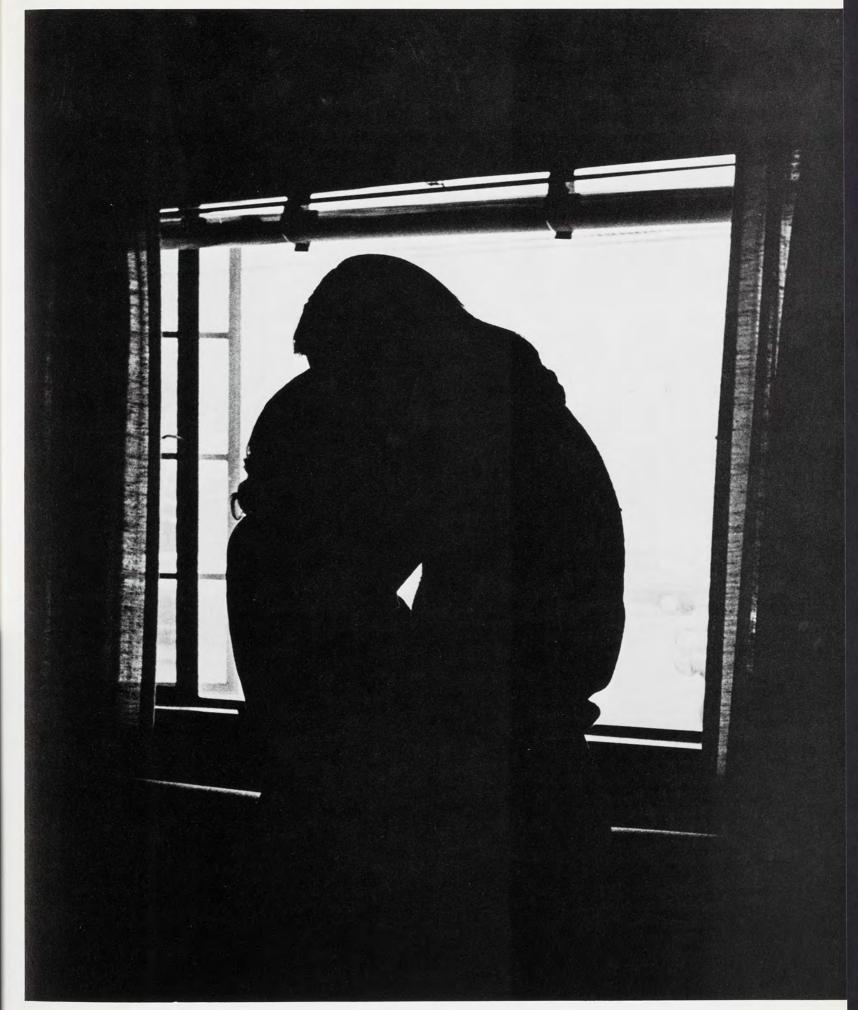

Married housing also supplies us with a reasonable amount of room. Our unit with a living room, kitchen and dinette, along with the bedroom and bathroom, accommodates us with all the room we need. Also,

closet space is more than ample. Before looking into married housing, my wife and I checked various apartments in the Lansing-East Lansing area. We found, from our experience, that a privately owned apartment with the same amount of room that our married housing unit has would cost a considerable amount more per month. This is quite a bit more than the rent we pay, which in our opinion, is the main advantage of the married housing program. There is a waiting list of approximately one year before being able to move in, but if couples are aware of this and plan ahead, they won't be stuck paying a stupendous price for rent in an equally ample apartment.

Although married housing lacks extra luxuries such as a garbage disposal, air conditioning, and a thermostat-controlled heating system, the price, location, and other conveniences will overpower these shortcomings. We can't really complain; after all, it can't be any more than what you make it yourself.

### Lifestyles: consider the alternatives

# Greeks strive for new image in face of changing social order

The Greek system across the nation is trying to re-establish its identity in the college community. Struggling against outdated stereotypes and apathy, Greeks are trying to change their image. This change involves a re-appraisal of goals, inter-Greek co-operation rather than competition, and a revised system of national organization which will destroy much of the red tape that has been strangling Greeks in past years. Anti-Greek sentiments are widely publicized and yet have no real effect on the situation; Greeks alone are directly responsible for their own failure or success. In the past year there has been success — Greeks nationally are growing five times faster than they are "dying."

Here at MSU Greeks are on the upswing. After a very depressing year with low rush totals and financial burdens pressing many groups, the large fall pledge classes presented a note of hope for Greek growth. This growth can be attributed to many things — a large freshman class, new relaxed rush rules, increased communication and co-operation between the houses, and the open minds of those rushing. All of these factors are welcomed by Greeks as the first

signs of a new Greek system at Michigan State.

Twenty-three sororities and over thirty fraternities at MSU continue to offer the student an alternative life style. When asked to define the essence of fraternity life today a Greek will mention terms like — "friendship", "brotherhood", "unity for a common goal", "a sense of belonging" and other general terms which never seem to capture the joys of being Greek. There are a variety of arrangements at MSU — whether living in a house, an apartment, or having a meeting-place only — and all of these types share the Greek bond. The campus is familiar with the traditions and active social life associated with fraternities and sororities; just as important are the organizational and philanthropic activities. Long, frustrating meetings are behind any successful activity; these meetings develop leadership and co-operation between members of each house, and

campus-wide. Greeks, as a whole, are more involved in campus and community service than other students because they are united under a common goal.

The future for the Greeks remains uncertain; there is still a long way to go in developing a relevant system that will thrive at MSU. Fraternities and sororities continue to change their image, making each member's individuality an asset to the group as a whole. There is need for a return to the ideals upon which Greek societies were founded — a need to serve each other and humanity. And while Greeks work to change themselves, the rest of the community must open their minds to this unique life style. Greeks will not die or be killed, yet whether they will merely exist, or grow and succeed, is a decision that the Greeks alone can make.

Right: The philanthropic side of fraternities — a young orphan is treated to a good time at a fraternity-sponsored Halloween party.

Below: A friendly row of smiling sisters welcomes future Greeks as part of rush.

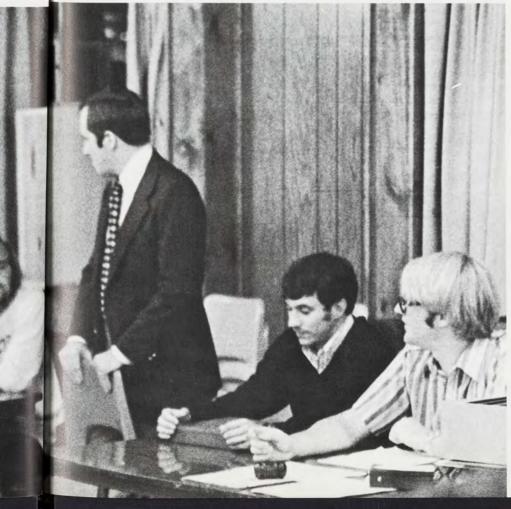

Bottom right: The Interfraternity Council strives for Greek unity at its meetings.

Opposite page, top: The Lambda Chi Jr. 500 is one of the traditions of Greek Week that has endured in spite of sweeping changes in the Greek system.

Groups

### Alpha Delta Pi

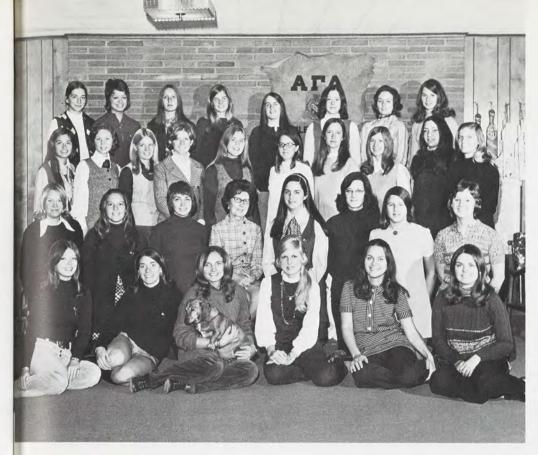

"But, after all, the very best thing is good talk, and the thing that helps most is friendship. How it dissolves the barriers that divide us, and loosens all constraint, and diffuses itself like some fine old cordial through all the veins of life — this feeling that we understand and trust each other, and wish each other heartily well! Everything into which it really comes is good."

— Henry Van Dyke Firesides, serenades, sports activities, and participation in the Foster Parent Program are some of the activities we share. Those who live in the Alpha Delta Pi sorority house have ample opportunity to make and enjoy all types of friendships.

#### Alpha Kappa Psi

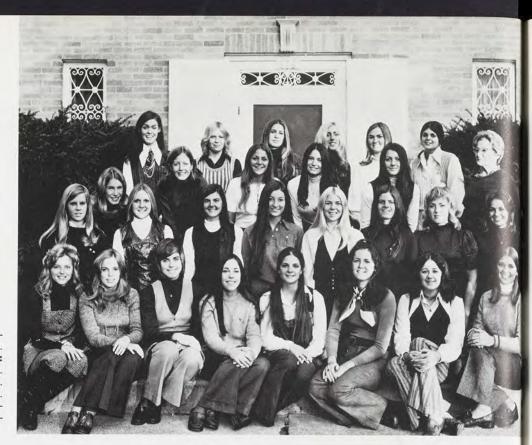

There are only eleven professional fraternities in existence today, and Alpha Kappa Psi is proud to be labeled a professional business fraternity, and the largest in the nation.

While at MSU, "getting it together" has put us athletically in the top third of campus fraternities. Our social calendar isn't forgotten by any means. We have an excellent Little Sisters' Organization of which we're proud. The business world is in constant change and through our alumni we're the first to know. We are ready and confident! We are the brothers of Alpha Kappa Psi!

"We are friends
reaching, searching, striving
to find happiness
together
yet
We are individuals
reaching, searching, striving
to find happiness
within."

- L. Liebold

# Alpha Xi

#### **Delta**

Alpha Xi Delta builds its strength on a close sisterhood of diversity, and firmly believes:

firmly believes:

". . . What belongs to us is not as important as to what we belong. There is unconquerable strength in being identified with some worthy cause and in belonging to some purposeful group. That to which we belong and to which we give our allegience and loyalty must be worthy and should represent the highest and the very best that we know".

-Paul S. McElroy

# Chi Omega

Diversity — even in the grasses.

Although following an inherent pattern
Each blade of grass takes the air, the water
And the energy of the sun
And develops an individual life —
Freedom and beauty.
Chi Omega is a living experience in diversity;
As in these years of blossoming
We see our sisters grow
And learn the wonder found in individuality.

# Delta Chi

The activities of our well-rounded brothers this year have included wine hayrides, costume parties, volunteer social work, and numerous games of "balloon ball" — the creation of an unrecognized genius. The present generation of Delta Chi's will attempt to continue in our long-standing quest for that most elusive of goals, the ultimate hamburger...!

# Delta Delta Delta

delta delta delta
more a home
than a house
more a family
than "sisters"
diversity
in both our members and our activities
and yet... united.

# Kappa Kappa Gamma

A home to me is what this red stone house,

White shutters with fleur-de-lis has been.

We planted tulips in the spring When we were young and first moved in.

Yet it's not just the color or form, But what's moving and breathing within

That makes it warm. There's many more of you

Who have filled my heart with love And made my life worth living.

# Sigma Alpha Epsilon

Following in the great tradition of SAE, the men of '72 have contributed to a more responsive atmosphere to college social style. Participation in sports, Greek functions and even community affairs are indicitive of the new Greek style of life. We have been strong contenders in football, paddleball, handball, and champions in volleyball. Each year we hold a Christmas party for underprivileged children. The blending of a proud heritage and a new idea for the future promises to make SAE all-new for the coming year.

# Theta Chi

What do you write about a fraternity and the house they live in? The tinsel and trappings of Greek life — rush parties, T. G.'s, pledge raids and initiation — or try to define brotherhood in five idealistic sentences? Better to define fraternity life as the passage of time measured not in days and years but as events, minor and major, and perhaps more importantly, the giving and taking, arguing, agreeing, compromising, and sharing with some 50 other guys who do the same with you because you're one of them.

# Alpha Gamma Rho

The men of Alpha Gamma Rho are celebrating their 50th anniversary on the MSU campus this year. Being a social and professional fraternity, the brothers are from all phases of the College of Agriculture and Natural Resources. The brothers have been extremely active this year, ranging from participating in the MSU Volunteers to various leadership positions on campus and the state level. Enjoying the social and service aspects of the Rho-Mate little sisters, the AGR's participate in athletics and scholastic achievements to "make better men and through them a broader and better agriculture."

### Alpha Tau Omega

Perched high atop the most heavily taxed piece of property in all East Lansing, Alpha Tau Omega saw a year full of more phases than a Presidential economic plan. From Fall skin games to unlimited Heights, the Tau's took each new challenge with moans, groans, an occasional trip to Mac's or the P-Bell, and ultimately . . . work. In a fraternity as diverse as the dancers at C.D.'s, as dedicated to success as J. Edgar Hoover, and as crafty as most of the Bars in town, ATO stands braced and ready for the ultimate challenge . . . Living in East Lansing.

ALPHA TAU OMEGA: ROW ONE: M. Schillinger; S. Trojanek; M. McDonald; C. Baldwin; R.S. English; J. Saryan. ROW TWO: M. Emmenecker; T. McGoldrick; G. Camillo; R. Ticchi; D. Leemgraven; L. Schillinger, Pres.; J. Jones; C. Baldwin, V.P.; M. Hansen; D. Gregg.

### **Delta Sigma Phi**

The meaning of words change with time and the word "fraternity" has come to mean "cop-out" for some. Delta Sigma Phi has chosen to be known as the un-fraternity. We live together, work together, have fun together, and enjoy an environment of involvement, where eventual success takes place. The Delt Sigs' specialty is individual achievement and the by-product is the fraternity's success, which is evident as we enter our 50th year at State. We are not "new", we are "on".

# **Delta Sigma Pi**

Delta Sigma Pi — not just an ordinary group of guys — but a dynamic professional business fraternity. Activities emphasize the professional aspect through speakers and tours, yet the social side plays a vital role in the development of well-rounded businessmen. Whether it be an I.M. basketball game, a Christmas party for underpriviledged children, a tour to Oldsmobile, or a mid-term "toga" party, the Brothers of Gamma Kappa Chapter are ready to live up to their ideals. Delta Sigma Pi — THE professional business fraternity.

DELTA SIGMA PI: ROW ONE: J. Miller; M. Hrydziuszko; M. Rossman, V.P.; R. Whitney, Pres.; S. Underberg, Rose Queen; J. Isca, V.P.; J. Vezino; B. Long. ROW TWO: G. Murphy; D. Amon; P. Sharp; P. Duskin; A. Holody; R. Gates; J. Zarb; B. Gurevich; R. Rusche; D. Letts; B. Smith; R. Rescorla; J. Nelson.

Archer; D. Outram; F. Burkeen; S. Finney.

#### **Delta Tau Delta**

The discovery of a balance between commitment to oneself and a concerned awareness of one's fellow man is a worthily-pursued goal. We have in our situation what we feel to be a particularly unique environment for the experience of such a pursuit. To feel for women and men sincerely as sisters and brothers and to know that you are regarded in such ways in return, has been upheld as ultimate human reward for a lifetime spent in the exchange of human experience.

The grail of peace can be had only through cooperation and understanding. May this be held in the minds and nurtured in the hearts of us all in the years of life to come.

#### **Delta Sigma Theta**

The Black Women of Delta Sigma Theta Sorority, Inc., is an organization dedicated to public service. Throughout the school year, they involve themselves in the Lansing community with such projects as the "Big Sister" program and the donation of canned goods to needy families. This year, the sororities annual Ball is a benefit affair; funds are forwarded to the Sickle Cell Foundation. They have also worked for both cancer and children's hospitals. The Annual "Icebreaker" is a dance that the Delta's give to finance their many service projects. They are also very concerned with and actively involved in all Black-orientated activities on campus.

#### **Gamma Phi Beta**

What is Gamma Phi Beta?
It is many things . . .
It is feeling completely natural with another, shedding all pretense and all sham, just being yourself.
It is sharing with another both the big and the little things, joy and sorrow, laughter and tears.
It is counting on another to understand your moods, to put up with your failings, to be there with encouragement and a smile.
How do I know what Gamma Phi Beta is?
I know because it is my friend and it is all of these things.

#### **Delta Zeta**

"We are separate stars
within
a mutual night
Against the encompassing darkness
Let us
Together
Light our candles."
—Joan Walsh Anglund

#### Phi Delta Theta

"A Brother is a Person -

Who will help you in the hour of sickness; Who will lend you a dollar without deducting the

interest

Who will help you up hill when you are sliding down; Who will defend you in the hour when others speak evil of you;

Who will believe in your innocence until you admit your guilt;

Who will say behind your back what he says to your face
Who will do all these things without expecting any return."
—Adapted from Dorothy C. Retsloff.

#### Phi Gamma Delta

People . . . with different faces, minds and backgrounds. Different? Yes! Individual? Very! But yet we all hold on to something that each of us can call our own. Something that lets us live, work, study and laugh together. Something that makes us feel concern for each other and ourselves as a whole.

We call that something Phi Gamma Delta. And we call its reason brotherhood . . .

Friendship

"and let there be no purpose in friendship save the deepening of the spirit.

For love that seeks aught but the disclosure of it's own mystery is not love but a net cast forth: and only the unprofitable is caught."

-Kahlil Gibran

# **Psi Upsilon**

As Psi Upsilon approaches its thirtieth year at the Michigan State campus, its tradition of social and academic excellence continues to grow. At the Psi U house, the diversity of individual brothers is enjoyed — but the overall unity of brotherhood is apparent. Psi U is especially proud of its housemother, Mrs. Margaret Warhurst, who is indeed both an asset and complement to the house.

PSI UPSILON: ROW ONE: D. Page; T. Walker; M. Reinert; M. Gilbert; M. Warhurst, Housemother; D. Gregg; F. Sharp. ROW TWO: C. Langhorst; J. Burnes; J. Locker; R. Gardner; B. Hill; B. Aughton. ROW THREE: T. Pletcher; J. Gardner; P. McDonnell; J. Paas; J. Jeltema; J. Vranich; R. McNeilly; J. Wirtz, Pres.; F. Gray, V.P.

SIGMA ALPHA MU: ROW ONE: A. Maisel, V.P.; 5. Schafer. ROW TWO: Kim; J. Valerine; M. Daneman; S. Levey, Pres.; B. Brickmer; R. Sills; H. Nibs. ROW THREE: T. O'Brien; M. Deitch; B. Holtzman; B. ### Sigma Alpha Mu

Where ever we go, we'll always be brothers,
Through rain and through snow we'll remember our pledge.

The purple and white, forever our colors, We will stand for the right to be faithful and true.

#### Sigma Kappa

"One heart, one way . . .

But our actions speak louder than words.

Each individual trying to achieve:

Sisterhood

Individuality

Giving

Merit

Aspiration

Keeping in mind that although each of us walks separately, these are the qualities that unite."

-Nancy Heian

SIGMA KAPPA: ROW ONE: D. Fiedler; B. Jenkins; D. Brant; S. Hedges; P. McKinety. ROW TWO: L. DuGan; S. Hunemorder; B. Parker; R. Gillete; S. Hitchcock; S. Bresnahan. ROW THREE: J. Brown; G. Park; P. # Sigma Phi Epsilon

Sigma Phi Epsilon is one of the nation's ten largest social fraternities. On this campus, Sig Eps maintain their individuality while at the same time sharing the benefits of brotherhood. Proof of this may be found in our brothers' varied interests, ranging from politics, business, and advertising to photography, medicine, and film-making. The house is the proud owner of MSU's "Sparty" football mascot — and the door is always open.

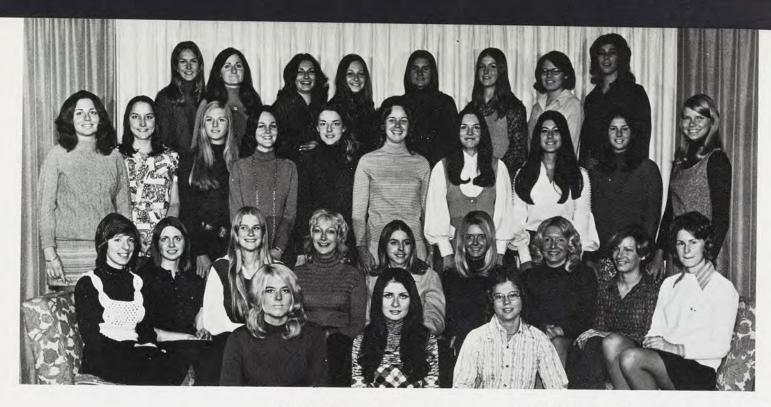

### **Theta Delta Chi**

"... the true relationship between people is that all are students and all are teachers. Teachings in this sense consists of helping each person with his own personal search for experience and his own goals. Although the goals are individual, it is apparent that the search for self cannot take place in isolation, that self must be realized in a community, and therefore the community enhances each person no matter what his particular endeavor."

-Charles Reich, The Greening of America

THETA DELTA CHI: ROW ONE: T. Luke; D. Gever; M. Acosta; D. Weber; R. Palmer; B. Vallin; T. Lindahl. ROW TWO: V. Marvin; R. Chandonais; D. Thompson; F. Slaughter; L. Gross; D. O'Connor; R. Seger. Rudzats; D. Byrne; M. Maxwell; R. Wood.

# **Zeta Tau Alpha**

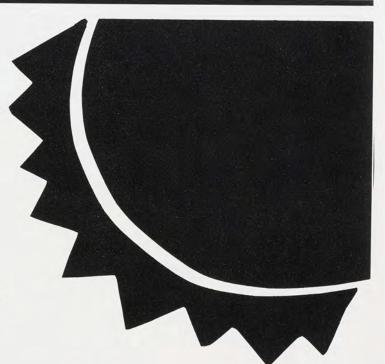

Choose life —
Only that, and always,
And at whatever risk.
To let life leak out,
To let it wear away
By the mere passage of time,
To withhold giving it
And spending it
Is to choose nothing.

ZETA TAU ALPHA: ROW ONE: P. Hawk; B. Love; M. Holda. ROW TWO: J. Horvath; V. Watkins; L. Reuter, V.P.; P. Nickoloff; B. Luzadder, Housemother; V. Clard; C. Kinney; C. Cruice; C. Reed, Pres. #### **IFC**

Promoting brotherhood among the separate fraternities on the MSU campus is the main function of Interfraternity Council. The council coordinates rush proceedings, the planning for Greek Week, and intramural sport events. Interfraternity Council strives to make the student body aware of the Greek community's activities and functions.

# Pi Tau Sigma

Men of this national mechanical engineering fraternity strive toward advancement and achievement in their field. Members of Pi Tau Sigma strongly believe that honor and dignity are important to the engineering profession. Members are selected on the basis of their scholastic ability and achievement.

PHI TAU SIGMA: ROW ONE: Karen Trowbridge; Don Dansbury, Vice President; Gary Woollard, President; D. J. Renwick, Faculty Advisor; Lynn Tilly, Treasurer; Ron Wangerow, Vice President. ROW TWO: John L. Shook; Richard Hintz; Frank Vaclavik; Steve Forbes; Patric J. Albert; James A. Hall; Kenneth Wylie; Pete Hypnar.

PHI GAMMA NU: ROW ONE: Vickie Malinoski; Pauline Misjak; Jean Taylor; Cindy Kay; Susan Demmer; Sheridan Petrunia; Barbara Frede. ROW TWO: Gwendolyn Mason; Linda Linn; Cathy Brender; Linda Swenson; Terry Konecny.

#### Phi Gamma Nu

In our national professional business sorority, we share similar interests and goals. We take pride in each other's high scholarship, and work for a friendly association of all women in the College of Business. We occasionally invite business and industrial people to speak to us. We also plan various activities with the two business fraternities on campus. Togetherness is Phi Gamma Nu.

MSU TABLE TENNIS CLUB: ROW ONE: Dan Elliot; Mark Spieherman, Vice President; Burton, President; Ingram, Secretary-Treasurer; Lawrence Sutson; Merton Goode. ROW TWO: Bong Ho; Jerry Reale; Earl McMaster; Bill Groomer; Ed Schneider; Wayne Enders; Wallcae; Schwartz. ROW Bernie Koziel; C.K. Hunt; Jay Harman; Neil Snyder; Linda Abbott; Rodney Ray; Vic Steinman; Jay Olshansky.

#### **MSU Table Tennis Club**

After defeating all opponents in intercollegiate competition, we sent a team to the United States Open Team Championships. In competition with 83 other teams we won a commendable 25th position. For the first time in the club's history, the team became affiliated with the United States Table Tennis Association and the Michigan Table Tennis Association. We work toward excellence in tournament play through team cooperation.

STUDENT SENATE OF AGRI-CULTURE AND NATURAL RESOURCES: ROW ONE: Rich Anda; Harry Meinta, Chairman of Activities Com-Martha Charlene Powers, Secretary-Treasurer; Hilma Volk; Bob Craig, Chairman of Academic Committee; Bruce Harte, President. ROW TWO: Larry Connor; Norma Brown; Gary Moll; Dale Grabill; Ralph Swartzendruber; Richard Samson; Carl Wolfe; Gordon Tulgestke; Phil Kern; James Manoi; Gary Schneider; Bob Rosnow.

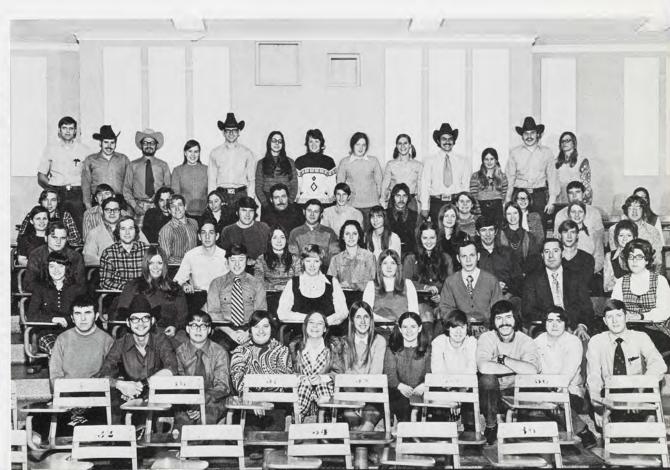

#### **Student Senate**

We are concerned students, striving for quality education at MSU. A governing body with one representative elected from each department of the Colleges of Agriculture and Natural Resources, the Student Senate works to achieve an academically sound college while reviewing the courses offered by the colleges. A college magazine, Focus, is published to inform MSU students of academic opportunities.

BLOCK AND BRIDLE: ROW ONE: Bill Sheridan; Jeannette Hogarth; Don Samuel; Claudia Čarbon; Chris Elliot; Rene Raines; Conni Taylor; Barbara Siebarth; Terry Calhoun; Gerry Kujawa; Mike Vance. ROW TWO: Lynn Pace; Theresa Mullen; Mike Elliot; Nancy Diuble; Barb Vincent; Pete Sweeney; Dr. Merkel; Jenny Bennett. ROW THREE: Rich Walunas; Michael Boudreay; Paul Bloom; Elizabeth Rosalak; Linda Welply; Jackie Shade. ROW FOUR: Cathy Sadison; Ken Spence; Jeff Ditts; Paul Anstead; Marvin Brown; Anstead; Marvin Brown; Margaret Eiler; Gail Buckham; Mary Jane Heinrich; Jenny Walkup; Terry Gawel. ROW FIVE: David Noggle; John Freneis; Mike Adelaine; Barb Banks; Kirk Rand; Robert Gilbert; Larry Williams; Roxann Garner; Jan Koepf-gen; Jim Gillespie; Maria Herrmann. ROW SIX: Ray Clark; Bob Hilzinger; Walt Scaramicci; Nancy Alt; Steve Cribley; Susan Butler; Deb-bie Swift; Ruth Miller; Carol Caviness; Marianne Dave Meeuwse; Kathleen Karsten.

#### **Block and Bridle**

Block and Bridle is designed for students interested in livestock and livestock production. Winter term, we learn while competing with each other in livestock and meat judging. Spring term, we sponsor a round-up and horse show to display our skills. Profits are used for traveling expenses to competitions on the state, regional, national, and internationals level. We help each other learn to excel through competition.

# **Landon Hall**

Landon Hall has finally seceded from the "Union of Convent Corners." Enjoying our "independence," our activities have been tremendous and diverse. We gave a party for disadvantaged youngsters, organized all dorm parties, (including a "Fabulous 50's" party), sponsored weekly prayer meetings, and boasted a winning basketball team. Landon Hall enjoyed a closeness that is not easy to come by in the larger dorms.

# St. John's Center

St. John's Student Center is a Catholic parish composed of students, faculty, and staff affiliated with MSU. Every term we sponsor a weekend retreat in Christian living to help us find ourselves as Christians in relation to the world. We operate a Sunday School Program for 1st through 8th graders, taught by members of the congregation. Attempting to make the liturgy more meaningful to students, a committee works out new interpretations.

TOWER GUARD: ROW ONE: Mrs. Gordon Guyer, Advisor; Anne Duckworth, 2nd Vice President; Eliza Callow, President; Jeannie Rice, 1st Vice President; Dorothy Piercefield, Secretary; Donna Pirek, Treasurer; Mary Leichtz, Faculty Advisor. ROW TWO: Carol Casbon; Karen Kuyper; Deborah Stetson; Sandy Smith; Amie Sokai; Amy Bornstein; Jackie Itzkow; Stacy Flanders; Toni Ihrke; Martha Schmitzer.

#### **Tower Guard**

Members of Tower Guard, a sophomore women's honorary, are selected from the 200 women earning the highest academic averages fall term of their freshman year. The organization's activities include several service projects. We organize the blind reading program, usher at commencement, and work at registration. Traditional projects of Tower Guard include the Alumni Tea in winter term and new member selection during spring term.

#### **Senior Class Council**

Striving to make campus life a bit more tolerable for a graduating class of thousands, the Senior Class Council carried on the great tradition of sponsoring a series of "senior nights" at the local bars. In February, we helped a large number of seniors gain a better understanding of the job market through "Career Opportunities '72". The selection of members of the "'72 club" honored the class' most outstanding members.

SENIOR CLASS COUNCIL: Steve Bennett; Barb Miller; Elliot MarcStern; Terry Rapchak, Secretary; Jan Owings, Treasurer; Paul Obolewicz, Chairman.

### **Army ROTC**

A Military Department was established on this campus in 1884 and the first professor of Military Science and Tactics reported for duty in November of that year. In 1917 the Military Department officially became part of the Reserve Officer's Training Corps and has remained as such for the past 55 years.

1972 marked several innovations in the Army ROTC Program at MSU. For the first time since ROTC became elective in 1962-63, enrollment increased. In December, Congress passed a bill which doubled the monthly subsistence allowance from \$50 to \$100. The bill also authorized 6,500 Army ROTC scholarships. This was an increase of 1,000 over the previous authorization.

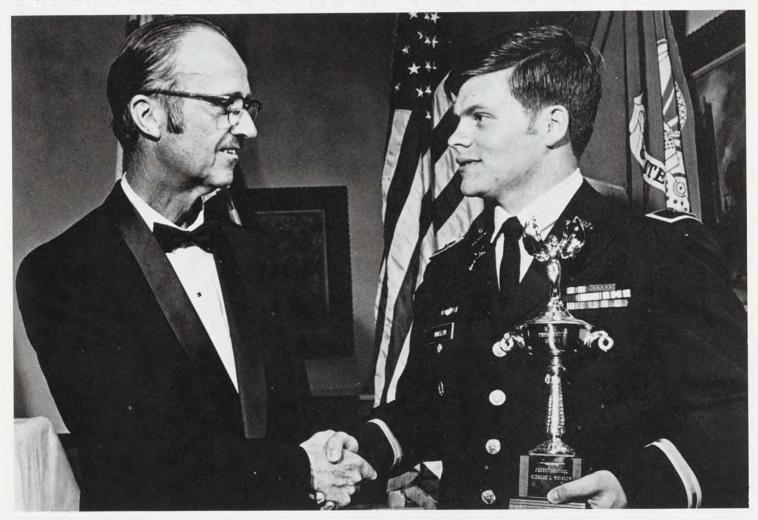

The Department of Military Science at MSU is a pioneer in the field of curriculum improvements. Two years ago university and military officials approved major academic changes in the curriculum. Today, many other campuses are considering adopting similar curricula for their ROTC programs.

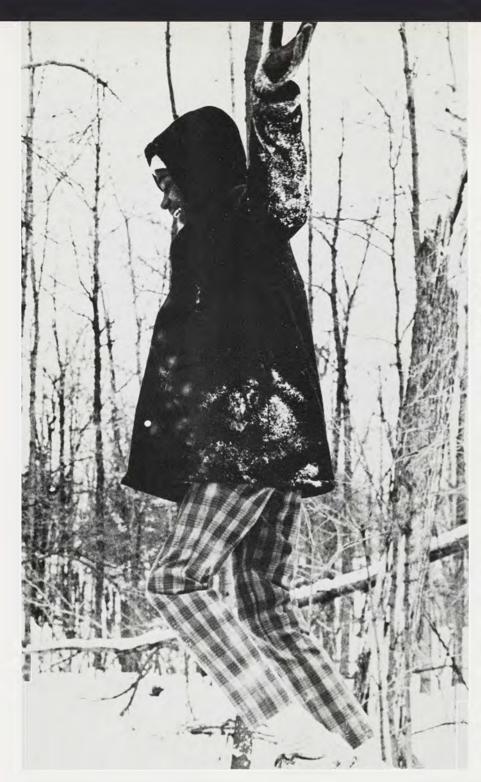

Opposite page, top: Army ROTC student issues patrol order during field training exercise.

Opposite, bottom right: Army ROTC student move out to the woods to practice survival

training.

Below: Herman L. King, Assistant Provost, presents the President's Cup to Cadet Richard L. Winslow. The award is won each year by the most outstanding graduating senior in both the Army and Air Force ROTC programs.

#### **MSU Volunteers**

This year over a thousand students will spend 3-5 hours a week for at least the full academic year. They spend in all more than one hundred thousand man-hours and drive over 100,000 miles in the Lansing area. They...

investigate pricing in local stores
research cases for Legal Aid
solve consumer complaints
fill out tax forms for foreign students
tutor Ingham County Jail inmates
act as Big Brothers
help out in day care centers
teach mentally retarded kids at Beekman
Center
coach English for foreign students
read to the Blind
visit the Ingham County Extended Care

read to the Blind visit the Ingham County Extended Care Facility

are therapists in mental health
Through the Volunteer Action Corps, they ...
move low income families
paint homes for people
build wheelchair ramps
babysit
housekeep

And a lot of other things happen, like . . . playing basketball in the neighborhoods teaching photography going to the movies with kids holding skating parties for 500 people teaching handicapped people to swim acting as volunteer probation officers

Seniors

Above, right: Anxious jobseekers languish in lines at the Placement Bureau. Opposite page, bottom left: Some applicants even camp out on cots hours before the Bureau's doors open. Opposite, bottom right: Placement Bureau Director John Shingleton.

# MONOGRAPH: "Any MSU graduate can get a job"

As director of the MSU Placement Bureau, I am responsible for developing a career planning and job placement service to students and alumni of MSU. This involves substantial communications with students, faculty, and employers. Our job is to inform students of the job opportunities and employers of the availability of students and their abilities and education.

Since the Placement Bureau was established in 1945 we have operated with one idea uppermost in our philosophy: to serve MSU students. We accomplish this goal in many ways. In addition to career counseling, the Bureau provides valuable information about the job market and new trends in employment to make the student more competitive in his quest of employment.

Six assistant directors see a steady stream of students throughout the year. These people help the student plan his job campaign, prepare and write a resume, arrange for interviews, or seek summer or part-time employment.

To further assist students, the Placement Bureau issues a weekly bulletin announcing employers recruiting on campus each week. Bulletins of job opportunities for alumni, and for people in elementary, secondary, and higher education administration are also published.

Students may seek vocational information or assistance from staff personnel at the Placement Bureau. Located within the bureau is a library containing descriptive literature of over 3,000 organizations for student reference. Presentations are given on campus on the subject of careers trying to communicate to the students not only what we can do for the students, but also what they can do for themselves.

Students are responding aggressively to this year's tight labor market. The job outlook for the class of

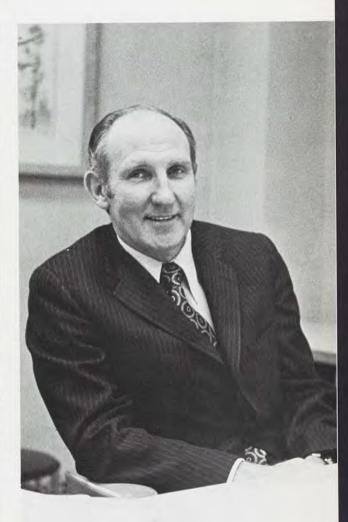

'72 has been similar to last year's with students in engineering, computer sciences, natural sciencs, and the health-related curricula in the greatest demand. Social science, liberal arts, and education majors are experiencing difficulty in finding career positions.

Women and minority students, however, are in a unique and enviable position this year, particularly if they have majored in one of the technical, scientific, or business fields. Despite the job market they are still in demand by employers.

I believe that anyone who graduates from MSU can get a job. Those who don't get jobs are those who have geographical restrictions or who haven't carried out a total job campaign.

Our gratitude to these professionals who helped make the 1972 Wolverine a reality — Delmar Printing Co.: Ed Hackleman, Mike Hackleman, Wayne Wolfe, Mrs. Jane Linker; Delmas Studios: Sam Fields; State News Photographic: Bervin Johnson; MSU Information Services.

The 1972 Wolverine is printed on 80 lb. Northwest Mountie Matte by Delmar Printing Company of Charlotte, North Carolina. The body copy is set in ten-point Optima Medium. The headlines are set in 24-pt. Optima Bold. Division headlines are set in Cooper Black. End sheets are 65 lb. solar yellow Hammermill cover stock. The cover is silk-screened yellow on orange Arrestox; production by Delmar.
