In Other Words. "The Curse of the Canned Goods Trade."

"There is more opportunity for deception in the canned goods trade than in any other department of the grocery business," said a prominent jobber to THE TRADESMAN's reporter recently, and whenever you can give retailers any pointers on the subject, you will confer a lasting benefit on everyone who stands up for good goods and honest dealing."

Acting on this suggestion, the canned goods reporter of THE TRADESMAN has been giving the subject especial attention for several weeks past, and is finally enabled to lay before the trade the result of his investigations.

Mr. H. F. Hastings, the Jumbo grocery broker, was first applied to for assistance, and proceeded to elucidate the subject at length, illustrating his points by opening up a number of cans, on which part of the programme his assistant, Mr. Remington, looked on with a considerable degree of interest and approbation, as the opened cans subsequently afforded him an excellent opportunity for exhibiting his unlimited assimilating powers. "Almost every packer and dealer," said Mr. Hastings, "puts up two grades of goods—Standards and Seconds. In the first grade, nothing but the choicest fruit, fish or oysters, as the case may be, are used, while all inferior goods are put up under the other brand. In some cases, as with 'William Maxwell' peaches for instance, the fruit is claimed to be equally as large and fine, the only difference being in the strength of the syrup used, or a slight shortness in weight. The first grade goods always bear the name of the packer, while the second grades are put up under the name of a fictitious packer—in other words, the name of a man or firm that exists only in imagination. So long as the difference between the two qualities is kept well in mind, and the goods are bought and sold with a clear understanding of the merits of each, there is no harm to the trade; but when unscrupulous jobbers impose upon their customers by selling them Seconds as Standards, it is high time the matter was understood by every dealer."

Mr. Hastings then opened a can of A. Booth & Sons' raspberries, and also a can of the same fruit labeled "D. W. McNair," which is Booth's second grade. In the former case, the can was full to overflowing with ripe, luscious berries, and the syrup was rich, making a dish ready for the table. In the latter case, however, the berries were small and inferior, some half ripe and some over-ripe, the can was but two-thirds full, and the syrup was water instead. This is an average case, and will serve to distinguish the difference between the grades better than any wordy explanation can do. As Mr. Hastings has been engaged in the canned goods trade for years, and is thoroughly acquainted with all the details of the business, his conclusions in the matter may be accepted as absolutely correct.

BALTIMORE SECONDS.

The following is a full list of the Seconds packed at the Baltimore market, the reliability of which list is vouched for by the Trade:

ANOTHER FRAUD IN THE TRADE.

We learn, says the Baltimore Trade, that some packers are putting up not only dried Lima beans and peas, but salt-packed string beans, and that the latter, at least, will be sent out as green packed goods. As much of this stock comes to the market when other and more perishable goods are in season, a method has been devised of putting large quantities away in salt, and at this time, when there is a lull after the regular packing season, they are taken from the hogsheads, washed, soaked and packed at an advantage, as to opportunity. If the public want these goods, there is no reason for refusing to supply them; but the public should know what they are buying, and there is, or soon will be, a real disadvantage to genuine fresh-packed goods if these come into dishonest competition with them, which will be the case if these salt-packed beans are sold for season's pack. If the packers want honesty from buyers, they must not expect the privilege of putting deceitful goods on the market. It can be accepted as a principle, that the evil results of every wrong in the business will eventually have to be borne by the packers, whether the offense be their own or that of the distributors. It is therefore folly to condone deceitful packing.

The Figures in the A. S. Sack & Sons' Failure.

L. S. Baker, assignee of A. S. Sack & Sons, clothiers of Big Rapids and Marquette, sends THE TRADESMAN a full statement of the latter's affairs, from which the following condensation is made:

The merchandise and fixtures of the Big Rapids store (costing \$17,563.94) has been appraised at \$9,170.23, and \$2,043.49 in accounts estimated at \$610.99, making the assets \$9,784.71. The merchandise and fixtures of the Marquette store (costing \$13,381.44) have been appraised at \$7,351.39, and accounts (calling for \$346.40) at \$90.65, making the assets \$7,451.04, and the total assets \$17,235.75. The liabilities are \$35,312.26, distributed as follows:

Houseman, May & Co., Grand Rapids, \$3,427.99
Chas. Tompkins, Big Rapids, 322.25
A. E. Williams, 101.00
S. Wilderg, 62.70
Other small creditors, 16.74
Detroit firms, 402.19
Milwaukee, Chicago and N. Y. parties, 28,997.39
Total, \$35,312.26

It is very probable that the matter will be adjusted, and the firm of A. S. Sack & Sons be allowed to resume business, as a large percentage of the creditors has already manifested a disposition to compromise.

Figures in the A. S. Hooker Failure.

A. S. Hooker, who formerly operated a store and mill at Paris, and lately removed the latter to Big Rapids, has made an assignment to James G. McElwee, who has filed a statement with the county clerk, placing the assets at \$6,542.86, and the liabilities at \$9,619.34, distributed as follows:

Fox, Musselman & Loveridge, Grand Rapids, \$2,417.70
Cody, Ball & Co., 105.00
Grand Rapids Packing Co., 103.00
W. T. Hooker, Paris, 101.00
T. Cavanaugh, 50.00
D. F. Comstock, Big Rapids, 2,500.00
Canon & Gotshall, 1,400.00
A. E. Williams, 800.00
W. E. Overton, 100.00
N. H. Beebe, 100.00
Geo. Cornell, 310.00
Glidden & Marsh, 500.00
Georgia J. Williams, 1,000.00
Other creditors, 847.12
Machine Co., Mansfield, Ohio, 700.00
W. S. Phelps & Co., Dayton, Ohio, 387.00
J. N. Bailey, Spencerville, Ohio, 30.00
Labor debt, 220.52
Total, \$9,619.34

The lands and house, on which the assignor has paid considerable money, are not included in the assets, while the debt remaining due thereon is included in the liabilities. Deducting this amount, the footings appear as follows:

Assets, \$6,542.86
Liabilities, 6,079.34
Assets above liabilities, \$463.52

There is a disposition on the part of the creditors here to hold off, and not put their claims in the hands of the assignee, as Hooker is a young man and may wish to engage in business again. He stated to a jobber here but a few days before he failed that he was worth \$10,000 over and above all liabilities. That statement and the showing above seem to conflict with each other.

Revolution in Logging Appliances.

Chas. E. Belknap shipped a carload of sleighs to Albany, N. Y., Monday, the first shipment of the kind ever made to that place. He is full of orders for large wheeled vehicles for logging purposes, and predicts that the time is not far distant when they will entirely supersede the use of sleighs. D. P. Clay ordered a complete outfit of sleighs this fall, and sent them into the woods; but as there was then no prospect of snow, he has placed an order for an equal number of logging carts, which he proposes to use hereafter, discarding entirely the use of sleighs. Michigan lumbermen unite in the opinion that better results accrue from summer logging than winter, as longer hours for work and better service from men are obtained, while the wear and tear on both animals and vehicles are necessarily less.

Logs Run on Rogue River.

W. H. Powers, secretary and treasurer of the Rogue and Grand River Log Running Co., furnishes THE TRADESMAN with the following table, showing the number of logs handled by the company during the past season, and the individual owners of the same:

C. C. Comstock, Grand Rapids	8,490,000
L. H. Withey & Co.	1,235,000
C. F. Nason	1,169,000
A. B. Long & Son	1,072,000
Michigan Barrel Co.	705,000
Grand Haven Lumber Co., Grand Haven	11,864,000
Russell, Cairnes & Co.	10,015,000
Wm. Roze	37,000
Frant & White	32,000
Fray & Sons, Rockford	690,000
Scattering and unknown	1,831,000
Total	39,090,000

Early Closing on Saturdays.

After much solicitation, the grocery houses have concluded to try the experiment of closing at 3 o'clock Saturday afternoons hereafter. Whether the innovation will be made permanent, or remain in force only during the short winter days and so long as business is not particularly rushing, has not yet been determined. In the meantime, visiting buyers would do well to keep in mind the fact that business is suspended promptly at 3 o'clock, and thus avoid disappointment.

TRADE TALK.

Better Feeling All Around—Miscellaneous Matters of Interest.

THE GENERAL MARKET.

Business has been fairly good during the past week, and a more hopeful feeling seems to prevail in commercial circles. Grocery jobbers report a slight improvement, with little change in prices, while the dry goods trade has been satisfactory, with a firmer tendency. Trade in all lines of fancy and holiday goods has of course been rushing. The advent of snow will undoubtedly do much to stimulate the boot and shoe business, and tend to improve trade in almost every line. Collections are fair, but require sharp looking after.

FURNITURE.

The resident correspondent of the Furniture Gazette reports the present condition of the trade at this market in the following fashion:

The more written about the present condition of the furniture trade, the less intelligible the situation becomes. It is useless to deny that business is dull, and it is equally foolish to maintain that the future bears promise of better times. The stagnation is by no means local, but is so general that nothing short of a complete revival of business can bring about the desired change. None of the factories here are working as many men as a year ago, and the output is correspondingly decreased. Moreover, fewer new styles will be gotten out for the Spring trade than for several seasons past. This disposition to curtail expense, where there is any cause for conservatism, is characteristic of this market; and to this fact, more than to any other, perhaps, is due the small number of financial disasters that have visited the furniture trade here in times of adversity.

COUNTRY PRODUCE.

Cider—Good quality and selling freely at 18c@20c per gal.

Celery—Active and firm at 30c per doz.

Cabbage—Firm and scarce at 86c@91c per 100. Fancy heads, 10c.

Clover Seed—Not much moving. Some sales made at 5.50c@5.65c per bu.

Sweet Potatoes—Jerseys, Baltimore and Illinois are firm and somewhat scarce at \$5.00@5.50 per bbl. The winter kind, dried, which will be shipped whenever the weather permits, will be in stock until about the holiday season.

Grapes—Catawba, very scarce at 10c.

Cranberries—Cultivated Wisconsin, \$10.00 per 100 lbs. Extra fancy, \$13.

Poultry—Easy. Spring chickens in good demand, but old rather slow. Dressed chickens, 9c@10c per lb., and old fowls, 7c@8c.

Eggs—Fresh eggs are a little more plentiful, but there is not yet enough to supply the demand. Those in the market readily command 27c@28c, while pickled are plenty at 23c@24c.

Dried Apples—Quarters, 7c@8c per lb.; evaporated, 14c@15c.

Honey—In comb, 16c@18c per lb.

Potatoes—No change from last week, and the glut in the market is as great as ever.

Choice Burbanks and Rose are offered freely at 40c@45c, but nearly everyone appears to be full, and there are few takers. Carload lots can be had at 35c.

Apples—Winter fruit is firmer, and is selling freely at \$3.00@3.25 per bbl. Extra fancy, \$4.

Butter—Very dull but a trifle firmer. Dairy rolls are moving slowly at 20c@21c, and packed at 14c@20c. Western creamery, 25c@27c.

Onions—Dull and slow. Sales of choice yellow made at \$1.75@2.00 per bbl., and 65c per bu. in sacks.

Squash—Hubbard selling at 1 1/2c@2c per lb.

Buckwheat—New York patent, \$4.25 per 100 lbs., and \$8.25 per bbl. For ten barrel lots, these prices can be shaded to \$8.

Cheese—Full cream, firm at 13 1/2c; skim, active at 9c@11c.

Beans—Slow sale at \$2.00@2.25 for hand-picked, and \$1.25@1.50 for medium.

Peas—Holland \$4.25 per bu.

Pears—California \$3.75 per case.

Ruta Bagas—Very firm at 45c per bu.

Beets—In good demand at 75c per bu.

THE FRISKY NEWMANS.

The somewhat notorious Newmans are still absent, and will probably not return to this State for the present. The bankrupt stock was sold Monday to Wm. Hardman at 65 1/2 cents on the dollar, the valuation being \$3,700. At the recent meeting of the Boston creditors, the committee sent best to investigate the firm's affairs reported that the "failure was a fraudulent one, and that the plot to swindle creditors had been carefully planned and skillfully executed. The goods were spirited away to different places, but where has been impossible to determine."

Mr. Geo. P. Warty, of Fletcher & Warty, the legal firm which has been Newman's counsel in this case, stated to a reporter of THE TRADESMAN that "Paisa" withdrew his offer of 40 per cent. before it had been acted upon by the creditors, and is not disposed to make another offer, preferring to let the creditors take the proceeds of the three stocks. "Of course the creditors will bluster and blow, and attempt to bulldoze Newman into paying more, by threatening to prosecute him," said Mr. Warty, "all of which will be conducive to much litigation, and bring money to the pockets of lawyers and other honest people." The application of the word "honest" in this sense is not quite apparent.

THE ROCKFORD CALAMITY.

The conflagration of Rockford Monday, by which two-thirds of the business houses of the place were swept away, is a severe blow to that place, and to the men deprived of their stocks. They all promise to survive, however, and most of them are taking steps to resume business as soon as suitable buildings can be erected. Although some are in a bad way financially, it is thought that suitable arrangements can be made with creditors in all cases.

HAVE NOT FAILED.

The attorney for M. Kirk & Co., grocers at Chase, write to THE TRADESMAN, denying that the firm has failed. The mercantile agencies report that the stock was attached by a Detroit firm.

LATE FURNITURE GOSSIP.

The Peninsular Furniture Co. is negotiating for the purchase of the late Ford Furniture Co.'s buildings and plant in the southern part of the city, and those who are acquainted with the terms offered state that the transfer will undoubtedly be made.

C. W. Jacoy, traveling agent for the Grand Rapids Chair Co., James O. Shelley, formerly with the Oriol Cabinet Co., but latterly with the Robert Mitchell Furniture Co., of Cincinnati, and J. P. Neather have formed a co-partnership, and will succeed Ketcham & Rothschild, furniture dealers at Chicago.

"About the only thing new in the furniture business," said Capt. Howard, manager of the Phoenix Furniture Co., "is the prevailing dullness. I guess no one makes any bones over that subject now. The new spring goods will be out by January 1, when reporters will have something to write about."

Newaygo Tribune: The new furniture factory is nearly ready to receive the machinery. Steam pipes have been placed in each apartment and there will be no need of workmen freezing during cold weather. This establishment will furnish employment to some 200 men and will be one of the greatest benefits to Newaygo that ever happened.

A. J. Daniels, manager of the new furniture company at Newaygo, was in town Monday, and was questioned by THE TRADESMAN's reporter relative to the prospects of the venture. "I know that the furniture business is dull and that the prospects are not the best," said Mr. Daniels, "but I claim that we can make furniture at Newaygo cheaper than it can be made here. We can get our lumber for 25 per cent. less, and with no teaming, as it is made within a few yards of the factory, and conveyed thereto on a tramroad. Then our motive power is water, which is necessarily less expensive than steam. The factory lies alongside of the railroad, so there is no teaming there. Again, we have secured advantageous freight rates to Grand Rapids, and propose to ship to this point by carload lots, keeping a full stock at a warehouse the location of which is yet to be determined. This will of course necessitate the opening of a sample room somewhere in the business center of the city, which has been partially arranged for. The main office will be here, and all the selling and business done here."

NEW ENTERPRISE AT HART.

W. H. H. Walker, formerly superintendent for the late firm of H. S. Smith & Co., but latterly foreman of the Grand Rapids Wheelbarrow Works, is organizing a stock company to operate at Hart, the intention being to make nothing but wheelbarrows. It is proposed to effect an organization with a nominal capital stock of \$20,000, although it is thought that \$15,000 will be an ample amount to erect necessary buildings, purchase machinery and furnish working capital. Of this sum, \$10,000 has already been pledged, and Mr. Walker is confident that the remainder of the stock can be placed advantageously within the next fortnight. The location proposed is on the line of the railway, and the motive power will be steam. The capacity of the works will be 20,000 barrows per year, ready market for which is found at St. Louis, Mo. It is claimed that the advantage gained in buying lumber at first hands, and the saving in transportation, as well as the lessened expense incident to a small town, will enable the company to turn out manufactured goods much cheaper than they could at more southern points.

O. S. Whitmore & Co.'s Condition.

Below are the figures in the O. S. Whitmore & Co. failure:

LIABILITIES.	
Bills payable	\$125,177.81
Open accounts	28,101.18
Endorsements on suspended paper	8,129.35
Total liabilities	161,208.34
ASSETS.	
Cash on hand	\$ 983.82
Good accounts and notes	7,781.84
Lumber	84,280.75
Other personal property	27,880.88
Doubtful notes and accounts	9,682.17
Total assets	103,617.46
Deficiency	57,590.88

Those acquainted with the affairs of the firm claim that the creditors will realize about 50 per cent. of their claims, and in case of an advance in lumber may get 60 per cent. Mr. Whitmore is out with a circular, announcing that he has opened a lumber commission office at Cadillac, and soliciting the patronage of his former customers.

Patents Issued to Michigan Inventors.

The following patents have lately been issued to Michigan inventors:

Phiol T. Beckwith, Dowagiac, heating stove.

William A. Carpenter, Bankers, measure.

William A. Whitney, Hudson, wheelbarrow.

Theodore S. Wilkins, East Saginaw, device for keeping journals cool.

Samuel Ingling, Dowagiac, heating stove.

B. F. Orton, East Saginaw, towers.

Silas H. Raymond, Grand Rapids, bow for vehicle tops.

Fabian J. Roberts, Detroit, car axle box.

James E. Kimble, Vicksburg, grain weigher and measure.

Benjamin McKillen, Verona Mills, both header.

Echoes of the Late Failures.

Those who are in a position to know claim that Kellogg, Sawyer & Co. will not pay to exceed 30 per cent., and may not pay more than 25 per cent.

Several of the local creditors of Wetzel Bros. do not propose to put their claims into the hands of the assignees, but hold them against the insolvents, hoping thereby to effect a more satisfactory settlement than the assignees can make.

It has been determined that a considerable part of Rice & Messmore's assets is worthless, or comparatively worthless, financial paper, and it is thought that creditors will not realize 50 per cent., and possibly not to exceed 40 per cent.

J. H. Thaw, the grocery broker, leaves tonight for New York, where he will spend a week or ten days in pursuit of business and pleasure. In this connection, it is not amiss to state that to Mr. Thaw is due the credit of introducing Bixby's blacking and polish to the trade of Western Michigan. Two years ago none of these goods were used here, whereas at present every dealer keeps them in stock.

MICHIGAN TRADESMAN.

A MERCANTILE JOURNAL, PUBLISHED EACH WEDNESDAY.

E. A. STOWE, Editor and Proprietor.

OFFICE IN EAGLE BUILDING, 34 FLOOR.

[Entered at the Postoffice at Grand Rapids as Second-class Matter.]

WEDNESDAY, DEC. 19, 1883.

AMONG THE TRADE.

IN THE CITY.

D. J. McCargle, of Roxana, who was recently burned out, was in town this week. He is preparing to rebuild, but will not re-engage in business until Spring.

W. H. Knight, the Kent City druggist, proposes to remove his stock to this city, and engage in the drug and grocery business, on the corner of Straight street and Butterworth avenue.

The Grand Rapids Wheelbarrow Works turned out 15,000 barrows from Dec. 1, 1882, to Dec. 1, 1883, and during that time disposed of 20,000 barrows, nearly exhausting the surplus stock. The company has now on hand about 9,000 barrows. Two hundred dozen snow shovels are in process of manufacture.

Ritchie & Gorham, who have lately carried on a retail grocery business on a small scale at 35 Broadway, the former location of the defunct firm of J. H. Zoet & Co., have dissolved partnership, R. M. Gorham retiring. Mr. Ritchie has closed the store, and proposes shipping the stock to Lansing, and re-engaging in trade at a small settlement south of that place.

Christian Bertsch, of Rindge, Bertsch & Co., returned Saturday from a fortnight's tour among the shoe manufacturing centers of the East. He states that the manufacturers were at first inclined to regard the complaints of "hard times" by Western buyers as of a somewhat chronic nature, but are beginning to realize that there are real grounds for complaint.

Alex. Collins, of the Hillsdale Canning Co., was in the city last week, introducing the goods of his establishment. Despite the poor year for apples and tomatoes, the company has put up 25,000 cans of tomatoes, 20,000 cans of pumpkins, 50,000 cans of apples, besides a large quantity of corn, beans, peas, pears and small fruit. The tomatoes were sold in advance to Franklin MacVeagh & Co., of Chicago, who contracted for 20,000 cans.

AROUND THE STATE.

W. M. Jacques has engaged in the grocery business at Big Rapids.

Parris & Harendsen have engaged in the hardware business of Kent City.

LeClere & Striker will shortly open a grocery store on First street, Muskegon.

Atkins & Cairns have engaged in the meat market business at Mancelona.

Mines & Smith, general dealers at Nunica, have dissolved, Wm. Mines continuing.

Abbott & Kidder, hotel keepers at Kalkaska, have dissolved, M. C. Kidder continuing.

A. M. Church, dealer in groceries at Englishville, has sold the business to M. J. Howard.

E. J. Bean, dealer in drugs and general goods at Custer, is succeeded by Anderson & McDonald.

Blair & Mason, dealers in groceries and feed at Charlevoix, have dissolved, Albert E. Mason continuing.

John Underwood has purchased S. S. Drake's general store and stock at Bellaire, and will continue the business.

C. B. Bovee has erected a store building at Milton Junction, and engaged in the grocery business. He purchased his stock of Fox, Musselman & Loveridge.

John Monroe, Sr., general dealer and saw mill owner at South Arm, has made an assignment to Henry E. Harmon. His property was previously attached for \$7,000.

H. T. M. Treglow, formerly Treglow & Knox, Caledonia, proposes removing his stock to Lowell in January, where he will continue in business, carrying a general line.

Geo. Thompson, who was burned out at Edgerton Friday for the second time, states that he will not resume business. He was insured for \$3,600, which will just pay his liabilities, leaving him nothing.

STRAY FACTS.

Detroit will start a nail-factory.

The threshing-machine works of the new Battle Creek Co. have just started.

During the past year the Michigan Stove Co. at Detroit has turned out 65,000 stoves, valued at \$1,300,000.

The Elk Rapids Chemical Co. is now making 150 gallons of wood alcohol and 12,000 pounds of acetate of lime per day.

The Pembroke Knitting Co. at Muskegon propose to erect a new factory building on Jefferson avenue, their present quarters being too small.

There is a merchant doing business at St. Clair, who, until a recent illness, had not been kept away from his place of business by sickness a single day in 30 years.

The pump works at Three Rivers, long idle, will probably be taken by a company now organizing to manufacture the potato digger and planter invented by Mr. Aspinwall, of that place.

The Kirk soap box factory, at Muskegon, has manufactured 335 car loads of boxes so far this year, and they have been shipped to the house at Chicago. A car load averages 3,000 boxes, which shows the total number of boxes manufactured to be 1,005,000.

Cadillac News: Lively times may be expected before spring opens, even if we are not at present enjoying as lively a trade as in former years. We are informed that one of our mills has orders to fill that will keep them busy until spring opens, and others are enjoying their usual prosperity.

A factory where they adulterate butter with lard and other ingredients, so that it makes the unhealthiest kind of oleomargarine, has been discovered in full blast a little way out from Battle Creek. They have made several tons of it each month and what has not been sold in Battle Creek has been shipped away.

Dr. A. W. Jenkins, who has disgraced the medical fraternity of the State for several years past, and who will be a standing reproach to any community with which he identifies himself, has taken French leave of Reed City, it having been discovered that he had performed a criminal abortion, which subsequently resulted in the death of the victim. All reputable physicians will rejoice at his summary departure, only regretting that he could not have been apprehended and made to pay the penalty for murder.

It has been ascertained that more saw mills have been burned and gone out of existence during the past year than in any one year in the history of the business. The losses have not been less than 100, while the loss of planing mills, sash and blind factories may be counted by the score. The year 1883 has been one of frightful loss of life and property by accidents and disasters, and the loss of saw mill property by disaster may be noted as the largest in the history of the country.

Mancelona Herald: We are glad to announce that the Mancelona Iron Furnace will, in a very short time, be ready to go into blast. In rebuilding the furnace no expense has been spared, and now, with its additional kilns, new hoisting engine, double elevator and mammoth stock room, and being larger and better built, it is superior in every way to what it was before the fire. Mr. Palmer informs us that with the coal already on hand and the new kilns, the furnace will probably be able to run a long time before going out of blast. The new coal burners are from the Bangor furnace, and have had many years experience in burning charcoal.

The Sun.

NEW YORK, 1884.

About sixty million copies of THE SUN have gone out of our establishment during the past twelve months.

If you were to paste end to end all the columns of THE SUN printed and sold last year you would get a continuous strip of information, common sense, wisdom, sound doctrine, and save you long enough to reach from Printing House Square to the top of Mount Copernicus in the moon, then back to Printing House Square, and then three-quarters of the way back to the moon again.

But THE SUN is written for the inhabitants of the earth; this same strip of intelligence would girdle the globe twenty-seven or twenty-eight times.

If every buyer of a copy of THE SUN during the past year has spent only an hour over it, and if his wife and his grandfather has spent another hour, this newspaper in 1883 has afforded the human race thirteen thousand years of steady reading, day and night.

It is only by little calculations like these that you can form any opinion of the circulation of the most popular of American newspapers, or of its influence on the opinions and actions of American men and women.

THE SUN is, and will continue to be, a newspaper which tells the truth without fear of consequences, which gets at the facts no matter how much the process cost, which presents the news of all the world without any waste of words and in the most readable shape, which is working with all its heart for the cause of honest government, and which therefore believes that the Republican party must go, and must go in this year of our Lord, 1884.

If you know THE SUN, you like it already, and you will read it with accustomed diligence and profit during what is sure to be the most interesting year in its history. If you do not yet know THE SUN, it is high time to get into the sunshine.

Terms to Mail Subscribers.

The several editions of THE SUN are sent by mail, postpaid, as follows:

DAILY—50 cents a month, \$6 a year; with Sunday edition, \$7.

SUNDAY—Eight pages. This edition furnishes the current news of the world, especial articles of interest to everyone, and literary reviews of new books of the highest merit. \$1 a year.

WEEKLY—\$1 a year. Eight pages of the best matter of the daily issues; an Agricultural Department of unequalled value, special market reports, and literary, scientific, and domestic intelligence make THE WEEKLY SUN the newspaper for the farmer's household. To clubs of ten with \$10 an extra copy free. Address I. W. ENGLAND, Publisher, THE SUN, New York City.

ALABASTINE!

ALABASTINE is the first and only preparation made from calcined gypsum rock, for application to walls with a brush, and is fully covered by our several patents and perfected by many years of experiments. It is the only permanent wall finish, and admits of applying as many coats as desired, one over another, to any hard surface without danger of scaling, or noticeably adding to the thickness of the wall, which is strengthened and improved by each additional coat, from time to time. It is the only material for the purpose not dependent upon glue for its adhesiveness; furthermore it is the only preparation that is claimed to possess these great advantages, which are essential to constitute a durable wall finish. Alabastine is hardened on the wall by age, moisture, etc.; the plaster absorbs the admixtures, forming a stone cement, while all kalsomines, or other whitening preparations, have inert soft chalks, or glue, for their base, which are rendered soft, or scaled, in a very short time, thus necessitating the well-known great inconvenience and expense, which all have experienced, in washing and scraping off the old coats before refinishing. In addition to the above advantages, Alabastine is less expensive, as it requires but one-half the number of pounds to cover the same amount of surface with two coats, is ready for use by simply adding water, and is easily applied by any one.
