ALABASTINE!

Alabastine is the first and only prepara-
tion made from calcined gypsum rock, for
application to walls with a brush, and is
fully covered by our several patents and
perfected by many years of experiments.
It is the only permanent wall finish, and
admits of applying as many coats as de-
sired, one over another, to any hard surface
without danger of scaling, or noticeably
adding to the thickness of the wall, which
is strengthened and improved by each ad-
ditional coat, from time to time. It is the
only material for the purpose not dependent
upon glue for its adhesiveness; furthermore
it is the only preparation that is claimed
to possess these great advantages, which
are essential to constitute a durable wall
finish. Alabastine is hardened on the wall
by age, moisture, etc.; the plaster absorbs
the admixtures, forming a stone cement,
while all kalsomines, or other whitening
preparations, have inert soft chalks, or
glue, for their base, which are rendered
soft, or scaled, in a very short time, thus
necessitating the well-known great incon-
venience and expense, which all have ex-
perienced, in washing and scraping off the
old coats before refinishing. In addition
to the above advantages, Alabastine is less
expensive, as it requires but one-half the
number of pounds to cover the same amount
of surface with two coats, is ready for use
by simply adding water, and is easily ap-
plied by any one.

AN IMPROVED WALL FINISH.

Boralumine, a Substance which Forms the
Basis of an Unexcelled Covering for Walls.

As the time for spring trade is fast ap-
proaching, we take pleasure in calling the
attention of our readers to an institution
whose constantly increasing business speaks
well for the merits of the article they pro-
duce. The Boralumine Company have com-
pleted arrangements by which they can fur-
nish unlimited quantities of the "best wall
finish on the market." While Boralumine
makes a harder finish than other compounds
it is not necessary to use it at once to keep it
from spoiling on the workman's hands. Boralumine
can be used some days after being
mixed with boiling water for use, and is
better and works easier after standing for
a few hours. Other compounds, if not used
within a few hours after mixing, are worth-
less. It would be well for all interested in
this line of goods to look into the merits of
this article before laying in their spring
stock. The following we clip from the
Commercial World and United States Ex-
porter, of New York, which gives a clear
and concise description of the article:

THE GROCER'S WOOING.

The grocer loved a charming girl,
As lovely as the day;
He wondered if she'd marry him,
And said, "Let's Sloop she may."

And straightway to her house he went,
Her lovely face to see,
Exclaiming, "Ah, I know full well
That *Chesee* the girl for me."

The girl was very kind, and said
That she was very glad
To see him there, and then remarked
What a bad *Coffee* had.

And soon they got most intimate,
She let him kiss her brow,
But when he spoke of marriage, said
"Oh, do not *Tear* me now."

The grocer's spirits fell at this,
He felt as though he'd die,
And hinted at a suicide,
While she *Bacon* to cry.

"You silly boy, you don't suppose
I'm blind to all your merits,
It's evident she knew a way,
Of *Raisin* up his 'spirits.'"

But true love's course did ne'er run
smooth,
Her father saw them kiss;
And kicked him from the room, and said,
"You'd *Biscuit* out of this."

And thus adjured he soon got out,
It hardly need be said;
And tumbling headlong down the stairs,
Mustard-ly hit his head.

"Oh, father, you are cruel, to
So roughly handle us;
Thus spoke the girl, and father said—
"I think it's *Candle* us."

Papa relented when he saw
His child begin to cry;
"There, there, you think my treatment
harsh,"

My daughter, *Soda* I.
"There, keep your lover, dry your eyes,
And let's have no more row;
I did not like the man, but my
Opinions *Salt*-red now."

The two were wed, and made a pair
By no means *disorder*ed;
And happy ever after were,
It's *Current*-ly reported.

MAKING CANDLES.

Some Facts About the Light of Other Days.

"Not one hundredth part of the number of
candles are sold now in comparison with 55
years ago," said a prominent grocer yester-
day. "Oil, gas and the electric light are the
great enemies of the candle, yet there are
some people who still use them."

"What kinds are used?"
"Palm, tallow and wax. The Catholic
churches require a large number for the fes-
tivals, many being of the best quality. Most-
ly palm candles are used, but the two eu-
charist lights must be of wax. So particular
are some of the Catholic clergy in getting
them pure that I have known them to order
them from Rome."

"How are candles made?"
"In moulds and by dipping. The ordinary
tallow candle is made by placing cotton
wick in moulds and pouring melted tallow
in them and letting them cool. Wax is not
adapted to moulding in consequence of the
contraction which it undergoes in cooling
and the tenacity with which it adheres to
the sides of the moulds. Wax candles are
made by properly cutting and twisting and
warming a set of wicks. These are attached
to a stick or ring suspended over a basin of
melted wax. This wax is poured from the
top from a ladle while each wick is kept
twisted. This process is continued until the
candle is of sufficient thickness. While hot
they are rolled with a flat piece of wood in
order to make them round. The large can-
dles used in Catholic churches are made by
placing a wick on a slab of wax, bending
this together and then rolling it into shape."

"How many candle power does an electric
light possess?"
"One of the Brush electric lights has 1,000
candle power and somewhat eclipses the
light of other days."

**The Lowell Bill Favored by the Convention at
Washington.**

At the session of the National Bankrupt
Law Convention held at Washington last
week the special committee appointed to pre-
pare a bill for submission to Congress report-
ed in favor of the bill prepared in 1880 by
Judge Lowell of the United States Circuit
Court at the request of the Board of Trade
of Boston, as revised by the Judiciary Committee
of the United States of last Congress. They
reported 40 amendments to the bill, most of
them merely verbal changes, which were
adopted. A resolution was also adopted
directing each of the Commercial bodies
represented in the Convention to urge the
bill adopted by the Convention upon the at-
tention of senators and representatives in
their respective districts.

LOCAL OPINIONS ON THE SUBJECT.

Representative Fletcher says that there is
crying need for bankruptcy legislation at
the present time, but doubts whether it can
be secured at this session of Congress. Mr.
Houseman, he says, is inclined to think that
the majority of the members are in favor of
such legislation, but from all he has read
and heard otherwise, he is inclined to form
a contrary opinion.

L. E. Hawkins says that he has studied
the question carefully and come to the con-
clusion that we want no national bankrupt
law—especially a law drafted in the in-
terest of Eastern creditors. If Grand
Rapids jobbers were selling in other states,
they might be in favor of a national law,
but as it is, a good state law is far prefer-
able. Mr. Hawkins is acquainted with the
sentiments of Detroit merchants on this
question, and states that they are almost
without exception unqualifiedly opposed to
the measure.

SOME OBJECTIONS TO THE LAW.

From the Detroit News.

A number of business men calling them-
selves the national bankrupt law conven-
tion have been discussing the Lowell bank-
rupt law at Washington for some days past,
and have resolved to urge its passage upon
Congress. The bill was proposed in 1880
by Judge Lowell of the United States Cir-
cuit at the request of the Board of Trade of
Boston, and revised by the Senate Judiciary
Committee. It was of course inspired chiefly
by the interests of those who inspired it
was prepared, and might be expected to
concern itself chiefly with the wishes of the
creditor. It is a measure for liquidation by
arrangement.

The career of a bankrupt
may be reviewed for six months previous to
bankruptcy; a majority in number with
three-fourths in value is required to make a
composition. With these limitations the
whole matter is in the hands of the credi-
tors, the minority having no redress for any
wrong that may be committed. A Commis-
sioner in Bankruptcy, at a salary of \$2,000 a
year, presides over the meetings of the credi-
tors, but has no power to correct their ac-
tion. Western members of Congress should
not too hastily commit themselves to the
support of this measure, merely because a
convention of business men assembled at
Washington and approved it. It should be
remembered that the gentlemen who recom-
mended it, may, and probably do, all re-
present one side and one interest. It is not ab-
solutely necessary to have a bankrupt law of
any sort this session. The lack of such a
law is forcing business men to depend more
upon their own prudence than upon legal
processes to avoid losses, and the result is
that business is being done in a very con-
servative way, with short credits and fre-
quent settlements. Losses by failures are
very small—less, it is said, than half of one
percent. On the volume of business. It
would doubtless be better to have a uniform
bankrupt law, but it should be carefully
studied with a view to the interests and
wishes of all sections and classes, and not
solely with a view to one section or class.

MICHIGAN TRADESMAN.

A JOURNAL DEVOTED TO THE
Mercantile and Manufacturing Interests of the State.

E. A. STOWE, Editor and Proprietor.

Terms \$1 a year in advance, postage paid.
Advertising rates made known on application.

WEDNESDAY, JAN. 23, 1884.

Subscribers and others, when writing
to advertisers, will confer a favor on the pub-
lisher by mentioning that they saw the adver-
tisement in the columns of this paper.

In the death of Fred Spring, the dry goods
trade loses one of its most energetic work-
ers, and the patrons of this market are de-
prived of a conscientious adviser and con-
servator of their interests.

The United States, in its dealings with
foreign countries, sold more than it bought
in 1883. This is a healthy condition of af-
fairs; yet as we paid tens of millions of dol-
lars to foreign ship owners for transporta-
tion, it would be difficult to say upon which
side of the national ledger the balance will
be found.

The conflagration at Lowell on Saturday,
involving losses three times in excess of the
insurance, emphasizes the suggestions made
in THE TRADESMAN last week relative to
the advisability of keeping well insured. No
business man can afford to ignore the
question of insurance, and the more precari-
ous the risk, and the greater the amount of
goods bought on credit, the more pertinent
the question becomes. The present season
is proving particularly disastrous to
"wooden towns," without adequate fire-pro-
tection, and the sooner uninsured merchants
make a move in the matter, the better it will
be for themselves, their creditors, and the
towns in which they are located.

The most successful journalistic venture
in the West for many years is the Detroit
Evening Journal. It is now only four
months old and has a circulation of nearly
17,000, with an increase of from 100 to 500
every week. Its special attention to Michi-
gan matters has already made it a favorite
throughout the State, and no Detroit paper
covers the ground more fully. It is now an
established institution, and no daily in the
West can point to a like success in the same
space of time, no evening paper publishes
more complete telegraphic news, and its mar-
ket reports are endorsed by the Detroit
Board of Trade as the most reliable and sat-
isfactory arrangement of commercial news
given to Michigan readers.

As will be seen in another column, the
convention which met at Washington last
week mainly to review the Lowell bank-
ruptcy bill, but presumably to deal in an
advisory way with all cognate legislation,
resolved to recommend the Lowell draft to
Congress, after adding some amendments.
The necessity for uniformity in bankruptcy
matters is out of all question, but the diffi-
culty has been to devise a measure that
would fairly meet the varying conditions of
commerce and equitably secure the interests
of creditor and debtor alike. Honest cred-
itors and honest debtors are not the only
people to be considered. There are, unfor-
tunately, dishonest debtors dealing with
honest creditors, and honest debtors dealing
with grasping creditors. The adjustment
of the differences likely to arise under these
varying circumstances is what forms the
difficulty of legislation, and renders it
extremely unlikely that a measure of this
kind will be passed at the present session of
Congress. Michigan merchants and manu-
facturers may safely be set down as opposed
to the proposed law.

There are reasons for believing that the
climax of railroad building in this country,
which, for eighteen years past, has absorbed
so large a proportion of the national energy,
has been passed, and that from this time
forth it will be prosecuted in a moderate
manner. The mileage built in 1883 shows a
falling off of 4,981 miles from the preceding
year—6,608 for 1883 and 11,591 for 1882;
and it shows a falling off, too, as compared
with each preceding year from 1879. The
country is now pretty well supplied with
railroads, having an aggregate of 120,000
miles. Nearly all the needed trunk lines
are built in the East and West, and the work
of adding the necessary branches as they are
demanded will not require a large amount of
energy or capital. Many of the Eastern
states are completely equipped, and even
branch road building in them is ended. The
Southern and some of the Western states,
Michigan among them, still show considera-
ble activity in completing their imperfect
systems, but in a few years their systems
will be perfected, and then railroad building
will cease to possess the importance in has
possessed since the war.

The progress of the South in manu-
factures continues to attract attention in an in-
creasing degree, and this progress is in no
department more noticeable than in the
manufacture of agricultural implements.
The fact that Georgia made 250,000 ploughs
last year is one of the most significant evi-
dences of the transformation that is taking
place. The smaller farm and plantation
tools are now made, to a considerable ex-
tent, in eleven Southern states, and the
number of hands employed doubled between
1870 and 1880. Within the last three years
the advance has been much more rapid,
owing to the development of Southern iron
interests. In 1880 the total number of
Southern factories, where the making of ag-

ricultural tools was the chief industry, was
296. Nearly all these works have largely
increased their capacity lately, and most of
them have about them all the evidences of
prosperity. The aggregate output of these
establishments does not, indeed, constitute a
formidable proportion of the total production
of the country, but it indicates a remarkable
advance in a field hitherto almost monopol-
ized by the North and West, a result which
is not less encouraging than the fact that
Southern cotton-mills in the past three years
went up from 713,989 spindles to 1,276,422,
an increase of 80 per cent.

It will certainly be a mistake to prevent
the circulation of one and two dollar bills,
as some congressmen propose, by refusing
the needed appropriation to replace mutil-
ated bills. The idea that the silver dollar
can be forced into the place of the small
bank notes may be all right so far as the
mere substitution is concerned, but it is im-
possible for any coin to wholly meet the
needs subserved by the small bills. One
and two dollar notes are especially needed
for mail remittances, for which the postal
notes and money orders are not available in
many cases. If it could be so arranged that
the postal notes could be issued by any post-
master the necessity for small treasury notes
and bank bills would be lessened, but there
would still be a limited sphere of usefulness
subserved by them and nothing else. Con-
gress should not be too hasty to act upon
this plan of driving small notes out of exis-
tence, but reflect that the conveniences of
the people merit some consideration. The with-
drawal of all the small notes will inevitably
result in an increased use of postage stamps
as money, a purpose for which they are not
only ill adapted but which they cannot sub-
serve without a considerable damage to the
Government, since the direct result of such
use is to unduly increase the compensation
paid many postmasters.

THE DEAREST TOBACCO

Is a Poor, Common or Low-Priced Article,
As It Gives Neither Pleasure
Nor Satisfaction.

THE PUBLIC IS NOT SLOW TO LEARN THIS FACT

WHENEVER IT DISCOVERS AN ARTICLE THAT COMMENDS ITSELF
TO THE TASTE AND OTHER SENSES.

—THE REMARKABLE SALE OF—

LORILLARD'S PLUG TOBACCOS

Is Ample Evidence of This. This Concern will Sell over 20,000,000 Pounds of their
Favorite Brands this Year; or About

One-Fourth of All the Plug Tobacco Used in this Country!

AND AS THERE ARE BETWEEN 800 AND 900 OTHER FACTORIES IN
THE U. S., IT FOLLOWS THAT THEIR GOODS MUST GIVE

Better Satisfaction or Represent Better Value for the Money

THAN THE BRANDS OF OTHER MAKERS.

"CLIMAX," with Red Tin Tag, is their Best Brand.

OFFICE OF

BLACKWELL'S DURHAM TOBACCO COMPANY

To the Distributors Of Blackwell's Durham Smoking Tobacco throughout the United States:

DURHAM, N. C., August 20, 1883.

GREETING:—It has been our aim for some time to supply you with an article that would not only advertise our brand of W. T. Blackwell's Genuine Bull
Durham Smoking Tobacco, but also be useful to you and an ornament to your place of business; just what to select has been our difficulty. Chromes, and articles of that
nature soon lose their novelty, and we regretted to expend such an enormous sum on anything that would not last and be of some value. The novel idea finally struck
us of producing a bale of Blackwell's Genuine Durham Smoking Tobacco, containing "Works" instead of the original well-known article, guaranteed to furnish you with
Correct Time and be a pleasing reminder when your orders should be sent in for the "Bull."

Respectfully to the Trade,

BLACKWELL'S DURHAM TOBACCO CO.

THE WAY TO GET THEM!

You can get One of these Novel Clocks FREE by ordering from
your Jobber Fifty Pounds of Blackwell's Genuine Bull Durham
smoking Tobacco. The Fifty Pounds can be made up of assorted
sizes if you wish, and the goods will be charged at LOWEST PRICES.

NEW YORK, August 1, 1883.

BLACKWELL'S DURHAM TOBACCO COMPANY, DURHAM, N. C.

GENTLEMEN—The Clock which we supply you contains a good lever movement, which, with the usual handling, will make a very
excellent time-keeper.

Yours truly, ANSONIA CLOCK COMPANY.

The Clock you will get will be over 16 times the size of the accompanying diagram; that is, 12 inches high and 8 inches wide.

MICHIGAN TRADESMAN.

A MERCANTILE JOURNAL, PUBLISHED EACH WEDNESDAY.

E. A. STOWE, Editor and Proprietor.

OFFICE IN EAGLE BUILDING, 3d FLOOR.

[Entered at the Postoffice at Grand Rapids as Second-Class Matter.]

WEDNESDAY, JAN. 23, 1884.

AMONG THE TRADE.

IN THE CITY.

John J. Kosen Jr., dealer in groceries, has sold out.

Hawkins & Perry are enlarging and otherwise improving their office.

The firm of Noble & Company has dissolved, Wm. Cartwright retiring.

Davis & Knox, dealers in groceries, have dissolved, W. F. Knox, succeeding.

I. C. Levi, who is now in New York, is not expected home until the latter part of February.

Broker Freeman has opened an office in connection with C. W. Watkins, under the Old National Bank.

Chas. W. Peck has returned from a six week's tour of the West in the interest of the Grand Rapids Brush Co.

Geo. B. Mather started out Tuesday on his initial trip for C. S. Yale & Bro. He will travel through southern Michigan.

The Rumsey Lumber Co. has purchased a grocery stock of Cody, Ball & Co., and opened it out at the seat of the former's lumbering operations, near Paris.

J. M. Wade & Co., who recently purchased a complete grocery stock at this market, intending to engage in trade at Cadillac, have concluded to locate at Luthier.

There will be a meeting of Kellogg, Sawyer & Co.'s creditors at Kalamazoo to-day, and every creditor in this city is present in person or represented by an attorney.

B. R. d'Arcamb, who has lately purchased the bankrupt drug stock of Leon Kewney at Kalamazoo, was in town a day or two ago and completed his stock at Hazeltine, Perkins & Co.'s.

G. Roys, general traveling agent for L. H. Beals & Co., who manufactured at Westfield, Mass., returned from the East Friday, and started out Monday for a trip through Southern Michigan and Northern Indiana.

Dr. W. H. Ross left Monday for Chicago, where he will spend six weeks, attending the closing exercises of the Hahnemann Medical College. He is accorded the privilege of practicing among the rheumatic patients at that institution.

A. J. Holt, for some time past connected with the Michigan Iron Works Electric Light and Power Co., has gone to Cleveland, where he has accepted a position with the Brush Electric Light Co. He is succeeded here by Fred Holcomb, late with Spring & Company.

H. B. Fairchild, is inclined to the opinion that it is "too thin" for a salesman to run a needle into his foot for the sake of getting a vacation, but Mills replies in the same spirit, "you're another." The latter gentleman started on his southern trip Monday, still limping.

The Furman stock was sold on the 17th to Frank H. Furman, of Wellsville, N. Y., brother of the assignor, for 50 per cent. of the inventory schedule, which amounted to \$2,707.36. Out of this sum, however, are to come \$250 exemption and \$130 worth of goods replevied.

If you have happened to notice Charley McConnell, book-keeper for Shields, Bulkley & Lemon, skulking through the back streets, enveloped in an overcoat three or four times too large for him, don't imagine that he is a charitable individual and has bestowed his own garment on some shivering pauper. It was taken without leave by a clever thief, and Charley is dependent upon the generosity of his brother-in-law until his tailor can turn out another beaver.

Fred Spring, junior member of the firm of Spring & Company, and manager of the wholesale department of the house, died suddenly Friday morning, after a brief illness. The funeral was held on Sunday, and was largely attended. Mr. Spring was but 29 years of age, but he had already acquired a wonderful business faculty, and his future teemed with the brightest prospects. He leaves a young wife, to whom he was married about a year ago, and on whom, as well as on his father, the blow falls with crushing force.

AROUND THE STATE.

J. J. Adams, of Chase, proposes to engage in trade at Bellaire.

C. E. White has engaged in the meat market business at Allegan.

Chas. H. Hadden has sold his crockery store at Muskegon to D. C. Ripley.

Edward Davies succeeds Klader & Banks in the grocery business at Montague.

G. H. Trefry & Son, general dealers at Lyons, contemplate removing to Muir.

Castle Bros., of Constantine, dealers in hardware, are closing out their business.

Shattuck & Nash, general dealers at Wayland, have dissolved, Nash continuing.

J. B. Perham, of Spring Lake, has sold his store property at Nunica to Parkhurst Bros.

Crane & Clark, of the Central meat market, Ypsilanti, have assigned to Chas. W. McCorkle.

H. A. Crawford, of Cadillac, is in town for a day or two purchasing large additions to his stock.

M. P. Shields, general dealer at Hilliards, has received the appointment of postmaster at that place.

Dean Bros. have engaged in the drug business at Friesland, purchasing the Butters & Baldwin stock there.

Curtis & Perry, milliners of Flint, have made an assignment to George E. Taylor, for the benefit of their creditors.

Cleland & Cole, general dealers at Coopersville, publicly announce that they will dissolve partnership in March.

W. W. McOmber succeeds the firm of McOmber & Fincham in the grocery and provision business at Petoskey and Alanson.

A. M. Lamb, dealer in groceries at Cadillac, has sold out to H. A. Crawford, of Lansing, who will continue the business.

Wm. Baxter, of Manchester, claims to be the oldest merchant in the State, having stood behind the counter continuously for 40 years.

G. L. Patterson, dealer in drugs at Elmira, has sold out to M. Fordham, for several years past clerk for Sullivan & Co., at Montague.

N. S. Loop, dealer in groceries at Kent City, is moving directly across the street to the building lately vacated by W. H. Knight.

Peter Zalsman has sold his old stand at Paris to Scranton Bros., and will in the spring erect a business house that will be an ornament to the town.

Demoor & Langeland, flour and feed merchants at Muskegon, have dissolved, Langeland continuing the business at the old stand on Pine street.

Charlotte Republican: There is talk of a cannery factory being established in this city. Why not? We are in the heart of the best fruit belt on the continent.

Louis Durand, a general merchant at Pinnepog, has been closed up by the sheriff. Liabilities \$4,000. Creditors will hardly realize over 50 cents on the dollar.

Sparta Sentinel: Lyman Ballard has the stone on the ground for a new business block on Division street, midway between the Oddfellow's block and the Loomis building.

Geo. E. Angell & Co. have engaged in the boot and shoe business at Grand Haven. Ferdinand Griffith, the "Co." of the firm, was formerly in the harness business at the same place.

Hunter, Tillotson & Co. have engaged in the lumber business at Muskegon. The "Co." is Fred W. Loveless. The firm has acquired the property formerly owned by Ames & Frost.

Kalamazoo Gazette: Mr. Chas. d'Arcambal has sold his drug store to McBride Bros., of Detroit. Mr. d'Arcambal has been in active business in Kalamazoo thirty-five years and retires with a competency.

Mancelona Herald: We regret to announce that G. A. Ely, one of Alba's merchants, has been compelled to make an assignment. We hope he may soon recover from his present embarrassment.

A Bellaire correspondent of the Mancelona Herald writes: Mr. Kibby, of Portland, who exchanged a stock of goods with Mr. Wadsworth for thirty lots, intends to locate here soon, with a \$5,000 stock of goods.

H. J. Miner, clothier and tailor at Cheboygan, has been closed up on a \$5,000 chattel mortgage held by Chicago parties. No statement of assets or liabilities is obtainable, but the stock is worth between \$8,000 and \$10,000. The failure has been expected for a year.

STRAY FACTS.

The Kalkaska Manufacturing Co. will make turned wooden boxes.

Norcross & Dickinson have engaged in broom making at Grand Haven.

The Big Rapids National Bank has increased its capital stock to \$150,000.

Sisson & Lillie expect to begin cutting lumber at their Baldwin mill March 1.

The First National Bank of Greenville has declared a semi-annual dividend of 6 per cent.

A stock company has been formed at North Lansing for the manufacture of wooden toys.

An Ohio man is trying to organize a stock company at Charlotte to erect an extensive flouring mill.

The Woodard Manufacturing Co., of Muskegon, will hereafter make boxes as well as fire-kindlers.

The Diamond Match Co. has opened a new and large general store at Ontonagon and has also commenced a banking business.

Dr. David Ward, of Detroit, one of the great pine kings of Michigan, denies that he is worth \$25,000,000. He modestly admits, however, that perhaps he is worth \$15,000,000.

At the annual meeting of the salt association held at East Saginaw on the 17th, W. R. Burt was elected president; Albert Miller, of Bay City, vice-president; D. G. Holland, secretary; Thomas Crannage, of Bay City, treasurer. The sales for the past year were reported as being 2,377,749 barrels.

Do You Want a Delivery Wagon?

The Spiral Spring buggy is universally conceded to embody more desirable features than any other vehicle now on the market. The spring is a model of simplicity and compactness, and will last for years, without fear of breakage. Aside from the patents owned by the company, the superiority of its workmanship is a matter of common acknowledgment.

Advance in Tobacco.

We stated in last week's TRADESMAN that we anticipated an advance in tobaccos, and it has come a little sooner than looked for. Peerless smoking and some of the different brands of plugs advanced 2c per pound on the 16th inst. We will not advance the price of our celebrated Grayling Plug Tobacco until compelled to do so; but would advise all of our friends to place their orders at once, as we can not tell when the advance will come.

HAWKINS & PERRY, Wholesale Grocers, and Proprietors of the Grayling Tobaccos. Grand Rapids, Mich.

The Grocery Market.

Groceries are doing a little better and we would not be surprised to see higher prices on a number of articles in that line. Loose Muscels are again higher, with no change in Valencia. Currants are higher. Our prophecy on white fish has already been verified, and there has been a material advance. They are still a safe purchase. Adams' smoking tobaccos are all up two cents—see change in quotations. There is nothing new to note in sugars and syrups, the market on yellow sugars being particularly firm. There is no let up in coffees. Canned goods are still very quiet. It is hardly time for much of a stir in them yet, but it will come, and when it does we look for higher prices. We don't say "a boom," but we consider present prices favorable to the buyer.

D. G. Hall, the Ithaca druggist, who recently "sold out," having \$5,700 worth of stock, has nothing left for his creditors.
