

GREENKEEPERS CLUB OF NEW ENGLAND

NEWSLETTER

March, 1943

The February meeting of the Greenkeepers Club of New England was held Monday, February 1st at the Hotel Statler in Boston.

The Round Table discussion was cut short due to members making transportation connections for home.

Some of the subjects for discussion of war time maintenance were: height of cut, times and time of mowings, watering, poling, care of traps, fertilizing, cupping and every possible means of cutting actual essential maintenance operations.

Labor of course is the governing factor and some of the boys from the Worcester area seem to be on the spot as labor in that section is pretty well tied up, but they expect to maintain acceptable playing conditions.

The March meeting will be held at the Hotel Statler in Boston, Monday, March 1st at 6:30 P.M.

The Round table discussion will be continued and the April Newsletter notice will include a list of ideas and practices for 1943 maintenance operations.

If you are not planning to attend the meeting, write your suggestions down and mail them to President Mitchell or to the Secretary.

Jack Counsell will lead discussion on the new labor rulings affecting greenkeepers and grounds men.

Employment Committee chairman Howard Farrant has one or more Greenkeeping positions open and can be reached at 132 Russett Road, West Roxbury, Mass.

Following is a list of members in the armed services:

Francis Tuscher
Maurice Ryan
David Barry
Albert Zikorus
Anthony Sperandio
Narry Sperandio

We would like to give the address of these boys to the members so if you know them or can obtain them, please send them to the Secretary and they will be included in the next Newsletter.

Be sure and save this sheet for NEWSLETTER folder!

Don't forget! Hotel Statler, March 1st at 6:30 P.M.
