# Michigan State College

As one of the leading land grant colleges and the oldest agricultural college in the world, Michigan State College provides a technical, practical, and cultural education for its student body, in addition to extensive research and extension services to the people of Michigan.

Now in its 98th year, Michigan State College has grown from two buildings and six faculty members to the ninth largest university in the nation. It has approximately 1,300 staff members engaged in teaching and research, 124 permanent and 988 temporary buildings, and almost 12,000 acres of land, including 540 acres in the campus area proper.

Founded in 1855 to educate youth for the major occupation of that day--farming--Michigan State College has broadened its offerings as young people, preparing for other vocations, have sought the advantages of college training. Today, approximately 100 different courses of study are offered in the Schools of Agriculture, Business and Public Service, Education, Engineering, Home Economics, Science and Arts and Veterinary Medicine. This excludes the curriculum of the Basic College, which has been hailed as one of the most progressive ideas for higher education in the nation today, and the Graduate School, which offers 58 courses leading to the degrees of master of arts, master of science, master of music, master of forestry, doctor of philosophy, and doctor of education.

Michigan State College continually strives to expand its service to the people of the state through the Agricultural

Experiment Station, the Cooperative Extension Service and the Continuing Education Service. The Agricultural Experiment Station conducts research on campus and at five off-campus substations. Through the Michigan Cooperative Extension Service, more than 125,000 families are reached with technical information on agriculture, homemaking and the 4-H Club program. The field staff, located in every county, extends M.S.C.'s campus into every township in Michigan. During the 1952-53 year, the Continuing Education Service reached about 150,000 persons in programs conducted both on campus and in local communities. The Continuing Education Service also directs the M.S.C. Evening College which, during 1952-53, enrolled about 400 students each term.

Today, more than 13,000 students from Michigan and other states and from nations all over the world are attending the college at East Lansing--8,200 of whom are housed on the campus proper. With about 85 percent of these students coming from communities in every section of the state, Michigan State College is doing its part to fill the greatly increased demand of the younger generation for higher education.

In the agricultural, business and professional fields, Michigan State College has proved its worth to the people of the state of Michigan, paying dividends many times the appropriation for its maintenance made each year by the state and national governments. Noted for its democratic and friendly spirit, the student body harmonizes with the college faculty to make Michigan State College a first-class educational institution.

# Academic Costume

The pageantry and color at commencement exercises reveal a record of academic achievement of the various individuals taking part in the exercises. The following brief description is given that the audience might more readily interpret such achievement.

In 1894, the Intercollegiate Commission, a group of leading American educators, met at Columbia University to draft a code which would serve to regulate the design of gowns and hoods indicating the various degrees as well as the colors to indicate the various faculties. This code has been adopted by most of the colleges and universities in America and its use has made identification of scholastic honors an immediate activity.

Three types of gowns are indicated by the code. Those worn by the bachelors are made of black worsted material and have long, pointed sleeves. Those worn by masters may be made either of black silk or black wool and have long, closed sleeves with the arc of a circle near the bottom. The arm goes through a slit, giving the appearance of short sleeves for the master's gown. Doctors' gowns are made of black silk and are faced with velvet. The sleeves are full, round and open with three bars of velvet on each sleeve. The velvet facing of bars on the sleeves may be black or the same color as the binding of the hood.

Hoods are made of material identical with the gown and are lined in the official academic color of the institution conferring the degree. If the institution has more than one color, the chevron is used to introduce the second color. Colored velvet or velveteen binds the hoods and indicates the department or faculty to which the degree pertains.

Historical associations of color have been continued to signify the various faculties. Arts and letters can be recognized by the white, taken from the traditional white fur trimming of the Oxford and Cambridge Bachelor of Arts hoods. Red, long traditional of the church, indicates theology. The royal purple of the King's court signifies law. The green of medicinal herbs immediately identifies a medical degree. Philosophy is signified by the color of wisdom and truth, blue. Because through research untold wealth has been released to the world, science is identified by golden yellow. Oxford pink indicates music and russet brown, the color of dress worn by ancient English foresters, indicates forestry.

The wording of the degree determines the color of the velvet of the hood. For example, a Master of Science in Engineering would be signified by golden-yellow (science) instead of the orange of Engineering. A Bachelor of Engineering would wear the orange of Engineering.

At Michigan State College, it is customary to identify the bachelors graduating from the different departments of study by tassels of the official department color as established by the Intercollegiate Code.

Thesis: "A Cytogenetical Study of Sex-inheritance in *Spanacia Oleracea* L."
- David Berger, Psychology; Cleveland, Ohio  
Thesis: "The Emotional Reaction on Admission to a Tuberculosis Hospital"
- Robert Frederick Bishop, Soil Science; Somerset, Nova Scotia  
Thesis: "Factors Affecting the Water-Soluble Boron Content of Soils"
- Harry Walter Blair, Psychology; Westville, Indiana  
Thesis: "A Factor Analytic Study of the Social Behavior of Schizophrenics"
- A. Dewey Bond, Agricultural Economics; Chesterland, Ohio  
Thesis: "Producer Responses to the Attitudes Toward Federal Price Support Programs for Potatoes"
- Gerald Bosch, Education; Zeeland  
Thesis: "A Study of Some of the Factors that Influence the Selection of Public School Superintendents and High School Principals in Michigan"
- Charles Clark Bowen, III, Botany and Plant Pathology; East Lansing  
Thesis: "A Comparative Study of the Effects of Several Antimitotics"
- James Cecil Boyd, Dairy; Moscow, Idaho  
Thesis: "The Role of Psychrophilic Bacteria in the Keeping Quality of Commercially Pasteurized and Homogenized Milk"
- Gerald Brody, Bacteriology and Public Health; Elizabeth, New Jersey  
Thesis: "The Effect of Pteroylglutamic Acid, Vitamin B-12, and Related Compounds on *Ascaridia Galli* Infections in Chicks"
- Donald Peyton Brown, Agricultural Engineering; Morgantown, West Virginia  
Thesis: "Prevention of Frost Damage in Orchards by Using Wind Machines to Utilize Temperature Inversion With and Without Petroleum Burners"
- Emory John Brown, Sociology and Anthropology; State College, Pennsylvania  
Thesis: "Elements Associated with Activity and Inactivity in Formal Organizations"
- Richard Lerda Burke, Chemistry; San Francisco, California  
Thesis: "A Study of the Structure of Some Cyclic Amides and Related Tetrazoles"
- Jean Bullard Burnett, Chemistry and Mathematics; Flint  
Thesis: "A Critical Study of the Chromatographic Separation of Calciferol from Ergosterol."
- Ogbourne Duke Butler, Jr., Animal Husbandry; College Station, Texas  
Thesis: "Some Causes and Measurements of Color Changes in Fresh Retail Meat Cuts"
- Joseph Dempsey Campbell, Horticulture; Saskatoon, Saskatchewan  
Thesis: "Differential Cation Absorption and Yield Response of Vegetable Crops Grown at Various Levels of Calcium, Potassium and Sodium"
- Robert Fritz Carlson, Horticulture; East Lansing  
Thesis: "Inhibition of Runner Plants in the Strawberry (*Fragaria* spp.) by Chemical Treatment"
- William John Carpenter, Horticulture; Hyattsville, Maryland  
Thesis: "The Effect of Corncob Mixtures and Mulches Upon the Growth of the Rose"
- Frank Asa Cassis, Jr., Chemistry; Sistersville, West Virginia  
Thesis: "Part I: The Preparation and Properties of 2, 6-Di-terinary-butylphenol. Part II: Kinetic Studies of the Alkylation of Phenols with Tertiary Halides. Part III: The Mechanism of the Inhibition of Phenol Alkylations by Oxygenated Compounds"
- Ishwar Gopal Chavan, Bacteriology and Public Health; Harli-khurd, Bombay State, India  
Thesis: "Study of Enterococci in Milk"
- William Kenneth Christian, English; Binghamton, New York  
Thesis: "The Mind of Edward Everett"
- Thomas Chulski, Chemistry; Cedar Springs  
Thesis: "The Volumetric Detremination of Peroxydiphosphate"
- Ralph Norman Costilow, Bacteriology and Public Health; Apex, North Carolina  
Thesis: "The Availability of the Essential Vitamins and Amino Acids for *Lactobacillus plantarum* in Cucumber Fermentations"
- Lester Joseph Crane, Sr., Dairy; Garwood, Texas  
Thesis: "Genetic and Environmental Factors Affecting the Red Danish Cattle in Michigan"
- Charles Henry Cunningham, Bacteriology and Public Health; East Lansing  
Thesis: "Studies of Some Factors to be Considered in Evaluating the Effect of Certain Chemical Agents on Newcastle Disease Virus"

- La Verne Leon Curry, Zoology; Mt. Pleasant  
Thesis: "An Ecological Study of the Family Tendipedidae (Diptera) of Two Fresh-water Lakes in Isabella County, Michigan"
- Paul George Daston, Psychology; Roslindale, Massachusetts  
Thesis: "Perceptual Vigilance in Paranoid Schizophrenia"
- Robert Harlan Davis, Psychology; East Grand Rapids  
Thesis: "The Quantification of Drive, I: Incentive Values of Food and Water"
- Frances Helen DeLisle, Education; East Lansing  
Thesis: "A Study of the Relationship of the Self-Concept to adjustment in a Selected Group of College Women"
- Robert Earl Dils, Soil Science; Miamisburg, Ohio  
Thesis: "Changes in Some Vegetation, Surface Soil and Surface Runoff Characteristics of a Watershed Brought About by Forest Cutting and Subsequent Mountain Farming"
- George T. Dimopoulos, Bacteriology and Public Health; Jackson Heights, New York  
Thesis: "Electrophoretic and Serum Neutralization Studies of Sera from Chickens Exposed to Infectious Bronchitis Virus"
- Herbert Sousa Eleuterio, Chemistry; New Bedford, Massachusetts  
Thesis: "Steriochemistry of the C- and O- Alkylation of Phenols, and of the Cleavage and Thermal Rearrangement of Alkyl Aryl Ethers"
- Jack Calkins Elliott, Botany; Coldwater  
Thesis: "The Phytosociology of the Upland Second Growth Hardwoods of Missaukee County, Michigan"
- Ray Edwin Ely, Dairy; Union City  
Thesis: "Studies on the Digestibility of Orchard Grass with Dairy Cattle"
- Beatrice Iva Fessenden, Education; Auburn, New York  
Thesis: "An Analysis of Factors Contributing to the Academic Deficiencies of Selected Students on Academic Probation at Michigan State College"
- William Lee Garbrecht, Chemistry; Grand Rapids  
Thesis: "The Reaction of Hydrazoic Acid with Substituted Cyanamides: The Synthesis and Properties of Various Derivatives of 5-Aminotetrazole"
- John Bernard Gartner, Horticulture and Botany; Lakewood, Ohio  
Thesis: "Interrelation of Response to Indole Acetic Acid, Duration and Intensity of Light, and Heterosis in the Snapdragon (*Antirrhinum Majus* L.)"
- Robert Francis Gentry, Bacteriology; East Lansing  
Thesis: "Serological Studies on Avian Visceral Lymphomatosis Using the Complement Fixation Reaction"
- Clarence Cornelius Gray, III, Soil Science; Hempstead, New York  
Thesis: "The Phosphorus Supplying Powers of Some Michigan Soils"
- John Kenneth Guiher, Wood Technology; Akron, Ohio  
Thesis: "The Effect of Alkyl-Substituted Phenolic Adhesives on the Bonding of Douglas Fir Beneer"
- Emanuel Hackel, Zoology; East Lansing  
Thesis: "The Relationship Between Rh Factor Incompatibility and Mental Deficiency"
- Herbert Lewis Hackett, Sociology and Anthropology; East Lansing  
Thesis: "An Experimental Investigation of the Effects of Introducing Writing Skills Training into the Framework of an Introductory Course in Sociology"
- Carl William Hall, Agricultural Engineering; Tiffin, Ohio  
Thesis: "An Operational Analysis of Dairy Plant Equipment"
- Henry Arthur Hanson, Mathematics; Lansing  
Thesis: "Some Relations Between Various Types of Normality of Numbers"
- Richard James Harley, Bacteriology and Public Health; Grosse Pointe  
Thesis: "Oxidation Reduction Potential Studies on the Rate of Germicidal Activity of Quaternary Ammonium Compounds"
- Richard Scott Hauser, Botany and Plant Pathology; Delmar, New York  
Thesis: "An Ecological Analysis of the Isolated Prairies of Newaygo County, Michigan"
- Harold Albert Henneman, Animal Husbandry; Belmont, Wisconsin  
Thesis: "The Thyroid Secretion Rate of Sheep as Affected by: Season, Age, Breed, Pregnancy, and Lactation"

SCHOOL OF GRADUATE STUDIES (Continued)

- Donald Joseph Herrmann, Education; Lee, Illinois  
Thesis: "A Study of the Abilities, Traits, and Characteristics of Secondary School Counselors"
- Benjamin Blakely Hickok, English; East Lansing  
Thesis: "The Political and Literary Careers of F. B. Sanborn"
- Roscoe John Higdon, Horticulture; Columbia, South Carolina  
Thesis: "Soil Moisture Depletion by Various Grasses and Legumes Used as Orchard Sods"
- Erma Marguerite Hill, Bacteriology and Public Health, East Lansing  
Thesis: "A Study of the Platic Card Method for the Determination of Human Blood Groups"
- Clifford Robertson Humphrys, Soil Science; Lansing  
Thesis: "The Evaluation of Physical Factors in Relation to Land Use; A Study of Gogebic and Ontonagon Counties, Michigan"
- Hezekiah Jackson, Horticulture; Greensburg, Louisiana  
Thesis: "Some Effects of Maleic Hydrazide on Certain Physiological Responses of Celery (*Apium graveolens*)"
- Champ McMillian Jones, Farm Crops; Dacusville, South Carolina  
Thesis: "An Inheritance Study of Corn Maturity"
- Edwin Boyd Jones, Agricultural Economics; Hooper, Utah  
Thesis: "Intra-Consumer Price Discrimination as a Means of Increasing Milk Consumption"
- Roger Folke Keller, Jr., Zoology; Gonic, New Hampshire  
Thesis: "Studies on the Parotid and Thyroid Glands of Caries-susceptible and Caries-resistant Strains of Rats (*Rattus norvegicus*)"

# Alumni Awards for Distinguished Service

To provide recognition to Alumni of Michigan State College for Outstanding achievements, the Washington, D. C., Alumni Club in 1946 established the Alumni Awards for Distinguished Service. Annually one or more recipients, not to exceed five in any given year, are designated from a list of nominees submitted by local Michigan State College Alumni Clubs throughout the United States. Parchment scroll awards are presented each spring on Commencement Day at the College. The chairman of the Washington D. C. Awards Committee is Dr. Harold C. Knoblauch, Class of 1931.

Recipients of the awards for 1953 are:

## CHARLES DWIGHT CURTISS

Class of 1911. Kensington, Maryland. Civil Engineer. Teacher. Author. Instructor in Civil Engineering, Michigan State College. Superintendent, Continental Public Works Company, New York. Bridge Inspector, Michigan State Highway Department. Assistant Engineer, Iowa Highway Commission. Assistant to Chief; Chief, Division of Control; Deputy Commissioner, Bureau of Public Roads, U. S. Department of Commerce. Author of numerous contributions and recognized national authority on highway finance, administration, recruitment and training. Gold Medal Exceptional Service Award by U. S. Department of Commerce. American Society of Civil Engineers award for distinguished service as Secretary of the Highway Division. Member, American Society of Civil Engineers; American Association of State Highway Officials; Highway Research Board; National Academy of Sciences; Cosmos Club, Washington; Michigan State College Alumni Award Committee for three years. Contributed extensively to professional magazines and books with articles on design and construction. An outstanding leader and authority, both technically and economically, in developing proper engineering use of timber. Member, American Society of Civil Engineers; Engineering Institute of Canada; American Railway Engineering Association; Forest Products Research Society; National Society of Professional Engineers; American Society for Testing Materials; Research Institute of America; American Institute of Timber Construction.

## DR. WALTER LE ROY MALLMANN

Class of 1918. East Lansing, Michigan. Bacteriologist. Scientist. Teacher. Author. Instructor; Assistant Professor and Research Assistant; Associate Professor and Research Associate; Professor and Research Professor in Bacteriology, Michigan State College. International authority and research scientist in dissociation of bacteria, disinfection, water and sewage bacteriology, refrigeration of foods and food sanitation. Recipient of the Fuller's Award from the American Water Works Association for Distinguished Research on Water and Sewage. Received certificate of appreciation from American Hospital Association and from the University of Michigan's School of Public Health for contributions to courses on sewage and industrial waste disposal. Member, Society of American Bacteriologists; Society of Experimental Biology and Medicine; Water Works Association; Federal Sewage Association; Institute of Food Technology; Phi Kappa Phi; Sigma Xi.

# Gifts

GOOD WILL toward Michigan State College continually is being demonstrated in various ways. The many gifts that are received each year, most of them in the form of money, attest to the pleasant relationships that exist between the college and individual citizens and private and public organizations throughout the nation. The following gifts were presented to Michigan State College during the past year.

The Greater Muskegon Chamber of Commerce, to be used in the Bureau of Business Research to determine the buying habits and attitudes of residents of the Muskegon area, and also their opinions on certain community matters. . . . .	\$460
The Saginaw News of Saginaw, to be used in the Bureau of Business Research in conducting a survey of newspaper readership of residents of Saginaw . . . . .	\$90
Sharples Chemicals, Inc., a Subsidiary of the Pennsylvania Salt Manufacturing Company of Philadelphia, to be used in Botany to make herbicidal trials of the Sharples product. . . . .	\$500
Wright-Air Development Center of Dayton, Ohio, to be used in Botany in the development of fungi with high cellulolytic activity . . . . .	\$15,000
Research Division of Armour & Company of Chicago to be used in Agricultural Chemistry in a study of the growth promoting properties of surfactants for swine. . . . .	\$4,000
U. S. Atomic Energy Commission of Washington to be used in Agricultural Chemistry in a study of the effects of amino acids and proteins on the metabolism of the fission elements cerium, promethium, yttrium, and zirconium . . . . .	\$8,107
Niagara Chemical Division of Food Machinery and Chemical Corporation of Middleport, New York, to be used in Botany in a study of the effectiveness of fungicides in controlling diseases of tomatoes. . . . .	\$300
H. H. Robertson Company of Pittsburgh, to be used in Botany in testing the effectiveness of fungicides on potatoes . . . . .	\$200
H. H. Robertson Company of Pittsburgh, to be used in Botany in testing fungicides on tomatoes . . . . .	\$100
Automotive Safety Foundation, through the Association of Land-Grant Colleges and Universities of Washington, to be used in Continuing Education for a study of safety needs and resources available to meet such needs in land-grant colleges . . . . .	\$5,000
Wesix Electric Heater Company of San Francisco, California, to be used in Horticulture for a candidate for the Ph. D. degree in order to work on an investigation of the effect of positively and negatively ionized air on growth and development of plants . . . . .	\$2,000
Ira Haupt & Company of New York City, to be used for research work on orchids and for teaching purposes in the Horticulture Department . . . . .	\$2,500
Parke, Davis and Company of Detroit, to be used in Chemistry to aid the group in Physical Chemistry in obtaining miscellaneous supplies and equipment . . . . .	\$300
Parke, Davis and Company of Detroit, to be used in Chemistry for a fellowship for a graduate student in the field of Organic Chemistry . . . . .	\$1,400
Parke, Davis and Company of Detroit, to be used in Chemistry to aid the group in Organic Chemistry in obtaining miscellaneous supplies and equipment . . . . .	\$300
Parke, Davis and Company of Detroit, to be used in Chemistry for a fellowship for a graduate student in the field of Physical Chemistry. . . . .	\$1,400
Midwest Barley Improvement Association of Milwaukee, Wisconsin, to be used in Farm Crops in the testing of barley varieties in the Thumb Area and the effect of different fertilizers upon the yield and malting qualities of these varieties . . . . .	\$400
Chemical Corps Biological Laboratory of Camp Dietrick, Frederick, Maryland, to be used in Horticulture to investigate the herbicidal activity of Esters of 2, 4-D. . . . .	\$7,600

The Rockefeller Foundation of New York City, to be used in Horticulture to study the mechanism of action of certain growth substances in horticultural crops. . . . .	\$5,000
Schering Corporation of Bloomfield, New Jersey, to be used in Biological Science in a study of the effect of methylandrostenediol and testosterone propionate on rats of incorporation of radio-active amino acids into tissue proteins . . . . .	\$500
California Spray-Chemical Corporation of Richmond, California, to be used in Botany to test Orthocide 406 Wetttable and a combination of this material with Tag 331 in comparison with several other standard fungicides for the control of apple scab. . . . .	\$500
Midwest Administration Center of the University of Chicago in Chicago, to be used in Journalism to inquire into and provide basis for improvement of relationships between newspapers and school administrations in Michigan . . . . .	\$12,000
Michigan State Fair Board of Detroit, to be used in Agricultural Economics to repeat the presentation of the exhibit, "Food--the Lifeline of America", which was first presented during the 1951 State Fair . . . . .	\$500
Michigan Certified Hybrid Seed Corn Producers Association of Fenwick, Michigan, to be used in Farm Crops to develop improved hybrid corn varieties for Michigan . . . . .	\$13,114
Area Research Center, to be used in Sociology and Anthropology to defray transportation and other costs of the study in Costa Rica. . . . .	\$1,500
American Cancer Society of Washington, D. C., to be used in Physiology and Pharmacology in a study on the relation of prolactin to mammary gland activity. . . . .	\$1,500
U. S. Department of Agriculture, to be used in Agricultural Economics to prepare courses of training, including demonstrational and information materials, teaching procedures, and methods to be used in an educational program for retailers of meat and meat products, to increase merchandising efficiency, reduce wastes, preserve quality, and assist consumers with suggestions for better care, handling and proper use of different cuts and grades of meat . . . . .	\$15,000
New Holland Machine Division of the Sperry Corporation of New Holland, Pennsylvania, to be used in Agricultural Engineering for a research project in agricultural machinery. . . . .	\$2,000
Commodity Credit Corporation of Washington, D. C., to be used in Agricultural Engineering to complete experimental testing and remodel the drying equipment and demonstrate drying and conditioning techniques to producers and others . . . . .	\$5,400
United States Department of Agriculture, to be used in Agricultural Engineering to develop and evaluate relatively inexpensive methods and equipment for use on farms for testing the moisture content of farm commodities . . . . .	\$10,000
Michigan REA Safety and Job Training Commission of Ubyly, Michigan, to be used in Agricultural Engineering to carry on in-service safety and job training programs for the year 1952-53 in cooperation with the State Board of Control for Vocational Education and the Michigan REA Safety and Job Training Committee . . . . .	\$7,470
National Dairy Council of Chicago, to be used in Dairy in a continuation of the project dealing with nutritive values of crops and cows' milk as affected by soil fertility . . . . .	\$8,050
Detroit District Golf Association, to be used in a continuation of turf research . . . . .	\$300
Eli Lilly and Company of Indianapolis, Indiana, to be used in Biological Science for a research project on ergot . . . . .	\$3,240
Inter-University Case Program of Washington, D. C., to be used in the Governmental Research Bureau in a case study in public administration for teaching purposes, centered on the recent Jackson Prison riots . . . . .	\$550
Dearborn Chemical Company of Chicago, to be used in the Engineering Experiment Station in an investigation of boiler water sludge conditioners over a range of working pressures. . . . .	\$3,000
American Society of Heating and Ventilating Engineers of New York City, to be used in Mechanical Engineering in a study to determine the resistance to the flow of air offered by various designs to take-offs. . . . .	\$1,600

Michigan Blueberry Growers Association of South Haven, to be used in Entomology in studies on the life history and habits with an idea to control of insects infesting blueberries. . . . .	\$800
Federal Security Agency, Public Health Service, of Bethesda, Maryland, to be used in Chemistry in a study of the nature of the tumor-inhibiting principle of Boletus edulis and to investigate similar principles in other Basidiomycetes . . . . .	\$8,253
Quartermaster Corps of the U. S. Army, to be used in Chemistry in research on "A Study of Catalytic Factors Involved in the Browning of Certain Food Constituents" . . . . .	\$7,784.20
U. S. Atomic Energy Commission, to be used in Chemistry to continue the physio-chemical investigation of the interhalogen compounds . . . . .	\$25,585
Ordnance Corps of the Detroit Ordnance District, to be used in Physics and Astronomy for basic research in the field of ultrasonics . . . . .	\$13,968
U. S. Department of State, to be used in the Area Research Center of the Department of Sociology and Anthropology to collect and analyze data useful for the purpose of improving the effectiveness of the films of the International Motion Picture Service of the Department of State. . . . .	\$4,050
Economics Laboratory, Inc. of St. Paul, Minnesota, to be used in Bacteriology in a study of acidulated halogan compounds. . . . .	\$500
U. S. Atomic Energy Commission, to be used in Physiology and Pharmacology in a study of the local factors in bone mineralization and to study calcium and strontium absorption. . . . .	\$9,000
Chemical Specialities Company, Inc., of New York City, to be used in Physiology and Pharmacology in a continuation of studies on hormonal induction of lactation in cattle and the influence of steroid hormone administration on body weight gains and carcass characteristics of fattening lambs, and to defray costs of obtaining and processing milk from hormone-treated cows . . . .	\$7,500
American Dairy Association of Lansing, to be used at the Radio Station to defray the expense of broadcasting out-of-town athletic contests . . . . .	\$5,000
U. S. Rubber Company, to be used in Horticulture on a research project on foliage sprays of maleic hydrazide for improving storage qualities of crops . . . . .	\$2,500
Inter-University Case Program of Washington, D. C., to be used in the Governmental Research Bureau in the development of research studies in administrative ethics developed in public administration . . . . .	\$780
Rohm & Haas Company of Philadelphia to be used in Bacteriology in a study of disinfection of milking machines . . . . .	\$500
Michigan Association of Silo Manufacturers of Oxford, Michigan, to be used in Agricultural Engineering to continue that project . . . . .	\$800
City of East Lansing, to be used in Civil Engineering to experiment with and improve on various means of bacterial decomposition of organic wastes or the method of high rate composting . . . . .	\$5,000
U. S. Atomic Energy Commission, to be used in Chemistry to establish whether transmethylation reactions occur in plants. . . . .	\$7,312
Lederle Laboratories Division of the American Cyanamid Company of Pearl River, New York, to be used in Bacteriology for investigations on the relationship of nutrition to parasitic infections . . . . .	\$3,000
Michigan Artificial Breeders Association of East Lansing, to be used in the Dairy and Agricultural Chemistry Departments for research on infertility in cattle . . . . .	\$1,142.02
Emmet County Growers Cooperative of Petoskey, to be used in Agricultural Engineering to develop new and more efficient potato cleaning equipment . . . . .	\$100
Michigan Crop Improvement Association of East Lansing, to be used in Farm Crops to promote studies in seed improvement work and to assist in conducting the seed certification program in Michigan. . . . .	\$1,300
Farmers and Manufacturers Beet Sugar Association of Saginaw, to be used in Farm Crops in a study of the moisture, enzyme and nutrient factors in the germination of sugar beet seed, with particular reference to the accomplishment of accelerated and vigorous sprouting . . . . .	\$1,800

Michigan Bean Shippers Association of Saginaw, to be used in Farm Crops in the development of disease resistant strains of navy, kidney, cranberry, and yellow-eye beans. . . . .	\$2,500
Farmers and Manufacturers Beet Sugar Association of Saginaw, to be used in Farm Crops to continue the study of the influence of different crops and forage crop mixtures upon a succeeding crop of sugar beets with particular reference to the stand, yield, and quality of the beet crop. . . .	\$1,800
U. S. Golf Association of Beltsville, Maryland, to be used in Soil Science in a continuation of turf research. . . . .	\$300
St. Joseph Retail Merchants Association of St. Joseph, Michigan, to be used in the Bureau of Business Research to determine the buying habits and attitudes of residents of that area and also their opinions on certain community matters. . . . .	\$150
U. S. Public Health Service of Bethesda, Maryland, to be used in Chemical Engineering to study the effect of cyanides and other toxic wastes on operation of trickling filters with domestic sewage . . .	\$8,964
Kold-Hold Manufacturing Company of Lansing, to be used in Mechanical Engineering in a research and development program on three heat exchangers designed and furnished by the Company. . . . .	\$5,467.46
California Spray-Chemical Corporation of Fennville, Michigan, to be used in Botany for research work with Orthocide 406 on tomatoes . . . . .	\$100
Dow Chemical Company of Midland, to be used in Botany to study the effects of herbicides on weeds and brush and the effects on grazing livestock on sprayed vegetation . . . . .	\$500
Standard Oil Company of Indiana, to be used in Botany in the development and evaluation of selective petroleum weed-killers based upon formulations and ingredients mutually agreed upon . . . . .	\$1,000
Michigan Chemical Corporation of Saint Louis, Michigan, to be used in Chemistry in a study of the halogenation of several classes of organic compounds used as organic halogen carriers. . . . .	\$2,300
City Plan Commission of Lansing, to be used in Sociology in the preparation of a land use survey and the preparation of a census tract plan for the City of Lansing . . . . .	\$6,670
Health Information Foundation of New York City, to be used in Sociology to continue observation of the self-survey in Lenawee County and to prepare the report . . . . .	\$2,500
Association of Land-Grant Colleges and Universities of Washington, D. C., to be used in Sociology to prepare a supplement to the original report on "Rural Social Systems and Adult Education" and to develop proposals for research activities and educational experiments . . . . .	\$4,000
Michigan Artificial Breeders Association of East Lansing, to be used in Animal Pathology in a study of the cause and possible cures of sterility in dairy cattle . . . . .	\$13,107.96
U. S. Public Health Service of Bethesda, Maryland, to be used in Physiology and Pharmacology to determine the effects of marked changes in hormone levels in the body on nutritional requirements . . . . .	\$6,000
Scott Viner Company of Columbus, Ohio, to be used in Agricultural Engineering in studies of the sugar beet harvester cleaning mechanism . . . . .	\$200
Roses, Inc., of Columbus, Ohio, to be used in Horticulture in a study of the influence of light and light intensities on greenhouse roses . . . . .	\$700
California Spray-Chemical Corporation of Richmond, California, to be used in Botany in studies on the efficacy of Orthocide 406 as a fungicide in the control of early blight and late blight on potato foliage and tubers . . . . .	\$300
Lederle Laboratories Division of the American Cyanamid Company of Pearl River, New York, to be used in Bacteriology . . . . .	\$600
Army Quartermaster Corps of Alexandria, Virginia, to be used in Bacteriology to build mechanical dishwashing machines and experiment with their operation . . . . .	\$12,400
Hanson-Van Winkle-Munning Company of Matawan, New Jersey, to be used in Chemistry for general electroplating studies . . . . .	\$1,500
Dow Chemical Company of Midland, to be used in Agricultural Chemistry in a study of the effect of DL tryptophan on the growth of weanling pigs fed low protein rations. . . . .	\$1,000

State of Michigan Tourist Council, to be used in the Bureau of Business Research to conduct a nation-wide mail survey of the vacationing habits and the character of persons who request Michigan travel literature, and to analyze the effectiveness of advertising media currently used by the Tourist Council. . . . .	\$1,000
Ordnance Corps, Detroit Arsenal, of Center Line, Michigan, to be used in the School of Engineering . . .	\$31,750
A. M. Todd Company of Kalamazoo, to be used in Botany and Plant Pathology in a continuation of the mint research project started in 1946 . . . . .	\$2,500
The Upjohn Company of Kalamazoo, to be used in Chemistry in the field of physical chemistry research . . . . .	\$2,500
Sharp & Dohme of West Point, Pennsylvania, to be used in Surgery and Medicine in a study of the value of products furnished by the Company in certain conditions of disease and health. . . . .	\$2,000
Charles Bruning Company, Inc., of Detroit, to be used under the direction of the Committee on Scholarships to establish the Bruning Copyflex Scholarship. The purpose of the scholarship is to conduct a program of research in the field of business systems, involving copyflex reproduction . . . . .	\$1,000
Surgeon General's Office, U. S. Public Health Service, to be used in the Department of Natural Science to support research in biosynthesis of proteins as affected by hormones . . . . .	\$5,000
Armour and Company of Chicago, to be used in Agricultural Chemistry in a study of the growth-promoting properties of various surface active materials for swine. . . . .	\$2,500
Michigan Milk Producers Association of Detroit to be used in Agricultural Economics to determine the cost of maintaining a milking herd, raising young stock, keeping bulls and the returns thereto . . . . .	\$4,000
Consumers Power Company of Jackson, Michigan, to be used in Agricultural Engineering for developing and producing a series of television shows in rural electrification . . . . .	\$6,450
U. S. Atomic Energy Commission of Chicago, to be used in Horticulture to carry out further studies and investigations on the comparative rates of utilization of radio-strontium, calcium and barium applied to leaves, roots, and fruits of horticultural plants. . . . .	\$5,000
Ferro Corporation of Cleveland, Ohio, to be used in Botany to pursue further studies of glass frits as sources of trace elements for plants . . . . .	\$3,500
American Dehydrators Association of Kansas City, Missouri, to be used in Botany to study nutritional factors affecting the stability of alfalfa plants. . . . .	\$4,250

# Visitors are Welcome

## COLLEGE MUSEUM

The College Museum, in the Auditorium Building, will be open to visitors each Saturday and Sunday from 1:00 to 5:00. Attention of the public is called especially to the exhibits of Michigan fishes, deer, and beaver in their natural surroundings, Bolivian mummy, an alcove of colorful insects, a panorama of the glacial evolution of Michigan, the Family Tree of Man, "Weapons of War" from the cross-bow of 1500 A.D. to the bazooka and grease gun of World War II, and to the Paul M. Chamberlain Watch Collection.

Articles of early Michigan are being collected for the planned Agricultural Museum---anything that was used in the farm home or on the farm. Contact the Museum in person or by letter.

## BEAL GARFIELD BOTANIC GARDEN

In the Beal Garfield Botanic Garden are between two and three thousand botanical plants. The Garden is open to visitors any time.

## THE COLLEGE FARMS

The College Farms are located on the south side of the Red Cedar River. By driving south on Farm Lane, the road running north and south past the College Auditorium, many of the farm buildings can be seen. Attention of the visitors is called especially to the College Dairy Barn, the Beef Cattle Barn, the Pavilion, the new Agricultural Engineering Building, the new Research Greenhouses, and the College Poultry unit.

## WKAR AND WKAR-FM, COLLEGE RADIO STATIONS

WKAR and WKAR-FM, the College Radio Stations, with studios above the main entrance to the auditorium, will be open today to visitors after 1 o'clock.

## ALUMNI MEMORIAL CHAPEL

The Alumni Memorial Chapel was erected in memory of over 400 boys who left this campus to serve in the armed forces of America and who paid the supreme sacrifice.

The funds were provided by gifts from alumni and friends of Michigan State College.

The chapel is available for weddings as well as for other services which may appropriately be held in such a shrine. There are accommodations for approximately 200 persons.

The building is located on Auditorium Road and will be open all day to visitors.

## HORTICULTURAL GARDENS

The Horticultural Gardens, east of the Horticulture Building and the greenhouses, will be open all day to visitors.

## ART EXHIBITIONS

An exhibition of work by students in the Department of Art is on display in the Art Room, on third floor of the Student Union from 8 A.M. to 9 P.M. The examples constitute a selection of the best work done during the past year in ceramics, sculpture, drawing, painting, design, industrial design and print making. Visitors are cordially welcomed. There is no charge.

## MICHIGAN STATE COLLEGE BUILDING PROGRAM

An extensive post-war building program which is now nearing completion may be viewed by a drive around the modern and beautiful campus. Approximately 40 per cent of the cost for the physical expansion was secured through legislative appropriation and the remainder through self-liquidating loans without public expense. Buildings completed which have been financed on a self-liquidating basis are: Landon, Yakeley and Gilchrist Halls for women; Snyder-Phillips and Shaw Halls for men; food storage building; 11 apartment buildings for married students and faculty; and additions to Macklin Field stadium and the Student Union Building. Buildings completed which have been financed by state appropriation are: Berkey Hall, Natural Science, Physics and Mathematics, Home Management, Agricultural Engineering, Electrical Engineering, Plant Science Greenhouses on Farm Lane, a steam generating plant and Giltner Hall for veterinary medicine on East Circle Drive. Alumni Memorial Chapel and the Kellogg Center for Continuing Education were built with gifts to the college for those purposes.

Construction of a new set of men's residence halls got under way this spring. Four units, including three dormitory houses and a central dining-recreational building for 1,350 students, are expected to be completed this year. Later, another three dormitory houses accommodating 1,350 students, will be added to the project. The new residence halls, being constructed on a self-liquidating basis, are to be located just west of the Kellogg Center.

Another housing project, this one for married students, is expected to be launched this summer. Three modern permanent apartment buildings, containing 12 apartments each, are to be built immediately. Eventually, the college hopes to build about 40 of these buildings to replace the trailer village which is being eliminated.

# Alma Mater

## I

M.S.C. we love thy shadows  
When twilight silence falls,  
Flushing deep and softly paling  
O'er ivy covered halls.  
Beneath the pines we'll gather  
To give our hearts to thee,  
Sing our love for Alma Mater  
And thy praises, M.S.C.

## II

When from thy scenes we wander  
And twilight shadows fade,  
Our mem'ry still will linger  
Where light and shadows played.  
In the evening oft we'll gather  
And turn our thoughts to thee,  
Sing our love for Alma Mater  
And thy praises, M.S.C.

The escorts for the academic procession are members of Mortar Board, an honorary society for senior women, and Tower Guard, an honorary society for sophomore women. The ushers are members of the Varsity Club.
