GOLF

OLF is a science, the study of a lifetime, in which you may exhaust yourself but never your subject. It is a contest, a duel, or a melee, calling for courage, skill, strategy and self-control. It is a test of temper, a trial of honour, a revealer of character. It affords a chance to play the man and act the gentleman. It means going into God's out-of-doors, getting close to nature, fresh air, exercise, a recreation of tired tissues. It is a cure for care, an antidote to worry. It includes companionship with friends, social intercourse, opportunities for courtesy, kindness and generosity to an opponent. It promotes not only physical health but moral force.

Ross ^{SUPER} Tree Stakes

ROSS Super Tree Stakes are high quality, concentrated plant food supplements. Ideal for use by professional gardeners who require a fast, easy method of delivering vital nutrients to shade trees, evergreens, shrubs, and fruit trees. One application usually lasts all year. Each case of approximately 155 stakes is enough to feed more than 35 trees, 3" in diameter.

- High food value, plus iron and zinc:
16-10-9 formulation for trees and evergreens
16-5-10 formulation for fruit trees and berries
- Helps trees grow faster, stronger, with lush green foliage
- Fast, simple and easy to use
- Can be stored from season to season
- Helps trees resist affects of disease and insects
- Sold and used in any season—best results obtained in late fall or spring
- Big package—155 stakes plus 20 nylon driving caps

Super Tree and Evergreen Stakes	Packaged	Weight
Comm'l Pack #1791	155/case	44 lbs./case
Super Fruit Tree Stakes		
Comm'l Pack #1812	155/case	44 lbs./case

Solve pond & lake algae problems ... *with a touch of class.*

Otterbine® floating aerator fountains combine the solution of water algae (and odor) control - with the added elegance of a fountain.

Chemicals and plumbing are not needed
... all you add is electricity.

The season for algae build-up is coming.
Be ready with the algae problem solver
- Otterbine.

worth more

TURF PRO 84™

The hydraulic Turf Pro 84™ needs less maintenance — that, alone, makes it worth more.

Toro presents the first all-hydraulic tri-plex, for the same good reasons you find hydraulic power in heavy construction equipment — low maintenance, less shop time, high reliability and outstanding performance.

All of which adds up to a tri-plex worth more to you than any other make you can buy!

WILKIE TURF *Equipment Company*

HONDA

OUTBOARDS • GENERATORS

TILLERS • ENGINES • WATER PUMPS

WATER PUMPS

Widespread application. The super-dependable Honda water pumps enjoy a multitude of uses, from irrigation and livestock watering on farm or ranch to construction applications and emergency stand-by use in your home. And because they're powered by economical Honda four-stroke engines, they're easy to start and never require fuel pre-mixing.

Two models now available. The Honda pumps are available in two capacities: 158 and 290 gallon-per-minute models. Both are lightweight and easily portable and built to take on the tough jobs.

GENERATORS

Portable Honda power. These strong Honda generators seem to be turning up just about everywhere these days—from farm and ranch to construction site, campsite and home. More people than ever are turning to Honda for their power needs.

ENGINES

Small but strong! Honda general purpose engines bring what's best in Honda technology down to size: models are available from 3.5 to 8 hp. Again, all are of the four-stroke design, which contributes to smooth, economical operation without fuel pre-mixing.

Built tough. Honda engines feature many long-life engineering characteristics such as cast-iron cylinder sleeves and ball-bearing supported crankshafts. All feature the Honda Automatic Decompression System for easy starting. Honda engines are ideal for many replacement applications and are enjoying increasing popularity. Check the specs chart in this brochure and consult with your Honda dealer for your particular requirements.

TILLERS

Honda garden power. Just put a sturdy Honda tiller to work, and suddenly the hardest garden jobs get a whole lot easier. Tilling, mulching, furrowing, composting and weeding come quite naturally to the Honda tillers.

The cutting edge on quality.

Among power mowers, one stands alone above all others: the new Honda. Feature for feature, there's nothing else like it! Consider its powerful 3½-hp Honda engine, renowned for reliability. The easily adjustable cutting height, slim rear-mounted bag, clearly marked handle-mounted controls. Plus, CD ignition on some models. Not to mention Honda's exclusive Roto-Stop™: just release the lever and the blade stops within seconds. For safety and performance, we dare you to compare the new Honda mower!

Yanmar. One of the first companies in the world to develop a small diesel engine. Today the world's largest small diesel manufacturer. Because of the features we build into every engine. Like those in our 13, 15, 19, 24 and 33 HP compact diesel tractors. Swirl pre-combustion chamber systems, which maximize combustion efficiency to reduce fuel consumption. Trouble-free fuel injection systems for smooth running under all conditions. Thermostart, our advanced cold starting aid. And sub-tank cooling systems (YM195(D), YM240(D), YM330) which virtually eliminate radiator servicing.

The result is unbeatable economy, reliability, and ease of operation. Yours with every Yanmar. The world's first choice in small diesels. Now available in a feature-packed series of compact tractors.

**The over-achievers.
Put yourself in the driver's seat.
And find out what we mean.**

Precision Controllers With Unmatched Flexibility.

J-M Buckner is first in the industry to offer you solid-state microelectronics in an irrigation controller. Our KCS line of controllers are as easy to operate as pocket calculators. KCS offers unmatched flexibility with 12 or 24 individual circuits and four 14-day schedules ... all with timing accuracy down to a fraction of a second. The KCS totals daily watering time, allows skipping up to nine days, has both automatic and manual syringe cycles for services such as dew removal and many more unique features. Operation is simple, fast and accurate.

NOW is the time to consider converting existing quick coupling valves or manual systems to automatic -- with J-M/Buckner, solid state KCS automatic equipment and new automatic valves and sprinkler heads.

You may do it yourself -- or check with Jim Vince on design and installation.

MOSQUITO CONTROL

Our methods of mosquito control will positively control your adult mosquito population and your satisfaction is always guaranteed or you pay nothing. Our methods are so efficient and effective that a season's service to an average 18-hole golf course cost only about \$500.00 per year.

We spray only at night and use proven established pesticides that offer a high degree of safety and control, and we follow all precautions and guidelines to insure the safest and most effective control of target species.

Please call or write us for a free estimate anywhere in the Detroit Metro area.

ROSEMAN HYDRA-GANG

7-Gang Hydraulic Power Driven Reel Mower

EQUIPPED WITH
FINGER-TIP
CONTROL
FROM
TRACTOR
SEAT

The Roseman 7 unit Hydra-Gang utilizes the tractor hydraulic system to power the cutting reels and provides hydraulic lift for each mower unit. The Hydra-Gang mounts on Ford 2000 and 3000 All Purpose model tractors equipped with live power take-off.

Drive power for reels taken directly from the tractor engine eliminates need for excessive draw bar pull and minimum weight for traction.

Individual mower units follow ground contour with unlimited flexibility without scalping.

All mowers are quickly raised to 8' transport width from operator's seat.

Sold and Serviced by
