BEARD
COLLECTION

A PATCH of GREEN

Official Publication of the
Michigan & Border Cities Golf Course Superintendents Association

"Transforming the trunk of a dead tree into a work of art is the skilled domain of Ken Boshell and his chainsaw." *Greg Larkin, Art Critic, Grosse Pointe, Michigan*

On the fairway between the 3rd and 5th green, sits this totem pole-commissioned by Chris Schenkel, Sportscaster of ABC's Wide World of Sports, and official host for Deer Creek Country Club, Deerfield Beach, Florida.

Announcement

"The Chainsaw Man of Michigan"

Ken Boshell

If you have played at the Detroit Golf Club, the Lochmoor Golf Club, Farmington Country Club, Meadowbrook Country Club, Bay Pointe Golf Club, Sylvan Glen, or Pine Lake Country Club in Michigan, or Deer Creek Country Club in Florida, you would have seen some of my work.

The idea . . . You have trees planted all over your course (private homes as well), for some reason it dies, or is diseased and must come down - or you already have some that are down and have an eyesore of a stump left. Rather than destroy what was once beautiful, have it transformed into a beautiful lawn ornament.

For more information, Call (313) 977-7856, or write:

KEN BOSHELL

P.O. Box 481

Sterling Heights, Michigan 48077

Work runs one (1) month behind initial order, as I am booked in advance - SO CALL NOW - to book an unusual type of artistry for your Club. NOTE - As of April, 1981 I will be moving to the State of Connecticut to live and work . . . That's if I don't die first.

TURF TRUCKSTER SYSTEM.

Because the flexibility of the Cushman Turf-Care System saves you time and money. Here's how!

The System is built around the rugged, versatile 18 hp Turf-Truckster, 3- or 4-wheel model. With this one power source and options, you can haul, spray, spike, spread and top dress. And

save as much as 35% on equipment in the process.

Because, instead of buying separately powered units for each job, you buy only the Turf-Truckster and the modular Cushman accessories you need. So you pay less in total for equipment... and have only one power unit to maintain.

**CUSHMAN
TURF-CARE
EQUIPMENT**

OMC-Lincoln, a Division of
Outboard Marine Corporation
6201 Cushman Drive
P.O. Box 82409
Lincoln, Nebraska 68501

But that's not all.

The System is also a time saver that can cut your labor costs. Accessories mount on the back of the Turf-Truckster. Your men do their work quickly, efficiently... and then move on to the next job at speeds up to 22 mph. There's less wasted traveling time, so you get more work out of each hour of labor cost.

The Cushman Turf-Care System. Versatility, superior performance, economy. It's a tough system to beat.

Write today for your free Cushman Turf Care Catalog.

You can't beat the system.

CALL NOW
For a demonstration
and price quotation.

FORE

THE NATURAL SYSTEM

It was conceived to solve your sign, bench, and teemarker problems.

It was designed to fill your needs for quality, strength, durability, and good looks.

It is constructed and carved by our craftsman—shipped to you ready for assembly.

It is a tribute to MOTHER NATURE.

THE INCREDIBLE
TEE-TIME BREAKTHROUGH...
ASK US!

Tee-Time proven products work so well
that we will give you your money back
if Tee-Time isn't as good or better
than anything you've used!

Tee-Time turf food products give positive performance because they are formulated to nourish the entire plant, not just produce lush top growth. A healthy plant can withstand adverse weather and traffic conditions and be more resistant to disease. Tee-Time's prescription nutrition requires fewer feedings but develops a darker green, hardier turf.

TAKE THE TEE-TIME TEST!

If you are not satisfied it does as much or more than what you are now using, we'll give you your money back.

Turf Topics—

Precision Controllers With Unmatched Flexibility.

J-M Buckner is first in the industry to offer you solid-state microelectronics in an irrigation controller. Our KCS line of controllers are as easy to operate as pocket calculators. KCS offers unmatched flexibility with 12 or 24 individual circuits and four 14-day schedules ... all with timing accuracy down to a fraction of a second. The KCS totals daily watering time, allows skipping up to nine days, has both automatic and manual syringe cycles for services such as dew removal and many more unique features. Operation is simple, fast and accurate.

NOW is the time to consider converting existing quick coupling valves or manual systems to automatic -- with J-M/Buckner, solid state KCS automatic equipment and new automatic valves and sprinkler heads.

You may do it yourself -- or check with Jim Vince on design and installation.
