TURF TRUCKSTER SYSTEM.

Because the flexibility of the Cushman Turf-Care System saves you time and money. Here's how!

The System is built around the rugged, versatile 18 hp Turf-Truckster, 3- or 4-wheel model. With this one power source and options, you can haul, spray, spike, spread and top dress. And

save as much as 35% on equipment in the process.

Because, instead of buying separately powered units for each job, you buy only the Turf-Truckster and the modular Cushman accessories you need. So you pay less in total for equipment...and have only one power unit to maintain.

**CUSHMAN®
TURF-CARE
EQUIPMENT**

DMC-Lincoln, a Division of
Outboard Marine Corporation
6201 Cushman Drive
P.O. Box 82409
Lincoln, Nebraska 68501

But that's not all.

The System is also a time saver that can cut your labor costs. Accessories mount on the back of the Turf-Truckster. Your men do their work quickly, efficiently...and then move on to the next job at speeds up to 22 mph. There's less wasted traveling time, so you get more work out of each hour of labor cost.

The Cushman Turf-Care System. Versatility, superior performance, economy. It's a tough system to beat.

Write today for your free Cushman Turf Care Catalog.

You can't beat the system.

6 ANSWERS TO QUESTIONS WE NEVER THOUGHT YOU'D ASK (BUT DECIDED TO ANSWER ANYWAY)

1 Yes, GCSAA can help you become a better superintendent. One way it does this is through educational seminars and conference sessions it sponsors each year to help you become better informed about turfgrass diseases, pesticides, landscaping and management practices.

2 Yes, GCSAA is helping to further the advancement of the turfgrass industry. Through the GCSAA Scholarship & Research Fund, Inc., GCSAA provided more than \$13,500 last year in research grants to leading turfgrass programs. GCSAA also provides educational opportunities to turfgrass students through annual turfgrass scholarships.

4 Yes, GCSAA offers recognition for superintendents. Through its public relations efforts, its magazine, and its award programs, GCSAA helps promote the image and the professionalism of the superintendent. GCSAA also provides information to superintendents about how they can use public relations to promote their own image to their course, their community and their association.

3 Yes, GCSAA provides a meeting ground for superintendents. Each year, GCSAA sponsors an annual conference and show for its members. Last year more than 6,500 educators, industry representatives and members from all over the world attended. GCSAA's executive committee decided at its last board meeting that the conference experience is so valuable that first-year members should be encouraged to attend by being given free admission.

5 Yes, GCSAA provides each member with a life insurance program. Supplemental insurance, disability and pension programs also are available.

6 No, GCSAA can't help you with your golf handicap. You'll have to work on that yourself.

GCSAA

The association that offers you
more than just a name.

RAKE-O-VAC

RENOVATES TURF AND VACUUMS IT CLEAN

IT'S QUICK AND CLEAN: special renovator reel has 30 blades that slice a 58 3/4" swath. Renovates large areas in a short time, and the vacuum picks up the pieces. Greater capacity makes more frequent treatment practical — leading to healthier, more beautiful turf.

SHOCK-ABSORBING blades, pivoted to reduce damage, swing into action as reel rotates. Renovator reel is an accessory to the basic machine, and is interchangeable with rake (see below) or sweeper reel (next page). Reels raise for high-speed transport.

RAKES TURF AND VACUUMS IT CLEAN

ROTARY RAKE has 564 nylon fingers that gently lift litter off the turf, whip it into the vacuum stream that carries it into the hopper. Heavy rubber skirt, forward of reel, hugs ground to make vacuum even more powerful. Teeth will not mar bronze or stone markers.

RPM OF REEL is constantly coordinated to forward speed of unit — which is easily drawn by utility vehicle, tractor or light truck. Two 6-ply hi-flotation 11x15 tires make Rake-O-Vac light on its feet: only 6 lbs. psi empty, 14.5 lbs. psi carrying a ton of litter.

GRASS DOES NOT LIVE BY NITROGEN ALONE!

OR PHOSPHATE
OR POTASH

Yes, it takes a balance of all nutrients to grow good turf. Country Club products provide total nutrient feeding. Look to Country Club for all your fertilizer and combination fertilizer-pesticide products. You can rely on Country Club turf products for satisfaction and results.

For more information, call 1-800-637-2101 (217-446-0983 in Illinois)

MICHIGAN TURFGRASS FOUNDATION EXTENDS INVITATION

Dedication ceremonies for the new *Robert W. Hancock Turf Research Center* will be held in conjunction with the 1981 Michigan State University Turfgrass Field Day on September 10, 1981. Located at the corner of Mount Hope Road and Farm Lane, just South of the Michigan State Campus in East Lansing. It is being sponsored by Michigan State University and the Michigan Turfgrass Foundation.

It will be the first Field Day held at the new *Robert W. Hancock Turf Research Center*. The newly developed 10-acre site has become a reality after many years of planning. The building, furnishing, equipment and field plot development costs have mainly been paid for through donations received from individuals and the turf industry. Michigan State University Agricultural Experiment Station has provided 10 per cent of the development costs. Total developmental costs have been over \$300,000. *Robert W. Hancock Turf Research Center* has over 10 acres of field plot area, whereas the old test site had only 3 acres. The Michigan Turfgrass Foundation has been the driving force in developing and coordinating industry support for this new facility.

The new irrigation system is the most sophisticated system ever installed at a turf testing facility. It will be used extensively for research related to efficient energy and water use for the home owner and the turf industry.

All individuals, organizations and companies will be recognized for their contributions which made this new facility available to the people of Michigan and the Northern Turfgrass region.

HOWARD

COMMERCIAL TURF EQUIPMENT

COMMERCIAL 60" MOWER

The Howard 60" Commercial Mower with forward mounted cutting head affords maximum visibility, non-tracking performance and unparalleled trimming capabilities around and under bushes, chains, guard rails, picnic tables, etc. By having your cutting head out in front, independently attached, you can actually see the mower following the contour of the

ground, not the tractor. The Howard Commercial Mower with hydrostatic transmission enables you to set your cutting speed to an infinite range, between the speeds of 0 and 6.2 M.P.H., depending on your mowing conditions. The heavy duty transmission and differential allows for a responsive, yet smooth, operating forward and reverse action in open or congested areas. The transmission is backed by the strongest warranty in the field. The outstanding versatility of our tractor is evidenced by the attachments which are available. The attachments are quick change and may be run off our live P.T.O.

LAWN EQUIPMENT CORPORATION

46845 W. 12 MILE ROAD NOVI, MICH. 48050

P.O. BOX 500 (313) 348-8110
