GOLF COURSE SUPERINTENDENTS ASSOCIATION

A PATCH of GREEN

Official Publication of the
Michigan & Border Cities Golf Course Superintendents Association

WE'RE THE TOUGH NEW BATTERY IN TOWN.

Tough, because the Superior Battery has what it takes to get your golf cars through long tough days. And long tough seasons.

Our deep cycle design helps assure that strong, continuous power will be delivered to the motor. To make sure your cars get through a 36 hole day.

And when you put us in service, you get the added benefit of dealing with a company that manufactures its batteries right here in Michigan. A company that's just a phone call away. A company that's only interested in making one kind of battery. A golf car battery.

That's why we're so tough. We're only interested in being the best in one game.

AND WE'RE MADE RIGHT HERE IN MICHIGAN.

SUPERIOR BATTERY

49600 / Martin Drive / Wixom / Michigan / 48096 / 624-0724

TURF TRUCKSTER SYSTEM.

Because the flexibility of the Cushman Turf-Care System saves you time and money. Here's how!

The System is built around the rugged, versatile 18 hp Turf-Truckster, 3- or 4-wheel model. With this one power source and options, you can haul, spray, spike, spread and top dress. And

save as much as 35% on equipment in the process.

Because, instead of buying separately powered units for each job, you buy only the Turf-Truckster and the modular Cushman accessories you need. So you pay less in total for equipment...and have only one power unit to maintain.

CUSHMAN® TURF-CARE EQUIPMENT

OMC-Lincoln, a Division of
Outboard Marine Corporation
6201 Cushman Drive
P.O. Box 82408
Lincoln, Nebraska 68501

But that's not all.

The System is also a time saver that can cut your labor costs. Accessories mount on the back of the Turf-Truckster. Your men do their work quickly, efficiently...and then move on to the next job at speeds up to 22 mph. There's less wasted traveling time, so you get more work out of each hour of labor cost.

The Cushman Turf-Care System. Versatility, superior performance, economy. It's a tough system to beat.

Write today for your free Cushman Turf Care Catalog.

You can't beat the system.

CALL NOW
For a demonstration
and price quotation.

TORO

SAND PRO

It's proved it's a "pro" in the traps. There's never been a machine quite like it. It rakes and conditions sand to give the whole course a dressy new look. Now it spikes greens; takes over fine grading, scarifying, shaping and contouring of seedbeds; edges around traps; incorporates dressing; breaks up aerifier cores.

Altogether, the Sand Pro's as useful a machine as you can have around — and it's backed up by TORO people, by TORO parts and service and by our one year warranty.

TERSAN® 1991 + Daconil 2787®

Put the proven performers together for even better control of brown patch, dollar spot and other serious diseases.

TERSAN® 1991 fungicide and Daconil 2787® fungicide are two of the most effective disease control products on the market. And now, these proven broad-spectrum fungicides are labeled for tank mixing. Together, they give you even better control of major turf diseases than either product used alone. You get improved control, yet without the problem of phytotoxicity common with some tank mixes.

A TERSAN 1991/Daconil 2787 tank mix will give you consistent performance against brown patch and dollar spot—the two most troublesome diseases on turf each summer. You'll also get strong action on leaf spot and other important diseases. It's the kind of performance superintendents depend on when a quality course can't be compromised.

*Daconil 2787 is a registered trademark of Diamond Shamrock Corporation.

Tank mixing brings other advantages, too. With TERSAN 1991 in your tank, you get systemic action for protection from within the turf plant. Disease control is longer-lasting and is less affected by rainfall or frequent irrigation. Tank mixing fungicides with different modes of action also reduces chances of benzimidazole resistance. You help insure the long-term effectiveness of TERSAN 1991 in your disease control program.

This year, plan on using TERSAN 1991 in combination with Daconil 2787. It's the tank mix turf diseases can't match.

With any chemical, follow labeling instructions and warnings carefully.

INTRODUCING **TERRA 200**

FASTER?

Yes—over 8,800 holes per minute.

*THE BETTER,
AND **FASTER**,
WAY TO AERATE.*

BETTER?

Yes—the speed of Terra 200 allows you to get the job of aerating done during the very limited time when conditions make it the "right time". And when your turf needs aerating, you won't hesitate to do the job more often—the Terra 200 method is so simple and fast.

OPERATION:

1. With an ordinary pin, hook up to any 12 hp. utility vehicle.
2. With rubber tired wheels down, drive across walks, roads, etc. to the green.
3. Without stopping, push button to raise wheels—aerating begins.
4. Stay on green, turn right or left to circle—aerating continues.
5. Without stopping, push button to lower wheels, drive to next green or tee.
