TURF TRUCKSTER SYSTEM.

Because the flexibility of the Cushman Turf-Care System saves you time and money. Here's how!

The System is built around the rugged, versatile 18 hp Turf-Truckster, 3- or 4-wheel model. With this one power source and options, you can haul, spray, spike, spread and top dress. And

save as much as 35% on equipment in the process.

Because, instead of buying separately powered units for each job, you buy only the Turf-Truckster and the modular Cushman accessories you need. So you pay less in total for equipment... and have only one power unit to maintain.

CUSHMAN® TURF-CARE EQUIPMENT

DMC-Lincoln, a Division of
Outboard Marine Corporation
6201 Cushman Drive
P.O. Box 82409
Lincoln, Nebraska 68501

But that's not all.

The System is also a time saver that can cut your labor costs. Accessories mount on the back of the Turf-Truckster. Your men do their work quickly, efficiently... and then move on to the next job at speeds up to 22 mph. There's less wasted traveling time, so you get more work out of each hour of labor cost.

The Cushman Turf-Care System. Versatility, superior performance, economy. It's a tough system to beat.

Write today for your free Cushman Turf Care Catalog.

You can't beat the system.

TERSAN® 1991 + Daconil 2787®

Put the proven performers together for even better control of brown patch, dollar spot and other serious diseases.

TERSAN® 1991 fungicide and Daconil 2787® fungicide are two of the most effective disease control products on the market. And now, these proven broad-spectrum fungicides are labeled for tank mixing. Together, they give you even better control of major turf diseases than either product used alone. You get improved control, yet without the problem of phytotoxicity common with some tank mixes.

A TERSAN 1991/Daconil 2787 tank mix will give you consistent performance against brown patch and dollar spot—the two most troublesome diseases on turf each summer. You'll also get strong action on leaf spot and other important diseases. It's the kind of performance superintendents depend on when a quality course can't be compromised.

*Daconil 2787 is a registered trademark of Diamond Shamrock Corporation.

Tank mixing brings other advantages, too. With TERSAN 1991 in your tank, you get systemic action for protection from within the turf plant. Disease control is longer-lasting and is less affected by rainfall or frequent irrigation. Tank mixing fungicides with different modes of action also reduces chances of benzimidazole resistance. You help insure the long-term effectiveness of TERSAN 1991 in your disease control program.

This year, plan on using TERSAN 1991 in combination with Daconil 2787. It's the tank mix turf diseases can't match.

With any chemical, follow labeling instructions and warnings carefully.

TORO®

The No. 1 name in Golf Course
Irrigation Asks:
WHY CONVERT TO AUTOMATIC?

To improve your golf course

A TORO automatic sprinkler system is one of the easiest, most economical ways to assure uniform greens and lush green grass all over your course.

To attract and keep golfers

A TORO system helps you provide even, healthy turf without wet areas. . . for good lies wherever the ball lands.

To cut costs

While going automatic may mean a fairly substantial initial investment, that cost is usually amortized quickly. . . while you enjoy the benefits of an improved course and dramatic savings on water, labor, electricity and equipment.

Take one step at a time

From the stand point of installation, labor and equipment, it is most economical to convert your whole course at one time. However, you can use a "building block" approach, converting different segments of your course and paying as you go. Since your greens are probably your biggest problem, convert them first. Or do your tees and greens. Whatever you can afford now. Then, when you realize how much time, money and work an automatic system saves you, convert your fairways.

WILKIE

Turf Equipment Division, Inc.

1050 OPDYKE ROAD PONTIAC, MICHIGAN 48057

GOOSEGRASS OR CRABGRASS?

**CONTROL BOTH
WITH
RONSTAR®**

HERBICIDE

It's hard to tell the difference between goosegrass and late-germinating crabgrass.

But if you treat your turf with Chipco® RONSTAR® G herbicide, it makes no difference.

RONSTAR gives excellent control of both, season-long... and it's convenient to use, because there's no leaching problem, no root pruning, and no problems with ornamental plantings.

So, for the best control of grassy weeds, use RONSTAR. Rhône-Poulenc Inc., Agrochemical Division, Monmouth Junction, NJ 08852.

RONSTAR®
SPREAD THE WORD.

Please read label carefully, and use only as directed.

SOME OF THE EDITORS OF CHAPTER NEWSLETTERS, MEETING IN LAWRENCE

NATIONAL HEADQUARTERS GCSAA – LAWRENCE, KANSAS

EDITORS GET HUNGRY TOO

INTRODUCING **TERRA 200**

FASTER?

Yes—over 8,800 holes per minute.

THE BETTER,
AND **FASTER**,
WAY TO AERATE.

BETTER?

Yes—the speed of Terra 200 allows you to get the job of aerating done during the very limited time when conditions make it the "right time". And when your turf needs aerating, you won't hesitate to do the job more often—the Terra 200 method is so simple and fast.

OPERATION:

1. With an ordinary pin, hook up to any 12 hp. utility vehicle.
2. With rubber tired wheels down, drive across walks, roads, etc. to the green.
3. Without stopping, push button to raise wheels—aerating begins.
4. Stay on green, turn right or left to circle—aerating continues.
5. Without stopping, push button to lower wheels, drive to next green or tee.
