OFFICIAL PUBLICATION OF THE MICHIGAN & BORDER
CITIES GOLF COURSE SUPERINTENDENTS ASSOCIATION

Golf's Premier Irrigation Control System

Stadium Course, PGA West

Repeatedly the choice of the world's leading architects and superintendents, MAXI® III from Rain Bird is recognized as golf course irrigation's most exciting and versatile computerized control system.

Sophisticated. Reliable. Powerful. MAXI® III offers state-of-the-art irrigation technology. An IBM computer, too. Not to mention the ability to handle a wide range of important functions. Lighting—security—and a host of other necessary operations.

Legends in the making—the great golf courses of tomorrow are being built today. And MAXI® III is there!

Controllers. Rotors. 50 years of golf course irrigation experience.

Rain Bird — the choice from coast to coast

WORKMASTER

HEAVY DUTY INDUSTRIAL-QUALITY HYDROSTATIC DRIVE gives infinite speed control, instant forward/reverse, high torque to rear wheels for drawbar pull that surpasses competition. It's a closed, self-lubricating drive system as in our Sand Pro and Groundsmaster 72. No gears to change, no clutch to slip.

UP-FRONT SEATING FOR TWO, with passenger safety grip handle, means safe, comfortable seating for operator and passenger.

EASY ACCESS TO ALL COMPONENTS saves maintenance time. You don't have to empty the box to get at the battery. All frequently serviced parts are easy to get at.

STANDARD BOX SIZE carries existing engine-driven top dressers, sprayers, mowers and other maintenance equipment.

AUTOMOTIVE CONTROLS AND MORE LEG ROOM FOR OPERATOR helps reduce learning time, give greater security and comfort than competitive machines.

LOWER CENTER OF GRAVITY - long wheel base: low box bed-height gives greater safety and stability, reduces lifting.

SPRING SUSPENSION, SHOCK ABSORBERS ON ALL WHEELS, provides comfortable ride. Easily carries 1,000 lb. payload.

OVERSIZE 23 X 8.50 X 12 REAR TIRES give the **WORKMASTER** a soft footprint, excellent traction, for greater hill climbing ability and sidehill stability.

670 SERIES ROTARY SPRINKLER

**NORMALLY OPEN
VALVE-IN-HEAD**

CHECKOMATIC

**24 V.A.C. ELECTRIC
VALVE-IN-HEAD**

**NORMALLY CLOSED
VALVE-IN-HEAD**

SPECIAL FEATURES

Positive Spring Retraction

Minimizes tampering and accidents by pulling nozzle and cap down out of the way of people and mowers when watering is done. Strong spring discourages vandals.

Rugged Cyclocac® Case

Almost indestructible engineering plastic has tremendous impact resistance, won't rust, corrode or disintegrate because of time or water-carried minerals.

Long-Life Gear Drive

Rotation drive gears are vacuum-packed with grease and isolated from water stream for long, trouble-free life.

Valve-In-Head Models

All the advantages of head-by-head control at a much lower cost than valve-under-head installations. Customize watering to fit turf use, topography and soil.

Multi-cycle for wind or runoff problems, frost control, dew removal without low-head drainage. Available for hydraulic normally open, hydraulic normally closed or 24-volt electric systems. Valve accessible through top of head.

Checkomatic Models

Stops low-head drainage in block systems with spring-loaded check valve in base of sprinkler.

Manual Override

Allows normally closed and electric valve-in-head models to be turned on manually or be cancelled out of automatic program.

Pressure Regulation

For more equal water distribution over large areas. Compensates for large pressure differentials. Regulates pressure to nozzles on normally closed and electric valve-in-head models.

6 ANSWERS TO QUESTIONS WE NEVER THOUGHT YOU'D ASK (BUT DECIDED TO ANSWER ANYWAY)

1 Yes, GCSAA can help you become a better superintendent. One way it does this is through educational seminars and conference sessions it sponsors each year to help you become better informed about turfgrass diseases, pesticides, landscaping and management practices.

2 Yes, GCSAA is helping to further the advancement of the turfgrass industry. Through the GCSAA Scholarship & Research Fund, Inc., GCSAA provided more than \$13,500 last year in research grants to leading turfgrass programs. GCSAA also provides educational opportunities to turfgrass students through annual turfgrass scholarships.

4 Yes, GCSAA offers recognition for superintendents. Through its public relations efforts, its magazine, and its award programs, GCSAA helps promote the image and the professionalism of the superintendent. GCSAA also provides information to superintendents about how they can use public relations to promote their own image to their course, their community and their association.

3 Yes, GCSAA provides a meeting ground for superintendents. Each year, GCSAA sponsors an annual conference and show for its members. Last year more than 6,500 educators, industry representatives and members from all over the world attended. GCSAA's executive committee decided at its last board meeting that the conference experience is so valuable that first-year members should be encouraged to attend by being given free admission.

5 Yes, GCSAA provides each member with a life insurance program. Supplemental insurance, disability and pension programs also are available.

6 No, GCSAA can't help you with your golf handicap. You'll have to work on that yourself.

GCSAA

The association that offers you
more than just a name.

LESCO Greensmower designed by and for today's turf professionals

- 18 H.P. twin-cylinder Kohler Magnum engine for added power and long life.
- Hydraulic power steering for easy maneuverability
- Independent reel controls for multiple mowing patterns
- Reversible hydraulics to allow backlapping of individual cutting units while on machine
- Center post steering for added safety and ease in climbing on and off either side of machine
- Rocker foot pedal for raising and lowering cutting units
- Automatic starting and stopping of reels

Order Now.
