

SCOTT PRODUCTS

Spring 1933

LAWN SEED

- Regular Mixture** 1 to 9 lbs., 55c per pound
 Parcel Post or Express Paid 10 to 49 lbs., 50c per pound
 Larger amts., 45c per pound

A combination of permanent turf producing grasses with Kentucky Bluegrass predominating. For open, sunny places. Contains three strains of Bent seed and small percentages of quick growing grasses, to provide turf while the Bluegrass is becoming established.

- Shade Mixture** 1 to 9 lbs., 70c per pound
 Parcel Post or Express Paid 10 to 49 lbs., 65c per pound
 Larger amts., 60c per pound

Composed of Poa Trivialis (rough stalked meadow grass), Chewings Fescue and other shade tolerant varieties. Guaranteed practically weedless. Will produce turf where other varieties fail. Recommended for use under trees and other places of dense shade.

- Bent Seed** 1 to 9 lbs., \$1.40 per pound
 Parcel Post or Express Paid Larger amts., 1.25 per pound

A combination of three strains of bent grasses. Makes beautiful turf, especially in New England and along the upper Atlantic and Pacific coasts. Does well in sand and other light soils but should not be planted in heavy clay.

- Creeping Bent Stolons** \$17.50 per 1000 square feet of
 planting area, express paid.

Grown in our own nursery. Shipped in shredded form ready for planting. We grow the genuine Washington and Metropolitan strains.

LAWN FERTILIZER

- Scott's Turf Builder (10-6-4)** { 25 lbs., \$ 2.25
 Parcel Post or Express Paid { 50 lbs., 4.00
 Ask for prices on larger amounts. { 100 lbs., 7.00
 Freight Paid—500 lbs., 27.50

The ideal grass food. Contains both mineral and vegetable matter, thus assuring both quick and lasting fertilization. Ten pounds is enough for 1000 square feet.

SCOTT PUBLICATIONS

Any or all of the following will be sent without charge or obligation to anyone who may find them of interest.

Lawn Making and Maintenance Sixty pages of specific information that will be especially helpful in the building or care of large lawn areas. A complete discussion of all problems involved.

Bent Lawns a treatise on the planting and maintenance of Bent turf. The two methods of planting are fully described. This booklet also contains illustrations of Creeping Bent lawns in their natural color.

Lawns discussion of the essential things in lawn making. This booklet can be read in thirty minutes and will give the reader a clear conception of what it takes to make and keep a good lawn.

Scott's Seed Guide a 72 page book published each year and devoted to a discussion of farm crops. Those who have farming interests will find this Guide immensely valuable.

Lawn Care is published five times yearly. The complete series with pasteboard cover will be sent to anyone for actual mailing cost of 10c. The attractive imitation leather ring binder containing the full set of bulletins is supplied at cost price of 50c postage paid.

Converting to Creeping Bent a small folder containing four suggestions for using Bent in an established lawn.

The Putting Green an illustrated book telling how to construct, plant and maintain grass greens. Greens chairmen, greenkeepers and any golf club officers will find this a most instructive publication.

If the solution to your particular lawn problem is not found in any of our publications we invite you to tell us all about it in a letter.
