The News

Members of Christine Conrad's co-chairman of the Art Workshop came to the Michigan State yesterday to discuss the delivery of the Quimby Family News.

The Oswald Herald, the paper was edited by Mr. and Mrs. W. B. Oswald, both Michigan State alumni. The party dealt with Oswald home.

Miss Horr said the Oswald Herald Examiner will be determined.

Quality of news items submitted by the editors and also by advertising.

News Item

State police along with members of the "Bacon" committee made a "tour" of several local establishments which purvey what is known as beer. The party took names and addresses of "minors" present in establishments.

One of the large number of found in the establishments the state police promised more frequent "tours of inspection" can be expected in the future.

LATE FLASHES FROM WJIM'S NEWS ROOM

Under the Wire

WASHINGTON, D. C., Nov. 17—Congressional leaders predicted that some form of strike control legislation would be enacted by the end of next week, and that the question now was how such action would be.

The house prepared to start debate on the question. President Roosevelt postponed his annual Thanksgiving day visit to Warm Springs, a move which some interpreted as foreshadowing sending of strike control legislation into areas where United Mine Workers are now striking.

LOW, Nov. 17—In official broadcast today the Russian government condemned Finland as having formed its plans for a joint war with the Nazis on Russia over a year ago.

WASHINGTON, D. C., Nov. 17—Diplomatic quarters here speculate that Japan had been offered a "virtual partnership" with the United States in Pacific relations in exchange for a complete about face in her foreign policy. Said to be included in the demands on were her withdrawal of troops from China and rejection of the Berlin-Tokyo alliance.

CHAMPAIGN, Ill., Nov. 17—University of Illinois head football coach Robert C. (Bob) Zupke made public his resignation here to the form of a letter to the university president. As yet, the reason for Zupke's action are undisclosed.

Elections To Expand Governing Body

Directories To Be Sold At Vote Booths

Brandt Forecasts Complete Sellout Of Books Today

"Vote in today's final elections and get your directory at the same time," was the advice yesterday of Ellis Brandt, Wayne Jones and business manager of the 1941-42 Student Government.

Directors booths will be located in Ag Hall, Old Gym, and the Union, adjacent to voting booths, so that students will be able to perform both operations at the same time he added.

HAS STREET ADDRESSES

The outstanding feature of this year's book is that it contains street addresses of home towns for all students, Len Barnes, editor of the book said. These addresses will make the book of much value to visitors to campus.

Other data includes East Lansing addresses and phone numbers of all students and faculty men. Student numbers, division and classes have also been included.

Another new feature of this year's book is adviser names of all freshmen and transfer students, Brandt added. "We expect a complete sellout by tomorrow morning," he said.

BOOK IS DOUBLE STAPLED

A section in front of the book lists all faculty in departments followed by a section of faculty staff and teaching telephone numbers and titles.

This year's book is stapled over the inside binding. Then it is cut and fastened with two staples.

Paper on Nov. 25

Due to the Thanksgiving recess, the State News will suspend its regular publication on Thursday and Saturday. Publication will be resumed as usual on Tuesday, Nov. 25.

At this time the State News also wishes its many readers the best of Thanksgiving.

Connelly Requests Students Refrain From Class Cut

Classes will officially close at 5 p.m. tomorrow and begin again November 24, Monday morning at 8 a.m.

This is the official statement that came through the registrar's office concerning the time limit of the student Thanksgiving vacation.

No authorization has been given to banding out double cuts by students who do not attend Wednesday classes, the registrar's office further confirmed yesterday.

Tom Connelly, president of the student council, requests the student body to refrain from taking too many cuts in order to make possible a long Thanksgiving vacation.

Although the Michigan State campus will assume its normal activities after the Thanksgiving recess, the dormitories will be open all during the vacation with the exception of Thanksgiving day.

The maximum unspent amount of men students remaining on campus all three men's dormitories will have sleeping accommodations for regular dorm residents, the Dean of Men's Halls announced yesterday. Meals for See RECESS—Page 5

Hardy Is Made Head of SDX Committee

One of the most important committees brought forward at the 1941 Sigma Delta Chi convention was a recommendation that all Sigma Delta Chi members be given opportunity to go into public relations work when indicated by the Army, Justice Hardy, Michigan State chapter delegate, said on his return Monday evening.

Delegates from all states in the union attended the convention held in New Orleans, La.

Hardy, president of the local chapter of Sigma Delta Chi, national professional journalism fraternity, was appointed chairman of the committee on chapter publications. Reason for this, Hardy explained, was that the local chapter publishes the Faculty-Student directory, and a handbook for members.

Basil Brewer, New Bedford, Mass. newspaper publisher, was awarded the Sigma Delta Chi distinguished service plaque, annually given for outstanding general reporting.

Those in attendance at the convention took a stand against censorship. "Sigma Delta Chi believes the freedom of the press is one of the things most apt to preserve democracy," Hardy said.

Speakers included Dorothy Dix,

columnist; Edwin Stout, Associated Press foreign correspondent; and Hu Shih, Chinese ambassador to the United States.

If You Ask Me

Uh-Uh-Uh—Stop That Osculatory Stimulation !!

By Tom Greene

I QUIT. NO MORE will I try to get readers to express interest through letters in campus problems. Commercialism has hit the field. You can make \$5 for a letter to a magazine on such a fascinating subject as "My Ideas About Kissing."

FOR WEEKS NOW I have been throwing publicity releases into our "permanent file" from a magazine named "Swank." But this can't be ignored. The editors of the mag propose to "revolutionize American osculatory habits." They say that "kissing is taboo in Japan; banned in Italy by Mussolini as bad for public morals; and was temporarily banned in several colleges when coeds went on 'kiss-strikes!'"

IN CASE YOU'VE wondered who started the idea, they say Roman husbands first began brushing their wives' lips on returning home to see if they'd gotten into the family wine supply. "Lip-kissing is merely a lot of romantic hokum spread by poets and others of their ilk for countless centuries and scientists say that the thrill of osculation springs largely from the imagination; thus rubbing noses would be absolutely as stimulating," deep breath—ungrate.

IT GOES ON, KIDS: "But aside from unromantic grounds, the expose reveals that there are other more vital reasons why kissing should be abolished once and for all from the American scene. These scientists, armed with lip-loads of evidence, have emerged from their laboratories to announce that from 80,000 to 100,000 germs, mostly harmful, pass from mouth to mouth in every human oscillation."

THE SCIENTISTS HAVE proclaimed that trench mouth, measles, syphilis, scarlet fever, and a host of other diseases are spread by kissing. Of course there are two schools of thought on this. "Swank" admits that coeds advance vigorous arguments on the other side. Some of these are:

"KISSING MAY NOT be so dangerous if you use the right technique." "If you kiss hard enough you can kill the germs," and "Bacteria may go to town under a microscope, but they are pretty helpless in the dark."

I CAN'T REMEMBER the name, but some noted scientist once said that a kiss,

LETTERS

Feasting As Europe Starves

To the Editor:

How can we feast this Thanksgiving day without thinking of others in this land and across the sea who are not even feasting, but starving?

Last spring the nations in Belgium totaled 900 calories per day as compared with 2,600 calories in England and Germany.

PROLONGED STARVATION

One shudders to think what the size of the nations is today and one feels sick inside when thinking of the results of prolonged starvation.

How can we think of these unfortunate victims and not do something about it?

Mrs. Hoover has presented an experimental plan to feed 2,000,000 starving children and 1,000,000 destitute and unemployed adults in Belgium.

PLAN HAS 3 POINTS

The plan includes the contribution of breadstuffs by the German government, a definite agreement at no future absorption of Belgian food, and immunity from attack of relief ships by both German and British governments.

If any one of these guarantees is not fulfilled, the entire plan will be dropped immediately. This is no experiment. Let's not say this is unworkable and full of loopholes. Let's try it. The writer desires very much to discuss this with anyone who is interested.

—Mervin Von Wormer

Dr. Z. A. Pierce of Harvard reports that when a meteor or shooting star passes through the atmosphere many miles above the ground it leaves behind it a trail of broken atoms which may last for many minutes.

properly executed, generates enough heat to kill any bacteria foolish enough to stray into the line of fire. Incidentally, if there is nothing else in this paper, blame it on the reporters, who all left five minutes ago to try to locate this scientific research laboratory to get an interview.

I CAN SAY NO MORE. I am worn out at the thought of those poor little bacteria wearing out shoe leather traveling around like they must in a college this big. So if you want to express an opinion on this, write to "Editor, Swank Editorial Offices, 247 Park Avenue, New York," before Jan. 24, 1942.

PLEASE PARDON THIS awful plug for the magazine, which I've never seen, but I'd hate to have you kiss a chance at \$5 goodbye.

Song in the Night

One of the things that help make college life colorful is the time-honored custom of serenading. Of late several groups have been tuning up around the Union and providing music for late workers in Publications offices.

They must do all right around the dorms, too. At least no complaints have been registered so far, nor have any flowerpots been bounced off serenading heads.

The women, it is hoped, enjoy the serenades as much as the men enjoy giving them.

Guaranteed Thanks

It may sound like a wet blanket to a good time frankly to come out and say, "Don't cut Wednesday classes, and be back in time for Monday morning classes."

Sure, it will be hard on those students who can't get home for Thanksgiving without an extra day's travel each way. But the administration has granted the extra two days leave because of "student cooperation" in this matter in years past.

We can be thankful for the vacation this year, but let's keep up the cooperation to guarantee that thankfulness next year.

CHRISTIAN SCIENCE

There will be a business meeting for all members following the regular meeting tonight. All members are urged to be present.

A. S. A. E.

"Tractor Fields," a movie sponsored by John Deere Plow Company, will be shown at a meeting of the A.S.A.E. today at 7:30 p.m. in room 111 Ag Hall. The group picture for the Wolverine will be taken at 9:45, directly following the meeting.

FRESHMAN ORIENTATION

Both the Tuesday and Thursday sections of women's freshman orientation classes will meet Tuesday in Fairchild theater at 5 p.m. today. The change is due to Thanksgiving vacation.

ST. ANDREW

The Brotherhood of St. Andrew, Episcopal college fraternity, will sponsor the second in a series of four services of Holy Communion at 7:10 a.m. Wednesday in Christ the King chapel. Dec. 2, only those who have joined will be admitted to meetings or will be cast in coming plays.

STUDIO THEATER

Studio theater will present two one-act plays tonight. According to Alex Dillingham, president of the group, this is the last chance for interested students to join Studio theater this term. Starting Dec. 2, only those who have joined

will be admitted to meetings or will be cast in coming plays.

PHOTOGRAPHERS

Harris B. Tuttle, A.R.P.S., of the technical staff of the Eastman Kodak Company, will lecture in the auditorium of the Engineering building of the Olds Motor works in Lansing at 8 p.m. Monday, Nov. 24.

MEN'S GLEE CLUB SMOKER

The men's glee club smoker scheduled for tonight has been postponed. Bob Reutter, smoker chairman, said yesterday. Plans to hold it after vacation will be discussed at regular meeting today at 5 p.m. in the old music center.

EPISCOPAL CANVASS

The every-member canvass team of the Episcopal church center will meet at 7:30 p.m. in the main lounge of the center tonight. Virginia Hansen, chairman, said yesterday.

The four teams comprising six members each are captained by Bill Johnson, Catherine Mauch, Bill Seleck, and Kay Loker.

I.S.A.

The Independent Student ass-

ciation council will meet today at 7 p.m. in the Little theater for the Wolverine picture. There will be a business meeting following in organization room 2 of the Union.

MICHIGAN STATE NEWS

Washington Merry-Go-Round

Big John Lewis Keeps Wolf From His Family Door

By United Feature Syndicate

Robert R. Allen

WASHINGTON — In the last few years, as a result of numerous disclosures of members of Congress padding their official payrolls with relatives, nepotism has become classified in the public mind as a peculiar congressional institution.

However, this gravy-train practice is not confined to the denizens of Capitol Hill. It also is to be found in other high places.

One of them is the CIO. John L. Lewis, whose captive coal miners strike precipitated a national crisis and a boycott by CIO leaders of the government's defense labor peace machinery, has one of the fattest nepotism records in Washington.

BETTER MINING

In addition to himself, three of his close relatives are drawing substantial paychecks that make a minimum \$7 a day look like chicken feed. The total value of the family would make a bank president envious.

Because of the closely guarded secrecy concerning CIO and United Mine Workers finances, it is not possible to state positively what all the four Louises are paid. Requests for this information have been repeatedly refused. However, from official reports and informed CIO and UMW sources the following figures are obtained:

John L. Lewis, as president of the UMW, \$25,000.

A. D. "Denny" Lewis, brother, head of the United Construction Workers, \$10,000.

Kathryn Lewis, daughter, secretary of Local 30, UMW, \$7,500.

J. Raymond Bell, brother-in-law, comptroller of the CIO, \$6,000. Total "take," \$48,500.

All three relatives owe their jobs to John L., who appointed them. Before being elevated to secretary of Local 30, Miss Lewis for many years was on the UMW payroll as her father's confidential secretary. As CIO comptroller, Bell is in a key position. He reports on present dues-paying strength of CIO unions, which determines their vote in the annual convention now in progress in Detroit.

EXPENSE TOO

In addition to their salaries, John L., "Denny" and Miss Lewis also have expense accounts. CIO insiders say that these too run into big money.

NOTE Webster defines nepotism as "favors shown to nephews and other relatives in the line of patronage, disbursements, transferring favors, etc."

Representative J. Hardin Peterson of Florida phoned the OPM minerals division requesting a step priority for a phosphate plant in his district.

ONE PHOSPHATE PLEASE

"This metal is urgently needed for the construction of a large phosphate washing machine," he explained to the young OPM official to whom he was referred. "Operations in the plant are being held up because the washer now in use is old and constantly breaks down. As you probably know, my state is one of the world's largest producers of phosphate."

"That may be so," was the reply, "but you still haven't convinced me that a priority should be issued in this case. After all, soda water isn't essential to the national defense."

"Soda water!" exclaimed Peterson. "Who's talking about soda water?"

DEFENSE SODA WATER

"That's the principal use of phosphate, isn't it—to make soda water?"

"Young man," said Peterson seriously, "I don't know where you came from or how you qualified for your job at the OPM, but I thought that every schoolboy knew that phosphate is the chief ingredient of fertilizer."

That 18-vote House majority is not the neutrality revision bill would have been a lot less if it hadn't been for quiet-spoken De-

Marshall.

That 18-vote House majority was inspired by a little of the pep before Saturday's game with Temple.

News Round-Up

Lewis' Coal Stoppage Rouses Anger of Congress, Citizens

With their defense effort threatened by a general walk-out in the captive-coal mines yesterday, the people of the United States were waiting for their president to take the lead—a lead which, by all indications, would not be delayed for long.

Following complete failure of closed-shop negotiations between United Mine Workers officials and officers of the declared war, the vessel which was captured by a cruiser in equatorial waters on Nov. 6, would be treated as a prize of war.

Taking a further step, Lewis charged rumors that he would call a sympathy strike in all the United States flag coal mines by signing his policy committee for a 60-day meeting this weekend.

Only last Friday President Roosevelt declared that production in the mines must continue without delay and yesterday Congressional leaders were calling for immediate anti-strike legislation, including a plan for government seizure and operation of all strike-bound plants in the nation.

CIO Packs Lewis

Meeting in Detroit yesterday, the CIO's national conference adopted a rather conciliatory stand. Shortly afterwards President Philip Murray's statement that the union is wholeheartedly in support of the national defense program and that the program must be effectuated and fulfilled with all possible speed.

But in contrast to the group of southern congressmen who held to the midwives because of personal pledges, organized support to the U. M. W. miners strike.

Flynn followed up his statement by calling up his delegates in an effort to obtain a closed-shop agreement in mines where workers are already 95 percent organized.

Kurusu Here at Last

Following a dramatic trip in which a trans-Pacific clipper waited two days in Hongkong for him, Japan's special envoy Saburo Kurusu arrived in Washington over the weekend ready to talk turkey with the United States.

Kurusu's first appointment was a customary meeting with Cordell Hull at 7:30 a.m. yesterday. Following a short conference with the Secretary of State, Kurusu went to the White House to see the President.

No details of the conversations had been released yesterday afternoon, but Washington sources expressed belief that Kurusu did not bring peace overtures, but rather direct questions demanding direct answers.

Ax Ship Captured

For the second time in World War II, the United States Navy department disclosed that it had captured an Axis vessel, thus bringing forth a touchpoint of International law.

Although technically at peace,

Birthday Dinner

South Williams honored its residents who were born in November with a birthday dinner last Thursday night. For the women received chocolate fudge. Some of the honored guests were Rae Annette Loeffler, Betty Waddell, Ginny Gilholley, and Lois Quinn.

Parties Successful

Both East Mary Mayo and the Williams dorms enjoyed a pleasant time at their fall term parties Saturday night. The Williams party was highlighted by demonstration dancing, the conga chain with more than 50 couples, and the entertaining songs of Ed Rippner and Inez Adams. At Mayo, with the theme of fall, we saw couples dancing under groups of balloons and having lots of fun.

There were pictures taken at both dorms and it was the first time this term that such a large number of girls in one dorm were getting ready for a formal dance.

More Parties

Mason and Abbot had their usual radio party last Friday evening which inspired a little of the pep before Saturday's game with Temple.

Ballet Russe To Perform At College

Dance Program Is Slated to Return On Wed., Nov. 26

By NEVA ACKERMAN

Ballet Russe de Monte Carlo, world-famous dance group, will return to Michigan State college at 8 p. m. Wednesday, Nov. 26 in the auditorium as the third number in the lecture series. The ballet also was on the 1939-40 lecture series.

Stars of the ballet program will be the prima ballerinas Alexandra Danilova, Tatjana Toumanova, Maria Slavenska and Alina Marykova. Heading the male dancers is Leonide Massine who continues the roles of artistic director and maestro-de-ballet, choreographer and solo dancer.

IN LEADING ROLES

Other leading parts will be taken by Andre Edelevsky, Iossif Vassilievitch, Theodore Franklin and Marc Chabot.

Musical direction for the performance will be conducted by Elvire Kurtis who has been with the troupe for nearly a decade. Kurtis once conducted musical scores for Pavlova on one of her tours.

RASSICAL RUSSIAN

The ballet presents the works of the four leading choreographers of the day, Michel Fokine, George Balanchine, Nijinsky and Massine.

Although the Monte Carlo group is basically Russian, it has become an American institution.

Many members of the troupe were formerly associated with Diaghileff whose theories are closely followed by the Ballet Russe de Monte Carlo.

Coops Initiate USO Campaign

Pending approval of the A. W. S. board, machinery has been set up for a campaign with U. S. O. and Aid to the Allies drive to be begun by interested women students as soon as A. W. S. sanction is given.

At a meeting recently a program was outlined centering around four points: U. S. O. work, Aid to the Allies, sale of defense stamp, and unbanning of campus recruitment in support of national defense. Michigan State college is the first in the country to initiate such a movement on a campus-wide scale.

Faculty Row

Meet Prof. J. T. Caswell: He Teaches PolSci, Likes Philosophy

By JEAN WELKER

Born in a log house on a farm south of Blissfield, James Caswell, now professor of political science at State, breathed his first country air and uttered a few lusty yells for better government.

Radio entertainment was rather scarce in those days and "J. T." as he is popularly called by students here, learned to appreciate recreation accompanied by hoot owls.

Today he plays chess, enjoys a little golf and long walks. Still like the curious little boy that he was, he spends a great deal of time thinking and to find out the what and why of things.

'JT' Philosopher

Mark Weidner, University of Michigan philosopher, was his greatest influence and is often invited to speak for the benefit of State government classes.

"He gave me a good comprehension of the meaning of life and its purpose," says J. T.

Caswell would sum up his philosophy of life using four words: "To live in living with rest and enthusiasm." In order to be happy he would not worry over things which are beyond him; he lives for each day as it comes and although he would plan the future, he smaller worries about it in the past.

The other two points in his philosophy are that of helping others and working for the pleasure of his success rather than to gain wealth. Students have always loved him ready to leave his professor's chair for a speech or manuscript and devote himself to solving their problems, whether academic or economic.

Champions Youth

This great hobby of his is teaching—that is, observing—other groups of people. He wants to see what they value and enjoy. Young people intrigue him, and he never tires of watching the coming boy taking his girl friend to a soda shop for the first time of the State fair.

Caswell's favorite poems include Walt Whitman's "Why Should the Spirit of Man Be Proud?" and "Be Sad Still Heart and Cease Rejoicing."

Football is just a game, the real life is in the stands. I like to analyze the reasons why young

Tata Featured On Program Tonight

First in the series of faculty

lectures will be Romeo Tata, a one-time rural school teacher who has also begun his teaching career following the completion of his high school work at Fayetteville, Fayette, O. and Delancey College, Delancey, O. At Fayetteville, Evans, Will present a program of four parts including Handel's Sinfonia in G major and Mozart's

Mortar Board.

Members of Mortar Board, the women's secret organization of Dean of Women Presidents, from last year's Freshman meeting and sophomore meeting. Speaking at the meeting will be Mrs. Ruth Judson, Mrs. Judy Jenkins, Mrs. Jeanne and Mrs. William Stimpert, Mrs. Odessa, Mrs. John

He's Been Around

From country school teaching he went to Yostian State Normal and after graduation became principle in an Indiana high school. Later he became superintendent of schools at Redford and following this taught in Calumet. Resigning from Calumet he entered the University of Michigan where he received his AB degree in 1916. He again taught in Highland Park High and Junior colleges and during this time received his M. A. degree from Michigan in 1923.

In 1925 he came to M. S. C. and remains here as the professor who doesn't mind a bit of browning—he really wants to "know" his students and hopes they'll drop in occasionally and get acquainted.

BOOKS

(Continued from Page 11)
on the outside, so the covers will not tear off.

Three thousand directories were copied this year, according to Brandy. Seven hundred of these were bought by the college for staffers. Up to Monday at 5 p. m. 4,500 books had been sold, leaving 800 to be picked up yet.

SELLS AT COST

Furnished by Sigma Delta Chi, national professional journalism fraternity, first copies of the directory came off the press last Friday noon. Sales are being conducted by members and pledges of the organization.

The book is being sold approximately at cost to students and faculty, with a slightly higher price prevailing for others. The raise in price this year was due to increased expenses for paper and printing," Brandy explained.

HAVE YOU TALKED TO MERT JONES?

NO? Then you'd better see him today. He'll tell you how to ship your baggage home and return—right from your dorm room—and save your cash by doing it. Call Mert at 5-8113—Ext. 606.

New Student Directory Has Everything But Petty Art

By OSCAR

—After the new student directory was completed, it was discovered that there was no place for anything but the most trivial items. So extra copy we had in our house."

"Can't you get up a little farther than that?" Brandt retorted angrily.

"Well, I can remember time," I started.

"No, not you. I mean the best," Brandt said, him turning me off in the middle sentence. "Now, suppose we had some baked good would you look?"

OR SPARTAN MAG

Under Beta Kappa gested heartily.

"No, absolutely not,"

Brandt beginning to lose his temper. "You look in the section under 'Baked Good' wouldn't you?"

COMES LOVE—AUTUMN

"I attribute that to the fact that the directory has the most important sections," I explained.

"No, it's not that," Brandt insisted.

"It's just that the directory has real meat in it," I said.

"Very well, then," I agreed.

Brandt reaching out to my shoulder, "Come on, come on, we have to have something to eat," and before I could respond, I had two estimates of the weight of his hand.

"Well, I know he's heavy,"

"I know he's heavy," I said.

"Well, I know he's heavy,"

"I know he's heavy,"

<p
