Senator Accuses General of Catering to Truman

WASHINGTON-(A)-The angry MacArthur-vs.-Truman dispute brought from Senator Taft (R-Ohio) yesterday a charge that the administration is "using" Gen. Omar Bradley to serve its purposes

or the Truman administration is working both sides of the military and political street." Taft told a reporter. He said Bradley speaks out or keeps silent as the White house wishes. silent as the White house wishes. Thus there was no sign of a let-up in the quarrel on whether President Truman did right or wrong when he fired MacArthur from his Pacific commands last week with the explanation that the general didn't fit in with plans to restrict warfare to Korea. Everything pointed to a build up to another climas, probably late this month, when MacArthur returns to Washington for a question and answer session with the senate armed services committee.

This is what is known as the "mystery type." They don't tell you why mustard is sown over areas burned by forest fires or what effect it has, they just say it's so. Well anyway, you won't be so confused now if you hear someone speak of forest fires "with everything but."
