

Charges of Contempt Might Face Witnesses

Wyer May Complaint Against Velde

WASHINGTON (AP)—The House Committee on Un-American Activities is considering contempt charges against various witnesses who refused to testify about Communist connections.

A well-known Washington lawyer, Charles E. Ford, is expected to lodge a complaint against Velde with the American Association on the grounds that he had assailed him in a whole legal profession.

Developments came as the committee, looking for evidence of Red subversion in the country, questioned a number of witnesses who refused to answer questions about their activities.

Dr. William T. ... offered in a letter to the committee earlier this month about his own "past activities," but refused to play the role of a witness as he put it, and tell the activities of others.

on the same ground, to confirm or deny previously given that he was a Harvard Red for several years before 1937.

Party to reconsider, and the committee is looking with a view to filing contempt charges against the witnesses who refused to answer in the current investigation.

cautioning the witnesses, and him that by refusing to answer he might be letting the committee know that he was a Red.

Exhibitions Ceramics, Masters

Art exhibits are on display at the Union Art Gallery in the Union Building this week.

tion includes works by deChirico, Kokoschka, American, Stuart Davis, Marin, Honner, Macdonald, Sloan, Tobey and

by two staff members Raynor and Irwin are displayed in the Union Art Gallery. Exhibition of Flemish and Dutch paintings will continue on the Art Building, A-7, through May 27.

the Dutch draughtsmanship and Rubens, Vermeer, Brueghel, Steen, and other favorites comprise the collection.

Art Gallery is open from 8 a.m. to 9 p.m. This week is open Monday through Friday from 8 a.m. to 5 p.m.

Fraternity
Initiation

will be held for all Sigma Delta Chi, Journalism, and Phi Kappa Phi at 11 Union.

The Golden Tree

Somewhat puzzled, Chuck Atkins, Joyce Melville, Dennis Barnes, and Ramsey Hicks consider a golden tree in front of the Forestry Building. The tree depicts the 50th anniversary of the Forestry Department.

Argentina Re-opens Doors to U.S. News

BUENOS AIRES (AP)—The Argentine government opened the way Tuesday for U. S. news agencies to distribute news in this country again, after having banned incoming news through these agencies since May 12.

Final Plans Set By Seniors For Swingout

Seniors to March Behind MSC Band

Michigan State will get its first look at this year's seniors in their caps and gowns Tuesday night at the traditional Senior Swingout.

Approximately 300 graduates are expected to participate in the annual march which will start at 7:30 p.m. in front of Ag Hall. Led by the Michigan State Marching Band, the procession will proceed to Fairchild Theater, by way of the various schools.

Graduating seniors from each school will join the group at their respective schools.

Ballots will be passed out for the election of alumni officers upon the arrival at Fairchild and the names of those elected will be announced at the close of the assembly. Names of seniors selected for the '53 Club will also be announced.

The seniors will hear farewell addresses by President John A. Hannah and John Wilson, senior class president, who will also act as master of ceremonies. Starr Kessler, alumni director, will welcome the graduates to the alumni association and Tom Dutch, placement bureau head, will explain the facilities of the bureau available to students after graduation.

Caps and gowns are not essential for participation and all seniors are welcome. Stated Norman Newman, chairman of the Swingout.

Prizes of \$100 will be awarded at the Swingout to the senior man and woman with the highest all-college point averages. President Hannah will make the awards in the name of his address.

Other senior activities scheduled for the next week include Eastern Night for senior women May 24 and the president's reception May 27.

Tennis Anyone? Warmest Day In Two Weeks Expected Today

The weather is getting better and better. Sundecks, tennis courts, golf courses and Lake Lansing will probably be crowded today as the mercury reaches a high of 70 degrees, probably proving today to be the warmest day in two weeks.

Very few clouds will clear almost perfect blue skies with slight southwesterly winds at 15 to 20 miles per hour.

Curriculum Change Due In Nat Sci

Course to Stress Scientific Method

Next fall's freshman class will have a revised natural science course in their Basic College curriculum.

Dr. Alfred Novak, assistant professor of natural sciences, is head of a committee which plans a new plan of study. The course is expected to be completed by July 1, Dr. Novak said.

The new natural science course will differ from the one currently being offered in that its major emphasis will be on the methods by which the scientific process is used. Also it will deal with only a few areas of science.

Study during the first term will be in the areas of heredity and reproduction.

The subject matter of second term natural science will be another of the important ideas of man, the atomic-molecular theory. Third term will consider geological change and the evolution of organisms.

No syllabus will be used in next year's natural science course, but three textbooks will be used, according to Dr. Chester A. Lawson, head of the natural science division of the Basic College.

Dr. Novak said that the natural science course is being revised because of the short time which was allotted for the preparation of the course currently being given.

It is hoped that the course now being established will be the answer to the lack of a "natural" natural science course in American universities.

According to Dr. Novak, if the new plan proves to be a good one, it may serve as a "model" for the design of natural science courses throughout the country.

Candidates Wanted for Scholarship

The committee on Rhodes Scholarships is searching for qualified candidates for the 1954-55 winner. The winner of the scholarship receives full payment of fees to study at Oxford for one or two years.

Six applicants have been received to date, but J. Robert Stewart, director of scholarships, stressed that more candidates would be considered. Although candidates must be interested in sports, they need not compete in inter-collegiate competition, said Stewart.

Interested students should contact the Scholarship Office in the Administration Building.

Civil Air Patrol Cadet Drill Teams To Vie for Trophy

Civil Air Patrol cadet drill teams from 10 Michigan Wing units will perform at MSC's ROTC drill field this Sunday.

They will be competing for the Wing Commander's trophy and state championship. The teams represent the Michigan Wing at Wright-Patterson Air Force Base where they will perform before the ROTC cadets and other guests.

Another group, the CAP teams competing for the Col. Robert G. Lamm trophy, will also perform at the drill field.

Library Action Tabled By State Legislature

That Time Again

Wilma Latture and Allen Hase Lake advantage of sunny weather Tuesday with a traditional canoe cruise on the Red Cedar.

Five-Point Plan

Ike Offers New Tax Program to Nation

WASHINGTON (AP)—President Eisenhower submitted to the nation Tuesday night a five-point tax program that offered no immediate reductions in what he called this "age of danger."

MSC Gets First Police Training Scholarships

An MSC law enforcement training scholarship has been started by a group of young police officers who have recently completed the regular four-week basic police training course in law enforcement.

Deciding that police administration work should be made available to more young men who need financial assistance, these 31 "graduates" started the scholarship fund with \$50. It will be the first such scholarship at MSC and one of the few in the nation.

Rules for administering the scholarship through the regular scholarship channels will be made after the fund has grown.

Undergraduate students in police administration will be the first beneficiaries. It is also hoped that prizes and awards may be set up to encourage more young officers to participate in the program of law enforcement training which is offered by the Police Administration Department and the Continuing Education Service.

Ag Council Sets Vehicle Route for Pavilion Ox Roast

The route for the tractors and wagons, used to pick up people attending the ox roast at the Pavilion tonight, has been announced by the Agricultural Council.

Starting at 5:15 p.m., the vehicles will run every 15 minutes until 6. The route will be down Shaw Lane to Birch, north on Birch to Kalamazoo, around Circle Drive and back out to Kalamazoo.

From Kalamazoo, they will continue to Harrison Road and on to Shaw Lane. A circle will be made through married housing before returning to the Pavilion.

A limited number of tickets will be on sale at the show.

Vote on Receipts Tax Scheduled for Today

By STAN STEINBORN
State News Capital Reporter

Michigan State's new library will be left hanging in the air until probably the middle of June by the State Legislature if it was decided Tuesday night.

House Republicans decided in a half-hour long caucus held late Tuesday to act upon the Business Receipts Tax today and then recess until sometime in the future to await Governor Williams' action on the measure.

Congress Passes New Election Bill

Session Appoints 7 New Members

After fighting for a quorum and appointing seven new members, a special and final session of the 1952-53 Student Congress last night:

1. Passed a much-disputed election bill.
2. Approved the appointment of a new court justice.
3. Appropriated a total of \$215.
4. Appointed two investigating committees.

Twenty-eight Congress members, including seven who were appointed a few minutes before the meeting, debated and finally passed the election bill which would make such impromptu appointments impossible.

The bill requires that each vacancy in Congress must be announced and printed in the State News and that petitions must be submitted and elections held in the living units before representatives may be seated.

Jack Suhar, Lansing sophomore, will be the new justice on the All-College Judiciary, replacing Bill Hurst, Fort Lauderdale, Fla., junior, who resigned.

The appropriation bill grants \$150 for a student government typewriter, \$50 for government wages, and \$15 for Big 10 dues.

Committees were appointed to investigate the cause and prevention of student riots, and to study the possibility of having one of MSC's swimming pools open for mixed swimming.

Congress adjourned before considering a bill discussing the wording of Article VII, Section 1 of the government constitution. The disputed section concerns method of constitutional amendment.

The first meeting of the new third congress will be held at 7:30 tonight in 32 Union, Horatio Lewis, Congress speaker, announced.

Congress vacancies also listed at the meeting are two from East Shaw, one from South Campbell, two from Lansing and three from married housing.

House leaders indicated that favorable action on all appropriation bills for the coming fiscal year would depend upon the Governor's decision to okay the bill.

MSC's library received a House "economy bloc" effort to trim the new construction bill by \$4,440,000.

Leading the "block" was Rep. Frank VanPusen (R-Zeeland) who moved to strike out the college's entire \$1,000,000 appropriation.

His motion was defeated by the upper chamber 62-17.

In deciding to suspend the rules and return later to consider all appropriation bills the House was bowing to the inevitable.

Under the current rule, the Legislature was to have adjourned Friday. It seemed impossible that the Legislature could have considered and passed all bills on its calendar and then cleared up the difference in the thinking of the two houses in that short time.

Prospects were that the Business Receipts Tax would pass the House. Rep. William Brownfield (R-Royal Oak), Speaker Pro-Tem, predicted that the tax bill would pass the House.

He indicated that the representatives were not completely satisfied with the bill, but felt that it was the best one that could be had at the present time.

He added that the Legislature will await the action of the Governor and then decide about appropriations for next year.

The Business Receipts Tax is expected to bring in at least \$22 million with prediction that it will run much higher than that.

Its importance in relation to the construction of a new library can be seen in the fact that the State is expected to spend in the neighborhood of \$334 million during the coming fiscal year.

Water Carnival Tickets Go on Sale Thursday in Union

Tickets for the 1953 Water Carnival will go on sale Thursday in the Union ticket office. There are 4,650 tickets available for each night of the show.

The carnival will be held on Thursday, Friday and Saturday nights, June 4-6. Tickets are \$1.25 for general admission and \$1.50 for reserved seats. Any number of tickets may be bought by one person.

Sally Snyder, Lansing senior, won the Water Carnival program cover contest. The prize was \$10 and two tickets to the show.

NEWS IN BRIEF

McCarthy Claims Approved

WASHINGTON (AP)—Sen. McCarthy (R-Wis.) said Tuesday President Eisenhower has approved a plan to shift the State Department's entire propaganda and information program to some independent agency, but that attempts are underway to "emasculate" the plan.

Big Three Meeting Rumored

LONDON (AP)—Responsible British sources said Tuesday night Prime Minister Churchill has informally taken up with Russia the idea of promoting a Big Three conference to insure world peace and that his move has met with Russian approval.

Jap Diet Re-elects Yoshida

TOKYO (AP)—Shigeru Yoshida became Prime Minister of Japan for the fifth time Tuesday when Right Wing parliamentarians broke away from the coalition which unseated him in March.

Troops Quell Nigerian Riot

LOAN, Nigeria (AP)—Troop patrols returned from a riot in the town of North Nigeria, after 20 persons were injured in rioting stemming from an election dispute between the town's Muslims.

Letters to the Editor

URGENT UNTIL, MAY 21

Dear Editor:

Just a few days ago it had always been my impression that any individual who is in a position to influence public opinion is under a duty to be fair and objective. I would now like to see a statement of the facts of the case of the student who was arrested on May 17, 1964, in the building known by the name of the judicial system.

However in looking over the comment on the second page of this past Wednesday's State News, I received a surprising and quite unexpected impression. It would seem that an individual account of a student's arrest, or even if you prefer, on this campus is not an uncommon sight but also seemed to be in the hands of many before the case is even heard by the judicial system.

I noticed various phrases in the editorial page of the State News which gave me the impression that such a student would be treated as a criminal. This is a very serious charge, and I am sure that the student who was arrested on May 17, 1964, in the building known by the name of the judicial system, is a student who is innocent of any crime. I am sure that the student who was arrested on May 17, 1964, in the building known by the name of the judicial system, is a student who is innocent of any crime. I am sure that the student who was arrested on May 17, 1964, in the building known by the name of the judicial system, is a student who is innocent of any crime.

I submit that this type of editorial policy is completely contrary to the purpose of the State News. The purpose of the State News is to provide the student body with a fair and objective account of the events on campus. I am sure that the student who was arrested on May 17, 1964, in the building known by the name of the judicial system, is a student who is innocent of any crime. I am sure that the student who was arrested on May 17, 1964, in the building known by the name of the judicial system, is a student who is innocent of any crime.

On the right of the paper's own editorial is a letter written by another individual of the guilty and innocent. This person describes the explanation of those who were arrested on May 17, 1964, in the building known by the name of the judicial system. This person states that the student who was arrested on May 17, 1964, in the building known by the name of the judicial system, is a student who is innocent of any crime. I am sure that the student who was arrested on May 17, 1964, in the building known by the name of the judicial system, is a student who is innocent of any crime.

Without a doubt many words were committed Monday night. They were not criminal. Those who were arrested should be treated as criminals. Those who were arrested should be treated as criminals. Those who were arrested should be treated as criminals. Those who were arrested should be treated as criminals. Those who were arrested should be treated as criminals.

At a time such as this college needs people who can make out the situation rather than emotional decisions. This is not a time to be misled by the letter of the law. Enforcement officers who only enforce the letter of the law are not the kind of people who are needed on campus. I am sure that the student who was arrested on May 17, 1964, in the building known by the name of the judicial system, is a student who is innocent of any crime. I am sure that the student who was arrested on May 17, 1964, in the building known by the name of the judicial system, is a student who is innocent of any crime.

Al Cavalieri

POLICE ACTION CRITICIZED

Dear Editor:

I imagine that by this time the editorial writers in our school paper are ready keeping the typewriters busy. Naturally the topic will be on "childish, stupid action" of the student body on Monday night and how they made spectacles of themselves in the eyes of the nation.

It is true that some of them did make spectacles of themselves. But they were not the only ones. In one of the front page articles covering the protest, there is a line which reads: "A student who went to the hospital due to a fall down the stairs in East Shaw Hall." Perhaps the writer of the article wasn't aware of it but he left an important item out of that story in connection with the student's fall.

He fell was directly responsible to the actions of one of our campus police officers. Why? Because the policeman was doing his duty by running up four flights of stairs into the dorm and apprehending the "criminals" who were starting on the run, purely and simply, to the police station. I am sure that the student who was arrested on May 17, 1964, in the building known by the name of the judicial system, is a student who is innocent of any crime. I am sure that the student who was arrested on May 17, 1964, in the building known by the name of the judicial system, is a student who is innocent of any crime.

In the course of attempted escape from the "peace officers" the student was tackled at the head of the stairs and fell suffering injuries bad enough to warrant hospitalization.

An ordinary observer of Monday night's riotous on campus could tell that the campus police are well-trained in "riot" control. This was evidenced by their throwing of flashlights at the "criminals" and expressing their contempt of them by throwing a few well-chosen phrases of their own at the riotous "criminals". This was an excellent example of their training in riot control while dealing with riotous mobs.

I myself saw a perfect example of "childish, stupid action" on the campus police's part when they chased the tenants of West Shaw Hall into the dorm no less than four times led by a Napoleonic police lieutenant which was reminiscent of the Charge of the Light Brigade into outnumbering forces. It was obvious to the police that this "police" type of strategy was irritating to the police and the students organized on the police's short tempers by openly daring them to chase them into the dorm in which the police promptly responded by repeatedly charging with flashlight cocked arms into the dorms.

So only did this happen at Shaw Hall, but all over the campus where "riotous" students were gathered. Psychology is a terrible weapon to use on unruly mobs but apparently our campus police don't know how to use it or perhaps they are incapable of using it in any effect.

This letter is not an attempt to ridicule our campus police. In my books they deserve a lot of credit for doing a commendable job of patrolling the campus. I realize that the amount of students on this campus compared to the "riotous" students Monday night would need much imagination to know what it was like to see the infamous German Gestapo or professional strike-breakers in action coping with similar situations.

Maybe in the future it might be advantageous to the campus police and the student body if the police would try using mobile loudspeakers and cool-headed policemen instead of flying tackles and flashlights in situations comparable to the past party (heaven forbid) riots. In anticipation of the possible finger-pointing of all the reporters in Shaw Hall I save the campus police the trouble and remain silent truly.

Oatis Mystery Mounts; Reporter Remains Mum

William Oatis, Associated Press correspondent, who served two years in a Czech prison for "espionage" is back in this country but his side of the story hasn't been told.

Just why Oatis refuses to answer many of the questions directed at him by reporters is as mysterious as the method by which he was "convicted."

Perhaps Oatis is holding back information because he has been asked to do so by our State Department. The Department denies that any "deal" was made to gain the release of the newsmen but also announced that the U.S. will return the Czech airplane in which a group of anti-Rode fled their country two months ago. It has been speculated that this may be more than a mere coincidence.

Then, too, there is Oatis' evasiveness about the method used to obtain this "confession" in 1951. He claims that

the Reds used no violence but employed "psychology." According to Oatis, the Czechs read him the law and the penalties for espionage in that country while he was awaiting trial. Under Czech law, a person guilty of that crime is liable for sentence ranging from 10 years imprisonment to hanging. Oatis received the minimum penalty.

The Associated Press denies that Oatis' silence is for the benefit of that wire service and Frank J. Starzel, general manager of the AP, said that the story "will not be used exclusively for the advantage of the Associated Press, but will be generally available."

When Oatis finally stops saying, "I'd rather not answer that" in questions about his arrest, trial, and imprisonment—an interesting story should unfold. That is, if he ever does tell the whole story.

Reputation - Saugatuck

An interesting bit of information made its way to the State News office via a card this week. It should be of particular interest to students who think that the public is not aware of the activities of MSC students—be they admirable or disgraceful.

It seems that a female student wrote to a hotel in Saugatuck—the popular Michigan summer resort—and asked for reservations for a group of students for the Memorial Day weekend.

The reply from the hotel should give some idea of the impression we can and often do give to people who generally have little contact with the student body.

"The hotel owner's letter stated, in part: 'All of Saugatuck, as well as our hotel, had such a deplorable experience with Michigan State students last Memorial Day weekend that we do not care to chance a repetition of the same.'

"Judging by the recent demonstration on the campus the same spirit is still rampant among at least some of

the students and it is regrettable that many innocent will doubtless suffer from the reputation given them by what it is to be hoped is only a small percentage of the Michigan State students.

"The group that came to Saugatuck last spring was successful in giving our town a reputation which will take us some time to live down, so I hope that you appreciate our regret at having to turn down a party such as yours, for we need all the right kind of business we can get."

To those who laugh off "party-rafts" and "riots" as "Spring Fever"—your attitude is not widely held by the general public, if this letter is any indication.

And to "rioters" (including those who were not apprehended)—your help was invaluable in gaining a reputation for MSC students which marks us as not being the "right kind of business." This is only one example of what you have accomplished.

Slogan for '54 Michigan Plates Chosen by 61

LANSING (AP)—Water Wonderland was selected Tuesday as the prize-winning slogan to be carried on Michigan's 1954 state license plates.

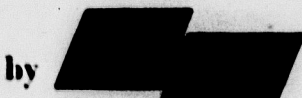

A total of 61 persons submitted the same suggestion, however, so the prize winner will have to be selected by lot.

All 61 have been invited to a luncheon here May 28. A drawing will determine the winner of a week-long all-expenses-paid vacation at Mackinac Island, the first prize.

Open Thursday 9:30 A.M. TH 9:00 P.M.

New Atomic Explosion Rocks Western States

Nuclear Cloud
Closes Town
for 3 Hours

AS VEGAS, Nev. (AP)—A powerful atomic explosion of portions of three Tuesday and cast a nuclear pall over St. George, Utah, virtually closing the town for three hours.

The Atomic Energy Commission said the 4,500 residents of St. George, about 120 miles east of Nevada Proving Ground, were ordered to leave the town for about three hours, by which time the nuclear cloud had passed.

Monitoring stations held up northbound and 90 southbound traffic at St. George during the warning period. Some cars required a decontamination washing at the station.

The precautionary measures the AEC insisted that the cloud had not reached a level of 100 feet.

St. George, set off in muggy weather, was hit in Nevada and gave earthquake connoisseurs, as far as 400 miles away, a good jolt before the cloud passed.

Stations 91 and 93 in Nevada and Utah were hit by traffic for more than four hours as the AEC set up checkpoints at several points on the roads.

St. George, held down by nuclear clouds, bounced back and forth in Northern Nevada, Bishop, and communities in the Los Angeles area. Police were flooded with calls from motorists who were stuck. There was no traffic.

A pre-dawn blast at Yucca, Nevada, was the longest of a nuclear series of the Army's 280 mm. cannon Monday.

The blast marked the 30th anniversary of the atomic bombing of Hiroshima, Japan, and the 29th anniversary of the atomic bombing of Nagasaki, Japan.

The atomic bombing of Nagasaki, Japan, was the last of a series of atomic bombings of Japan during World War II.

The atomic bombing of Nagasaki, Japan, was the last of a series of atomic bombings of Japan during World War II.

Trio to Play Concert to Feature Light Spring Music

Swinging from football games to concerts to commencement would be a big job for any band. Every year the MSC Concert Band must accomplish this task. It must also switch personnel to fit the occasion.

Speech

(Continued from Page 1)

1. The present excess profits tax on corporations, now scheduled to end June 30, should be extended for six months. Eisenhower estimated this will bring in a revenue of 800 million dollars.

2. The 5 per cent reduction in the regular corporate income tax, now set for next April 1, should be repealed. Keeping the tax, the President estimated, will bring in two billion dollars a year.

3. A cut in excise taxes scheduled for April 1 would be postponed until after he has made specific recommendations to Congress next January for a sounder excise tax system.

4. A boost in the old age security tax from 1 1/2 to 2 per cent on both employees and employers, scheduled for next Jan. 1, should be postponed.

Eisenhower said the old age and survivors trust fund now holds 18 billion dollars and present tax rates are bringing in receipts in excess of expenditures.

"This," the President said, "will be a worthwhile saving to wage-earners, and, in my judgment, a simple justice to them."

5. A 10 per cent reduction in individual income taxes, now set for Jan. 1, should go through—but no earlier than that.

Eisenhower said he doesn't believe "the American people think that earlier reduction would be prudent," as his communications to him show they want "our nation secure and our dollar sound."

To advance the date by six months, as some members of Congress are urging, would cost 1 1/2 billion dollars in revenue, the President said.

Summing up his ideas on taxes, Eisenhower told the people:

"We believe that—for the long term—present taxes are too high. We think they are becoming a real threat to individual initiative."

"We believe, at the same time, that no citizen, once satisfied that his government is operating with honesty and economy and with planning foresight—wants any tax savings at the price of essential national security."

Cats 'Out of Line'
Felinas Prove Too Much for Neighborhood

East Lansing City Council members agreed with several citizens who registered a complaint Monday night that 22 cats were "a little out of line."

The complaint was signed by the neighbors of an East Lansing woman, who, they said, had 22 cats which were a nuisance to the whole neighborhood.

At the end of the petition was a note saying that a recent recount brought the total up to about 32 felinas—new kittens.

AFROTC Seniors Honored at Banquet

Distinguished AFROTC graduating seniors and other award winners were honored at the first Air Force Power banquet sponsored by the Lansing squadron, Air Force association, held Tuesday night at the Union.

Professor to Participate in Alcohol Study

Yale Schedules Summer Course

MSC will have a delegate this year to the center for alcohol study at Yale University.

Robert H. Scott, associate professor, Police Administration Department, has been awarded a scholarship by the state Board of Alcoholism to attend a one-month course at Yale. It will extend from June 28 to July 23.

"The course has a two-fold purpose," Scott said. "One objective is to obtain a better understanding of the alcoholic and his problems, to the end that police will handle an alcoholic with intelligence and effort, with the aim of effective treatment for him, as well as for the protection of society."

The second purpose is to study the causes and effects of alcoholism, so that in learning the problems and answers the police contribution will be better known and more effective."

Scott said that police are especially interested in alcoholic research because approximately 50 per cent of their work is "alcohol related."

The material and experience gleaned from the Yale course will be incorporated in the instruction offered by the Police Administration Department.

Plans are being made by the department to offer a course on alcoholism, in co-operation with the state Board of Alcoholism. Research on police attitudes and police relationships with alcoholic problems is also being conducted.

More than a thousand asteroids, or small planets of the sun, have been observed by astronomers.

MSC Reaches 24 Colleges

Book Trading Unites Libraries

Exchanging press publications with over 24 other college and university libraries is one of the functions of the MSC library.

Started at MSC in 1948, the press exchange program enables MSC and out-of-state institutions to receive automatically a number of books which otherwise might not be obtained.

The MSC Press donates 20 copies of each new publication

to the library. The books are then sent out to such universities as Ohio State, Purdue, Stanford and California.

Since some colleges are not able to reciprocate except on a limited piece-for-piece basis, the program is held rather strictly to a cost basis. If Kansas University sends the MSC library books valued at \$15, MSC returns the favor by sending a collection of titles valued at about the same amount.

The curriculum of the particular college exchanged with helps determine where certain publications are sent. MSC librarians naturally do not send agricultural publications to universities which teach only science and arts courses.

Two of the first Press books sent out by the MSC library were *History of Civilization* by Kimber and Nulle, and *Correlation of Some Physical Properties of Alkanes and Alkenes*, a monograph by former Dean Huston.

Since 1948, the MSC Press has widened the scope of its publications. Last month, it pioneered and became the first college press to publish a novel. The book, *The Financial Expert* by R. K. Narayan, has been well received by the New York Times, the New Yorker and the Book of the Month Club News.

A display of current MSC Press publications may be seen in the library's first-floor show-cases.

Campus Police Join Statewide Safety Drive

Illegal Passing Hit As Fatality Cause

Chief Arthur F. Brandstatter, of the Campus Police, today announced that his department is co-operating with the State Safety Commission in a safety program.

Aimed at reducing traffic accidents due to dangerous passing, this program is under the leadership of Charles M. Ziegler, State Highway Commissioner, and chairman of the commission.

According to Brandstatter, head-on collisions caused by dangerous passing are one of the most fatal types of traffic accidents.

"Next time you drive by a car junkyard, look for a car that has the whole front end caved in, and the windshield smashed to bits. This should be sufficient evidence for anyone as to what happens when you hit another car head-on," he said.

"Keep in Lane—Don't be a Road Hog," the official slogan of the campaign, is good advice for all motorists.

"Cutting in on the driver you are passing is one of the dirtiest tricks a motorist can pull," the chief added. "You may force him into the ditch or cause him to stop suddenly and be hit by a surprised driver behind him."

Chief Brandstatter stated that he is instructing his men to pay particular attention to dangerous passing and to stop all violators. "After all of the information motorists receive through the educational campaign of newspapers, radio and posters, there is no excuse for a motorist to pass dangerously," he concluded.

Violinist to Play In Senior Recital

Violinist Carl Johnson, Grand Rapids senior, will present a senior recital Friday at 8 p.m. in the Music Auditorium.

On the program will be Bach's *Chaconne from Partita in D minor* for unaccompanied violin. Johnson will also play "Sonata in G minor" by Tartini-Kreisler, Mozart's *Concerto No. 4 in D major* and "Tzigane" by Ravel. Pianist Richmond Browne, Flint freshman, will be the accompanist.

WKAR to Air Instrumental Solos

Viola, violin and piano solos will be performed over WKAR at 2:15 p.m. Friday.

Clarence Hofer, Lansing senior, will play Bach's "Arioso." She will be accompanied by Jean Estey, Bartlesville, Okla., senior. Violinist Patricia Dengler, Saginaw junior, will present "Sonata in C minor" by Bach. Emily Hills, Battle Creek senior, will be the accompanist.

Miss Estey will perform the piano number "Etude, Op. 10, No. 8" by Chopin.

New York at Chicago—Jansen (2-3) vs. Bush (3-3)
St. Louis at St. Louis (night)—Friedland (1-2) or Dickson (3-4) vs. Froese (1-3)

Grandelius Returns to Civilian Life

MUSKEGON (AP)—Everett J. "Sonny" Grandelius, Michigan State's brilliant All-America half-back of 1950, was getting acquainted recently with his civilian life after being discharged from the armed services over the weekend.

His wife, Martha, has been living at the family home here and their son, Steven John, was born Nov. 9, 1952. His parents, Mr. and Mrs. Everett G. Grandelius, live in Muskegon Heights where Sonny first gained prominence as a football player.

Grandelius said he expected to confer this week with Coach Biggie Munn of Michigan State regarding a possible coaching job there, and with the New York Giants professional football officials. The Giants drew Grandelius in the draft following his graduation from MSC.

Easier Than Helsinki

Bob Mathias, Tulare, Calif., 1952 Olympic decathlon champion and his fiancée, Melba Winer of Vallejo, Calif., enjoy an outing on the beach at Waikiki, Honolulu. Mathias was in Hawaii to take part in the Rainbow Relays. The couple will wed on June 17 at Stanford University where both are students.

Red Sox Nip Browns On Bolling's Single

BOSTON (AP)—The back-to-back combination of Tom Umpflett's second two-bagger of the game and Milt Bolling's third single, against venerable relief pitcher Satchel Paige in the eighth inning, Tuesday gave the Boston Red Sox a 6-5 win over the St. Louis Browns.

Hee "Skinny" Brown gave St. Louis six safeties, including homers by Johnny Groth and Don Lenhardt.

The Browns opened the scoring in the third when Groth blasted his first four-bagger of the season into the left field net. Singles by Vic Wertz, Lenhardt, and a walk to Bob Elliott loaded the bases with one out in the fourth, and a run was produced on Clint Courtney's fly.

The Red Sox collected eight of their 10 hits before Paige replaced starter Duanne Pillette after the sixth inning.

In the third, Gene Stephens singled to center, stole second and continued to third when Bob Young let backstop Courtney throw go into center field. Dick G. ruffed then singled in the first Boston marker.

Gernert hit his seventh 1953 homer with two out in the ninth inning and the Red Sox gained a 3-2 lead in the sixth. With two out, Bolling struck his second single and Brown doubled off the left-center wall.

Cheboygan Cage Star Picks MSC

CHEBOYGAN (AP)—Philip Gimby, a six-foot-seven basketball star of Cheboygan Catholic high school, said Tuesday he will enroll at Michigan State College next fall.

Gimby, considered Cheboygan's greatest prep basketball player in recent years, was on the all-star team of the Northern Lakes Conference for the last two seasons. He averaged 18.5 points a game.

BYRD COOLS CHISON

PHILADELPHIA (AP)—Harry Byrd, the Philadelphia Athletics rookie of 1952, gave up only two singles Tuesday night as he whipped the red-hot Chicago White Sox 2-1.

Gray Serves Gopher in 11th Bauer Belts One, Bengals Bow

NEW YORK (AP)—Frank Bauer bashed a home run off southpaw Ted Gray in the 11th inning following Mickey Mantle's third double of the game to give the New York Yankees a 4-2 triumph over the cellar-dwelling Detroit Tigers Tuesday night. The victory increased the Yankees' first-place margin over the Chicago White Sox to two games.

The Yankees got only eight hits off Teddy Gray, but some of them were by his teammates' left to the slim southpaw's setback.

Bob Newman also cracked a homer, which came with no one on base for the Bengals.

Bauer's homer, his third of the season, broke up a tight pitching duel between Gray and Johnny Sain, giving the veteran Yankee right-hander his third straight success against two losses. The winner, Gray now has dropped five starts.

The Yankee's second straight victory was witnessed by a turnout of 25,990, including the Duke and Duchess of Windsor. The game was blacked out to TV fans in an experiment to test the merits of television on attendance.

Gray deserved a better fate. Until the fatal 11th the slim left-hander had permitted only six hits and had fanned nine. But Yankee runs in the regulation nine innings were tainted. In the fifth, Sain beat out an infield hit, raced to third when Gray flung Phil Rizzuto's bunt into right field and scored on a single by Billy Martin.

Seixas Wins Opening Sets In Paris Meet

PARIS (AP)—Vic Seixas, American second-ranking tennis player, had no trouble Tuesday winning his opening match in the French International Tennis Tournament, the first international competition of the year for the Philadelphian.

Seixas subdued Olyviero Rodriguez of Columbia, 6-0, 6-1, 6-0.

Only one other American advanced in the first round of the rain-delayed tournament. Bernard Bartzen of San Angelo, Tex., moved into the second round by the default of Jacques Hode of France.

Detroit collected seven of its eight hits off Sain in the first five innings, scoring single runs in the second and fifth to take a 2-0 lead. Three straight singles by Joe Ginsberg, Lund and Gray after two were out produced the first run.

Nieman made it 2-0 with his fourth homer of the season in the fifth.

Thereafter, Sain retired 19 straight batters. Fred Hatfield singled in the seventh but was erased on a double play. Sain didn't walk a batter and fanned five.

ROBIN CHIRPS AGAIN
CINCINNATI (AP)—Right-hander Robin Roberts chalked up his sixth victory for the Philadelphia Phillies last night as he stopped the last place Cincinnati Reds on five hits for a 6-3 triumph.

Homers were hit by Ted Kluszewski and Willard Marshall of Cincinnati and by Richie Ashburn and Willie Jones of the Phils.

Shuba's homer off starter Jim Wilson walked over the right field fence with the walking Roy Campanella on base in the seventh. Naidor's blast landed in the Dodger's bullpen in down right-centerfield, a good 200 feet from the plate, with Pee Wee Reese who had singled, scoring ahead of him in the eighth.

The Braves' lone run came in the sixth on Andy Parko's single with two out, scoring Eddie Mathews from second base.

The huge-standing-room crowd in the County Stadium boosted the Braves' total attendance for 12 home dates this year to 279,217, less than 3,000 short of the total draw at Boston last season.

Russ Meyer, winning his third game in four starts, was touched for seven hits.

The Dodgers got only six hits of Wilson and Max Surkont who relieved in the eighth. Snider's homer came off Surkont with two out. Brooklyn filled the bases in the ninth, but Reese hit into a force play to end the threat.

CARDS CLIP PIRATES

ST. LOUIS (AP)—Stan Musial's double in the seventh inning drove in the second of two unearned runs and enabled the St. Louis Cardinals to defeat Johnny Lindell and the Pittsburgh Pirates, 2-1, here Tuesday night.

Lindell, a four-hit winner over the Redbirds earlier this season, gave up only five hits and struck out eight men this time but a couple of errors by Pirate second baseman Danny O'Connell forced Lindell to accept his fourth setback.

In the seventh Rip Repulski opened with a single and was safe trying to stretch the hit when O'Connell dropped the ball.
