France releases Morocco

U. S. Air Base Status Open

PARIS (AP)—France and Morocco Monday signed agreements giving Morocco right to take over her own defense affairs, but leaving the future status of U. S. bases in the former North African protectorate.

French Foreign Minister Christian Pineau and Moroccan Foreign Minister Ahmed Balafouty signed the documents in a formal ceremony.

The move is one of a series of steps outlining the future of "interdependence" between the two nations in which the U. S. is being given favored status.

Agreement states that all U. S. military personnel in Morocco will be respected, but a new exchange of letters attached to the main document excluded the air base.

After signed by Balafouty, the Moroccan government reserves its position on the French American agreement of Dec. 22, 1950. The Moroccan government has maintained that it was not informed of this agreement when the United States gave the United States the right to build and use its bases in Morocco.

U. S. bases which put American bombers within striking distance of Russia started after the outbreak of the Korean War. They cost \$15 million dollars.

French Foreign Minister Pineau said this was a secret agreement between France and the United States.

Spokesman added that the U. S. had purchased the land and had entered into an agreement with the Moroccan government to use the bases in its capacity as a defense base under the treaty act of the protectorate.

Summer Jobs Announced

With new job opportunities in sports, business, industry and recreation have been announced at the Placement Bureau at the Union Ticket Office.

According to Jack Kinney, assistant director of the Placement Bureau, the larger Michigan cities will be interested in the summer employment before the season begins. Students are being urged to take interest in these jobs.

General industry job picture is bright due to the auto industry. Mr. Kinney indicated that the larger Michigan cities will be interested in the summer employment before the season begins. Students are being urged to take interest in these jobs.

LESLIE SCOTT

A. NE G. KETTUNEN
... retiring ...

Scott Named to Head Continuing Education

Appointment of Leslie W. Scott as director of the university Continuing Education Service was announced at the State Board of Agriculture meeting May 25. He will take over his new position June 1.

Mr. Scott will replace Durward B. Varner, who has been director of the Continuing Education Service and vice-president for off-campus education since April, 1955. Mr. Varner, as vice president, acts as a co-ordinator of the activities of the C. E. S. and the Co-operative Extension Service.

Relieved of his duties as director of the C. E. S., he will work to develop the university's total off-campus educational program.

Since October, 1955, Mr. Scott has been assistant dean of the College of Business and Public Service in charge of that college's continuing education activities. As assistant dean he has been a member of the administrative group for the university's overall continuing education program. In addition to his new duties, Mr. Scott is also Michigan State's big 10 representative.

Mr. Scott has also been closely identified with Kellogg Center, headquarters for the Continuing Education Service, since before his appointment as assistant dean of the College of Business and Public Service. He had been head of the MSU Division of Adult, Restaurant and Institutional Management. In this capacity, he was responsible for the operations of the Kellogg Center building.

As director of Continuing Education, Mr. Scott will be in charge of the extensive MSU conference program at Kellogg Center, the expanding off-campus course program, the regional office, Cap and Gown program service, "University of the Air" home course program, and other adult activities.

Off-Campus Students Sign for Picnic Today

Members of the Association of Off-Campus Students who are planning to attend their scheduled picnic are requested to sign up at the table set up in the Union concourse. The picnic will be held June 3, 1 p.m.-6 p.m., at Fitzgerald Park in Grand Lodge.

Registration will close at 4 p.m. today.

Kettunen Succeeded By Mawby

Arne G. Kettunen, who in 31 years as state 4-H Club leader, saw nearly 1,500,000 Michigan boys and girls take part in the program, will retire on June 30.

Successing him as assistant director of extension and leader of the 4-H Club program will be one of the graduates of the organization, Russell G. Mawby, 28-year-old Michigan State University staff member.

The retirement and the new appointment were approved last Friday by the State Board of Agriculture.

Mawby was selected as a Michigan delegate to the National 4-H Club Congress in 1944. He was Michigan's first International Future Youth Exchange delegate, going to England and Scotland in the summer of 1949.

Degrees of B.S. in agriculture in 1941 and M.S. in agricultural economics from Purdue University in 1943 were earned by Mawby. He is now doing work toward his doctor of philosophy degree in agricultural economics at Michigan State.

Since 1952 he has been a member of the Michigan State Extension staff, working in public policy in the department of agricultural economics. He was on military leave from 1943 to 1953.

While attending Michigan State, the new 4-H Club leader won the senior agricultural activities award and was elected to Phi Sigma Phi, Alpha Zeta, Blue Key and Excelsior.

Mr. Kettunen pioneered in the handicraft, tractor maintenance and recreation programs, which were among the leading projects in 4-H Club activities.

In 1950 Kettunen received the superior service award granted by the United States Department of Agriculture for his leadership in the Michigan program.

Reds Lose Ground in Italy's Voting

ROME (AP)—Two Western Center parties held nearly firm and the leftist partnership of communism and socialism lost ground Monday night in early returns from Italy's nationwide balloting for local governments.

The Far Right, closest gains, had remained a minor force. Both East and West were watching closely as results poured in from the first important European election since the Soviet Union adopted its new tactics of coexistence and anti-Stalinism.

With less than three per cent of the votes tallied, the results were:

Christian Democrats—24,411 or 37.78 per cent, compared to 40.7 per cent in the 1953 general election and 30.5 in the most nearly equivalent 1951-52 administrative elections.

Total Center bloc, including Social Democrats, Republicans, Liberals and other Center parties—43,449 or 44.72 per cent compared to 49.1 in 1953 and 50.6 in 1951-52.

Communists—118,000 or 20.4 per cent, compared to 21.7 in 1953 and 20.4 in 1951-52. Their Socialist partners polled 59,335, or 8.29 per cent, compared to 14.1 per cent in 1951-52 and 12.7 per cent in 1953.

The Leftist bloc polled 223,900 or 39.77 per cent of the votes, compared to 35.6 in 1951-52 and 30.5 in 1953.

The Far Right polled 134,820 or 18.38 per cent, compared to 11.5 per cent in 1951-52 and 12.7 in 1953.

The counting is expected to be completed this afternoon.

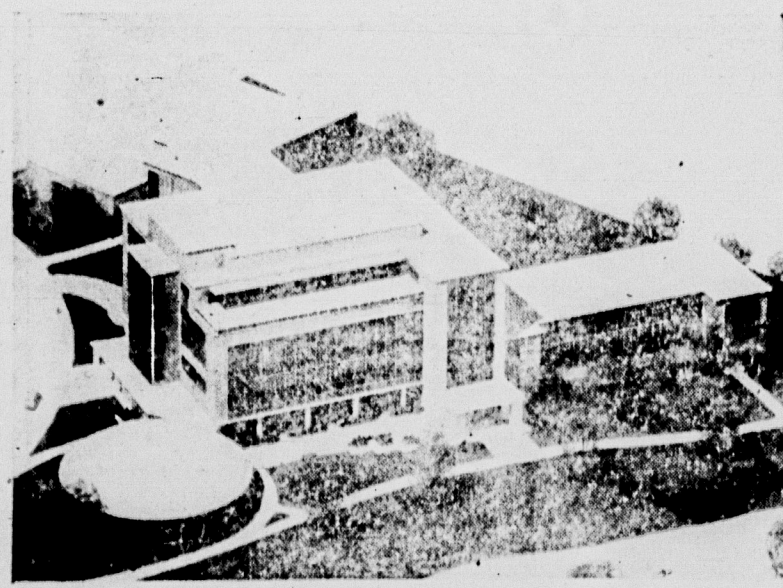

Early returns indicated that Kettunen's new line has lost rather than gained followers. The Socialist wing, once the city of Marseilles, Leftist stronghold, switched from an extreme Leftist to a pro-Western government.

However, returns still were limited and did not represent a national cross-section or indicate any certain trend.

Baten Appointed To Editor's Post

Dr. W. D. Baten, professor of statistics, has been named book review editor of Industrial Quality Control, the official journal of the American Society for Quality Control.

The Michigan section, of which Dr. Baten served as chairman this year, won third place among the 29 sections in North America.

MSU EDUCATION BUILDING: A model shows how the \$4 million College of Education building will appear when completed in 1958 on the Michigan State University campus at East Lansing. It will overlook the Red Cedar river at Shaw and Farm lanes. An unusual feature will be a circular auditorium classroom (shown in left foreground) for use by large groups and experimental instruction. The building also will include facilities for closed-circuit television.

Five Story Education Building Planned; To Cost Four Million

Plans for a \$4 million College of Education building to be completed by Spring, 1958, were announced Monday.

The building, modern in design, will overlook the Red Cedar River at Shaw and Farm lanes, according to Dr. Clifford E. Erickson, dean of the College of Education.

The building will be constructed from funds appropriated by the State Legislature. The current session appropriated \$2 million of the total cost.

The new building will have wings constructed of reinforced concrete framing, with the center portion of structural steel. The central portion will be five stories, the wings two stories, and the auditorium-classroom one story. The building will be constructed of brick, stone trimmed, with an aluminum and glass curtain wall.

The structure will house the departments of administrative and educational services, foundations of education, teacher education and vocational. The department of health, physical education and recreation will remain in Jensen Fieldhouse.

The new building will make it possible to integrate and unify the educational instruction program at Michigan State, Dean Erickson said. It will fill a critical need now in the instruction of 3,756 undergraduate students earning teaching certificates and 454 students working for graduate degrees. In addition the new facility will make it possible to plan constructively for the doubling of student enrollment by 1965.

The building, containing 161,700 square feet, will include 14 regular classrooms, plus classroom facilities for industrial arts and homemaking and an auditorium-classroom with a capacity for 300 students.

The circular auditorium-classroom is designed for experimentation with large classes.

Kresge Gift To Provide Art Center

A gift of \$1,500,000 from The Kresge Foundation of Detroit for a building to house the department of art was accepted by the State Board of Agriculture at its meeting Friday.

The building, to be known as the Kresge Art Center, will be designed and planned by Ralph H. Calder, Detroit architect of several of the new campus structures.

Dr. Compton, physicist and Nobel Prize winner, is distinguished Visiting Professor on campus during spring term.

Open Lecture Set By Compton Thursday

An open lecture by Dr. Arthur H. Compton, entitled "How Can Freedom Win?" will be presented Thursday at 2 p.m. in 326 Natural Science.

Dr. Compton, physicist and Nobel Prize winner, is distinguished Visiting Professor on campus during spring term.

See KRESGE, Page 3.

Substitutes High Price Supports

Uncultivated Land Not Reimbursed

WASHINGTON (AP)—President Eisenhower signed the farm bill Monday, inaugurating a billion-dollar-a-year soil bank and other new benefits for the farm population.

The bill, the legislation that shortchanges, but its advantages outweigh its harmful provisions.

The bill is a substitute for an omnibus farm resource bill, which was passed April 16 because of its provisions for a return to high, rigid price supports for major crops and other features objectionable to the administration.

The new legislation represents a substantial victory for the President and Secretary of Agriculture Benson over the Democratic farm state members in Congress.

Most of the harmful provisions of the previous farm bill have been deleted or have been substantially modified, Eisenhower said in his statement. "Some of them still remain, however, and some new ones have been added."

He expressed disappointment that Congress did not grant him the authority he asked to pay farmers up to 500 million dollars this year on land they agree to withdraw from cultivation and place in the soil bank next year.

Democrats had assailed this idea as "a political bribe" and a scheme to "buy the farm vote" in advance of the November elections.

"The delay in the bill's enactment," Eisenhower said, "makes it virtually impossible to put the soil bank properly into effect in 1956 and I am disappointed that advance payments to farmers are not provided for."

The President signed the bill at 4:30 p.m. one year and twelve days after the first version of the cotton-entail legislation was passed by the House.

Benson said he was glad the President had accepted the bill and that the Agriculture Department was "proceeding with meticulous haste" to get the soil bank program under way.

Water Carnival Ducats Go On Sale Today

Water Carnival tickets go on sale today at the Union Ticket Office, starting at 8 a.m.

Ticket price is \$1.50 for Thursday night and \$1.50 for Friday and Saturday nights.

... How Spartans Will Spend Their Holiday ...

State News Photo by Pete Gibbons. Some will study like these ambitious cords.

Others are planning picnics to while away the leisure hours Wednesday.

These gals are going to soak up some of old sol and forget about classes.

But the fellows will have their ears tuned to the Indianapolis 500 races slated for Wednesday.

Vol. 48—No. 39 Tuesday, May 29, 1956 Page Two

America's Drivers Plan Another V-8 Victory

When half a dozen people were killed in Michigan in a series of tornadoes recently, the people of the state sent up a howl for help. State, county and municipal officials were condemned for their seeming inadequacy. Indignant demands were made for better protection. Newspapers carried virtually reams of copy about the twisters and the death toll that failed to hit double figures.

Monday a prediction that 110 Americans would be killed in traffic accidents on Memorial Day rated only 17 words in a wire story and received little, if any, attention from the American public.

Death on the highway has become so commonplace that America shrugs it off. The taking of human life with a rampaging car has become an almost natural occurrence.

Last year 2,004 persons died in traffic accidents on Michigan highways alone. On the national scene, American drivers managed to mow down over 35,000 countrymen with various combinations of recklessness, speed and carelessness.

Several years ago the all-time traffic death toll surpassed the total number of American fighting men killed in ALL United States wars. This despite the fact that cars have been killing people for slightly more than 50 years and wars for almost 200 years.

In the first three months of this year,

432 persons were killed on Michigan highways—ahead of the pace for the same period last year.

While the public ignores the bloody picture and continues to combat the population problem with automobiles, national, state and local officials are taking strides toward alleviating the situation.

All State Police leaves have been canceled and every uniformed trooper available will be on duty for the holiday highway rat race.

The 838 troopers will be aided by 217 National Guardsmen, assigned to the highway patrols.

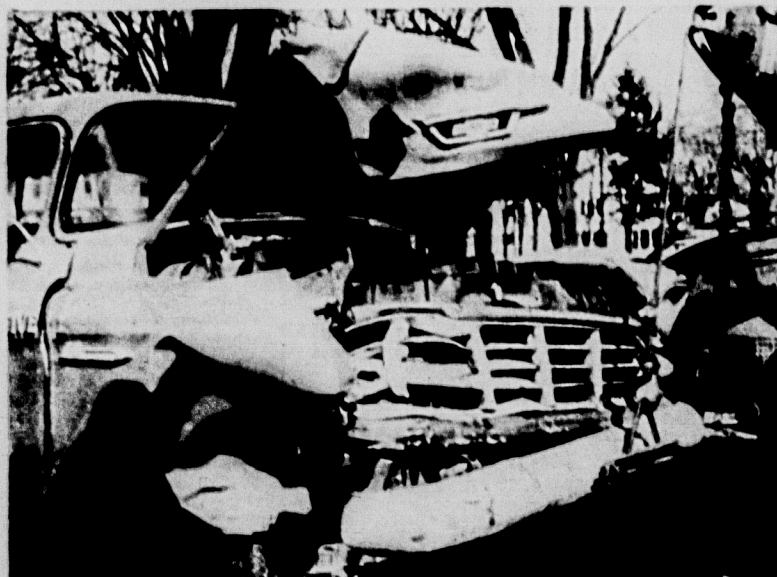

In addition to this 1,055 man highway force, county, township and city police agencies will be out in full force.

Six aircraft, two State police planes, two Air National Guard planes and a pair of Air National Guard helicopters, will aid the traffic flow work.

Troopers will be on the lookout for ANY hazardous moving violations by the states' highway drivers. Speeders will be the prime target with illegal passers, reckless drivers and drunk drivers also coming in for a share of the scrutiny.

Through it all the drivers will hurry, hurry, hurry, ignoring the accidents that "could never happen to me."

And Wednesday night 110 families in the nation will gather to mourn another V-8 victory.

Student Art Work Displayed in Union

The annual exhibition of work by students in the Art Department will be on display in the Art Gallery of the Union Building from Friday, June 1-July 5. Howard Church, head of the department of art, announced that all phases of the art program will be represented.

Day Is Done . . .

"In honor of those who served their country and

In memory of those who made the supreme sacrifice"

From the Secretary of Labor

A Message to 1956 Graduates

EDITOR'S NOTE: The following is the second of two articles written by the Secretary of Labor, especially for the graduating senior. In this portion he presents the general employment opportunity prospects for June's graduating class.

By JAMES P. MITCHELL, Secretary of Labor

Employment opportunities in business will be very good because of a steady demand and a moderately short supply.

Widespread shortages of those with specialized training in accounting and mathematics will continue.

A brisk demand for market analysis is reported, with shortages of personnel with graduate training in this field. Substantial numbers of business administration majors in all fields will be employed as management trainees.

The great demand for competent stenographers and secretaries offers many young women graduates an opportunity for on-the-job experience that could lead to higher positions in business and industry.

Although majors in business administration with some specialization in accounting, marketing research and personnel management and related fields may receive some preference, industry is more and more receptive to the women college graduates with a well-rounded education.

In Civil Service, employment opportunities are very good because of a constant demand that is being met by a supply that varies from moderately short to insufficient.

A new Federal Service Entrance Examination is being used to obtain recruits to fill positions in general administration, personnel management, economics, social security administration and budget management.

The examination is kept open continuously to all college seniors regardless of their major.

The federal government is also in serious need of professionally qualified persons in the scientific and technical fields not included in the Federal Service Entrance Examination such as engineers, physicists, psychologists, astronomers, mathematicians, accountants, patent examiners, chemists and metallurgists.

As all engineering graduates know, the employment opportunity in engineering is excellent, brought on by a strong demand and an insufficient supply.

Manufacturing companies will continue to provide the principal source of employment for chemical, electrical and mechanical engineers. Aircraft and electronics companies, for example, have been recruiting extensively.

Federal, state and local governments will employ the largest numbers of civil engineers

to implement the highway, urban redevelopment and expansion programs that are a part of almost every city's planning.

Employment opportunities are also excellent in health professions because of a strong demand, insufficient supply situation.

Opportunities for starting a successful practice are excellent for physicians and dentists, although the shortages are more acute in some localities than others. The shortage of veterinarians is expected to continue.

For pharmacists, employment opportunities are good throughout the country. New graduates can readily be placed in drug stores, drug manufacturing firms and hospitals.

The number of optometrists, the demand for eye-care services in most cities, although is at present sufficient to meet some areas have no optometric service.

For women, the health professions offer especially attractive and rewarding opportunity. The need for nurses, X-ray technicians, therapists, medical technologists, medical record librarians, medical social workers, dietitians and allied workers continue to be strong.

A strong demand for qualified psychologists exists today and is expected to continue for some time. State and private mental hospitals have many openings for clinical psychologists. Veterans' Administration hospitals cannot secure sufficient clinical and vocational counseling psychologists. More college and university teachers of psychology are needed.

In addition, the growing use of psychological techniques by mental agencies is creating a demand for experimental, personal and human engineering specialists.

In the Natural Sciences, job opportunities are called very good to excellent from a steady demand and a moderately short to insufficient supply.

There continues to be a shortage of physicists at all levels of education. The need is particularly great for graduates with doctoral degrees to carry basic research and teach advanced physics courses.

Shortages have been greatest and the need is most acute for graduates with advanced training in the rapidly expanding fields of modern physics—nuclear theory, quantum theory, electronics, atomic and molecular phenomena and solid state physics, although older fields such as acoustics and optics are also growing.

Employment opportunities for most chemists are good. Especially wanted are those with advanced degrees or with bachelor's degrees and high scholastic standing.

Employment opportunities for graduates with degrees in the earth sciences are good. Private industrial firms, particularly

petroleum and natural gas companies, employ the majority of geologists and geophysicists.

Meteorologists and oceanographers who can carry on research work are also in demand.

The greatest demand is for graduates with doctoral degrees in specialized fields such as pharmacology and microbiology.

Social Science opportunities are good with an increasing demand being met by only moderately short supplies.

Social sciences majors graduating this spring will find better employment opportunities than at any time in the past several years.

Economists are in considerable demand as market research workers and those with advanced training in narrowly specialized fields of economic research are in short supply.

The shortage of statisticians is expected to continue as the demand for such personnel in industry is increasing rapidly.

The teaching profession offers excellent opportunities with a very heavy demand and a supply greatly inadequate at elementary school level.

The 100,000 men and women who will complete teacher certification requirements this spring face the best employment prospects on record. More women find employment in this profession than in any other.

Most of this spring's graduates will be needed to teach the new classes formed as a result of the nearly one million new students that will enter their first classroom this fall.

Graduates meeting high school requirements this spring number 20,000 men and 27,000 women. Many will not enter teaching, but will find employment in industries where manpower shortages exist.

Although the number of newly trained chemistry, physics, biology and general science teachers will be about 18 percent greater than last year, the supply falls far short of the demand.

Shortages also exist in many specialized areas such as home economics, commercial subjects and health and physical education for girls.

Wildon to Judge Flower Contest

Dr. C. E. Wildon, professor of horticulture, has received an invitation to judge the national dahlia show in New York City on Sept. 18. The show is sponsored by the American Dahlia Society. Dr. Wildon has judged at this show, which is an annual affair, a number of times in the past 20 years. He will attend the American Institute Biological sciences meetings at Storrs, Conn., in late August. He will give several lectures in the east in early September and judge the dahlia show before returning home.

Congress Split Over Road Bill

Quarrel About Dividing State Highway Funds

WASHINGTON (AP) — Sen. Bush (R-Conn.) late Monday said a compromise plan in the hot Senate quarrel over a bill to divide among the states the huge federal funds plan for the interstate system in the highway bill.

Boycott Begin Florida

LAHASSEE, Fla. (AP) — Students at Florida A. & M. University for Negroes Monday began a boycott of city buses in protest of the arrest of two

However, Sen. Gore (D-Tenn.) chief sponsor of the Senate version of the legislation, said Bush's plan was not acceptable to him in its present form.

He said the fact Bush offered it demonstrated to him that senators who favor the version passed by the House were now admitting defeat.

Bush is a leading spokesman for the bloc of 17 states which would get more money for the interstate system under the apportionment plan in the House bill. This group had hoped to substitute the House measure for the Senate version.

The Senate bill would mean more money for 31 states.

The Senate began debate on roadbuilding legislation Monday.

The interstate money would amount to 25 billion dollars in federal funds under either version of the bill, the largest sum ever made available by Washington for a nonmilitary program.

The federal government will pay 90 per cent of the cost of the interstate system, the 40,000-mile network of highways linking up all states of the Union.

Bush's compromise would accept for the first two years of the construction program the apportionment formula in the Senate bill—but with an important provision.

The provision says that each state shall receive in the next two years not less than 10 per cent nor more than 15 per cent of its needs to build the interstate system as reflected in the clay commission report. The figures in this report, compiled by a presidential commission headed by Gen. Lucius D. Clay, are used as the basis for the apportionment in the House bill. The compromise would have the effect of greatly increasing funds for states which consider themselves short-changed by the Senate formula.

Kresge

(Continued from Page 1) including the library, music building, and Brody dorm group.

The building will incorporate galleries, studios, Art Department offices, and classrooms which will be available for instruction for courses not immediately associated with the study of art.

The site for the Art Center, which will help to relieve the critical space shortage on campus, lies between the Aud and Alumni Memorial Chapel.

The building will be placed so as to utilize the formal garden at the Fairchild Theatre entrance as a setting for the completed sculpture.

Painting, sculpture, industrial design, printmaking, art education, and other activities are now housed in a crowded temporary building on south campus.

The Kresge Foundation was founded by Sebastian S. Kresge in June 1924. He established the S. S. Kresge Company chain of variety stores in 1899.

Estes Kefauver and Adlai Stevenson shake hands before entering their primary fight in Florida today.

Florida Primary Vote Predicted Light, Close

MIAMI, Fla. (AP) — Florida Democrats—and some Republicans—tell the nation today whether they would rather have the Democrats run Adlai E. Stevenson or Estes Kefauver for president.

On the eve of the Florida presidential primary, it still looked as if the vote would be light and close.

They could be wrong again, but as most political "experts" around the state saw it, as well as newsmen who have been covering the campaign, Stevenson had something of an edge.

The former Illinois governor thought so, too. The Tennessee senator disagreed completely. Each repeated victor claims.

Stevenson got his in at the airport, then took off for California and an even more important primary a week from Tuesday.

Kefauver spoke up in the midst of a whirlwind, dawn-to-midnight bid for ballots through Miami and the suburbs.

On the Republican side of the primary, President Eisenhower has virtually no competition. A partial slate of national convention delegates is entered against him on behalf of Sen. William F. Knowland of California, but Knowland made no effort to campaign after Eisenhower announced for a second term.

While crossover voting is banned in Florida, along with write-in ballots, many Republicans are registered as Democrats in order to have a voice in selecting state officials—a process normally accomplished in the Democratic primaries.

McDonald and his negotiating team today will present the same list of demands to four other big basic steel companies—Jones & Laughlin, Youngstown Sheet & Tube, Inland Steel and Great Lakes Steel.

In all, the union is seeking new contracts with 172 basic steel firms and iron ore mining companies.

Hayden Receives Arts Scholarship

James E. Hayden, Van Dyke junior, has been awarded the Literature and Fine Arts scholarship for 1955-56.

The announcement of this selection was made by Dr. John F. A. Taylor, scholarship committee chairman and a member of the philosophy department.

Sukarno Inspects Detroit Industries

DETROIT (AP) — Top executives of the auto industry Monday showered President Sukarno of Indonesia with automated plants and the latest experimental cars.

Mr. Sukarno responded by saying "industrialization is very much on our program" and he expressed hope "the near future will bring close co-operation between America and Indonesia, especially in industrialization."

New Construction, Repair Funds OK'd

The Michigan legislative approval of appropriations will provide Michigan State with funds for seven building repairs and five new constructions.

There has been \$861,000 granted for remodeling and additions to campus buildings. It has been allocated as follows: \$325,000 will be spent to convert the old library into a museum; \$90,000 for the moving of the sugar beet greenhouse to the location of the plant science greenhouse.

Telethon Pledges Go Over \$8,750

Telethon donations for the Olympic Fund have reached \$8,750.65 and contributions are still coming in, Ralph Young, general chairman, said.

So far, there have been 688 pledges with Phillips Hall's contribution of \$600 being the largest of group donations.

Harold W. Hungerford, representative to the state legislature, is the top individual contributor and is winner of a special portrait by Lansing artist Raymond LeNeil. The portrait is to be on any subject of Hungerford's choosing.

Donations are still being accepted and may be made by sending check or money order to the Olympic Fund, MSU, East Lansing, Mich.

The legislative appropriations for construction, totaling \$8,830,000, is allocated as follows: \$1,120,000 for complete construction on the new building, the electric generator plant, for the start of construction, was granted \$500,000; \$2,000,000 for the new Education building.

The first unit of the mechanical engineering building and the completion of planning documents, was granted \$100,000. Preliminary plans for the Business building were given \$100,000.

Professor Baker To Give Course During Summer

Dr. Joseph E. Baker, visiting professor from the State University of Iowa, will instruct graduate work in Victorian literature during the six-week session of summer school.

Dr. Baker received his doctorate degree at Princeton University and has taught English literature at Princeton, Alabama and Northwestern universities. He is the author of "The Novel and the Oxford Movement." Baker has also edited and contributed to "The Reinterpretation of Victorian Literature," sponsored by the Victorian Literature Group of Modern Language Association and "Critical Studies in Arnold, Emerson and Newman."

Flood Conditions Could Delay Indianapolis 500

INDIANAPOLIS (AP)—A flash flood closed all gateways and tunnels to the Indianapolis motor speedway Monday but began subsiding and the management hoped the 40th 500-mile race could be run Wednesday as scheduled.

The Weather Bureau said there was a possibility of more showers today and Wednesday. A three-day downpour has made a river of a small stream which runs under the south end of the track.

The auto classic has been postponed only once, in 1915 for two days.

The outer concrete wall, against which many race cars have crashed in flames, held the full flow of the stream off the track but rivulets flowed near the southwest turn from leaking joints.

The infield, where most of the 100,000 or so race day fans park their autos, was a series of lakes.

The race had a full field regardless of whether the trucks of water stopped flowing across the track or time for 45 minutes of qualification runs left over from Sunday.

Sure starters in the front row Memorial Day are Pat Flaherty of Chicago, who set a qualifying record of 145.96 miles an hour on the first day of trials May 19; Jim Rathmann of Miami, who qualified at 143.120, and Pat O'Connor of North Vernon, Ind., 144.880.

Rathmann has the Hopkins Special rebuilt from the car in which two-time winner Bill Vukovich was killed in last year's race.

Doc Feurig receives a gift from Lambda Chi Alpha Club picnic Monday night.

'Doc' Feurig Receives Varsity Club Honors

The Varsity Club celebrated "Doc Feurig Night" Monday with a picnic back of Jensen Fieldhouse. The team physician was made an active member in the club by incoming president George Thomas.

In addition to honoring Feurig, the club presented various awards to some of its members.

The award to the athlete with the highest scholastic average went to track star Selwyn Jones.

The Outstanding Senior Award to the graduating member who has done the most for the club was presented to Earl Mortall, Athletic Director. Eugene Mann made the presentation.

The John A. Hannan Award to the two students who have best combined athletic prowess with scholastic ability went to baseball pitcher Jack Wenzel and checker and basketball star John Polinsky, the outgoing president of the varsity club.

The Varsity Athletic Ring was presented to Bob Stewart, director of scholarships and the new adviser to the club.

Polinsky also presented the new officers of the club and the pledge class, the largest in history.

Besides Thomas, the new officers are: vice president, Alan Lund; secretary, John Decker; and treasurer, Norm Wenger.

The evening's entertainment consisted of a duet by "Rock Island Line" by Max Greenbaum and Bob Deniro, two of the pledges, and a rousing chorus of "For He's a Jolly Good Fellow" dedicated to Doc Feurig.

Friend, Ford Lead Majors in Complete Tilts

NEW YORK (AP)—Pittsburgh's Don Ford, who won the distance in only nine of his 20 starts last season, and Whitey Ford of the New York Yankees, a rookie, pitched in each of his eight starts this year. Monday led the major leagues in complete games.

Friend, also right-hander of the surprising Pirates, headed the National League with eight complete games, which included a 1-0 victory against the Yankees. Ford, who has a 7-1 win-loss record, kept the American League the best set to be knocked out in the box.

IM Track Fraternity Lead Held By ATO

Alpha Tau Omega jumped into the lead in the fraternity track meet Monday while carrying two first places and tying for a third in the four events run.

ATO's first place total is 18 points followed by Delta Tau Delta with 13½ and Sigma Chi in third with 10½ points.

ATO's Bill Strong won the 880-yard run, keeping in front most of the way. Teammate Al Buchanan jumped the Delta's Carl Chupat at the finish for second place. Strong's winning time was 2:08.2.

The broad jump was taken by Dave Scott of ATO with a leap of 19 feet 3½ inches. His closest competition came from Mark McIntosh of Sigma Chi, whose jump of 18 feet 11½ inches was good for second place.

The high jump ended in a three-way tie for first place with Greg Montgomery of ATO, Jim Sullivan of Lambda Chi Alpha

Meet Time Moved Up

The fraternity track meet will begin at 3:15 Thursday, instead of the regular time of 3:30. All participants must be ready to run immediately as events will be started promptly.

and Bill Hillemeier of Sigma Chi finishing at 5 feet 8½ inches.

The shot put was dominated by Tom Rickman, as he put all three of his throws over 40 feet.

TEAM TOTALS, ATO 18, Delta Tau Delta 13½, Sigma Chi 10½, SAE 7, Sigma Nu 6, Phi Delta 1.

Kobsmen Play Wayne In Final Road Contes

A player for SAE lays down a punt during Monday's Fraternity Championship game against ATO. ATO won.

ATO Blanks SAE In Fraternity Final

ATO won the Interfraternity football championship Monday when they beat SAE 3-0.

The first score, by the ATO's Doug Bruce, came when Doug Bruce hit a long sacrifice fly in the bottom of the first to score Bernie Bartas. Bartas got on base when he laid down a bunt and beat the throw to first. He was advanced to third by a series of bunts and was in position to score when Bruce hit the sacrifice fly.

The remaining two runs scored by the ATO's were also a result of Bruce's hitting. In the third inning Pat Hogan hit a single to left field and had advanced to second when Bruce came up to bat. Bruce connected and drove in Hogan with a home run.

The SAE's threatened early in the second inning when Don Doreau got a two-base hit but was left on base when the ball was muffed.

Bernie Kuehek gave up two hits to the SAE squad while going the distance for the ATO's. Kuehek collected 11 strikeouts from SAE as he gave out two hits and one walk.

After giving up the homer to Bruce, Gordon Mutch held the ATO's scoreless for the remainder of the game. Mutch, pitching the entire game for SAE, gave up four hits, while getting four strikeouts. Mutch gave ATO two bases on balls.

ATO will meet Rather 1 in the semi-finals for the All-University Softball Championship today. The game will be played on Old College field No. 1.

Squad Tries For Third Tartar Win

Starting Pitcher Remains Uncertain

The Spartan baseball squad closes its 1956 road season today in a single game at Wayne University.

The State title will be made if three in a row are won. Earlier this season Michigan State turned back Wayne in a twin-bill at Old College 11-4 and 8-2.

Captain John Kuehek, starting Monday's game, was uncertain, but the work of Capt. El. Hillemeier, co-captain and non-playing pitcher, was certain.

Two changes in the starting line-up for Monday's game were made. Paul Hanson will pitch the first game, and veteran Roscoe Davis will be the pitcher.

The remainder of the unit will be the same as in the previous games.

Frank Palomares will be second, Earl Mortall at short and Bob Bird at the hot corner to round out the inner defense.

In the outfield, Kuehek will be left field, and Mortall will be center field. The right field position will be filled by either Frank Franchi or John Kuehek.

Michigan State has been beaten by Wayne in each of the last three games. The Spartans are looking for a win to break the losing streak.

Starting pitcher Paul Hanson will be the first to pitch. He has a record of 1-0 with a 2.16 ERA. John Kuehek will be the backup pitcher.

Carr worked only two innings in the first game at Old College. The Spartans faced him for 12 runs and 11 hits in short time.

Lord huffed four hits in the first game, but was not a factor in the game. He was replaced by Kuehek in the second game.

Stratton completed the game and gave up three hits in the third game. He was replaced by Kuehek in the fourth game.

The Spartans will be looking for a win to break the losing streak. They will be playing at Wayne University today.

Tiger Hurler Added to Large Disabled List

DETROIT (AP)—The Detroit Tigers Monday added a new name to their disabled list.

Ford Frick, the team's star pitcher, was added to the list because of a right elbow injury.

The veteran pitcher, who had been in the lineup for the last two games, was hurt by a line drive in the eighth inning of the game against the Yankees.

He dropped out of the lineup for the game against the Yankees, but was expected to return to the team in a few days.

The Tigers will be looking for a win to break the losing streak. They will be playing at Wayne University today.

British Golf Title Defenses

STONED (AP)—The British Open Golf Championship will be defended by a team of four players.

The team will be led by a player who has won the championship in the past. They will be playing at St. Andrews.

The British Open is one of the most prestigious golf tournaments in the world. It is held annually at St. Andrews.

The team will be looking for a win to break the losing streak. They will be playing at Wayne University today.

British Golf Title Defenses

State News to Conduct Poll For All-Star Baseball Team

By JOE HOFFMAN
State News Editor

State News has been selected by the baseball commission to conduct a poll throughout the country to select the year's best All-Star team.

The poll, which will be conducted by the State News, will be the first of its kind in the country. It will be a nationwide poll, with ballots sent to all major league cities.

The poll will be conducted by the State News, which will be the first of its kind in the country. It will be a nationwide poll, with ballots sent to all major league cities.

by the commission's office, "players receiving the largest number of votes at their respective positions will start at those positions and will play at least three innings."

Should a player perform at more than one position, all ballots received for that player should be listed for the position at which he started on June 1. Should a player, not in the lineup on June 1, his ballots will be credited to him at the position at which he starts his first game following June 1.

The State News will keep you fans posted on the totals for each player, both locally and the national totals.

repeated along with Musial, and catcher Roy Campanella.

In the pitching department, the two opposing managers are likely to have to think twice about their choices.

Over in the junior loop, Boston's Mickey Vernon and Cleveland's Vic Wertz should battle it out for first base, with the edge going to Vernon. Bob Avila of Cleveland should take second base. The Tigers' Harvey Kuenn, an easy repeater, at short, and Baltimore's George Kell at third.

Mickey Mantle should head the outfield in center, with Kaline and either Cleveland's Al Smith or Chicago's Monnie Minoso backing him up.

No matter how the votes turn out, it should be a great race, and the State News is proud to be one of the papers selected to run the poll.

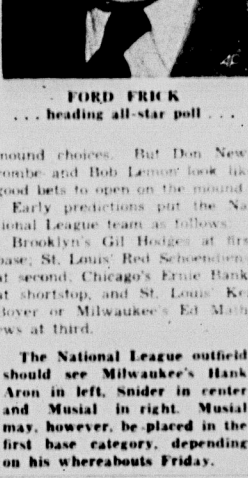

Long Hints 8th Homer

PITTSBURGH (AP) — First baseman Dale Long of the Pittsburgh Pirates continued his almost incredible home run hitting Monday night by blasting his 8th homer in as many games to set a major league record as the third-place Pirates beat the Brooklyn Dodgers 3-2.

Bobby Friend, the Pirates' ace right hander, gave up only two hits in winning his eighth game against two defeats, the winningest record of any major league hurler.

Only last Saturday Long set the mark of seven homers in as many games. He now has 14 tops in the National League.

The Dodgers were scored on a tremendous home run blast by Duke Snider in the second inning.

FORD FRICK
... heading all-star poll ...

Many rookies will be challenging the veterans for starting berths on this year's team. Dale Long, only in his second season and first full one with Pittsburgh, is surely a top contender for the first base spot. Long leads the league in batting, RBI's and home runs.

Cardinal shortstop Don Blasingame will be fighting for votes against such veteran standouts as Brooklyn's Peevsee Reese, New York's Alvin Dark, and Chicago's Ernie Banks.

Last year's American League starting right fielder and batting champion, Al Kaline, will be challenged by Boston's Jackie Jensen and New York's Hank Bauer. Many tough fights loom for starting berths.

Yogi Berra, the American League's most valuable player for three years looks to start in another All-Star game, but Chicago's Sherm Lollar may be tough in the vote column.

Back in the National League, Duke Snider looks like the surest

Ford Wants Steps To Aid Minors

ATLANTA (AP) — Ford Frick, commissioner of baseball, expressed strong hope Monday that the major league owners now are ready to take effective steps to halt the decline of minor league baseball.

Elimination of bonuses might be one such step, he indicated.

Frick explained that details must be worked out but he felt the most important recommendations probably would be to allow the minors to sign more players on their own and to exercise far greater control over the player contracts.

IM Schedule

There will be no games tomorrow because of Memorial Day.

Bengals Outscore Indians Ex-Tribesmen Collect Scalps

CLEVELAND (AP) — Steve Gromek threw a six-hitter against the Cleveland Indians Monday to win Detroit a 3-1 victory over the Tribe. Ray Boone hit a home run off loser Herb Score in the sixth inning.

Three players who spent many seasons in Cleveland uniforms were key men in the Detroit triumph. Gromek, who evened his record at three won, three lost, Boone, whose homer was his seventh, and Bob Kennedy, whose double drove in the first Tiger run.

Score, in losing his fourth game against five victories, struck out eight, getting Gromek and Jack Phillips three times each. He now has 75 strikeouts in 69 innings.

In each of the first four innings, the lead-off Tiger batter got on with a single. Al Kaline got the starting single in the fourth, then Ray Boone singled and Kennedy's drive bounced into the left field stands for a ground-rule double that scored Kaline. Boone came home on a star play.

Yanks Defeat Red Sox

NEW YORK (AP) — Whitey Ford spaced five Boston singles to hang up his seventh victory against a lone defeat this season as the New York Yankees made the most of four hits off Frank Sullivan to beat the Red Sox 2-0.

It was the eighth straight complete game for the stubby New York outpaw, who lowered his leading earned run average to 1.01 with his second shutout of the season.

Sullivan, now 3-2, gave the host-hitting Yankees a tough time, but couldn't keep their four hits spaced.

Giardello Decided By Charley Cotton

NEW YORK (AP) — Toledo's Charley Cotton made it two straight over favored Joey Giardello Monday by taking a split, 10-round decision over the former top middleweight contender from Philadelphia in a bruising telecast battle at St. Nicholas Arena. Giardello scored 160, Cotton 154.

Fullback to End

Michigan State's Dave Katter, hero of the Spartans' 1955 Rose Bowl win, won All-American honors as a fullback while a student at Alpena, Mich., high school.

Jones Paces Thinclads In Mile, 2-Mile and Relay

By GARY TRUSKOSKI

Michigan State thinclads boast a four-mile relay squad that rates as one of the best in the United States. This team has proven its strength by winning the Marine Corps Relays at Quantico, Va., and the Michigan State-Michigan meet at Young Field, in beating Michigan's squad, the team ran the fastest four-mile time recorded in the nation this season.

Selwyn Jones, Hamilton, Ontario sophomore, running the anchor on this relay team, has helped pace the team to victory in each of these meets.

Jones has also been a consistent scorer as a mile and two-mile distance runner. Two weeks ago, he came within yards of upsetting Notre Dame's Bill Squires, in a dual meet against the Irish. Squires is considered one of the top United States collegiate runners.

As captain of last fall's harrier squad Jones, along with teammate Henry Kennedy, paced the harriers to the NCAA and Big 10 cross-country titles.

Selwyn marked his appearance on the Michigan State campus in 1953 by upsetting that year's cross-country captain, Lyle Garbe, in an inter-squad three mile race.

The same year, as a freshman, Jones was Michigan AAU mile and two-mile champion.

Selwyn began running about eight years ago for the Hamilton Athletic Club as a five and ten mile distance runner. In 1952 he won the Canadian six-mile cross-country championship then set a six-mile record at a Canadian track meet. The previous day, Selwyn had won the one and three mile events in the same meet.

A former State track manager was responsible for Selwyn's decision to come to State. The manager befriended Jones at a meet in Buffalo, N.Y., and convinced him that he should attend State.

According to Coach Karl Schladerman, Jones is a leader and a fine citizen as well as a consistently improving middle-distance runner. His relaxed attitude before a race, according to his teammates, bolsters the team's spirit and morale.

Selwyn has been president of Mott's House and has a 3.4 all-college average as an electrical engineering major.

Because of a misunderstanding of an AAU ruling Jones was declared ineligible for the 1954-55 season; he ran for the Hamilton Athletic Club during the summer and was declared ineligible.

However, an Olympic year ruling by the AAU permit him running with the club this summer and he should be in top condition to help next fall's harriers successfully defend their national and Big 10 titles.

A Lot of Playing

Michigan State first-string guard Ed Currie played 54 out of a possible 60 minutes—more than any other Spartan player—in his team's 1956 Rose Bowl win over UCLA.

Conrad Opens British Golf Title Defense

1956 Scotland (AP) — Little Lord of San Antonio, Texas, and many surprise winners of British amateur golf title, a 19-year-old Scot, David Conrad, opened his title defense after a round marked by two major errors.

Conrad who drew a first round 74, led late in the afternoon, but was overtaken by a 71 by a white-hot E. A. Fawn of England 5 and 4.

Conrad was the eleventh place victor of the opening 36-hole championship over a hard-fought second round. The Americans lost and Fawn advanced when their team scratched.

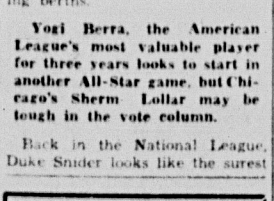

The major sports were credited to a 19-year-old Scot, David Conrad, and handsome, long-haired Georgian, Robert Man-ning of Savannah.

When they eliminated the two American favorites, Doug Sanders and last year's champion, Conrad, Slater, who posted a 2 and 1 victory, Sanders, who called Slater, G. J. Slater, who recently shifted his home base to Miami.

Slater, who attracts girls to play because of his good looks and because he hits the ball, Slater, who gave the tournament a good look, Slater, who gave the tournament a good look, Slater, who gave the tournament a good look.

Seaton Named to Cabinet

Takes Interior Secretary Job

WASHINGTON, (AP) — Fred A. Seaton, former U. S. senator from Nebraska, was appointed secretary of the Interior by President Eisenhower Monday in a move that Seaton described as "sudden."

"Thank you," Seaton told well-wishers as he left the White House following the announcement. "This was a surprise."

Seaton reportedly was the personal choice of the President over another Nebraskaan, Undersecretary of the Interior Clarence A. Davis.

Davis had been widely expected to get the cabinet post after Secretary Douglas McKay resigned April 15 to seek and win the Oregon Republican senatorial nomination.

A Nebraska newspaper and radio executive who has been serving as deputy assistant to the President in charge of administrative affairs, Seaton announced immediately he intends to carry on Eisenhower's power and water policies.

Meeting with reporters shortly after his appointment was announced, Seaton said he had first word of the development last Thursday.

He said it is his intention to continue the partnership policy for power development under which local, private and public interests join with the federal government in hydroelectric projects.

Seaton said he has asked Davis to remain as undersecretary, but Davis had not given his answer.

Senior Council Petitioning Set

Petitions for assistant chairmanship of the 1956 Water Carnival will be available at the Student Government office in the Union today.

Petitions must be turned in by noon Friday. The person selected will share with the 1956 Water Carnival committee and become general chairman for the 1957 carnival.

Petitioning for senior council will begin Thursday and end next Tuesday. Petitions will be returned from the student government office.

Petitioning for Junior Council began Monday and will end Friday at noon.

NEWS IN BRIEF

Atomic Energy Expert Seeks Plants

WASHINGTON, (AP) — Robert McKimsey, Santa Fe publisher and authority on atomic energy, proposed Monday that the United States help build at least seven atomic power plants in countries where fuel is scarce. He said this would help offset the new Russian technique of "Soviet service with a Soviet smile."

Presbyterians Split Over Name

PHILADELPHIA, (AP) — The 168th General Assembly of the Presbyterian Church in the U. S. A. Monday approved a "plan of Union" with the United Presbyterian Church, but not until opposition was overridden on the name for the new church.

Missouri Dems Push Symington

JEFFERSON CITY, Mo., (AP) — Missouri Democratic State Convention with shouting acclaim Monday instructed its 30-vote delegation to the Democratic National Convention to vote as a unit for Stuart Symington for president.

Britain Urges More Efforts by Dag

UNITED NATIONS, N. Y., (AP) — Britain proposed Monday that Secretary General Dag Hammarskjöld continue using his good offices for peace in the Middle East. A Syrian delegate objected, Israel offered no immediate comment.

35 Dead in Algerian Combat

ALGIERS, Algeria, (AP) — French troops supported by fighter planes Monday engaged rebels in two hard skirmishes in Algeria and said they killed 35.

Wolverines Out Thursday

Wolverines will be distributed by students who will Wolverine Thursday and Friday from 9-5 on the second floor of the Union near the checkroom.

In order to get their books, they must present their ID's.

Approximately 100 Wolverine were distributed at the Division house banquet. They were earlier

Four Alums Win Awards For Service

Four outstanding alumni of Michigan State University will receive Distinguished Service Awards at commencement exercises Sunday, June 10.

Presentation of the awards, an annual tradition at MSU, will be made by Mrs. John Hannah in behalf of the university alumni club of Washington, D.C.

The four to receive the awards are: Clark L. Brady Lansing, class of 1940, executive vice president of the Michigan Farm Bureau and chairman of the State Board of Agriculture.

Dr. Dillman S. Rutledge, El Vergel, Chile, class of 1907, director emeritus and professor of the Agricultural School at El Vergel.

Dr. Eugene B. Elliott, Ypsilanti, class of 1924, president of Michigan State Normal College.

Victor J. Gardner, Water Park, class of 1935, former head of the department of horticulture at MSU and director of the Michigan Agricultural Experiment Station for more than 30 years, retiring in 1956.

The U.S. aircraft carrier, *Sara*, was the sixth U.S. naval vessel so named.

The State News will not be published on Wednesday, Memorial Day. Publication will resume Thursday morning.

Train, Truck Collision Kills Brakeman, Farmer

ALLIANCE, Ohio, (AP) — A passenger train was hit by a truck at nearby Atwater Monday.

The truckdriver, a brakeman on the train, and a farmer in a mill next to the tracks were killed. Seven persons were injured, including several of the 60 passengers on the Pennsylvania Railroad's Pittsburgh-to-Cleveland "Steelers."

Brakeman Arthur J. Fisher, about 50, of Pittsburgh, was decapitated by a rail that sliced through one of the four train coaches that stayed upright.

The baggage-and-mail car flipped aside and crashed into the Duquesne County Farm Bureau mill next to the tracks, killing 41-year-old Charles F. Fouser, an

Atwater farmer who was having some grain ground.

The truck that smashed into the train's diesel engine at the U. S. 224 crossing was ripped to pieces, and its driver, 27-year-old Andrew Nappi of Akron, was killed.

Leonard to Address Philosophical Society

Dr. Henry S. Leonard, head of the philosophy department, will address the Detroit Philosophical Society Thursday night at Kresge Science Library.

His address is titled, "Some Basic Problems in Philosophy and the College Freshman."
