

Thanksgiving Dinner, Too!

Russian Educators Plan Tour of MSU

Nine Russian educators and education officials will pay a four-day visit and spend Thanksgiving Day here this week. The visitors are scheduled to arrive at Capital City Airport Tuesday at 7:45 a.m.

Propaganda Discussed By Educators

Propaganda has become a dirty word to Americans, even though they are surrounded by it. Two MSU educators agreed Sunday on Viewpoint over WKAR-radio.

Appearing with Major John Barron, the program's host, were Dr. Hideya Kumata, associate professor with the University's Communications Research Center, and Dr. Donald Olson, assistant professor of Sociology and Anthropology, who also saw difficulties ahead for the U. S. in the cold war.

Olson criticized our "advertising approach" to international propaganda, not only for what he called its "moralistic overtones and ambivalence," but for failing to take cultural differences into account.

"We make the false assumption," he said, "that what sounds good to us must sound good to other peoples."

Kumata scouted the idea that works alone can make great changes. He said that study of propaganda indicates that the most successful efforts are those in which words and deeds are combined.

With reference to the audience for propaganda, the communications specialist said that "we have vacillated between a policy of talking only to 'elites' and talking to the 'masses'."

The assumptions under which an information program is conducted has too seldom been carefully examined when it comes to the kinds of efforts we are looking for."

Ag Heads Picked For High Offices At National Meet

Several administrators in the College of Agriculture were recently elected to important offices at the annual meeting of the American Assn. of Land Grant Colleges and Universities in Washington, D.C.

Dr. Paul Miller, director of the Michigan Cooperative Extension Service, was elected chairman of the extension section in the division of agriculture, and served as chairman of the entire division of agriculture.

Dr. Richard Swenson, assistant dean for resident instruction in agriculture, was named secretary of the resident instruction committee.

Herbert Berg, assistant director of the Michigan Cooperative Extension Service, was re-elected secretary of the north-central region of extension directors. He has held the position for six years.

The group, headed by Dr. A. I. Merkushevich, first assistant minister of education for the Russian Soviet Republic, is on a five-week tour of American educational institutions.

"A flexible schedule is being arranged so the Russians may select the things which interest them most," said Glen Tazart, dean of international programs, who is handling arrangements for the visit.

Plans are being made to have the Russian visitors spend Thanksgiving Day and the traditional holiday dinner in the homes of farm families and faculty members.

The group will tour the campus Tuesday morning before checking into their guest rooms at Kelling Center. They will be luncheon guests of President Hönig and in the afternoon will meet with officials of the College of Education. Visits to classrooms and interviews with staff members are also included in the plans.

Tuesday evening the Russian guests will have the opportunity to attend the performance of "La Bohème" by the New York City Opera company, a presentation of the Lecture-Concert Series.

Visits to the Lansing Public School System are planned Wednesday morning. In the afternoon the group will tour a rural school system, as arranged by the College of Education, to observe vocational educational programs in agriculture and homemaking.

A tour of the Oldsmobile plant and meetings with officials in the State Department of Public Instruction will highlight Friday's activities.

An informal gathering at the home of Dean Paget Friday evening will end the Russians' tour in this area. The group will leave for Chicago at 9:24 p.m. Friday from Capital City Airport.

Last May and June a group of American educators visited the Soviet Union. Included in that group were two MSU faculty members, Dr. Herbert Rudman and Dr. Lincoln Pettit. These two staff members have met several members of the Russian group now touring America.

Both visits were arranged under an agreement between the two governments for exchange of missions in cultural, technical and educational fields.

The head of the Russian group, Dr. Merkushevich, holds the position of vice president of the Russian Academy of Pedagogical Sciences.

After Leave

Bagwell Gets New Position

Paul Bagwell's appointment as director of scholarships at MSU was approved Thursday by the governing board. The appointment is effective Dec. 1. Bagwell had resigned as head of the department of communication skills and was granted a leave of absence from Aug. 2-Nov. 30 to run as Republican candidate for governor.

In his new position he will direct the university's program of scholarships provided from public and private funds. His duties will include the coordination of scholarship activities on and off campus and with junior colleges and high schools in the state.

The position was held previously by J. Robert Stewart who resigned Aug. 1 to become athletic director at St. Louis University, Mo. Since that date the position has been filled temporarily by John Wilson, administrative assistant to Dr. Thomas Hamilton.

AF Cadets See Flight Operations

Twenty-seven AFROTC cadets saw demonstrations of the supersonic F-102A interceptor scramble procedure and other flight-line operations during their visit to Richards-Gebaur Air Force Base, Grandview, Mo., Friday.

Capt. Theodore King, left, Capital City Airport in an Air Force C-119 Friday, and returned Saturday.

Richards-Gebaur is a defense base housing the headquarters of the Central Air Defense Command.

An announcement of special interest to fall graduates in Engineering and Science

B.S. • M.S. • Ph.D.

Lockheed Missile Systems Division has created a number of special, new openings with unusual opportunities for fall graduates in electrical engineering, mechanical engineering, aeronautical engineering, mathematics or physics.

The Division is engaged in a broad program of basic research in all areas of scientific activity in missile and space technology, including advanced systems research; nucleonics; physics; chemistry; mathematics; design; test; electronics; flight sciences; and manufacturing. Some of the important studies under investigation are: man in space; space communications; ionic and plasma propulsion; space physics; nuclear propulsion; magnetohydrodynamics; oceanography; computing machine memories; human engineering; noise suppression; materials and processes; boundary layer control; electro magnetic wave propagation and radiation; and operations research and analysis.

Lockheed is systems manager for such major long-term projects as the Navy Polaris (RBM), Air Force Q-5 and X-7; Army Kingfisher and other important research and development programs.

The Division was honored at the first National Missile Industry Conference as "the organization that contributed most in the past year to the development of the art of missiles and astronautics."

LOCATION
Headquarters for the Division are at Sunnyvale on the San Francisco Peninsula and new modern Research and Development facilities are located in the Stanford Industrial Park in nearby Palo Alto. A four thousand acre company-owned static test base is located in the Ben Lomond mountains thirty miles from Sunnyvale. Other Division locations are at Van Nuys and Santa Maria, California; Cape Canaveral, Florida and Alamogordo, New Mexico. Together, they occupy more than two million square feet of laboratory, engineering, manufacturing and office space and provide the latest in scientific and technical equipment.

ASSIGNMENTS
Upon joining the Division, you are assigned to your special areas of interest and work directly under distinguished leaders in your field. The company encourages and sponsors individual communication with other scientists, the publication of papers and articles, and participation in symposiums and conventions. Every opportunity is given members of the technical staff to participate in the initiation of advanced technological developments.

GRADUATE STUDY PROGRAM
Of special interest to those who wish to continue their advanced education, is the Division's Graduate Study Program. Under it, selected students with qualified academic records may obtain advanced degrees at the University of California at Berkeley or Stanford University, while employed in their chosen fields at Lockheed. All costs of tuition, admission, thesis and textbooks are borne by the company.

IMPORTANT
The number of these special openings is limited. If you are interested, please wire collect directly to Mr. R. C. Beverstock, College Relations Administrator, 962 W. El Camino Real, Sunnyvale, California, giving your major, and degree level.

Interesting Eye Hi-Lites about contact lenses and general eye problems as elicited by questions commonly asked in our offices.

Submit your questions to Dr. Joseph B. Gutstein (See address below)

Dr. Gutstein, local Lansing Ophthalmologist, graduate of College of City of New York and of Columbia University, formerly Associate Professor of Optometry at Monroe College of Optometry and Assistant Professor of Optometry at Chicago College of Optometry, both in Chicago. Author of "A Student's Guide to Optometry." Dr. Gutstein holds licenses to practice Optometry in New York, New Jersey, Illinois, Indiana and Michigan. He has the honorary degree of D.O.S.

QUESTION: What are cataracts, and what can be done about them?

ANSWER: As simply as possible, cataracts can be described as that condition of the eye, in which the crystalline lens loses its transparency and becomes opaque. The loss of vision which results depends on the extensiveness of the loss of transparency of the lens; the greater the opacity of the lens, the greater the loss of vision. The best advice in regards to cataracts (as well as any other eye condition) is to consult your eye specialist and follow his advice.

QUESTION: How can I know if I will be able to wear contact lenses?

ANSWER: You don't! Consult your contact lens specialist, who will be able to determine whether you are a suitable patient for contact lenses. In general your desire and determination (in other words motivation) will be a very helpful factor in assisting your doctor in completing the fitting of contact lenses to you.

QUESTION: Can a person who is allergic wear contact lenses?

ANSWER: General allergies do NOT seem to preclude correct fitting of contact lenses. Cases have been reported where even "hay fever" sufferers have been successfully fitted. Apparently the factor of motivation seems capable of overcoming seemingly insurmountable obstacles. However, I would caution (other contact lens specialists have borne me out in this) that in the case of "hay fever" sufferers the fitting of lenses should be completed before the so-called "season" begins.

Send inquiries about eye problems to Dr. Joseph B. Gutstein

Green Favored Over White in Frosh Final

Teams Out To Impress Top Brass

By JIM WALLINGTON

BILL ROHR, of Northwestern, was one of the many coaches attending Head Basketball Coach Ford Anderson's coaches clinic held here Friday. Rohr (l) discusses the clinic with Anderson before the Green-White game, held Saturday night at Jenison.

Spartan football fans will have the opportunity to view future Michigan State grid material in action today as the freshman Green and White teams pair off in the finale of the Green-White series at 3 p.m. in Spartan Stadium.

Going into the game with two wins under its belt, the Green team will be favored to knock off the Whites for the third time. The Green team, which favored last year but the Whites forced the Greens to settle for a 19-19 deadlock.

The passing and running of the Greens explosive backfield may prove to be too much for the Whites to overcome. The Greens can go over the Whites with Leroy Loudermilk's passes, through the White line on blitz by fullback Carl Charon, and around the Whites on the speed of Gary Ballman and Tony Kummega.

The Whites are not as poor as their record indicates. They have moved deep into enemy territory many times, only to lose the ball. Larry Hudas, Ed Ryan and Mitch Newman, who has the only White TD, are dangerous at all times. The Whites also have two quarterbacks to count on, Al Lipinski and Joe Klim.

The difference between the squads has been the Green's superior line play. Dick Oxendine and Art Brandstatter are the best receivers and are no pushovers on defense. The Green inner wall has stopped many White thrusts at crucial times.

Buck Nystrom, the Green coach, will start:
Leroy Loudermilk QB
Tony Kummega RB
Gary Ballman RB
Carl Charon FB
Dave Manners FB
John Lunow LB
Tom Winiarski LB
Peir Kiskela LB
Jerry Ohlsson TE
Dick Oxendine LE
Art Brandstatter RE

Green substitutes will be: Mike Briskner, Leroy Milner, Randy Mack, Fred MacKaron, Bob Jewell, Don Kopack, Jake Lewandowski, Larry Adlerley, Bill Dersch, Dick Louis, Jim Patterson, Larry Lemsko, Ed Davison, James Jefferson.

White Coach Gordie Serr will start:
Al Lipinski QB
Larry Hudas RB
Ed Ryan RB
George Hudas FB
Don Bridges FB
Mike Hondo LB
Jan Eskin LB
George Lombardo LB
Bill Timm LB
Grez Orth LB
Pat Murphy LB

White subs will be: Joe Kim, Bob Svei, Bob Carter, Jim Corgeat, Mitch Newman, Ben Belbel, Keith Bayha, Roy Parrott, Ken King, Bob Szwest, Rowland Mars, Buddy Sims.

Spartans Finally Win, 26-7!

Losing Streak Broken

By HARDY CHRIST
A glimpse of the sun was shining once again for Michigan State Saturday. During the game but cold afternoon at Spartan Stadium, the Spartans won a football game over Kansas State, 26-7, to break a prolonged losing streak.

The win gave State three wins against five losses and one tie for the season, and upped Coach Duffy Daugherty's record against his conference competition.

Since Daugherty became head coach in 1954, the Spartans have won 15 of 16 games against opposition out in the Big 10. They won all three non-conference tilt this year, beating Virginia, Pittsburgh and the Wildcats.

Although the Wildcats proved a first down to State's 13, Spartans led in the other departments. State picked up 13 yards rushing to the Wildcats' 101, and added 149 yards passing, to total 162 for Kansas.

The game marked the end of college football careers for 14 Michigan State seniors. It also kept MSU's record perfect against Kansas State, with five wins and one tie in six meetings.

Led by Capt. Williams, the Spartans hoisted Daugherty on their shoulders and carried him off the field as the final gun sounded.

Daugherty alternated two units during the game, one an all-star system and the other a nucleus of the team which will lead Michigan State in the 1959 campaign.

MICHIGAN STATE'S DEFENSE WAS SHARP AGAIN Saturday, as it has been in all the losing efforts this year, but it was the offense that triumphed 26-7. John French, Kansas State's 195-pound junior, finds this out also as he is hemmed in by three Spartan players.

Win Over Kansas Makes Duffy Happy

Duffy Daugherty was happy to finally win a game Saturday but he was still doing a slow boil underneath.

The Michigan State coach picked a table hid in a corner of a storage room in the Spartan locker room to tape out his anger over a story which appeared in a Detroit paper.

The story said there was dissension on the team and between Daugherty and athletic director Buzz Munn.

"That was a totally unfair story," he said before anyone had a chance to ask him about it. "It was written by a man who has never been on our practice field this season. That meeting was called by Sammy Williams partly to apologize for losing to Indiana."

"Even a moron could watch our practices and know there was no bickering."

Daugherty also talked about the reported "feud" between Munn and him.

"You hear this stuff about President (John) Hannah putting a cap on me—that's ridiculous," Daugherty insisted. "I owe a lot to Buzzie; he gave me my first real chance to play (at Syracuse). We were as close as any two men could be."

"If anything, this thing has brought us closer together. We'll have differences, sure, but never again will we let it interfere with our friendship."

Daugherty praised his team, "There's a great bunch of kids."

Whites Win, 71-61

Intra-Squad Game Attracts 4,000 Fans

The sports spotlight swung from the gridiron to the basketball court Friday night to highlight an intra-squad game.

The Michigan State White and Blue basketball teams, coached by Coach Fordy Anderson, played a hard-fought game in the gymnasium.

The White team, led by Stouffer and Dave Fabs, finished off a two-way passing pattern with Stouffer scoring from five feet out.

The Blue team, with Green, State's All-American candidate, dominating the backcourt, took a commanding lead and were never really threatened.

This game proved to me that the overall team is in fine condition for the rough season ahead," Coach Fordy Anderson said.

IM Highlights

IN TONIGHT'S intramural football action, the Dons will meet Ralder 7 and Lambda Chi Alpha will play Beta 6 in the All-University semi-final football games. The Dons will meet Ralder at 7:30 p.m., while Lambda Chi and Beta meet at 8:30 p.m.

MSU Gets \$280,274 In Donations

Gifts and grants totaling \$280,274, including \$180,960 for a summer science institute, were accepted Thursday for MSU by its governing body, the State Board of Agriculture.

The summer science institute will be conducted June 22-Sept. 4, under a grant from the National Science Foundation. The special program is for community-junior college and high school teachers of physical science and mathematics.

A \$16,310 grant from the U.S. Air Force Office of Scientific Research, Washington, D.C., was accepted to be used in nuclear studies by Dr. George Board and Dr. William Kelly in the department of physics and astronomy.

The U.S. Department of Agriculture granted \$15,025 for a study being conducted by Dr. Lyman Beatzler in animal husbandry to improve the quality and processing characteristics of frankfurter and Bologna-type, sausage-like products.

Dr. Malcolm MacLean Jr., in the Communications Research Center, will continue his study of the content of educational television films and audience reactions under a \$15,000 grant from the Educational Television and Radio Center, Ann Arbor.

A \$14,600 grant from the National Science Foundation was awarded to Dr. Egon Hiedemann in physics to support his research in ultrasonics, high frequency sound waves.

DAWN SCHAEFFER, Atlanta, Ga., junior, of Kappa Alpha Theta, and John Leindecker, Kalamazoo junior, of Alpha Sigma Phi show off their prize winning entries in the flower show presented by the Floriculture Forum last weekend in the Union. 'The Gold Note' Brody, Radio Schedules Night Club Style Dance

"The Gold Note," a New York night club style dance will be presented by WBRB, the Brody Radio Station, December 5, 8-12 in the Union parlors.

Don Jacobs, chairman of the dance, has organized entertainers as well as social dancing to the Jim Hamlett Trio, a dance combo. The evening will have its share of singers and other talented acts.

Female vocalists include Menda Britton, Ben Witte, Fran Ward and Bev Calloway. Sam Harris will present some exotic musical vocalizations with his calypso singing.

Humor will be injected into the evening by Eddie Fiddelman, whose comedy acts have set off

laughter in previous professional performances. Helping to round out a full evening of entertainment are June Hamlin, a pianist, and Ron English, a guitarist.

Tickets go on sale today through Wednesday at the Union desk between 2 and 4 p.m. and during the week preceding the dance. Prices are: \$1.50 per couple and 75 cents "stag".

Tryouts for One-Act TV Play Begin Today

Casting try-outs for "Peace in the Valley," an original three act play by Edith Larson will be held today from 8:15 to 10 p.m. and Tuesday from 7:30 to 9 p.m. in the Studio Theater.

The play tells the story of one family's resistance to a newcomer and would-be dictator who has arrived in a once peaceful valley. Jess Talbot finds that he is the only man capable of standing up to the Coger's brutal intolerance, but it takes the women-folk to give him the

needed courage. The play is being adapted for television and will be broadcast over WMSB-TV, channel 10, early next year. The series is sponsored by the dramatic and television honoraries on campus.

It is the only live television series in the country which is completely written, directed, acted and produced by the students, according to the dramatic director, Jerry Bates. Mary Henshaw is the television director.
