West Big 3 Negotiate Berlin Plan

Air Traffic Control Poses No Problem

BERLIN (AP)—The West's Big Three Tuesday night were reported firmly united behind a new secret plan to counter any Communist attempt to freeze the mouth of Berlin.

Diplomats said the agreement was reached within the past few days. This indicated the allies had resolved any differences as to how to react should the Russians hand over to the East Germans control of Allied lifelines to isolated West Berlin.

Allied officials declined to spell out the details of their new plan.

Diplomats said, however, that under the plan the three would allow East Germany to operate an air safety center in Berlin. This controls all traffic in and out of Berlin. But East German Communist leader Walter Ulbricht, spelled out his intentions. While scoffing at Western fears of a Communist blockade, he said the allies would have to negotiate with his regime for free access to Berlin.

The West Germans are insisting the Allies stand firm. Chancellor Konrad Adenauer has described the security of Berlin as the West as indivisible.

Juniors Post ROTC Win Over Seniors

Juniors in ROTC outdid seniors in average scores for the Physical Training test just completed.

Out of a possible 500 points, the juniors scored 280 while seniors were close behind with 272.

Terry Pursel, Burnham, Pa., junior, received the individual high score of 411. He did 68 pushups, 70 situps, 12 pullups, 80 squat jumps and ran the 300-yard dash in 48.5 seconds.

Individual high scorers in each category were:

Douglas Ostien, Perry junior, with 16 pushups, Gigg Montgomery, East Lansing senior, with 61 pushups, Robert McKenzie, Okemos senior, with 82 situps and the 300-yard dash, Montgomery in 43.5 seconds.

Montgomery and James Chin, Canton, Ohio, sophomore, tied in squat jumps with 86.

Airlines Avert Holiday Strikes

Airlines blocked one strike by court order Tuesday, averted a second possible walkoff and sued to halt one already effective as Thanksgiving holiday travel snowballed.

The Air Line Pilots Assn. honored a court order against a strike of American Airlines scheduled for Tuesday midnight. National Airlines and the International Assn. of Machinists announced agreement on a contract, and Eastern Airlines asked an injunction against a flight engineers' strike.

Refutes Old Wives Tales

Most people kill poison ivy whenever they can but William Gillis is trying to grow the three-leafed leper of the plant world.

Although men have been writing about poison ivy since one of Captain John Smith's men suffered its effects in Virginia more than 300 years ago, Gillis making what appears to be the first thorough study of the plant in its environment.

"Several small studies have been made and good preventives and remedies for the poison have been developed and put on the market," said the graduate student, "but even professional botanists know little about the plant itself. Many of them cannot identify all the variations.

Poison ivy grows naturally only in the United States, bordering parts of Canada and Mexico and Bermuda, but some of its cousins are known and liked throughout the world. Included in the family are the cashew, mango and pistachio.

The number of different types of poison ivy itself, however, is Gillis' prime concern now.

He believes, for instance, that there is no such species as poison oak.

"At least," he said, "I have not been able to find anything that I would call a separate species. However this bears further investigation.

"So-called 'poison oak' is supposed to be found in many pine forests in the southeastern United States. But I think this plant may be nothing more than poison ivy that has adapted itself to a particular environment.

2 Russians Invited to Return As 9 Experts Visit Campus

Lafayette Uncovers Gambling

Purdue Students Make Accusations

LAFAYETTE, Ind. (AP)—Police Chief John Weinhardt, a member of the force 24 years and chief of the last 3 1/2, resigned as chief Tuesday after asserting he had repeatedly been denied permission to stop "open gambling in Lafayette."

A Grand Jury investigation has been started following accusations of open gambling by editors of the Purdue University student newspaper.

Mayor Kenneth Snyder said he would voluntarily testify today before a Tippecanoe County Grand Jury investigating alleged widespread gambling.

Two Purdue student editors appeared before the Grand Jury Monday. They are Jerry Hill and Allen Cross, who wrote stories about gambling for the Exponent, the student newspaper.

Before entering the jury room, Hill and Cross said they would tell the jury of seeing fellow students losing money at various forms of gambling in public places in the city. Purdue is in West Lafayette, just across the Wabash River from Lafayette.

THREE OF THE NINE Russian educators currently touring the MSU campus Tuesday viewed the new education building. A. A. Smirnov, left, child psychology specialist, Dr. A. I. Markushevich, first assistant minister of education and leader of the group, and a third colleague listen to an explanation of the building's purposes.

Battle of the Oil Can MSU Debaters Top Wayne

By LINDA LOTRIDGE

To the victor, went the oils Tuesday night when the MSU Forensics Union retrieved the oil can trophy from its rival, Wayne State University in the second annual dual debate.

Three debates were held, two in the afternoon and one in the evening. The national topic used for debate was, "Resolved: That the U. S. ban the further development and testing of nuclear weapons."

MSU won ten decisions and Wayne State, eight. The judges from MSU and members of the speech department were Gladys Strahl, Jack Carter, David Mail, Ted Smith, Cal Downs and Murray Hewitt.

Members of the Union who participated were Gary Near, Grosse Pointe Woods sophomore, Rudy Steur, Bluffton, Indiana sophomore, Duane Chapman, Muskegon Heights freshman, Charles Herbert, Lansing sophomore, Bill Anderson, Lansing junior and Bill Tillotson, Elsie junior.

Ralph Wilbur, Lansing junior; Joan Deppa, Grand Lodge sophomore; Pete McPherson, Lowell freshman; Al Biefeld, St. Clair Shores junior; Elva Whipple, Lansing sophomore; and Mary Barrone, Grand Rapids freshman.

Dave Rheubottom, Lansing freshman; Barry Boughton, Lansing sophomore; Steve Groner, Lansing sophomore; Carl Griffith, Westbury, N.Y. sophomore; Don Hailing, Flint junior; and Tom Case, Hazel Crest, Ill. senior.

MSU Channel's Injunction Lifted By County Court

Channel 10 is now officially cleared of the injunction registered against MSU and Television Corp. of America, according to James Denison.

Last week, almost two weeks after the trial, Judge Simpson of the Jackson county circuit officially recorded the lifting of the injunction and the dismissal of the bill of complaint filed by the Jackson Television and Broadcasting Corp.

This unsuccessful applicant to Federal Communications (FCC) Commission had hoped to halt MSU progress in constructing Channel 10 television station and transmitter.

Now that the injunction is officially lifted, MSU and its partner, Television Corp. of America, have only the completion date of March 3 set by FCC to accomplish.

Library Hours

The Library has announced the following schedule of open hours during the holiday weekend:

Thanksgiving, closed
Friday, 8 a.m. - 6 p.m.
Saturday, 9 a.m. - 5 p.m.
Sunday, regular 2 - 11 p.m.

Deadline Set

Deadline for Classified Ads to appear in the Dec. 1 edition (following Thanksgiving) is 1 p.m. today.

HERE'S WHAT HAPPENED to our Indian Summer. Cold air and snow from northern Minnesota put a sudden end to the exceptionally long warm weather with which the Lansing area has been blessed this fall. This, the first snow of the year, arrived Friday, a few hours earlier than had been predicted, heralding the definite, though tardy, arrival of Jack Frost.

Prof to Head Speech Dept.

Dr. John Dietrich, one of the nation's leading speech educators, will become head of the department of speech President John A. Hannah announced Tuesday.

Dietrich is currently a professor of speech and director of the theater at Ohio State University. His appointment is subject to confirmation by the State Board of Agriculture at its December meeting.

Dietrich holds the Ph.D. degree from the University of Wisconsin and has taught at Purdue, Wisconsin, and Ohio State.

He will be president of the Speech Association of America during 1959.

Dietrich is author of two recent books, "Play Direction" and "Practical Speech for the Technical Man." He is 45 years old, married and has two children.

MSU Channel's Injunction Lifted By County Court

Channel 10 is now officially cleared of the injunction registered against MSU and Television Corp. of America, according to James Denison.

Last week, almost two weeks after the trial, Judge Simpson of the Jackson county circuit officially recorded the lifting of the injunction and the dismissal of the bill of complaint filed by the Jackson Television and Broadcasting Corp.

This unsuccessful applicant to Federal Communications (FCC) Commission had hoped to halt MSU progress in constructing Channel 10 television station and transmitter.

Now that the injunction is officially lifted, MSU and its partner, Television Corp. of America, have only the completion date of March 3 set by FCC to accomplish.

As 9 Experts Visit Campus Point Out U. S. Deficiency In Math, Foreign Literature

By DALE FRANZ and SANDRA DOLLAHAN

Nine Russian educators, who looked like glum American professors in double-breasted suits, toured campus Tuesday in the first hours of their four-day visit, asking and answering a barrage of questions about schooling techniques in U.S. and USSR school systems.

MSU plans to invite A. I. Markushevich, assistant Soviet minister of education, and A. A. Smirnov, specialist in child psychology, to return for a term or two as visiting lecturers or exchange professors.

Dr. Markushevich told College of Education faculty in an Education Building coffee break that, in his opinion, the three greatest differences between systems are:

- 1) U. S. high schools pay less attention to exact sciences and mathematics than Russian secondary schools.
- 2) On the average, U. S. high school students have less interest in the literature and arts of other countries.
- 3) American schools separate students into ability groups which are non-existent in Soviet schools. Each Soviet student receives the same opportunities with the exception of the gifted student who is given extra attention outside of class.

On a five week tour of American school systems, the Russians are gathering data for a proposed revamping of their educational setup.

'La Boheme' Marks Close Of NY Opera

By RICHARD MUNN

A sprightly and touching production of Puccini's tragic "La Boheme" presented to a full Aud Tuesday night marked the close of the New York City Opera two-night engagement.

After the curtain fell on the pathetic last act death scene the audience gave each performer a full round of well-deserved applause.

From the first, the production seemed to warrant praise for its fine timing and direction although the individual performances at times seemed to fall short.

Portraying the sympathetic Mimi who dies of consumption in the arms of her lover was Adele Addison, while David Pelleri played Rodolfo, the lover.

Sparking the second act with "Diamond Lil" earthiness was Jacquelynne Moody, partnered with Chester Ludgin as a convincingly frustrated Marcello.

The most impressive performance was turned in by the orchestra, conducted by Julius Rudel, which added the necessary sparkle and life to the opera.

UB Yule Program Set for Sunday

The annual Union Board Christmas program will be Sunday from 7-8:15 p.m. in the Union Lounge.

Included in the program will be the Spartan Bell Ringers led by Wendell Westcott, Beaumont carillonist, and the Men's Glee Club, directed by Edward Richmond.

Group carol singing will be accompanied on the organ by Bill Gillis, botany grad assistant.

Ray Miller, Okemos junior, will read the nativity, and Doris Jacobs, Des Plaines, Ill., senior, is mistress of ceremonies.

Dr. Hannah to Hold Reception for Grads

Dr. and Mrs. Hannah will hold a reception for all fall term graduates December 3, from 7:30 to 9:00 p.m., at Cowles house.

All students, whether graduating seniors or those getting advanced degrees, are invited to attend with their husbands or wives.

Soapy Nixes New Tax Plan

By THE ASSOCIATED PRESS

Gov. Williams Tuesday outlined what he would not accept as the line of new taxes from the 1959 Legislature.

Williams restated his position of opposition to added consumer taxes on persons with low or moderate incomes. He put in a veto plug for his favorite tax issue—a corporation profits tax.

The Governor said he understood that the report of the Constitutional study committee will be coming next week. The report is expected to form the basis for any Republican tax proposals.

"Obviously," said Williams, "there must be some new taxes if the state will not be able to sustain such things as our colleges and universities, the mental hospital system, the state police and state aid to local schools."

Sparta Claus Shapes Plans

Plans for the Sparta Claus Christmas party began to take on definite shape Tuesday at a meeting in Student Services, where committees were organized.

Some of the information in today's State News article is not accurate. The Veterans Assn. is not sponsoring the party, but is planning the event cooperatively with IPC, PanHel, Glee Club, Excalibur, Blue Key, AUSA, Green Helmet, NACP, AOKS, Circle K, Campaign Chest and other organizations.

Plans to have the Men's Club sing at the party are tentative.

Volunteers are needed who will be here on Christmas to distribute Christmas baskets to families selected by the Christmas Clearing Committee.

There is also a need for persons who would like to escort children to and from the party, which will be held from 7 to 9 p.m. Dec. 7. Everyone will be welcome at the event.

Anyone wishing to contribute money or time should contact the public relations branch of the Government.

The next meeting is scheduled for 8 p.m. Tuesday.

Grad Student Raises Poison Ivy—On Purpose!

Most people kill poison ivy whenever they can but William Gillis is trying to grow the three-leafed leper of the plant world.

Although men have been writing about poison ivy since one of Captain John Smith's men suffered its effects in Virginia more than 300 years ago, Gillis making what appears to be the first thorough study of the plant in its environment.

"Several small studies have been made and good preventives and remedies for the poison have been developed and put on the market," said the graduate student, "but even professional botanists know little about the plant itself. Many of them cannot identify all the variations.

Poison ivy grows naturally only in the United States, bordering parts of Canada and Mexico and Bermuda, but some of its cousins are known and liked throughout the world. Included in the family are the cashew, mango and pistachio.

The number of different types of poison ivy itself, however, is Gillis' prime concern now.

He believes, for instance, that there is no such species as poison oak.

"At least," he said, "I have not been able to find anything that I would call a separate species. However this bears further investigation.

"So-called 'poison oak' is supposed to be found in many pine forests in the southeastern United States. But I think this plant may be nothing more than poison ivy that has adapted itself to a particular environment.

Editorial

Sewage Solution Near for Red Cedar

THE SWEET SMELL of success is just around the corner for MSU residents complaining about the Red Cedar River's Big Stink. Dr. Karl McDonel, secretary of the State Board of Agriculture, promised last week.

Last spring the State News waged a vigorous campaign (aptly termed "Operation Big Stink") and yet the complaints about the Red Cedar odor have continued with verity. Now, at last, a temporary solution is underway. By next term Brody men and married students will fondly find a cleaner, fresher scent from the riverside.

When Operation Big Stink was being waged, two alternatives were proposed to solve the odor problem permanently: (1) building a new power plant on the Red Cedar; (2) joining with Lansing in a sewage disposal system. As neither of these permanent solutions are feasible at this point, an alternate solution of a more temporary nature will be employed. A new filter system and chlorination process will be in operation by next term.

According to Dave Barrell, who conducted the research of the "Barrell Report" in last term's operation to correct the odor problem, the chlorination process will treat the sewage before entering the plant and then again before entering the Red Cedar.

AFTER THE SEWAGE enters the plant a vacuum coil filter system will replace the old drying beds process and, consequently, cut the process time tremendously. One coil filter can complete the same amount of work in one day that it now takes one drying bed two weeks. Sludge will be hauled away. In brief, this new process should eliminate the Big Stink.

Now, as to the two permanent solutions to the problem, university officials state that there are no funds to build a new power plant on the Red Cedar. The other solution—that of joining with Lansing in a unified disposal system—is being negotiated.

East Lansing and MSU jointly operate the present disposal system with East Lansing handling the technical operations and MSU contributing its proportional 70 percent of the costs. Thus, East Lansing and MSU are currently working together to secure a coordinated system with Lansing.

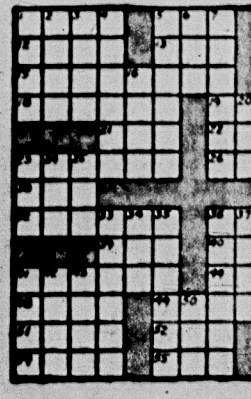

Lansing was previously demanding excessive payments from East Lansing and MSU for the past fifty years of Lansing's disposal operations. A joint sewage disposal system should effectively solve the problems of the Red Cedar and result in a more efficient system. Negotiations are still going on between Lansing and the cooperated interests of MSU and East Lansing.

STUDENT CONCERN ran high last term when this problem was first brought into the open, and there were many proposals as to a solution. One of the proposals was that a simple chemical process might be used, but John Bellet, chief operator of the Red Cedar disposal system, countered that this would merely cover the odor with another and would not actually solve the problem.

Thus, it seems that student concern can and does accomplish results—even if it takes almost 10 months.

We Still Have Defense Problems

Overlooked Book Stealing

Librarian Says Edit Failed

To the Editor: I naturally must differ with your editorial of Wednesday, Nov. 5, 1958. You report the assigned reading system in our Library "inadequate," claiming that the "conscientious student" is constantly frustrated in his efforts to find a book being used by some 30 or 40 people in the same class.

When the new Library building was opened we continued the policy of closed assigned reading shelves that had been in effect in the old library annex, except that in the interest of reduced congestion two different assigned reading desks on separate floors were maintained.

Enrollment Increase The use of assigned reading by faculty members grew rapidly and developed out of all proportion to our increase in enrollment and our faculty growth, and this in spite of the maintenance of six large open shelf divisional libraries.

In order to spare the student the time taken in bottle-neck line-ups, the Library committee unanimously endorsed the establishment of a system of open-shelf reserves beginning a year from last September.

It was also arranged that the books might be returned to a

hor and at Wayne Bur is your editorial which twisted the issue to begin with. When our new Library was planned it was originally intended to have a close check at the exit from each of the divisional reading rooms similar to the arrangements in the new library at Washington State College at Pullman. It was felt that a choice would be made between room check and a single lobby check later than September, 1956. The choice now appears obvious and over due.

When one bears in mind that the count of missing books in your editorial is merely a sampling point not made clear in your editorial, it seems to me that one should feel even more regret that the book theft under discussion is not more definitely condemned. Two more points and I am done. There is at least one conspicuous inaccuracy in your editorial. The standard overnight reading was apparently quite unknown to the writer of your editorial. Lastly, replacement orders for all books "lost" last spring and required this fall were initiated before the beginning of this fall term.

EDITOR'S NOTE

The following original poem was submitted to the State News by Dr. Shao Chang Lee, head of the foreign studies department, "with best wishes for a joyful Thanksgiving Day" for all.

THANKSGIVING I. Joyfully, we give thanks to Thee, God of glory, Lord of love. Thy creations unceasingly, Praise Thee, Father, throned above. "Thou art giving and forgiving, Ever blessing, ever blest." We would thank Thee in our living, In our work and play and rest.

II. For good people we come to know And all lovely things we see; For Bread of Life by which we grow, And the Truth that makes us free; For the power to fight temptation, And courage to correct wrong; For forgiveness and salvation, We thank Thee, Lord, with this song. — Shao Chang Lee

Student Typing Service Added to Union Facilities

By SHARON COADY

The Union Building has just made possible another service to MSU students—typing. The new typing room opposite the book store on the main floor has six typewriters available to everyone.

The machines are Olivetti model Lexikon Electric. The price is 25 cents per half hour. The electric are situated on metal stands which can be adjusted to different heights.

The pic-type machines all feature extra-long carriages to accommodate legal documents and business papers.

Several keys are present on the typewriters which are not found on portable and normal standard models. These include: the number 1, exclamation mark, brackets, automatic decimal tabulating keys and several repeat keys.

The idea for this new service originated from two different sources.

After many of the offices, previously housed in the Union, moved to Student Services, there were several empty rooms.

While the management was treating this problem, Union Board was discussing the need for rental typewriters. The collaboration between the two ideas resulted in the typing room.

The machines are furnished on a concession basis by an office supply company in Lansing. With this program newest models will always be available.

Olin Offers Class For Expectants

Expectant parent classes begin Dec. 2 at Olin Health Center. The series, sponsored by the Health Committee on the Community Services Council, will continue each Tuesday evening from 7:30-9 p.m.

Topics for the classes are hygiene of pregnancy, development of the baby, family food habits, labor and delivery, panel discussion by doctors, hospital tour, family adjustments and infant care. A \$2 registration fee per couple or per person will be charged for the classes. For further information, those interested may call IV 2-1281.

Tickets for Concert Ready at Union Now

Tickets for Elizabeth Schwartzkopf, the noted European soprano, who will appear on the Lecture-Concert series Dec. 4, will be distributed this morning at 9 in the Union ticket office.

Students must exchange coupon "E" of their activity books.

'Who Wears the Pants?'

Three faculty members will tackle questions of female domination in American society on Viewpoint over WKAR-4400. Myrtle Reul, assistant professor Sunday at 2 p.m. when Maj. John Barron has as his guests Dr. Robin Drews, assistant professor of social science and Mrs. J. Dorsey Callaghan, assistant professor of social work.

Final Examination Schedule for Fall, 1958

The final day of classes for Fall, 1958, is Friday, December 5. All final examinations will be given in accordance with the following schedule:

The type of examinations in these College courses is given below. Examination rooms will be announced by the instructor during the last week of class.

The time of examinations in sections other than Basic courses is determined by the days and times the class is scheduled during the term. Examinations will be given in the same classrooms used for class meetings during the term.

If at least two of the days and hours follow the regular pattern, all students, instructors, and room schedules will automatically clear. In a few courses, at the request of the department concerned, the final examination has been scheduled by the single hour lecture section, and in some instances, students may encounter conflicts. In that event, the examination scheduled by the class meeting two hours each week will take precedence over the examination scheduled by the single hour lecture. The examination will be arranged between the student and the department requesting the special scheduling of its examination.

All instructors having examinations from 8:00 a.m. and from 1:30-2:30 p.m. are requested to terminate their examinations promptly so that room and buildings may be cleared for the examination periods which follow.

DETROIT (AP)—Now that the Detroit Lions are mathematically eliminated from the National Football League race, they would like to settle down and play some serious football without thinking of the pressure.

"We'd like to do just that," said coach George Wilson Tuesday, "but it's not possible. We're hurting so bad we won't even have 11 healthy starters."

The Lions, out of the race with a 3-5-1 mark after winning the World Championship a year ago, meet the Green Bay Packers here Thursday in the traditional noon contest. The game will be nationally televised.

Wilson insists Detroit will have trouble fielding a backfield. "I'm not crying just to make myself heard," he said. "I've been around too long to do that."

Quarterback Tobin Rote hurt his shoulder in Sunday's 20-7 loss to the Chicago Bears and his replacement, Earl Morrall, has been hampered by injuries for several weeks.

Backs Gene Gedman, Howard Cassady and Ken Webb are slowed by leg injuries, and Jim Doran has a pulled leg muscle and end Dave Middleton has been ill.

After spending weeks of preparation getting into peak physical condition and finding the right combinations, Coach Amo Bessone's squad is in its final few days of pre-season drills.

The Spartans will inaugurate the season with an exhibition against the professional Detroit Red Wings next Tuesday night at the ice rink in Demonstration Hall at the home of the Spartans.

After North Dakota invades for a two-game series Dec. 5-6, the Spartans will take a tour of the east during the Christmas recess. They'll enter two tournaments along the way, first the Boston Invitational Tournament and then the Rensselaer Polytechnic Institute tourney at Troy, New York.

At the Boston tournament, they'll meet such eastern powerhouses as Boston College, Boston University, Providence, Northeastern and Brown in a single elimination series.

In the Rensselaer tourney, the Spartans will face RPI, Princeton and Brown in a round robin affair.

In the pre-season preparations, Bessone has been working to create three solid forward lines.

"We have seven players who now rate heavily in our plans," Bessone said, "but the final two positions in the first three lines are still up for grabs."

Fred DuVuono, Dickie Hamilton and Bill MacKenzie will form on the three lines. The trio has been playing together since 1955, when the three were freshmen. DuVuono and Hamilton teamed up on Michigan State's first line a year ago while MacKenzie played with the third unit.

Joe Polono, Terry Moroney and Tom Boucher will form another of the three lines. Polono, senior this season, is the most experienced member of that trio, but as a sophomore last season, Moroney was the Spartans' second leading scorer.

Andre LaCoste will team up with Jack Roberts and Glen McDonald on the third line.

But there are still others who are fighting for starting positions. They include Mel Christofferson, Lewis McCance, Herb Brosky, Jim Atack and A. Checco.

The Spartans are also blessed with an abundance of defensemen this season.

Butch Miller, out of action last season, is slated to team up with Eddie Pollesel on one unit. Miller was a sensation as a sophomore, but injuries forced him to sit out last year's play.

Bob Norman and Bruce Pollesel, brother of Eddie, should team up to form another defensive platoon. Both saw much action during the 1957-58 campaign.

A third defensive unit may consist of Bob Armstrong and Ed Ozybko, and a fourth unit a Bob Kempf and Jack Foster.

The Spartans' last defense—the goalie—will be one of the strongest positions with the return of Joe Selinger. Last season Selinger was rated as one of the finest goalies in the non-defunct W.H.L. hockey league. Under Selinger is reserve goalie Ernie VanSlybroek.

With the return of 12 lettermen, chances for a successful season are good. Only four, including defenseman Bob Jahn, forwards Ross Parke and Keith Christofferson and substitute Aldo Altobelli are not back this season.

Coach Bessone won't predict the outcome of the coming season, but says "if we get our share of breaks, we'll give every opponent a rough battle."

Five Booters Visit St. Louis

Michigan State's soccer coach, Gene Kenney, will take five of his graduating seniors to an All-Star soccer game Thanksgiving Day in St. Louis.

Kenney will be one of the All-Star team's coaches in a game against St. Louis University.

The five Spartans who will go to the game are seniors Art Southan and Leo Vander Horst, co-captain, Al Sarria, Neil Butler and John Asmah.

FORDDY KENNEDY of Michigan State dashes across the finish line to take first place in Monday's NCAA cross country meet held at the Forrest Akers four-mile course. Kennedy's time was 20:07.1, and the Spartans also won the team championship with 79 points.

An announcement of special interest to fall graduates in Engineering and Science

B.S. • M.S. • Ph.D.

Lockheed Missile Systems Division has created a number of special, new openings with unusual opportunities for fall graduates in electrical engineering, mechanical engineering, aeronautical engineering, mathematics or physics.

The Division is engaged in a broad program of basic research in all areas of scientific activity in missile and space technology, including advanced systems research; nucleonics; physics; chemistry; mathematics; design; test; electronics; flight sciences; and manufacturing. Some of the important studies under investigation are: man in space; space communications; ionic and plasma propulsion; space physics; nuclear propulsion; magneto-thermodynamics; oceanography; computing machine memories; human engineering; noise suppression; materials and processes; boundary layer control; electro magnetic wave propagation and radiation; and operations research and analysis.

Lockheed is systems manager for such major long-term projects as the Navy Polaris IRBM, Air Force Q-5 and X-7; Army Kingfisher and other important research and development programs.

The Division was honored at the first National Missile Industry Conference as "the organization that contributed most in the past year to the development of the art of missiles and astronautics."

LOCATION
Headquarters for the Division are at Sunnyvale on the San Francisco Peninsula and new modern Research and Development facilities are located in the Stanford Industrial Park in nearby Palo Alto. A four thousand acre company-owned static test base is located in the San Leonard mountains thirty miles from Sunnyvale. Other Division locations are at Van Nuys and Santa Maria, California; Cape Canaveral, Florida and Alamogordo, New Mexico. Together, they occupy more than two million square feet of laboratory, engineering, manufacturing and office space and provide the latest in scientific and technical equipment.

ASSIGNMENTS
Upon joining the Division, you are assigned to your special areas of interest and work directly under distinguished leaders in your field. The company encourages and sponsors individual communication with other scientists, the publication of papers and articles, and participation in symposiums and conventions. Every opportunity is given members of the technical staff to participate in the initiation of advanced technological developments.

GRADUATE STUDY PROGRAM
Of special interest to those who wish to continue their advanced education, is the Division's Graduate Study Program. Under it, selected students with qualified academic records may obtain advanced degrees at the University of California at Berkeley or Stanford University, while employed in their chosen fields at Lockheed. All costs of tuition, admission, thesis and textbooks are borne by the company.

IMPORTANT
The number of these special openings is limited. If you are interested, please wire collect directly to Mr. R. C. Beverstock, College Relations Administrator, 962 W. El Camino Real, Sunnyvale, California, giving your major, and degree level.

Anderson Believes Spartans Overrated

THE INITIAL JUMP ball in Friday night's Green-White game opened MSU's basketball season. A total of 22 games will be played in the first home opener is against the University of Detroit Dec. 6.

Depth and Height Are Problems

By LARRY WROBLEWSKI
Asst. Editor, Page Editor

Michigan State's basketball team exhibited Friday night that this season will be filled with thrills and excitement.

Although Coach Frank Anderson believes the Spartans are overrated, some suggestions were made to improve the team.

Handicaps facing this year's team are lack of depth and height and bench replacements. Anderson, a great basketball teacher and perfectionist, will make adequate moves to alleviate these two main problems.

Lose Nine Lettermen

Swimming Team Lacks Depth and Experience

With what he calls a "working team" which has been in the water since the beginning of the season, Varsity tankers are hard at work this week seasoning which they can gain only from experience.

The loss of nine lettermen has been a definite cut in the depth of the team which was previously a 12-man squad. Among those who have departed are Lee, Smith, and others who were valuable members of the team.

In addition, Don Nichols will be leaving this year, leaving Coach McCaffree with an experienced backstroke, others who will be missed are Jim Laker, Tom Kwassny, Dean Taylor and Jerry Garbus.

East Yakely Set To Defend Title

East Yakely, Michigan's leading swimmer, will defend his title at the 1958-59 intramural swimming meet.

Yakely, a member of the varsity team, has won several titles in the past and is expected to continue his success.

MEMBERS OF DELTA TAU DELTA fraternity's winning bowling team are (back row) Dennings and Porter and (standing) Rutchow, Dimmers and Cregar. The Deltas beat Delta Sigma Pi in the finals last week, 2470 pins to 2318.

Sets Total Pin Record

Delta Tau Delta Captures Fraternity Bowling Title

Not only did Delta Tau Delta defeat defending champion Delta Sigma Pi for the fraternity bowling championship last week, but the Deltas also set a new intramural total pins record during the season, with a high team total of 2470 pins.

The Deltas also led the fraternity league with a three-game total of 924 pins. They won over Delta Sigma Pi in the final 2470 pins to 2318.

Dick Bass Seeks Statistical Triple

Dick Bass, a budding back from the College of the Pacific, seeks to become the first statistical triple in MSU's history.

Bass, who is currently a member of the varsity football team, has been named to the varsity basketball team.

Field Hockey Team Downs Bowling Green

The State field hockey team defeated Bowling Green Saturday, 3-1, at Bowling Green.

Seniors playing their last game for the varsity team were Peter Ding, Glenn Ott, Martin Prosser, and Jay Stewart.

Boone, Carere, Sands, North, Crosby, Clark

Boone, Carere, Sands, North, Crosby, and Clark are among the lettermen who have departed from the swimming team.

Williams Candidate For Honors

All is not lost this football season. Despite the final record of but three wins against five losses and one tie, Michigan State should gain some recognition.

Sam Williams, State's All-American candidate, should have his dreams come true if he is named Tuesday.

Ernie Banks MVP In National League

BOSTON (AP)—Ernie Banks, the Chicago Cubs' home-run hitting shortstop, Tuesday was named the National League's Most Valuable Player of 1958 by an overwhelming margin.

The 27-year-old slugger who set a Major League record for shortstops by cracking 47 home runs in his 1958 full season with the Cubs, polled 16 of the 24 first place votes cast by members of the Baseball Writers' Association of America in the eight National League cities.

Intramural Highlights

ENTRIES for the All-University intramural are due today at 5 p.m. at the Intramural Office. Entries for the open division have been slim, and if more aren't turned in today, this event will be cancelled.

MASSIE, the San Francisco Giants' best centerfielder, was named in this year's voting between the end of the regular season and the start of the world series. He drew 183 points and was the only other player listed on every ballot.

On Campus with Max Shulman

(By the Author of "Rally Round the Flag, Boys!" and "Barfley Jay with Check")

THE GIFT HORSE.

I know how busy you are studying, going to class, watching night crawlers—but let the interupt your multifarious activities studying, going to class, helping old grads find their apartments, etc. Remembering to remind you that busy as you are, you are going to class, searching for meat in the dormitory, etc.—and take out for you, and the Yuletide will soon be upon us. Or, or not, we must turn our thoughts to Christmas shopping. Let us, therefore, pause for a moment in your busy schedule—studying, going to class, rolling drunks—

We will start with the hardest gift problem of all. What do you give the person who has everything? Well, first of all, we will give a list of a half-dozen gifts which I will fully guarantee the person who has everything does not have:

1. A doctor's visit.
2. A new tooth.
3. A street map of Berlin.
4. Fifty pounds of chicken fat.
5. A carton of filter tip Marlboros.
6. A catchall non-filter Philip Morris.

"Philip," you exclaim, your aging eyebrows rising in wild incredulity. "The person who has everything does not have Marlboros and non-filter Philip Morris?" you shake your young lips, exclaiming, "What absurd nonsense!" you snap, making a course gesture.

And I reply with an emphatic nod. The person who has everything does not have filter Marlboros and non-filter Philip Morris—not for long anyhow—because if he has Marlboros and Philip Morris and if he is a person who likes a mild, mellow, fresh, flavorful cigarette, and who does not eat? who does not—why, then he doesn't have Marlboros and Philip Morris; he makes them. He might possibly have a large collection of Marlboros and Philip Morris, but what Marlboros and Philip Morris?

Now we take up another thorny gift problem. What do we buy your girl if you are broke? (But a challenge, you will agree, but there is an answer, an ingenious, exciting answer! Surprise your girl with a beautiful bronze band of her hair!

Oh, I know you're not a sculptor, but that doesn't matter. All you have to do is encase yourself in your girl's roommate, so she will be willing to do you a favor. Then some night when your girl is fast asleep, have the roommate butter your girl's face—quietly, so as not to wake her—and then quietly pour plaster of Paris on top of the butter and then quietly wait till it hardens and quietly lift it off—the butter will keep it from sticking—and then bring you the mold, and you will pour bronze in it and make a beautiful bust to surprise your girl with!

Remember, it is important—very important—in ending yourself to the roommate, because if anything should go wrong, you don't want to be without a girl for the holiday season.

Your gift problem is no problem if you will give Marlboros to your after smoking friends and Philip Morris to your non-after smoking friends. Both come in soft pack or flip-top box; both are made by the sponsor of this column.

Business Upswing Continues To Stabilize U. S. Economy

WASHINGTON (AP) — The Commerce Department said Tuesday the business recovery is being sustained. "Production, employment and income continue strong," it reported.

The department said rising demand is being reflected in an expansion of new orders booked by businessmen. It also noted the economic upturn in recent months has been accompanied by relative price stability.

To illustrate the recovery pattern, the department's monthly survey of current business cited production rates for 16 different products.

Plants producing all but three of these are operating at a higher percentage of capacity than last spring. And the report noted that capacities have been raised in the meantime.

Copper refining, wood pulp production and cotton spindle activity have returned to the production levels of September 1947, the report said.

The only production drop shown was for sulphuric acid, down to 78 percent of capacity.

Scholarships Go To 14 Students

Two students in education were awarded scholarships by the Elizabeth Stewart Scholarship Fund, a PTA project to promote the teaching profession.

Vivian Chillis, Detroit senior, and Dolores Van Lente, St. Joseph senior, were among 14 future teachers given the scholarships valued at \$250 each.

Applicants for scholarships must meet the same qualifications as those required for State Certification. In addition, they must give evidence of outstanding leadership and responsibility.

The Scholarship Fund is supported by state appropriations and by contributions.

Off-Campus Students Schedule Term Party

The Assn. of Off-Campus Students is holding its annual term party Dec. 5 at the East Lansing Masonic Temple from 9-1. Tickets may be purchased at 318 Student Services for \$1.50 per couple.

from 76 percent in April. Production of aluminum and men's suits remained at April levels.

The department said consumer demand has drawn strong support from a continued large flow of personal income, which in October was at a seasonally adjusted annual rate of \$37.1 billion dollars.

That was down 300 million dollars from the record September rate, reflecting work stoppages in several durable goods industries.

Most merchants except auto dealers reported their sales exceeded year-ago levels in September and October.

The report said total output in the early part of the fourth

quarter has shown some advance from the third quarter level. The department announced last week that output—goods and services produced—increased to an annual rate of \$43.9 billion in the third quarter.

Record August and September figures for the total value of new construction put in place were nearly equalled by the October record, the survey said.

"A marked feature of the recession was the strength in prices during a period of declining economic activity," the report said. It added that consumer prices since mid-year "have shown little change as food prices leveled off and subsequently declined."
