## Rightists Triumphant in France

### West Seeking Berlin Parley

#### Meet Hoped to Counter Earlier Soviet Demands

BERLIN (AP)—The Western powers were reported Sunday to be moving toward a counter proposal on the Berlin question. The proposal: A call for a summit conference on Germany's future.

Informants predicted the Western allies would attempt to throw all German issues into one giant conference encompassing not only the fate of Berlin but German reunification and a German peace treaty as well.

The idea came into the spotlight as the East German Reds warned that any future airlift to supply isolated West Berlin would be regarded as a military threat.

West German Chancellor Konrad Adenauer scheduled a flight to West Berlin next Thursday to discuss the situation with Mayor Willy Brandt. Adenauer is expected to outline his government's view on the Moscow proposals at a big rally.

Diplomats in Western capitals discussed an East-West parley either at the foreign ministers or summit level — as a counter to Thursday's Soviet demand that West Berlin be made a neutral free city. Responsible informants said the West Germans pushed the parley idea after it became clear the West is going to reject the Soviet proposal.

Interest in a conference quickened after Soviet Premier Nikita Khrushchev said Saturday night at a Moscow reception he wanted a peaceful Berlin solution and would "like to discuss things around a round table." Some Western officials think Khrushchev might be ready at such a conference to discuss all-German units as well as Berlin.

An East-West meeting was seen in West Berlin as the best chance of averting a clash with the Communists.

Then the Russians intend to transfer their controls over supply lines to West Berlin into the hands of the East Germans — a regime which the West refuses to recognize.

The East German Reds made it clear over the weekend that the West is in for trouble if it refuses to accept East German controls. Party boss Walter Ulbricht said in an interview with the New York Times that the Allies would be confronted by "unpleasant difficulties," adding:

"I cannot imagine that the Western powers would think of using traffic arteries of the German Democratic Republic (DDR) without the permission of the DDR."

FOUR BRILLIANTLY costumed members of the cast of Carl Maria von Weber's one-act opera, "Abu Hassan," rehearsal for tonight's performance in the Music Auditorium. Working on their roles are (l-r) Cornelius Shih as Mesur, Bethany Baldwin as Zennur, Bruce Loganbill as the Caliph and Lynne Winters as Zohaida. The work is presented by the Opera Workshop under the direction of Dr. Hans Lampl.

### Red Power Destroyed In Elections

#### Communist Seats Cut by 90 Percent

PARIS (AP)—Jacques Soustelle's right-wing Gaullist party emerged triumphantly today as France's biggest postwar political group.

The Communists took a shattering in Sunday's windup election of a new National Assembly.

Communist strength was reduced to ashes in the Assembly although the Reds retained roughly 20 per cent of the popular vote. More moderate opponents of Premier De Gaulle were all but wiped out.

Sent to defeat in the Gaullist sweep was Jacques Duclos, brilliant floor leader of the robust communist Party bloc that numbered 149 in the last Assembly. The vote tabulations trimmed the Communist seats to less than 10 per cent of their former holdings.

Soustelle's grouping is the Union for the New Republic (UNR), a hotbed collection that tied itself to a reluctant De Gaulle. The premier had tried to keep out of the elections personally.

Interior Minister Emile Pelletier gave the following results for 464 of the 465 parliamentary seats in metropolitan France:

- Union for a New Republic 187.
- Independents-Peasants 120.
- Catholic Popular Republican movement 44.
- Socialists 40.
- Radical Socialists 13.
- Christian Democrats 13.
- Communists 10.
- Diverse leftist parties 10.
- Diverse rightist parties 27.

The new National Assembly will have 546 members. Ten are being elected from overseas departments and 71 from Algeria and the departments of the Sahara.

A collection of familiar faces on the French political scene disappeared in the elections.

All told, 338 former deputies were defeated and 142 were re-elected. The average age in the new Assembly will be 49 compared with 52 in the outgoing house.

The biggest previous postwar party strength in a French parliament was 174 seats held by the Communists in 1946. The Communists had the biggest bloc in the last parliament.

Soustelle's new union contains some old political faces and a collection of newcomers, united on one basic point — continuation of French rule in Algeria under De Gaulle.

The UNR's position on France's grave economic problems and international policy has not been clearly defined. Some of the sentiment in the UNR is clearly less liberal than De Gaulle's thinking on the Algerian question.

Soustelle himself was the political brains behind the rightist revolt of European settlers and army officers in Algeria May 13. He, with his followers in Algeria, insists on closer ties between Algeria and metropolitan France.

In pointedly remaining aloof from the campaign, De Gaulle appeared to be troubled over the sharp swing to the right and the virtual obliteration of a moderating counterweight in the Fifth Republic's first National Assembly.

### In Salary Campaign Teachers Consult Governor's Aide

By BILL CALLAHAN  
State News Night Editor

As another step in its campaign to increase faculty salaries, officers of the MSU Federation of Teachers, Local 210 of the American Federation of Teachers, AFL-CIO, met Wednesday with William Monat, Gov. Williams' educational consultant, to ask assistance in publicizing their drive.

William D'Antonio, instructor of social science and chairman of the Local's membership committee, asked Monat for aid in convincing the people of Michigan to raise the teaching profession to a position which will attract the best minds in the country.

"This is the way to meet the teacher shortage and to improve the quality of higher education," D'Antonio said.

D'Antonio referred to a recent statement by President A. Whit Griswold of Yale University to the effect that, in the long run, investment in education is a greater guarantee of freedom than investment in the materials of war.

President Griswold said that "we can't afford to pay for a top quality educational system — but an excellent and poor one at that."

Griswold said that this can be seen by studying national expenditures. In 1955-56 expenditures for education were less than for any of the following: cosmetics, alcohol and tobacco, automobiles, or recreation, according to Griswold.

Leo Macrorie, secretary of the local, asked Monat what action could expect from the governor beyond general statements in favor of increasing expenditures for higher education.

Monat replied that the governor had indicated in a public statement Nov. 25 that he was sympathetic at the problem realistically and considering the desirability of adopting new tax programs.

In a statement concerning forthcoming report of the state tax study committee, the governor said:

"This report will be the basis for any action on taxes which the 1959 legislature may take. Obviously, there must be some way for the state which is unable to maintain such things as colleges and universities."

The meeting between union members and Monat occurred because it was revealed that the committee is considering the possibility of a personal income tax.

Officers told the State that although they could do so on record as supporting

### 2 Airlines Shut Down By Strikes

By the Associated Press

Strikes by machinists and flight engineers continued to immobilize two major airlines over the week-end as the hour neared for court decision on whether pilots will be allowed to strike against a third line.

Eastern and Trans World Airlines have been shut down since last Monday by a strike of the International Assn. of Machinists. Eastern also has been struck by the Flight Engineers International Union.

Eastern Sunday proposed arbitration to the flight engineers, and suggested the union meet with airline officials in Miami this morning to discuss it.

Meanwhile a National Mediation Board official reported some progress in Kansas City talks between the machinists and Trans World.

The nation's biggest airline, American, will attempt in federal court in New York today to make permanent a temporary injunction against a strike by the Air Line Pilots Assn.

A week-long strike of some 30 stewardesses continued against Lake Central Airlines, which serves Ohio, Indiana, and parts of Pennsylvania, Illinois and Michigan.

The Eastern arbitration proposal was made by Board Chairman Eddie Reckenbacker.

### Opera Workshop to Present Two Performances Tonight

The Opera Workshop will present a new form of musical entertainment on campus tonight with the performance of two one-act operas in the Music Auditorium at 8:15.

The Workshop will open its presentation with "The Moor" by Argento and "Abu Hassan" by Carl Maria von Weber.

The performance will be conducted by Dr. Hans Lampl, director of the workshop. Gian Greenwell, chairman of voice, is in charge of staging. Greenwell has had wide experience as an opera singer and director.

Stage settings are by Douglas Johnson. Dr. John Walker, of the speech department, has aided the production in many ways, and music department coaches are John Ardoin, Rita Puszek and Gertrude Topfitt. The Faculty Chamber Orchestra will accompany the performance.

Both operas are comedies and are high in entertainment value. "The Moor," with a libretto written by John Strymouk, is based on a well-known play by Chekhov in which a young widow finds the quiet of her household disturbed by a rather unworldly gentleman demanding settlement of a debt incurred by her long-departed husband.

The music, which reflects the humor and wit of the play, was written in 1857, and the opera was presented at the Eastman School of Music the same year.

The composer, a young American, is presently in Europe on a Guggenheim Fellowship. The cast includes Barbara Brandt Halstead as the widow, Bruce Loganbill as the Moor and John Gorman as the servant.

"Abu Hassan," written in 1810, was first presented in the Court Theater in Munich. The story is drawn from an Arabian fairy tale, and like many plays of the period it was intended as a satire on court life and von Weber's misfortunes there.

The libretto was sent to von Weber by a poet friend when the composer, still a young man, had been banished from the province of Wuerttemberg on charges of embezzlement.

The satire on von Weber's own experiences as secretary to the Duke of Wuerttemberg was at first received with mixed feelings by the composer. The opera was written in 1810 and first performed at Munich in 1811.

Long forgotten, it was revived a number of years ago, and has since been presented many times with great success both in the United States and abroad. The opera will be sung in English.

The cast includes Yvonne Beckman as Fatima, James McMahon as Abu Hassan, Allan Kirkpatrick as Omar, Bruce Loganbill as the Caliph, Corinne Boora as Zohaida, Cornelius Shih as Mesur and Bethany Baldwin as Zennur.

Creditors are Robert Beidler, Carl Bonnhoff and Peter Synnstedt. The retinue of the Caliph includes Sandra Blanchard, Emily Derr, Karen Mitchell, Carol Wagoner and Douglas Panetta.

### Senior's Wife Fatally Shot

A deer hunting expedition ended in tragedy in Allenton, Mich., Saturday as the 24-year-old wife of a MSU senior died from a rifle shot, according to Alpena state police.

Claudette Allen, wife of David Allen of 923 G. Cherry Lane, was shot while her husband was blowing snow off her rifle. The two were on a Thanksgiving holiday trip.

Allen told investigators he and his wife were in the woods 19 miles northwest of Allenton when the mishap occurred.

He said he handed his wife the rifle and she returned it to him moments later.

While he was blowing snow off the barrel, Allen said, the gun discharged and the shot went through his wife's head, killing her instantly.

Allen is not being held although state police are still investigating the case.

### 'Pajama Game' Tryouts Slated

Tryouts for "Pajama Game" will start Tuesday. This delightful comedy will be presented by the MSU Players, the music department, and the dance area of HPR on Feb. 18-21.

All students who are regulars in extra-curricular activities may report for auditions at the Music Auditorium.

Singers, actors, dancers, comedians are all needed for the cast.

### Gifted Child Class Offered for Grads

A Foundations of Education graduate seminar on the gifted child will be taught winter term by Prof. Elizabeth Drexler.

The course will review literature in creativity, critical thinking and leadership. Students will do research in an area of primary interest.

Prerequisites for the course, FE 527, are advanced graduate standing and permission of the department.

### Group Discusses Freedom of Press at National Convention

Sigma Delta Chi, professional journalistic fraternity, is sponsoring Edward Willis Scripps and the Cleveland Press as a historic site in journalism for 1959.

The journalism fraternity named the Press as its annual choice of a site having significance in the field of journalism at the 49th convention of Sigma Delta Chi in San Diego, Calif., recently.

The program, established in 1941, has honored such historic sites as the scene of the Zenger trial, a pioneering radio station, and the first school of journalism at the University of Missouri.

Scripps was chosen for his outstanding contributions to the heritage of journalism. The fraternity called him, "An inspirational and enterprising leader who symbolized the ten-

### Sigma Delta Chi, Journalism Fraternity, Names Historic Site

ets of Sigma Delta Chi—talent, energy, and truth.

Scripps founded the present-day Scripps-Howard chain, the United Press, the United Features Syndicate, the Science Service, and other journalistic organizations. He advanced the cause of journalism by his daring, liberal, and progressive undertakings during a critical period in American journalism."

Sigma Delta Chi ruled from the public relations field. A vote of the convention upheld a report favoring exclusion of public relations men submitted by Bernard Kilgore, editor of the Wall Street Journal.

As a direct outcome of this vote a new public relations fraternity was formed. A group of public relations alumni of San Jose State College, and also members of Sigma Delta Chi, founded Pi Alpha Nu, a fraternity for professional and undergraduate public relations men.

Pi Alpha Nu will consider for affiliation all qualified groups of public relations students. Inquiries may be directed to the San Jose State College campus, or to Pearce Davies of the SISC faculty in San Jose, California.

The convention also accepted five new undergraduate chapters, Bradley University, New York University, Texas Tech, and University of North Carolina.

The fraternity accepted a committee report to allow the establishment of international chapters. Petitions will now be accepted from professional chapters in Canada and other parts of the world from foreign newsmen and U. S. correspondents abroad.

Undergraduate chapters from various colleges in the nation received awards at the convention for chapter efficiency and professional achievement. Iowa State College placed first in chapter efficiency. The Michigan State chapter of Sigma Delta Chi finished 15th in the professional achievement contest by virtue of having 85 percent of its former members still engaged in journalism. MSU listed 29 members out of 34 remaining in journalism.

The convention called for entries to its annual newspaper and photographic contests for students. Sigma Delta Chi gives yearly awards to the best editorial, news story and photograph and feature material. Entries can be made by contacting the MSU chapter at room 5 Journalism Building.

The fraternity's movement aimed at removing government-herent records used for courtroom photography, heard reports of gains made in national and state legislation.

Chairmen of the committee on freedom of information, V. M. Newton, a Tampa, Fla., editor, said congress, over strong executive opposition, passed two amendments to existing laws, which opened areas in the national government to the press.

1. That the old so-called housekeeping statute (5 U.S.C. 22) shall not be used for withholding information from the public, press, or congress.

2. That all applications for tax-exempt status will be open for public inspection as soon as exemption is granted.

Federal officials, headed by President Eisenhower and Atty. Gen. Rogers, served notice that the administration will be increasingly stubborn on the key problem of "executive privilege" under which they claim an inherent right to refuse government records to the public, the press or even congressional committees.

According to Newton, the Sherman Adams-Bernard Goldfine controversy opened up the administration considerably to the idea of government secrecy records.

Newton said the tremendous weight of public opinion, precipitated by newspaper publicity of the case, made the administration aware of the fallacies of governmental secrecy. The committee report said Adams was the most vicious defender of the "executive privilege" of secrecy.

Newton said there has been little change in freedom of information in the lower levels of American government during 1958. But he stated that 29 states now have laws stipulating that the records of government be opened and 11 have laws providing for open meetings.

**Veteran Checks**  
P.L. 550 Veterans may sign for their November checks according to the following schedule:  
A-D Today  
E-J Tuesday  
K-Q Wednesday  
R-Z Thursday  
Vote signing after Thursday should not expect checks before Christmas.

# U.S. Reaffirms W. Berlin Stand

## U.S. to Give No Ground To Soviets

President, Dulles Discuss Tactics

AUGUSTA, Ga. (AP)—President Eisenhower Sunday reaffirmed United States determination to remain from any course which would abandon West Berlin to Russian domination.

The reaffirmation came after Eisenhower and Secretary of State Dulles had discussed the Berlin crisis at the President's headquarters, at the National Golf Club, in a statement afterward dealing with Soviet maneuvers aimed at showing the Western allies a divided Berlin, Dulles said.

The President reiterated our firm purpose that the United States will not enter any arrangement or conduct any course of action which would have the effect of relieving the responsibilities of the United States, with Britain and France, which have assumed the freedom and security of the people of West Berlin.

The statement added up in essence to a fresh rejection of the Soviet proposal to create a "demilitarized city of West Berlin."

The Soviet proposal, made during the day, was coupled with a Kremlin declaration that power, four-power occupation of Berlin is void.

At the same time the proposal made the United States said the country never will enter any agreement with the Soviet Union "which, whatever form, would have the effect of abandoning the people of West Berlin to hostile domination."

The Soviet plans gave the West allies six months to complete negotiations to establish a free city.

Eisenhower said that if the plan is unacceptable "then there will be no further talks" and that Russia must put the plan into effect.

THOMASIA MANIKAS, left, Ypsilanti senior, and Joyce Oakes, Albion graduate student, threaten each other with snowballs while on a tour of the Bavarian Alps. As you can see, snow falls early in that area, giving ski enthusiasts a long season.

## Liberals Propose Rules

### Coalition Curb Sought

WASHINGTON, (AP)—Two far-reaching rules changes may be proposed to the House when Congress convenes Jan. 7 as part of a move to curb the power of a coalition of Republicans and Southern Democrats.

Both proposals have the backing of so-called liberals whose ranks were swollen by results of this year's Congressional elections.

One change is aimed at the Rules Committee, a 12-man group through which legislation normally must pass before it can be voted on by the House.

The committee for years has been dominated by the coalition and has bottled up numerous bills recommended by other committees. Its chairman is Rep. Howard Smith (D-Va.).

To break the Rules Committee bottleneck, the liberals are proposing a return to what is known as the 21-day rule,

which was in effect during the 81st Congress of 1949-50.

This rule allows the rules group to hold back bills for a maximum of 21 days, after which they may be brought to a House vote by the legislative committee which originally approved them. The Rules Committee is not a legislative committee. Its main function is to serve as traffic cop for bills approved by legislative committees.

The second change proposed for the next Congress would reduce the number of signers necessary on petitions to force House action on bills bottled up by legislative committees, many of which are headed by Southern Democrats.

## Economist Discusses Commerce

Freedom Rests On World Trade

The United States should take the lead in the new development of world trade, both for its own survival and the survival of freedom everywhere, an MSU professor declared Friday at the American Business Law Association's southern regional meeting.

Dr. Hendrick Zwarenstein, onetime Dutch business executive and attorney at law before the Netherlands supreme court, discussed "The Implications of Increased Foreign Trade for the Business Law Teacher."

He cited several causes for the recent increase in American foreign trade which, he said, amounted between 1953 and 1957 to a 17 percent increase in imports and 40 percent rise in exports.

"Since the end of World War II," Zwarenstein pointed out, "some twenty nations have come into existence, with more to follow in the not too distant future. These new nations will need a structure that enables them to participate in economic cooperation with other nations, without disturbing economic development on a world wide scale."

"On the other hand, shifts in the traditional patterns of world trade may be expected by regional arrangements, such as the recently established Common Market of the West European nations."

"These changes in our international relations in general and in our foreign trade picture in particular will make demands on our American business executives of tomorrow."

MISS SCHWARZKOPF

## German Lieder Star Schedules MSU Program

Elisabeth Schwarzkopf, European singing star, will make her MSU debut in the Aud Theatre Thursday.

The concert, scheduled for 8:15 p.m., will be presented in the Lecture-Concert Series "B."

Miss Schwarzkopf, the star of countless performances in London, Vienna, Salzburg and Lucerne, made her American debut in 1953 at Town Hall in New York. She made her first American tour in the autumn of 1954 and in the summer of 1955 began her second sold-out tour.

In 1956 Miss Schwarzkopf returned for a third U. S. tour, highlighted by a New York appearance at Carnegie Hall, which, for the first time in its history, was sold out for a recital programming German lieder.

A recipient of the Lilli Lehmann Medal, Miss Schwarzkopf has also received the award of the Orfeo d'Oro as outstanding singer in 1955.

## Michigan Sends Colleges Money

MSU will not have to borrow authorized \$900,000 from federal banks to meet its bill for this month, according to State Treasurer Sanford.

Checks totaling \$6 million sent to MSU, the University of Michigan and Wayne University for state money Oct. 1.

MSU had been given authority to borrow \$900,000 from a private bank at 3 1/2 percent interest to meet its November bill.

MSU also received authority from the State Board of Agriculture to borrow up to \$2 1/2 million to make ends meet in November if further aid payments are not forthcoming.

MSU gets about \$2,110,000 a year from the state, U of M \$2,700,000 and Wayne \$10,000.

## Scholarships Help Institute Participants

One hundred community-junior college and high school science teachers will be supported in a summer institute at MSU under a \$180,900 grant from the National Science Foundation.

The grant, to be used under the direction of Dr. Frederic Dutton, head of MSU's Science and Mathematics Teaching Center, was recently accepted by the university's governing board.

The teachers of physical science and mathematics will be able to earn 12-16 credits during the institute, June 22-Sept. 4, 1958. The credits may be at the graduate as well as the undergraduate level, Dutton points out.

Field trips, laboratory work and a series of lectures by noted scientists will augment the course work. Special emphasis will be placed on the latest developments in the scientific field.

Dutton reports that financial assistance will be available to 50 community-junior college teachers and 50 high school teachers.

Applications should be submitted by Feb. 16 to the Science and Mathematics Teaching Center, 518 Education.

### 1958 Soccer Squad Receives Athletic Awards at Banquet

Athletic Director Biggie Munn announced last week that 18 members of Michigan State's unbeaten 1958 soccer team have received major letters.

Junior goalie Noel Drago from Rockaway, N.J., won his second letter and ten sophomores were awarded their first letter. Receiving awards were:

Seniors winning their third letters were: John Asmah, Ghana, Africa; Neil Butler, Mt. Clemens; Al Barria, Popayan, Columbia; George Sapoty, Detroit; Ari Southan, Lansing; Jordie Taffler, Waterliet; Leo Vander Horst, Kalamazoo; John Bire, Myerstown, Pa.; Emanuel Bruce-Okin, Ghana; Bernie Cook, Williamston, N.Y.

Gerhardt Greutz, Cadillac; Horace Hamilton, Long Island, N.Y.; Aldo Lonigro, Detroit; Pete McKinnon, Detroit; John Southan, Detroit; Eric Struder, Chicago; Paul Wither, Long Island, N.Y.

A letter also went to manager Larry Sierra, of East Lansing.

The booters record for the third year of play showed eight consecutive victories, five of them by the shutout route.

The clean sweep brought the three-year unbeaten mark to 22 games, with only three ties.

JOE LOUIS, the ex-heavyweight champion, explains his plans to form his own company (Belec Productions) to film 39 half-hour television episodes based on his life and ring career. The former ring great will appear in the films.

### Clinch Title Colts Stampede By 49ers, 35-27

BALTIMORE (AP)—The Baltimore Colts, trailing by 20 points at the half, reared back for four touchdowns in the last two quarters for a 35-27 victory over the San Francisco 49ers and the Western Conference Championship of the National Football League Sunday.

The Colts clinched their first conference title with two more games to play in Los Angeles and San Francisco. Their victory coupled with the 24-10 loss by the Chicago Bears to the Pittsburgh Steelers gave Baltimore a three-game lead.

The triumph was the ninth in 10 games for the Colts. The lone loss coming by a 24-21 score against the New York Giants. The defeat was the sixth in 10 games for San Francisco.

The Colts, in the NFL only six seasons, proved their championship class in their last home appearance this season before 37,517 of their devoted fans, the second straight capacity crowd. They trailed 27-7 at halftime and looked shoddy in the bargain.

They smothered the 49er offense and steamed up their own for a blazing three touchdowns in the last quarter.

Memorial Stadium really rocked when Lenny Moore weaved his way 73 yards for a touchdown that tied the score 27-27. Steve Myhra's fourth place kick conversion gave the Colts the edge for the first time.

As a fitting climax, quarterback John Unitas next tossed a 7-yard pass to end Ray Berry for the last touchdown. It was the 23rd straight game in which Unitas threw at least one touchdown pass. It tied him with Cecil Isbell for the all-time record in that department of the NFL.

A feeling that the Baltimore bubble was about to burst went through the stadium when the 49ers swept 80 yards for a touchdown after the opening kickoff and piled on three more in the second period.

But the positions were exactly reversed in the second half. The Colts charged 62 yards to score after the kickoff. Unitas completed four passes for 51 yards

in the drive and Alan Ameche plunged less than a yard for the touchdown.

A 50-yard pass from Unitas to end Jim Mutscheller got the Colts moving again at the end of the third quarter and Ameche plunged for his second touchdown on the second play of the fourth period.

A couple of minutes later, Moore broke loose for his dazzling run that took him down the sidelines, back to the center of the field and then straight ahead to avoid a series of tacklers.

Title's passing and Joe Perry's running moved the 49ers to their first touchdown, the quarterback sneaking the last yard. Unitas evened it up by running three yards to score at the end of a 65-yard Baltimore drive as the first quarter closed.

#### Cleveland Rally Beats Washington, 21-14

CLEVELAND (AP)—The Cleveland Browns rallied for two fourth-period touchdowns Sunday on Milt Plum's clutch passing and the running of Lou Carpenter for a 21-14 victory over the Washington Redskins.

### Rand, Stouffer Vie For Starting Role

#### Veteran Seniors in Battle For Guard Position on Team

By LARRY WROBLEWSKI  
 Asst. Edit. Page Editor

With Michigan State's basketball team's opener six days away, a hotly-contested rivalry has developed for the guard position.

The contestants are veteran Tom Rand and veteran reserve Jim Stouffer. This battle is between two seniors who are using their final year of eligibility.

Last season Rand capably replaced Dave Scott who was scholastically ineligible at mid-season.

The 6-2 guard doubled with Jack Quigley, now graduated, in handling the back court assignment. Although Rand never was a great scoring threat, he was a steady performer on offense and defense. He closed out the season with a 3.4 per game average.

Rand certainly was a solid bet to start at guard this season. But Stouffer, who got into 13 games a year ago, has had

Anderson feels pretty good about the other four starting starters.

Co-captains Bob Anderson, 6-3 forward, and John Green, 6-3 center, are permanent fixtures in the front line. The addition will be Horace Walker, a 6-4 guard, expected to fill the other guard role.

As key reserves, Anderson lists sophomores Art Goring, 6-2 forward, and Dave Felt, 5-9 guard.

State's opening encounter with the University of Detroit, in which the Titans gave a good account of themselves in a

RAND Stouffer for fifth spot on team . . .

his eyes on Rand's position. Working with earnest from the opening practice in October, Stouffer has loomed into the spotlight as a possible starter.

"Stouffer has come fast this fall," says Coach Fordy Anderson, "and just might take the place away from Rand. It certainly makes for a very healthy situation."

Stouffer showed off his capabilities in the Green-White game little more than a week back. The 165-pound guard displayed his court knowledge. He was especially sharp with his passing and playmaking. Stouffer also was consistent with his jump-shot by scoring 14 points.

So as the starting time for the basketball team approaches, it will be interesting to see the outcome for the guard spot.

played in Detroit, but bowed the Spartans in the eleventh minutes, 71-59.

This season veteran Coach Calihan has acquired a height, but Detroit's lack of shortcoming is lack of all game experience.

The tallest member on the team squad is 7-foot center Corbett, who tips the scale a skinny 185. Dick Dolan, center, will be called on to provide backboard strength.

Detroit gets a head-start most other colleges. Assumption, Anderson, and Stouffer are the assistants for State.

State's opening tip-off, scheduled for 8 p.m. Saturday in Jensen Fieldhouse, will be admitted to all Spartan games by showing their ID.

# Despite Team Record Williams UPI Choice For '58 All-American

To make All-American honors a goal of every college football player, but to be chosen as an All-American on a losing team is an outstanding feat.

On Wednesday, MSU's end of the season was voted to the All-American starting 11 by the United Press International.

This year the Spartans went through the motions of a disastrous 5-5-1 season. On many occasions, the spirit and individual play of Williams probably were responsible for State having a winless season.

Williams, a superb end on defense and an offensive threat who often caused the opposition to triple-team him, is the "grand-dad" of the select group. Sam, who hails from a remote town of Danville just 25 miles from Lansing, is 27 years old.

When the National Football League draft begins today, Williams won't receive any consideration. The 6-5, 218 pounder was drafted two years ago by the Los Angeles Rams.

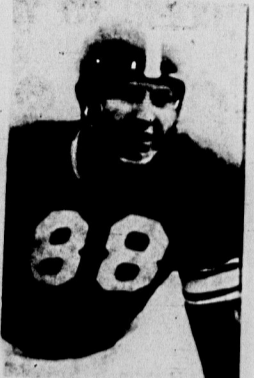

Last Monday Williams was named the most valuable player by his teammates. This makes him eligible for the Chicago Tribune's silver football.

It is annually awarded to the player voted the Big 10's most valuable player by a committee

of coaches and conference officials.

A year ago, an indication of Williams' greatness was foreseen with his selection to the All-Big 10 team. He was also the team's No. 1 pass receiver. The records show he caught 11 passes for 236 yards and three touchdowns.

Williams originally came to

**SAM WILLIAMS**  
... picked by pros in 1956 ... MSU on a basketball scholarship in 1949. But after six weeks at a

try at football, he had become unhappy with college and dropped out.

After working six months, Williams entered the Navy. Here Sam groomed himself into a top-flight flanker.

Williams returned to the campus in 1955 and began the steady climb to a first berth position. His outstanding play received raves from professional scouts.

In 1956 the Rams, basing their selection on Williams' service record, drafted him before he played a single minute of college football.

Earlier this year, Williams disclosed his doubts of ever being chosen All-American. He said his first job was to lead the Spartans from out of their doldrums.

This season Williams' play has continually attracted the praise of Coach Duffy Daugherty.

Daugherty said Sam was the greatest end and captain "I've had the privilege to work with as a coach."

One particular play displays Williams' spirit. Against the University of Illinois he broke through the line and hurdled a pair of Illinois blockers to block the enemy's punt.

Other Spartans receiving honorable mention were tackle Fran O'Brien, guard Ellison Kelly and halfback Dean Look.

**CHICAGO BEARS FULLBACK** Rick Casares (35) leaps over the line to chalk up a nine-yard gain against the Lions in an NFL contest which the Bears won, 20-7. In the line play are: Bears end Ralph Anderson (39) and back Johnny Morris (11) and Lions back Terry Barr. Yale Larry made the tackle.

## Pucksters Face Red Wings Tuesday in Season Opener

Hockey Coach Arno Bessone has announced that a contingent of Michigan State ice hockey players will team up with a group of University of Michigan ice hockey players to play against a touring Russian team at Detroit Jan. 6.

Only one Spartan, goalie Joe Selinger, is sure to make the trip. Bessone will choose one forward line and one set of defensemen to accompany Selinger.

The Spartans open their ice season Tuesday night in an exhibition game against the professional Detroit Red Wings. Game time for this affair is 8 p.m. at Demonstration Hall.

Minnesota won seven straight games in taking its second Big 10 baseball title in the last three seasons.

## IM Highlights

THE ALL-UNIVERSITY football championship game will be played tonight, weather permitting. The Dogs will meet Bryans in the finals, with gametime at 7 p.m. at Old College Field.

ENTRIES for the All-University wrestling tournament must be at the Intramural office by 3 p.m. today. Participants should report to the IM or wrestling office today for the weigh-in.

## Despite Three NCCA Champs Tankers Face Rebuilding Job

By MARY WATSON

Three National Champions, Patterson, Frank Modine and Billy Stewart, constitute the Michigan State team's principal assets this season against the powerhouse Indiana, Ohio State and Michigan.

Patterson, selected as an All-American in the 100 yd. freestyle, edged out Garry Morris in this event in the NCCA meet last spring. He was set at 49.5.

Patterson holds the MSU varsity records for both the 100 and 50 yd. freestyle and the medley and freestyle. State's outstanding swimmer, he received the Clark award for the 1956 season.

Proving he was tops in the distance field Billy Stewart finished first in both the 440 yd. and 1000 meter freestyle in the NCCA as well as the Big Ten meet. Stewart then, is American team.

Other returning lettermen are Jerry Chadwick, Dave McCaffrey, Dee Edgington, and Al Coxon.

Chadwick, a diver in 1958, will probably swim the individual medley this season while McCaffrey will continue to back up Modine in the breaststroke. Edgington will switch to the butterfly.

Dave Dietz is expected to do extremely well in the 50, 100 yd. freestyle, 100 yd. butterfly, and individual medley.

Sophomore James Tyson is an excellent breaststroker who will add much to the squad. In addition to the sophomores is returning letterman Denis Baker.

Peter Peter Pumpkin Eater Had a wife and couldn't keep her So, he bought a SPARTAN 2.

**QUESTION:**  
My daughter has glasses. She needs them badly, but refuses to wear them because "they make her look funny." What can be done about this?

**ANSWER:**  
Your daughter can try to have her glasses made in frames which will be attractive and styled to be flattering to her. Failing this she can, of course, resort to contact lenses. The only way glasses (or contact lenses) can do the patient any good is if they are worn.

**QUESTION:**  
What do you think of Sun-glasses from the drug store? I have perfect eyes otherwise, but the sun bothers my eyes.

**ANSWER:**  
Lenses placed before the eyes should be accurately ground and polished. Cheap sunglasses do not fit this requirement and generally have distortions and aberrations which are definitely harmful to the eyes.

Send inquiries about eye problems to

**THE GARRETT CORPORATION**  
AirResearch Divisions  
will be on campus to interview **ENGINEERING STUDENTS**  
B.S. - M.S. - Ph.D. candidates

The Garrett Corporation is one of the most diverse research, engineering and manufacturing organizations in the aircraft, missile and technological fields.

From AirResearch laboratories have come pioneer developments in aircraft and missile components and systems. Today 90% of the free world's aircraft use AirResearch equipment.

Garrett divisions and subsidiaries are creating a variety of products, including industrial turbochargers and marine equipment, and are supplying sales and service to airframe companies, airlines and the military.

Project work is conducted by small groups in which individual effort is more quickly recognized and opportunities for learning and advancement are enhanced.

With company financial assistance, you can continue your education at fine neighboring universities.

**TYPICAL PROJECT ACTIVITIES**

- Electronic air data computers, pressure ratio transducer instruments, electrical systems and motors and generators.
- Preliminary design from analytical and theoretical considerations for high-level technical work in aerodynamics, stress analysis, thermodynamics, heat transfer, cryogenics, pneumatics, nuclear power and mathematics.
- Auxiliary power units and control systems for various types of missiles.
- Air and vapor cycle refrigeration turbines, hydraulic and mechanically driven pressurization compressors.
- Jet engine and rotating machinery design and analysis involving combustion, turbomachinery, gas dynamics, thermodynamics and aerodynamics.
- Gas turbine auxiliary pneumatic and electric power units.

**ORIENTATION PROGRAM**

In addition to direct assignments, an eight-month orientation program is available to aid you in job selection. You participate in Garrett project and laboratory activities and work with engineers who are outstanding in their fields. Your orientation will include familiarization with sales and contract administration.

**JOB OPPORTUNITIES**

- Thermodynamics
- Aerodynamics
- Missile Accessories
- Combustion Analysis
- Chemical Engineering
- Mechanical Engineering

# Mansfield Proposes Food for Dollar Aid

## Forecasts Dem Opposition To Foreign Assistance Hike

WASHINGTON (AP)—Sen. Mike Mansfield (D-Mont) proposed Sunday a program to scale down foreign aid costs by substituting food for dollars in hungry world areas.

Mansfield, assistant Democratic floor leader and a member of the Senate Foreign Relations Committee, said he and some other Democrats will oppose a billion dollar increase in Foreign aid spending reported under consideration by the Eisenhower administration.

Instead, Mansfield said in an interview he will propose that part of the crop surpluses now in government hands be diverted into foreign aid channels.

"Our farm surpluses now are seven times what they were when Secretary of Agriculture Ezra Taft Benson took office," Mansfield said. "We should attack that problem by arranging a system by which we could deliver some of these commodities to hungry peoples rather than giving dollars to their governments."

Mansfield said he believes commodities like wheat could be distributed in this way without disturbing the system by which some agricultural surpluses are being disposed of abroad for local currencies.

"The point would be to get these surplus foods into the hands of the people of the world who have only one meal a day and have no means of buying more food," he said. "If this were done properly, it could become one of the most powerful forces against communism."

Mansfield said he is satisfied a great many members of his party, which will have the numerical control of the new Senate, are going to insist on a downward revision of military assistance and the placing of more emphasis on economic aid and the development loan fund.

Both President Eisenhower and Secretary of State John Foster Dulles have indicated they already are thinking along these lines.

# Senators Investigate Coin Boxes

WASHINGTON (AP)—Senate investigators said Sunday they have summoned approximately 100 witnesses for questioning about racketeer infiltration of the coin machine business.

Four weeks of public hearings have been scheduled, beginning Thursday, in the climax to a year-long investigation by the special Senate committee on improper activities in the labor-management field.

"We are endeavoring to discover the extent of racketeer infiltration into this multi-billion dollar industry," Chairman John McClellan (D-Ark) said in a statement announcing the hearings.

He said more than half a million juke boxes are in operation and, in addition, coin-operated vending machines account for the annual distribution of two billion dollars worth of goods and services.

The focal point of the inquiry, McClellan said, will be to determine whether labor unions in this field have been formed and operated for legitimate union aims or whether, in many cases, "as an adjunct to and enforcement arm for management, acting in collusion to allegedly monopolize the industry."

Testimony will center on activities in at least seven states—New York, Florida, Michigan, Illinois, Ohio, California and Indiana.

# Final Examination Schedule for Fall, 1958

The last day of classes for Fall Term is Tuesday, December 9. All final examinations will be given in accordance with the following schedule. The time of the examinations in Basic College courses is given below. Examination rooms will be given by the instructor during the last week of classes.

Communication Skills: Wednesday, Dec. 10, 10:15-12:15  
Natural Science: Thursday, Dec. 11, 10:15-12:15  
Social Science: Friday, Dec. 12, 10:15-12:15  
Humanities: Saturday, Dec. 13, 10:15-12:15

The time of examinations in sections other than Basic College courses is determined by the days and times the class is scheduled during the term. Examinations will be given in the same classrooms used for class meetings during the term.

If at least two of the days and hours follow the regular pattern, all students, instructors, and room schedules will automatically clear. In a few courses, at the request of the department concerned, the final examination has been scheduled by the single hour lecture section, and in some instances students may encounter conflicts. In that event, the examination scheduled by the class meeting two hours each week will take precedence over the examination scheduled by the single hour lecture. The examination will be arranged between the student and the department requesting the special scheduling of its examination.

All instructors having examinations from 8:10 a.m. and from 1:30-3:30 p.m. are requested to terminate their examinations promptly so that room and buildings may be cleared for the examination periods which follow.

NO FINAL EXAMINATION MAY BE GIVEN AT ANY TIME OTHER THAN THE REGULARLY SCHEDULED TIME EXCEPT BY FACULTY ACTION.

# Student Wives to Study Meat

The YWCA meal planning and family finance group for student wives will meet for the first time on Thursday at the home of Mrs. Carol Anselm, 1418B Spartan Village.

This group is for those who would like to learn a more interesting or delicious way to make their food dollar stretch.

Miss Jean Gillies of the Extension Service will speak on "Meat Cuts — What and How" and will illustrate her points with colored slides. In January the group will go to a meat shop to observe the various kinds and grades of meat and discuss their uses and identifying marks.

The group is open to all student wives and there is no charge for the meetings.

# Photographs Tell History of American Theater

Great moments in the American theater are captured in a unique collection of photographs being assembled at MSU.

When completed the collection is expected to include about 1,000 photographs, offering a pictorial review of 100 of America's greatest theatrical productions.

The pictures, reproductions of originals made by the Vandamm Studios of New York, are being selected by Prof. Don Buell of MSU's speech department with the aid of the Development Fund.

With an initial grant this fall, Buell selected 115 of the Vandamm photographs which represent the work of five great players of the last 30 years. Covered are outstanding plays which featured Helen Hayes, Katherine Cornell, Alfred Lunt, Lynn Fontanne and Maurice Evans.

The Vandamm Studio since 1923 has been exclusive photographer for the greatest theatrical stars and plays. The Vandamm, who began working with glass plate cameras, spent hours in preparation for a photograph of a single scene.

Buell discovered the photographic masterpieces in New York while seeking materials in the theater field for his television work at MSU.

"We are receiving two prints of each picture," Buell explained. "One set will be placed in the Library as part of a theater collection which I plan to present to the University. The other will be used for research and teaching purposes, and on 'University of the Air' television productions."

"Because of the Vandamm's flair for the dramatic, which is coupled with good theater sense, the photographs are invaluable. They not only give the overall idea of the play itself, but the photos can be used for study of staging, scenery, costuming and directing, characteristic of past trends in the theater."

Buell believes the MSU collection is unique.

# GROOMING ELECTRONICS FOR THE SPACE AGE

## Systems in the Air

The march of electronics into the Space Age is being quickened as a result of Hughes work in airborne electronics systems.

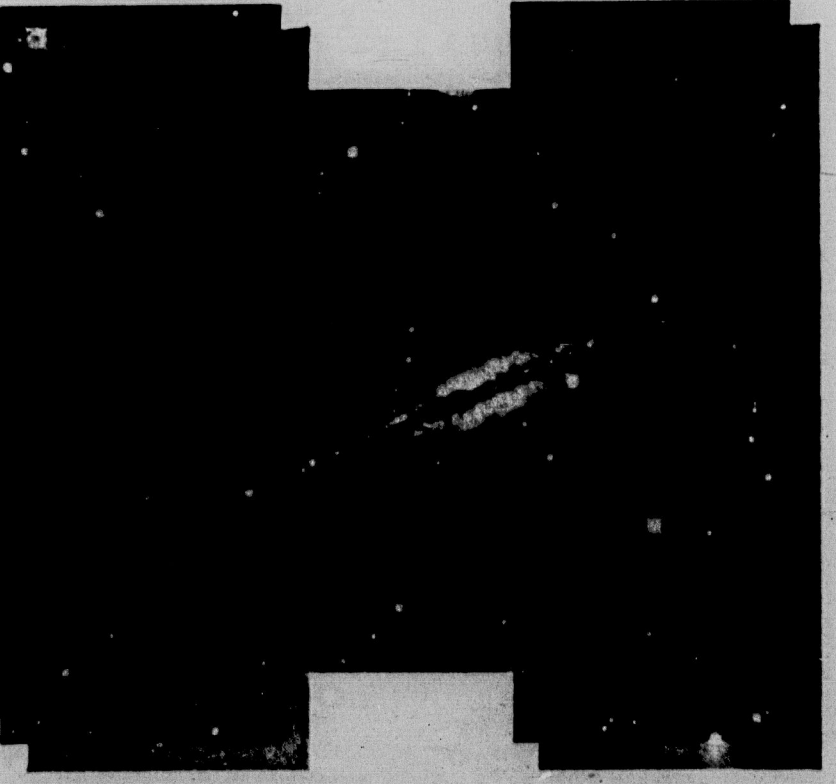

One such development is the Hughes Electronic Armament System, which pilots high-speed jet interceptors to enemy targets, launching Hughes air-to-air guided missiles, and flies the plane home. Even more sophisticated Electronic Armament Systems completely outstrip those presently released for publication.

Working on space satellites, Hughes engineers are active in the preliminary design of guidance and control systems, communication and telemetry systems, sensing devices using infrared, optical and radar techniques.

Information resulting from Hughes study in the fields of air-to-air and ballistic guided missiles is presently paying dividends into the fund of space knowledge.

Hughes engineers have developed space hardware using high-reliability wire wrapping to replace soldered connections and miniaturized "cordwood" circuit modules to allow high component density.

The advanced nature of Hughes electronic systems—in the air, on the ground, and for industry—provides an ideal growth environment for the graduating or experienced engineer interested in building rewarding, long-range professional stature.

Code Processors, which monitor hundreds of aircraft and store the information for high-speed assignment of defense weapons, comprise one part of an advanced Hughes ground defense system.

Components which provide for electrical, rather than mechanical, tuning of circuits, are being produced by Hughes Products, the commercial arm of Hughes.
