

IT'S THE END of the term and most of us have problems. There's packing to be done, traveling reservations to be made, clothes to be sold and, oh yes, studying to do. The industrious ones above are no exception. With graduation over and that tassel hanging before the eyes of MSU seniors, exams are a combination

anti-climax and a sudden-death decision. Overdue term papers and unfinished reading make studying that much more difficult. For those of us who are leaving MSU for the last time, these next few days will be a time, not only for cramming, but for nostalgia, breaking of ties and planning for the future. Undergraduates don't

escape the whirlpool of activity either. All of a sudden many of us realize we have a whole term's work to catch up on. Our rooms have to be cleaned and extra-sock-given back to their rightful owners. Then there are always those little things we forgot, like reserving a room for next fall or returning books to the library.

Of course we must do our laundry, because after all, we wouldn't want to take dirty clothes home with us—would we? And finally we must get the addresses of all our student friends we're going to visit this summer.

To Study in France Butterworth Gets Fulbright Grant

Chuck Butterworth, Royal Oak senior, will leave in August to study at the University of Bordeaux, France, on a Fulbright grant for the academic year, 1959-60.

Cheerleaders Picked for '60

MSU cheerleaders selected for 1959-60 season are: Faculty coed: Lynda Hopkins, senior; Kiddy Paul, senior; Marje Rohs, sophomore; Eppie Bruchner, sophomore; Sue Homan, Lansing, sophomore; Madelyn Christian, sophomore; Dick Battle, sophomore; Bob Wyandotte, sophomore; Tom Terry, Almont, sophomore.

New Housing Controls Take Effect Fall Term

Student reaction to the off-campus housing regulations is the most favorable I've heard in six years," Tom Dutch, director of housing, said Wednesday.

The rules which have been officially approved. The rules, which go into effect fall term, apply to an area of approximately 15 square miles around the campus.

Housing regulations for all undergraduate students:

- All first year students must reside in the residence halls for at least one year. (Veterans, married and local residents excepted.) A veteran for the purposes of these regulations must be served at least 21 months in active status in one of the United States military services.
- Alcohol is prohibited in the living quarters of students at MSU.
- Students are prohibited from having members of the opposite sex in their unchaperoned living quarters.
- The same rules of conduct are in effect for students regardless of where they reside, on or off campus.
- Anyone commuting from home beyond a 50 mile radius must have special permission from the Dean of Students.

Housing regulations for single male undergraduate students:

- All single undergraduates are required to live in quarters provided by the university as meeting required standards of safety and sanitation and where reasonable standards of behavior and decorum will be maintained. Supervised quarters will be required except as noted in (2).
- Unsupervised quarters may be approved for single men living away from home only for men enrolled in the upper classes (or veterans as defined above), at least 21 years of age, with a minimum all-university grade point average of 2.9.
- The housing area in which quarters may be located shall be bounded by Mount Hope Road on the south, east to North Adams Road, on the west, Pennsylvania Avenue north to Saginaw, then north on Wood Street to include Hopwood Acres and east to take in the annexed part of East Lansing to Abbott Road, Abbott Road south to Saginaw, east to North Okemos Road.
- Each landlord requesting the university to approve his facilities for a student residence must agree to determine the liability of each student negotiating a rental agreement with him.
- Inspection for approved quarters will be made from April 1 to September 15th of each year for the ensuing year.

Single female undergraduate students:

- All single, undergraduate women students, under 25 years of age, must live in residence halls, sorority houses, with parents, or in supervised homes inspected and approved by the office of the Housing Director.

State House Dooms Income Tax Bill

THE CHILDREN in this picture are having their last moment of fun in the old barracks for married students. The last of the old barracks will be torn down this summer, thus eliminating the last of the low-cost living quarters for married students. All students living in the barracks will have departed from their homes by the end of this term.

Gives 'Feel' of College Life

Freshman Clinic in 11th Year

Prospective freshmen will again be invading the campus this summer in the 11th year of the Counseling Clinic program. Eleven clinics are being offered this summer, the first starting June 23, the last Aug. 31. Freshmen who are admitted to the university are free to participate in one of these sessions.

Last year 1,787 students or 58.8 percent of the freshman class attended clinics. The students live in one of the dormitories during the four-day period.

The Counseling Center sponsors the clinics, but is aided by many departments on campus.

The purpose of the program is to help the participants get a better "feel" of the university atmosphere, in making more intelligent choices of subjects, in earning better grades, and in general making an easier adjustment to college life.

Monday, the first day of the clinic, the students gather in groups to meet their counselors. They discuss freshman curriculum, grade point ratios, course loads, Improvement Services and relationship of the Basic College to upper division colleges.

Tuesday, the students meet with the counselors again and start their tests. The tests are

Russian Ultimatum Rejected

GENEVA (AP) — The United States Wednesday rejected what it described as a Soviet ultimatum seeking to place a one-year limit on Western rights in Berlin.

The Soviet Union matched this at the Big Four foreign ministers meeting with a new threat to sign a separate peace with Communist East Germany and to remove Moscow's "consent" to continued Western garrisoning of West Berlin.

Both threats raised the specter of a new Berlin blockade.

The foreign ministers' talks appeared to be teetering on the brink of a complete breakdown.

Secretary of State Christian Herter, with the backing of his British and French colleagues, declared the United States "will never negotiate under deadlines threats of duress."

He described the new Soviet proposal for Berlin as "wholly unacceptable... because of its threatening nature."

Soviet Foreign Minister Andrei Gromyko advanced the Soviet plan on a take-it-or-suffer-the-consequences basis.

Speaking rapidly, he told the conference:

"The Soviet delegation must say that if the Western powers do not agree to introduce for the transitional period of one year the minimum measures with regard to West Berlin, the Soviet Union will not be willing to confirm its consent to the continuation of the occupation regime in West Berlin."

Falls 2 Votes Short As Dems Cross Line

But Committee Will Consider Other Income Tax Proposals

BY THE ASSOCIATED PRESS

Three House Democrats broke party ranks Wednesday and helped squash a 146 million dollar "piggy back" income tax bill for the second time in a week.

The 54-53 vote, two short of the 56 needed for passage, very likely killed the bill for good.

"An income tax bill now has about as much chance of becoming law as Liberace has of becoming Marilyn Monroe," quipped Rep. Allison Green (R-Kingston), House GOP floor leader.

Rep. Rollo Conlin (R-Tipton), House Taxation Committee chairman and one of four Republicans who voted for the measure, conceded it was dead. But he said his committee would meet today or early next week to take action on other income tax proposals, including a flat rate tax he himself proposed.

Democrats put the heat on two members who voted with Republicans last week on the measure but couldn't persuade Reps. S. James (Clarkson of Southfield) or William Romano of Warren to change their minds. A surprise rebel was Rep. John Pucszak (D-Detroit), who voted for the bill last week when it missed passage by a single vote.

The bill would produce 276 million dollars in new taxes by taxing individuals at seven percent of their federal income tax liability. Corporations would be taxed at 12 percent of their federal bill and banks and other financial institutions at 14 percent.

As offsets, other parts of the nine-bill package would wipe out 130 million dollars in present business taxes.

House Speaker Don Pears (R-Buchanan) said Wednesday's action cleared the decks for a bipartisan tax negotiating committee of the House and Senate to resume its meetings. The committee ran into a deadlock and hasn't met for a week.

"This should give the governor a clear indication that he should compromise with us on a tax program, based on the use tax, which is favored by the majority of our citizens," Pears said.

IBM to Work At Carnival

A new innovation in next fall's Career Carnival will be an IBM "brain" which will give students typed answers of questions on material pertaining to employment, Placement Bureau operations, job opportunities and salaries.

The IBM will also be available before the carnival for such events as Freshman Day, the faculty party and classes.

Once Garrison for Troops, Traders

Restoration of Fort Michilimackinac Set

By SANDRA LEGATZ
State News Night Editor

Wind-swept sands covering the site of Fort Michilimackinac, once Michigan's northernmost garrison for troops and traders, will be intensely excavated this summer.

The project will be headed by Dr. Moreau Maxwell, curator of anthropology at the MSU museum.

Digging will begin July 1 after a preliminary survey.

The Mackinac State Park Commission is sponsoring the excavation and restoration of the fort. Improvement bonds are being floated to cover the work. Dr. Maxwell said an estimated \$300,000 to \$600,000 will be spent to rebuild the fort as it was in 1769.

Nothing is left of the former garrison on the west edge of Mackinaw City except perhaps foundations of the buildings, timbers and relics which Dr. Maxwell hopes to uncover.

Dr. Maxwell estimated that some 21,000 cubic feet of dirt on the two and a half acre plot will be moved—all by hand.

Each shovel will be screened. Trowels and fine point brushes will be used to unearth objects such as buttons, weapons and coins.

The location of the fort and the buildings within the irregular hexagon-shaped palisades are known from two maps drawn by Lieutenant Perkins Magra in 1766 and by Lieutenant John Nordberg in 1769.

Although the two maps do not exactly coincide, they do give an approximate idea of where to dig to find the foundations of the buildings, Maxwell said.

Dr. Maxwell, who has done similar field work in Southeast Asia, South America, the Southwestern United States and the Arctic, said restoration will begin as soon as some of the building foundations are uncovered.

Buildings to be excavated this summer are the commandant's house, an adjacent building containing the officers and traders quarters and a storeroom.

Fort Michilimackinac once commanded traffic from three of the Great Lakes from its northern vantage point.

A French Jesuit priest, Father Dablon, began a mission on Mackinac Island in 1670 but the next year, moved it to the site of present-day St. Ignace. A small fort was added to protect the mission.

In 1701 the garrison was moved to Detroit and several years later the Jesuits abandoned the mission.

In 1715 the governor of Canada ordered that a fort be re-established in the area and Fort Michilimackinac was built on the south side of the straits.

French rule of the fort ended in 1761 because of the outcome of the French and Indian Wars and the British began occupation of Michilimackinac.

However, two years later, Chippewa Indians, under the guise of losing a ball inside the palisades during a lacrosse game, gained entrance to the fort and massacred many of the inhabitants. Some were carried off as prisoners to Montreal.

In the fall of the next year, the British regained control of the fort.

Because of fluctuating water levels and fire hazards of the old fort, a new post was built on Mackinac Island, eight miles to the north, and in 1781 Fort Michilimackinac was abandoned.

Last Day to Buy Spartan 6 Copy

Today is the last day to buy your copy of SPARTAN 6. The magazine, selling in Berkeley, Natural Science, Kresge, Short Course grill, Student Services, and the Union, has a pictorial feature on summer fashions for men and women.

Ending sales for the school year, SPARTAN 6 will have jokes by Gwynne, a three page spread of Sparty Pix, and an interview with Dr. Herbert Weisinger, new editor of the University's Centennial Review.

Activities Carnival Themes Due June 16

Organizations in the Activities Carnival are to submit their themes to Sharon Jones before the deadline, June 16. Petitions for the organizations are available in 316 Student Services.

Also, the organizations are to leave their representative's summer address with Miss Jones.

Last State News

Today is the last day of publication for the State News on a daily basis until fall term.

In NCAA Track Meet

Lake, Kennedy to Run Ends Winning Year

Two Spartan runners, Bob Lake and Fordy Kennedy, will journey to Lincoln, Neb., to compete in the 38th annual NCAA track and field championships to be held this weekend. Lake, who ran third in his last outing, the IC4A meet two weeks ago, won both the outdoor and indoor conference mile championships. His best time this year was a 4:04.8 effort. Lake will face his main competition from the two men that beat him in the IC4A, Ed Moran of Penn State and Pete Close of St.

John's Lake also has been elected captain of next year's squad. For the two-mile event, MSU will enter this year's captain, Fordy Kennedy. Kennedy, who placed third in the conference indoor meet, won the outdoor championship and his top time this year was a 9:06 clocking. Kennedy also won the NCAA cross country championship last year and this meet will close out his track career at Michigan State. Members of the team that won letters this year include: Kennedy, Lake, Bob Hughes, George Ward, Jim Carr, Brian Castle, Jim Horan, Lee Eckstrom, Jason Harness, Mike Kleinbans, Al Neumann, Don Marsh, John Sharp, Tony Smith, and Max Weissengruber. Manager Dave

Coombs was also awarded a letter and 23 freshman won numerals.

Varsity Netters Beat Freshmen

As a final activity of the 1957-58 tennis season, the varsity team defeated the freshmen, 7-2, last week.

Roger Plagenhoef, Bill Hochkiss, Bob Sassack, Ron Mescall and Dave Berles all rolled up victories in the singles division, while Frosh Eisner was the lone winner for the freshmen.

In the doubles division, a team composed of Tom Warsaw and Mark Wayne was the only winner against the varsity.

'S' Baseball Squad Ends Winning Year

Signing of Al Luplow Among Major Surprises of Season

Coach John Kobs' baseball squad finished another winning season this year. The season's record was 21-14, the Big 10 record was a meager 8-7.

Four seniors received their second varsity baseball letters: Captain Dick Radatz, John Russell, John Carter and Jerry Korwek.

The juniors winning their second letters were Dean Look, John Fleser, Jim Conlin and Dick Golden. Golden was recently elected captain for the 1958 season.

Players who received a letter for the first time included: Wade Cartwright, Bob Monerka, Don Munce, Pat Sartorius, Bill Schullich, Mickey Sinks, John Hendee, Bob Ross, Don Sackett and Craig Van Seiver.

Twenty freshmen received numerals for the year.

This season was a year of surprises for the Kobsmen. One of the first major shocks came when Al Luplow, star center fielder, signed a major league contract with the Cleveland Indians for a bonus reputed to be over \$25,000.

When Luplow left shortly after the Notre Dame game which he helped win with his third homer of the year, he was leading the league in home runs and had a respectable .408 batting average.

The team never seemed to be able to win the easy ones although it did make very good

showings against the top teams in the Big 10.

When the Spartans faced Minnesota, Big 10 champion, they overpowered them easily.

However, the next day they faced cellar dweller, Iowa, in a doubleheader they were beaten handily both games.

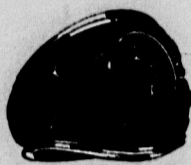

Again when they faced Cornell in a final game of the season, they played a team that had beaten them twice before in the Big 10 and were due to go to the Big 10 world series, held this year in Omaha. Yet they triumphed over the Big 10 champion, made it look like a minor league amateur athlete in the decision.

Outstanding batters in the Spartan nine were John Look, left field, .347, Don Look, center base and outfielder, .347, and Kobs' two converted pitchers, Wade Cartwright, .313, Don Munce, .313.

There was a close fought battle between Look and Fleser for the top average, but Fleser won out by one point.

Look won the team's most valuable player award recently the annual baseball banquet. The Spartans' final game in the Big 10 was a four-run tie with Indiana.

Final Examination Schedule for Spring, 1959

The last day of classes for Spring Term is Thursday, June 11. All final examinations will be given in accordance with the following schedule. The time of the examinations in Basic College courses is given below. Examination rooms will be announced by the instructor during the last week of classes.

Communication Skills	Friday, June 12, 10:15-12:15
Natural Science	Saturday, June 13, 10:15-12:15
Social Science	Sunday, June 14, 10:15-12:15
Humanities	Tuesday, June 16, 10:15-12:15

The time of examination in sections other than Basic College courses is determined by the days and the time the class is scheduled during the term. Examinations will be given in the same classrooms used for class meeting during the term.

If at least two of the days and hours follow the regular pattern, all students, instructors, and room schedules will automatically clear. In a few courses at the request of the department concerned, the final examination has been scheduled by the single hour lecture section, and in some instances students may encounter conflicts. In that event, the examination scheduled by the class meeting two hours each week will take precedence over the examination scheduled by the single hour lecture. The examination will be arranged between the student and the department requesting the special scheduling of its examination.

All instructors having examinations from 8-10 a.m. and from 1:30-3:30 p.m. are requested to terminate their examinations promptly so that rooms and buildings may be cleared for the examination periods which follow.

THE NATION'S first fleet ballistic missile submarine, The USS George Washington, hits the water after her launching at Groton, Conn., Tuesday. Mrs. Robert Anderson, wife of the secretary of the treasury, christened the vessel, a 380-foot 5,600 ton craft that will launch the Polaris missile from the depths of the ocean or from the surface.

Wolverine Price to Rise in 1960

How much does a Wolverine cost? In terms of time, it costs thousands of man hours devoted to creativity, organization, production, editing and many other aspects.

But the Wolverine is most demanding in terms of money. Under the present system, a Wolverine can be bought for \$6. Space in the book can be bought by organizations for \$50 a page. On the other hand these prices are entirely unrelated to the costs. The production of the Wolverine actually costs between \$82 and \$93 a page, or about \$8 a book. In order to keep pace with rising costs, the price for the 1960 Wolverine will be \$7 per book and organization space will be \$80 per page.
