Brody Students Sight Early Morning Thief

Robberies in Armstrong, Bailey Relieve Students of Estimated \$430

The amount of money stolen Wednesday morning from 18 students living in Armstrong and Bailey halls has reached a total of \$403.45, according to MSU Department of Public Safety.

Three students living in A-109 reported making contact with the thief, police said. Gary Burgess, New Baltimore sophomore, and brother Ronald, freshman, and Robert Sheridan, Detroit freshman, were awakened as the thief searched for money in their room, police reported.

Gary and Robert gave chase to the intruder but did not succeed in apprehending him, police said, and the thief made off with \$70 belonging to one of the brothers.

The two pursuers described the person suspected of the crime as being of college age, 5 ft. 10 in. to 6 ft. in height, dark hair and wearing a grey coat, police said.

Police reported they have questioned a number of people including seven who are not connected with the university, but believed to have been in the vicinity of the dorms at the time of the thefts. No arrests have been made, police said.

The police said most of the money was lifted from the wallets, but four billfolds removed from the rooms have been recovered.

Twenty-eight complaints from 10 from Armstrong and Bailey were received from students whose rooms were entered during the early morning hours Wednesday, police said.

A number of petty thefts have occurred in the Men's IM building during the year which has added up to a considerable amount, Richard Bernitt, assistant director of the MSU Department of Public Safety, said.

During fall term there were about 152 reported larcenies from the IM building with a total of \$344, and so far during winter term there have been 11 larcenies reported with a loss of \$282, Bernitt said.

In most instances, he said, the money taken, consisted of cash and clothing, which had been placed by the owner in a locked locker.

Other losses on campus reported to police in the last two months have been the theft of a wallet in Abbot Hall with a total of \$45 and \$20 was taken from a wallet in Emmons. Another student in Emmons reported \$20 missing from a wallet which fell out of his pocket and was later recovered.

Vets Hold 'Winterland Whirl'

The second annual All University Winterland Whirl, sponsored by the Veterans Association of MSU will be held tonight at the Lansing Civic Center, starting at 9 p.m.

Tickets to the Whirl are still available on advance sales, and will be purchased at the Vets office from 2 to 4 p.m. Tickets will also be available at the door tonight.

Roundtable Discusses AUSG Bill

The controversial Student Congress bill seeking MSU's withdrawal from the National Defense Education Act loan program was a major point of discussion Thursday, as student and administrative leaders met at the first Spartan Roundtable meeting of the term.

Bill Livingston, All-University Student Government president, explained what he called a misunderstanding in the proposed resolution's content. He said the bill proposed dropping NDEA loan aid not because of the requirement that loan recipients sign a loyalty oath but because of the accompanying disclaimer affidavit.

The disclaimer requires a student pledge that he does not believe in or support groups which endeavor to overthrow the United States government by force.

Supporting the loan program as being worthwhile even with its present requirements, Athletic Director Biggie Munn said, "You shouldn't try to shoot Santa Claus."

Director of Admissions and Scholarships Gordon Sabine said some 500 high school seniors, mostly from Michigan, will be on campus Feb. 26 to take alumni scholarship tests and will need overnight lodging.

Volunteer housing offers are being considered by some off-campus living groups. It is not expected that dormitories could contain the entire group of visitors.

A suggestion was discussed that a campus-wide social calendar be devised as far as two terms in advance, attempting to avoid duplication of events on a given date.

Veterans Assn. representatives said it is less expensive to rent outside facilities for dances than to hire the Aud on campus.

Persons who hold invitations tickets can exchange them either at the Vets office or at the door.

The dance, this term's only All University affair sponsored by the Vets Club is featuring dance music by the Modern-Airs band. Intermission entertainment will include the International Club.

TEN SEMI-FINALISTS for the Vets Sweetheart were chosen Thursday. (L. to R. back row) Julie Shook; (seated) Robbie Williamson, Betty Kathy Anderson, Battle Creek sophomore; Pat Hefflin, Birmingham senior; Brenda Friedlund, Detroit junior; (middle row) Sharon Fraser, Detroit junior; Jan Bjornseth, Perry sophomore; Julie Shook; (seated) Robbie Williamson, Betty Kathy Anderson, Battle Creek sophomore; Pat Hefflin, Birmingham senior; Brenda Friedlund, Detroit junior; (middle row) Sharon Fraser, Detroit junior; Jan Bjornseth, Perry sophomore.

Foreign Film Series

'St. Trinian'—Subtle Satire

By BILL DOERNER

If Britain's educational system is accurately reflected in "Blue Murder" at St. Trinian's, the current attraction of the Foreign Film Series, Dr. Conant would find himself in seventh heaven.

This far-fetched, but fairly entertaining, farce follows the young ladies of the St. Trinian's School for Girls across the continent on a UNESCO-sponsored educational goodwill tour. The plot is slightly complicated because the aforementioned young ladies who won the trip dishonestly, have in mind as the real purpose the hand in marriage of an Italian prince, and are chaperoned by a disguised, diamond thief.

British film makers seem to swerve from one extreme to the other where comedy is concerned. Their side-splitters are either arch-subtle or pure slap-stick, "St. Trinian" falling into the latter category. The actors seem all too anxious to extract every laugh possible from the audience, making the really funny parts seem labored.

There are, however, some up-totally funny scenes and a few shrewdly subtle ones. The girls' forethought and calculation is going to be a major nuance are left undeveloped.

No one is going to roll in the aisle over this one, but nearly everyone will be glad he saw it.

Panel Discussion Set

The MSU International Club will discuss, "Was the Eisenhower hour of Asia successful?" Friday at 8 p.m. in 31 of the Union.

A panel of four will be moderated by Prof. Lawrence Battistini, social science department.

A traffic signal was installed on S. Harrison Rd. at the Marigold Ave.-Shaw Lane intersection Thursday by East Lansing city officials.

Used by the traffic commission to relieve traffic congestion, the signal cost an estimated \$3000 and is provided by the Lansing board of water and light.

Farmhouse fraternity will be dedicating its new house on Saturday at 3 p.m.

Mrs. John Hannah along with the national president, vice-president, secretary and other dignitaries will be present.

Dedication Scheduled

Interested in photography since himself exclusively to color motion picture photography since its beginning, his travels have also taken him to Europe many times.

The Tass account said the first of a series of tests to develop powerful missiles "for orbiting heavy earth satellites and for reaching space flights toward the planets of the solar system."

In order to gather further experimental data, further tests will be made, Tass said, and the rockets will fall within the zone prescribed.

The Russians announced Jan. 1 they intended to fire powerful rockets for space exploration into the central Pacific and warned aircraft and ships to stay out of a 280 by 160-mile area southwest of Hawaii.

The Tass account said the next to last stage, together with a dummy nose cone, reached the target site after developing a speed of over 16,150 miles an hour.

Dr. James Feurig, Olin director, said the coed had been hospitalized since Monday. She had been under medical treatment for seven years, he added.

Funeral services will be in Olin.

Russians Fire Missile At Mid-Pacific Target

Senators Probe Drug Use

WASHINGTON (AP)—Senate investigators set out amid some heat and agitation Thursday on a probe of profits in tranquilizer drug.

Right off they developed testimony that Smith Kline & French Laboratories of Philadelphia made about three times the 11 percent average annual profit rate for all U.S. manufacturers in 1958.

"How can you justify that?" demanded Sen. Estes Kefauver (D-Tenn). "Don't you think you ought to have a little compassion on these tranquilizer users?"

Walter Munn, president of Smith Kline & French, testified from the witness stand that the prices charged by his firm are reasonable.

He said the drug making business is "not a bed of roses." He said the company has spent almost 70 million dollars since 1950 on research, and has a research budget for this year exceeding \$13 million.

Munn was the first witness at a new series of hearings by the Senate Antitrust and Monopoly Subcommittee, which investigated the cost of arthritis drugs last month.

Kefauver, chairman of the subcommittee, said the sale of tranquilizers is now running at a rate of between 175 and 200 million dollars a year at the manufacturers' level. He did not estimate the retail sales figure, but said the hearings would seek to determine whether the buying public is being "adequately protected by the forces of competition."

The hearing got off on a non-trivial note with Sen. Everett Dirksen (R-Ill.) protesting what he called the "absolutely incredible and fantastic reports of drug profits from last month's session."

"Bulgaria" Film Set for Saturday

An all new color film, "Bulgaria," produced and narrated by world traveler Alfred Wolff will be shown Saturday in the Aud. at 8 p.m. as a presentation of the World Travel Series.

The new picture filmed behind the Iron Curtain offers a contemplated outline of such old-world sights as Horos and Rachenitas folk dances, the Belgrade folk and the old fortress, Russe, the largest Danubian port and Cham-koria, summer palace of the former king. Contrasting the old with the new will be scenes of Dimitrovgrad, model of the new type of Soviet city built only nine years ago.

Interested in photography since himself exclusively to color motion picture photography since its beginning, his travels have also taken him to Europe many times.

Both performances begin at 8:15 p.m. Reserved seat tickets are priced at \$3.50, \$3 and \$2.50. Students may obtain a ticket at the Union ticket office with activity books. ID's must be presented at the Aud.

WKAR Announces Openings for Students

Larry Frymire, manager of WKAR radio, has announced positions open in the station for continuity writers, announcers, and production assistants.

The job of production assistant might be particularly valuable, Frymire said, for it could provide experience in recording, direction, writing and announcing. All jobs, however, will provide an opportunity for the student to work with regular staff members; such experience will prove of particular value when filling in the "experience" column on a job application after college.

Multi-stage Rocket Misses Bullseye by Little Over Mile

Attempt into U.S.-Controlled Area First in Series to Mars, Venus

MOSCOW (AP)—A Soviet test rocket fired from a third of the way around the world missed its target in mid-Pacific by only a little over a mile, the Russians announced Thursday.

The shot into a normally American-controlled bullseye area about 1,000 miles southwest of Hawaii was fired from a distance of about 7,760 miles, said Tass, the official Soviet news agency.

It was billed here as the first of a series of multi-stage ballistic missiles intended for flights toward such planets as Venus and Mars.

The announcement, about 24 hours after U.S. military satellites disclosed detection of the shot, contradicted early speculation by Washington officials that it apparently missed by hundreds of miles.

Tass said the "dummy" nose cone hit the water only 1.24 miles from the predetermined point at 8:05 p.m. Wednesday. Moscow time (12:05 p.m. EST) after the next by last stage disintegration and burned in the atmosphere about 50 miles up.

The claim was a dramatic counter to the disclosure by President Eisenhower in his State of the Union speech that 14 U.S. Atlas missiles had scored hits less than two miles from their targets at a range of 5,000 miles.

Washington military officials said Thursday they later information indicated the Soviet missile did fall within the target area—a zone of 34,800 square miles.

The timing of the next to last stage, as described by Moscow, apparently accounted for the report of Capt. R. A. Green, an Australian airline pilot who saw a "large bright orange flash" going off at the time given by the Russians. He said he plotted the position and believed the rocket exploded approximately at least 200 miles from the target zone.

He said he was flying at 20,000 feet and "we actually looked down on the explosion which was at 2,000 feet."

Speculation in Washington was that the rocket was fired from Tyura Tam, in the area of the Aral Sea in southern Russia. Rockets of the 7,000 to 8,000-mile range fired westward from that site could reach nearly any point in the U.S.

The feat was announced with little fanfare, unlike that sounded by the moon and lunar shots, when radio broadcasts of the news were accompanied by the national anthem and ringing of the Kremlin chimes. Little excitement was shown in Moscow by Thursday's announcement.

Tass said the rocket was the first of a series of tests to develop powerful missiles "for orbiting heavy earth satellites and for reaching space flights toward the planets of the solar system."

In order to gather further experimental data, further tests will be made, Tass said, and the rockets will fall within the zone prescribed.

The Russians announced Jan. 1 they intended to fire powerful rockets for space exploration into the central Pacific and warned aircraft and ships to stay out of a 280 by 160-mile area southwest of Hawaii.

The Tass account said the next to last stage, together with a dummy nose cone, reached the target site after developing a speed of over 16,150 miles an hour.

'Apathy' Riles Faculty

Viewpoint Programs Bring Reactions

Are the charges that the students made Sunday on WKAR's "Viewpoint" justified?

Interviews with faculty members revealed diversified feelings about the panel's topic.

Associate English Professor Arthur Sherbo agreed to the charge that there is quite a bit of apathy among underclassmen, and that there is no reason for it.

"Any student coming to MSU or to any other university has every means at his disposal to be something other than apathetic," he said.

"There are good employers and bad employers, good politicians and bad politicians, good dog catchers and bad dog catchers," he said, indicating that apathy will be found not only

here but in almost every phase of life.

However, Dr. John Ryder, Dean of the College of Engineering, does not think there is apathy in the student ranks.

"No student with apathy is going to graduate from engineering," he said.

He felt that this not only applied to engineering but to other courses as well—that a student is not going to receive a degree for being apathetic.

Edward Blackman, head of communication skills, thought the students that appeared on "Viewpoint" were not sufficiently equipped to draw the conclusion they did in regard to the charges made.

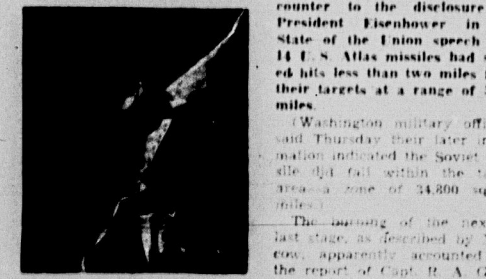

Blackman believes the first problem would be to define apathy. This would be exceedingly difficult because different people have different goals and have varying amounts of zest.

Because a person is not interested in everything but before him does not mean that he is apathetic. For a person to tag a department or a course as requiring a lot of research. Blacking foolish or insulting would mean implied that this was not done before the students appeared on "Viewpoint."

It was suggested on the program that the remedial services at MSU are not good.

Information obtained from Elizabeth Rusk, director of improvement services, indicate the contrary.

Figures show that students who passed remedial English went on to pass comm. skills the following term. Had this service

Disclaimer Affidavit Outrageous Affront

By Bill Callahan

LAST FRIDAY, after expressing some unflattering, albeit honest opinions of Student Government, I was pleasantly surprised to see that body take one of the stronger and more admirable positions it has taken in the limited range of my recollection.

The resolution presently in the legislative grid will to withdraw from the National Defense student loan program because of the loyalty oath requirement is a commendable action. It is basically an honest stand, for I am sure the originators of the bill will receive much more criticism and abuse than the praise and support they deserve.

As to my earlier comments about the effectiveness of Student Government, I reserve judgment on their accuracy. Somehow, I find it hard to believe the university would actually withdraw from the program should the resolution pass. Whether or not withdrawal is accomplished, the fact remains that at least some Student Government representatives have spoken firmly and with fortitude.

THE LOYALTY OATH clause seems to me highly objectionable and farcical. The dispensers of the fund seem to be laboring under the assumption that a significant number of American college students applying for loans may be Communists, socialists, terro, "bad", or other types of subversives. Thus, the high muckymucks have placed the onus of a loyalty oath upon all applicants for such aid. So long as this assumption is false the oath is supererogatory and insulting. In any case in which it is true the oath is useless.

For I am just as certain no actual Communist would admit disloyalty as I am certain that 99.8 percent of the applications will be given only the most superficial perusal by some bored government clerk. Thus, the requirement serves only to irritate and insult the loyal students who apply.

Such prying into privacy is unpleasant in proportion to one's self-respect. If the victim is a low sort with little self-esteem, he probably is not greatly offended. But if he has a reasonable amount of dignity, and is accustomed to the trust and respect of his fellows, he considers such snooping an outrageous affront. If he has any backbone or moral conviction whatsoever, he simply will not tolerate this sort of treatment.

SINCE I AM accustomed to being let alone, and feel that one's loyalty should not be questioned without cause, I regard such bureaucratic concern with my political philosophy on the same level as curiosity about my religion.

My beliefs, to the extent that I do not pester others to adopt them or do not trespass upon or injure the rights and liberties of other citizens, are my private business. All who are curious about such matters I invite to go to hell. If such curiosity should become oppressive, I would call in the police to remove the annoyance. So, should the police or any other governmental agents press me for such information, I would resist them with every means I could muster. This, I believe, is as it should be in a free republic.

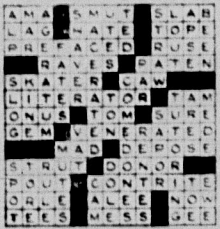

THE ISSUE IS CLEAR CUT. The thing that has frightened me all this week is how apparently few students grasp the significance of the loyalty oath, and how many see no evil in it.

I think some words H. L. Mencken set down 25 years ago are as applicable today, and to this matter, as they were then.

"The only way that democracy can be made bearable is by developing and cherishing a class of men sufficiently honest and disinterested to challenge the prevailing quacks. No such class has ever appeared in strength in the United States. Thus, the business of harassing the quacks devolves upon the newspapers. When they fail in their duty, which is usually, we are at the quacks' mercy."

"Mirror, Mirror, On The Wall, Who's The Fairest One Of All?"

William Ryan

A.P. Analyst

Views the News

Moscow's Pacific missile are mounted with powerful political overtones.

The Kremlin advertised the peaceful intentions of its rocket tests in advance, but the timing and the propaganda involved in the experiments betoken power politics.

The formidable rocket's nose cone pointed into the Pacific just after Japan signed a new alliance treaty with the United States, authorizing continued presence of American troops on Japanese soil. That treaty is now being denounced by the Russians.

Well ahead of the rocket launching, the Russians launched a propaganda campaign aimed primarily at Japan but coincidentally at all Asia. It proclaimed the project as a peaceful Soviet test of space probe capabilities.

But the announcement of the first test, laying heavy stress upon the accuracy of the missile,

tells Asians the Pacific Ocean no longer is an American lake. The missile carries a message despite the presence of American troops in Asia, that the United States itself is well within range of Soviet weapons. Americans can guarantee no shield either for Asia or for themselves.

Just a day before the launching, Gen. Valentin Penkovsky, Soviet Far East Military District commander, called the new Japanese-American treaty an "alliance with foreign atom-bombers" which endangered peace in the Far East and thus could not be overlooked by the USSR.

"Any fresh aggression by Japanese militarists would lead to such devastation in Japan as would place in doubt her very existence as a state," Penkovsky added.

Then came the missile, announced as flying 7,760 miles, significantly in excess of the 6,300-mile range of the Atlas in-

tercontinental ballistic missile tested by the Americans in the Atlantic.

The tests will be regarded in many areas as a demonstration of Soviet strength in super-weapons—the sort of strength Nikita Khrushchev boasted of last week in his marathon address to the Soviet parliament.

The series of Soviet missile tests in the Pacific, accompanied by claims of pinpoint accuracy, will be fresh in mind as the four big powers gather in May at the Summit. The demonstration hardly is likely to weaken Khrushchev's position.

Khrushchev long has subjected the United States to a probing international position, from a position of strength. Now he is approaching the Summit from a position of strength. Indeed, there is even a note of outright hostility in the approach, as if Khrushchev were telling the West it's coexistence or nothing—and coexistence on Communist terms.

Letters to the Editor

Defends Oath's Usefulness

To the Editor:

The loyalty oath affidavit in the National Defense Education Act states that any citizen who applies for a federal loan does not belong to, or serve in, or support any organization that believes or teaches the overthrow of the U.S. government by force or violence—or by any illegal or unconstitutional means.

It is noted that most of the news stories and commentaries dealing with this affidavit have neglected reporting the complete facts regarding this safeguard. Such reporting apparently has permitted spurious argument to arise for its removal. For example, it is argued that the "truly subversive individual would have no compunction against signing the oath" and, therefore, the implication is that it is a meaningless restriction.

However, such reasoning fails to take account of the unmentioned fact that the signing of the loyalty oath affidavit by anyone who believes in or advocates the forcible overthrow of our government can serve as a basis for future prosecution by the Federal Government.

The language of this provision stated in the Defense Education Act is such that it makes the provisions of Section 1001 of Title 18 of the United States Code applicable with respect to all affidavits which are executed. Section 1001, Title 18, USC, is the general provision in the Federal Criminal Code relating to false, fictitious, or fraudulent statements which are made regarding matters within the jurisdiction of any department or agency in the United States government. Individuals who violate this provision are subject to a fine of not more than \$10,000 or imprisonment for not

more than five years or both.

There is, therefore, no doubt that the signing of the loyalty oath affidavit would be binding in a court of law. And, in point of fact, it has been through the perjury provisions of our Federal laws that the Justice Department has had the highest degree of success in obtaining criminal convictions against those who believe, practice, and advocate forcible overthrow of our Federal government.

Moreover, it is apparent that this lack of reporting of salient facts is related to the news sources involved. For example, in the State News of Wednesday, Jan. 20, it was stated that "in an effort to examine both sides, the committee (on organization) is studying reports from the National Student Association bearing on the disclaimer."

Now, I would hardly call the News-States National Student Association an impartial source of data whereby one can examine both sides. Dr. J. B. Matthews, who is a veteran investigator of Communism, has made these remarks about the USSSA:

"(1) that the policies and program of the USSSA embrace the important lines of the Communist party insofar as these touch upon the questions involved in student life and activity on the campuses of American colleges and universities; and (2) that the adult leaders, speakers, and advisers of the USSSA represent a high degree of left-wing and pro-Communist infiltration of the organization."

These remarks can be found in the Congressional Record, July 14, 1958.

I would think that if there are any students who are truly interested in the "other side" that they might make contact with the following national organization: National Student Committee for the Loyalty Oath, 2405 37th St., N.W., Washington, D.C.

'Winterland Whirl' Highlights Weekend

By LINDA BAUMER

This is the term of the big, big dances. Sponsored by a variety of groups, they have been geared to fit both the taste and personality of every Spartan.

The Vets-sponsored "Winterland Whirl," first of the big affairs, has been scheduled for Sunday evening at the Civic Center. The semi-formal dance will feature the music of the Western Aires, entertainment by the International Club and the singing of the Vets Assn. afterward.

The annual Forestry Shindig will be held Jan. 30 in Dem Hall. Dress for the dance is to be "very informal" as guests are urged to wear their most comfortable clothes. A much-anticipated part of the event will be the judging of the traditional beard-growing contest.

An important guest at the shindig will be the lumberjack's Paul Runyan and Babe, his 12-foot Log fences and 40 specially imported red pine poles to add to the atmosphere. Tickets are available from Forestry Club members or at the door.

Following the very informal atmosphere of the Forestry Shindig comes the only formal dance of the year—the Hop. This year couples will take a cue from the "danceable" music of the Latin. The orchestra is promised to play from 9-12 p.m. breaks in the evening will be a "stringin' affair" which will be forgotten in the hot heat of this term (especially the men) is the Spinsters' Ball. Traditionally, this is a ball for the men to forget their wives, for the woman is required to pay. The date to circle on a calendar for the Spin is Feb. 26.

Suggesting the topic to fraternal parties — the men of Phi Sigma Kappa and their dates will take a cue from the cold and snowy weather of the last week and hold a "Bundle Party" on Monday. It will have a "Bundle Party" this evening. Packages, including Herman the

Models Selected for Union Board Week Fashion Show

The following students were recently selected for the Union Board Week Fashion Show on February 1.

Models are: Jim Blasen, Grand Rapids senior; Dave Dickinson, Jackson sophomore; John Beck, East Lansing sophomore; Fred Mar-Fachin, Grandville sophomore; John Blanchard, Cedar Springs senior; Jim Kiewicki, Lansing sophomore.

Others selected were: Nancy Stevens, Lansing junior; Sally Spiller, Riverside, Ill. sophomore; Phyllis Zimmerman, Howell, freshman; Carol Farko, Detroit freshman; Nancy Kelly, Vermontville sophomore; Jan Rijnsooth, Perry sophomore; Katie Anderson, Battle Creek sophomore.

Sheila Aabe, Detroit sophomore; Allison Mills, Wheeler sophomore; Arnie Roberts, Motion, Pa. junior; Jim Kirkindall, Huntington, Ind. sophomore; Terry Davis, Charlotte, N.C. junior; Jim Fink, Rochester sophomore; Tom Donaldson, Midland junior.

Religious Groups Plan Varied Activities

Various religious organizations have planned programs of recreation and devotion for the weekend. Included in the plans are a prize-winning film and a discussion forum.

Members of Gamma Delta will meet at the chapel at 8 p.m. Friday for a skating and sleding party. A doctrine study group is planned for 4:30 Sunday afternoon. Following the discussion, a weekly cost plus supper will be held.

The graduate group of Inter-Varsity Christian Fellowship will gather from 7:30-9:30 p.m. Saturday for an evening of recreation, singing and devotion. The meeting will be held at 593 Virginia, East Lansing. For transportation meet at 7:30 p.m. in the Union lobby.

Hillel Foundation will present the prize-winning film "La Strada" at 7:30 Sunday evening in 31 Union. The topic for discussion will be "Theological Life."

Wesley Foundation is conducting a Bible study class at 9:45 Sunday morning at Wesley House. A forum will also be conducted at 7:00 Sunday in 31 Union. The topic for discussion will be "Theological Life."

Skiing Conditions Good At Michigan Resorts

The following ski conditions prevailed Wednesday night at selected resorts as reported by the Michigan Tourist Council:

BOYNE MOUNTAIN 8 to 48" packed base 9" new snow. Skiing excellent.

CABERFAE 2 to 4" packed base 15 to 18" powder. Skiing excellent.

MT. HOLLY 6 to 12" base 3" new snow. Skiing excellent.

SUMMIT SKI AREA Skiing excellent on 7 slopes. 6" new snow. Night skiing excellent.

Former MSU Coach Dies in Grand Rapids

Charles McCaffrey, Spartan swimming coach, expressed his regrets at the recent death from a heart attack of David Clark, worthy swim coach of Grand Rapids Central High School, a graduate of MSU and former coach of MSU team member Jack Wickering.

"Dave was a real good friend of MSU and the swimmers," McCaffrey said. "He was pioneer in a town where there are no school pools. He was interesting boys in the sport and doing a good job."

Swimmers First Road Trip Will Bank on New Lineup

The Spartan tankers go on their first road trip this weekend for the dual meet with Minnesota Saturday.

The Gophers host to Michigan last week, 49-39. Their captain, Chip Peterson, won the individual medley in 2:11.9 to break his own pool and varsity marks.

Coach Charles McCaffrey will be trying to offset Peterson's power by using different men in the individual medley, as he is considering using two of three possibilities in Dave Diget, Dick Brackett or Carl Shaar.

Peterson is also adept in the 100-yard freestyle and in this race will be meeting Larry Jones, State's powerhouse in the event.

Gopher Bill Carney, who has broken Minnesota's varsity record in the 400-yard freestyle so far this season, will contend with State's distance men, Brackett, Chalmery Johnson or Dick Blazewski.

McCaffrey expects the 200-yard breaststroke to be a good race with Minnesota's Duane Quenette, who's been turning in good times, pitted against MSU's Frank Modine and Denny Ruppert.

Carney and Clark Bergman for Minnesota will be racing against Ron Gage and Jack Wickering in the 200-yard backstroke. Carney was second in this event in the Michigan meet, and Bergman was first in Minnesota's win over Gustavus Adolphus College.

Undefeated Wrestling Squad Host to Buckeyes Saturday

By MIKE SKINNER

Michigan State's undefeated grapplers play host to Ohio State's Buckeyes here Saturday at 3 p.m. in their first home match of the season.

Assistant Spartan coach Gale Mikles said that the local forces expect another close match. Asked whether one team was favored over the other he said, "I had to pick one squad over the other. I'd say that Michigan State has a slight edge."

However he quickly pointed out that the Buckeyes are well stocked in the 130 lb. and 177 lb. divisions, and that they were well represented by a fast coming sophomore in the 157 lb. competition.

The pivotal matches in the meet will be in the 137, 147, and 157 lb. classes," he said. According to Mikles if the Spartans win in these spots they will be in a good position to capture their third straight win.

State's hopes ride strongly on the performances of 123-pounder George Hobbs, Normal Young at 137 lbs., Bob Moser in the 157 lb. class, and heavyweight John Baum.

To date Hobbs and Baum haven't lost a match. They've won three each. Young has won two and was tied one, and Moser has captured two wins and suffered one loss.

Last season the Spartans shelled Ohio State 22-6, but the Bucks placed ninth in the Big 10 meet, while Michigan State ranked third. According to State officials the Ohio grapplers have improved somewhat for this season.

Michigan State's lineup for tomorrow's card will include at 123 lb., Hobbs; 130 lb., Steve Kramarczyk; 137 lb., Young; 147 lb., Gordon Johnson; 157 lb., Moser; 167 lb., Bob Schmitt; 177, Jim Conley; and Heavyweight, Baum.

The installment of Conley in the 177 lb. class is expected to strengthen the Spartans lineup. This division has proved a trouble spot during the opening two meets.

In State's two previous meets this winter they have been rather fortunate in cashing in on their share of the breaks. In the Quadrangular Tournament with Northwestern, Minnesota and Purdue at Evanston, Ill., Jan. 9, the Spartans upset highly favored Minnesota when the Gophers lost two of their regulars by injury and ineffectiveness.

Last weekend MSU hammered Illinois 22-5, by taking advantage of several Illinois mistakes. Illinois was without the services of three of their early starters, one by the flu and the other who left school.

These breaks definitely have helped the Spartans keep on the winning track, but as head coach Fendley Collins pointed out, "the breaks have helped, but generally speaking we owe most of our success to the team's aggressiveness and strong desire to wrestle."

MSU Hockey Team Travels To Houghton for Dual Battle

Michigan State's hockey team travels north to Houghton this weekend to battle the rough and tough Huskies of Michigan Tech in a pair of WCHA encounters.

The Spartans, after their finest showing of the year last Saturday night against Michigan State, seem to be on the way up after a miserable start. But they will be running into a Huskie squad that is blessed with exceptional speed and scoring potential.

Due to the Spartans' 4-2 triumph over Michigan last week, Denver has moved back into first place in the WCHA with an 8-3-1 mark. Michigan is second at 4-2, and Michigan Tech third, followed by Colorado College at 2-4.

Michigan State has an excellent opportunity to move ahead of idle Minnesota because the Spartan-Huskie series is the only WCHA action scheduled. A pair of wins over Tech would give the Spartans a 4-9-1 mark and would push them into sixth place, dropping Minnesota, at 8-3-1, into the cellar.

MSU's next home games are Feb. 5 and 6 against Michigan Tech.

Michigan State's lineup for tomorrow's card will include at 123 lb., Hobbs; 130 lb., Steve Kramarczyk; 137 lb., Young; 147 lb., Gordon Johnson; 157 lb., Moser; 167 lb., Bob Schmitt; 177, Jim Conley; and Heavyweight, Baum.

The installment of Conley in the 177 lb. class is expected to strengthen the Spartans lineup. This division has proved a trouble spot during the opening two meets.

In State's two previous meets this winter they have been rather fortunate in cashing in on their share of the breaks. In the Quadrangular Tournament with Northwestern, Minnesota and Purdue at Evanston, Ill., Jan. 9, the Spartans upset highly favored Minnesota when the Gophers lost two of their regulars by injury and ineffectiveness.

Last weekend MSU hammered Illinois 22-5, by taking advantage of several Illinois mistakes. Illinois was without the services of three of their early starters, one by the flu and the other who left school.

These breaks definitely have helped the Spartans keep on the winning track, but as head coach Fendley Collins pointed out, "the breaks have helped, but generally speaking we owe most of our success to the team's aggressiveness and strong desire to wrestle."

IM Arena Setting for Gym Meet

The Spartan gymnastics team will meet Minnesota Saturday in the IM arena for its second Big 10 meet of the season.

State's gymnasts swamped Central Michigan and Ohio State in previous outings this year. The Gophers have a 1-1 season record.

Coach George Szypula was very pleased with the performances given last week by his men and hopes that they will turn in as good or better performances in Saturday's meet.

"Our best team strength will be in free exercise, tumbling and rebound tumbling," Szypula said. "Stan Tarshis on the horizontal bar is always a strong help."

According to Szypula, Cayo, Angie Festa is improving his skills rapidly and is becoming an even better all around threat on the still rings.

Steve Johnson turned in one of his finest performances against Ohio State. Currently, Johnson, Tom Temple and Chuck Thompson constitute one of the finest rebound teams in the Big 10.

John Daniels is still undefeated in free exercise and tumbling this season. According to Szypula, Daniels is one of MSU's strongest threats. Dick Berber has returned to the lineup and it is hoped that he will help add to the point accumulation Saturday in the free exercise competition.

Although Larry Bassett will be unable to compete due to an injured hand, Szypula feels that Shorr, who mated first place honors against OSU on the parallel bars, is a good threat against this week.

"This year Minnesota is one of the best in the Big 10 and this meet should prove to be a very exciting one," was Szypula's comment when questioned on his team's prospects.

AC QUESTMANSHIP

SEEK AND SOLVE THE SIGNIFICANT WITH AC... IN MILWAUKEE!

Because of GM's large defense contribution toward technological superiority, AC accepts a challenge. AC is on a quest for significant scientific concepts. Based on past accomplishments—such as Achiever inertial guidance for Titan—AC will solve large problems. You may qualify for our specially selected staff if you have related experience plus a BS, MS or PhD in EE, Math or Physics.

ADVANCED SYSTEMS R & D—Current programs include interplanetary navigation and guidance; digital computer development; advanced inertial sensors; passive electromagnetic detection, surveillance and navigation systems; guidance systems for ballistic missiles, space vehicles and aircraft. **SYSTEMS ENGINEERS**—Advanced design of servo-mechanisms, systems mathematical analysis servo synthesis, probability studies, systems reliability analysis. **ELECTROMAGNETIC RESEARCH AND DEVELOPMENTS**—Research to advance the state of the art in devices such as gyros, accelerometers, and pickups. **DIGITAL COMPUTER DESIGN ENGINEERS AND ANALYSTS**—Logic design, pulse circuit design, minimization methods, input-output quantization, logic module packaging, programming research, digital computation research, memory design. **GYRO-PROJECT ENGINEERS**—AC's success has brought in eight new projects. Men are needed to design and evaluate gyroscopes and accelerometers. Experience in electronics, electromagnetics or electromechanical design is desirable. **PACKAGING ENGINEERS**—Research to develop revolutionary packaging techniques for electronic miniaturized assemblies and sensing devices for use in space and radiation environments. **PRODUCT DESIGN ENGINEERS**—Design, development and test of electronic components, servos and circuits. **FIELD ENGINEERS**—Emphasis on missile inertial guidance equipment and bombing navigation systems. AC will give you comprehensive formalized training leading to domestic and foreign assignments. **RELIABILITY ENGINEERS**—Key positions for electrical and mechanical equipment designers, mathematicians, and quality control engineers to perform design review, project coordination, parts evaluation, statistical analyses and test planning to produce superior product.

AC ALSO HAS OPENINGS FOR: ENVIRONMENTAL TEST ENGINEERS • TRANSISTOR APPLICATION ENGINEERS • BOMBING NAVIGATION COMPUTER SYSTEMS ENGINEERS • TECHNICAL WRITERS
INQUIRE ALSO ABOUT POSITIONS IN BOSTON AND LOS ANGELES.

Cagers Face Red-Hot Iowa

Nationally Televised Game Here Saturday

By **REN BURNS**
Associate Sports Editor

Coach Fordy Anderson's twice beaten cagers return to the home floor Saturday. Anderson hopes this and a strong Spartan turnout will turn the tide in favor of State.

The game, which will be televised as the "Big 10 Game of the Week," starts at 4:30 p.m. in the East Lansing Fieldhouse.

The two squads met last at Iowa City. In that game, the Hawkeyes downed the Spartans 67-59.

Since that date the Iowa cagers have moved into second place with a 4-1 record while MSU, defending Big 10 champion, dropped back into fifth place by losing a game Saturday, 96-88, to Illinois. State has a .500 percentage with a 2-2 record.

Both teams have suffered injuries within the past week. Coach Anderson indicated that the two would be ready to start Saturday. Coach Sharm Schuurman can't say the same for one of his top reserves, Mike Woods, who suffered an eye injury in a mid-week practice session.

Woods, who scored 10 points in the earlier contest, will probably be out of the next three or four contests.

Iowa's starting lineup will probably consist of forwards, Nolan, Gentry, 6-7 and Pete Schaefer, 6-5.

At the center slot will be Don Nelson, 6-5.

The guard posts will be held up by Mike Heligan, 5-8 and Ron Zager, 5-10.

Michigan State's regular five will be the probable starters again this week, with Horace Walker at the pivot, Olson and Scott at forwards and Fahn and Schwarm at the guards.

Schmitter Leading Fencers After 'Sword' With U of D

Michigan State fencers will be fighting for a sword when they travel to Detroit Saturday afternoon to face the U of D Titans.

The sword, an ancient weapon from the Republic of Colombia, exchanged hands last year when the Spartans bowed to Detroit in the opening meet.

Captain Chuck Schmitter, Jr. will be leading the epee squad. Last year he compiled an admirable 26-6 record in foil and won a third place medal in the 10 epee dueling. Doug Jewell,

Aft Dowd and Jim Clary complete the epee team.

The foil trio will include letterman Dick Lawless, and Bill McNamara and John Bolt, both newcomers. According to Schmitter, Lawless is improved over his 14-14 season last year.

Steve Arnest, ex-captain and fourth place medal winner in the Big 10 last year, is number one man on the sabre squad.

Don Johnson, Pat Mulholland, Neil Broxon and Larry Backus round out the team.

MSU Volleyball Team Sets Practice

The MSU Volleyball team has set its definite practice schedule for winter term. The times will be Monday evening from 6:30 to 8:30 in the Sports Arena of Men's 1M and Wednesday afternoon from 4-6 in Gym 1.
