Serving MSU For 50 Years

EAST LANSING, MICHIGAN—MONDAY, FEBRUARY 1, 1960

## Rebel Ranks Thin in Algiers

### 8 Student Leaders Back ROTC As Is

#### Faculty Committee Stresses Importance of Army Reserve

By D. PETER WALTERS  
State News Editor-in-Chief

Eight leaders of student groups have aligned themselves with the backers of compulsory ROTC at MSU, while the faculty committee to preserve required basic military training for freshmen and sophomore men has issued its second "fact sheet."

The student backers of compulsory ROTC include top officials of All-University Student Government, Letter-Fraternity Council, Union Board, Excalibur, Blue Key and Veterans Assn. They said in a press release they are concerned solely with Army reserve officer training, since the Air Force does not consider the existing program satisfactory in filling its requirements.

### Columnists Address Journalists

#### Sylvia Porter Talks On U.S. Economics

Two syndicated columnists, Sylvia Porter and Earl Wilson, addressed the Michigan Press Assn. conference this weekend at Kellogg Center.

Miss Porter, columnist on financial affairs and financial editor of the New York Post, explained to her listeners Friday why she had embarked on her "peripatetic of making economics understandable."

"An income revolution has taken place in the United States to make it the greatest income nation in the world," Miss Porter said. "Americans are now earning enough to want to read about economics," she continued.

Only the very wealthy cared about the income tax structure during the 1950's, she said. Now everyone is interested in taxes.

Women demanded to know about economics, she said, after they became working girls. During World War I women worked in the factories and after the war they went back home. In World War II women went to work but this time they did not return home.

Women no longer want to be well paid and bore their husbands who want to talk to them, she said.

The financial heart of America is no longer the stock market, she said. "Wall Street and Main Street have become married, for over 15 million employees are investing in stocks and there is no question that stock ownership is going to expand."

"Although interest in economics is very high, illiteracy on the subject is appalling," she said. "Less than five percent of the people take a course in economics, and those who have haven't gained much because teachers are ill informed. Colleges are just as bad as high schools."

Earl Wilson, Broadway columnist from the New York Post, opened his talk Saturday night with the prediction that there will be fewer "bullet" conversations covered by newspapers in this decade than in the last two decades.

Wilson said there should be more clowning around in the newspaper business. This was made clear to him when he was covering the Democratic national convention in Chicago in 1933 where he saw Will Rogers writing about the humorous side of politics.

Wilson's unique style of using abbreviations in writing about his family affairs sometimes becomes confusing due to unexpected changes so that BW can mean either beautiful wife or bourbon and water.

In describing how he makes the rounds of all the Broadway nightclubs, he said that his wife made it clear to him when he first started the column that she was to be known as the girl he goes with, not home to.

### MSU Student Admits Recent Wallet Theft

Larry Walker, Cadillac freshman, pleaded guilty to charges of looting walkers in the Men's IM bldg. in circuit court Friday and was jailed for sentence.

Walker was arrested in the act of looting a wallet from a locker on Jan. 22, according to police.

JERRY FOX, Detroit Junior, and Allan Riefield, St. Clair Shores senior, compose the French delegation at the Campus UN meeting Friday night.

### Bitter at West

## Hungarian Student Blasts UN Failure

By LYN SHEPARD

The responsibility of the United Nations is great, but its irresponsibility is greater, a Hungarian student told members of MSU's model UN Friday night in the Education Kiva.

Embittered by the UN's failure to aid Hungary's revolutionary forces in 1956, Joseph Molitoris, an engineering senior, said his nation's trust in the West is now destroyed.

Molitoris' impromptu remarks on the model UN's discussion question, "How the Foreign Aid Programs to Underdeveloped Nations Can Be Made More Effective," won prolonged applause from other student delegates.

"You cannot buy friends. You have to do more," he told listeners.

Impugning his "unpleasant interpretation" to the Soviet satellite nations, he said: "We don't need propaganda. We have had so much now that we can't digest it."

But there are channels through which you can achieve progress," he said.

One of these was the Hungarian refugee aid program. Even here, though, Molitoris detected a "bad taste" in the screening procedure which prevented Hungarians over 45 from coming to the United States.

"I know your purpose is to build a free world, but you cannot achieve this if you open only your pocketbooks and not your hearts," he said.

Molitoris agreed with the suggestion of an earlier speaker, Mike Belvan, Lansing sophomore, who had urged that the United States imitate the Soviet Union's foreign aid program.

"Today communism is fairly far from the United States. Twenty years ago it seemed almost as far from Hungary. Please prepare yourselves for the possibility that communism may knock on your door, too," Molitoris said.

Belvan, speaking as the Soviet Union delegate, outlined the Soviet strategy of world conquest through the theory of geopolitics. Noting weakness in the present

### Insurgents' Stronghold Weakens

#### French Army Stops Outside Support

ALGERS (AP)—Belaguered French insurgents, their ranks thinned by the desertion of some territorial troops, clung grimly to their barricades in the streets of Algiers Sunday night.

Around them was a ring of tough French army soldiers. French army action brought the first cracks in the position of the rightwing dissidents, who have been defying the government of President De Gaulle a week.

For the first time the army cordoned around the insurgent stronghold in the heart of Algiers kept out the Algerian mob and most of the rebel's outside support.

The marked stiffening of the army's attitude followed the sudden replacement of Brig. Gen. Jean Gracieux by Brig. Gen. Kieher Toulouse as on-the-spot commander. Gracieux was sent back to the countryside to fight the Algerian Nationalist rebels.

No assault on the barricades was expected Sunday night but it was obvious that the insurgents were covering in the face of the army's advances.

Inside the rebel stronghold scores of the estimated 2,000 holdouts pleaded with one of their leaders, Pierre Logallois, to surrender before it was too late. Others, however, refused to give in until there was still hope.

Army cordons held against the seething crowds of Europeans tried to get through side streets to the main plaza before the barricades. Only scattered groups got through out of the estimated 50,000 that tried.

Not even a terrorist bomb which killed four soldiers threatened the disciplined troops cordons. The bomb exploded on a side street near the barricades. Police said it was held by a Muslim Nationalist who was killed. Twenty others were wounded.

The soldiers opened their cordons to permit an ambulance and medical through and several hundred Frenchmen broke into the barricade area.

But then the army revealed their line with reinforcements and trucks drove across streets bumper to bumper, preventing the masses from answering the rebels' call to form a human wall before the barricades.

The week-old uprising against De Gaulle's self-determination policy for Algeria has been held since the French chief's Friday night broadcast from Paris.

The President denounced his army uniforms and ordered the army to end the revolt that he said was led by rebels and conspirators.

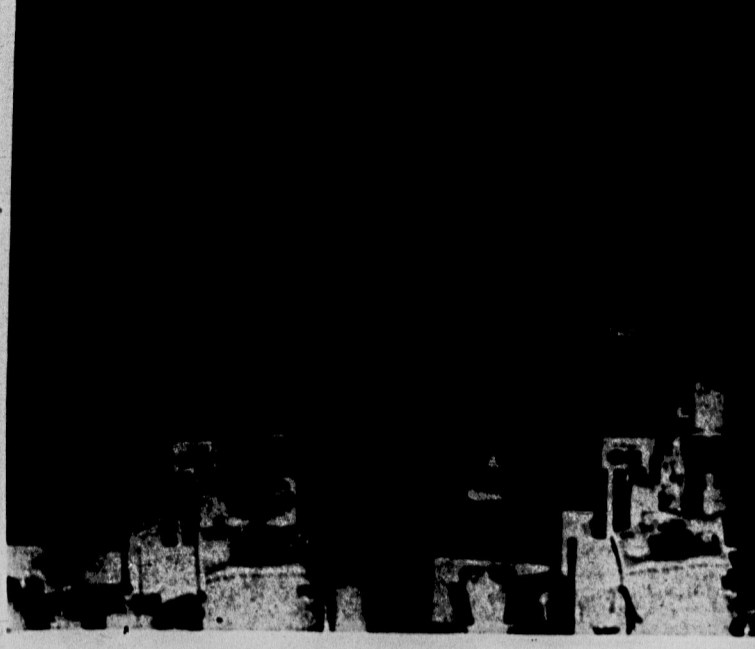

Top army leaders in Algeria have pledged their support to De Gaulle since then and general strikes and disorders in other parts of Algeria have subsided.

About 300 French territorialists, the backbone of the insurgent force, marched out of the barricades late Sunday afternoon.

### Rush Scheduled For Water Carry

Water Carnival rush for committee membership will be held Wednesday evening from 7-9 in 31 Union Committee chambers will be on hand to answer questions concerning their committee work.

Postings are available on the following committees: Productions, Theme and Continuity, Programs, Publicity, Judges and Trophies, Public Relations, Tickets, Water Sports and Side-lights.

EARL WILSON, syndicated columnist for the New York Post, and E. C. Hayshorn, president of the Michigan Press Assn., examine the groceries given everyone who attended the All-Michigan banquet Saturday night. The Michigan Department of Agriculture gave "boot bags" of products grown in Michigan.

### Impressive in First U. S. Tour

## Moscow State Symphony Impressive In Program of Native Compositions

By MARY ELLEN GOWING

The Moscow State Symphony, making its first tour of the United States, was enthusiastically received by a near-capacity crowd Friday night in the Auld. Conductor Konstantin Ivanov led his well-disciplined musicians through a program of native works composed by Mikhail Glinka, so-called founder of the "national" Russian style of music, and by the prolific Tchaikovsky.

The program opened with the fitting and brilliant "Overture to the Russian and Lullaby" by Mikoyan Set to Open Soviet Exhibit in Cuba

HAVANA (AP)—Soviet First Deputy Premier Anastas Mikoyan is coming to Cuba this week to open a Soviet exhibition. He could not be learned immediately here just who invited him because government offices were closed Sunday.

Mikoyan announced Saturday Havana had accepted a Cuban invitation to open the Soviet Exhibition and Cultural Exposition in Havana Thursday.

Glinka, highlighted by the technical precision and virtuosity of the strings.

Tchaikovsky's "Variations on a Rococo Theme" exhibited a contrast in mood and tempo. Daniel Shafran, cellist, played the demanding and intricate variations with accuracy and ease. A small chamber orchestra assisted the soloist.

The concerto in D Major, Opus 35, for violin, featured the unusual talents of Valerii Klimov. This young virtuoso gave a true account of his dexterity in a masterly performance. The allegro sections were machine-like in exactness and the quality of the instrument was warmly set forth in the slow section.

The concluding half of the program, consisting of the Symphony No. 3 in E Minor, Opus 64, as Ivanov led the orchestra through its most exciting performance of the evening.

The Russian interpretation of Tchaikovsky seems extremely straightforward and definite; perhaps less romantic than the Tchaikovsky to which we are accustomed. The entire program was rendered with simplicity and conviction.

The orchestra's weakest point was the woodwind section in which the oboe resembled an electric organ tone with a high vibrato. At times the section was lacking in good intonation, which proved to be a disturbing element. This factor was most evident in the "Variations."

The brass section was powerful and sometimes overwhelming. It was employed to best advantage throughout, and the two encores gave the section further opportunity to display its strength and quality.

In their first introduction to the Moscow State Symphony the audience showed a strong desire for its return in the future.

### Farmers To Arrive On Campus

Farmers from all over Michigan arrived on campus today for the beginning of the 45th annual Farmers' Week.

During the five-day educational event, the farmers said their wives will learn of research being carried on by the university, new wants expressed by consumers and new methods of production.

Special exhibits will open at noon today in Spartan Stadium, Agricultural Engineering, Dem Hall, Museum, Home Economics, Aud basement, livestock barns, Gilmer, livestock pavilion, meats laboratory, Dairy, Michigan Artificial Breeders cooperative and the new William Geagrey laboratory.

Farmers need to come and stay for the whole week, mainly to save traveling time and cost. Some will do, but many new come for a day or two or return home each night. For this reason, attendance at evening meetings has not been as heavy as a decade or so earlier.

Monday's program will center around dairy farming. A new feature this year will be the professional dairy farmers' session for farmers milking 50 cows or more.

Tuesday the accent will be on youth with 4-H club members presenting a program in the evening.

Wednesday's events will include a luncheon for the women, the annual short course graduates' banquet and the presentation of three distinguished service-to-agriculture awards.

Prize livestock will be auctioned Thursday. All departments have scheduled programs and the Centennial Farmers group—those living on farms which have been owned by the same family for more than 100 years—will hold a luncheon.

Sen. Philip Hart (D-Mich), member of the Senate committee on agriculture, will speak Friday at the farm management banquet.

## MSUO Flunk Rate Not Really So High

THE ANNOUNCEMENT LAST WEEK of the large amount of "F"s received fall quarter at MSUO has resulted in quite a bit of unnecessary consternation in educational circles on this campus.

In fact, since it was heard that, among other things, 22 out of 72 flunked a freshman economics course at the Oakland branch, there has been considerable talk that the new institution "must really be a tough school."

We don't wish to dispute that statement. MSUO, undoubtedly, is a tough school and we have hopes of even higher accomplishments for our "sister school."

**BUT AT THE SAME TIME** we'd like to point out that here at MSU students aren't exactly living in any land of flowing milk and honey, either.

Anyone who has struggled through the Economics 200 series knows fully well that even upperclassmen have a difficult time escaping without at least one low grade.

When the new figures computing the number of fall term flunks at MSU come out this week, it'll probably make all of this commotion look premature.

**ACCORDING TO THE PROVOST'S OFFICE**, the normal number of "F"s in Basic College courses is about 15 percent for first term freshmen. This figure is misleading, however, since many freshmen are encouraged to refrain from taking certain basic courses until they have taken a preparatory course prior to the basic.

Because of this method, the number of "F"s is reduced. The freshman that might have conceivably flunked gets a "C" or "D" instead because he was more fully prepared.

At MSUO last term 347 "F" grades were given from an aggregate total of 1,888 grades. This figures out to roughly 18 percent, which is slightly higher than the MSU figure.

**TAKING INTO CONSIDERATION** that this was the first term the new school was in operation, this figure of 18 percent doesn't seem alarming. It's difficult for a new faculty to gain absolute equality in grading procedures when they are foreign to an institution's operation.

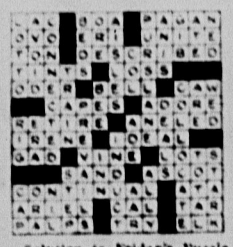

Perhaps the Board of Trustees would do better to consider the old adage "charity begins at home" before they worry too much about the Oakland branch.

The distribution of grades in certain departments on this campus would seem to indicate that there can be a great deal done to uplift some of the teaching standards so that the student benefits from the course, educationally speaking, instead of ending up extremely frustrated.

### Oakland 'Spells It Out' for Us

**To the Editor:**  
 We, the undersigned, are in favor of continuing compulsory ROTC at Michigan State University.

We feel that any discussion of compulsory ROTC should be concerned with Army ROTC. This is due to the fact that the Air Force has publicly stated that the present compulsory program does not fit their needs and that they are considering establishing an ROTC program similar to Navy ROTC.

The inclusion of the Army ROTC program is to produce reserve officers, not career officers. This mission cannot be accomplished adequately by West Point or OCS. It is well established that if voluntary ROTC were adopted on a nationwide basis, the number of reserve army officers would drop significantly. It is our belief that a decrease of this sort would be detrimental to the best interests of the United States.

Many students object to compulsory ROTC because of the structure of the present basic program. We feel that there are many valid criticisms of the present program. However, a study is being conducted at the Department of the Army level which could result in a greatly improved program. The major proposal changes will:

1. Eliminate technical training from the basic ROTC program. This training will then be taught in summer camp.

2. Allow courses regularly taught by other university departments to apply toward the fulfillment of the ROTC requirement.

Many people have questioned whether or not compulsory ROTC is in keeping with the idea of a university. This is not so much a question of compulsory ROTC as it is a question of whether ROTC should be given at a university in any form.

The Morrill Act of 1862 requires that all land grant colleges offer military training courses. Since Michigan State University is a land grant college, the issue of ROTC should be considered in a different light than at universities that are not land grant colleges. If compulsory ROTC is deemed necessary by the Army at a national level, it certainly is the responsibility of Michigan State University as a land grant college to give careful consideration to the need for a compulsory program.

 You really have to hand it to that Bryan Hall gang. During the football season they demonstrated real spirit every game. I think the "Card Section" at these games would be a pleasure to watch if this

## Capitol Comment Reporter Offers Her Rebuttal Of Proposed One-House Plan

**By JOAN DEPPA**  
**State News Capitol Reporter**  
 Watch out!  
 Here's my kick at the current political football—the proposal that Michigan replace its two-house legislature with a unicameral body.

Democrats seemed embarrassed when their State Central committee announced the proposal had been recommended by its study committee. Republicans said it smelled like a "powergrab".

Examination of such proposals is always beneficial but I cannot help but wonder if the case in this case might be more than the disease—whatever it may be.

## Brazil Changes Mind About U. S. Housewives

Proponents of the plan, including Mr. Shepard, offer it as a preventive to a recurrence of the 1959 legislative hassle. As to exactly how it will prevent another cash crisis, these people are inexact. Inter-chamber bickering did stall action several times during the year-long session, but this was not the only cause of the legislative stalemate.

Members of the evenly divided House of Representatives (55 Democrats and 55 Republicans) were equally guilty of holding up a solution. Legislative hands were more seriously tied because of constitutional limits on their taxing power. Many possible solutions were discarded for this reason.

Their opinion on coffee taxes hasn't changed. One House coffee grower says, "North Americans drink potato water and call it coffee". But Brazil's feelings on U.S. housewives has done an about face. Brazilians have learned the hard way not to underestimate that feminine power.

## Graduate Fellowships

**National Defense Education Act Fellowships** — Fifteen-hundred graduate fellowships are available for 1960 in many fields and at various universities throughout the United States. Each fellowship has a tenure of three years and pays \$2000 for the first year, \$2200 for the second year and \$2400 for the third year plus \$400 per year for each dependent.

**Southeast Asia Treaty Organization** — Post-doctoral Research fellowship for study and research of such social, economic, political, cultural, scientific and educational problems as give insight into the present needs and future development of Southeast Asia and the Southwest Pacific, viewed against a background of SEATO objectives. A candidate should plan to undertake research in one of the SEATO countries in the general area of Southeast Asia. The grant will provide a monthly allowance of \$400 and tourist-class return air travel to the country or countries of research. Grants may be authorized for a period of four to ten months.

**The Daniel and Florence Guggenheim Foundation** — offers fellowships for graduate study in Rocket and Jet Propulsion

### English Prof Slates Talk

John Wate, associate professor of English, will present a lecture on Tennessee Williams Tuesday night at 7:30 in the Union Ballroom.

A popular and sometimes controversial author, Williams is well known for his Broadway and Hollywood hits including "A Streetcar Named Desire," "The Rose Tattoo," "Cat on a Hot Tin Roof" and "Sweet Bird of Youth." Wate will summarize Williams' literary career. He will attempt to explain Williams' success in correlation with the role of violence, sex, strong language and the author's skill in devising strong, interesting plots.

### Road Partially Closed Due to Construction

Snow Lane between Hagadorn rd. and the traffic circle south of Van Housen Hall will be closed to traffic starting today and continuing for a week, the Department of Public Safety reports.

Due to a high water problem in the construction of the new graduate dormitory it is necessary to put in a new sewer line.

### Buried Construction Worker Found Alive

WINDEMERE, W.C. (P)—A 60-year-old highway department employee buried in a snowslide was found alive today, 15 hours after rescuers had given him up for dead.

Although James Duke had been buried more than 26 hours,

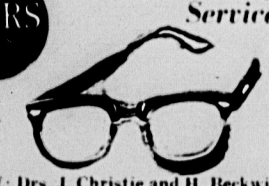

a doctor at the slide scene said he appeared in good condition, suffering only from exposure.

He told rescuers he could breathe because of an air pocket about the size of a washtub near him. He was unable to move, however, because of the 30 feet of snow on top of him.

### EYE HI-LITES

by Dr. Joseph B. Gutstein

Dr. J. B. Gutstein, Optometrist

QUESTION: What is the harm in buying "cheap" sunglasses?

ANSWER: Glasses (of any kind) should only be prescribed by a competent Doctor, after a thorough eye examination. The danger of "buying" any kind of glasses lies in that, in the absence of a thorough examination, one could miss such things as diseases of the eye, of the body, astigmatism, or muscle imbalance, just to name a few.

QUESTION: I have had a cataract removed from one eye, and now see double. The surgeon who did the operation warned me that I could only see comfortably and properly with contact lenses. I called two local doctors who fit contact lenses and one said that I couldn't be fitted and the other said I could. What should I do?

ANSWER: You should have yourself fitted for contact lenses. After all it is actually two against one "opinion-wise." Furthermore I and many other doctors have fitted many cases such as you describe, with the most gratifying success. It is actually the only way such a patient can be properly taken care of.

If you desire more information about contact lenses, clip this advertisement and mail:

## WMU, U-M Top AAU Meet; MSU Trackmen Gain 2nds

Western Michigan and the University of Michigan dominated the annual Michigan AAU track meet held in Ann Arbor Saturday. Four records were broken during the meet and Western Michigan gained three wins.

Michigan State's sprint medley relay team of Jim Carr, Max Winters, Fred Ford, and Willie Anderson finished second in the event behind Central Michigan.

The Spartans' team of Alvin Berry, Brian Castle, Ed Elzayden and Bob Luck finished Western to a new meet and fieldhouse record of 10:11.1 in the distance medley relay. Lake, upon receiving the baton for the anchor leg of the relay, found himself stuck up in yards of this deficit.

Alvin Berry placed second in the 200, 400 and 800 yard individual events. He was beaten only by Elmer Lewis, U-M sprinter, who set record times in each of these races.

In the 1000 yard relay, State's combo of James Fitch, Carr, Jack Greenwood and Tony Smith placed third behind Western.

The Spartans' team of Alvin Berry, Brian Castle, Ed Elzayden and Bob Luck finished Western to a new meet and fieldhouse record of 10:11.1 in the distance medley relay. Lake, upon receiving the baton for the anchor leg of the relay, found himself stuck up in yards of this deficit.

## William & Mary Crack Basketball Stronghold

NEW YORK (AP)—The strong Indiana Hoosiers, California Golden Bears and West Virginia Mountaineers have broken the basketball stronghold of William & Mary in the South Atlantic States.

The Indiana, who leads the conference, have been knocking on the door of the long-held stronghold of William & Mary since Saturday night, cracking the Mountaineers' Southern Conference winning streak of 36 games.

West Virginia, ranked No. 1 in the AP poll, had been beaten only by California, the defending NCAA champion, in its previous games. The Mountaineers' last conference game in almost four years, Richmond was the last to drop the Mountaineers in the southern, back on Feb. 4, 1956.

William & Mary, ranked 8-8 and beaten by 20 in its last game, losing to Virginia, 67-57, in a 17-point game in All America City West, who scored all but four of the Mountaineers' first half points. He had 22 of the intermission.

Inset almost claimed second-ranked Bradley, too, with the Braves down by 10 at the half, forcing into overtime before shaking loose 12 in unrated Madisonville 42-39 at Milwaukee. Stalled for a shot, the Braves (14-13) finally did it on a corner shot by Mike Owens, who added a foul shot along with Al Saunders in the last 2 minutes of the extra period.

Top-ranked Cincinnati (13-1) beaten only by Bradley in a non-conference split, was idle, but goes against Drake in a Missouri Valley Conference game at home tonight with All America Oscar Robertson posted just four points for a three-year scoring record.

California (16-1) whipped Oregon State 67-48. The only upset was by teams in action were away winners. Fifth-ranked State (13-2), the Big 10 giant, walked Michigan State 111-79 with 6-3 Jerry Lucas scoring 23 points as the Bucks played less than 30 minutes because of a bronchial condition.

Cl. 8. Miles & Cotterman vs. Richer & Cooper

**HOCKEY**  
7:45 P.M. vs. Blazers

## Swimmers Splash to Victory, Wisconsin Falls Before Cameras

CARL SHAAR, sophomore swimmer, is shown here on his way to setting a new varsity record in the 200 yard butterfly event Friday at the IM pool. State won the meet handily from Wisconsin, 74-22.

## Shaar Breaks Own Record In Butterfly

The MSU swimmers added a couple more their list of fallen opponents as Wisconsin dropped to them, 71-22, at home Friday, and Northwestern fell 74-31, in Evanston Saturday.

Maybe it was the effect of the TV cameras that caused the dual, one varsity and two pool records to be broken in the victory over Wisconsin. At any rate, the Spartans seemed to be fired up, and especially in the 400-yard medley relay when both teams were disqualified on illegal starts.

Carl Shaar again broke his own varsity record in the 200-yard butterfly and established a dual meet record against the Badgers. He also shattered the pool and dual meet records at Northwestern.

Dick Brackett was beaten by his teammate, Dick Blazewski, in the 220-yard freestyle Friday. Blazewski raced in for a new dual meet record. Brackett won both races at Northwestern.

Dave Diget broke the 200-yard individual freestyle dual meet record against the Badgers. Denny Ruppert got a pool record against the Wolverines in the 200-yard breaststroke.

## Minnesota Crushed

## Spartans Undefeated As Grapplers Win

While the MSU swimming varsity was breaking records in Friday's Wisconsin meet, the freshmen broke a few themselves.

In exhibition races, the freshman relay teams beat the Varsity and established new fresh records. In the 400-yard medley relay, Jeff Mattson, Mel Hackell, Mike Corrigan and Mike Wood set an MSU freshman mark of 3:59.9, which bettered the NCAA freshman record.

Mattson, Corrigan, Wood and Ron Schwartz had a time of 3:28.7 in the 400-yard freestyle relay, good for another fresh record.

Coach Charles McCaffree was pleased with the freshman performances.

Freshman divers Paul Johnson and Ron Syria presented an exhibition of double diving after the Wisconsin meet and joined by Bill Williams and the varsity divers added comedy diving to the evening's entertainment.

Michigan State turned what was supposed to be a toss-up wrestling match into a rout Saturday afternoon and crushed the host Minnesota squad, 18-6.

The victory was the fourth straight for the Spartans. They have yet to taste defeat this season.

The ability of coach Wendley Collins' grapplers to win the close matches was the turning point in the meet. They captured wins in four of six divisions which were rated about equal.

Spartan sophomore sensation George Hobbs, opened the meet with a stunning 18-2 match score triumph over a heavily-favored Al Johnson. Hobbs registered a near fall against the outclassed Gopher opponent. The 123 pound Spartan is still gunning for his first pin.

Following Hobbs' lopsided victory, Bill Guertardo posted the second important win for State in the 130 lb. class. He decisively defeated Minnesota's Robert Board, 2-1.

Norm Young won the biggest match of the afternoon and made it three in a row for the winners by turning back Charles Coffey.

## Minnesota Crushed

one of the Gophers standout wrestlers, 8-5.

Prior to the meet Collins billed the 137 lb. Young-Coffey clash as the one which might mean the difference between a State victory or defeat.

The pair had previously met in the quadrangular tournament at Evanston, Ill. on Jan. 9, and had battled to a draw.

The Gophers remained in contention when Don Wright, a 147 pounder, decisively State's Gordon Johnson by a slim 2-0 margin.

Bob Moser pushed Michigan State back on the winning track by eking out a 2-0 match score win over Harry Schieff in the 157 lb. division.

Roger Tavenner clinched the Spartan win by dumping Minnesota's Bob Koehnren 7-4, in the 167 lb. class, and heavyweight John Baum completed the rout by decisively Don Mrochowski of the losers, 3-1.

Minnesota's only match victory other than the 147 lb. win over Johnson, was in the 177 lb. level where Bill Koehnren decisively State's Mike Senzig, 4-2.

The Spartans went into the meet rated about even with Minnesota. In view of their easy victory Collins seemed extremely pleased.

Summer jobs often lead to rewarding careers at Du Pont

**THIS SUMMER...**

ON-THE-JOB TECHNICAL TRAINING AT DU PONT

Pictured are a few of the many Du Pont plants and laboratories across the country where selected technical students roll up their sleeves during summer vacation and put their college training to practical use.

Most of the assignments are similar to work the employees are likely to do after graduation. Next summer, for example, a chemical engineering student may go to work on a catalyst recovery project. A mechanical engineering trainee may become engrossed in a challenging hydraulic study. A promising young chemist may tackle a problem in organic chemistry.

In short, each man is given a regular plant or laboratory assignment commensurate with his education to date. And, as with permanent employees, the student's training is personalized and tailored to fit his background and interests... even to the location he prefers, as far as practical.

This program has proved of benefit both to students and to Du Pont. It gives students an opportunity to increase technical knowledge and to learn how to put college training to use in industry. It gives Du Pont a chance to observe men who will soon be graduating in science and engineering. Many of these summer assignments are stepping stones to rewarding careers with this company.

Juniors, seniors and graduate students will be given technical assignments. Opportunities are in chemical, mechanical, electrical and metallurgical engineering; also in physics and mathematics. Candidates should write at once to E. I. du Pont de Nemours & Co. (Inc.), 2420 Nemours Building, Wilmington 98, Delaware. Openings are, of course, limited.

There are opportunities also for men who have completed their freshman and sophomore years, as laboratory assistants or vacation relief operators. They should apply direct to the Du Pont plant or laboratory location of their choice.

# Forddy Predicts Right, Basketball Team Loses

## Scott Hurt, Record Set By OSU

Walker Scores 27, Olson Held to 11

Another of Coach Forddy Anderson's predictions came true Sunday as Ohio State flattened the MSU basketball squad 111-

Anderson had said the game would be an almost impossible task and he was completely right.

He labeled the trip as the best weekend.

Dave Scott, forward, will be out of action for tonight's game as a result of an arch he strained in the Illinois. He is in the hospital for "a good rest" according to Anderson.

The game set a Spartan record as it was the first time an opponent had scored more than 20 points against the MSU squad.

Lincoln Walker, co-captain, led the scoring with 21 points, and Jerry Lucas, who has been battling the flu during the past week, was second with 25 points. He sat out for about nine minutes.

The other two sophomores on the Buckeye squad, John Hartick and Mel Nowell were second and third high in scoring for Ohio State. Hartick had 20 and Nowell 15.

OSU's gymnastic team made five victories in a row with decisive wins over Navy Pier at Chicago on Friday, and Wisconsin Saturday by the overwhelming margins of 90-21 1/2 and 80-37.

According to coach Seykora, the showing this weekend indicates that the Spartans are ready for next week's meet at Southern Illinois on Friday and a 3-way meet with Minnesota and Illinois on Saturday.

These three teams are about the tops in the Midwest, if not the nation," stated Seykora. "If we get by this weekend we should go on to the N.Y.A.A. championship."

At Wisconsin a trophy was given to the highest scoring individual event performer in the meet. This trophy was won by Stan Tarshis with 94 1/2 points. He was followed closely by John Daniels and Captain Angie Festa, both with scores of 92 points.

Walker led the squad in the rebound department with 16. Lucas and Hartick had 14 and 13 respectively.

The pleasant surprise for Anderson was the playing of reserve forward John Young. Anderson says he is very pleased with Young's showing and it will be extra yards in Tom White who will play in Saturday's game.

The Spartans will host Minnesota on Feb. 25 at eight. For Gonzaga to be holding down the second spot in the Big Ten as a result of an 80-72 win over Wisconsin Saturday.

Minnesota's All-American, Cliff Ron Johnston scored his season high with 32 points, Johnson 27 on 13-18 field goal shooting.

Walker led the squad in the rebound department with 16. Lucas and Hartick had 14 and 13 respectively.

## Rangers Tie Red Wings

NEW YORK (AP)—Dean Prentice's third period goal, his second of the game, gave the New York Rangers a 3-2 tie with the Detroit Red Wings in a hard fought NHL contest Sunday.

The injury-riddled last place Rangers, needless in their last nine games and without the services of forwards Larry Popen and Eddie Shack, lost forward Camille Henry who suffered a fracture of the left forearm late in the first period.

Prentice's tying marker at 7:37 following a pass by Art Stratton and a shot by Ken Schinkel, both rookies, went over prostrate Detroit goalie Terry Sawchuk.

Prentice's first tally on passing from Stratton and Andy Bathgate at 14:28 of the second period left New York trailing 3-2.

The Red Wings tallied first when defenseman Marcel Pronovost fired a 10-footer past the unprotected Ranger netminder, Gump Worsley. Pronovost's goal, on passes from Norm Ullman and Gary Alcorn, was scored while John Hanna was serving a penalty.

New York evened the game at 39 seconds of the second period on a goal by defenseman Bill Gadsby but Detroit retaliated quickly to take a 2-1 advantage on Gordy Howe's 24 goal at 1:21. Alcorn tipped the Detroit lead to 3-1 at 10:07 with his 16th goal.

John Daniel remained undefeated in both the free exercise and tumbling events with his weekend wins. Steve Johnson also remained undefeated on the tumbling, although he has been hampered by teammate Chuck Thompson. Tarshis, defending NCAA champion, remains undefeated in his specialty, the horizontal bar.

Festa was high scorer in both meets. In each, he picked up two firsts along with several other places in the meets.

The scores at the Navy Pier meet for MSU:

- Free exercise: 1. John Daniels, 2. Festa, 3. Dick Becker, 4. Thompson, 5. Tom Tompkins, 6. Steve Johnson, 7. Bob Dandy, 8. Festa, 9. Dick Becker, 10. Jim Burke, 11. Festa, 12. Hal Short, 13. Bruce, 14. Tom Tompkins, 15. Burke, 16. Thompson, 17. Johnson, 18. Thompson.
- Horizontal bar: 1. Steve Johnson, 2. Dick Becker, 3. Thompson, 4. Tom Tompkins, 5. Steve Johnson, 6. Dick Becker, 7. Tom Tompkins, 8. Steve Johnson, 9. Dick Becker, 10. Tom Tompkins, 11. Steve Johnson, 12. Dick Becker, 13. Tom Tompkins, 14. Steve Johnson, 15. Dick Becker, 16. Tom Tompkins, 17. Steve Johnson, 18. Dick Becker.

## Two Schools Overpower State's Fencing Team

Two rugged teams, Notre Dame and the Air Force Academy, overpowered the MSU fencing team by identical scores of 19-8 in a triangular meet Saturday at South Bend, Ind.

It was the sportmen's second and third loss of the season. Everything wrong that could happen happened, commented Coach Charles Schmitter.

A re-occurring injury forced Schmitter to pull sabreist David Steve Amsel from the Air Force meet. Amsel won two bouts against the Irish.

Chuck Schmitter, Jr. are of last year's squad took two wins from Notre Dame, but was 1-2 against the Air Force. Schmitter attributes the poor showing to tightness up. The young epeeist was fencing with his shoulder instead of his hand, which slowed his extension and accuracy.

In foil, Dick Lawless and sophomore Bill McNamara were the only one to salvage anything. Each won a round from both opposing teams.

**Browns Sign Stephens**  
CLEVELAND (AP)—The Cleveland Browns Sunday announced they have signed tackle Larry Stephens of Texas, their second draft choice.

Dick Erndorff studies a microwave site layout chart atop a mountain near Orting, in western Washington state. On assignments like this, he often carries \$25,000 worth of equipment with him.

Here, Dick checks line-of-sight with a distant repeater station by mirror flashing and coherent reception of portable radio. Using this technique, reflections of the sun's rays can be seen as far as 50 miles.

**He wears two kinds of work togs**

For engineer Richard A. Erndorff, the "uniform of the day" changes frequently. A Monday might find him in a checked wool shirt on a Washington or Idaho mountain top. Wednesday could be a collar-and-tie day.

Dick is a transmission engineer with the Pacific Telephone and Telegraph Company in Seattle, Washington. He joined the company in June, 1956, after getting his B.S.E.E. degree from Washington State University. "I wanted to work in Washington," he says, "with an established, growing company where I could find a variety of engineering opportunities and could use some imagination in my work."

Dick spent 2 1/2 years in rotational, on-the-job training, doing power and equipment engineering and "learning the business." Since April, 1959, he has worked with microwave radio relay systems in the Washington-Idaho area.

When Dick breaks out his checked shirt, he's headed for the mountains. He makes field studies involving microwave systems and SAGE radars and troubleshoots any problem that arises. He also engineers "radar remoting" facilities which provide a vital communications link between radar sites and Air Force Operations.

A current assignment is a new 11,000 mc radio route from central Washington into Canada, utilizing reflectors on mountains and repeaters (amplifiers) in valleys. It's a million-dollar-plus project.

"I don't know where an engineer could find more interesting work," says Dick.

You might also find an interesting, rewarding career with the Bell Telephone Companies. See the Bell interviewer when he visits your campus.

### Seniors of the Week

Toni Robb Paul Lesher

Most people who have spent any time at all on campus have seen a petite coed unobtrusively interviewing campus personalities at one time or another. Toni Robb is the coed with the ubiquitous pencil.

Toni has been a wire editor, feature editor and society editor for the State News, campus correspondent for the Detroit News, and on the Mademoiselle magazine college board. She has also written feature material for the Wolverine and worked on dorm council and radio workshop.

An English major from Detroit, Toni has an all-college average of 3.0, and is a member of Theta Sigma Phi, women's journalism honorary.

Not all of her activity has been confined to publications. Toni was a member of Fresh-

men's Council and Junior Council, and is presently on Senior Council. She was on the Block 'S' personnel committee and Career Carnival publicity committee, and is publicity chairman and activities chairman for her sorority, Alpha Omicron Pi.

After graduation, Toni plans to work either in the newspaper-magazine field or in public relations.

If you happen to look in the back door of Campus Prep about 6 a.m. on a weekday, you will probably see Paul Lesher supervising delivery of the State News. On these occasional mornings when things are wrong Paul is the man who works overtime, sometimes until late afternoon, to get things straightened out.

Although he tries, there's not much the State News' circulation director can do when the press goes "Shant! Bang! Crunch!" before the papers are printed.

A GCA major from University Village, Paul had an all-college average of 3.0. In addition to his State News work, Paul is Personnel Director and a student insurance representative for AUSG, publications chairman for IPC, and correspondence chairman for the Junior Soc.

In the past, he has worked in dorm council, was secretary and advisor for Green Helms, and a member of Phi Eta Sigma sophomore men's honorary. Paul is secretary of the fraternity, Lambda Chi Alpha.

Post-graduate plans are to work for a master's degree in a career in the sales field.

## Propaganda From 1904 Japanese Posters Displayed

Posters used by the Japanese government as propaganda during the Russo-Japanese war in 1904-05 are on display in the library this week.

The 27 lithographs, owned by Dr. Greta Schutz, were printed in Tokyo. They originally had explanatory tags in Japanese and charming translations in English because they were distributed to the Japanese public and to the British embassy, he said.

### Student Injured As Bike, Car Hit

Bruises and abrasions caused Kenneth Berger, Oregon, Ohio, freshman to be sent to Ohio after he ran his motor bike into a turning car in front of the personnel center on Michigan ave. Friday morning, according to East Lansing police.

Berger told officers that as he was proceeding east on Michigan, he saw the car pull in front of him but when he applied his brakes he skidded into the vehicle.

The driver of the car, William Prescott, 4099 Hulett Rd., Okemos, told police that he pulled across the road into the service entrance of Williams hall after waiting for traffic to clear.

Both the right side of the car and the rear fender of the motor bike received damage, according to police. The owner of the motor bike is Ronald Swane, Oak Harbor, Ohio, freshman.

In one cartoon, Japan and Russia are the central figures with Japan's allies looking on and contributing what they have to offer. Uncle Sam is shown giving bags of money.

Two of those depicting scenes show Red Cross tents with appropriate flags. These were apparently to convince the readers that the wounded received excellent care from Japanese doctors.

In 1936 Schutz submitted some of the pictures and an article to Fortune magazine saying that war was coming. However the issue was too hot to handle and the material was not printed until after Pearl Harbor.

When the display is over, the collection, only one of its kind, will be donated to an institution where it will be available to Shinto students, Schutz said.

### Alpha Lams Schedule Party for Freshmen

Alpha Lambda Delta, freshman women's scholastic honorary, will hold a "Smarty Party" Feb. 9 to acquaint coeds with the organization.

Present members will pick up freshmen women and take them to the party where a special program is planned for the guests.

Invitations will be issued to all second term freshmen who received a 3.25 or better fall term. A \$3.50 is necessary to pledge.

### Cookbooks Presented To Library

Three hundred and twenty-eight cookbooks, most of which were printed prior to 1900, have been presented to the University library.

The collection, received recently by Dr. Richard Chapin, director of libraries, was developed and presented by Mrs. Mary Reynolds, an alumna, and is housed in the Friends of the Library room.

One hundred eight of the books are not even duplicated in the fitting collection, the nation's largest, which is in the library of Congress. Chapin said. Twenty-four of the volumes may be the only copies extant.

Recipes included in the volumes range from construction of the family brewhouse, which seems to have been a concern of the housewife of 1849, to instructions for saving money and rolling poekest.

In 1792 a recipe in the "Frugal Housewife," written by Susannah Carter, who may have been a "Betty Crocker" of her day, said:

"Lay a row of apples thick, throw in half the sugar you intend for your pie, mixce a little lemon peel fine, throw a few cloves, here and there on"
