## French Riot Over Farm Price Plans

Farmers and Police Battle After March

SENS, France (AP)—Ten thousand angry farmers battled riot police Thursday night after a mass demonstration against government price-fixing farm policies.

Several persons were reportedly injured, none seriously. The rally at Sens was one of 13 farm meetings throughout France Thursday. About 200,000 farmers massed in a nationwide show of protest. The farmers claim the price ceilings, aimed at keeping down the rising cost of living for city workers, are eating away farm profits and driving many farmers toward bankruptcy.

The demonstrations elsewhere were spirited but peaceful. The farmers' leaders had urged them to "leave the pitchforks at home." Everyone remembered the farm demonstration at Amboise earlier this year that erupted into a riot injuring about 150 farmers and police.

But at Sens, the farmers marched into the Place Garibaldi in front of the prefecture at the end of their rally. Many carried banners and placards and shouted anti-government slogans.

Police tried to disperse the crowd. A fight broke out. The police barricaded themselves inside the prefecture. They tossed dozens of teargas shells and grenades into the square. The angry farmers replied by ripping paving stones from the street and hurling them at the prefecture.

Wearing gas masks and steel helmets, the police charged and used special riot shields and charged the stampeding crowd in the square. Some of the demonstrators tried to pick up the tear gas grenades and throw them back at police. But the police charged and most of the demonstrators scurrying off into side streets.

Around 1,000 diehards reassembled at one side of the square after the tear gas fumes had dispersed. For long minutes, they stood glaring at police massed on the other side of the square.

Then slowly, as darkness began to fall, they drifted silently away while a police officer shouted repeated commands for them to leave. The rioting lasted about 45 minutes.

President de Gaulle and his government have urged French farmers to modernize. Some farmers, for example, are still working the same narrow strips of land that were marked out even before the French revolution 180 years ago.

Persistent protests from France's farmers, generally resistant to change and always vociferous in defense of their interests, have brought on one of the most serious crises in de Gaulle's fifth republic.

Plastic Easter Eggs Rouse Ire Of Egg Farmers

ASBURY PARK, N.J. (AP)—This resort plans to use plastic eggs for its beachfront Easter egg hunt, and egg farmers have protested.

"With prices the way they are today, we have to give our eggs away anyway," said Eugene Goetz, owner of an egg hatchery in Whitesville.

"I'll donate the eggs for nothing if they won't buy them, just to see real eggs used."

City officials prefer plastic eggs because real eggs break. A sponsor of the April 16 egg hunt pointed out another problem.

TWO CUTE six-year-olds giggle as they nuzzle first pussy-willow buds of spring at Peoria, Ill. The "kittenish" plants are blooming all over the state now—maybe they'll decide to come to Michigan some day.

## Fraternity To Honor C. S. Mott

Mr. Charles Stewart Mott, Flint philanthropist, will be made an honorary member of Alpha Kappa Psi business fraternity Saturday.

Mott, who is being honored for his outstanding contributions to the business world, is taking time out to attend the afternoon and evening festivities at the Alpha Kappa Psi house.

A special hour at 3 p.m. to which chapter faculty members from the College of Business are invited, will be followed by a 6:30 dinner and an 8:30 initiation ceremony.

"The keynote of the whole affair will be a mood of semi-formality and friendliness," said Robert Garvin, president of Alpha Kappa Psi. "Mr. Mott has attended countless ultrarational functions. Since we can't hope to compete with them in elegance and formality, we are stressing an atmosphere of informality."

Mott has shown quite a bit of interest in the activities of MSU. He has visited with President Hannah several times, and frequently attends football games. He is one of the leading financiers of the "Crossroads Africa" project planned for the summer.

The 85-year-old Mott, who served three terms as Mayor of Flint, is especially famous for the invention of the differential for General Motors.

## They Cheated On Job Tests

NEW YORK (AP)—Cheating on examinations has apparently spread to the U.S. Postal Service.

A sharp-eyed examiner, looking over job test papers, noticed the handwriting didn't match one applicant's exams.

His vigilance led to a full scale inquiry which ended in the government's announcement it had smashed a postal job examination racket with the indictment of 54 persons.

Five of the principal defendants—all former postal employees—were accused of fraudulently taking tests for letter carrier or clerk jobs for other persons.

Postal inspectors and the Civil Service Commission sifted 44,000 test papers submitted in 1957 and 1958. They accused one former postal employee, Max Salazar, of the Bronx, of taking proxy tests for 13 job applicants.

## Biologist Urges Sexual Freedom

URBANA (AP)—An assistant professor of biology who advocated pre-marital sexual relations was dropped Thursday from the University of Illinois faculty.

## Barrier to Civil Rights Bill Cleared by Senate

### College Bill Approved By Senate

By THE ASSOCIATED PRESS  
The Grand Valley College bill whizzed through the Senate Thursday in a week-ending session devoted to picking up a dozen loose ends of business.

By a 27 to 1 vote, the bill was returned to the House for minor amendments.

Assuming approval there and the governor's promised signature, the legislation will pledge state-chartering of a four-year institution at Grand Rapids on condition backers raise one million dollars and approve a site.

Senators also approved a \$70,432,048 appropriation bill for social welfare grants and operations in fiscal 1960-61, a new basis for taxing brewers and curbs on state regulation of advertising.

Also approved was a resolution to clear the way for \$7,449,000 in self-liquidating building projects at six state colleges and universities.

It still must clear the House before governing bodies of the schools may proceed.

Among the projects was a \$576,000 addition to the student activities building at the University of Michigan.

The Republican proposal for a sales tax referendum failed its first test in the House.

Another vote was scheduled for next Tuesday, and chances for approval appeared good.

"I think it'll pass," said Rep. Joseph Kowalski (D-Detroit), who forecast Wednesday that two rollcall votes would be needed for the Senate-approved proposal to clear the House.

House passage would authorize a November vote on raising the sales tax ceiling from three to four cents.

## South Africa Work Boycott Is Crushed

JOHANNESBURG, South Africa (AP)—Huge military, police and civilian reserve forces mobilized by the South African government appeared last night to have stifled the no-work campaign of thousands of rebellious Africans.

Only in the walled off African township of Nyanga, near Cape Town, was the situation uncertain and police said they had arrested most of the agitators, terrorists and gangsters there without resistance Thursday.

From Cape Town, Durban and Port Elizabeth came reports that the situation was practically normal or more nearly so than at any time in the past 10 days.

In Johannesburg there was no incident to disturb the calm. Workers streamed in and out of the city without trouble.

With all the principal African leaders in jail and police rounding up the lower echelons, it seemed that the longest demonstration in recent years against the government's Apartheid (segregation) policy may be ended.

## MSU Briefs

Student Concert  
A student chamber music concert will be presented by the music department tonight at 8:15 in the music aud. The program will include selections by Bartok, Stravinsky, and Barber. Vaughn-Williams' "Ten Blake Songs for Soprano and Oboe" will have its first complete performance.

New Fraternity  
Freshmen men interested in forming a local chapter of Theta Delta Chi, national fraternity, will meet Saturday at 2 p.m. in the Union art room. Members of the U of M branch will be present to explain the fraternity and steps to follow in forming an MSU chapter.

UN Meets Tonight  
Campus United Nations will meet tonight at 8 in the Kiva to discuss racial discrimination in South Africa. A bill has been introduced by Soviet Union and Afro-Asian delegations to debate the issue immediately and to investigate possibilities of removing the apartheid policy.

Zerby Is Host  
Dr. Lewis Zerby, professor of philosophy, will replace Major John Barron as host on Viewpoint over WKAR Sunday at 2 p.m. He will discuss "philosophy on the Contemporary American Scene" with Professor William Callaghan and Richard Rudner of the philosophy department.

## Less Danger In Fallout, Says Chemist

CLEVELAND (AP)—New information discloses some unexpected "comforting" facts about radioactive fallout from bomb tests held to date, a Columbia University scientist reported Thursday.

Both reports were made at a symposium sponsored by the American Chemical Society at its 137th national meeting.

Dr. J. Laurence Kulp, of Columbia, saying that some of the new information comes from stratospheric studies of the defense department—kept on the hush-hush list for more than two years—told reporters in amplifying his technical report to the society.

"The most exciting development of the past year is the fact that all of us (scientists) have consistently over-estimated the amount of fission products that will be in man's environment."

"It is comforting that we erred on the conservative (over-estimated) side."

Kulp said "it is now clear that the quantity of (radioactive) debris is much smaller than estimated . . . (and that) . . . in April, 1960, only 10 percent of the fission products from all past tests still remains in the stratosphere."

## Census Taker Meets Opposition

DETROIT (AP)—Mr. and Mrs. George Kido just might make census-taking history.

In 179 years the Census Bureau hasn't had to prosecute anyone for refusing to answer questions. Regional Census Director John Tharadson doesn't think it will come to that, but he apparently isn't going to get all the answers from the Kidos, either.

It all started when Mrs. Janet Vukovich called on the Kidos at their home in suburban Sterling township.

Mrs. Kido, an unemployed waitress, said:

"I had an appointment to apply for unemployment compensation. I told her I had to leave and began to get ready."

## Registration Amendment Is Adopted

WASHINGTON (AP)—The Senate Tuesday adopted a civil rights bill amendment designed to meet Southerners' objections that one provision would give Negroes an advantage over whites in registering as voters.

The Senate then shut off further amendments. This was a move toward final action on the measure, although it was still subject to general debate before a vote on passage.

Adoption of the registration amendment, offered by Republican Leader Everett Dirksen of Illinois, cleared away a major barrier to final Senate action on the House-passed measure.

Southerners had vehemently protested that the bill, before adoption of the amendment, was so drawn that Negroes could be permitted to vote provisionally if their application for federal registration had not been ruled on prior to election day.

Southerners said this would permit a federal judge to register Negroes right up to the day before an election.

They protested that this flew in the face of state laws that require voters to be registered from 30 days to six months in advance of an election.

Dirksen's amendment would insert a proviso that an applicant registered by a federal judge "shall be qualified to vote under state law."

Dirksen's move was part of a drive by Senate leaders to get final action on the bill last night. The drive was launched after the Senate swamped 73-18 a southern attempt to remove the key voting rights section from the bill.

An indefinite amount of speechmaking remained, however, both by the outnumbered southern opponents of the bill and by its supporters from the north and west.

Late yesterday afternoon there came a time when no one had an amendment to offer, and the Senate proceeded with the third reading of the bill.

This meant no more amendments could be offered.

One amendment got through Tuesday, after the Senate rejected 73-18 a proposal to kill the whole voting section of the bill.

The amendment, adopted 73-12, was designed to settle fears that in helping southern Negroes to vote, the bill might discriminate against white voters.

## Ponder Building Problems Schoolmen to Convene

Men concerned with building a better world—school building officials of the Great Lakes area—will meet at MSU Sunday and Monday.

Gathered at the Kellogg Center workshop will be school construction officials from Michigan, Ohio, Indiana, Illinois, Wisconsin and Canada.

Program Chairman Dr. Floyd Parker, of the sponsoring MSU College of Education, said participants will pool their knowledge and experience in attempting to solve critical problems facing school construction today.

THE LIGHTS BURN LATE in the library as MSU students once again pore over their books, the other tables. With this "beautiful spring weather" acting the way it has been, there isn't much else for them to do. State News Photo.

## Top MSU Scholarship Award Winners Named

Ten of the nation's brightest and most promising high school seniors have won the top scholarships offered by MSU.

The 10 Alumni Distinguished Scholarship awards of \$4,000 each were announced today by President John A. Hannah.

The recipients scored at the top of 800 carefully selected seniors from throughout the country who took examinations in the final competition held in February.

The winning group are seven students from Michigan and one each from Tennessee, Ohio and Illinois. All have A or nearly all-A grade averages, are in the top five percent of their classes and scored in the 90th percentile or higher on the National Merit Scholarship Qualifying test.

Funds for the scholarships are donated by alumni through the MSU Development Fund.

The award winners are: Ransom Charles Kissinger, Flushing; Joanna Catherine Fink, Midland; Robert Everest Greene, Knoxville, Tenn.; Robert William Guyton, Toledo, Ohio; Robert West Haller, LaGrange, Ill.; Larry Stuart Letch, Grand Rapids; Harry Lindsey Lydick, Niles; Nathan William Sorokin, Berrien Springs; Robert James Thaler, Lovell; Lynn J. Wescott, Ann Arbor.

U of M Asks \$1,800,000 Cyclotron

WASHINGTON (AP)—University of Michigan scientists asked Congress Thursday to provide \$1,800,000 to build a cyclotron on the university's north campus.

Rep. George Meader (R-Mich.) who accompanied the group in an appearance before a House appropriations subcommittee, also urged approval of the request.

Dr. Ralph Sawyer, the university's vice president for research, told reporters he understood the Michigan legislature was preparing today to approve an appropriation of \$1,050,000 for a building to house the cyclotron.

Sawyer said the Michigan unit would "fill an important gap in existing cyclotrons."

He said the proposed cyclotron "is a basic research tool which, in capable hands, will increase our basic knowledge of the structure of nuclei and of their levels."

The western powers avoided slamming the door on Zorin's proposal. U.S. Ambassador Frederick Eaton said in a statement to newsmen the United States "remains flexible and ready to discuss concrete measures of disarmament with the Soviets" but will insist that disarmament measures march hand in hand with effective controls.

Other areas of cooperation between Administration and IFC, according to Wilkenson, are the rush posters that are placed in the dormitory precincts rush information and maps posted in the dorms, and the Rush Banner put up at the Abbot Road entrance by the Building and Utilities office.

Rushes must have at least a 2.00 winter term and a 2.00 all-college in order to pledge, Bruno Mosher, IFC scholarship chairman, announced.

In order to go active, pledges will have to have at least a 2.2 spring term and a 2.2 all-college. If their all-college is between a 2.00 and a 2.2, pledges will be

## Current Issues Forum Planned

A Contemporary Issues Forum is being formed on campus to discuss broad questions regarding current events from an impartial angle.

Leading authorities, political leaders, administrators and professors will debate both sides of issues.

Each student organization will have one representative to insure that no group dominates the forum with its opinions.

Plans will be formed at a meeting Sunday at 7:30 p.m. in the gym.

## Primary Proved Little: Rockefeller

NEW YORK (AP)—The Wisconsin primary proved little or nothing, in the opinion of Gov. Nelson A. Rockefeller.

"It didn't sound very decisive to anyone," the Republican governor said Wednesday as he returned from a vacation in Venezuela.

"I wouldn't draw any conclusions from it. I don't think any major trends can be drawn."

However, he said the heavy Democratic vote affirmed that "the Republicans are a minority party in terms of registration."

He added: "We might as well face it as a party and take advantage of the fact."

DOWN BERMUDA way, collegiates across the country invaded the sunny island during spring vacation. MSU coeds taking advantage of the tropical weather are (l-r) Margo Miller, Grosse Pointe Junior, JoAnn Lotz and Diane Payne, Lincolnwood, Ill., seniors; Julie Kay, Kenilworth, Ill., junior; Mrs. Joseph Dibello, chaperone for the group.

Semi-Formal to Hillbilly Hoedowns

Rush Parties Set Weekend Social Plans

By LINDA BAUMER
It's a "frustrating" weekend on campus, with both men and women in the Greek system at the peak of the spring rush season. The 16 sororities participating in PanHellenic rush will be holding their traditional preference parties Sunday evening. Fraternity parties have been planned to entertain rushes and their dates for the weekend. Party themes range from semi-formal dances to hillbilly hoedowns. Guests have been invited to come "beachcomber style" at the Phi Kappa Sigma house for a party this evening. The men of Alpha Gamma Rho will carry their hillbilly theme through decorations consisting of ears of corn, hay stacks and pitchforks. Rushes and activities will be dressed as their favorite dogpatch character. Entertainment will include a quartet specializing in "hill style" music. Phi Kappa Psi will entertain at the Macedonian Hall. Dance music will be provided by the Bachelors. Beta Theta Pi has planned a rush party at the chapter house this evening. Dancing and a skit by actives will highlight the affair. The women of Delta Delta Delta will hold their annual formal "Straw Hat Ball" at Walnut Hills Country Club this evening. Desserting will be followed out through music provided by Kenny Davis will furnish music for a "hillbilly" smooch. The Phi Upsilon house will be transformed into a river boat this evening. A gambling casino and typical riverboat entertainment will round out the evening. The men of Phi Gamma Delta will hold their "Spring Bundle Party" for actives, rushes and their dates Saturday at the Phi house. Dick Dea and his band will provide the music. The Olympus Feast, given by Pi Kappa Phi, will start at 8 Saturday evening at the foot of Mt. Olympus (in the Pi Kappa recreation room). Toga are optional, with dancing to the music of the Modernaires. The Alpha Tau Omega will be equipped with music "Tape Stars and Stripes" Saturday evening. Kenny Davis will play in the recreation room for dancing, while a pianist will provide music in the living room for "sing-along" music. The men of Delta Tau Delta have down in 200 orchids for their Polynesian party Saturday evening. A large Polynesian idol will grace the Delta doorway to greet guests. Palm trees, and punch served in coconut shells will also carry out the theme. Delta Sigma Phi will entertain rushes both Friday and Saturday night at the chapter house with the music of the Eddy Garland Trio.

On Campus 'Perfume Sense'

By CONNIE ZEKIT
Do you have an eye for perfume? You should, you know, because the same scent on one woman may achieve an entirely different effect on another! And have you ever noticed how the men of this campus identify particular scents of perfume with particular girls? Perfume sense is much like having clothes sense, for different fragrances emphasize different personalities. To develop an eye for perfume, try to "see" something in the perfumes you wear, and in the ones you notice on others. Form a mental picture... see through a whiff of fragrance and size it up until you pick up a color, a shape, a sound or an emotion. Of course, it helps to know something about perfumes before you start analyzing the compatibility of a perfume to your personality! Although each perfume is a mixture of several fragrant elements, they are deliberately put together to form just one idea. Sometimes this idea is tangible—a special flower, a forest, a fruit, and sometimes, it's pure emotion—laughter, mystery, or excitement. There are six basic perfume categories: the single flower; the floral bouquet; the spices which range from the subtle scents to the more exotic ones; the fruits—some sweet, some tangy; the greens with woody, leafy elements predominating; and the Orientals, either as exotic as incense or as faint as orange blossoms. Within each category, there are dozens of perfumes, all good, but ranging from "little to big." There's a time and place for important, formal dress scents, and time when nothing but a fragile "little" perfume will do. Of course, there's always the classic idea of a "signature" fragrance... the women who successfully wear only one perfume.

Religious Organizations Plan Numerous Easter Activities

Campus religious organizations are centering their week-end activities around the coming Easter week. Plans include the showing of religious slides and the assembling of Easter displays. Wesley Foundation's forum has been scheduled for 7 p.m. Sunday in 31 Union. Refreshments and recreation will follow at Wesley house. Canterbury Club has planned their supper meeting for 6 p.m. Sunday. Guest speaker, George Jones, professor of music, will discuss the approaching Good Friday concert entitled "Dreams of Girolamus" which will be presented by the Michigan State choir. Michigan State News 31 Student Services Published on class days Monday through Friday inclusive, during fall, winter and spring terms except holidays, weekly during summer term and one special Freshman issue between summer and fall terms. Entered as second class matter under act of March 3, 1957 at the post office, East Lansing, Mich.

## MSU Staff At Meeting Of Chemists

Several MSU chemists are taking part in the spring meeting of the American Chemical Society this week and next in Cleveland.

Authors of papers to be presented include Dr. Robert Schuetz with Dr. Richard Jacobs, James Corbin with Dr. Harold Hart and Dr. Charles Wagner, Dr. G. J. Karabatos, Dr. Robert Douthett with Dr. James Dye, and Dr. Gilbert Gordon with Dr. Carl Brubaker, Jr.

Dr. Max Rogers, professor of chemistry, is secretary-treasurer of the executive committee of the ACS physical chemistry division.

Dr. Laurence Quill, head of chemistry at Michigan State, will preside at a luncheon for MSU alumni and participate in meetings of the subcommittee on examinations.

Dr. Elroy Miller, professor of agricultural chemistry, will take part as a counselor to the division of colloid chemistry, a member of the standing committee of the council on national meetings and divisional activities and as chairman of two subcommittees.

## Smithcoors Named To Society Post

Dr. J. Frederick Smithcoors, associate professor of anatomy, has become the first veterinarian to be elected to the council of the American Association for the History of Medicine.

Dr. Smithcoors is president of the American Veterinary Historical Society and has written more than 70 articles on historical subjects for medical history and veterinary journals in the United States and England.

He is a contributor to the Encyclopedia Britannica and author of the book, "Evolution of the Veterinary Art."

## Service Dinner Held

The annual dinner and meeting of the Community Service Council of the Greater Lansing area will be Thursday, April 21, at 6 in the Lansing YWCA. Featured will be the area consultants reporting on the "White House Conference on Children and Youth."

## Backers of Nixon To Organize Club

Pete McPherson, Grand Rapids sportsman, has been appointed College Nixon Chairman for Michigan. He is also Michigan's College Young Republican chairman and has been a member of AUSG the past year. McPherson reports that polls

and mock elections will be held on many campuses over the state. He plans on each college unit working to canvass, register and get out voters.

A Nixon club will be organized at MSU.

PROFESSOR MILTON ROKEACH converses with Dr. Stanley Ivers, director of Honors College, and Al Kennedy, of the Union Board, after his talk Wednesday night for the first Union Board Civil Rights Forum Address.

## Nye Named By Journal To Lecture

Dr. Russel Nye, director of the division of language and literature of the College of Science and Arts, has been selected as the first Centennial Review award winner and lecturer.

A quarterly journal published by the College of Science and Arts, the Centennial Review aims to show the inter-relationship of the arts and sciences. The award and lectureship were granted to Dr. Nye as the member of the faculty who, in the opinion of the board of directors and the board of editors, best exemplified the ideals of scholarship and style of the publication and of the disciplines represented by the board of editors.

The award will be presented at that time, and announcement will also be made by President John A. Hannah of the winners of the Distinguished Faculty Awards. The Nye lecture will be printed in the Centennial Review.

Winner of the Pulitzer Prize for biography in 1945, Dr. Nye has held Knopf, Rockefeller and Newberry Library fellowships. He is the author of several books on the relationship between American literature and American history.

## Athletics' Larsen Assigned to Bullpen Duty

WEST PALM BEACH, Fla. (AP)—Don Larsen, the only pitcher who ever hurled a perfect, no-hit world series game, has been assigned to the Kansas City Athletics' bullpen.

The big righthander, who defeated Brooklyn in the 1956 series by retiring 27 straight batters, came to the Athletics in a winter deal that sent outfielder Roger Maris to the New York Yankees.

The former Yankee hero has not seen much action this spring, suffering from a pulled side muscle. This latest mishap is one of a series that has kept the tall boy from reaching the heights his ability seemed almost certain to assure.

## Yankees' Turley Stops Tigers

BOB TURLEY ... tames Tigers ...

ST. PETERBURG, Fla. (AP)—After allowing one hit in six innings, right-hander Bob Turley blew up in the seventh Thursday and Ryne Duren had to salvage the New York Yankees' 2-1 exhibition victory over the Detroit Tigers.

Turley was the first pitcher to be relieved during an inning by manager Casey Stengel this spring. The move came after a walk to Chico Fernandez which followed Neil Chrissy's double and Steve Bilko's scoring single in the seventh.

Duren retired catcher Lew Burberet and pinch-hitter Gail Harris to end the inning and then pitched two hitless frames. He walked one and fanned three. Left-hander Pete Burnside gave up both New York runs. Bobby Richardson hit an inside-the-park homer to left field in the first inning. Singles by Hector Lopez and Elston Howard

and Tony Kubek's sacrifice brought the other score in the fourth.

### Cards Victorious

TUCSON, Ariz. (AP)—White and Ken Boyer got three hits apiece Thursday as the St. Louis Cardinals defeated the Cleveland Indians, 10-7.

Wilmer (Vinegar Bend) Mizell pitched eight innings for the Cardinals and gave up seven runs on 13 hits. He issued one walk.

The Indians held a 6-5 lead until the Cardinals scored three in the sixth innings off of Perry. White doubled and Lopez Wagner tripled during the rally.

### Palmer Leads in Masters

AGUSTA, Ga. (AP)—Arnold Palmer, who usually saves his best for last, got off to a tremendous start in the 24th Masters Golf Tournament Thursday.

Palmer, the 1958 Masters winner from Ligonier, Pa., shot an opening round of 33-34—67, five under par for the big crowded Augusta National Course, to take a two-stroke lead in the first round of play.

Ken Venturi threatened half the way with a record-equalling 31 on the front nine, but faded to an over par 73 finish reminiscent of his last-round collapse of four years ago.

Tied for second position at 69 were Claude Harmon, Fred Hawkins, Dow Finsterwald and Jay Herbert.

### Giants Top Boston

PHOENIX, Ariz. (AP)—Rocky Matsuoka homered twice as the San Francisco Giants top the Boston Red Sox in the final Cactus League game of the spring exhibition season.

### Dodgers Outslug Chicago, 14-12

MESA, Ariz. (AP)—The Los Angeles Dodgers exploded for hits Thursday to capture a 14-12 slugfest from the Chicago Cubs. Veteran Duke Snider and rookie Frank Howard slammed homers for the Dodgers.

Los Angeles blended six singles with three walks with an error for seven runs in the second inning, chasing starter Ed Schroll. The Dodgers continued the assault against Glen Hobbins. Snider's homer, a drive to the right field screen, followed Wally Moon's leadoff single in the fourth. Ben Johnson, fourth of five Chicago pitchers, was the victim of Howard's smash.

### Orioles Win, 9-8

FORT MYERS, Fla. (AP)—Baltimore Orioles exploded for four runs in the eighth inning, edging the Pittsburgh Pirates, 9-8.

Highlighting the big eighth frame was a two-run home run by Gene Woodling into the left in right field.

## Kolb Meets

By Jim W. Sports

Bob Kubik, who won the 1957 world series with the Yankees, met with the press at the St. Louis Cardinals camp in Phoenix, Ariz. He said he was in good health and was looking forward to the 1958 season.

Kubik, who was traded to the Cardinals in 1956, said he was enjoying the Arizona climate and the Cardinals' training camp. He said he was confident of making the team.

## 10-Grade Travel Toronto

A troop of 10-grade students from the University of Toronto, Ontario, is expected to enter the 1958 world series in St. Louis, Mo. The group, led by their teacher, is expected to arrive in St. Louis on Monday, April 14.

The group will be staying at the Commodore Hotel in St. Louis and will be attending the series from the Cardinals' home stadium. They will be accompanied by their parents and other family members.

## State Boxer Advances

Bob Epperson, one of the MSU boxers competing in the NCAA boxing tournament, advanced to the semi-final round Thursday by defeating Dave Borjesson of Chico State in a 165-pound match. MSU's other boxer, Jim Horne, defending NCAA champion drew a quarter-final bye and will compete today in the semifinals.

The MSU athletes are part of the Ontario Boxing Federation.

# Kobsmen Open Season; Meet Albion in Twinbill

By JIM WALLINGTON  
Sports Editor

Baseball coach John Kobs has a hope which even comes better to wish that the Spartan baseball team win Saturday.

He hopes that the erratic Michigan weather stays clear so that the charges can play Albion in a double-header Saturday at Old College Field.

The field is dry enough to play, Kobs said, and the infield will be covered.

The Spartans hope to have a record on the baseball diamond today. They have spent the week in the IM dirt arena.

MSU will have an eight-game slate over the Britons. The Spartans spent a week in the field playing nine ball games. Albion has played but one game, a double-header loss to the University of Detroit Wednesday.

Winning five of the games on the southern tour, the Spartans are paced by pitching depth which Kobs expects to be the

strong point of the club.

Kobs rates defense as adequate and hitting spotty.

The Spartan coach said the next four games (Saturday's doubleheader and two with Alma next week) will be experimental contests. He will shuffle players in and out of the lineup to see how well they play.

He wants a set line-up for the opening Big 10 game with Purdue, April 22.

"We'll have to hit more against Big 10 competition than we did down South," he said.

Tom Marlett, an outfielder, may be tried at second, and Wade Cartwright, a 375 hitter last spring, is an outfield possibility.

The ball team lost two regulars and bright prospects through

ineligibility. Don Muntz and Gordon Hjortas were counted on for first line duty.

Gridders Carl Charon and Jim Corgiat had shown some promise before they failed courses.

The two sophomores will be eligible for spring football practice, though.

Recent additions, Cartwright and Wesley Klewicki, a jack-of-all trades, have bolstered the club.

The probable starting line-up for the Spartans for Saturday's games, and their spring training averages:

Dick Golden, ss (.311)  
Bill Schmidt, lb (.355)  
Tom Marlett, cf (.313)  
John Hendee, cf (.311)  
John Finner, lf (.288)  
Bob Monerka, c (.429)  
Pat Sartorius, 3b (.217)  
Jerry Lumlanski, 2b (.174)  
Don Sackett, p (0-1)

10 Grapplers Travel to Toronto Meet

A troop of Spartan wrestlers took to Toronto, Ont., this week to enter the Ontario Amateur Wrestling Championships.

Heading the 16 MSU wrestlers entered in the meet are two athletes who won titles there last year. They are John Baum, a

lightweight, and Ken Mariloff, a middleweight, both team-members, and a 191-pounder.

A third MSU winner from last year, Jan Ferguson, has not returned as yet from San Francisco where he won the NCAA 174-pound title and is not entered.

Accompanying the heavyweights are six freshmen, a sophomore and a junior.

Norm Young, a former Big 10 champion, heads a list of Saters going at 136.5 pounds.

The others are Dave Smith and Dave Chester.

Two men will battle at 147.5 pounds—Gary King and David James.

Rounding out the traveling group are Okla Johnson (114.5 pounds), George Hobbs (123.5) and Ed Youngs (191).

Fredley Collins, MSU wrestling coach, said the unsanctioned meet will be under Olympic rules. This should benefit the Spartan wrestlers. They are due to compete in the Olympic district tryouts next week at Toledo.

The MSU athletes were invited by the Ontario Amateur Wrestling Federation, Collins said.

MSU SPORTS IN BRIEF

IM Softball officials are still needed. All students interested can apply at the IM office anytime today.

All varsity hockey players please see Coach Amo Bessone before Monday, April 10, at 4 p.m.

All freshmen and transfer students and anyone interested in varsity tennis meet in room 215, IM Building, at 4 p.m. today. If you cannot make this meeting, report to Steve Bean, varsity manager, at the varsity courts after 3 p.m. daily.

The intra-squad track meet scheduled for Saturday has been cancelled due to cold weather and the poor condition of the track.

Dick Lawless was elected captain of the fencing team at the annual banquet held Wednesday evening. Lawless, a junior, succeeds Chuck Schmitter, Jr.

Lawless was 15-15 for the season and competed in the Big 10 fencing finals.

Coach Charles announced the new captain and also spoke highly of the excellent freshman talent that will be competing for a place on next year's team.

## Vermont Football Star To Enroll at MSU

ST. ALBANS, Vt. (AP)—Ollie Dunlap, a Vermont schoolboy football sensation at Bellows Free Academy for three years, said Wednesday that he will attend MSU next fall.

Dunlap, 6' 3" and 205 pounds scored 210 points in seven games last season and averaged more than 200 yards a game rushing. He broke all the state's schoolboy scoring and yard-gained records.

## WHO WENT TO THE PROM—AND WHY

"Hello," said the voice on the telephone. "This is Werther Sigafos. I sit next to you in psych. I'm kind of dumpy and I always wear a sweat shirt."

"I'm afraid I don't remember you," said Anna Livia Phorsbelle.

"I'm the one whose lecture notes you've been borrowing for two years," said Werther.

"Oh, yes!" said Anna Livia. "What do you wish, Walter?"

"Werther," said Werther. "What I wish is to take you to the Junior Prom next April."

"But this is November 27, Westnor," said Anna Livia.

"Werther," said Werther. "Yes, I know, but you are so round and beautiful that I was afraid you might have a date already."

"As a matter of fact I do, Wingate," said Anna Livia.

"Werther," said Werther. "Oh, drat!"

Anna Livia did not really have a date, but she was expecting to be asked by Stewart Stalwart, athletic and BMOG, handsome as Apollo, smooth as ivory, wearer of faultless tweeds, smoker of Marlboro cigarettes which even without his other achievements would stamp him as a man with know-how, with a pleasure-oriented palate. If you think flavor went out when filters came in, try a Marlboro. This one burns with zest and zip and the good, mild taste so dear to those who smoke for the pure joy of it. Get yourself a pack of Marlboros and listen to your friends say, "There, by George, goes a smoker who knows a hawk from a handaw."

But I digress. Anna Livia waited and waited for Stewart Stalwart to ask her, but two days before the Prom, to everybody's amazement, he asked Rose-of-Sharon Schwartz, a nondescript girl with pavement-colored hair and a briefcase.

I have decided to accept your invitation...

Anna Livia immediately phoned Werther Sigafos. "My Prom date has come down with a dread virus," she said, "and I have decided to accept your invitation, Waldrop."

"Werther," said Werther. "Oh, goodie goodies!"

The next day Anna Livia received a phone call from Stewart Stalwart. "My Prom date has come down with a dread virus," he said. "Will you go with me?"

"Certainly," she said and promptly phoned Werther and said, "I have come down with a dread virus and cannot go to the Prom with you, Whipstitch!"

"Werther," said Werther. "Oh, nice and rats!"

So Anna Livia went to the Prom with Stewart and who do you think they ran into? Rose-of-Sharon with Werther, that's who! Stewart had felt obliged to ask Rose-of-Sharon because she always did his homework, but she had waseled out because she really wanted to go with Werther with whom she felt a great oneness because they were both so dumpy. He fell wildly in love with her at the Prom, and today they are married and run a very successful furniture emporium in New Bern, N. C.

Anna Livia and Stewart are still in love. They are still juniors and have to go to class and study hard.

Anna Livia immediately phoned Werther Sigafos. "My Prom date has come down with a dread virus," she said, "and I have decided to accept your invitation, Waldrop."

"Werther," said Werther. "Oh, goodie goodies!"

The next day Anna Livia received a phone call from Stewart Stalwart. "My Prom date has come down with a dread virus," he said. "Will you go with me?"

"Certainly," she said and promptly phoned Werther and said, "I have come down with a dread virus and cannot go to the Prom with you, Whipstitch!"

"Werther," said Werther. "Oh, nice and rats!"

"... for the man who cares to wear the very best!"

"ALL THAT GLITTERS IS NOT GOLD"

This old adage was written many years ago but is just as true today—  
if not more so—as it was when it was written. Whether it be "fools gold"—or anything else one is foolish enough to accept for more than what it really is—you can be certain that it is not necessarily the REAL thing!

Quality can be imitated for less—but not duplicated—so don't be misled by price alone. Modern technology has given us many wonderful things—including beautiful "finishes" and alluring "packaging." But beneath these "dressings" exists reality—the quality of a cheap imitation.

Geniuses are rare in every walk of life—and equally rare in the apparel business. Improved methods and procedures which they introduce are soon adopted by all the others, such is the pressure of competition. This "following the leader" is the great equalizer in American Industry and tends to give all the same advantage.

Hence, you can be rather certain that an item priced at \$6.95 is quite probably worth \$6.95—and that another priced at \$4.95, but which "looks the same," is most frequently worth exactly \$4.95! We usually get exactly what we pay for!

Our new collection of short-sleeve Sportshirts in fine, cool cottons are excellent values at \$5.95 to \$10.95. Carefully tailored in authentic Natural Shoulder tradition, for that "just right" fit, we offer for your pleasure: Tartan Plaids, Neat Prints, Blazer Stripes, and Solid Colors in Batiste Oxfordis, Hopsackings, Pima Batistes and Broadcloths.

## Scientist Scans Reactor Prospect Fusion Outlook Dubious

It is unlikely that nuclear reactors will ever produce electricity on a worldwide scale, according to an eminent Danish scientist visiting Michigan State.

"Never," said Dr. Niels Arley, "has mankind spent so much effort on international research projects which obtained so few results."

Although fusion, the process which uses hydrogen, has great potential, he continued, recent reports indicate that fission, which uses uranium, does not seem practical at the moment.

Fission's greatest drawback, he said, is that it creates dangerous radioactive waste materials which must be disposed of. If fission were used on a worldwide scale to produce electricity, he calculates, there would be so much waste material that all the oceans could not dilute it sufficiently.

The author of a recent book on atomic energy published in Germany, Dr. Arley has studied and made a number of calculations about the world's energy stockpiles.

He said best estimates indicate the world can continue to use coal and oil at the present rate for only about 100 years. If uranium 235 were used to produce all the world's energy, he continued, there would be only enough to last about 60 years.

Also, he said, more energy might be required to extract some uranium than the same uranium could produce.

The fusion process, on the other hand, could supply energy for many millions of years without causing a hydrogen shortage, Dr. Arley noted.

However, he added, the best calculations at present indicate there is only a 50-50 chance that fusion will be able to produce more energy than it takes to start the process. Also, he said, it is possible that the engineering problems can never be solved.

The Danish physicist believes energy from the sun offers the greatest possibility of replacing dwindling fuel resources in a time of expanding population. The wind, he said, also offers great potential.

Other possibilities, he continued, are ocean currents, ocean waves and the heat of the interior of the earth.

Dr. Arley, who is noted for his theoretical work as a physicist and as a biophysicist, is a visiting research fellow at the Norsk Hydro's Institute for Cancer Research, Norway.

### Rescue Training

A second basic rescue instructions training course will be held Saturday morning from 9-12 in 113 Education Bldg. under the sponsorship of the department of safety services. Each residence hall is invited to send a safety chairman and one other person to this meeting.

## They're Indoors, Now Ski Clubs in Session, Discuss Lift Proposals

The 31st annual convention of the Central United States Ski association opened at the Hotel Olds in Lansing today. It will continue through Sunday.

The convention drew delegates from ski clubs throughout the central states region who are members of CUSSA. Meetings for delegates will start this afternoon, and panel discussions are scheduled all day Saturday. Some of the topics for the discussion groups include area operators, ski instructors, ski patrol and intercollegiate skiing.

One important item to come under discussion by the council is a bill introducing ski lift safety legislation in Michigan. If this bill is passed, Michigan will be the fifth state with ski lift legislation, preceded by Oregon, California, Washington, and New Hampshire.

Lansing Ski Club members are acting as host with a banquet followed by a Ski Ball with the Jerry Warren orchestra.

Speakers at the banquet will include R. J. Furlong of the Michigan Tourist Council; Henry Pulver of National Ski Patrol, Milwaukee; Charles Forsythe,

### Reul, Friedlander Attend Meetings On Social Work

Dr. Myrtle Reul and Dr. Walter A. Friedlander, social work, attended the White House Conference on Children and Youth at Washington, D.C., as regional delegate and consultant, last week.

This conference provided an opportunity to share viewpoints and experience involving youth. Every ten years this conference is held as an effort to draw the nation's top authorities to develop more effective programs for children and to identify and develop ways of meeting the problems of youth.

Seven thousand persons attended, making this the largest conference of its kind ever held

## Child Study Plan Begun By Counties

Two MSU staff members took part in a pioneer study of child welfare services in Shiawassee county Wednesday.

Representatives of nine county agencies, with members of the County Board of Supervisors and others concerned with health and welfare, met at a one-day "Children's Service Institute" in Carunna to identify and resolve problems in the area of child welfare.

Representing MSU at the institute were Morris Gluckin, specialist of the MSU School of Social Work, and Burton Brackney, Community Development Specialist of the MSU Institute for Community Development.

Roy Gaunt, assistant director of the Michigan Welfare League, noted this is the first time a conference of this kind was held on lower than a regional level.

Gaunt said the institute set four main goals: The identification of problems in administering child welfare services; providing orientation for supervisors of the various agencies; providing county agencies with an opportunity for group discussion, and improving teamwork among the agencies to provide the greatest service for each tax dollar.

**PAT McCARTY LOOKS AT LIFE**

Life this week continues its vividly illustrated series on American folklore. While our forefathers were moving west they created fantastic legends—many of which live on today. This article gives the inside story of the escapades of such heroes as Davy Crockett, Johnny Appleseed and Judge Roy Bean.

We have watched in the last year the beginning of the era for large formal dances. Perhaps an era is coming to an end, but do not be too harsh on the supporters of these functions. Consider the tale of the winsome Southern belle who held back Union forces at a splendid ball while General Jackson's troops prepared for battle. Ah, for the MSU lass who could do as much for the Spartans during basketball season.

**IT MAY SURPRISE** a few of you to learn that all scholarly work is not done entirely within ivy-covered walls. Robert Stroud for nearly fifty years has been carrying on research in ornithology in the most unlikely of all places—solitary confinement cells of U.S. penitentiaries.

The "birdman of Alcatraz" (and McNeil Island and Leavenworth) has seen few living beings other than his birds, for he is allowed only one visitor and little correspondence. The quiet nonconformist who once killed two men is now considered by many to be the leading authority in his field.

Take heed, students—there is inspiration in this story if you are looking for it.

Ever wonder how to do away with that certain someone in a manner that will make you famous for your ingenuity? All of us have undoubtedly spent many blissful class hours contemplating the perfect homicide.

Take the advice of those who know—the master mystery writers of America—and do it with a poisoned orchid or a small unnoticeable hatpin. These writers agree that their tactics may be gruesome but, if done with the right attitude, murder can be fun.

**THOSE OF YOU** coeds who have felt spring in your souls and enough courage in your hearts to buy bikini pajamas can take pride in the fact that New York has decreed they're in style. What will AWS do about the forecast that the BB look is also going to be popular for sun bathing?

**THE AD MEN** of today have nothing on the Yankee peddler who convinced the ladies of Martha's Vineyard that they should buy two hats each because the current style was to wear one in front and one in back.
