

The Greek Week burro lost his chariot Wednesday night... The burro has been released to his chariot and will continue pulling it until the end of Greek Weekends, May 22.

"I have just finished filming chariot race from Ben Hur. Having a wonderful time. Wish you were here."

MSU Briefs

Master of Ceremony

Any student interested in auditioning for the position of master of ceremonies for the 1960 Water Carnival, call Arnie Roberts, ED 7-7435, for an appointment. Previous experience is not necessary.

Greek Feast Tickets

Tickets for the All-University Greek Feast will be on sale next week in Berkeley from 10 a.m. to 8 p.m. in the Union from noon to 8 p.m., in men's dorms from 8:30 to 6:30 p.m. Thursday and Friday, and in women's dorms from 5 to 6 p.m. Thursday and Friday.

Singing Auditions

Men's Glee Club will hold auditions Tuesday and Wednesday, May 10 and 12, from 5 to 6 p.m. in 121 Music Bldg.

Sorry-Omitted

Omitted from the list of 43 members published in the News recently were T. Gordon Grimes, East Lansing; Sue Schiller, Bay City; Gary Sherman, Vicksburg; Bill Hampson, Bloomfield Hills.

Job Openings

Jack Gunther of the United States Civil Service Commission will be giving an examination for stenotypists and clerk-typists May 21. Students and other persons interested may contact Mrs. Heidi Green, 17-D Morrill Hall, by phoning Ext. 3423 before May 16.

Representative Mining

Dr. C. Fred Gurnham will participate in a meeting of the American Mining Congress in Pittsburgh May 8 to 11. He will represent the mining industry on Public Health Service committees for the control of stream pollution.

Two to Address Foundry Society

Dr. Howard Womochel and Dr. Denton McGrady will participate in the 64th national convention of the American Foundrymen's Society in Philadelphia May 9-12.

Members of the metallurgical department, Professors Womochel and McGrady will lecture and present a research paper to an expected audience of 15,000 members of the metal casting industry from across the nation. McGrady will present a paper dealing with special high-strength cast irons include General Motors Corporation metallurgists Carl Langenberg of the Oldsmobile Division and Dr. Douglas Harvey of the research laboratories in Warren.

Defeats Plapp in Close Vote

Herbert Is Elected Speaker of Congress

One vote decided the election of speaker of Student Congress Wednesday night when Chuck Herbert, Lansing Jr., defeated Bryce Plapp, DeKalb, Ill., jr., 22-21.

Big Weekend For Parents Scheduled

Parents' Weekend, sponsored by the Fresh-Sopn Council, will be held May 14 and 15.

Some of the highlights of the weekend will be a coffee hour with Pres. John A. Hannah and representatives of university departments. A tour of the campus will be provided for the parents by council members.

Name IFC Chairmen

Bill Mitchell, IFC President, announced the following men as the newly appointed committee chairmen for the coming year.

Picasso's Mosaic Held Work of Art - Customs Court

NEW YORK (AP)—A Mosaic by Pablo Picasso is a "work of art," not "an article of glass," a U.S. Customs Court ruled Thursday.

Dicer Comes Up With All Kinds Of Wrong Loot

The Red Cedar yielded everything Thursday afternoon, except what the department of public safety and the Michigan State Police were looking for.

Honorary to Hold Annual Banquet

Sigma Lambda Chi, residential building and lumber merchandising honorary, will hold its annual banquet Saturday night at Kellogg Center.

Two to Address Foundry Society

Dr. Howard Womochel and Dr. Denton McGrady will participate in the 64th national convention of the American Foundrymen's Society in Philadelphia May 9-12.

Principle, Reality Confusing to World

America's friends abroad are increasingly worried about the difference between U.S. principles and realities in race relations, says Dr. John Useem, professor of sociology and anthropology.

Useem appeared Wednesday with Prof. Ralph Smucker and Arnold Singham of the political science dept. in a Union Board discussion of the impact of civil rights problems on U.S. foreign affairs.

For years, the U.S. has stood for special democratic values, Useem said, and government operations overseas, including propaganda activities, have emphasized these high principles. As a result people abroad now expect more of the U.S. than of other nations, he added.

But the American people have yet to acquire a real understanding of their position in the world, Useem said. Failure to grasp these foreign expectations and failure to translate them into practice at home make foreign peoples increasingly skeptical about American claims.

Meanwhile, Useem said U.S. Negroes have begun to experiment with such foreign concepts as passive resistance in achieving domestic goals. Americans are importing foreign democratic solutions to social problems as well as exporting slogans, he said.

Mendeser Jostled By Rioters

ANKARA, Turkey (AP)—Premier Adnan Mendeser Thursday was booed, heckled and jostled by student demonstrators demanding he resign.

The 61-year-old Turkish strongman was not injured by the students, but his hair was ruffled and his shirt tails pulled out. He was moved to tears.

Student demonstrations also have broken out at Istanbul and Izmir. About 3,000 students and youths have been sent to detention camps.

The government has managed to keep the students in check for the most part through the use of tough Turkish troops.

An indication of some military uneasiness over the current role of the army came from Lt. Gen. Cemal Gurel, commander of ground forces, he resigned.

Concert Group Plans Program

Spring Concert May 11

The Concert Band will present the first of its annual spring concerts at the Band Shell Wednesday night, under the direction of Leonard Falcone, professor of music.

This concert, the first of three to be presented at the Shell this spring, will be in line with the tradition which began in 1929 when the first outdoor concert was presented in front of Beaumont Tower.

In 1930, the program was presented in the "Forest of Ardent," now marked by a huge rock near Beaumont, where concerts were held through 1937.

Plane Downed in Russia On U.S. Weather Flight; Moscow Charge Denied

Meg. Tony To Altar At Noon

LONDON (AP)—A noon today Princess Margaret ends her year as a bachelor 27 and becomes Mrs. Anthony Armstrong-Jones. A warm and sunny day was forecast.

She is 29 and he is 30. Wednesday the Princess and her wavy-haired fiancé, a former photographer to the royal court, went through a solemn rehearsal at Westminster Abbey, where the Archbishop of Canterbury will pronounce them man and wife. Queen Elizabeth and Prince Philip looked on.

The couple drove together to the ancient abbey. The Princess was seen twisting her diamond engagement ring while Armstrong-Jones twiddled his thumbs.

Later they were together for two hours during lunch at Clarence House, where Margaret shed herself away from the crowds.

"It's like the coronation," said a harassed policeman. He referred to the gigantic outpouring of sentiment when Elizabeth was crowned in the abbey in 1953.

The great squares in front of Buckingham Palace, the abbey, the Houses of Parliament, and Clarence House were packed with people. This is the area through which the bridal pair will pass to and from the wedding.

Balloon Orbit Try Delayed

WASHINGTON (AP)—Technical difficulties Thursday forced a second postponement of the Civilian Space Agency's planned attempt to loft a balloon-type satellite, tall as a 10-story building, into orbit 1,000 miles above the earth.

The launching of the inflatable, 100-foot diameter balloon—designed to be the forerunner of a system to provide worldwide transmission of radio and television—was to have taken place early Thursday morning at Cape Canaveral, Fla.

But Wednesday, the Space Agency announced a postponement until early this morning, due to "technical difficulties" in the second stage of the three-stage Delta launching vehicle.

However, late Thursday afternoon the agency announced the second postponement, saying the difficulty was in the same second-stage area and adding: "The trouble apparently is in the guidance compartment. A study is underway to determine the exact cause of the problem."

Student Fined For Speeding

An MSU student was arrested early Thursday morning for reckless driving and driving on a suspended license. East Lansing police reported.

Detroit Tax On Incomes Challenged

By THE ASSOCIATED PRESS. The issue of taxation without representation has raised Thursday in connection with the proposed Detroit income tax.

Rep. John Bowman (D-Birmingham) asked for an Attorney General's opinion of the question.

Bowman said a city income tax in Detroit could mean that suburban residents would be paying Detroit as well as local taxes. He asked whether any Michigan municipality can levy an income or payroll tax on persons not legal residents of that city.

"It seems to me," he said, "that a city tax at the source of income would result in taxation without representation."

Bowman said residents of his district, many of whom work in Detroit, would be hard hit by such a tax.

"We have serious revenue problems of our own," he said. The Detroit Common Council proposed a one percent income tax on all persons living or working in the city, estimating it would yield 37 million dollars. Mayor Louis Mirani said he is against such a tax.

Roosevelt Criticized For Criticism

WASHINGTON (AP)—Rep. Gordon Scherer (R-Ohio) said Thursday night Rep. James Roosevelt (D-Calif.) had made charges against the House Committee on Un-American Activities like those "heard repeatedly from the lips of the Communist traitors subpoenaed to appear before us."

Scherer, a member of the committee, spoke for more than an hour opposing Roosevelt's proposal to abolish the committee and transfer its duties to the Judiciary Committee.

He said the House can follow the advice of the gentleman from California and abolish investigation of subversion. Then he went on: "We can get back and helplessly witness a concentrated movement to overthrow the government of these United States through subversion, espionage, treason, propaganda, labor and racial violence."

Roosevelt sat through Scherer's speech, for which the Ohio representative had reserved time, without interrupting to question him.

Scherer said the committee had learned that members of what he called "this communist union, the United Electrical Workers," had been given an assignment by the Communist Party, "the preparation of dossiers on each member of the House Committee on Un-American Activities and key members of the staff... with the hope of being able to discredit by twisting and distorting the facts."

Scherer said the committee also has learned that representatives of the union "have met with the gentleman from California on the matter of his attack on the Committee on Un-American Activities."

Blackout By Pilot Suggested

WASHINGTON (AP)—The United States indicated Thursday the "banjit" U.S. military plane Soviet Premier Nikita Khrushchev boasted was shot down on a mission of intimidation actually was an unarmed weather study craft whose civilian pilot may have blacked out.

"It is entirely possible that having a failure in the oxygen equipment which could result in the pilot losing consciousness, the plane continued on automatic pilot for a considerable distance and accidentally violated Soviet air space," the State Department said.

Its report—issued after a hurry-up inquiry ordered by President Eisenhower—suggested the possibility in mind words that associated any reference to Khrushchev's belittling declaration that the plane was sent by U.S. "aggressive forces."

Khrushchev told the Soviet Parliament the plane may have been ordered out by the U.S. military—perhaps without Eisenhower's knowledge—to "impress us and frighten us on the eve of the summit."

Congress members were outraged by "Khrushchev's charge and the 'fracture he displayed.'" Some like Sen. Styles Bridges (R-NH) questioned why a jet Eisenhower might not go to the summit meeting in Paris starting May 16.

Others felt like Sen. E. L. Bartley (D-Ala.), who said the United States should go ahead with the summit conference "despite the crude, rude, propaganda remarks of Khrushchev."

Senate Democratic Leader Lyndon Johnson of Texas ventured an opinion that Khrushchev may be "simply using this as an incident to apply leverage" for the coming East-West meeting.

Vice President Richard Nixon—who came in for some unfavorable mention by Khrushchev—decided comment. He said he wanted to study the Soviet Premier's speech.

Although nobody in authority would say so definitely, it appeared the plane was a NASA high altitude weather research craft—a single engine jet U2 Lockheed—reported missing since Sunday after taking off from a field near Adana, Turkey. That was the day Khrushchev said an intruding U.S. military plane was shot down over Soviet territory.

In Burbank, Calif., officials of Lockheed Aircraft corp. confirmed that a Lockheed test pilot was at the controls of a missing U2.

Department Press Officer Lincoln White said there had been no official protest from the Soviet government.

When it was noted that Khrushchev complained this was the second border violation by U.S. aircraft in recent weeks, White said "We have absolutely no information on that at all."

Police Use Clubs On Congo Rioters

LEOPOLDVILLE, Belg. Congo (AP)—Police Thursday used clubs and teargas to break up demonstrations by striking Negroes in Elisabethville, capital of the Belgian Congo's Katanga Province. Many Negroes were reported seriously injured.

A ban on gatherings of more than five people was invoked. Thousands of Negroes went on strike in Elisabethville last week and for higher wages.

Walter Quirt Canvas To Be Shown Here

A retrospective exhibition of paintings and drawings by the well known midwestern artist, Walter Quirt, will be on view at the Kresge Art Center May 10 until June 1.

Son Floats in Funnel of Tornado

FORT WORTH, Tex. (AP) — A young mother told Wednesday of trying to grab her young son sucked into the funnel by a tornado that destroyed the family home and injured the entire family.

"I could see him floating in the air," Mrs. Larry Allen said. "I tried to reach him but couldn't."

"My home was one of many things destroyed Wednesday as tornadoes skipped over the area."

Allen, 21, a painter, and his wife, Thelma, 20, were in their five-room home three miles north of Saginaw when the tornado struck.

Allen was in the bedroom, reading a nap. Mrs. Allen was in another room, ironing. She had a window break in the living room.

"Then I could hear the wind blowing in. I knew it must be a tornado, so I ran to get the boy out of the living room."

Allen shouted at her husband to get the baby while she bolted to get their two sons, Robert, 3, and David, 2, who had been playing in a large walk-in closet.

When it happened, Mrs. Allen held onto Robert, couldn't reach little David. She could see him floating in the air, Mrs. Allen said. "I tried to reach him but couldn't."

"My must have been blown at least 100 yards," the young father said.

Allen landed near the father. The two sons landed near Mrs. Allen.

Fortunately, none appeared to be hurt seriously. All suffered cuts and bruises.

Fairchild to Show Film on Man's Power

Man possesses two kinds of power: the power to build and the power to destroy. Which is greater?

This is the question examined by the film "Power Among Men" to be shown at Fairchild at 7 and 9 p.m. Monday and Tuesday.

Presented as a part of the university's Foreign Film Series "Power Among Men" is the first feature-length film produced by the United Nations Film Services. Marlon Brando narrates the American version.

Man's two powers and their relation to survival are woven into four sequences in different areas of the world—Sant' Ambrogio, Italy; Fermathe, Haiti; Kitimat, British Columbia, Canada; and Kjeller, Norway—to present anew the ideas and purposes of the UN.

The Italian episode deals with rebuilding after World War II. The Haitian sequence shows how an area can be made to flourish despite local indifference and opposition to progress. The Kitimat story is a study in how people with different ethnic backgrounds learn to live together to accomplish a single goal. The final scene in Norway deals with the atom and its uses for either peace or war.

Though a documentary film, "Power Among Men" is considered by reviewers to be "as exciting as many a Hollywood thriller."

Englishman Thorold Dickinson, chief of the UN Film Services, is producer of the film and its co-author along with J. C. Sheers.

Tanganyika Bishop Received at Vatican

VATICAN CITY (AP)—Pope John XXIII Wednesday received Laurian Cardinal Rugambwa in a private audience and expressed his pleasure at the Cardinal's recovery from a recurrence of malaria.

Russia May Hunt U. S. Subs

WASHINGTON (AP)—Sen. Clair Engle (D-Calif.) suggested Wednesday Russia might hunt down and destroy the United States' nuclear-powered Polaris submarines one by one and let their fate remain a mystery.

Engle told the Senate he doubts the Russians, having just shot down an American plane, would hesitate to destroy an Engle raised the possibility in a speech questioning whether the Pentagon is placing too much reliance on the nuclear driven submarines.

The Senator said the thought that the Russians may destroy U. S. submarines "one by one in peace time" is something that has occurred at the Pentagon, too.

Pittsburgh Defeat Cubs to Extend Lead

By THE ASSOCIATED PRESS
The Pittsburgh Pirates padded their National League lead to two games yesterday, scoring seven runs in the last three innings for a 9-7 victory at Chicago that ruined Lou Boudreau's debut as Cub manager. Second place San Francisco blew a two-run lead and lost 4-3 to the Cincinnati Reds, who swept the two-game series.

The St. Louis Cardinals, playing Philadelphia in a night game, tied the National League after Los

had a chance for third place in Angeles spilled Milwaukee 4-3 in 10 innings.

The Pirates made it 10 out of 12, after losing two in a row, on pinch-hitter Bill Virdon's two-run triple in the ninth. They had tied it 7-7 in a five-run seventh, triggered by Bob Clement's one-on homer. Fred Green (2-0) won it in relief, after the Cubs had scored four unearned runs against starter Red Witt in two frames.

Netmen Finish Home Season This Weekend

Michigan State's unbeaten tennis team makes its final home appearances of the season this weekend in matches against Wisconsin and Illinois.

The Spartans host Wisconsin this afternoon at 2:30, and play the Illini Saturday at 10 a.m.

Undeclared in 15 outings this season, the Spartans are enjoying their finest campaign since their Big 10 Championship year of 1951.

"We've had great team effort," says MSU coach Stan Drobac. "I can't point out one or two top performers because all six players have starred since the start of the season."

"Our big worry now is a letdown," he said. "We can't take Wisconsin or Illinois lightly."

Earlier this season State downed Illinois, 5-4. It was one of six one-point wins for the Spartans for the year, and the first time MSU has beaten the Illini since Drobac took over the coaching duties in 1958.

The Spartans meet Wisconsin for the first time. A year ago State defeated the Badgers, 8-1.

Drobac's starting lineup, and the players' records in parentheses, is: No. 1, Brian Eisner (9-6); No. 2, Capt. Bill Hotchkiss (8-7); No. 3, Doug Smith (10-5); No. 4, Roger Piagenhoef (13-2); No. 5, Ron Mescall (12-3); No. 6, Ron Henry (12-3).

SPARTAN SPORTS THIS WEEKEND

FRIDAY
Baseball — MSU vs. University of Michigan, Old College Field, 3:30.
Tennis — MSU vs. Wisconsin, Varsity courts, 2:30.

SATURDAY
Golf — MSU vs. Illinois and Purdue, Akers Course, 8 a.m.
Tennis — MSU vs. Illinois, Varsity courts, 10 a.m.
Weightlifting — IM Building, 1 p.m.

A Tie, Four One-Hitters Feature Softball Action

Sigma Chi, behind the one hit pitching of Bob Klemkowki, edged AE Pi Thursday in IM softball action. Ed Abry tossed a six hitter for the losers.

ATO held off a last inning rally by Sigma Phi Epsilon to emerge victorious, 5-4. Ted Cappelen and Tom Ryan smashed homers for the victors.

SAE managed to garner only one hit, but scored 11 runs to topple Triangle, 11-6. Eleven walks aided the victors.

Ron Ferguson pitched a two hitter and also slammed a home run to lead Sigma Nu over Kappa Sigma, 9-1. Don Schultz also had a home run for the winners. East Shaw 10 scored in every inning to stop E. Shaw, 11-7.

Farmhouse blanked Phi K Psi on Fox's one hitter, 14-0. Fox also had two doubles and a triple to aid his own cause.

Sigma Phi Deltas, behind the five hit hurling of Dick Henry, defeated the Road Runners, 5-2. Henry struck out six and walked one in the four inning contest.

Rutherford coached present Spartans Mitch Newman, Larry Hudak and Ed Budde.

The clinic will be climaxed by the football team's annual Green and White intra-squad game.

Head coach Duffy Daugherty has split his team evenly down the middle in attempts to give the two contingents equal strength in this important workout.

Daugherty said the students and faculty are invited to watch the Spartans along with the coaches. There is no admission charge. Game time is 2 p.m.

The contest will be significant for the players themselves as they will be facing men that are battling for their positions.

Tommy Wilson and Don Stewart have been assigned to opposing units. Wilson currently is holding the key to the first unit. Stewart, a halfback transfer has been handling the No. 2 team.

Green-White Game Ends Coaches Clinic

Don Stewart, Tom Wilson Opposing Quarterbacks

By JIM WALLINGTON
State News Sports Editor

Football coaches from all over the state and the mid-West began arriving on campus Thursday for the Seventh Annual Football Coaches Clinic sponsored by the athletic department.

The prep mentors will get coaching hints from the Spartan grid staff and expert guests at the three day affair. The biggest name lecturer is Lou Groza, the record holding place-kicker of the Cleveland Browns.

Frank Howard of Muskegon College, Ed Farbat of Muskegon Catholic Central High School and Ed Rutherford of Detroit Denby High.

Rutherford coached present Spartans Mitch Newman, Larry Hudak and Ed Budde.

The clinic will be climaxed by the football team's annual Green and White intra-squad game.

Head coach Duffy Daugherty has split his team evenly down the middle in attempts to give the two contingents equal strength in this important workout.

Daugherty said the students and faculty are invited to watch the Spartans along with the coaches. There is no admission charge. Game time is 2 p.m.

The contest will be significant for the players themselves as they will be facing men that are battling for their positions.

Tommy Wilson and Don Stewart have been assigned to opposing units. Wilson currently is holding the key to the first unit. Stewart, a halfback transfer has been handling the No. 2 team.

Defensive specialists Paterra and A ex Valcanotti spell the quarterback.

Both squads will use more than one team in the contest. It is an excellent opportunity to view all players under conditions.

A possible second green and white game will be played at QB, Ron Watkins and MacEachron at fullback, George Saines at fullback, Ernie Clark and Ken May, guards Hahn and Tony Kumianga center Jim Bridges.

Mitch Newman at fullback, Ryan and Jim Eaton at end and Leroy Loudermilk at end make up the second unit.

One week of practice remains before spring drills begin next Saturday with the Timers game.

John Horner, three-time National champion, was in America here and 1960.

Spartan 9 Clashes With U of M In Triple Game Weekend Series

Sackett, Sinks to Carry Pitching Burden for State

Fresh from a 6-1 victory over Western Michigan, Michigan State's baseball squad returns to Big 10 play with a three-game weekend set with its rivals from the University of Michigan.

The clubs meet in a single game at Old College Field today. Game time is 3:30. Saturday afternoon, the Spartans will travel to Ann Arbor for a doubleheader with the Wolverines, beginning at 1:30 at Perry Field.

Both squads are recovering from the pastings suffered at the hands of the University of Minnesota last weekend. State was trounced, 13-6, and now stands 1-3 and in eighth place in the Big 10 Standings. Michigan dropped two to the Gophers, 10-3 and 11-1, to put the Wolverines even at three wins and three losses and in a tie for fourth with Illinois.

Spartan Coach John Kobs expects the U of M series to be a close one. "Michigan has shown a lot more batting strength than ours. But we'll have pitchers Mickey Sinks and Don Sackett ready, and our own run production did pick up against Minnesota," said Kobs.

Michigan's team batting average is a hefty .306, compared to State's .221. Two of the Wolverines are hitting over .400 for the season.

Sinks and Sackett, hot bright-handers, sport earned run averages of 1.95 and 1.89, respectively, each in six appearances to date. They continued to hold Western Michigan to three hits and a lone run on Tuesday of this week.

State's third starter is an uncertainty, but lefty Don Piemann might earn the chance based on his improving work.

Catcher Bob Monczka and first basemen Bill Schudlich are the only regulars hitting over .300. Monczka's average is .333 and Schudlich's .303. John Hendee is the next highest batter with a .292 average.

Scheduled to hurl for the Wolverines against State are lefty Bob Marcereau, who defeated Iowa last weekend in his only conference start of the season, DeWay McGinn (4-1) and Al Koch (4-1).

MSU's probable starting lineup will have Ron Holmes leading off and playing second base; Schudlich, at first; Pat Sartorius, right field; Hendee, centerfield; Tom Riley, left; Dick Golden, shortstop; Jerry Lumianski, third base; Jim Coon, catcher; and Sinks, Sackett and Piemann, pitching.

State's record for the season is 10 wins against seven defeats.

Today's game marks the 127th meeting in the ancient rivalry that began in 1884. Michigan leads in the series, 19 wins to 46, with one tie.

CAPT. DICK GOLDEN field general for State

MAKE THE MICHIGAN STATE NEWS YOUR MORNING HABIT

Spartans Face Purdue, Illinois in Track Meet

The Spartan cindersmen will fly to Lafayette, Indiana Saturday to participate in a triangular meet with Purdue and Illinois at the Boilermaker track.

After three consecutive weekends of relay competition, including the biggest relay meet of the season, the Penn Relays, State will participate in its first regular season meet.

The Spartans main hopes will be Zach Ford in the sprints; Willie Atterberry, 220 and 440 yard runs, 220 yard low hurdles; Bob Lake, mile and two-mile; Mike Kleinhans, pole vault; Mike Gerhard; high jump; Sonny Akpata, broad jump, and Brian Castle in the 880 yard run.

Atterberry, captured first place in the 400 yard hurdles last week at the Penn Relays.

Coach Fran Dittrich expects the toughest opposition to come from Illinois, the team that was runner-up to Michigan in the Big Ten indoor championships.

"If we can hit on all cylinders, I think we can give the Illini a good go," Dittrich said. He has been putting the cindersmen through their paces on the "new look" Ralph Young Field under perfect weather conditions this week.

The Illini are paced by their outstanding half-miler, George

Kerr, Big Ten indoor champ; Jim Bowers, the conference indoor mile winner; Bill Brown, indoor shot put winner; Ken Brown, indoor two mile champ, and the league's top mile relay squad.

The Boilermakers will exhibit their brilliant quarter-miler, Dave Mills, and Mike Johnson, conference pole vault champion who made such an excellent showing in Jenison Fieldhouse last year.

This meet and next week's dual meet with Notre Dame here will precede the Big Ten Championships to be held at East Lansing May 20-21 and the ICAA Championships at Villanova the week after.

May 6, 1960 Page Five

Golfers Risk Win Streak

Michigan State's golf team will put its unbeaten record on the line Saturday, May 7, when it plays Purdue, the 1959 Big 10 titleholder, and Illinois in a triangular match at Forest Akers golf course.

Leading the Boilermakers will be two-time conference individual champion, John Konsek. In a quadrangular match at Purdue last week, Konsek defeated Ohio State's Jack Nicklaus, the national amateur champion, by four strokes. Another standout in the Purdue lineup is Gene Francis, who placed seventh in last year's Big 10 meet. Both Konsek and Francis reached the third round of play in the NCAA tournament and both have won All-American recognition for two straight years. Konsek has been a first team selection twice and Francis was named to the third team in 1958 and the second team in 1959.

The Boilermakers come to East Lansing with a 10-1-2 record while Michigan State is undefeated in five outings. Illinois finished last in the 1959 conference championships and with only two lettermen returning, prospects for this season aren't too bright.

May Hop Is Scheduled To Highlight Weekend

The May Hop being held May 14 will be one of the major highlights of Parent's Weekend.

The queen who is to reign over the Engineering Exposition will be crowned the morning of May 14 by the Knights of St. Patrick.

The Knights are an Engineering honorary dedicated to those students who have shown outstanding leadership and service to their fellow students.

During the dance intermission, the queen will announce the names of the new members elected into the Knights.

"Jack Pele, a pantomime, will be master of ceremonies and will entertain during the intermission," said Richard Seymour, general chairman.

During the intermission, the Psi Lambda Tau fraternity will present the outstanding senior award to a student in engineering.

There will also be presentations of trophies for the best displays shown at the exposition and the dean's trophy, presented by Dean Ryder, for the best exhibit.

The Merlyn Gates Orchestra will be featured. Tickets are \$2.75 per couple and can be purchased in the union or from members of the engineering council. Only a limited number of tickets is available.

Eighty Students Study Astronomy With Dr. Mann

Eighty students here are enrolled in Astronomy 114. The course is taught by Dr. Glen Alan Mann, a recent graduate of MSU and the only instructor in Astronomy. Mann has a degree in spectroscopy.

The classes are lectures with a discussion of the solar system and its parts as the main topic. The lectures are supplemented by slides and diagrams.

Theories are discussed during the class such as the determination of the interior temperature of a star. Equations are set up to explain the theory, the equations are validated, and the result is a good approximation of the unknown temperature.

According to Mann, "The only handicap is the ineffectuality of the mathematics."

"According to present theory, the solar system and everything in it, may be the remnants of a super-giant star," remarked Mann.

The measurement of the light magnitude from stars is based on a logarithmic scale. That is, a star is taken as zero magnitude then another star half as bright to the eye is one.

Rise Feared In Hazards Of Radiation

WASHINGTON (AP)—The nation's top scientific organization cautioned Wednesday that the expanded use of nuclear energy expected in the future means "potential radiation hazards will increase accordingly."

The National Academy of Sciences said that "unlike most other hazards, radiation exposure can adversely affect many future generations."

"The need for conservative management of all radiation sources is obvious," it said.

The report issued by the foundation was a compilation of studies by six reports committees of the academy. The committees consisted of experts in the field of genetics, pathology, meteorology, agriculture and food supplies, disposal of radioactive wastes, and oceanography and fisheries.

Their views were described as up-dating of the academy's initial report on the biological effects of radiation made in June, 1956. The scientists made it clear their concern about potential hazards remains at least as great as it was almost four years ago.

"The steady accumulation of scientific information since 1956 has not brought to light any facts that call for a drastic revision of earlier recommendations," the scientists said.

In the 1956 report, which attracted worldwide interest, the same academy committees warned that radiation from any source—nuclear bombs, nuclear reactors, the natural environment and medical x-rays—is harmful to life.

Last Brother-Sister Training Scheduled

The final training session for American Brother-Sister program participants will be held Saturday at 9:30 a.m. in the UN lounge.

Dr. Fauzi Najjar, assistant professor of foreign studies will discuss the Near East. Dr. Lawrence Battistini, associate professor of social science, the Far East and Benjamin Dennis, Liberia graduate student, Africa.

THE ALUMNI ASSOCIATION OF THE SIGMA PHI EPSILON COLONY IS PROUD TO ANNOUNCE THE INSTALLATION OF MICHIGAN EPSILON CHAPTER OF THE SIGMA PHI EPSILON FRATERNITY ON MAY 7, 1960

GAY FIRTH, Detroit fr., Bill McLeod, Lake City sr. and Dean T. K. Cowden of Agriculture College get in some practice for the student-faculty ballgame scheduled for the Ox Roast Thursday.

Special Events Scheduled

Ox Roast Next Thursday

The annual ox roast sponsored by Agriculture council will be held Thursday at 5:30 p.m. at the Soccer field.

Special events include a student-faculty ball game, stout men's race, three-legged race, sack race and square dance by the Promenaders with audience participation.

The buffet style meal will feature prime beef cooked western style, potato salad, baked beans and ice cream, according to Bill McLeod, Ox Roast chairman.

Tickets, \$1.25 per adult and 75 cents for children, are on sale from any council member and at the Union ticket desk.

Education Talks Slated on WKAR

A new series of five talks called "Education in the Nation's Service" will be presented by WKAR beginning Sunday.

The series is concerned with an imaginative system, chiefly of higher education, by five of the nation's foremost educators. The series was produced by NBC News in cooperation with the Woodrow Wilson Foundation.

"LAST CALL" "LAST CALL" "LAST CALL" "LAST CALL"

Newspaper Contents Studied

More Comic Strips in Midwest

Could it be that mid-westerners have a keener sense of humor than New Yorkers?

According to a recent study by the Communications Research Center, Ohio newspapers carry more comics than do those in New York.

In the Ohio newspapers studied, 11 percent of the non-advertising content is devoted to comic strips. On the rock-bound East coast only six percent of New York news fare is in the form of comics.

The four-week study of 12 metropolitan daily newspapers was sponsored by the Scripps-Howard Research Foundation, Cincinnati, Ohio.

The results of the study, published in a 156-page booklet, were distributed last month to journalism departments of all major colleges and universities.

Across the nation, according to Dr. Paul Deutchmann, director, Communications Research Center.

More than one million column inches were studied in 144 issues of seven New York City, three Cleveland, and two Cincinnati daily newspapers.

It took over 25,000 IBM punched cards to tabulate the results.

Most news stories, it was learned, are concerned about people. New York papers featured more well-known persons than did Ohio newspapers. Both, however, carried more stories of people who were not famous.

Studying news items for the sex of the central person, it was found out that men are in over half of the stories.

"This is not very surprising as it's still a man's world," Deutchmann said.

An example of the report cited is the New York Times which ran only five percent of its stories written especially for or about women.

Women use newspapers to a lesser degree than men do, showing a greater preference for radio and television, according to the report.

As would be expected, New York papers published more news with a foreign dateline than did the Ohio entries. Several Ohio papers used "round-up" columns to cover foreign news.

In percent of items by dateline the New York Times with 22 percent ran more foreign stories than any other paper studied.

Concerning the types of news, New York papers carried more crime than Ohio papers. More human interest stories were printed in Ohio than in New York. Both published the same amount of business, public moral problems, and science news.

Teacher Spanks, Parents Protest

KNOXVILLE, Tenn. (AP)—Some irate parents of seventh grade pupils at Carter Elementary School say a teacher spanked their sons and daughters for squealing at snakes and want him transferred.

The matter was aired at meeting of Knox County School board Wednesday night. The board promised to look into it.

Allie Brown, who said his daughter came home with "whipped a bunch of children and left blue places on them," science-teacher David Wetzel, "whipped a bunch of children and left blue places on them."

Wetzel, in his first year as teacher at the rural school, declined comment but asked if he may have something to say.

Brown said Wetzel let his class unattended one day last week and while he was gone some boys got into the preserved snake collection and tried to put them on the girls.

LIFE

EVER WISHED YOU HAD dropped out of school around the seventh grade? You had never attempted to get with education and all its falls in the first place?

Take a look at what happens to those kids who do drop out of high school and the problems they create for their communities. Almost a million students leave school every year before graduating. Detroit's program for helping its drop-outs, called Job Upgrading, is unique in the country.

Through this program former students are helped to gain experience to continue their studies or are trained for occupations which suit their aptitudes. The work being done by the faculty of Upgrading is lauded by LIFE as being progressive and so successful.

LIFE STRIKES CLONING home this week on its editorial page. The editors endorse the actions of university students who demonstrated against anti-governmental practices in Latin America, Korea and Turkey. That these students should consider it their duty to serve the klaxxon of the nation is a phenomenon which doesn't exist in America.

The editors list the European countries in which students have spearheaded revolutions. They give as a possible reason for the lack of riots in this country the fact that few revolutions have been necessary since the rule of man were established by our forefathers overthrew the British. However, if they are needed, there is some indication that students in the United States stand ready, willing and fairly able.

FOR WELL OVER A MONTH a debate has been carried on all over campus—in classes, living units and the popular student hangouts. People who have been friends for years suddenly discovered that they're not in agreement on everything.

Although they might have been apathetic before, everyone now has an opinion on the execution of Caryl Chessman. The diversity of feeling at MSU is only an example of the nationwide furor created by the death of this man.

Most of Chessman's supporters were not defending him because of personal sympathy. The condemned criminal had set himself up as a symbol of the injustice of capital punishment. And so the question has become

Mother Die in

LANSING A young woman died her two children. Mrs. E. M. Dierke, 42, died in a factory blaze in the 1200 Palmer St. of Lansing. Fire Marshal Fred Mars said the blaze started in the kitchen. Young Hugh tried to cool down starting
