Kennedy, Nixon Promise Action

WASHINGTON, D.C.—Sen. John F. Kennedy pledged his support Sunday for federal aid to the nation's depressed areas while Vice President Richard M. Nixon came out for government help to medical schools and students.

Both the Republicans and Democrats spent the day in Washington testing before taking off Monday on another swing into the South. Nixon offered his proposal as another of what he calls "positive papers."

The Vice President described his plan as "A great new offensive against the age old sources of mankind." He proposed that the government undertake part of the costs of fellowships to medical schools, medical research and a 10 year accelerated construction program for medical facilities and research laboratories.

KENNEDY, THE DEMOCRATIC candidate for president, continued campaigning over the weekend in the Midwest and Border states. It was in Duluth, Minn., where he addressed a dislocated mining area. Speaking in a TV studio interview (ABC-TV) before News Conference, he said:

"I can't think of a single state or Eisenhower type had killed where we do not have a chance."

'No Congo' in Nigeria Says Chief Awolowo

Lagos, NIGERIA, Oct. 1—There will be no Congo in Nigeria," the leader of the parliamentary opposition, Chief Obafemi Awolowo, asserted Sunday.

Ayub, federal president of the other great opposition party in the nation, told a news conference he did not think any Nigerian wanted trouble.

Speaking at the international public press conference about the crisis from the opposition,

Awolowo said: "We are here in peace to see that Nigeria has an important place in Africa and in the world. Our natural resources must be exploited efficiently for the benefit of all our peoples."

EMERGING COUNTRIES like Nigeria must depend greatly on economic, capital and technical United Nations overstepped when it closed airports to prevent the movement of Congolese troops, no assistance to offer will not Awolowo claimed it was U.N. duty to prevent unilateral intervention in the Congo, whether by Russians or Belgians.

It was U.N. duty to get rid of the Russians and Greeks, these criminal trespassers, he said. "The United Nations should have left the Congo to fight it out among themselves, and whoever won should have become the government of the people."

Khrushchev Not Ready To Meet With Eisenhower

GLEN COVE, N.Y., Oct. 1—Soviet Premier Khrushchev said Sunday he has not yet bought the plea by five neutral powers that he get together with President Eisenhower in a meeting on world tensions.

Khrushchev also ducked an inquiry as to whether he expects to see Eisenhower before he leaves that country. He indicated once again that he wants the first move for a meeting to come from someone else.

And he took a slap at the French by inviting to his Glen Cove, Long Island estate representatives of the rebel Algerians. He declared they have a government that "does exist."

Wife of Governor Defends Kennedy

Mrs. Nancy Williams, wife of Gov. George E. Meany Williams, attacked the Republican party as "the great deaf ear" which while in office never seems the needs of the people.

In the open meeting speech last Tuesday, for this university's chapter of Young Citizens for Kennedy, the governor's wife turned praised the Democrats as a party with a "sensitive and sympathetic ear."

Mrs. Williams said that "stiffing of criticism is un-American" and she rapped the Republicans for saying that criticism is unpatriotic.

Michigan's first lady said that she was in college now, she would do what she could to take part in the major decisions made,

and called on the students present to enthusiastically support the campaign of Senator Kennedy.

In For Changes

2,000 Turn Out For Block 'S'

More than 2,000 students turned out to compete for the 1,008 seats in Block 'S' for Saturday's game. Block S chairman Bill Myers wishes to thank both those who participated and those who were turned away.

Technical and time difficulties marred the blocks performance Saturday. The promised opening band was halted by the world's largest choral competition in Chicago because of time.

Other patterns stopped because the students failed to follow directions, Myers said. The block play callers managed to get the students to turn the cards once, but in most instances the cards weren't turned the second time.

FOR THIS REASON, there has been a procedure change for the subsequent games. The patterns will call for only one card flip.

Next week's Block S show will include a half-time performance of "Spartanettes," a semi-animated story of a round-the-world trip. To insure its completion the show has been scheduled to begin immediately after the first half.

Bryan and Phillips halls are leading the attendance competition for the Block S trophy. Due to the demand for blocks seats in the dorm meal lines, dorm quotas will be smaller than last week and seats will be distributed on first come, first served basis.

For the homecoming game only, greeks and co-ops may apply for block seats. Bill Myers will take reservations until 5 p.m. on Oct. 22, Call ED 7-1721. Jenison was packed Friday night with 10,000 enthusiastic students attending the pep rally. After introducing some of the key players, Duffy was candid about his strategy.

"Simple," he said. "We'll play them." It's history now that Duffy's strategy worked.

After the rally, some of the hardy students set up a night-watch over Sparty. The statue is traditionally a victim of pre-game vandalism by visiting opponents. No raiding parties showed, however.

The capacity crowd at the game witnessed fine performances.

Two Cars Collide

Two persons were shaken up Sunday when their cars collided at Shaw and Chestnut lanes on campus.

Gretchen Snowden, East Lansing, refused medical treatment. Mary Hoffmyer, Lansing, was treated at Sparrow hospital and released.

Police estimated damage to both cars at \$800.

During Next 5 Years

MSU to Spend \$1 Million in Foreign Study

One million dollars will be spent rather than direct assistance or by MSU faculty and staff members over the next five years to study underdeveloped areas of the world.

Ralph Smuckler, assistant dean of International Programs, announced that researchers are already starting work in Latin America under the million-dollar Ford foundation grant and others will study in south and southeastern Asia and in west Africa.

Smuckler said the purpose of the grant is "to expand the university's international research programs and to add to the fund of knowledge on the world's underdeveloped areas."

Basic research and observation,

"This project will study what happens to the money paid for \$155,000 given by the Ford Foundation two years ago to finance our farm surpluses and what effect it has in the development of the nation?" Smuckler said.

"It could, then, result in better American policies in the surplus programs."

Funds for individual studies will be allocated by the International Programs office, headed by Dean Glen L. Taggart.

The office will work in collaboration with the assistant deans for international affairs of the various colleges interested in any of the economic, political or social aspects of underdeveloped areas.

The grant is actually a whop-

the use of the ball offense, which according to Elliott, was completely unexpected."

However, in other areas Saturday Iowa, next week's opponent, trounced Northwestern 42-0. This unbalanced score caused most MSU fans to predict something of a real battle again next week.

Ike Vetos Proposed K Meeting

President Opens Door For Talks

WASHINGTON, Oct. 3—President Eisenhower tonight rejected a proposal by five neutralist leaders to form a Committee meeting with Soviet Premier Khrushchev, saying Soviet words and actions fail to hold any promise of productive talks.

Eisenhower, in a letter to the five leaders, however, held the door open to future meetings with Khrushchev.

K May Answer

UNITED NATIONS, N.Y.—Soviet Premier Khrushchev will speak to the UN General Assembly again today. He may give his stand on a neutralist resolution asking him to meet President Eisenhower. Authoritative sources reported Sunday night.

Khrushchev and other government heads if the Soviet Union shows it "is prepared to return to the path of peaceful negotiation with some prospect of fruitful results."

THE PRESIDENT discussed his letter with British Prime Minister Harold Macmillan and Australian Prime Minister Robert G. Menzies in a White House conference this morning.

This afternoon he approved a final draft which was then sent through the U.S. Mission at the United Nations to:

President Nkrumah of Ghana, President Sukarno of Indonesia, President Nasser of the United Arab Republic, President Tito of Yugoslavia, and Prime Minister Nehru of India.

EISENHOWER emphasized at several points that he is prepared to join in any international negotiations that would promote the cause of peace and ease tensions.

He said he had never utilized any threats whatsoever with regard to.

"On the other hand," Eisenhower wrote the five, "the Soviet Union far from following a comparable policy of restraint appears to have undertaken with deliberate intent a policy of increasing tensions throughout the world and in particular of damaging relations with the United States."

"INSTEAD OF avoiding threats of the use of force, the Soviet government has threatened rocket retaliation against many members of the United Nations, including the United States, on the pretext of contrived and imaginary intentions on the part of these countries."

"While these threats have necessarily only strengthened our resolve to maintain our readiness to deter and if necessary, to resist any aggression, they have nevertheless caused uneasiness throughout the world."

Eisenhower then brought up specific accusations against Russia, saying the Soviets had refused an impartial international body to investigate the shooting down July 1 of a U.S. RB47 airplane and is still holding two members of the crew.

PRESS SECRETARY, James C. Hagerty said Eisenhower's demand for release of these men still stands as one condition for a meeting with Khrushchev.

MICHIGAN BENNIE MCRAE seems ready to take off for touchdown land as his teammates open a big hole in the MSU line. Looking from behind is Spar-

tan Wayne Fontes (39), while Job Thomas (66) clears the way for the Wolverine speed merchant.

U Of M Gets Green Coat Of State Paint

Four students celebrated the MSU Michigan game Saturday with the Ann Arbor police as the result of a scuffling job on two ticket booths and an Ann Arbor street early Saturday morning.

The painted MSU on a street leading to the stadium gate.

Gary Fiume, George Deimel, and Thomas DeRosa, College sophomores, were both arrested and fined \$10 and \$5 for vandalism. Ann Arbor police picked them up at 2:30 a.m. near the stadium.

William Keestly, Birmingham sophomore, and Charles Rindek, Grand Rapids sophomore, were however not disturbed, conduct changes. They were picked up later while trying to hitch a ride to East Lansing.

According to police, they were causing trouble at the school earlier at the stadium.

Keestly was also charged with false identification.

Keestly and Rindek left with 100 students at 1:30 today in Ann Arbor.

Little Hope of Success

Neutrals Urge K-Ike Meeting

UNITED NATIONS, N.Y. — The Millan on the latter's Sunday conference in Washington with President Eisenhower and Australian Prime Minister Robert G. Menzies.

While Eisenhower's conditions for a meeting with Khrushchev remained unchanged, the U.S. President agreed with Menzies that if there is any chance of a meeting with Khrushchev for serious purposes, Eisenhower would consider it.

James C. Hagerty, the White House press secretary, told newsmen yesterday after a resolution meeting with U.S. Ambassador Khrushchev that the Soviet Union had agreed to postpone its move to U.N. as a special meeting held Sunday.

Before he speaks, Nehru plans to get firsthand information from British Prime Minister Mac-

millan on the latter's Sunday conference in Washington with President Eisenhower and Australian Prime Minister Robert G. Menzies.

While Eisenhower's conditions for a meeting with Khrushchev remained unchanged, the U.S. President agreed with Menzies that if there is any chance of a meeting with Khrushchev for serious purposes, Eisenhower would consider it.

U.S. strategy is based on these two main approaches:

Khrushchev is making more enemies than friends. This is true especially among the African nations, who treasure highly their opportunity to be heard with all appropriate diplomatic seriousness in the United Nations. In talks with Africans, the United States also gets the impression

the delegations from that continent are not greatly taken in by Khrushchev's attempts to down-grade the United States by bringing up U.S. racial problems —

The United States will concentrate its main drive on progress toward disarmament.

Proceeding Nehru to the rostrum this morning will be King Hussein of Jordan, whose government has been at odds with that of President Gamal Abdel Nasser of the United Arab Republic. Jordan has moved to restore relations with neighboring Iraq, also a target of unfriendly criticism from the U.A.R.

Khrushchev dodged reporters' questions as to whether he would see Eisenhower before he leaves the country. He indicated once more that he wants the first move for a meeting with Eisenhower to come from someone else. He has already said he won't release the two armies, and that he still wants an apology from Eisenhower for the U.S. air raid incident.

James C. Hagerty, the White House press secretary, told newsmen yesterday after a resolution meeting with U.S. Ambassador Khrushchev that the Soviet Union had agreed to postpone its move to U.N. as a special meeting held Sunday.

Before he speaks, Nehru plans to get firsthand information from British Prime Minister Mac-

Traffic Flows Smooth Here At Gametime

Heavy traffic before and after the MSU-U of M game Saturday flowed onto campus and off again smoothly and quickly.

Campus police said traffic problems were few and standstill was probably the best in the past three years.

Some MSU students aided state police and campus police in the stadium area.

After the game it took about an hour and 15 minutes to clear the campus and get traffic back to a normal flow, according to Sgt. Donald S. Harrook of the campus police.

There was only one untoward incident during the period of heavy traffic, when Bernadine Cooper, 36, of Beaumont, suffered a heart attack just before game time.

She was taken to Sparrow Hospital by ambulance. Her condition is fair, the hospital reported Sunday.

Lecture Concert Starts Year With Royal Ballet

The Royal Ballet dances into town this week and brings the fruits of the vichy history it has transformed it into the lead-taller company of the West.

Concert audiences will see the Royal Ballet Tuesday, Wednesday and Thursday at the first musical presentation of the 1960 season. The ballet comes to campus directly from a round-the-world tour. The company's permanent home for the duration of the year.

Army Reserve School Open

Vacancies in the U.S. Army's Reserve Officer program were recently announced by Lt. Col. William F. Riley Jr., school commandant.

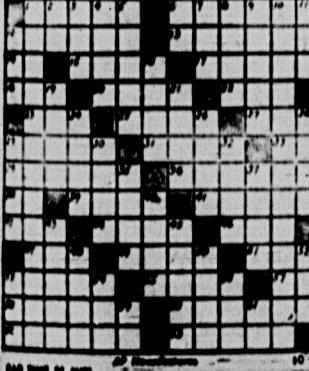

The vacancies, which offer 48 two-hour paid meetings a year, are open to undergraduate or graduate students who hold the rank of either first or second lieutenant.

Officers participating in this new five-year program will attend 24 meetings with the 33rd Infantry Regiment, and 24 meetings with the Infantry Career course at the Lansing USAR school. Full pay will be received for all these meetings.

Interested officers should contact either Riley or Lt. Col. Thomas W. MacLure on weekday evenings at the Lansing USAR school. The telephone number is IV 9-3394.

FRIENDSHIP RINGS

When it's a matter of the heart . . . affection is the word — and a gift of enduring appearance is proving to be a sterling silver friendship ring . . . with the Michigan State University crest. This sure-to-please silver band of friendship is ringing gay responsive chords, and captivating cords throughout the country.

Excited students on campuses everywhere speak in glowing terms of how rapidly these beautifully fashioned sterling rings are becoming the last word — the positive "end" — the SAGE-est custom to get with.

Though the final tally of hearts completely won by this ring is far from complete — the total is already assuming most imposing national proportions.

Bellringers Searching For Talented Recruits

By JESS MAXWELL
State News Feature Editor

engaged as bellringers, and when she left in 1935, Margaret Fonteyn made her debut.

With the rest of Europe, the troupe underwent hardship during the war years. It narrowly escaped the enemy in Holland in 1940, and after its return to London, it was driven by the war to tour the provinces. London's New theater in 1941 became the company's permanent home for the duration of the war.

The Bellringers, who regularly tour throughout the state, will appear at the Metropolitan Opera House in New York City, and its repertoire will include such favorites as "Giselle" (with prima ballerina Dame Margot Fonteyn), "La Bayadere," "Les Sylphides" and Act II of "The Sleeping Beauty."

The Royal Ballet, from the Royal Opera House, Covent Garden, London, owns its birthright to its director, Dame Ninette de Valois (created Dame of the British Empire in 1951). The daughter of an Irish colonel, she was a part of the Daghda Ballet Russes from 1924 to 1926, when she left to produce plays for the Dublin Abbey theater and the Cambridge Festival.

She also originated four even-

ger ballets a year for the George Society. In 1931 her biography of the ballet "Job" won her acclaim and, eventually, the job of staging ballets at the Sadler's Wells Opera and conducting a ballet school.

The ballet gained a fame of its own and soon rivaled the opera.

Its famous Alicia Markova was

Crawford Reports on Studies

European Ads Find U.S. Market

European ads find U.S. market

Crawford says he believes European ads are finding a market with American audiences, says John W. Crawford, head of the advertising agency.

He said his firm has just released a study of European television commercials produced by the U.S. commercial production houses. In Paris he saw six commercials being prepared for European audiences in movie houses.

But in other areas he found European advertising more than

U.S. Sub. Visits
In Bremerhaven

BREMERHAVEN, GERMANY—The U.S. Navy's biggest nuclear submarine, the Triton, docked at this German port Sunday under heavy police guard and protected by cameras from invading tourists. The 300-foot sub has been a steady draw since it began to tour the German population.

Only a few newspapermen and some military attaches were allowed to board the Triton, which has chosen an advertising schedule so unique that no one in Berlin's Navy spokesman said

EUROPEAN AGENCIES have also called on European audiences since the previous elections with their advertisements with their American and other buyers and in some instances advertising has increased.

The Forest and the Sea, by Marion Bates, Random House, \$3.50. Reviewed by Ed Scott.

The ecology of man does not

generally sit the blood and gore

of most people—ever more intelligent reader—but Marion Bates makes the subject rather

palatable. He has taken the whole

of nature which, unfortunately for

some inclined man, has tried to

place man in the total scheme

of the economy of nature.

The greatest portion of The Forest and the Sea is involved with a somewhat idealized view of the natural world. Perhaps linear view would be more apt, but that has frightening connotations for many people. And it is to those

people that Bates should speak most fervently. Bates makes the

world of the color forest, the sun-

shines, the several jungle and bar-

ren, reef with light soft touches which make even the least exciting and beautiful aspects of na-

tive worth knowing.

But such is not the whole of

the ecology of man. The ecology

of man is really his relation to his

natural heritage. Man, in acquiring

the peculiar quality of awareness

he has also acquired a similar responsibility.

It is Bates' main point that the

successful continuation of man

within the framework of the rest

of nature is dependent on his re-

suming fully his responsibilities

and that acting upon them in

terms of his ecological heritage

is the best guarantee for the

society of man.

University Theater will hold

tryouts for its first studio pro-

duction of the season Tuesday

and Wednesday at 7 p.m. in the

Studio Theatre, Eastgate.

The play will be "Rebel Gall-

lion" by Herman Hesse.

"Rebel Gallion" has a cast of one

man and six women and is con-

cerned with Hitler, Nazi and hit-

six wives.

It was first produced in Ger-

many in 1951. Since then it has

been produced in every major

theater in Germany and Austria.

In 1958 it received the Gerhart

Haupmann award.

The play is set from the six

teenth century to present day

England.
