

Electra Crash Kills 51

Co-Pilots Survive Fall Into Harbor

BOSTON, (AP)—An Eastern Airlines plane carrying 52 people including 13 Marine Corps recruits and a "top secret document" crashed into Boston harbor late Tuesday.

A state police estimate put the death toll at a minimum of 51.

CAPT. CARL Larsen, director of state police operations at the crash scene, said:

Approximately 60 bodies of survivors have been located and we estimate that only about 10 are surviving.

Newsman's checks at about the same time turned up 33 bodies and 13 survivors. That left 67 unaccounted for.

The plane carried 67 passengers and a crew of five when it plunged into the harbor, moments after leaving the runway at Logan International Airport.

The crash occurred at low tide and rescuers were forced to wade through a sea of mud. Most of the rescuers were volunteers, including many teen-aged boys.

All available Navy divers were sent to the scene. The Coast Guard and police also dispatched boats.

A greater Boston ambulances were asked to report to the scene. The big airliner broke into two sections, one of which sank in deep water. The other was in such shallow water and could be reached by waders.

Some of the dead were found still strapped in their seats.

AS A BOAT searched shore for bodies, it returned to the scene with skin divers. As the dark proceeded, darkness closed in and rescuers worked in a glare of searchlights from helicopters hovering overhead.

Two witnesses who saw the plane sink after the crash said they saw no survivors—only floating baggage and debris.

Mr. Donald Regan, residing in the Winthrop shore, close to the big airport said, she heard an explosion and saw the craft fall.

Comdr. Everett Cook, USN, saw the craft from the aircraft carrier.

He said it hit the water nose down between boats anchored near several watch clubs on the Winthrop shore.

"The thing was split wide open," he said.

Serving MSU For 51 Years
VOLUME 32, No. 65 EAST LANSING, MICHIGAN, WEDNESDAY, OCTOBER 5, 1960 PRICE 5 CENTS

\$5 Million Dorm in Bid Stage

More Privacy for 1,000 Students

There may be a new residence hall on the MSU campus next fall.

Plans call for a new \$5 million co-ed undergraduate hall, about the size of Shaw, on south campus. Bids on the project should be open by about Nov. 15, according to Emery G. Foster, manager of dormitory and food services.

Sarvis Associates of Battle Creek is handling the architecture of the new hall which will be located immediately west of the secret practice football field, south of Shaw Lane on the west side of Chestnut, Foster said.

The new hall will house slightly more than 1,000 students in four six-story wings. The residence hall will have a centrally located recreation and dining area.

Room arrangements will be similar to those at Owen, the new graduate center, where there are private rather than community lavatory facilities.

There will be a bath for each two rooms, it was explained. The bath is meant to serve four students.

More privacy should also result from smaller precincts or living units. There will be about 41 students per precinct, Foster said.

Plans for the new hall actually began in 1956 when it was announced that the old married housing barracks would be torn down.

A slow-up of enrollments put the plans in mothballs until about three months ago when it became apparent that enrollments figures would necessitate more housing.

According to housing office figures, there were 8,989 students living in university residences as of September 30. This is better than a 1,500 increase over the 7,461 students registered in university housing during the same period last year.

Housing director Thomas Dutch said the 1960 total includes 4,569 men and 4,420 women in the residence halls, the graduate center, and Van Hoesen.

Evidence of more crowded living conditions is apparent in women's housing, according to Foster, who said there are 4,128 women living in 3,304 spaces this year.

This is roughly a difference of 800, Foster said. Figures show a difference of 500 in men's housing.

According to the present pattern of housing application, the new residence hall will be used to house both men and women with a wooden partition separating the central dining area, Foster said.

If the enrollment of women students continues at its present rate, the new hall will eventually become an all women's dorm, Foster said.

K. Mac Achieve Nothing

NEW YORK, (AP)—Soviet Premier Khrushchev and British Prime Minister Harold Macmillan failed Tuesday to ease the East-West deadlock on disarmament in a second cold war conference.

"There has been virtually no change," a British spokesman said afterward.

THIS APPEARED to conflict somewhat with Khrushchev's view. He told newsmen he believed the private summit level talks had been "very productive."

Khrushchev, pointing to his foreign minister, Andrei Gromyko, jokingly added: "As you can see, we returned safe and sound."

Macmillan urgently appealed during the conference for a swift resumption of talks by East-West disarmament experts, prior to any new Big Four summit meeting.

JOHN RUSSELL, Macmillan's spokesman, said the British gained the impression that Khrushchev feels it is useless to press for an East-West Summit parley as long as President Eisenhower remains in the White House.

But Macmillan and Khrushchev both more or less agreed that a new Summit conference was desirable at some time. Neither set a date or site or got into any conditions, Russell said.

The Khrushchev-Macmillan meeting took place in the British leader's 23rd floor suite in the Waldorf-Astoria Towers. Khrushchev returned a call Macmillan made on him last Thursday. This earlier meeting also wound up in a deadlock.

DISARMAMENT dominated Tuesday's talks as it did last week. Khrushchev disagreed with Macmillan's views on how to resume East-West talks on this issue, which were broken off last June 27 when the Soviets walked out of a 10-nation conference in Geneva.

The Soviet leader did indicate willingness to continue discussing this problem, said the British spokesman, perhaps at a third meeting with Macmillan at some unspecified date.

Macmillan, who had already alerted his plane to be ready for departure, plans to leave today at 3 p. m. EST for London, via Bermuda and The Azores.

GILBERT NOLAN (l) receives plaque from Pres. Hannah (c) at the second Fraternity Honors Breakfast in Kellogg center Tuesday morning. Nolan was honored as the graduating senior with the highest all-college grade-point among fraternity men. Watching the proceedings is David Beauvais, IFC special events chairman. State News Photo.

Stadium Houses Massive 'Activities Expresso' Tonight

The beatniks will reign supreme tonight at the 1960 Activities Carnival, "Activities Expresso." Over 70 campus organizations are to be represented in a giant membership drive and public relations display.

Each participating organization will set up a booth in Spartan Stadium concourse, based upon this year's beatnik theme. Booth construction will start at noon today and continue until 6 p. m.

The content of the booth will vary with the type of organization manning it. Those attending the carnival will be given literature and products of the clubs. Many organizations have planned live demonstrations of the activities in which they participate.

Organizations have been divided into 10 categories: agriculture, business and public service, home economics, and biological and physical sciences, engineering, education, physical education and recreations, and liberal arts. Governing bodies, religious groups, and political and military clubs will also be represented.

As students enter the north gate of the stadium they will receive programs giving the layout of the various booths.

In addition to competing for new members, the organizations each will be vying for trophies to be given to the three best displays. Judging will be based upon drawing attraction and popularity, use of theme, and construction.

Eight Killed In Tenn. Blast

KINGSPORT, TENN., (AP)—A thunderous explosion rocked the sprawling Tennessee Eastman Chemical plant late Tuesday killing at least eight persons and injuring more than 60.

The blast followed by several smaller explosions came at 4:45 p. m. EST and was heard for miles around. It set off a fire which raged for more than three hours before it was controlled.

FIREMEN, ambulances and rescue teams from throughout the area converged on the big plant whose 160 buildings are spread over 400 acres. The holocaust was centered in a city block area of aniline buildings, where dyes are made.

The blast rocked downtown Kingsport, about a mile and a half away, and shattered the windows in at least 14 businesses. It was heard 20 miles away at Johnson City.

Most of the injured were taken to the Holston Valley Community hospital here. Convalescing patients were discharged to make room. Hundreds of 1173 homes answered radio appeals for blood.

RELATIVES and friends of the workers watched with shock as the victims were brought out on stretchers.

"I was there two hours and I didn't see a 'fer," said David McBride, Kingsport Times-News reporter. "The people were standing there in shocked disbelief."

Company officials said some parts of the plant—which operates around the clock—were being shut down as a precautionary measure. However they said most of the plant would be operating tomorrow. It is a subsidiary of Eastman Kodak Corp.

6th Annual Band Day Saturday

It's not often that 2,600 young musicians get together, but it will happen Saturday when the bands from 33 MSU high schools meet at the Michigan State-Lansing football game for the sixth annual MSU Band Day.

At 11:30 a.m. in Spaulding Stadium the bands will begin stringing their stuff for individual two-minute appearances, to be followed by the MSU Marching Band's pre-game show. The public is encouraged to come early for this musical treat.

AT HALFTIME, the 25 bands, plus the MSU band, are scheduled to take the field for a mass performance, in which they will play by executive formation.

Guest conductors this year will be Lt. Col. (Ret.) William F. Santleman, the 1st Lt. leader of the U.S. Marine Corps Band, Col. Seymour, who conducted another band for MSU three years ago, and Sgt. James J. Tappan, who led the band for 12 years and served as leader of the organization for 10 years before his retirement in 1958. During his service with the Marines, he took part in eight Presidential inaugurations under the chief executive.

In his honor, the band march formation will be "U.S. Marines" while the combined bands play "Right and Majesty" and "The Marine's Hymn."

Second place this year will be "MSU" while the bands play the Michigan State Fight Song After the Michigan State band, directed by Donald Farnsworth, plays "MSU Bandstand," the bands will exit the field.

U. S. Reaps
Twin Victory
In Space Shot

By THE ASSOCIATED PRESS
The United States fired two big rockets Tuesday, each a trail-blazer for major steps forward in space science, reported the Associated Press.

From Cape Canaveral, Fla., a Thor-Able-Star rocket put a new "magnetic brain" communications satellite into orbit.

FROM Wallops Island, Va., a 12-foot solid-fuel Scout rocket was fired 3,500 miles high and 3,800 miles out over the Atlantic. It was a first time flight for a solid fuel rocket of this size.

The Scout, not needing the intricate valves and piping system of liquid fuel rockets, is much cheaper.

THE SCOUT fired today carried instruments for detection of radiation. This was concerned with natural radiation, but what was learned is expected to help in developing techniques for detection of nuclear explosions in space.

Menzies, One-Time Olin Director, Dies

A former director of Olin Memorial hospital, Dr. Clifford G. Menzies, 58, of 734 Linden st., died Tuesday at a local hospital.

Before taking over as head of Olin in September, 1953, Dr. Menzies had been director for 20 years of the Ford hospital at Iron Mountain.

He asked to be relieved of director duties in August, 1958, but continued as a staff physician until June, 1960 when he resigned because of ill health.

HIS HEALTH started to fail about two years ago when he developed a heart condition which eventually led to his death.

2nd Fire Alarm Hits Landon

A fire alarm in West Landon at 7:15 p. m. Tuesday brought fire engines to that dorm for the second time in 24 hours.

The cause for the alarm was dense smoke throughout the dormitory, which firemen tracked to a basement storeroom. Three chairs and a sofa were demolished in the blaze, with additional damage resulting from smoke and water.

Reported smoke was responsible for a first alarm, sounded Monday night. Two trucks arrived Tuesday night. Two trucks arrived, but firemen could not trace the smoke.

EARLY TUESDAY afternoon, a second fire was caused by a cigarette left on a parlor chair. The source of the cigarette was also untraced. After carefully hosing down the chair, and then putting it outside for several hours as a safety measure, the West Landon janitor removed the chair to the storeroom, where

Radio Show Tonight

Student Government will present the second of its weekly series of programs on WJLS at 9:30 tonight.

Pat Fife, Houston, Texas, junior, and Larry Pontius, Jackson, senior, will interview various campus personalities on coming events.

Members of the Agriculture Council will tell their forthcoming plans for the Harvest Ball.

"I hope this teaches all concerned one thing," said Normann Steer, head of Safety Services. "Whenever anyone smells smoke, regardless of the amount or the time of day, he should immediately notify the fire department."

Nasser Departs

NEW YORK, (AP)—Arab leader Gamal Abdel Nasser Gorb home Tuesday after expressing the belief that the worldwide hope for peace will "drive our universe far away from danger and tension."

Nasser said he was ending his 10-day visit with a "good impression."

This was, he said, "That the desire for peace is backed by the full power of all people."

What's This? Dag And K. Socialize

Smith Recovers

Kenneth H. Smith, university registrar, is resting at his home in East Lansing after surgery last week. He expects to return to his desk in approximately 10 days.

Tito Ends UN Visit With Sour Note On Cold War

NEW YORK (AP)—President Tito of Yugoslavia, ending his visit to the United States, said he had a "sour note" on the cold war when he left here today.

Tito, who spent five days in the United States, said he was disappointed that the atmosphere of the visit had been "sour" and that it was "not what we had hoped for."

The Yugoslav leader said he was disappointed that the visit had not been "what we had hoped for."

He said he was disappointed that the visit had not been "what we had hoped for."

Tito, who spent five days in the United States, said he was disappointed that the atmosphere of the visit had been "sour" and that it was "not what we had hoped for."

The Yugoslav leader said he was disappointed that the visit had not been "what we had hoped for."

TITO WAS the second of the major heads of state to visit the UN since Cuban Prime Minister Fidel Castro was the first to leave last Wednesday.

Tito, who spent five days in the United States, said he was disappointed that the atmosphere of the visit had been "sour" and that it was "not what we had hoped for."

GE Pickets Stage Brawl

NEW YORK, (AP)—Disorderly picketing Tuesday on picket lines at General Electric Co. plants in two states. Some pickets threw about 500 stones prepared to meet with

management and the striking International Union of Electrical Workers for new peace talks. At Syracuse, a screaming shouting throng of about 500 pickets started a brawl with

some officers in an attempt to prevent non-strikers from entering GE's Electrical Park plant. In Holland, a union spokesman claimed that a picket was knocked down yesterday and another was brushed aside by cars entering the plant there. The Union asked for police protection.

NO ONE was injured but 12 GE men were arrested on disorderly conduct charges, including John Stany, 41 year old business agent of local 330 in Massachusetts. Pickets in Massachusetts, pickets in Lynn, Everett and Pittsfield, hurling taunts at workers who entered the yards. Nails were reported strewn in the Lynn and Pittsfield areas and in Lynn some 200 cars carrying non-strikers were disabled with flat tires.

The spokesman also said that through the four locals of the United Auto Workers having contracts with GE have come to terms covering 4,500 UAW

Future pilots . . . Air Force ROTC students began flight training Monday at Capitol City airport. Professor of Air Science Col. Thomas Barret (left) discusses the training program with James Larson, John Gilg, Cherie Calsbury, and Capt. Ted King, co-ordinator of the flight instruction program.

18 Air Force Cadets Chase Half-Wings in Program

The AFROTC flight instruction program for this year was inaugurated at Capitol City airport Monday by Col. Thomas J. Barret, professor of air science.

The 18 advanced cadets entering this year's program will be flying single-engine Piper Tri-Pacer aircraft, according to Capt. Major Fred Hennighan. An Air Force contract with Spartan Aviation corporation provides 36 hours of instruction for each cadet.

STUDENTS RECEIVE their half-wings when they fly solo and most of them, after completing the program take the extra four hours needed to obtain their private pilot license. Col. Barret has offered to ride in his amphibian aircraft to the first AFROTC cadet with a solo flight this year. Objectives of the flight instruction program, as defined by

Kennedy Charges GOP Deficit

INDIANAPOLIS, (AP)—Sen. J. Kennedy said Tuesday the federal government has cut back at a deficit of \$18 billion in the last eight years of Republican rule.

"This shows that the GOP is guilty of waste and not the Democrats as the Republicans are currently charging," he said. "Most of the deficit spending has gone for foreign aid, agriculture and defense, the Democratic presidential nominee said in remarks prepared for a \$100,000 fund-raising dinner."

Yet, he declared, the foreign budget has been managed in a way that "our prestige has actually declined," the income of the farmer is the lowest in 20 years, and "our defenses are in danger of becoming second rate."

"This is not a record of economy or efficiency," the senator said. "This is a record of empty promises kept and carried out. This is a record of poor government by a party which does not believe in governing and doing great for government."

Correction

All women interested in competing for Homecoming queen must submit their petitions by noon Oct. 10. Judging will take place between 2 and 10:30 p.m. on Oct. 16 in place of the previously reported date.

Kennedy bore down heavily on waste in government and the need for frugality in his first campaign appearance in Indiana where his aides say they believe he has an uphill fight.

REFERRING to the numerous opposition charges that Democrats are wild spenders, Kennedy said the Republican party actually is "one of waste—the waste of our human resources and the waste of our natural resources."

"The Democratic Party believes in government—but it believes that government must be responsible, economical and prudently run," the senator said. "I believe in a balanced budget and an honest dollar—in the federal government doing only those tasks that cannot otherwise be done."

BUT I also believe in action where action is needed and I am opposed to the costs of waste that are caused by Republican delay." Kennedy, labeled as "wildly" by the Democratic nominee appropriated a slogan used by the Republicans in 1932 when he declared it is "high time for a change" because "this country can afford the waste no longer."

Firm Clears VIP's

NEW YORK—A committee of directors of Chrysler Corp. has cleared the names of 34 executives associated with the firm's investigation into the activities of William Newberg, former president, resigned and now a lobbyist, who had agreed to pay Chrysler more than \$450,000 for the use of the firm's name.

The investigation did not affect the names of 100 other executives who are the longest serving in the company.

THE INVESTIGATION was headed by a committee of directors and a group of independent accountants. It was completed last week.

The investigation revealed the financial activities of 34 Chrysler executives over the past 10 years.

In their report the general counsel, Robert D. Newberg, said that the committee of directors has cleared the names of 34 executives who were associated with the firm's investigation into the activities of William Newberg, former president, resigned and now a lobbyist, who had agreed to pay Chrysler more than \$450,000 for the use of the firm's name.

USSR Slide Showing Tonight

Slides of Russia are slated tonight from 8:30 to 10 for the first fall meeting of the History Club in MSU Union. Dr. Charles D. Kenney, associate professor in social sciences, will show the slides from his 1959 trip to Russia following the business meeting.

Both students and faculty are welcome, said David L. Cox, president.

Six subsequent programs are scheduled for even business meetings.

Nov. 15, Dr. John C. Messinger, assistant professor of social sciences, will show slides of a summer visit among the primitive Aran Islanders.

Chest Petitions Out

Petitions for positions with Campus Chest, the only fundraising organization on campus, will be available in the Union concourse this week and also at the Activities Carnival tonight.

The petitions should be filled out and returned to the box in the Union or 330 Student Services.

Yankees to Face Pirates In Series Opener Today

Art Ditmar, Vernon Law Will Start on Mound

PITTSBURGH, (AP)—Pittsburgh welcomes its first world series in 34 years today with the Yankees east, in the annual series against the power-hitting New York Yankees.

Vern Law, a 20-game winner in the National League last season, will be Denny Murtaugh's starting pitcher. He will be opposed by another right-hander, Art Ditmar, whose 15-9 record is the best in the league.

STREAKING INTO their 10th year under Stengel by sweeping their last 13 straight, the Yankees have been installed as 1-11 favorites to take the best-of-seven competition.

The weather in Pittsburgh is expected to be in the 60s and 70s, with a light breeze. The stadium is expected to be filled with 38,000 in venerable old Phipps Field.

Both clubs worked out in the National League yesterday. If the Yankees had any stray pirates who might have watched them swing

ART DITMAR, VERNON LAW, Starting Pitchers

was supposed to have happened in 1927—and was not apparent to newsmen.

There were no surprises in the batting order announced by Murtaugh. Just as he had done earlier in the week, he decided to pitch Dick Stuart at first base although he is a right-handed batter who will be leading against a right-handed pitcher. Murtaugh has said all along that he would play Stuart at first and Bill Virdon in center from all the way, platooning only a left field and second the plate.

"YOU ARE GOING to see one of the best center fielders (Virdon) in baseball," Murtaugh told newsmen. "And you are going to see the best right fielder (Roberto Clemente) in baseball. He'll open your eyes."

Whether you are going to see a 100 per cent Dick Groat, I don't know. Groat's left wrist was broken Sept. 6 and he just returned to his everyday job last weekend.

Law, a 20-year-old Mormon from Salt Lake City, Utah, is a good slinger, fast ball, curve and slider. He and Ditmar, 29, are similar types. Each throws the same run ball but each has been the ace of a pennant-winning staff.

Murtaugh already has named Bill French (18-12) to pitch Thursday's second game at Forbes Field and Vinny Benitez (14-8), a lefty, to work the Saturday game at Yankee Stadium. There will be an open date Friday. Harvey Haddix (11-10) is the likely Pirate pitcher in the fourth game if things go according to plan.

Stengel, who often announced his pitchers four at a time, has named after naming Ditmar. It was generally believed he would follow with Bob Turley (14-3), another right-hander. Turley and Lee White (12-9) in New York Saturday.

AP Top 10

- 1. Syracuse (12-0) 426
- 2. Mississippi (11) (3-0) 402

- 20. Baylor (2-0) 17

In AP Poll Syracuse Moves Back to 1st

Syracuse's deflating National college football championship week but there are teams brewing in the Big 10.

The Orange Bowl, 14-0 victory over then fifth-ranked Kansas and Mississippi's narrow 21-20 win over Iowa, high-scoring Wisconsin State resulted in the switch of the first two places in the week-end only major team which hasn't lost, OT Miss fell to second behind Syracuse.

Arkansas faces trouble in unopened Bar and Kansas has a battle on its hands with fast-rising Iowa State. Navy takes on winless Southern Methodist in the Oyster Bowl at Norfolk, Va., and Clemson has a sixth Arkansas ninth and Kansas tenth.

Syracuse and Mississippi are the newcomers to the top 10 shouldn't have any difficulty this week replacing Northwest against easy foes, Washington and Georgia (Syracuse plays Holy Cross and Tech. Navy's last play field goal

whipped Washington 19-14 and dropped the Seattle team from third to 12th in the rankings. Navy was promoted from 17th to sixth.

That the odds are looking solely at the season's record in making their choices is suggested by the presence of undefeated Purdue and undefeated Kansas in the first ten. Several teams with unblemished records including Army, Florida and Missouri—all 9-0—and Minnesota, Baylor and Wisconsin—2-0—don't make the list.

Syracuse received 26 first place votes to 14 for Mississippi in the voting by the 43 newspaper, television and radio football experts who comprise the Associated Press poll. Syracuse compiled 123 points to 92 for Mississippi on the basis of 10 points for first place and 8 for second, eight for third, two

Intramural Highlights

There is an official meeting tonight at 7:30 in 208 Men's 131 for a probable increase in officiating touch football games.

The intramural football tournament has been conducted from the eighth and ninth to the 15th and 16th.

The deadline for entering has been extended to October 13th at 12 noon.

Sports Briefs

Michigan State has played 103 different football opponents since it began the sport in 1899.

Michigan State's new business manager of athletics is John Linn, who replaces Lyman Kramling, veteran of 44 years service to MSU.

Michigan State's football team with Indiana on Oct. 22 at Washington is the day the Hoosiers will dedicate their new \$2,000,000 stadium.

Why college men choose careers with Du Pont

Every year, several hundred new college graduates choose Du Pont. Many Masters and Ph.D.'s do, too.

From time to time we learn from recent graduates the factors which led to their decision to join this company. They cite more than half a dozen reasons. Here are four of the most important:

OPPORTUNITY AND RECOGNITION
They were aware that college-trained beginners go right to work with men who have achieved.

For example, research chemists work with individuals who've done successful research. New engineers work with pros, some of whom have designed new plants, or devised new manufacturing methods, or distinguished themselves in some other way. And other graduates, with B.A. or M.B.A. degrees, go to work with leaders who've been successful in Sales or Advertising or Treasurers, or another of Du Pont's many departments.

They had been told—and rightly—that Du Pont rewards individual achievement. And they were eager to start achieving.

RESEARCH CREATES NEW PRODUCTS; NEW PRODUCTS CREATE NEW JOBS
Men like working for a company that believes in research, enough to invest in it...\$80 million a year!

The fact is that important new products come from Du Pont laboratories and go to Du Pont manufacturing plants with frequency.

Here are but a few since World War II: "Orlon" acrylic fiber followed nylon (soon after the war). Then came "Dacron" polyester fiber, "Mylar" polyester film, "Lucite" acrylic lacquer and "Delrin" acetal resin.

These, and many others, have created thousands of new jobs...in research, manufacturing, sales...in fact, in all Du Pont departments.

DU PONT BACKS EMPLOYEES WITH HUGE INVESTMENT
New graduates feel that every facility is provided for doing the job well.

Last year, Du Pont's operating investment per employee was \$12,500. Since much of this was expended to provide the most modern and best of equipment to work with, it further increases the chance for individual achievement.

This applies to men in lab, plant and office.

DU PONT PROVIDES STEADY EMPLOYMENT
Career seekers appreciate the importance of security.

Today, the average annual turnover rate at Du Pont is less than one-third that of industry nationally.

These, and many other reasons, draw new talent to Du Pont each year. Prospective graduates, M.S.'s and Ph.D.'s interested in learning more about job opportunities at Du Pont are urged to see their Placement Counselor, or to write direct to E. I. du Pont de Nemours & Co. (Inc.). They should tell us the course they are majoring in so we can send literature that is most appropriate.
