Five Week Session Ends Today

Library Completes Successful Year

By BARBARA GUEST
State News Staff Writer

Dr. Richard E. Chapin, director of the libraries, has reported another successful year for the MSU library.

Chapin, in his annual report, called the 1960-61 year "successful in terms of resource development and in service offered to the faculty and students."

This year 59,212 volumes were added to increase the library's holdings to 825,410 volumes, he said.

MANY OF the acquisitions have been collections en bloc. Chief among these is a collection of American and English literature of the 19th and 20th centuries consisting of first editions, illustrated editions, and a selection of manuscripts and autographed letters.

The 2,000-volume collection contains many rare and valuable volumes including first editions of the Brownings, Wilde, Crane, Hawthorne, Twain, Byron, Stevenson and many others.

To supplement the new doctoral program in foreign languages a 1,600-volume collection of Spanish literature and language in the Golden Age was purchased.

Students of the Far East were aided by the purchase of the Frederick Vanderbilt Collection consisting of over 2,000 books, pamphlets, and mimeo-

graphed reports on China, Japan, and Korea.

ONE OF THE "richest and most important" collections of printed government records in existence, the British House of Commons Sessional Papers, was acquired on microfilm.

A similar acquisition for the documents collection was the U. S. Congressional Serial Set, the 15th through the 30th Congresses.

This collection is very important for those doing research in American history as it covers many first-hand official reports of the Mexican War, events leading up to the Civil War and the exploration and opening up of the West.

Another book considered to be a landmark in the history of western exploration is Louis Hennepin's "Description de la Louisiane" published in Paris in 1683.

WITH THE help of the MSU Development Fund, the library has been purchasing the U. S. Presidential manuscripts and papers in the Library of Congress on microfilm. The papers of 23 Presidents are represented in the collections to be filmed.

The Veterinary Medicine Historical Collection contains several very rare books. One is Leonard Mascall's "Book of Cattell" of which there are only two other known copies in existence.

An almost exhaustive collection for the history of the

church councils, from the earliest ones down to the Council of Florence, was acquired in the 60 folio volumes of Mansi's "Sacrorum conciliorum nova et amplissima collectio." In September of 1960 a Map and Newspaper Room was established which Chapin said will be one of the outstanding map collections in the area within 10 years.

THE HALOID XEROX 914 copying machine has been a significant aid to scholarship and is very popular with the students and faculty, he said. Chapin said he anticipated that in 1961-62 more than 120,000 individual copies will be made.

The amount of recorded library use for the year 1960-61 increased by more than 15 per cent over the previous year, considerably more than the amount of increase in enrollment, he said.

Chapin pointed out that as the university moves into the Seven Point Program outlined by President Hannah, there will be an even greater increase in library use.

IN THE FUTURE there must be made available more individual reference assistance if the Seven Point Program is to be effective, he said.

See LIBRARY, Pg. 4

The vacation between the two five-week summer sessions will be brief for Michigan State students.

In fact, the vacation will last only overnight. Final examinations were scheduled to end today—but classes for the second five weeks begin tomorrow.

Students attending classes on a full 10-week basis are unaffected by the shift.

THERE WILL be no registration setup as held before the regular quarter sessions, including the start of the summer quarter.

Instead, students are being registered at 113 Administration Building all day until Monday. Monday is also the last day for adding courses or changing sections.

Students must enroll with

their academic advisor before registering, however, according to Victor Henley, assistant to the Registrar.

THOSE WHO have already registered, either in the pre-term enrollment or during the summer, will only have to add or drop courses. There is no need to take out a second enrollment card.

Finals for the second five-week session will be held on the last day of class, September 1. The 10-week classes will hold finals from August 26 until September 1.

Tuition fees and dormitory room and board rates can be obtained from the summer school catalog, available at 113 Administration Building.

TWENTY - ONE education workshops will accept registration in the lobby of the Education Building beginning at 9 a.m. Monday.

The workshops, designed for graduate students and teachers will last until August 5.

Dr. Larrowe Elected To ACLU Post

Five MSU professors have been elected to the Lansing branch of the American-Civil Liberties Union of Michigan.

Charles P. Larrowe, professor of economics, has been elected chairman for the 1961-1963 term.

Elected to the Board of Directors are:

Russel B. Nye, Director of the Division of Language and Literature; Richard Rudner, associate professor of philosophy; Robert Repas, Coordinator of the Labor and Industrial Relations Center, and Hans H. Toch, assistant professor of psychology.

Planetarium Proposal Discussed

Robert C. Toll, director of the development fund, will speak at the Summer Interim Committee of AUSG at 8 p.m. today in 328 Student Services.

Toll will explain the function of his department and discuss the proposed building of a planetarium on campus. The public is welcome.

'Increase Budget, Manpower' - Kennedy

By LOWELL KINNEY
State News Staff Writer

President Kennedy will ask Congress for an increased military and civil defense budget, higher draft calls and activation of reserve units today, he said in a nationally televised speech last night.

The President said he will call for an increase of 3.247 billion for the defense budget and 207 million for civil defense.

He will also ask for double and triple draft calls, activation of some reserve units and for cancellation of ships going into the "moth ball" fleet.

Military costs must be scrutinized and the post office deficiency ended, he added.

Speaking on the crisis in Berlin, the President said we cannot afford mistakes such as those which have brought about past wars.

Answering critics of the defensibility of Berlin, President

Kennedy said that the freedom of Berlin is not negotiable and that no point is untenable.

"If anyone should question our rights in Berlin we are ready to have those rights submitted to international adjudication," he said.

"We have mortgaged our very future on our defense," he said.

The President said that the U. S. would seek peace but would not surrender. He added that he felt certain that all the peoples of the world, including those of the Soviet Union, want peace.

The President issued a warning to people who expect too much too soon.

"There is no quick and easy solution to a peaceful world," he said.

Kennedy said he will submit a balanced budget to Congress in January but if the safety of our nation warrants it, he will ask for a tax increase to do it.

TV's Pat Carroll

Show Stopper at Ledges

By DAN WHITNEY
State News Reviewer

It is not unusual for the star to steal the show.

So no one was surprised when Pat Carroll did just that at the Ledges Playhouse Monday night.

"MARRIAGE GO-ROUND" is the story of the eternal triangle, but this time with a new twist. The twist in this case took the form of a Marte Boyle, a Swedish visitor to the Delville household who wants Mr. Delville (Bill Slout) to father her child.

She tells both Delville and his wife (Pat Carroll) of her intentions.

Mrs. Delville's reactions and attempts to hold her husband form the nucleus of the play.

THE SLOUT players did a very good job of supporting Miss Carroll, but her professional ability was clearly evident. Her apparently inherent comical facial expressions were a never-ending source of humor for the audience.

Marte Boyle, a potential show

stealer, played the role of the Swedish seducer to the hilt. Her accent was so good, it was almost too good.

Once she got over her nervousness, Miss Boyle's acting talents came to the forefront. Her other talents were also well displayed.

One scene called for her to be on stage wearing nothing but a towel. This scene alone makes the play interesting, especially for the young men in the audience.

PLAYING THE difficult role of a man being seduced by a beautiful young Swedish girl, Bill Slout turned in a very creditable performance. When speaking he was excellent, but when being spoken to he stood like a wooden Indian much of the time.

The most obvious difference between Miss Carroll and the rest of the cast was her excellent sense of timing. When necessary, she ad libbed to carry the action of the play.

At one point, when she was

lecturing, her notes became mixed up. Ad libbing her way through produced a funnier scene than anticipated.

THE PLAY'S effectiveness could be measured by the number of worried-looking wives seen at intermission. Maybe they were wondering how their own husbands would react if propositioned by a shapely young blonde.

The heart of the play can be summed up in the words of the hero, Delville, "Higomous, Hogomous, women are monogomous. Hogomous, Higomous, men are Polygomous."

"Marriage Go-Round" closes Saturday. The quality of the production will probably be much better the last few days. This because the actors will become more accustomed to each other. The timing is sure to improve and this is the main weakness of the play.

Whether you like the play or not, it's worth the drive to Grand Ledge just to listen to the music during intermission.

'Donkey Serenade' to be Botantist's Theme Song

This summer, as for several summers since 1938, Dr. Irving W. Knobloch, professor of botany, will travel through seldom-seen areas of Mexico to study the plant specimens found there.

Knobloch will spend this summer in Chihuahua, the Mexican state just below Texas.

From his observation and the plant specimens he has gathered, Knobloch has written a book about the flora of Chihuahua to be published in 1962 by the Texas Research Foundation.

HE REPORTS that the western Sierra Madres where his observations are made, include a tropical canyon where coffee, figs, and oranges grow, another canyon deeper than the Grand Canyon and a waterfall three times the height of Ni-

agara.

"Because of the lack of roads, travel has to be made by mule," said Knobloch, "but more can be seen and appreciated from this vantage point than from a speeding car."

Knobloch will go to Chihuahua in August, following his

attendance at the six-week Desert Institute sponsored by the National Science Foundation at Arizona State University.

His research has had the support of the NSF and the John Simon Guggenheim Memorial Foundation.

Air Force Man Second In Space

Virgil Grissom became America's second man in space last week soaring approximately 300 miles over the Atlantic at a maximum altitude of 115 miles.

The 35-year-old Air Force

captain made the trip inside a two-ton space capsule nicknamed Liberty Bell 7.

There was some trouble however. In the helicopter pickup after Grissom left the capsule, the connection broke and the capsule dropped into the sea and sank.

Calhood vaccination can prevent a large dollar loss to the owner of a beef or dairy herd, say MSU dairy specialists.

'Mary Stuart' On the Road

NEW YORK (AP)—Eva Le Gallienne is going on tour for the second time in "Mary Stuart."

The 35-week expedition next fall is to launch the National Repertory Theater, formed to develop a permanent touring group presenting several dramas in rotation.

"Mary Stuart" will be played on the road in alternation with "Elizabeth the Queen." Miss LeGallienne will portray England's Queen Bess in both. "Mary Stuart" was previously toured successfully a year ago.

French Troops Back in Tunisia

France does not consider herself bound by the Security Council's appeal for a cease-fire and withdrawal to original positions at Bizerte.

In Tunis, President Bourguiba invited Secretary General Dag Hammarskjold to Tunisia in a move to end the dispute with France over the Bizerte naval base and Sahara territory.

Tunisia may also request an-

other Council session to protest cease-fire violations.

Instead of returning to their original positions as the Council had urged, French troops continued to ring Bizerte.

A power lawn-mower blade can pick up nails, stones and other objects and eject them at speeds up to 180 miles an hour, say MSU farm safety specialists.

New Republican Chairman Elected

The new Republican national chairman, Representative William E. Miller, has begun a quiet overhaul of the national committee organization and a realignment of some basic policies.

William Warner, long-time party aide, is expected to be named as Miller's first deputy to help direct the GOP House drive in 1962.

Soviets Accuse US of Espionage

As two U.S. missile-detecting and weather satellites orbited the earth, Moscow denounced them as espionage devices and refused to join a weather project based on one of them.

Gathering tension over Berlin was seen as a factor in the Soviet reaction.

Nearly 25 million acres are due to be retired from production under the 1961 Feed Grains Program.

ACROSS FROM THE UNION

SHE'S A CHAMP—Albertina Noyes, the 1961 U. S. novice champion is busy practicing for her part in the Talent on Ice show tonight.

ALSO STARRING—The 1961 U. S. Novice runner-up, Joya Utermohlen, is one of the many top flight skaters who will delight spectators.

Ice Talent Performs In Arena

"Talent On Ice—1961" the first of three summer ice shows will be presented at 8 p.m. tonight in the Ice Arena.

The show will feature many of the summer skating school students, including several champion skaters.

Albertina Noyes, the 1961 U.S. Novice champion, and Joya Utermohlen, 1961 Novice runner-up, are two of the young stars that will appear in individual routines.

Bobby Mecay, the boy who brought the house down at the spring show, will also be featured.

In addition to the many individual routines, two production numbers will be included. The first, entitled "The Roaring 20's" will feature about 12 skaters. The second one is "The Finale" and will include the entire cast.

The show is the first of three that the school puts on during its session. These shows are added work for the skaters whose primary goal in attending the school is to obtain one of the coveted skating medals.

Library

(continued from page 1)

The library personnel are working on the problem, Chapin said, and are considering offering professional reference assistance for 10 hours per day in each of the division rooms.

Actors Star

NEW YORK (AP)—Two actors who fled Communism in their native lands have by coincidence appeared in the same role in the Broadway play, "Big Fish, Little Fish."

George Voskovec, who came here as a political refugee from Czechoslovakia, stepped out of the part to appear in "A Call on Kuprin." Talking over was Sandor Szabo, who came here from Hungary, in his first White Way assignment. The role: a Swiss publisher.

Gifts and Grants

Trustees Accept Money

Gifts and grants valued at \$544,829.48 were accepted Thursday by the Board of Trustees.

Included were three National Science Foundation grants totaling \$95,271 for use by Dr. Milton E. Muelder, Vice-President for Research Development and Dean of the School for Advanced Graduate Studies.

One, for \$13,705, is an institutional grant. It will be allocated by Dr. Muelder for basic research by MSU scientists. A second grant, of \$69,800, affords fellowships for MSU graduate students. These are awarded by MSU under an NSF - university cooperative plan and are in addition to fellowships awarded directly by the NSF. A third grant of \$11,766 provides summer fellowships for graduate teaching assistants, permitting them to study full time during that period.

A \$60,000 grant from the U.S. Department of Agriculture Animal Disease Eradication Division will be used by Dr. Willis W. Armistead, Dean of Veterinary Medicine, for the continuation of an extensive research project on bovine tuberculosis.

The Oakland County Board of Supervisors granted \$30,000 as a 1960 contribution toward retirement of bonded indebtedness on the Michigan State University - Oakland Student Center.

Drs. W. Eugene Deskins and Joseph E. Adney, Jr., associate professors of mathematics, will employ a \$29,000 NSF grant for a fundamental study in modern algebra.

An Atomic Energy Commission grant of \$23,200 will be used by Dr. Hugh McManus, professor of physics, for a theoretical study of the scattering of particles from the nuclei of atoms.

DR. RICHARD U. Byerrum, professor of biochemistry and assistant provost, received grants of \$13,750 from the National Institutes of Health and \$8,424 from the Tobacco Industry Research Committee. These will be used to biosynthesize chemical components of nicotine and ricinine, a castor bean narcotic, in research looking toward biosynthesis of nicotinic acid, one of the B vitamins.

A grant of \$13,237.20 from Michigan Certified Hybrid Corn Producers Association will be used by Dr. Elmer C. Rossman, professor of farm

crops, to continue development of improved corn hybrids for Michigan and to continue basic research in corn breeding methods and corn genetics. Dr. Clinton E. Meadows, pro-

fessor of dairy, received \$10,000 from the Michigan Artificial Breeders Cooperative of East Lansing. It will be used for improvement of Michigan

dairy herds through utilization of production records and artificial breeding.

The Cooperative also granted \$10,000 for a study of the ef-

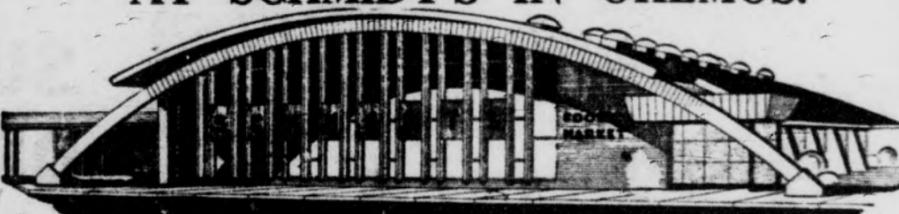

fects of leptospirosis infections on reproduction in farm animals, particularly cattle, by Dr. C. Cleon Morrill, head of veterinary pathology.

"Pete" Called From Denver Farm Club

The Detroit Tigers have called-up relief pitcher Pepe Montejo from their Denver farm club to replace ailing Terry Fox.

Montejo is the third minor league player to be brought up this month by the first place Tigers as injuries have stripped them of the services of Fox, Steve Boros and catcher Dick Brown.

He holds a 3-2 won and loss record, and an earned run average of 3.66.

"Overture for Strings" Performance Repeated

The American Federation of Musicians' Congress of Strings Orchestra will present its second concert at 8:15 p.m. Wednesday in Fairchild Auditorium.

Conducting will be Dr. Thor Johnson who for eleven seasons was music director of the Cincinnati Symphony and is the director of orchestral activities at Northwestern University.

Included in this performance will be the second presentation of H. Owen Reed's, "Overture for Strings." It was first performed on July 17, at the opening of the Fine Arts Festival.

REED IS a professor and chairman of theory and composition in MSU's music department. The overture was written expressly for the Festival and was dedicated to Conductor Johnson.

The first selection on the program is the "Brandenburg Concerto No. 3 for Strings in G Major," by J. S. Bach. This will be played by one half of the group which is divided in two parts alphabetically.

The second selection is "Verklaerte Nacht," (Transfigured Night), by Arnold Schoenberg. This will be played by the en-

tire orchestra. THE "HOLBERG SUITE," by Edward Grieg is the third selection. This includes a Prelude, a Sarabande, a Gavotte, an Air and a Regaudon. This will be played by the second half of the orchestra.

The closing work will be

"Overture for Strings," by be Thursday, August 10. The details will be announced later

The International Executive Board of the American Federation of Musicians, which will be meeting here next week, will be in attendance at this concert.

THE NEXT CONCERT will

A lecture-demonstration recital will be presented July 24, at 4:15 p.m. and 8:15 p.m., July Louis Krasner, professor of 24, in the Music Auditorium by violin and chamber music at Syracuse University.

Spartan Wives Need Help

Spartan Wives needs girls to serve on various committees for its Fall style show to be held in October.

For information call the club's president, Joan Burnett, at ED 7-0512.

Dry ice was first manufactured commercially in Long Island City, N.Y., in 1925.

String Group Concert Set For Friday

A concert of chamber music will be presented by the faculty members of the American Federation of Musicians Congress of Strings at 8:15 p.m. Friday, in the Music Auditorium.

The first number on the program is, "Violin and Piano Sonata," by Ravel. It is in three parts, an Allegretto, Blues, and Perpetuum Mobile, Allegro.

Appearing in it will be Rafael Druian, Concertmaster of the Cleveland Symphony Orchestra, and Dr. Paul Oberg, head of the music department at the University of Minnesota.

THE SECOND work is Beethoven, "Serenade, Opus 8." Allegretto, Adagio, Scherso-Allegro Molto, Andante Quasi Allegretto, Allegretto Alla Polacca, and Marcia Allegro.

Frank Houser, who is Concertmaster of the San Francisco Symphony, will be heard on violin. On viola will be William Lincer, who is the principal violist of the New York Philharmonic Orchestra. Theo Salzman, principal cellist of the Pittsburgh Symphony, will be heard on cello.

The final work on the program is by Schubert, "Forellen," for a quintet. The movements are, Allegro Vivace, Andante, Scherco-Presto, Theme and Variations-Andantino, and Allegro Giusto.

PARTICIPATING in this will be Mishel Piastro, who was formerly concertmaster of the New York Philharmonic under Toscanini, Lincer, Salzman, Oberg, and Warren Benfield, who is string bass with the Chicago Symphony.

The next concert will be August 11. At that time Hyman Goodman, Concertmaster of the Toronto Orchestra, and Lorne Munroe, principal cellist of the Philadelphia Orchestra will appear.

Abstract Painters Work Without Ideas

This painter has no idea of what he's going to put on his canvas until he steps up to it. And then sometimes an idea doesn't occur.

"When I step up to the canvas, I have no preconceived notion as to what I'm going to do. As I proceed to put dabs of paint on the canvas, I may—and again I may not—resolve in my mind as to what I am going to paint," said Edward Corbett, art panel member at the Fine Arts Festival.

The artist, whose works have been circulated both here and abroad by the Museum of Modern Art and the Art Institute of Chicago, said:

"If nothing comes I simply put the canvas away till another time.

"The only thing which precedes stepping up to the canvas is my definite intention to proceed," he said.

Corbett has had numerous one-man shows throughout the country. He described a good painting as "a forceful expres-

sion of that old saw, 'individuality is universality.'"

He considers abstract impressionism as the dominant movement in painting today.

"I'd prefer to forget the critics but I am interested in communication; I would like to have people see and enjoy what I produce," Corbett said.

US May Take Berlin Before UN

If the Berlin situation develops into high tension, the U. S. will take the issue to the UN, Secretary of State Dean Rusk has said on television.

In another broadcast, Senator Fulbright urged recognition of Outer Mongolia and demanded an end of pressures by specialized interests on U. S. foreign policy—an allusion to Red China.

Film Industry Criticized For Lack of Reality

The bad press which the U.S. film industry has been receiving is largely the fault of Hollywood itself, said former Detroit Free Press film critic, Helen Bower.

Speaking at the university's second annual Fine Arts Festival, Miss Bower said that integrity is the key to the future success of the film industry in general.

"The motion picture of tomorrow will have to have reality, which is not quite the same as realism," she said. "It will have to say something and say it well, and it must challenge the viewer to think."

CRITIC BOWER attributed much of the problem to the current confused thinking in Hollywood.

"Faced with increasing and brilliant competition from outside the United States, Hollywood has behaved like the late Stephen Leacock's man who

got on his horse and rode off in all directions," she said.

The veteran of 47 years in the newspaper business named Walt Disney as the one producer in the world who has consistently maintained the high standards of good entertainment.

"ALTHOUGH theater men insist that any movie labeled a 'family picture' is death at the box office, Disney serenely goes on making superb family pictures," she said.

Miss Bower also commented on the scarcity of true film comedy and labeled it as a reflection of our times.

"One the British are still capable of those little comedies that so deliciously lampoon their own cherished traits and customs. They alone still dare to laugh at themselves rather than yield that privilege to others," she said.

ITALY IS the prime producer

of the great new films of the moment, said the film critic, who was also a drama critic in the 1920's.

Miss Bower noted that the sickness of the film industry has not been confined to one country.

Spanish Film Next In Fairchild Series

Michigan State University's summer film series presents "Pepote," at 7:30 p.m. this Friday and Saturday in Fairchild Theatre.

"Pepote," a heart-warming

drama of an old foreador and the little boy who idolizes him stars Pablito Calvo, the same soft-eyed little youngster who was such a hit in "The Miracle of Marcelino."

The film tells the tender story of the relationship between a homeless orphan and his uncle, a has-been of the bull ring. This strange pair live in one of the most miserable sections of Madrid and keep from starving by doing odd jobs.

When the uncle accepts an offer to play a comic matador in a farcical bullfight, the ingenious Pepote scampers through the streets and alleys to come up with the rental fee for the costume.

June, August Grads Sought For Schools

The Detroit Public Schools will interview all June and August graduates at the Placement Bureau Friday.

Majors in elementary education, special education, business education, foreign languages, home economics, science, and girl's physical education are requested.

Underground electrical appliances near a kitchen sink and electrical switches near a shower or bathtub can be fatal, say MSU safety specialists.

WITCHCRAFT?—"The Lark," Jean Anouilh's story of Joan of Arc makes its Summer Circle debut tonight. Above is the scene in which Charles Cioffi, as the Earl of Warwick, and James Barushok, as the Bishop of Beauvais, discuss the alleged crimes of Joan played by Phelia Rutledge. All three are theater graduate students at MSU. — Summer Circle Photo

Summer Circle Closes Season

The Summer Circle theatre will conclude its season next week with the production of "The Lark."

This is the most recent version of the moving story of Joan of Arc. It was written by the contemporary French playwright, Jean Anouilh.

Phelia C. Rutledge, Summer Circle graduate assistant, will play the title role of Joan. Miss Rutledge was cast as Violet in the Spring term production of "Man and Superman."

Pitted against Joan for various reasons are Charles Cioffi as Beauchamp, Earl of Warwick; James Barushok as Cauchon, Bishop of Beauvais; and Nicholas Howey as the Inquisitor. Cioffi and Barushok are theatre graduate students while Howey, who was seen earlier this season in "The Skin of

Our Teeth," is an East Lansing senior.

The play will open July 26 for a four-day run.

Interest Growing in Personal Relations

College students are more interested in the personal relations and the kind of life associated with an occupation than they are in the traditional goals of work and production.

"Some 1,200 students questioned knew very little about the actual work content of most of the 15 occupations they rated, but they had a clear and fixed image of a very distinct kind of person in each job, as well as of his social life and the kind of person he associated with."

This was the conclusion reached by Dr. Donald D. O'Dowd and Dr. David C. Beardslee, professors of psychology at MSUO, in a study of "what images college students have of various professions and occupations."

A MAJOR PART of a five-year research program being done for the U. S. Office of Education, this study is conducted purposely to find out where an unfavorable image may be right or wrong, so as to help high school and college counselors give more effective career advice.

For "an unfavorable image can diminish the ability of a critically important profession to attract talented young people," the report said.

Rating student career preference on an 'ideal preference list,' the researchers found that the students rated the doctor highest in four areas: cultured intellect, material and

social success, sociability, and personal and political responsibility.

"According to the students' image, the doctor is not only richly rewarded by high social status, wealth and success for services to others, but he also can count on having a pretty wife."

NEXT ON the list was the lawyer, followed by the col-

lege professor.

"While the lawyer is outgoing, sociable, successful and powerful in public affairs," it said, "he is hard and self-assertive with a hint of selfish, manipulative attitude."

As for the college professor, the report found that he is seen as a colorful, exciting individualist who wields considerable power in public affairs.

Bedraggled?
