Fall Enrollment Reaches Highest Figure in History

But Budget Cuts Down Fall Flood

Enrollment this fall will reach a total of 25,044, the highest figure in the university's history, Registrar Kermit Smith announced Thursday at the close of the regular registration period.

This figure is 7 per cent above last year's comparable total of 23,373.

However the East Lansing campus enrollment was only 22,637. This is 77 more than the 22,500 students to which the Board of Trustees directed the enrollment restricted after last year's legislative cut in requested appropriations.

More than 24,000 students had been planned for when the request for appropriations was submitted to the state legislature.

The budget limitations most heavily affected the number of new students admitted. In keeping with last May's trustee directive, the number of new freshmen enrolled totalled 4,740, only 1 per cent higher than last year's freshman enrollment of 4,690.

As a result of this restriction, many qualified freshmen had to be denied admission.

The over-all growth in enrollment came because of the addition of a third class at MSUO where the enrollment went to 1,068, and because of the return of a much higher than expected proportion of students who had previously attended MSU, Smith said.

According to May's Board of Trustees report, \$100,000 of the total appropriations granted to MSUO for the maintenance of buildings and the addition of another class.

Operation of MSUO for two terms of the proposed trimester program was authorized on a deficit basis with the understanding that a request be made to the legislature for the balance of the funds required over \$100,000. The next session of the legislature will determine the availability of funds for the third trimester.

Included in the total enrollment figure are 1,339 students registered at MSUO resident centers around the state.

New Bus Service Booming

Business on the campus bus service is, literally, "picking up" at the rate of about 5 per cent a day.

John Cole, general manager of Lansing Suburban Lines, said Thursday that 400 students used the service Monday, and that more have been riding each day.

Cole reported that Brody group and Spartan Village are the stops which draw most riders. Lansing Suburban Lines is making a study of the routes and bus stops to determine where new stops may be needed. They expect to make a few changes in the present set-up after a few weeks.

The bus service runs from 7 a.m. to 7 p.m. All bus stops are marked. Bus fare to any point on campus is ten cents.

Violates Rights Proposal Raps State News Fee

Rod Fritz, AUSG representative from West Shaw Hall, said Wednesday he will introduce a bill calling for dropping the mandatory charge for the State News at the first meeting of student congress.

A dollar fee was required of each student at registration for the State News this year. Previously, allotments for the paper had been taken from the general tuition fee.

Fritz said that the present policy violates his conception of the democratic right of free choice that should exist in our society.

There is also no guarantee that a student will receive every issue of the paper for his dollar, as the paper is not put in each individual's mailbox, but placed around campus, he added.

He said that the mandatory price for the State News created poor public relations for the paper that was not the fault of the newspaper.

Philip J. May, university treasurer, said that the dollar fee was necessary because of the appropriations cut by the legislature and because the State News is operating on a deficit.

He said the separate charge for such services as the State News was once common here in past years. He said he believes the charge may also make students more interested in the paper.

The committee members are: Diane Anderton, Lansing; Jim Arbury, Detroit; Pat Clevener, Holt; John Forsyth, Lansing; Joan Hall, Pittsburg, Pa.; Larry Morris, Midland; Myke Roberts, Alma; Pat Shurtum, Webster Groves, Mo.; Pete Van Leer, East Lansing; and Roy Waldren, Lansing. All are seniors.

The committee has already organized and published a booklet for this year's senior class which is intended to familiarize the students with the Development Fund and the Alumni office. This booklet, which was given out at registration, also lists coming senior events and gives a brief history of the class of 1962.

Additional booklets will be available at a later date, Walker said.

Push for Nuclear Test Ban

UNITED NATIONS, N.Y. (AP)—The United States and Britain proposed Thursday that the U.N. general assembly throw its weight behind President Kennedy's call on Russia to resume talks on a nuclear test ban treaty.

The two Western powers introduced a resolution asking assembly endorsement of the need for completing action on a treaty providing adequate controls to prevent creating.

It was the latest development in an East-West race to present conflicting disarmament proposals to the 100-nation assembly.

Wednesday the Soviet Union brought in its detailed stand—including a demand that the test issue be submerged in over-all disarmament talks.

The Assembly itself went into recess until Monday. Delegates and U.N. Secretary-General Dag Hammarskjöld, whose funeral will take place in Uppsala, Sweden, Friday.

There was no agreement reported on a formula for permitting the assembly to name a stop-gap successor to Hammarskjöld, diplomats hoped the Assembly might come to grips with the issue sometime next week.

Both this issue and Berlin were of special concern to U.S. Secretary of State Dean Rusk and British Foreign Secretary Lord Home, who called off travel plans in order to maintain close personal contacts.

Rusk will confer for a third time Saturday with Soviet Foreign Minister Andrei Gromyko, and Lord Home will remain in New York until Saturday night or Sunday morning.

At the morning Assembly session Danish Foreign Minister J. O. Krag suggested it might be a good idea for the United Nations to put one of its agencies in Berlin. He said a useful psychological effect might be created if Berlin became a center for "constructive cooperation."

Weather

Friday's weather will be partly cloudy and cooler early morning with near-freezing temperature.

Expected high will be 60.

Career Carnival To Open

Dozens of odd-shaped boxes, crates, bags and packages have been pouring into the Union this week from more than 70 businesses and organizations entering the Career Carnival, Oct. 9 and 10.

When uncrated, unpacked and set up on the second floor of the Union, some 250 representatives will arrive to acquaint students with a wide range of vocations in business, industry, education, government and public service.

Curriculum preparation, job requirements and opportunities all will be discussed informally at the exhibits and booths.

Named, "Opportunities Unlimited," the Career Carnival will be open Oct. 9 from 6:30 to 10 p.m., and Oct. 10 from 10 to 11:30 a.m., from 1:15 to 4:30 p.m. and from 7:30 to 10 p.m.

Last Rites Today For Hammarskjöld

STOCKHOLM (AP)—Dag Hammarskjöld, United Nations secretary-general who lost his life in quest of peace, will be buried Friday near his home town.

Hammarskjöld's body arrived Thursday at the same airport from which he departed eight years ago to assume the leadership of the United Nations.

With his body came 14 others—those of three Americans, a Canadian, an Irishman, a Haitian and eight Swedes. Their lives were snuffed out Sept. 18 as Hammarskjöld flew on a mission to try to settle the trouble in Katanga, the secessionist Congo province.

Hammarskjöld's body was taken by hearse to Uppsala where he was once a student. Hundreds lined the highway to pay silent tribute to the leader, although people had been barred from the scene. Some placed flowers before the hearse.

The caskets of the Americans and other foreigners were removed to a hanger to be watched over by a guard of honor until their removal to their home countries.

At Friday's rites, President Kennedy will be represented by Vice President Lyndon Johnson. Adlai Stevenson, U.S. Ambassador to the United Nations, Sen. Thomas H. Kuchel of California and Henry R. Labouisse, outgoing foreign aid director, will accompany Johnson.

DR. ARMAND HUNTER

Director To Attend Seminar

Dr. Armand L. Hunter, director of TV and radio broadcasting, is one of two official U.S. representatives to the International Seminar on Instructional Television, Oct. 8-18, at Purdue University.

Official delegates from more than 30 countries will attend the seminar to discuss and analyze the development of television for direct teaching purposes and the problems of adapting television to the educational needs and problems of all nations.

Hunter will present a paper on "How Adult Education Can Use Television for Instructional Purposes" and will be responsible for information on the development of television for classroom utilization in the United States.

The seminar is sponsored by the U.S. Office of Education, UNESCO, International Cooperation Administration, the National Academy of Sciences and Radio Corporation of America.

Following the seminar, Hunter will participate in Washington in a meeting of the Advisory Committee to the Commissioner and the U.S. Office of Education on new media in education.

Cuban Rebels To Reveal Castro Plot

MIAMI, Fla. (AP)—The Democratic Revolutionary Front, a major Cuban exile organization, said Thursday night it will make public Friday 82 stolen documents purporting to outline a Fidel Castro plot to overthrow the Argentine government.

A spokesman said the documents would be shown at a news conference at 3 p.m. Antonio De Varona, head of the organization, had planned to reveal the documents at a news conference Monday, but at the last moment he canceled it.

According to published reports, the Cuban documents outline a plot to overthrow the government of Argentina's President Arturo Frondizi, who arrived in New York Monday for a visit. They were said to have been stolen by a Cuban attached to Cuba's embassy in Argentina who defected. This man will attend the news conference, the spokesman said.

Meanwhile, Cuban sources in Washington said there is no question as to authenticity of the documents, which were taken to New York this week and made available to Frondizi. The Argentine president arrived in New York Sunday for conferences with President John F. Kennedy and a speech to the United Nations General Assembly yesterday. Argentine sources in New York indicated Frondizi prefers to establish fully the authenticity of the documents before making them public.

Nasser Promises 'No Bargains' With Insurgents

BEIRUT, Lebanon (AP)—Syrian army officers revolted today and defied President Nasser's attempts from Cairo to stifle their uprising against his United Arab Republic. The rebellion began in the Syrian capital of Damascus and was reported to have spread tonight to the key northern city of Aleppo.

Calling themselves the Higher Arab Revolutionary Command of the armed forces, the insurgents claimed in a Damascus broadcast that the north Syrian armed forces including an armored division had joined the rebellion.

Aleppo Radio, loyal to Nasser during the day, suddenly switched at night and said a commando division and a second military training center garrison had joined the insurgents and seized control of Aleppo.

INSURGENT BROADCASTS made bitter personal attacks on Nasser for his treatment of Syria since it joined Egypt in 1958 to form the U.A.R.

The Syrian vice president of the U.A.R. resigned this week in apparent disgust over his diminishing powers under Nasser.

A rebel broadcast from Aleppo said Nasser himself endangered U.A.R. national unity and added:

"He aims to make blood flow and to pit brother against brother in the interest of his hated tyranny."

NASSER VOWED in Cairo he would make no compromise or bargains with the rebels in his determination to preserve the less than 4-year-old union of Egypt and Syria.

In a series of emergency orders, Nasser fired six Syrian military officers of the republic, including two major generals.

They had been directly under Nasser's closest military chief, Field Marshal Abdel Hakim Amer, the 42-year-old one-time boy wonder of the Nasser-led Egyptian revolution that overthrew King Farouk in 1952 and started Nasser building his "Arab nation."

Amer and Gen. Gamal Faisal, commander of the Syrian army were held virtual prisoners in Damascus during the day and then were allowed to fly back to Cairo at night to report personally to Nasser.

IN-A GRAVELY worded second nationwide broadcast of the day from Cairo, Nasser appealed to all officers and men of the U.A.R. armed forces to do their duty, but he stopped short of issuing an outright order to loyal troops to start shooting.

In an earlier broadcast he had ordered the mechanized, well-equipped units of the Egyptian army in Syrian, about 15,000 strong, simply to crush the rebellion which he called more serious than the Israeli and British-French invasions of Sinai and Suez in 1956.

Curfews were clamped on both Damascus and Aleppo and in the northern city the radio warned that persons trying to oppose the insurgents would be shot. Damascus radio declared all Syrian borders were closed until further notice.

Gen. Lucius D. Clay, President Kennedy's special representative, flew by helicopter into Steinstuecken only a day after taking up his new duties here. A few days later, the U.S. Army took three military policemen by helicopter into Steinstuecken for duty there.

The East German foreign ministry claimed the names of the persons flown out by the Americans "are well known to us."

Steinstuecken is one of the points where refugees are still getting out of East Germany.

EAST GERMANY is tightening the security belt all along her 835-mile border with West Germany, an unofficial western intelligence agency reported.

In Berlin the Reds extended the strip of no-man's land in an effort to make the 25-mile border cutting through the city escape-proof.

But despite increased Communist vigilance, there were still scores of daring escapes in Berlin, where new evacuations of East Berliners in border areas were reported.

Information Bureau West, a private West Berlin intelligence organization said several thousand Communist agents were sent into the three-mile-wide border area opposite West Germany instructing inhabitants there to cooperate with security organs.

Congressmen Too Slow

WASHINGTON (AP)—It may seem a little early, but they're starting plans for Christmas observance at the capitol now.

Notes sent to all congress members and capitol employees urge them to contribute generously to a fund to finance a big Christmas tree and daily singing of Christmas carols by chorists and choruses invited from universities, the Armed Forces and musical organizations.

The Christmas fund memo was signed by J. Lewey Garaway, superintendent of the senate office building, and Morgan D. Roderick of the Senate sergeant-at-arms staff.

It caught many congressmen about to leave the capitol until next Jan. 10.

DAG HAMMARSKJÖLD

Reuther Sets Strike Deadline

DETROIT (AP)—United Auto Workers President Walter P. Reuther Thursday set a 10 a.m. Tuesday strike deadline against Ford Motor Co. in a move to break a deadlock in contract negotiations on national non-economic issues.

Reuther announced the strike deadline at a news conference shortly after he returned to the bargaining talks. His statement was in the form of a letter to Malcolm Denise, top Ford negotiator.

A strike at Ford would idle more than 120,000 hourly workers and halt 1962 model production.

The UAW Leader said Ford had implied a strike deadline "is an essential part of the 'Dynamics of collective bargaining.'" Reuther did not elaborate.

Reuther's statement said: "The early part of this week the NAW advised Ford Motor Co. of its desire to reach agreement on both the national and local issues in the calm atmosphere of rational collective bargaining and without

the need for setting a strike deadline.

"In reply, Ford Motor Co. implied that a strike deadline is an essential part of the 'dynamics of collective bargaining.' We believe this attitude expressed in behalf of the company is both unfortunate and unwise.

"The company's failure during this week's intensive bargaining sessions to meet the requirements of a satisfactory national contract, both as to economic and non-economic issues is evidence of its reluctance to bargain to a conclusion in the absence of a strike deadline.

"Under the circumstances, the UAW feels it has no choice but to set a strike deadline in the hope that this will stimulate the company to recognize the sense of urgency needed to consummate a national contract."

Ford and the UAW have been working on a day-to-day extension of their old agreement. The extension is subject to cancellation by either party on 48 hours notice.

PROOF POSITIVE—The length of singer Patricia Morison's hair led to controversies among theater audiences. So, in Columbus, Ohio, she poses with her dark, auburn tresses laid out. They're now 3½ feet long, were four feet before recent trimming.

Episcopals Approve Artificial Birth Ban

DETROIT (AP)—The Episcopal Church Thursday endorsed artificial birth-control when in "obedience to all the duties of marriage," and urged government aid to family-planning overseas.

It is the first time the 3½-million-member denomination has officially sanctioned such practice, although it has been generally condoned in the church in recent years.

Most major protestant bodies previously have taken a similar stand, contrary to teaching of the Roman Catholic Church. The Episcopal Church considers itself both Protestant and Catholic.

(including U.S. Episcopal prelates), the American church's general convention said: "It is clearly a primary obligation of Christian marriage that children be born within the supporting framework of parental love and family concern, with a right to an opportunity for a full and spiritually wholesome life."

"It is not to be held from this that the procreation of children is the sole purpose of Christian marriage. Implicit within the bond between husband and wife is the relationship of love with its sacramental expression in physical union."

IN MANY LANDS today, the church said, "population is increasing so fast that the survival of young and old is threatened and population control has become a necessity."

Quoting from a 1958 epyclyal letter of a world-wide lambeth conference of Anglican bishops

BECAUSE OF these "two great purposes" of marriage, the church said that family planning "in such ways as are mutually acceptable to husband and wife in Christian conscience and secure from the corruptions of sensuality and selfishness, is a right and im-

portant factor in Christian family life."

"While condemning abortion and infanticide, we believe that methods of control which are medically endorsed and morally acceptable may help the people of these lands so to plan family life that children may be born without a likelihood of starvation."

Fate...

NEW YORK (AP)—Two months ago, Mr. and Mrs. Michael J. Guarino moved from congested Brooklyn to a residential area of Staten Island. They

feared their son, Michael, 7, would be run over by a car. Today, Mrs. Guarino heard a woman scream and saw from a window that a crowd was assembling at the nearby site of an excavation for a new house. She rushed to the scene. There she saw the broken body of

her son under a bulldozer. Police said the boy slipped from an embankment into the path of the machine and was crushed to death.

Molly Pitcher, the heroine of the American Revolution, is buried in Carlisle, Pa.

"Mother, my new phone number is...."

The telephone calls you make—and those you receive—now go through much faster with Michigan State's new modern phone system.

You can help speed calls you receive by giving your new seven-numeral phone number to your family and friends in Lansing and elsewhere. That's important particularly when they want to reach you in a hurry.

It's a fine idea, too, to give your Area Code —517—to those who live in other parts of

Michigan and other states. Using Area Codes adds extra zip to Long Distance calls whether they're dialed direct or handled by an operator. Area Codes route calls from one geographical area to another with surprising speed.

People in Lansing and many other places throughout the country can now dial their calls direct to dormitory rooms and offices of faculty members and those in staff and administrative positions.

To speed your incoming calls, we suggest you tell your family and friends
"My new telephone number is . . ."

MICHIGAN BELL TELEPHONE COMPANY

Won't Lay An Egg

Daze To Open Wacky Frosh-Soph Weekend

By ERIC FILSON
Of The State News Staff

Egg throwing will be legal Friday. In fact, it will be encouraged.

Chicken chasing, tug of war, sack racing and searching for a needle in a haystack also will be some of the wacky highlights of the weekend activities of the Frosh-Soph Daze.

SPONSORED by Frosh-Soph Council, the annual event pits the sophomore class against the freshmen.

The retiring sophomore class president, Bob Andringa, and

the new president, Jamie Blanchard will start out the program with the annual president's tree sit. They will sit in a tree across from the Union. Last year Bob Andringa and Larry Osterink set a new record of 24 hours.

A jug will be presented to the class that collects the most points at a dance in Brody Hall Saturday night sponsored by Women's Intra-Residence Council. For the past three years the freshman class has emerged victorious.

FROSH-SOPH Daze was started in 1953 and was originally planned as a punishment for freshmen upon their inevitable loss of the Daze contests. Beans were worn for one week indicating the lowly stature of the freshmen.

The event marks the last activity of the 1960-61 Frosh-Soph Council. Any freshman or sophomore interested in participating in this year's contest may sign up in their dorms or contact Chuck Dallavó at 355-8282.

Leland Art Show At Kresge

The 20th annual exhibition of the Leelanau Summer Art School will be on display in the Kresge Art Center until Monday, October 6. As in the past the show consists of a group of oils and water colors selected from a much larger exhibition at the studio in Leland.

The Leelanau Summer School of Art is under the direction of the department of art collaborating with the department of continuing education. The 1961 session was directed by Erling Brauner of the department of art.

An exhibition of paintings by Murray Jones, Associate Professor with the department of art, will be on display in the Kresge Art Center until Monday, October 6th.

The paintings were done during Jones' stay in Japan on sabbatical leave with a Fulbright Fellowship grantee.

Gallery Hours are Monday thru Friday 8 a.m. to 5 p.m. and Sundays from 2 p.m. to 5 p.m.

Navy Asks For Men

The Naval Reserve and the regular Navy are offering commissions to degree holders. Commissions are available in Medical Service, Supply, Engineering, Nursing, and other corps for both men and women.

Undergraduates interested in the Reserve Officer Candidate program or other programs leading to a commission should contact Dr. J. R. Hoffman, Department of Entomology, 434 Natural Science Building on Wednesdays 3 to 5 p.m., or phone 355-4662.

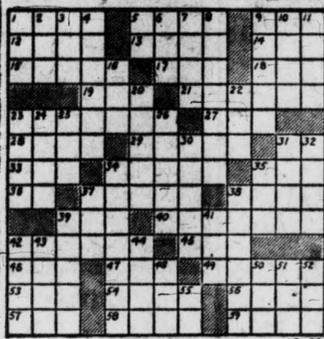

Oklahoma City is the nation's second largest city in area, encompassing 415 square miles. Los Angeles has 457.95 square miles, Houston 349 and New York 319.

Solution of Yesterday's Puzzle

Uniforms, But No Marches for Sophs

All sophomore men who are Army ROTC cadets must enroll in Military Science 220 during fall term and pick up a uniform, the ROTC office said Thursday.

The course does not require attendance at any military science classes, but enrollment is merely an administrative check, officers said.

It carries no credit and sophomore must indicate which course in the general area of political science, social science,

science or language they desire to substitute for class attendance.

The grade they receive in that course will be recorded for the fall term MS 220 requirement.

The Seminole Indians of the Florida Everglades are the descendants of about 150 members of the tribe who refused to be removed to Oklahoma in 1841 and took refuge in the swamps.

Career Cues

"Cure for job boredom: I made my favorite pastime my career!"

Richard Bertram, President
Bertram Yacht Co., Division of Nautic Corp.

"When you stop to think what percent of our total waking hours is spent bread-winning, you realize how tragic it is for any man to work at an occupation he doesn't enjoy. Besides frittering away life, it reduces chances of success to just about zero. I know... because it almost happened to me!"

After college, I did what I thought was expected of me and joined a solid, Manhattan-based insurance firm. I soon found office routine wasn't for me. I lived only for

lunch hour when I could walk to the Battery and mentally sail with the ships that stood out in the Narrows... and for the summer weekends when I could go sailing. Fortunately, the company I worked for is one of the leading insurers of yachts and after two years I was transferred to their Yacht Underwriting Department. Enjoyment and interest in my work improved immediately 100%.

After World War II, I started my own yacht brokerage firm and yacht insurance agency in Miami, combining my marine insurance background with an even closer relationship with boats.

My only problem ever since has been a feeling of guilt that my work was too easy. I love boats and boating people. That affection has paid me rewards way beyond the financial security it has also provided.

The moral's obvious. You have an odds-on chance for success and happiness working at what you enjoy most — what comes naturally! And if it's not just frivolous, your life's work could well be what you now consider just a pastime. It's certainly worth thinking about, anyway!"

Richard Bertram, while still in his early thirties, became one of the country's leading yacht brokers. Today he heads up eight companies covering yacht manufacturing, insurance, repair, storage, finance and brokerage. A resident of Coconut Grove, Florida, Dick became a Camel fan while still in college.

And to make any time pass more enjoyably...

Home, Rusk Hope For Berlin Peace

By JOHN M. HIGHTOWER

NEW YORK (AP)—Foreign Minister Andrei Gromyko is understood to have given Western leaders here some slight indication that the Soviet government may be seriously interested in getting into detailed negotiations on a peaceful solution to the Berlin crisis.

Secretary of State Dean Rusk and British Foreign Minister Lord Home were described yesterday, however, as still uncertain whether Gromyko is merely maneuvering to create a favorable impression or whether some definite result can be achieved in the diplomatic talks now going on.

Home spent an hour and 20 minutes with Gromyko yesterday. A British spokesman said the meeting was "perfectly friendly."

"As Lord Home said in his speech to the General Assembly Wednesday," the spokesman said, "Our aim is to find a basis for negotiations. This meeting should have helped."

Thursday's meeting between Home and Gromyko was mainly devoted to a question and answer exchange. Home asked most of the questions — which were understood to be concerned with what would happen in various circumstances if the Russians go through with their East German peace treaty program.

According to some accounts, Gromyko's replies were generally evasive. He evidently replied in terms of stated Soviet positions.

Shortly after seeing Gromyko, Home called on Rusk. It was Home's second meeting of the day with the U.S. Secretary of State.

Rusk is to see Gromyko again Saturday morning and it is understood that after Rusk returns to Washington, probably this weekend, Gromyko may go there for further talks.

Rusk initiated the discussion here last week for the declared purpose of finding out whether there is a basis for negotiations

which almost certainly would take the form of a Big Four foreign ministers conference, probably in November or December.

In addition, Rusk has been trying to sound out Gromyko on whether negotiations, if held, would have any chance of success. He has raised the question with Gromyko as to what the Soviet government means when it speaks of guaranteeing access from the West to West Berlin.

Home has now had two meetings with Gromyko and his main purpose has been to try to impress on the Soviet diplomat that while Britain wants a negotiated settlement, it stands firmly with the United States and other Allied Powers in Determination to defend its basic Berlin position.

There is some feeling among high Western officials here now that Soviet Premier Nikita Khrushchev is beginning to understand that if he pushes his Berlin demands too far he will plunge the world into war. Officials believe that if Khrushchev fully realizes the danger of war over Berlin—if he knows the Western Powers will fight—he will be more likely to negotiate an acceptable compromise.

'FAITH HEALERS' ANALYZED

PHILADELPHIA (AP)—A Lutheran medical missionary, Dr. Kristofer Hagen, says that "practically 100 per cent of the so-called 'cures' claimed by faith healers or shrines either involve non-organic illnesses or dishonest 'cures.'"

"Medical history," he writes, "is full of supposedly 'cured' diabetics who quit their insulin and died, of supposedly 'cured' appendicitis cases that 'needed no operation' and later died, of supposed 'cured' cancer patients who went right on and died." Excerpts of his book, "Faith and Health," were carried by "The Lutheran," a church weekly here.

Sigma Phi Epsilon Rush Saves Motorist Dog Helps When Humans Do Not

Sigma Phi Epsilon fraternity will hold its fall rush on Monday and Wednesday in 21 parlor C, of the Union.

The fraternity, which formerly was at 501 MAC for the past three years, is now remodeling its new house at 526 Sunset Lane.

SARNIA, ONT. (AP)—A young lay by his wrecked automobile went unheeded by passing traffic.

Thomas Ward, 30, of Sarnia, lost control of his car on a highway during the night and slammed into two trees before the car came to rest with the driver injured and bleeding.

Ward, slumped in the front seat, heard other cars passing. He called for help in vain for 5 or 10 minutes. Then Rex turned up, peered into an open door of the car and began licking the hand of the injured driver.

Ward, barely able to walk, grasped the dog's collar in the hope that Rex would find human help.

Rex half-dragged him 350 yards across the highway to the home of his owner, Lawrence Johnston. Ward knocked on the door and aroused the sleeping residents, who sent for police and a doctor.

Ward, now on the mend, told police that without the help of Rex he might have bled to death.

ARCHIE SAYS:

My cousin Archie—he thought the electric razor his gal gave him last Christmas was a joke. Then he tried Old Spice Pro-Electric, the before shave lotion. Now the guy won't stop talking, he thinks electric shaving is so great.

ARCHIE SAYS Pro-Electric improves electric shaving even more than lather improves blade shaving. ARCHIE SAYS Pro-Electric sets up your beard by drying perspiration and whisker oils so you shave blade-close without irritation. ARCHIE SAYS Pro-Electric gives you the closest, cleanest, fastest shave.

If Archie ever stops talking, I'll tell him I use Old Spice Pro-Electric myself.

SO DO I.

P. S. There's a .50 slash but Archie gets the 1.00 bottle. (He always was a sport.)

Theater Part Open
Wanted: One Dizzy Blonde Named Billie

The part of Billie Dawn, a dizzy blond who learns the hard way, is one of the parts still open for tryouts of the University Theater next Friday 7-10 p.m.
The tryouts will be held in the small Studio Theater, 49, in the basement of the Auditorium.
Tryouts will be held for the first two major productions, "Born Yesterday" and Marlowe's "Dr. Faustus." There are also parts available for the first Arena Theater show, Pirandello's "Right You Are."

If You Think So.
Parts available in "Born Yesterday," besides that of Billie, are Harry Brock, the crude junk dealer whose attempt to force the passage of laws is foiled; and Paul Ver-rail, the brilliant young writer who undertakes the education and guidance of Billie. This play brims with hearty laughs as each of the characters adds his personality traits to true life situations.
The title role in "Dr. Faustus" and his companion from the infernal regions, Mephistophilis, are the main open parts which call for supreme acting talent. There are also supporting roles left which also call for acting skill.
"Right You Are, If You Think So" contains a half a dozen characters of primary importance in setting up the philosophical puzzle which Pirandello proposes. These characters will be explained and defined by the director at the tryouts.
Students interested in working backstage or as ushers and box office salesmen may sign up at this time.
All regular university students are encouraged to participate in the University Theater activities since no previous experience is necessary.

Dad To See Powers

NORTON, Va. (AP) — Oliver W. Powers, father of the U-2 spy plane pilot now in a Russian prison, told reporters today he plans to go to Russia next April and hopes to take in the annual May Day parade in Moscow.

The cobbler father of Francis Gary Powers will travel to Washington Oct. 5 and will visit the Soviet embassy to pick up an already approved Russian visa. The elder Powers said he also will stop at the state department.

Powers said he especially wants to see the Soviets' May Day parade and hopes the Kremlin will let his son see it with him. He predicted the transfer of his son to a work camp will come "in October or November."

Earlier this month Soviet Premier Nikita Khrushchev said the younger Powers may not have to serve his full 10-year sentence for espionage, but that his immediate release is out of the question.

Snow, Charm, Subjects Of First Travel Series

The European charm and snow-capped Alpine peaks of Austria will be the subject of the first 1961-62 World Travel Series presentation Saturday. "Austria in Four Seasons" will be narrated by Willis Butler, former network broadcast-

'Biggie' Mich. Week Region Chairman

Clarence L. "Biggie" Munn, of East Lansing, director of athletics at Michigan State University, will serve as the 1962 Michigan Week regional chairman in central Michigan.

His appointment was announced today by Edwin O. George, Detroit, vice president of The Detroit Edison Company, and general chairman for the ninth annual state observance to be held next May 20-26.

As regional chairman Mr. Munn will direct the Michigan Week program in the counties of Ionia, Clinton, Shiawassee, Ingham and Eaton.

"We are getting an earlier start than ever in planning for the annual observance, so that all organizations and individuals may have ample time to plan their programs and activities," Mr. George said.

Mr. Munn, in accepting the chairmanship, said he was pleased to have the opportunity to serve the great state of Michigan in helping to direct the promotion which has become firmly established as a state tradition. He called on all citizens and organizations within the region to actively participate in Michigan Week, to create greater pride in their state and its communities on the part of all people and to focus favorable national attention on the state's unlimited resources, advantages and opportunities.

Michigan Week is not new to Mr. Munn. He was the first chairman of the Michigan-In-Sports committee for the annual state week in 1955 when he was head football coach. This year he was honored by that same body by election to the Michigan Sports Hall of Fame.

He has taken an active part in civic affairs in the Greater Lansing area and has contributed much time and effort to projects for the betterment of Michigan.

Corning, Calif., is known as "Olive Town" because of its extensive olive groves.

AN UNPAID TESTIMONIAL

Richard the Lion-Hearted says:

I would never have surrendered England...if I'd had Jockey support

C'mon, Rich! You're rationalizing. Jockey support might never have secured you against the Emperor. But it certainly would have provided snug protection against the physical stresses and strains of your active life. Your armor never tailored a coat of mail more knowingly than Jockey tailors a brief—from 13 separate, body-conforming pieces.

1. Other "imitation" briefs (copies of the original Jockey brand) have no more Jockey support than a limp iron club.
2. Richard the Lion-Hearted, 1187-89, surrendered England and a huge ransom to secure his release from Henry VI.

BARNUM ON BROADWAY

NEW YORK (AP) — Rival producers are aiming two musicals based on the life of Phineas T. Barnum for Broadway this season.

Alexander H. Cohen several months ago announced his intention of depicting the deeds of the renowned showman. The other sponsors are Stephan Slane and Ida Martucci.

At the moment both projects carry the same title, "Barnum," with the Slane-Martucci venture adding an exclamation point.

Institute Plans Odd Sub

WOODS HOLE, Mass. (AP) — Plans for a fantastic ocean-bottom research submarine—like something out of science fiction—were made public recently by officials of the Woods Hole Oceanographic Institution.

Described as the world's first aluminum submarine, the 50-foot craft resembling an underwater helicopter, will be able to prowl the ocean bottom to a depth of almost three miles. It will have TV cameras and robot "hands" to pick up seabottom sediment along with sonar equipment. Sonar detects underwater objects by sending out a stream of inaudible vibrations which are bounced back to detectors on the ship. Dr. Paul M. Fye, director of the institution, said the craft, to be known as the "Aluminaut," will be built by the General Dynamics Corp.

Dems Not As Overjoyed

Ike, GOP Hail Nixon

By The Associated Press
Richard M. Nixon's decision to run for governor of California brought applause Friday from his old chief, former President Dwight D. Eisenhower, and most Republicans. Democrats chipped in a bit of hooting. Eisenhower said at Gettys-

burg, Pa., that he was very pleased. He said his admiration for Nixon, who served two terms as vice president in his administration, was well known and added:

"He will be another leading Republican figure among the great group that will be offered to the American people for public service by our party this year and next."

John M. Bailey, the Democratic national chairman, spoke of it as "Nixon's re-emergence as a candidate after months of vacillation, uncertainty and double talk" and suggested in a statement that it was "a Republican high command decision" more than Nixon's own. "I am at a loss to know whether his candidacy will produce the old Nixon, the new Nixon, or a new new Nixon" he said.

BAILEY ALSO packed into his statement a suggestion that Nixon was afraid to make another national campaign.

Democratic Gov. Edmund G. (Pat) Brown of California, who is seeking re-election, said: "I welcome the opportunity to confront Richard M. Nixon in a campaign that once and for all will retire him to private life."

One Republican who didn't applaud was former California Gov. Goodwin J. Knight who had already declared his candidacy for the GOP nomination. Knight said he would stick in the race, and so did another GOP aspirant, Joseph C. Shell of Los Angeles.

SEN. KENNETH B. Keating R-N.Y., said he interpreted Nixon's decision to run for gov-

ernor as meaning that Gov. Nelson A. Rockefeller of New York is now the leading candidate for the 1964 Republican presidential nomination.

Keating talked with newsmen in Washington, and noted Nixon had pledged to serve a four-year term as governor if elected.

Rockefeller himself, at a news conference in Buffalo, wouldn't go along with the view that he now leads as a GOP presidential possibility. "I really don't agree," he said.

Republican chairmen of 13 Western states were meeting at Sun Valley, Idaho, when they got the news of Nixon's decision. They greeted it with cheers and applause.

X-15 Is Hot Ride

EDWARDS AIR FORCE BASE, Calif. (AP)—The X15 roared 3,545 miles an hour yesterday — and withstood temperatures reckoned at 1,000 degrees or more—in a test of heat dangers space craft would face.

The rocket plane's pilot, Navy Cmdr. Forrest S. Peterson, said afterward that scorching of paint inside the cockpit caused smoke that hampered visibility for 15 seconds.

"If it had gotten any thicker I would have become concerned about seeing the instruments, but it faded quickly," he said.

The smoke has occurred in previous X15 flights, but this appeared one of the worst attacks.

Highest previous temperatures experienced was 850 degrees fahrenheit. The plane was designed to withstand 1,200 degrees.

The heat, created by air friction and compression of the same type that a space craft would encounter returning to the earth's atmosphere, was sufficient today to make some parts of the X15's surface glow dimly.

In the bright sunlight, chase planes could observe no glow. The exterior paint was charred in several places.

Today's top speed was 100 M.P.H. under the record 3,645 set by the X15 Sept. 12. Peterson attained it in level flight at 82,000 feet, where he leveled off after zooming to 100,000.

He also put through two 80-degree banks to test maneuverability at high speed and reported: "It handled real nice."

Venus Wonders; 'Are Machine Age Men Really Real?'

David A. Sprey, grad assistant in General Communication Arts, will speak to members of the Unitarian Channing-Murray Fellowship in the Union Art Room at 7 p.m. Sunday.

"Request from Venus: Prove You Are Human," is the topic he will discuss, considering the problems of being "human" in this age of automation.

Sprey has taught at Central Michigan University and has worked on several magazines and newspapers.

Ulysses of days long gone past. Had a mind that was keen and so fast! When the sirens' attraction. Drove his men to distraction, We just stapled them all to the mast!

Prof's To Speak At Mental Health Conference

Two psychology professors will participate next Thursday in the twenty-fourth annual conference of the Michigan Society for Mental Health.

John R. Hurley and Albert I. Rabin, Ph.D. will speak at a general session Thursday at 2 p.m. on the topic "Family Interaction and Mental Health."

The Society's annual conference usually attracts upwards of 1,000 members as well as lay and professional citizens. These meetings will be held Thursday and Friday, Oct. 5-6, in the McGregor Community Conference Center—at Wayne State University.

This year's conference theme is "Action for Mental Health," based on the final report of the Federal Joint Commission on Mental Illness and Health.

Mrs. William F. Doyle of East Lansing is a member of the conference planning committee.

Harrisburg, Pa., was laid out in 1785 by John Harris Jr., whose father first opened a trading post on the site in 1710.

Spartans Go Hunting for Badgers

An Uphill Battle For Pete Smith

By GARY RONBERG
State News Sports Writer

Speed, size, fine throwing and blocking abilities, confidence. These are the qualities a football coach looks for in his quarterback—key to a successful offense.

Pete Smith, Ecorse junior who will direct Michigan State's multiple offense against Wisconsin in Madison Saturday apparently possesses all these qualities in abundance. The only factor that restrains complete optimism is his lack of experience, the intangible quality that is acquired, not inherited.

Smith 5'11" and 176 pounds, played but 16 minutes for State last fall, completing two of four passes for 37 yards and one touchdown.

Pete realizes the tremendous responsibility that has been placed in his hands. This could be Michigan State's year as the Spartans have a band of swift, big, experienced backs moving behind a powerful offensive line averaging 223 pounds—and the key to a successful offense is the quarterback.

But here is where Smith's confidence is pitted against the pressure that is on him. In speaking of State's big game Saturday, he regards it as a challenge he has been working toward all his life.

Pete was captain of his high school team and was selected on the All-State honorable mention squad. He was regarded as a good quarterback, but didn't arrive at MSU with the fanfare and publicity that greet many Spartan recruits.

But through fine showings in scrimmages and intra-squad games he wound up second only to smooth Tommy Wilson at the completion of the football season last fall.

When springtime arrived in 1961, Pete would have enjoyed bidding for the shortstop position with Michigan State's baseball team, but football practice found Don Stewart, a two-year letterman at halfback, under serious consideration for replacing the graduated Wilson. Consequently, Pete chose to forego baseball and battle Stewart for the quarterback position.

As spring workouts continued, it was a clearcut battle of Smith's fine passing against the excellent running ability of Stewart. The annual Old Timers football game concluded spring practice and that game found Smith at the controls and scoring the lone touchdown in the Varsity's 14-8 defeat.

So when Michigan State takes on Wisconsin Saturday it will be the arrival at the top of the ladder for Pete Smith.

PETE SMITH
... to start at QB ...

42 Gridders in Education, B & PS

The Colleges of Education and Business and Public Service at Michigan State University enroll the most members of MSU's 1961 football squad.

Twenty-three of the current Spartans do their studying in Education with all but one majoring in physical education. A total of 19 Spartans are enrolled in Business & Public Service. Included are eight business administration majors, three economics majors and three hotel management majors.

Other colleges at the university enrolling squad members are Science and Arts with five, and Communication Arts, Agriculture and Engineering with one each. Nine other players are studying in the University College prior to declaring a major course.

Jim Martin of the Detroit Lions was intra-mural heavyweight boxing champion at Notre Dame during his undergraduate days.

Miller-Richter Game Targets

Michigan State's football team flies to Madison, Wis., today for Saturday's game with Wisconsin—and the Spartans have a couple of strikes against them already.

The first strike is Wisconsin's one game advantage. The Badgers nosed Utah, 7-0, at Madison, last Saturday.

"Utah had already played a game when it met Wisconsin," said Michigan State head coach Duffy Daugherty, "and that is a terrific advantage. This week with the defense at guard will work in Wisconsin's favor."

"The most improvement a football club shows in a season comes between the first and second games."

The fact that the Wisconsin encounter is a Big Ten opener bothers Daugherty. He said it was tough for a team to open with a conference opponent.

The second strike against the Spartans is the lack of an experienced quarterback. Junior Pete Smith, who played but 16 minutes all last year, has been given the starting nod. If he starts throwing strikes of his own in touchdown or even completed passes, Michigan State's 1961 title bid will receive a big shot in the arm.

Daugherty said this is the toughest opener that they could possibly have, citing both Wisconsin's one-game advantage and the Badger's dangerous passing combination—Ron Miller and Pat Richter.

"Wisconsin's No. 1 asset is Miller," Daugherty said. "Miller is better than we thought. Richter is the No. 2 asset. He is much like Bob Carey."

Carey was Michigan State's All-America end in 1951. Miller and Richter combined to score Wisconsin's lone TD against Utah. Both are juniors.

Richter is being touted as an All-America candidate by Badger officials.

Daugherty said he was equally wary of Ronald Staley, Wisconsin's left end. "Staley has dangerous speed, especially on long passes," Daugherty said. Two sophomores may find themselves at starting positions in the game Saturday. They are Herman Johnson, either at defensive halfback or offensive halfback, and Charlie Brown, from Pontiac, who will start with the defense at guard if the Spartans kickoff.

The rest of the defense was expected to be made up of ends Larry Hudas and Ernie Clark;

tackles Tom Winiacki and Pete Conson's left end. "Staley, Wisconsin center Tom Jordan; defensive backs Ed Ryan, Bob Suci or Kakela; guard Tony Kumiega; George Salmes.

The offensive unit was designated as Smith at quarterback, halfbacks Carl Charon or Johnson and Gary Ballman; ends Lonnie Sanders and Art Brandstatter; tackles Jim Bobbitt or Dave Herman and Dave Behrman, guards George Azar and Ed Budde; and center Dave Manders.

The Michigan State Marching Band will accompany the team. It is one of three away games the band will play at this fall.

Evashevski Predicts 'Great' Iowa Team

IOWA CITY, Iowa (AP)—Forest Evashevski thinks Iowa will have a great football team this fall.

And the former Iowa head coach and now its athletic director says first-year coach Jerry Burns has reacted impressively to the pressures brought on by the Hawkeyes' No. 1 ranking in the Associated Press poll.

"I feel our ball club is going to be a real fine one," Evy said.

"The reason I am so confident is that Jerry has several boys who are real game breakers and can win for him in the clutch."

Evy coached most of the same players last year when the Hawkeyes had an 8-1 record and were co-champions of the Big Ten conference, with Minnesota.

The clutch players, Evy said Wednesday, are quarterback Wilburn Hollis, halfbacks Larry Ferguson and Sammie Harris, fullback Joe Williams and end Felton Rogers.

"However, I don't want to put Jerry on the spot by saying Iowa will go undefeated," Evashevski said. "It's always possible to lose a game by the way the ball bounces."

He said Burns' biggest problems in Iowa's opener against California Saturday will be preventing his team from underestimating the Bears and overcoming the handicap of a long practice session before the first game.

"Thirty days of practice without a common enemy is too long," Evy said. "The boys are just feasting on each other's blood."

Soccer Team Battles Earlham Saturday

Teamwork is what MSU's soccer team will be striving for when they meet Earlham College Saturday in Richmond, Indiana at 2 p. m., according to coach Gene Kenney.

"Every soccer team must work as a unit if it expects to win any games," Kenney said. "If we have a drawback now, it's our lack of teamwork."

This problem arose when the Spartans lost six of their starting eleven from last year's squad which lost only one game in nine outings.

A fine crop of sophomores have moved up to replace the graduated seniors but they haven't had "long enough to practice together" to mold a smooth functioning unit, Kenney said.

State has been practicing formally for a week and a half. Sophomores who have moved into State's starting line-up are Sam Donnelly, halfback; Stan Stelmashenko, fullback; and

Bill Onopa, fullback.

In contrast to the Spartans, Earlham has many of its regulars returning, Kenney said.

"Earlham is a good, strong hustling team," State's coach said. "They always have been tough."

When Michigan State clashes with Earlham the Spartans might demonstrate that its defense is stronger than a year ago, Kenney said.

What about State's offense?

"With teamwork we'll have a good scoring punch," Kenney said.

Here is State's starting line-up for Saturday's game: Ted Saunders, goal; Bill Onopa, fullback; Stan Stelmashenko, fullback; Dutch Kemeling, center halfback; Sam Donnelly halfback; Rubens Filizola, center forward; Jean Lohri, halfback; Jerry Heron, outside right; Mab Ventura, inside right; Ken Graham, inside left; Dave Christie, outside left.

Glenn Davis of the Detroit Lions won three Olympic gold medals in two appearances in the world-wide games. The former Ohio State star twice won the 400-meter hurdles title (1956 and 1960) and was a member of the 1000-meter relay team in the 1960 games.

Ed Walsh of the Chicago White Sox checked Ty Cobb's hitting streak at 40 straight games in 1911 when the Georgia Peach established the Detroit Tigers' record string.

Young and 8 Sophs Top Harrier Team

By ERNIE BOONE

The future looks bright for the Spartan harriers this season as they halted their two-day conditioning drills and began stepping up the pace in

preparation for their Oct. 7 opener against Ohio State.

With four returning lettermen and a fine crop of sophomores, Coach Fran Dittrich is confident of a good showing at Columbus and of a winning season.

The team will be weakened by the loss of Morgan Ward, a senior from Long Beach, California who suffered a ruptured spleen and will be lost for the season. Ward was one of the top men on last year's team, placing third in the Big Ten and 18th in the NCAA finals.

"I'd rate this team on a par with any team we've had in the past," said Dittrich. "Sure we will be weakened by the loss of Ward, he did a good job for us, but that will only make the team work that much harder, and with eight sophomores shooting for top spots someone will move in and fill the gap. Jerry Young is back again, and I think he will win two or even three of the big meets this year."

Young, team captain and winner of the Big Ten championship, will be out to top his last year's performance when he finished fourth in the National Collegiate meet. Backing up Young will be Roger Humbarger, a junior from Godwin Heights; Don Castle, a junior from Utica; George Tatu, Dearborn senior, and a host of sophomores.

Fighting for positions in the top seven are sophomores Alvin Duncan, Bob Fulcher, Dick Gyde, Ron Berby, and Ron Horning. Other sophomore prospects are Pat Stevens, Bill Stewart, and Tom McCue.

Last season's squad finished first in the Big Ten, second in the NCAA, and third in the IC4A. Past Spartan squads have done just as well, winning nine out of ten conference championships and five straight IC4A titles.

After the opener in Ohio, the team will invade Wisconsin Oct. 14. MSU has topped Wisconsin in four of their five meetings. State then returns home to face Penn. State Oct. 21 in the first-home contest of the season.

Coach Dittrich will be fielding a team in four championship meets this season, starting Nov. 11 with the Michigan AAU in Detroit, and continuing with the Big Ten Nov. 17; IC4A Nov. 20; and the NCAA here Nov. 27.

Spartans 3rd Best With Grid Record

Michigan State ranks third among all Big Ten football teams in terms of over-all league winning percentage.

In eight Western Conference seasons, the Spartans have won 27, lost 19 and tied one for a percentage of .565.

Leading the entire conference is Michigan with .672 on 180 wins, 85 losses and 11 ties, followed by Ohio State with .646 on a record of 161-84-18. Then come the Spartans followed by Minnesota in fourth place with 166-123-23 for .568.

Behind the Gophers in order are Chicago (which last played in 1939), Wisconsin and Illinois (tied), Iowa, Purdue, Northwestern and Indiana.

Irish Rate TD Choice

Notre Dame's famed Golden Dome is gleaming anew and so are the hopes of a charged-up Irish football squad which meets injury-riddled Oklahoma in the season opener for both Saturday.

Notre Dame is a one-touchdown favorite in the contest here to be attended by 55,000 and displayed nationally on TV.

Both clubs, once mighty monarchs of the college grid, are attempting to rebound from nightmarish 1960 seasons. The fact they still rank as the game's two winningest teams over the last quarter century, is small comfort, at the moment, to football partisans of either school.

Oklahoma, with a 25-year mark of 189-51-13, last season founded to 3-6-1—worst year in Bud Wilkinson's 14-season Sooner sojourn.

Eleventh Fatality In Prep Football

CHICAGO (AP)—The death of 15-year-old Nappanee, Ind., High School football player Tuesday night brought to 11 the number of fatalities involving prep gridirers this season. Record for an entire season is 14.

However, The National Federation of High School Association office said it was final reports on only eight of which four were attributed directly to injury.

A federation source said it has newspaper accounts only concerning three of the total of 11 fatalities, including the death of halfback Larry Slaught, 15, in a game at Bremen, Ind., last night. A coroner attributed death to a brain injury.

Ty Cobb cost the Detroit Tigers only \$750 when they bought him from Augusta, Ga., in 1905.

Detroit Lions quarterback Earl Morrall was star shortstop on the Michigan State baseball team in addition to earning All-American football honors for the Spartans.

Notre Dame, boasting a quarter century record of 173-66-12, really was planned against the ropes last fall with a 3-8 mark, including a record 8 successive defeats.

Poem Merits Red Slap

MOSCOW (AP)—A young Ukrainian's poem deploring the failure of Russians to erect a monument to Jews massacred by the Germans at Kiev was denounced by the newspaper Literature and Life recently in an attack against the concept of Jews as a separate race or nation.

The organ of the Russian Federated Republic's writers also criticized the editorial board of the Literary Gazette, its elder brother, for printing the poem, by Evgenie Yevtushenko.

Kiev was held by German troops from 1941 to 1943. More than 50,000 Jews are reported to have been slain there. In suggesting a memorial, the poet wrote that "The Union of the Russian people" was one of the most savage persecutors of the Jews.

Literature and Life asked "Why does the editorial board of the All-Union Writers Newspaper (the Literary Gazette) permit Yevtushenko to invoke the triumph of the Leninist policy of nationalities by such 'recollections' which can only be considered a provocation?"

The newspaper said the new program of the Soviet Communist Party resolutely opposes "any display of chauvinism and nationalism" — implying that this covered building a monument to the slaughtered Jews.

"Our banner is the red banner of revolution, our emblem is the hammer and sickle—the emblem of labor—and our red five-pointed star never fades on the helmets of our soldiers. We thrust aside both chauvinism and nationalism," the paper said.

Literature and Life said that when the poet stood at the site of the mass graves "he could only think of the fact that those who were killed were Jews. He considered this the most important, most vital idea!"

INSTANT SCHEDULES — Lyle Leisenring, assistant registrar, controls the newly installed IBM machine as it sorts 25,000 class cards nine times at the speed of 2,000 cards a minute to get class schedules for each section. State news photo by John Erskine

International Club Schedules Mixers For Tonight at 8

The International Club will hold its fall mixer at 8 p.m. Friday in the U.N. lounge. Among the club dignitaries to attend is Shao Chang Lee, founder of the organization and the annual international festival, and retired director of the International Center. He has also headed the foreign studies department and was professor of far eastern studies at one time.

The purpose of the mixer, which is being held concurrently with the club's campus Sister-Brother meeting, is to get in touch with all new foreign students and acquaint them with campus life.

The Sister-Brother program is one where an American, or a continuing foreign student is assigned a foreign student to be his brother or sister during the entire term.

Faculty Member To Work on Radio Free Europe

Prof. Arthur E. Adams of the history department is on leave of absence in Munich, Germany, for one year to work with Radio Free Europe.

Prof. Adams' title will be Chief of Evaluation and Research Desk on the Soviet Union. He will be responsible for research carried on by Radio Free Europe on foreign and domestic policies of the Soviet Union.

It will also be his task to advise REF of the significance of material for U.S. foreign policy relative to The Soviet Union.

The history department describes Professor Adams' job as a very, very important one.

Ice Rink to Open Doors Saturday

Students looking for cool fall relaxation can get out their skating togs. The MSU ice rink opens Saturday, September 30.

According to Norris Wold, manager of the ice rink, there will be public skating Saturday

days 10-12 a.m. and 3-5 p.m. Sundays 3-5 p.m., and Tuesday nites 8-10 p.m. Admission is 35c per student.

White Slavery?

CLEVELAND, Sept. 28 (AP)—Police and FBI agents today were investigating what they described as a possible link in an international white slavery ring using Cleveland as a source of girls.

Two girls, 18 and 19, who said a woman had sent them to Toronto, Ont., to engage in prostitution, triggered the investigation, according to Sgt. Sam Levy of the police vice squad.

The girls told police arrangements were made Monday night for them to fly to Toronto to meet a man who would establish them in a vice resort. They said the plane landed in London, Ont., en route. Immigration authorities there became suspicious and ordered them to return to Cleveland.

Police were led by the girls to the woman identified as Miss Eileen Reddon, 37, who has a previous police record, including prostitution. Sgt. Levy said she was held for investigation of conspiracy under the Mann act.

Police arrested the teenagers last night after detectives recognized them as missing persons. The woman was arrested today after the girls told detectives of the arrangements she had made for them. They said they were supposed to take a bus to Toronto today.

The mistletoe is the state flower of Oklahoma.

Success At Everything

McCone Talks Softly, Carries Big Wallet

LOS ANGELES (AP)—The new boss of the Central Intelligence Agency, John A. McCone, is grey of hair, slight of build, mild of manner.

In a crowd, he might be mistaken for a shoe clerk or a scholar.

Such an appraisal, associates say, couldn't be more wrong. They say he's a vigorous top-flight executive with steel in his backbone and a quick, wide-ranging mind. His special flair: analyzing complex problems for fast solutions.

McCone, 59, is a riveter who became a construction engineer who became a steel company superintendent who formed a power plant company who became a manufacturer and industrialist, active in a host of enterprises.

WHEN HE accepted President Kennedy's call to replace Allen Dulles as the nation's No. 1 intelligence agent—one of the hottest spots in the government—he knew what he was getting into. He is no stranger to Washington intrigue.

McCone, a Republican, headed the Atomic Energy Commission for three years under former President Dwight D. Eisenhower. Under former President Harry S. Truman, he was undersecretary of the Air Force.

McCone and his wife—they have no children—live in the quiet, conservative suburb of San Marino. Conservative in dress, he favors grey suits and wears rimless glasses. He takes an occasional drink, but doesn't smoke.

In Los Angeles he is known as a member of a conservative group that is active in promoting civic, cultural and charitable affairs. He is an occasional golfing companion of former President Eisenhower.

BORN IN San Francisco, he came to Los Angeles as a youngster and attended Los Angeles High School. He later graduated from the University of California at Berkeley as an engineer.

During World War II he bossed a firm that built a billion dollars worth of ships.

His major enterprise is the Joshua Hendy Corp., which operates a large fleet of tankers and cargo ships on both coasts.

In bossing a Los Angeles firm that turned out that billion dollars worth of ships, employees said McCone outdid Hollywood's version of big business men, handling several phone conversations at the same time.

BUT ONE of his secretaries in the firm said "he was never too busy to say 'please,' 'thank you,' and 'my, you did a nice job on that.'"

Though usually mild-mannered, one of his AEC staffers once said: "He's impatient with delay or sloppy work—he's interested in results, not excuses."

At the time he headed the AEC, McCone ran an agency with offices and laboratories scattered from Brooklyn to Japan. It budgeted \$2 billion a year, had facilities worth \$7 billion, and employed 105,000.

HE WAS on record as saying that nuclear power plants capable of competing with conventional power plants could be built by the mid-1960's. He agreed with recommendations of a special advisory committee that emphasis should be placed on pilot-plant reactors instead of full-scale plants that was in early 1959.

In submitting his resignation from the AEC effective last Jan. 20, McCone wrote President Eisenhower: "Our weapons resources have grown substantially in types and numbers, and in efficiency and flexibility of use."

McCONE LIKED to recall that as early as 1950 he recommended that the nation's infant guided missile program be conducted by an official with absolute power over the entire effort. He said he pointed out to the secretary of the Air Force, his boss at the time, that "while we were spending 100 million dollars a year on missiles, we should spend two billion dollars a year or more."

McCone was quoted as saying in early 1959: "In my Air Force days, I was devoted to the concept of massive retaliation, and I still am."

McNamara Recommends Projects

SEATTLE (AP)—Defense Secretary Robert S. McNamara said recently he will make his recommendations to President Kennedy in four to six weeks on several defense projects.

They will include whether to speed up the Dyna-Soar space-glider program, increase B70 supersonic bomber spending, go ahead with development of the Mobile Minuteman project, and buy another wing of B52 heavy bombers.

McNamara and other top defense department and military officials visited the Boeing Co. during the day to discuss the B52, Dyna-Soar and Minuteman programs.

The high echelon defense team flew here Tuesday night from Los Angeles where McNamara paid a surprise visit to Lockheed Aircraft and Air Force aerospace systems headquarters yesterday.

The Defense Secretary left no doubt on his keen interest in the Dyna-Soar project, for which the administration recommended 100 million in fiscal 1962 and Congress added another \$85 million.

"My only question on Dyna-Soar is a proper level of attention in fiscal 1962," McNamara said. "The general subject of manned movement in outer atmosphere deserves our attention. There is a potential military requirement in space, and we dare not fail to explore this."

McNamara said no additional transports would be purchased in the present fiscal year to increase the nation's military airlift. Forty-five Boeing C135 jets are on order now for the Military Air Transport Service.

Bob Mowerson, Michigan State assistant swimming coach, developed 47 prep All-American swimmers in 17 years as tank coach at Battle Creek High.

Michigan State sophomore halfback Ron Rubick scored 184 points his senior year at Manistique High School to rank second among the all-time Michigan prep football scorers.

IFC Follows Deferred Rush System Again

According to the IFC, the fraternities of Michigan State are once again going to follow the deferred system of rush this term.

Under this deferred plan, first-term freshmen are not allowed to participate in rush next week or to have any contact not sanctioned by the Interfraternity Council with any fraternity.

All those interested other than new freshmen will follow the regular rush procedure beginning Monday. More information for this group will be given later in the week.

The deferred system was first established at MSU last fall when the IFC was looking for a way to stop the high percentage of pledges failing to make grades.

It was felt that many of those suffering low grades were new freshmen who had not become accustomed to scholastic life at the university, said IFC officers.

However, interested first-term freshmen will not go unnoticed. A series of orientation convocations will be held during the first two weeks in November.

Visits to each of the twenty-eight houses on campus and talks concerning the Greek System in general are planned. Also, a complete description of the rush procedure will be given.

Anyone having any questions concerning rush or wanting more information about fratern-

ity life at Michigan State is urged to call or drop in at the Interfraternity Council office in the Student Services Building.

Regular office hours are maintained each school-day afternoon throughout the term by the Council.

The Collahuaya Indians of South America are known as the "druggists of the Amazon." They make several good medicines from tree barks and herbs.

For 16 Productions Theater Tickets Half Sold Out

This year the University Theater is again offering its bargain package of entertainment.

Students may buy ticket books entitling them to attend 16 theater productions including "Born Yesterday," "Dr. Faustus," "The Good Woman of Setzuan," "A Streetcar Named Desire," and "Brigadoon" as well as three arena style plays, an evening of opera, and seven movies.

A ticket book for all 16 presentations may be purchased for \$5 at numerous booths set up around the campus. Tickets may also be purchased in the Union Ticket Office or through the Speech Department.

More than half of the 4,500 available ticket books have already been sold. This rate is more than double that of last year.

The Speech Department expects that all of the tickets will be sold within the next week and they urge all interested students to buy their tickets before all are gone.

The high quality of last year's performances seems to be the reason for the increased interest in the program this year, according to University Theater officials.

Tareyton delivers the flavor... DUAL FILTER DOES IT!

"Tareyton's Dual Filter in duas partes divisa est!" says Publius (Boom-Boom) Aurelius, Coliseum crowd-pleaser.

Says Boom-Boom, "Tareyton is one filter cigarette that really delivers de gustibus. Legions of smokers are switching. Try a couple of packs of Tareytons. They're the packs Romani!"

DUAL FILTER Tareyton

JUNK PILE—The dairy barn that provided a pleasant aroma for the inhabitants of Shaw is now a thing of the past. Rumors have it that the barn may eventually be replaced by a parking ramp.

Dr. Carl F. Huffman

Dairy Leaders To Honor MSU Nutritionist Huffman

Dr. Carl F. Huffman, world-renowned MSU dairy nutritionist will be honored next Wednesday by a nation-wide organization of dairy leaders. Dr. Huffman will be guest of honor during the annual meeting of the Dairy Shrine Club in Waterloo, Iowa. He will be one of 16 men so honored since the club's formation in 1949. He has written more than 125 scientific papers on dairy cattle nutrition. He remains active in the dairy field, though he retired from academic duties here at the end of spring term. In 1960, Dr. Huffman received the annual Distinguished Faculty Award. Other awards include the 1937 Borden Award in dairy production, the 1954 American Feed Manufacturers' Award for dairy production research, and the senior research award of the MSU chapter, society of Sigma Xi. Recently the American Dairy Science Association awarded him its highest honor. A native Kansan, Dr. Huffman received degrees from Kansas State University and the Universities of Minnesota and Wisconsin. He joined the MSU faculty in 1922. The Dairy Shrine Club includes over 1,400 leaders in the dairy industry. The organization seeks to recognize industry leaders. It also maintains a graduate scholarship program.

Train Kills 2

LAKE ODESSA, Mich. (AP)—An auto and a Chesapeake & Ohio freight train collided at a crossing here today, killing two Woodland, Mich., women. Dead are Eugenia Melvina Fisher, 62, and Ethel Maude Schmidt, 71. Both were from Woodland, a small village on the Ionia-Barry county line. The accident occurred at an unmarked intersection. Police said the freight carried the women's auto about a half a mile before it could stop. Mrs. Fisher was thrown out.

CHURCH BOMB SHELTER

NASHVILLE, Tenn. (AP)—Congregations planning to build new churches are advised by Paul M. Johnson, Southern Baptist architectural supervisor, to include in the plans a radio-active fall-out shelter. He said an attack might occur during worship services. Also, he said, churches frequently are used as hospital centers in disaster areas.
