Global Glimpses

By the Associated Press

Latin Allies Split on Cuba

PUNTA DEL ESTE, Uruguay—U. S. hopes for strong collective action against Castro Communism sagged sharply Monday under the pressure of spreading disunity among Latin American allies.

Chances seemed to fade at the Inter-American foreign Ministers conference for the imposition of sanctions—penalties—against Cuba as urged by the United States.

Developments at the conference, which is sponsored by the Organization of American States (OAS), emboldened Cubans to predict that other Latin American nations will not vote for sanctions.

A conflict between bigger and smaller nations was so sharp that Guatemala, an advocate of penalties, was threatening to walk out. At the same time Haiti, originally for action against Cuba, was reported to have swung to the other side with such big nation as Mexico, Argentina, Brazil and Chile.

Bomb Blasts in Foreign Office

PARIS—A bomb rocked the Foreign Ministry Monday and a member of parliament was the victim of a daylight kidnaping in an eruption of lawlessness and violence that stunned the French capital. One man was killed in the blast.

There was immediate speculation that both acts were the work of the rightwing secret army, the extremist underground sworn to keep Algeria French at all costs.

Earlier in the day, four men with a submachine gun kidnaped Gaullist Party Deputy Dr. Paul Mainguy from his suburban office. He was swiftly rescued unharmed in midafternoon by police who seized two men guarding him. Mainguy supports President Charles De Gaulle's plans for Algerian independence.

Russian Fishing Fleet Near China

TOKYO—A Soviet fishing fleet is engaged in suspicious operations in the East China and Yellow Seas, the newspaper Yomiuri said Monday. The fleet was reported composed of 14 radar-equipped vessels headed by a 4,000-ton mothership.

Yomiuri quoted Japanese maritime sources as speculating that the Russians, whom they have never seen fishing, may be surveying routes for submarine navigation or laying special equipment on the sea bottom to measure the intensity of underground and oceanic nuclear tests.

Indonesian Forces Reinforced

MAKASSAR, Indonesia—President Sukarno's chief military advisor said Monday Indonesia has strengthened its naval and air forces in the New Guinea area. "And the next time we meet the Dutch they won't find things so easy," he added.

Maj. Gen. Achmad Yani said Indonesia did not try to reinforce its torpedo boats involved in a clash with the Dutch a week ago "because we wanted to avert war." An Indonesian patrol boat was sunk in the clash.

Laotians Not To Attack

GENEVA—Prince Souvanna Phouma, neutralist premier-designate of Laos, said Monday Laotian neutralist and leftist troops are under orders to launch no unprovoked attacks on the pro-Western forces of Premier Prince Boun Oum.

"If we are attacked, we will defend ourselves," Souvanna told newsmen. "But I have given firm orders to our forces not to attack first. If there is further fighting, it will not be our side that starts it."

MSU Grad Student Drowns in Bathtub

The death of 25-year-old Edward A. Woods was ruled by Ingham County Coroner Dorwin E. Hoffmeyer as "suffocation due to drowning."

Woods died early Sunday afternoon in the bathtub in his apartment at 1613-B, Spartan Village.

No decision on whether Woods' death was suicide or accidental has been reached yet, pending reports from the state crime laboratory, Hoffmeyer said.

Woods was found by his wife, Susan, lying partially on his left side with his face down. She said he had drawn water for a bath, laid out clean clothes and carried a laundry basket to the car before she left for the laundry, Hoffmeyer said.

Their 18-month-old daughter, Laura, was playing in the living room of the apartment when Mrs. Woods returned from the laundry.

Woods had been under the care of a doctor, the coroner said. Woods also suffered from temporary blind spells.

Mrs. Woods told police her husband had complained of a headache and hadn't eaten any

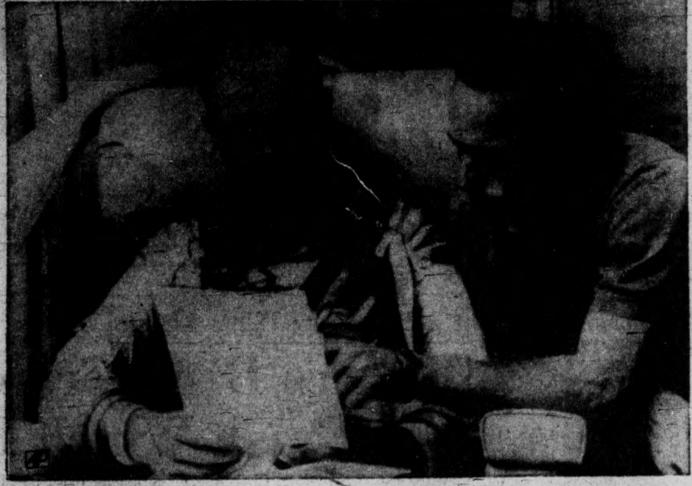

Oistrakh Coming; Coupon Exchange At Union

Russian violinist, Igor Oistrakh, will be the next guest in the Lecture-Concert Series, Wednesday, Feb. 7. Ticket distribution for students begins Wednesday at 9 a.m. at the Union ticket office. Activity Book coupon A is to be used in exchange for student tickets.

Delegates Fail to Find Compromise On Reapportionment at Con-Con

Final Check

Campbell Asks Action

'Unified Effort' Needed To Revamp AUSG Image

All-University Student Government President, Larry Campbell, called on his cabinet to make a "unified effort" to decide on programs and projects and carry them out efficiently.

He spoke to the group at a cabinet meeting Monday. "AUSG is not a 'do-nothing' organization," Campbell said. "We aren't putting across the programs we ought to put across. I would like to revamp the AUSG image, not for the sake of publicity, but in order to promote the programs and projects themselves."

He said that the cabinet has served as a "go-between" between the executive branch and Student Congress, but that the cabinet members have primarily discussed, rather than acted upon, problems.

Cabinet members Ken Beecher and Barbara Rail, Academic Benefits committee, reported that attendance at the Provost lecture series is increasing. The next Provost lecture is scheduled for Thursday.

Scientist Now Not So Lonely

ANN ARBOR—The age of Science has seen man discover nuclear energy, make vast strides in medicine and reach the edge of outer space—but it also has had important by-products.

One of these, says the famous nuclear physicist Dr. J. Robert Oppenheimer, is that the scientist himself is becoming less a lonely man.

Dr. Oppenheimer, who was director of the Los Alamos Scientific Laboratory where the atom bomb was developed, and since 1947 has headed Princeton University's Institute for advanced study, delivered a guest lecture at the University of Michigan Monday night.

committee will meet Friday to discuss the fine system. The committee consists of nine students; members of AUSG, student librarians, and honors college students.

The group also plans to suggest that the library extend its week-night closing hours until midnight, and open by 10 a.m. on Sundays.

Ernest Green, Student Organizations, reported that this year's directory is completed. The handbook lists descriptions of all chartered organizations on campus, along with names of presidents and their phone numbers. The Student Organizations directory is to be distributed to all clubs.

J-Hop Tickets Now On Sale

Juniors may purchase tickets for the J-Hop Tuesday at the Union ticket desk. Price is \$6 per couple. Seniors may buy tickets Wednesday and other classes Thursday.

Weather

Partly cloudy and continued rather cold today. The low last night — 5 to 10, the high today — 15 to 20. The outlook for Wednesday: Mostly cloudy and a little warmer in the afternoon with a chance of light snow.

Group OK's New Positions

WASHINGTON—The Senate Armed Services Committee Monday formally approved the nomination of John A. McCone to head the Central Intelligence Agency.

Chairman Richard B. Russell, D-Ga., announced that the committee in a closed meeting also approved the nominations of:

Fred Korth, Fort Worth, Tex., to be Secretary of the Navy.

Neil E. Harlan, a Harvard professor, to be Assistant Secretary of the Air Force for Financial Management.

Russell told newsmen there were no votes against reporting any of the three nominations to the Senate.

Bulgarian Pilot Spy, Italy Says

ROME—Italy said Monday night there were "indications" that a Soviet-built jet plane from Communist Bulgaria was on an aerial spying mission when it crashed in this country Saturday.

A statement by the Italian Defense Ministry said further investigation will be conducted to "establish whether the already existing indications of a true and proper case of aerial espionage can be further substantiated."

The statement said investigators are examining aerial photographic apparatus and other equipment aboard the plane that crash-landed near a secret North Atlantic Treaty Organization (NATO) missile base in Southern Italy, after making two passes over the base.

The Bulgarian pilot, Lt. Miluse Solakov Kirov, probably will be brought to trial in Italy, a Defense Ministry spokesman said after the statement was issued.

In some ways the case appeared to be similar, in reverse—to the incident last May when an American U2 plane came down in Russia, leading to grave international complications.

BETTER PR NEEDED

Poll Discloses Attitudes

By JODY PARSONS
Of the State News Staff

Attitudes toward various aspects of MSU may differ widely among male, female, Greek and independent students, according to a study by Eldon Nonnamaker, assistant director of men's division.

Nonnamaker asked male and female resident assistants and fraternity and sorority presidents to rate 40 aspects of the University as very positive, positive, neutral, negative or very negative.

The purpose of the study was to determine similarities and differences among the four groups, and to measure general student attitude toward certain features of MSU.

Better communication concerning the function, purpose and personnel of University services is needed, his study concludes.

Nonnamaker found the greatest differences in attitudes between Greek and non-Greek groups. Fraternity

and sorority presidents agreed most strongly, and male and female RAs had the second highest correlation.

Sorority presidents and women RAs had the next highest correlation.

The lowest correlation was between fraternity presidents and women resident assistants.

The agreement between fraternity presidents and male RAs was only slightly higher. Nonnamaker found that groups charged with enforcing campus regulations rated the regulations higher than others did.

Men and women resident assistants rated the alcohol regulation much higher than did the fraternity and sorority presidents.

The only group that ranked women's hours substantially higher than the rest were the women RAs.

Nonnamaker concluded that these groups rated the items higher because they were more aware of the need for the

regulation and the problems that may result from violation, and because it made their own job easier.

The process of selecting RAs weeds out those with unfavorable attitudes toward the regulation, he added. This does not happen with fraternity and sorority presidents, who are elected.

One of the items on the inventory was simply listed as Michigan State University. This item was ranked first by men and women RAs and by sorority presidents.

Fraternity presidents, however, ranked the item fifth. First on the fraternity ranking came the item entitled "fraternities," followed by sororities, Inter-fraternity Council and the Placement Bureau.

"This ranking would tend to support the view of some personnel administrators who contend that fraternities often place themselves before the university of which they are

a part," said Nonnamaker. All groups ranked the Placement Bureau and the Counseling Center above other services offered students.

Men students ranked Men's division and the deans office second, and women ranked women's division second. The attitudes toward the health center and the housing office were far less positive, according to the study.

After the tests were administered, the students were interviewed to find the reasons for their ratings.

Students tended to look at the Placement Bureau and the Counseling Center favorably because these services are of help on campus and in preparation for a position after graduation, the study reported.

Similar reasons were given for the high ratings of men's and women's divisions. Students found it difficult to explain their less positive attitudes. See ATTITUDES Page 2

GOP For Adding 4 To Senate

The controversial issue of legislative reapportionment failed to be settled on a bipartisan basis Monday and indications were that Republicans and Democrats would write their own proposals.

Republican members of the committee, who outnumber the Democrats 14 to 7, decided in a caucus they favored a plan which would add four seats to the present senate, and put off until 1970 any further reapportionment.

The 1970 redistricting would be on the basis of a formula allowing 80 per cent to population factors and 20 per cent to area.

Michigan State University President John A. Hannah, R-East Lansing, the committee chairman, said that not all GOP members favored the plan entirely and reserved the right to seek changes or to submit their own amendments on the floor. Basically, the plan followed a proposal submitted by William Hanna, a Muskegon attorney, and a Republican member of the committee.

Asked if he considered the committee to be deadlocked on the controversial issue, Hannah said:

"We're not deadlocked—we're decided."

He said the Republicans decided to support the Hanna Plan, with modifications, after it became apparent that the Democratic members of the committee would not budge from their insistence that both houses of the legislature be apportioned on a population basis.

It was doubtful, however, if even the Republicans had made a final decision. Some of them disagreed with Hannah's interpretation of the caucus action, and indicated that they might not go along with recommending the Hanna plan.

Monday's development wound up a weekend marathon session at MSU's Kellogg Center. Hannah said the committee probably would go on record with official votes taken on the proposal this week.

Stephen S. Nisbet, president of the Constitutional Convention, told the convention's apportionment committee Monday that meeting self-imposed deadlines is of secondary importance.

The quality of the product of the convention is the major consideration, Nisbet said. But he urged committee members—toward the end of their weekend session—to try for a March 31 adjournment.

He said he would ask the convention to suspend general orders this week—in effect declaring a moratorium on floor debates for the week.

This, he said, would keep convention sessions short and give committees more time to work.

Housemother's Portrait Stolen

A portrait of Mrs. Ruth Hale, housemother at Sigma Alpha Epsilon, was stolen from the SAE fraternity house Friday night.

Mrs. Hale said the portrait was given her by alumni after she had served as housemother for 10 years.

She valued the painting at \$500. She said the theft has been reported to the police.

Fabian, Blemaster Fill Frat Post

Sigma Pi Epsilon, hotel honorary fraternity, elected Bob Fabian, Norm Rochelle, N.Y. Junor, and Norm Blemaster, St. Clair Shores, senior to serve as public relations men.

DR. ELDON NONNAMAKER

Glenn's Earth Cruise Waits for Saturday

CAPE CANAVERAL, Fla. (AP)—Gremilins in the oxygen system designed to feed the "breath of life" to astronaut John H. Glenn Jr. forced a new postponement Monday of his round-the-world space flight.

It's off until Saturday at the earliest.

If the fault had gone uncorrected, officials said, there was a possibility that oxygen would be used up at an excessive rate should the space craft lose pressure during its three whirls around the globe.

This could have spelled disaster for Marine Lt. Col. Glenn, who had been scheduled to embark on his great adventure Wednesday.

Glenn took the delay philosophically, according to officials of the National Aeronautics

President Kennedy may be at Palm Beach, Saturday when Marine Lt. Col. John H. Glenn Jr. is launched into space on an attempted three-circuit orbit of the earth.

Kennedy has no plans to see Glenn or take a hand in any activities immediately following the space flight.

Glenn probably will be brought to the White House later for a formal, official salute and reception, similar to that given the nation's first man in space.

However, officials said later that on closer examination no evidence of dust was discovered. They did not say exactly what the trouble was, contenting themselves with announcing that a couple of vital parts were being replaced and that "tests of the system continued."

The space cabin is filled with oxygen at a pressure similar to that on earth—much the way that passenger cabins on jet airlines are pressurized.

Astronaut Glenn will wear a space suit which will provide him both with oxygen to breathe as well as a small, close-to-the-skin atmosphere and pressure comparable with that on earth.

Should the space craft cabin be punctured in some emergency, Glenn would normally be able to rely on the smaller atmosphere within his space suit. However, the fault in the oxygen system would have led to the possibility that too much oxygen would be used and lost.

Meantime NASA officials are still trying to prepare a rocket that will be aimed at the moon late this week, perhaps Friday.

And the Air Force still hoped it could meet its Wednesday target date for launching five earth satellites with one rocket.

Attitudes

(Continued from Page 1) attitudes towards the health center, the study reported.

Nonnamaker found an undercurrent of negative feeling concerning health generally. He said there was some doubt of the qualifications of a doctor who would associate himself on a salary basis with a university health center.

Many students equated the housing office with the housing regulation, which they found distasteful. This might explain the low rating of the housing office, the study said.

Choir Contracts Due Saturday

Choir directors of women's dormitories planning to participate in the Inter-R-Sing must turn in entry contracts to Linda Collins, 256 North Case, by Saturday.

Spanish Club To Feature Language Prof

The Spanish Club will hold its first meeting of winter term Tuesday at 8:15 p.m. in the UN lounge of the Union.

Thomas Ramos, instructor in the foreign language department, will be the guest speaker, and there will be an informal program after the lecture.

CAB Accuses Pilot, Airline

Blames Disregard of Rules For Crash Which Killed 22

WASHINGTON (AP)—The Civil Aeronautics Board Monday accused an airline and a pilot of an "utter disregard" of regulations in a 1960 crash which took 22 lives.

Sixteen football players were among the victims of the Oct. 29 tragedy at Toledo.

The CAB said the plane, carrying the California State Polytechnic College football team, was overloaded, engines were not warmed up sufficiently, and the pilot, Capt. Donald L. J. Chesser, 38, attempted to take off in a heavy fog.

The agency noted that the airline, Arctic-Pacific, an Oakland, Calif., supplemental carrier, was suspended two days after the accident and that its operating certificate has not been renewed.

The twin-engined C46 crashed and burned shortly after take-off. Chesser and his co-

pilot were among those killed. There were 26 survivors.

The California football team was headed home after a game at Bowling Green State University.

The CAB said there was a "loss of control due to premature liftoff." This was caused, the CAB said, by a power loss, a swerving takeoff due to erratic engine performance and poor visibility.

The plane was loaded 2,000 pounds beyond its maximum certified weight, the report said, adding it also was over the allowable takeoff weight on departure from refueling stops at Albuquerque, N. M., and Youngstown, Ohio.

The CAB said also: Fog was so thick that Chesser had to make a walking tour of the area to find out where other airplanes were parked and refueling personnel had to direct him to the taxiway with flashlights.

The left engine was of a type not certified for use on C46's. Chesser and his co-pilot were on continuous duty on the flight from Oakland to Ohio and on another subsequent flight to New Haven, Conn.—or 26 hours and 40 minutes and were actually at the controls for 11 1/4 hours of the 14 hours and 41 minutes of flight time.

Civil air regulations forbid the scheduling of a pilot for duty on the flight deck more than eight hours, for duty aloft more than 16 hours, or for any kind of duty more than 20 hours, during any 24-hour period.

The report said, "The board concludes that Capt. Chesser and the management of Arctic-

Until the Civil War, peanut growing and eating in the United States was confined to a small area of eastern Virginia.

Pacific Airlines displayed utter disregard for the regulations set forth as to flight time limitations, minimum weather conditions, proper completion and filing of required paper work, good maintenance and inspection practices, and for compliance with regulations concerning maximum gross takeoff weight, in a manner to guarantee safety to the public."

Siebert to Speak

Michigan Press Meeting Opens Friday at Kellogg

The Michigan Press Assn. will hold its 94th annual convention Jan. 26-27 in Kellogg Center.

The convention will open with a luncheon Friday in Kellogg's Big Ten Room. Fred S. Siebert, dean of the College of Communication Arts, will present awards for the General Excellence Contest.

The featured speaker at the luncheon will be Don Reid, managing editor of the Iowa Press Assn. His topic will be "Adventures on Main Street."

Friday afternoon, the women will listen to Mrs. Rosella Bannister, food editor and writer for the Dearborn Press. News-women will discuss a number of topics, including circulation campaigns, promotion problems, advertising ideas, as well as a "hell box session," a round-up of all questions, ideas and suggestions left over from other discussions.

Friday evening is set for the anniversary dinner. MPA members will be the guests of the Board of Trustees.

The main speaker at the dinner will be Merriman Smith. He is the senior White House Correspondent for United Press International. He is now covering the fourth president on his beat. He has also covered national economic affairs, former president Eisenhower's Latin American trip, and the Paris Big Four conference last year. His topic will be "The Washington Scene."

Saturday morning will be de-

Saginaw Trip Set For Feb. 3

The trip to Saginaw for foreign students will be Saturday, Feb. 3, and not this Saturday as indicated in Monday's issue.

voted to the annual business meeting and other discussions.

The luncheon Saturday will be highlighted by the appearance of guest speaker Samuel Lubell. The head of Samuel Lubell Associates and writer of the syndicated feature, "The People Speak," Mr. Lubell is the author of two recently published books. His topic will be "What Do You Think?"

Also on the program will be a discussion of the Con-Con by "Ink" White of the Clinton County Republican-News. White is a delegate to Con-Con from St. Johns.

Saturday afternoon will be devoted to the annual business meeting of Michigan weekly

newspapers and the election of board members.

The 21st Annual All Michigan Dinner, co-sponsored by the Michigan Department of Agriculture, will be held Saturday evening.

The chairman of the dinner will be Dale Stafford, president of the MPA. The president-elect is James Tagg of the Alma Record.

The principal speaker at the closing dinner will be Charles T. Vetter, Jr., of the United States Information Agency. Vetter has been with the USIA since 1958. Formerly, he had been an adviser to the director of public relations of the government of East Pakistan. His topic will be "Competing With Communism for the Minds of Millions."

As an extra attraction, there will be several special exhibits, including the Michigan Press Photography Exhibit, "The Best of the Best." The display contains over 100 winners of the 1961 contest. This show is sponsored by Consumers Power Co. and has appeared throughout the state during the past year.

The MPA was formed in 1868 and has grown to include 292 weekly newspapers and all of the state's 54 daily newspapers.

Navy Program To Send Team Here Jan. 30

A Naval Officers procurement team from Detroit will be in the Union from 9 a.m. until 4 p.m. daily from Jan. 30 through Feb. 1.

The team will furnish information on all navy officer programs on general line, engineering, supply, law specialist, medical, dental, theological, and aviation.

IBM WILL INTERVIEW JANUARY 31 FEBRUARY 1

Candidates for Bachelor's or Master's Degrees are invited to discuss opportunities in:

Engineering and Sales

This is a unique opportunity to find out about the many career opportunities at IBM. The IBM representative can discuss with you typical jobs, various training programs, chances for advanced education, financial rewards, and company benefits—all important factors that affect your future.

SOME FACTS ABOUT IBM

An Unusual Growth Story: IBM has had one of the exceptional growth rates in industry. It has been a planned growth, based on ideas and products having an almost infinite application in our modern economy.

Diverse and Important Products: IBM develops, manufactures and markets a wide range of products in the data processing field. IBM computers and allied products play a vital role in the operations of business, industry, science, and government.

Across-the-Country Operations: Laboratory and manufacturing facilities are located in:

Endicott, Kingston, Owego, Poughkeepsie, Vestal, Yorktown, N. Y.; Burlington, Vermont; Lexington, Ky.; San Jose, Calif.; Bethesda, Md.; and Rochester, Minn. Headquarters is located in New York City with sales and service offices in 180 major cities throughout the United States.

The Accent is on the Individual: No matter what type of work a person does at IBM, he is given all the responsibility he is able to handle, and all the support he needs to do his job. Advancement is by merit.

The areas in which IBM is engaged have an unlimited future. This is your opportunity to find out what that future has to offer you. All qualified applicants will be considered for employment without regard to race, creed, color or national origin.

Your placement officer can help you to learn more about IBM. He can give you literature describing the many career fields at IBM. He will arrange an appointment for you with the IBM representative. If you cannot attend an interview, write or call the manager of the nearest IBM office:

R. F. Macduff, Branch Manager
IBM Corporation, Dept. 682
608 S. Washington Ave.
Lansing 7, Mich.
Phone: IV 4-5314

IBM You naturally have a better chance to grow with a growth company.

Now—give yourself "Professional" shaves with...

NEW SUPER SMOOTH SHAVE

New "wetter-than-water" action melts beard's toughness—in seconds. Remarkable new "wetter-than-water" action gives Old Spice Super Smooth Shave its scientific approximation to the feather-touch feel and the efficiency of barber shop shaves. Melts your beard's toughness like hot towels and massage—in seconds.

Shaves that are so comfortable you barely feel the blade. A unique combination of anti-irritation agents makes Super Smooth Shave stay moist and firm. No re-lathering, no dry spots. Richer and creamier... gives you the most satisfying shave... fastest, cleanest—and most comfortable. Regular or mentholated, 1.00.

222 ABBOTT ROAD OPEN WEDNESDAY EVENING

Scientific Settlers

Found Plants Sexy

By JAY BLISSICK
Of the State News Staff

America's colonial settlers weren't slouches when it came to the world of science.

This is demonstrated by a display of colonial books and scientific instruments on the third floor of the library. Prepared by Ronald S. Wilkinson, a doctoral candidate in the history department, the exhibit includes part of his personal collection.

Wilkinson, whose field of research is colonial scientific history, said early colonials can be credited with a lot of important firsts.

One of these was in the field of botany. James Legan was the first to successfully demonstrate the sexuality of plants.

Cotton Mather was the first to describe the hybridization of plants and directed the first smallpox inoculation during an epidemic in 1721.

The kinetic theory of heat owes its origin to a colonial scientist—Count Rumford.

Early American scientists weren't without their "elite" either.

Eighteen colonials were selected to the Royal Society of London, an exclusive scientific club, according to Wilkinson.

Early scientists were interested in many fields, he said. John Bartram and James Logan were interested in botany.

Both were disciples of Carl Linnaeus, a Swedish scientist who worked out the system of classification of plants and animals that is still used today.

An American colonial scientist even played an important role in the dim beginnings of psychoanalysis. Benjamin Rush conducted many experiments in the field of psychiatry.

The exhibit also includes some instruments used by early scientists.

A culpeper microscope built by George Adams in 1780 has one feature many modern

microscopes don't have, Wilkinson said. It has a special lens mounted on its side to focus light on subjects.

The microscope is also equipped with specimens mounted between clear glass windows in slabs of ivory for an early scientist to show his friends, Wilkinson said.

Some of the early colonial scientists such as Benjamin Franklin, led dual lives.

Franklin is famous as a statesman and for his kite experiment, but many people don't know that he gave the world the single fluid theory of electricity, Wilkinson said.

He also did research in meteorology, ocean currents and insect intelligence.

Thomas Jefferson—the author of the Declaration of Independence—was interested in science. He has been called the father of American paleontology.

The only professional scientist to sign the Declaration of Independence, Benjamin Rush, was an early psychiatrist.

David Rittenhouse—one of the best instrument makers in the new world—was the second president of the American Philosophical Society. He also served as head of the U.S. mint.

He made the first telescope in America and built two complex working models of the solar system which were called orreries.

Early science owed a lot of its popularity to almanacs Wilkinson said.

These almanacs contained essays on science and were widely read because they contained other information including home remedies for various illnesses, he said.

Colonial scientists also helped make science popular by writing books that attempted to conflict between science and religion.

One such book was written by Increase Mather. It was called the "Christian Philosopher" and is included in the exhibit.

Snyder Presents 'Moods in Blue'

Snyder Hall will hold its term party, "Moods in Blue" in the lower lounge Saturday from 9-12 p.m., according to dormitory president Gwen McCormick, Dearborn junior.

Bill Hart will provide the music for the semi-formal party and the lounge will be decorated by a Lansing florist.

Poltoratzky To Discuss Soviet Press

Dr. Nicholas Poltoratzky, Russian professor in the foreign language department, is to speak on the Soviet press, its purpose, scope and effect, to the Russian Club Wednesday at 7 p.m. in 21 Union.

Poltoratzky has served as writer and editor of several Russian newspapers and magazines, acting chief editor of the Russian language broadcasts of "Radio Liberation" in Munich and has dealt with Soviet press problems as a research associate at Brooklyn College in New York.

Students and faculty members are invited to the lecture and discussion period.

In form, veining and aspect the ginkgo tree resembles the maidenhair fern. However, the ginkgo has no close relatives. Distant kin are the cycads, a genus of widely distributed tropical trees.

This is an apple.

This is a crisp, juicy, tantalizing taste delight.

The only difference between those two apples is sixty seconds' worth of your television-watching time. Not much, really. (Imagine you've got just one minute to convince an employer you're worth hiring. Could you do it?) A good adman knows full well it's no time for coniving. A bad adman (and we've got our share of them) might try some tricks. But let's face it: you're too smart for them. You've got no time for their blandishments. And you know something? Neither have we. Members of the Michigan Council of the American Association of Advertising Agencies 4-100 General Motors Building, Detroit 2, Mich.

Spartans Defeat Gophers, 84-79

By GARY RONBERG
State News Sports Writer

Michigan State's youthful Spartans built up a 17-point halftime lead and then hung on doggedly to thwart a courageous Minnesota rally in the second stanza to gain an 84-79 Big Ten victory Monday night at Jenison Fieldhouse.

Spartan sophomore Bill Schwarz led State's six men in double figures with 20 markers, picking up 10 of these in the wild second half when the Gophers challenged.

State's Fred Thomann canned 16 points, Pete Gent had 13, and Bill Berry got 10. All are sophomores. Juniors Lonnie Sanders and Jack Lamers also finished with 10 points.

The win gives MSU a 2-4 conference mark and a 7-7 slate on the season. The Gophers are now 2-3 in the Big Ten and 6-9 overall.

The contest was plagued by a steady parade to the free throw line as 51 personal fouls were called. The Spartans were guilty on 25 occasions, Minnesota on 26. However, even the large number of fouls called couldn't mar the game from the spectator standpoint.

With a crowd of 5,630 cheering them on, the Spartans recovered from an early cold spell and a six-point deficit to race to a 19-11 margin with 10:27 to go until the half.

Schwarz kept dropping bombs from the outside and Thomann hooked them in on

Michigan State's football team has played before six crowds of 100,000 fans or more in the last nine seasons.

the inside as the Spartans surged to several 17-point leads, and went to the dressing room ahead 45-23.

State shot at a fine 470 clip in the first stanza, sinking 16 field goals in 34 attempts. Minnesota managed but eight field goals to the halftime buzzer.

The second half was a complete reversal.

Gophers Eric Magdanz, Tom McGrann, and Don Linehan led a Minnesota flurry that drew them within three points, 76-73, at the three-minute mark.

The Spartans slowed it down at this point and the Gophers were forced to foul. Minnesota's Linehan fouled out with 2:11 to go, Bob Bateman left at 1:14, and Ray Cronk, who had played since the 3:24 mark of the first half with four personals, left the game with 1:10 remaining.

The loss of these three hurt Minnesota experience-wise, and the Spartans played it close to the vest from then on.

MSU coach Fordy Anderson praised Schwarz for his outstanding play, and said he thinks he has a starting five that was "beginning to jell."

"This was a good one to win," he continued. "We beat a good team and this was the best our offense has looked all year."

Anderson said that Spartan Capt. Art Schwarm had a fever before the game and this was the reason he played so little. Anderson also revealed that Lamers had sustained a slight sprain of the ankle, but should be ready to go against Northwestern Saturday.

Game time for the Wildcat encounter is 4:30 p.m.

New Records Set In Indiana Defeat

By LEE HYMAN
State News Sports Writer

Although not victorious against Indiana Saturday, Spartan swimmers placed first in four events and broke all American records in the 400-yd. freestyle relay to score 40.5 points against the Hoosiers, 64.5 score.

State wasn't alone in setting records at Bloomington. The Indiana squad, led by Mike Troy and Chet Jastremski, helped break many national records.

Indiana won the 400-yd. medley relay in 3:38.5, setting a new dual meet record. State swimmers, Dan Jamieson, Bill Driver, Chuck Strong and Dick Blazejewski swam a 3:51.5 time.

Tying a pool record and breaking a new dual meet record, the Hoosiers took the 220-yd. freestyle in 2:04.2. Mike Wood placed second for MSU and although he didn't record the fastest time, he also broke the dual meet record in 2:03.2. Doug Rowe placed fourth with a 2:07.4 time.

Jeff Mattson took the 50-yd. freestyle in :22.4, setting a new dual meet and pool record. Jim White tied for third place in :23.4.

Ron Stickle, Indiana swimmer, broke all records in the 200-yd. individual medley. Recording a time of 1:59.5, Stickle broke the dual meet, pool, Indiana varsity record as well as breaking the NCAA and American record. Bill Wood placed third in 2:06.3, breaking the MSU varsity record. Dennis Collins came in fourth with a time of 2:14.4.

Van Lowe, State's outstanding sophomore diver once more beat out opponents with a score

of 222.20. Paul Johnson placed fourth.

Indiana's Schulhof beat out his Olympic teammate Mike Troy to break many records in the 200-yd. butterfly event. Schulhof's time was 1:57.3. This time sets a new dual meet record, ties the American record, NCAA and the pool record. Troy came in second and Carl Shaar third with a time of 2:02.4. Chuck Strong held fourth place with 2:09.9.

Mike Wood with a time of :48.8 in the 100-yd. freestyle, placed first, breaking the dual meet pool and MSU varsity record. Jeff Mattson came in second with :49.3.

The 200-yd. backstroke put Indiana first and second with a time of 1:57.3 and 1:59.8. Dan Jamieson came in third with 2:14.5.

Alan Somers of Indiana won the 440-yd. freestyle in 4:27.4, breaking another dual meet record. Dick Brackett placed second in 4:32.8 and Neil Watts fourth in 4:49.1.

Chet Jastremski, one of the Hoosiers top swimmers, took the 200-yd. breaststroke in 2:12, setting a new dual meet, American and NCAA record. Bill Driver placed third in 2:24 and Joe Kolbe fourth in 2:30.8.

State lost the last three events but made up for them by capturing the 400-yd. freestyle relay in 3:15.8 which better the American and NCAA records counted with hand touch. The Big Ten, however, doesn't recognize the hand touch on freestyle events so this event was not a national competition. The present record will hold until State can reset its time in the AAU and NCAA meets later in the year.

Michigan State tackle Dave Behrman of Dowagiac, Mich., twice was an All-State and once an All-American prep football selection, finished runner-up in the U.S. wrestling tryouts for the Pan American games, and played the entire 60 minutes of a college football game—all before he turned 19 years of age.

Runners Prepare for Test

By DICK ROBINSON
State News Sports Writer

State's indoor track debut at Columbus Saturday against Ohio State and Northwestern may indicate whether the 1962 edition is the best since 1955.

The Spartans, who figure to be a much improved outfit over last year's sixth place Big Ten, aim to give defending champion Michigan a fight for the crown.

In the eyes of head coach Fran Dittrich, State has the talent to do it for the first time in his four-year coaching career here and could possibly better the Spartans 1955 record when they placed second indoors.

Some of the most promising sophs to be viewed on campus in recent years plus a veteran crew of thirteen lettermen provide depth.

"It was never like this before," Dittrich explained. "We have 36 men on the team and I can take only 24 to Ohio State. It's hard to decide who is going."

The 1962 team members have written half of the frosh indoor and outdoor record book by setting or tying 24 of 49 marks. Last year's vintage freshman crop (now sophs) set or tied 12 of those performances.

"Of course we have a strong team," Dittrich said emphatically. "Look how many records the freshmen broke last year."

Just two lettermen were lost through graduation. The most prominent was Sonny Akpata, who placed fifth in the NCAA broad jump last spring with a leap of 24-4. Akpata also took third in the Big 10 indoor and second outdoor in the broad jump.

Miller-two miler Billy Reynolds, the other graduation loss, placed third in the two-mile last February at the MSU Relays.

The Spartans have indications of strength in most of the running events, high jump and broad jump.

HOT STUFF—Firemen from the East Lansing fire department extinguished burning clothes belonging to William B. Putnam, 1412-L, Spartan Village. The fire occurred at 4:43 p.m. Monday at the Laundry in Spartan Village.

Parents Fight Segregation

DETROIT (AP)—A group of parents charged in U.S. District Court today that the Detroit Board of Education "has maintained and still maintains a racially segregated school system."

The parents sought a court order preventing the school board from transferring 145 pupils from the Sherrill School to the Clipper School, one and a half miles away.

Most of the pupils scheduled to be transferred are Negro.

The parents also asked the court to require the school

board to "prepare and present to the court a plan for the complete desegregation and integration of the public school system in Detroit."

The parents, organized as the Sherrill School Parents Committee, filed a suit charging the school board with:

"Drawing and redrawing and gerrymandering of school district lines.

"Discrimination in recruitment, hiring, advancement and other employment practices with respect to teachers.

"Permitting deterioration of existing school facilities and failing to provide new and improved facilities for segregated schools.

"Discrimination in recruitment of regulations under which students were permitted to transfer to schools outside their residential district so as to help create or perpetuate a pattern of segregated schools."

Dr. Samuel Brownell, Detroit school superintendent, declined comment on the charges until he could study the complaint.

Deadline Near For Tri Delt Scholarships

One week remains in the deadline for the women applying for one of the two \$100 scholarships being offered by Delta Delta Delta sorority.

All undergraduate women are eligible to compete, but special consideration is given to juniors and seniors. The applications are judged on the student's academic achievement, need, and potential service to society.

The sorority earned the money for this fund through various projects ranging from washing cars to selling pecans.

Applications may be obtained at Women's Division of Student Services and should be turned in to either the Women's Division or to Patti Coleman, 634 MAC.

World of Sports

By The Associated Press

ROCKY MARCIANO former world heavyweight boxing champion, predicted Monday that his protegee Tony Hughes will beat British champion Henry Cooper Tuesday night.

FULLBACK JIM BROWN said Monday he would like to play for the Cleveland Browns "two or three more years." Brown left no doubt, however, that he was after a raise.

STEVE O'NEILL, 69, former major league catcher and manager, remained in poor condition Monday at Huron Road Hospital.

He was taken to the hospital in an ambulance from his home in Cleveland Heights Sunday. Neither hospital aides nor his physician would disclose the nature of his ailment.

ROGER MARIS of the world champion New York Yankees, the only man ever to hit 61 home runs in one season, was announced Monday as the winner of the 1961 S. Rae Hickok professional athlete of the year award.

WHITEY FORD, brilliant southpaw of the New York Yankees, was selected Monday by the New York chapter of the Baseball Writer's Association as the outstanding performer of the 1961 World Series.

THE BUFFALO BILLS of the American Football League named John Mazur of Boston University as backfield end coach and Jerry Smith of the AFL Boston Patriots as defensive line coach Monday.

Spahn Signs

Baseball's greatest lefthander also became the highest salaried pitcher in the game's history Monday—if he wasn't beforehand.

Specifically, Warren Spahn signed for his 18th season with the Braves, and it is safe to say he got a raise.

During the intervening season, in addition to extending a variety of personal records, he led the National League with an earned run average of 3.01, with the most complete games, and with the longest winning streak—10 games—while tying Joey Jay of Cincinnati for the most victories and the most shutouts. Four.

Church Hits Right Wing Extremists

ATLANTIC CITY, N.J. (AP)—A major Protestant church organization contends in a report that liberty is threatened as much by "the resurgence of extreme reaction" as by communism.

"Groups moved by these reactionary forces attack with fearful suspicion the very institutions which preserve our liberties," said the report, adopted by the North American area council of the World Presbyterian Alliance at its annual meeting.

"Their leaders assert that legislative bodies cannot be trusted; that courts cannot be trusted; that churches cannot be trusted; that people cannot be trusted."

The report also said such groups "betray" not only a lack of confidence in the structure of our free societies, but also a failure of faith in God.

No names were mentioned in the report, but a spokesman for the council said it alluded to such right wing groups as the John Birch Society.

Dr. Eugene Carson Blake of Philadelphia, chief executive officer of the United Presbyterian Church and chairman of the council's commission on civil and religious liberty, presented the report.

Twelve Presbyterian and Reformed church bodies in the United States and Canada, with about 6.5 million members, make up the council.

"On the one hand," the report said, "we must take seriously the threat to our freedom posed by the International Communist conspiracy and by all appropriate means oppose it. On the other hand, we must take with equal seriousness the threat of those who endanger our liberty by fanatical social and political reaction."

testing... one, two... glub, glub!

Some say we go overboard, the lengths we go to in testing Ford-built cars at "Hurricane Road"—our wind-and-weather lab in Dearborn, Michigan, and for practical purposes—we do. You might call it "testing in depth."

Ford scientists and engineers have devised a gigantic test tunnel that creates monsoon rains and tornado winds in a matter of minutes. Super sun lamps boost temperatures from 20 below to 100 above zero. Fog and drizzle, snow and sleet—all at the twist of dials. Huge cylinders beneath test-car wheels imitate every kind of road: from flat, smooth, turnpike to rutted mountain trail.

Out of it all comes knowledge of how to build better cars—cars that are built to last longer, require less care, and retain their value better. This constant aiming for perfection is just one more way in which research and engineering are earning for Ford Motor Company its place of leadership.

Open Rush Set For Men's Co-ops

Open rush by the men's co-operative houses will be held Wednesday and Thursday.

Wednesday at 8 p.m., Bower, Hedrick, Howland, and Ulrey houses will hold open house, according to Harry Bowers, publicity chairman for the Men's Inter-Cooperative Council.

Beal, Elsworth, and Motts houses will open their doors on Thursday at 8 p.m. Membership is open to any male student who fills out an application blank and is accepted by the members.

All prospective members must have at least a 2 point grade average to be considered by any of the houses. Some houses require a minimum 2.2 to 2.4 average be maintained before a student may join.

Members of the Inter-Cooperative Council (ICC) will be in the Union Concourse on Tuesday, Wednesday, and Thursday from 10 a.m. to 4 p.m. to answer questions from prospective members.

The men's co-operative houses enter into their 22nd year of operation this term as a University student organization.

Hedrick House was opened winter term of 1940, followed by the opening of Elsworth House during the spring term.

To date, the seven men's

houses have combined over 95 years of operations and have had more than 1500 members.

The members of the co-operatives handle most of the tasks called for in operating and maintaining their houses. Each member works about five or six hours a week at various assignments.

The ICC, which was formed in 1946, represents the co-ops in certain functions of the University students, serves to handle problems of common interest, and furthers contact among the houses.

3 Cars Crinkled In Minor Snafus On Campus

Three cars were involved in minor accidents on campus this weekend.

A car owned by John Wilson was damaged when he tried to remove it from a parking place. Wilson got out of his car, leaving the engine running and the gears in reverse, and pushed it. It broke free and hit a guard rail at the corner of the food science lab.

A car driven by Shirley Thurston of Lansing was slightly damaged when a car driven by Robert Reighard of East Lansing struck her stopped vehicle near Demonstration Hall.

Apparently Reighard's car skidded into Miss Thurston's car when he tried to make a turn.
