Kimber To Assume Post July 1

Harry H. Kimber will assume new duties as associate dean of the University College July 1.

He will also be professor of humanities and religion and acting head of the department of humanities. The appointment was announced Friday by the Board of Trustees.

Kimber will be in charge of curriculum development for the college, which was established in 1944 to provide students with a sound foundation of general education. He was a member of the committee that was the parent of the general education program.

"Increasing enrollments, the dormitory teaching program, the continuing need to recruit new faculty and to relate the development of the University College to that of new colleges recently established here are the principal areas that will concern Kimber," said Edward A. Carlin, dean of the University College.

Since coming to Michigan State in 1932, Kimber has served as professor and head of the department of history of civilization, director of the division of social science, and head of the departments of humanities and religion.

A native of Indianapolis, here received undergraduate and graduate degrees at the University of Michigan. Before coming to Michigan State, he was an instructor at the University of Michigan in 1926 and 1927 and an assistant professor at Bradley University from 1927 to 1931.

Kimber is a member of Phi Beta Kappa, the Michigan Academy of Science, Arts and Letters, the Michigan Historical Society, American Historical Association, The American Association of University Professors and the National Council for Social Studies.

Global Glimpses

By the Associated Press

JFK To Get Medical Report on Smoking

WASHINGTON - A summary of current medical data dealing with possible relationship between smoking and lung cancer is being prepared for President Kennedy.

The summary also will suggest what should be done, including a possible new look at the whole picture, a Public Health Service official said Monday.

The official said the summary was being prepared at the request of the Department of Health, Education and Welfare, of which the service is a unit, and presumably had been requested by the White House.

President Kennedy told a questioner at his news conference last week that he might be able to answer a question about the situation at a later news conference. The White House announced Monday there will not be a news conference this week.

Diplomats Fear War Could Spread in Laos

VIENTIANE, LAOS - Diplomats expressed fear Monday that a pro-Communist drive again threatening Hanoi, Laos in northwest Laos may prompt Thailand to demand direct intervention in the Laos civil war.

On the political front, the absence of Premier Prince Boun Oum and Gen. Phoumi Nosavan, his strong-minded defense minister, on an aid-seeking mission to the Philippines, annoyed the United States at this critical moment in the little kingdom's military and political affairs.

Soviets Admit American Space Advance

MOSCOW - Premier Khrushchev conceded Monday that the United States won a share in space with the Soviet Union through the orbital flight of Lt. Col. Malcolm Scott Carpenter.

"Now we are not alone in the cosmos," he said. "Now the Americans (like the Russians) have put two men in space." Khrushchev told a crowd at the entrance to an Italian trade fair which opened Monday that Carpenter displayed "great courage and fortitude" when everything seemed to be going wrong.

The Soviet leader's appearance at the fair coincided with an announcement by the Soviet news agency TASS that the Russians have shot another unmanned satellite into orbit. This was Cosmos 5, fifth in a series started March 16. It was reported circling the earth in 102.75 minutes at altitudes ranging from 126 to 994 miles.

U.S. To Launch More Nuclear Tests

WASHINGTON - A new series of high-altitude nuclear tests will be started in about four days over Johnston Island in the Pacific, the Atomic Energy Commission informed Sen. Oren E. Long, D-Hawaii, Monday.

The first test, long said, will be in the sub-megaton range, less than a million tons TNT, equivalent, and exploded at an altitude of 10 kilometers, or about 6 miles.

This will be followed by two explosions in the ionosphere at an altitude of hundreds of kilometers.

Moon Shot Nearer; Giant F1 A Success

EDWARDS AIR FORCE BASE, Calif. - The giant F1 rocket engine, scheduled to power manned flights to the moon, was fired for the first time at full power Saturday -- and for the full time period it would be used in flight.

A National Aeronautics and Space Administration spokesman said the engine roared for about 2-1/2 minutes at a thrust level of more than 1.5 million pounds at the Edwards Base.

Officials Continue Jet Crash Probe

CENTERVILLE - A briefcase found among the debris scattered by a disintegrating jetliner assumed additional importance Monday after Civil Aeronautics Board officials indicated that if a bomb caused the plane to crash the explosive device was set off by a person aboard.

George Van Epps, head of the CAB's investigating team, said the brief case might be of significance.

"It would have been possible to carry an explosive aboard the plane in it," Van Epps said in reply to a question.

Constitutional Vote Hearing Postponed

By The Associated Press

Judge Sam Street Hughes of Ingham County Circuit Court today postponed a hearing on a petition for an order forcing an early vote on Michigan's proposed new constitution.

Attorney Theodore Swift, representing the Constitutional Convention and Solicitor General Eugene Krasicky agreed to a Friday hearing on the Convention's motion and on a state motion to dismiss the case.

Swift, anxious for an early settlement, had petitioned the Court for a hearing on its petition Monday. Krasicky objected that the request for a court decree could not be heard until

Dey Seminars Cancelled

Cancellation of two scheduled seminars by Land-Grant Centennial Lecturer S.K. Dey of India was announced by Charles Adrian, director of MSU's Institute for community development.

Adrian, who is in charge of arrangements for Minister Dey's visit here said the seminars scheduled for 7 p.m. Tuesday and 8 p.m. Wednesday will not be held.

Dey, India's Minister of Community Development and Cooperation, has been a distinguished visitor on the campus since May 21. He will conclude his stay here June 1.

Students by The Thousands To Fill Highways for Holiday

Stock Dip Sharpest Since '29

Blue Chips Battered as Investors Unload

New York, May 28 (AP) - The stock market Monday suffered its sharpest loss since Oct. 28, 1929.

Blue chips and "growth" stocks were battered unmercifully as investors unloaded stocks from coast to coast.

An estimated \$19.5 billion dollars was shorn from the quoted value of stocks listed on the New York Stock Exchange, based on the fall in the Associated Press average.

The Dow Jones Industrial Average smashed through a hoped-for support level at around 600, falling 34.95 to 576.93 -- the steepest loss in the Dow since the Oct. 28, 1929, date when the average lost 38.3 on volume of 9,212,800 shares.

Monday's volume was even heavier -- 9.35 million shares, the largest since July 21, 1933, when 9,572,000 shares were traded.

The ticker tape was one hour and nine minutes late at the close, the longest lag in the 32-year history of the high-speed ticker. During the '29 crash the tickers ran at a slower pace and were late for hours.

The havoc was terrific among the blue chips -- the highest rated issues.

American Telephone fell \$11 to \$100.62, Du Pont \$12.50 to \$202.50, International Business Machines \$37.50 to \$361.

Selling snowballed amid calls for margin -- even though a 70 per cent down payment is the legal requirement now. Back in '29 it was much lower.

The Associated Press average of 60 stocks topped 13.40 to 211.20 with industrials down 17, 50, rails down 5.80, and utilities down 9.50, all to new lows for the year. For the AP average, too, it was the worst loss since Oct. 28, 1929.

Margin calls hit AT&T harder than others because of a special technicality allowing those with "rights" to purchase the stock to carry their actual stock purchases on margin of only 25 per cent.

AT&T was the most heavily-traded issue, rolling up 282,800 shares. Standard Oil (New Jersey) was second most active, down \$5 a share at \$46 on 148,200 shares. (Continued on page 3)

Announcements Ready

Seniors who ordered graduation announcements from the Union Bookstore can now pick them up, Robert Frew, manager of the store, said Monday.

He said there were a limited number of announcements available for those who did not order them initially.

THEY'LL SOON BE BOUND--WOLVERINE Business Manager Wayne Parsons (right) and Speaker-Hines and Thomas Inc. representative Ron Botsford check over several remaining stacks of unbound yearbooks. State News Photo by Skip Mays.

Two Reporters Discover Theft of Books Easy

By ANN DARLING AND JOHN DANCER Of The State News Staff

Second of a series

On May 4, between 9 and 11 p.m., two State News reporters went to the Social Science division of the Library and signed out two reserve books. A librarian and two student assistants were on duty.

Only one of the student assistants asked for identification. Within five minutes the reporters returned the books and requested different ones. This time no one requested identification.

The second time, the reporters signed fictitious names and student numbers on the book cards and were able to take the books out of the Library on over-night reserve.

Only one student assistant was on duty in the Humanities I and II reading rooms. By using the same procedure, the reporters were able to check out two more

reserve books, again using fictitious names and student numbers. No identification was requested.

The reporters took 11 books from the open stacks and proceeded to the final check-out desk where students are supposed to show all books and briefcases.

The inspector at the check-out desk did not question the reserve books, since it is possible to take them out of the Library after 9 p.m. They were signed out under false names, however.

The reporters carried nine of the remaining 11 books in their coat pockets. Two of them were carried in loose-leaf notebooks that were not concealed.

A bulky Sunday New York Times was carried casually by one reporter under his arm.

On May 5, at 3 p.m., the reporters walked out of the Library with five more books in a similar manner.

On May 4, they observed the check-out procedure between 2 and 2:30. At least six persons carried books out of the Library that were not carefully checked.

A Lebanon, Pa., graduate student said he is usually told that these "missing" books are either at the bindery, unshelved or lost. He questioned several other students with similar complaints.

Last term one professor made assignments in a particular bound volume of Editor and Publisher. Several students who were unable to find the volume were told that it was missing.

After two weeks, and much searching on the part of the students, the book was discovered on a shelving cart in the Social Science division office. Students are confronted with

Bunning Hurls 3 Hitter; Tigers Top Orioles, 5 1

Detroit, May 28 (P-Jim Bunning, accused of slicing the ball with his belt buckle in his last outing against Baltimore, throtted the Orioles on three hits Monday in a 5-1 victory by the Detroit Tigers.

Rocky Colavito cracked a two-run homer and a homer and a double and Chico Fernandez cracked a two-run homer for all the Detroit runs.

Bunning lost his shutout in the ninth when Russ Snyder hit a home run. Bunning walked only one Oriole and struck out four.

Pleasant Weather Predicted

Detroit-Bound Routes To Be Crowded

Thousands of Michigan State students are expected to be among millions of motorists on Michigan roadways for Memorial Day as the University observes the holiday.

Students will head for homes, beaches, picnic areas, holiday dances and fishing streams in what the weather bureau predicts will be fair and pleasant day.

State Police said traffic will increase starting at noon Tuesday and will remain heavy until late Wednesday.

The state highway department said about 76 per cent of the holiday traffic will be on highways within an 80-mile radius of Detroit, which includes the Lansing area. There were no predictions of the number of deaths resulting from traffic mishaps over the 30-hour holiday. However, 10 were killed on Michigan Highways in 1956, the last 30-hour holiday.

Last year 34 persons lost their lives in Memorial Day traffic in a 102 hour period.

Interstate 96 between Detroit and Kensington Park east of Brighton will be the busiest highway in the state with 40,000 cars and trucks expected to use this stretch of highway during Memorial Day.

Highest westbound traffic on Interstate 96 in this area is expected between 9 a.m. and 1 p.m.

On U.S. 16 between Lansing and Howell heavy volumes of traffic are expected between 4 and 7 p.m. Wednesday. Westbound traffic on Interstate 94 between Detroit and Jackson is expected to be heaviest between 9 a.m. and noon.

Light to heavy traffic is expected on U.S. 27 north of Lansing during the late afternoon and early evening hours Wednesday, the highway department said.

Truitt To Leave Post

John W. Truitt, director of Men's Division, has been named Dean of Student Personnel Services at Indiana State College, according to a news release from Indiana State.

Truitt, however, has not yet submitted his resignation, John A. Fuzak, Dean of Students, said Monday.

Truitt will assume his new position at Indiana State July 1.

Former assistant to the Dean of Students, Truitt came to MSU

JOHN TRUITT

in 1952 as an instructor in the Institute of Counseling, Guidance and Testing.

A native of Lexington, Miss., he received both his B.S. and M.Ed. degrees from Mississippi State College in 1950, and in 1955 he received his Ed.D. degree from Michigan State.

After serving from 1940 to 1945 in the armed forces, he was football and track coach at Laurel (Miss.) High School until 1948. He was then appointed assistant football coach at Mississippi State and served until 1951.

Truitt is a member of the American Personnel and Guidance Association, American College and Personnel Association, National Association of Student Personnel Administrators and National Vocational Guidance Association.

Campus Leaders Write Trustees About Resolution

A letter urging the Board of Trustees to consider the principle behind Student Congress' resolution condemning the Board's action barring Communist Robert Thompson from campus has been written by leaders of six non-voting groups on Congress.

All six groups represented, including IFC, Pan-Hel, WIC, AWS Activities, WIC President's Council, and MHA, were against passage of the resolution at the meeting last Wednesday because of the wording.

The letter said in part: "We think that the phraseology of the resolution is disrespectful and misconstrues the intent upon which it was based.

"We urge the Board of Trustees to consider the principle behind the resolution and to disregard the tactless way in which it was resolved and presented."

Trustees Accept \$831,220.31 in Gifts

Gifts and grants of \$831,220.31 were accepted Friday by the University Board of Trustees. Included was formal acceptance of the furnishings and equipment of Michigan's Constitutional Convention. These will be re-assembled in a suitable location on campus to be used as a classroom, for conferences, or other university uses.

A \$74,865 grant was accepted from the U.S. Office of Education for a counseling and guidance training institute to be conducted during the next academic year by Norman Kagan in the College of Education.

Institute participants will include 30 secondary school teachers interested in becoming school counselors or who desire additional training as counselors. A supplementary grant of \$21,000 was made to James Costar in education for a similar guidance institute which is already underway.

A two-year study of improving academic achievement of junior high school students through improvement of self-concept will be conducted under a \$73,752 grant from the cooperative research program of the U.S. Office of Education.

A \$69,398 grant from the National Institutes of Health was accepted to support graduate training in clinical psychology under the direction of Clarence L. Winder, director of the psychological clinic. The funds are used to support faculty appointment, purchase equipment needed in the training program and mostly to provide fellowships for graduate students.

Michigan State's African Language and Area Center, under the administrative direction of Eugene H. Jacobson, was awarded two grants by the U.S. Office of Education. These included \$41,942 for the Center's teaching and research program, which emphasizes African languages; and \$14,603 for an intensive summer program in African languages and area studies.

Research in ultrasonics, directed by Egon A. Hiedemann in physics and astronomy, will be continued with the aid of a \$36,110 grant from the Office of Naval Research.

The Atomic Energy Commission of Argonne, Ill., granted \$32,050 for continuance of research being conducted by Dr. Sylvan H. Wittwer and Dr. Martin J. Bukovac in horticulture.

Also accepted from the Atomic Energy Commission was a grant of \$31,290 for research under the direction of William E. Taylor in the division of engineering research and the department of metallurgy, mechanics and material science.

The Meteorological development Laboratory of the U.S. Air Force, Waltham, Mass., granted \$24,198 for research on the variability of clouds, a study directed by Herman Rubin in statistics.

A \$24,080 grant to improve undergraduate laboratories in the area of electrical and hydromechanical systems was accepted from the National Science Foundation, Washington D.C., and will be utilized under the direction of Herman E. Koenig in electrical engineering.

The Office of Institutional Research will continue its study of the effects of higher education on the development of critical thinking, attitudes and values, with the aid of a \$23,201 grant from the U.S. Office of Education. The study is directed by Paul L. Dressel.

Research concerning the alpine flora of Mexico and Guatemala will be continued by John A. Beaman in botany and plant pathology with a \$23,000 grant from the National Science Foundation.

A visiting scientist program will be conducted in Michigan for the third year under the direction of T. Wayne Taylor of the Science and Mathematics Teaching Center and with a \$20,900 grant from the National Science Foundation.

The Trustees also accepted 34 grants to be used for scholarship purposes. These included \$10,000 from the Eugene C. Eppley Foundation, Omaha, Neb., for scholarships to hotel, restaurant and institutional management majors enrolled in the master of business administration program.

MUSIC IN THE AIR--Leonard Falcone conducts the M.S.U. Concert Band as part of the outdoor band concert held Sunday near the Music Building. The music, heard for blocks around attracted many students who were enjoying themselves in walks about the campus.

Art Department Picks Two To Replace Resigning Profs

The art department will have two new members fall term to replace Murray Jones and E. Grant Swayze who have resigned. Jones, who taught painting here is going to Ohio State University where he will be an associate professor teaching graduate painting.

Assistant professor Swayze is going back to his home state of California.

Jones has been at M.S.U. for 15 years and Grant has been here for 10 years.

Suzanne Edwards, who comes here from the University of Chicago, will be an assistant professor of art history. Her special field is medieval art history.

The other appointment goes to Mable Nemoto from the Delaware elementary school system in Newcastle, Del. Aside from teaching she has worked with the University of Delaware as a consultant.

She will be an assistant professor of art education.

Charles E. Meyer, acting head of the art department said that the resignations of Jones and Grant were for reasons of personal advancement.

He said: "We do not have a large turnover of full-time faculty members, but when they do leave it is for reasons of advancement of position, salary or a cut in their teaching load."

"These were the reasons for Jones' resignation. Grant was simply doing something he had wanted to do for a long time. His home is in California and he wanted to return to it."

Receives Nieman Fellowship

John W. Kole, 28, a University graduate is one of ten U.S. newspapermen awarded the coveted Nieman Fellowships for 1962-63.

Kole received the bachelor of arts degree in journalism in 1955, and is now a reporter for the Milwaukee Journal. He will study economics and urban problems at Harvard next year.

While he was at Michigan State Kole was editor-in-chief of the State News, and a member of the yearbook and magazine staffs. He was also president of the student chapter of Sigma Delta Chi, professional journalistic society, and a member of two honor societies, Excelsior and Gamma Phi.

As a student, his hometown was listed as Zeeland, Mich. After leaving here he earned the master's degree at Northwestern University. For the past six years he has been covering local government and general assignments for the Milwaukee Journal.

The Nieman Fellowships provide one academic year of studies at Harvard for men on leave from their papers.

Social Work School To Be Reorganized

The school of social work will be reorganized in both the graduate and undergraduate schools, said Ernest Harper, acting director of the school of social work.

"Starting in the fall, there will be more room for courses and more flexibility in the program," he said.

The National Institution of Mental Health will offer more social work, he added.

New Social Work Honorary Initiates Members Monday

A newly created National Social Work Honorary Society, Phi Psi, held its first local initiation ceremony Monday evening in Parlor C of the Union for its charter members.

Newly elected officers for the chapter are: Joseph W. Holman, East Lansing, junior, president; William K. Daley, Lansing senior, vice president; James M. Bride, Lansing, sophomore, treasurer; and Marilyn Adams, East Lansing graduate student, secretary.

Night Staff

Texans Praise Handling of Desegregation

FRANKLYN THOMAS Advertising Official To Speak

Two Texas police officials said recently that police cooperation, objectivity and communication, are essential to desegregation.

Jesse E. Curry, chief of the Dallas police department, and Lawrence Fultz, a Houston police inspector, told the eighth annual National Institute on Police and Community Relations at Kellogg Center last week that much of the credit for the desegregation of Dallas schools belongs to the 250-member Dallas Citizens Council, whose aim is to "aid the growth of the city."

The council has aided integration efforts by forming a bi-racial committee, preparing a movie that urged tolerance, maintaining good relationships with the news media and by behind-the-scenes activities, Curry said.

Curry also praised the manner in which his men in the police department handled the schools desegregation, which occurred without incident.

The work of the police department included the preparation of a training manual for officers on the handling of community tensions, maintaining a liaison with minority groups, working closely with the press and coordinating the efforts of other community groups.

Fultz said that the success of the Houston police effort resulted from the psychological preparation of his officers.

J-Council Holds First Meeting

President of the 1962-63 J-Council, Terry Burgen, Lackawanna, N.Y. sophomore, introduced the junior class officers at the first meeting of the council last Wednesday night in the Union.

The officers introduced were vice president Jim Bannan, Saginaw sophomore, and secretary Peggy Sweetland, E. Lansing sophomore. Treasurer Mary Wheaton, Wilmette, Ill. sophomore, was unable to attend.

The chairman of the committee were presented and each explained the purpose and goal of his committee.

Popular Singer Is State Alumnus

One of the Peter, Paul and Mary folksinging group whose long play recording is currently popular is an alumnus of Michigan State.

Noel "Paul" Stookey graduated in 1959 and was a member of Delta Upsilon fraternity.

Stookey's first musical efforts were somewhat different from his present folksinging style. When he was a senior in high school he organized a rhythm and blues band called "The Birds of Paradise."

Teachers Eligible For Security Benefits

All teachers eligible for social security benefits may apply for compensation for the summer months, the research division of the Michigan Education Association announced Monday.

Any teacher aged 62 or over who has met the work requirements for social security is advised to contact his local social security office at once to apply for such benefits during June, July, and August.

Tarot Editor Among 40 Contest Finalists

James Cash, Grand Rapids junior and student editor of Tarot, has been named one of 40 finalists in the nation in the New College Writing Contest sponsored by Story magazine.

Cash, a humanities major, submitted a short story entitled "Von Bonnie Banks and Braes". Twenty winners will be chosen from 40 finalists. Grand prize winner will receive \$500.

Communications Institute Expected To Draw Over 500 High Schoolers

Over 500 high school students are expected to attend three sessions of the Communication Arts Institute this summer said William Haight, director of the Institute and assistant professor of advertising.

The Institute draws high school students who are attracted by the opportunity to study dramatics, journalism, television, and radio in a college atmosphere and under qualified college professors.

"Last year we had 15 states represented and indications are that at least that many will be represented this summer," said Haight.

The students who participate in the program stay in dormitories on campus or if they are from the local area they may live at-home and attend the institute at a reduced cost. Applications will be accepted from Lansing residents after next week's deadline.

Besides study and application in their selected field Haight said the participants in the Institute are provided with supervised social and athletic activities.

Ross, University Architect, Says Cost Dominant Factor in Campus Design

Cost is a dominant factor affecting architectural design on the university campus, said Donald Ross, University architect.

"The dollar sign is always present," said Ross, "in construction cost, in maintenance and in operation."

He said that businesses can afford to build exotic buildings and write the cost off as a tax or a public relations expenditure. The University cannot do this because its money is extremely limited and it doesn't pay taxes.

Many universities that have built radical buildings are dissatisfied with them, he said. They have found that these buildings are not only expensive to build but they are costly to maintain.

He said that the design of a university's growth, "After the war, we moved out of the Collegiate Gothic stage which is typified by such buildings as Giltner and the Natural Science Bldg. Then we went into the contemporary style which is typified by the plain, rectangular lines of the Library and the Student Services Bldg."

He said that we are now moving out of the curtain wall type because its huge expanses of glass cause costly heating and cooling problems.

Originally large expanses of glass were thought desirable, Ross said, because they let in much natural light. This has proved undesirable because most of the time natural light is either inadequate or so bright shades must be drawn.

He said buildings using large amounts of glass and aluminum must be cooled in the summer, in addition to being heated in the winter. The cost of installing a cooling system will become more common in campus buildings, he said.

Ross also said that when he is designing buildings for specific purposes, he is limited in his choice of style.

"It is one of the principles of architecture that the design of a building should reflect its purpose," he said.

"There should be no questions in peoples minds. They shouldnt have to guess what a building is for."

Editor of Book Former Head of MSU Nutrition

MINNEAPOLIS, Minn. - Margaret A. Ohlson, former head of the department of nutrition here for 12 years and, since 1956, director of nutritional studies at the State University of Iowa, is the editor of a new handbook on diet therapy, to be published in June.

The book, "Handbook of Experimental and Therapeutic Diets", is designed for teaching two-semester courses in diet therapy but it also will be useful to dietitians preparing meals for hospital patients.

It relates different diets to their food and nutritional values and contains a special section on experimental diets, including semi-synthetic diet formulas, together with a wide range of fat to carbohydrate ratios for preparation of diabetic diets.

Carlson, James To Play in Recital

Miss Sherry James, pianist and Clarence Carlson, bass, will appear in a joint recital at 8:15 Tuesday in the auditorium of the Music Building.

Miss James, who began her study of the piano at the age of 4, is presently a student of Mr. Joseph Evans.

Carlson is a Lansing senior majoring in voice and plans to teach at the high school level. He has done much choral work in high school, during his four and a half years in military service and since his return to the University.

The program will consist of numbers by Bach, Scarlatti, Schumann, Chopin, Debussy, Tchaikovsky and Dello Joio.

Phi Phi To Initiate 190 at Annual Banquet

The Honor Society of Phi Kappa Phi will initiate 190 new members at its annual spring banquet Thursday at 6:30 p.m. in Parlors A, B, and C of the Union.

Arthur J.M. Smith, professor of English and poet in residence, will speak on "The Function of Poetry in the Present Crisis."

Eight faculty members are to be honored as initiates. Certificates of scholastic achievement will also be awarded to five freshmen and 15 sophomores.

Phi Kappa Phi is a national scholastic honorary with members in both the Arts and Sciences.

Board Approves 17 Appointments

The Michigan State University Board of Trustees gave approval Friday (May 25) to 17 appointments, 34 leaves, 18 miscellaneous changes and transfers, 25 resignations and 4 retirements.

Dr. Paul Vanzura, professor of history, was designated Dean of the new College of Arts and Letters, effective July 1, 1962.

Appointments approved were as follows: Mitchell R. Geasler, 4-H Club agent, Cass County, June 11, Sanford S. Farness, associate professor, urban planning and landscape architecture, Sept. 1; Phillips Cutright, assistant professor, general communication arts and sociology and anthropology, Sept. 1; Miriam Duckwall, instructor, speech, Sept. 1; Kenneth R. Clay, instructor, education, Sept. 1; Garth Errington, instructor, education and continuing education, Sept. 1; Harrison Gardner, instructor, education, Sept. 1; Helen Hollandsworth, associate professor, education and home economics, Sept. 1; Donald Francis Sellin, instructor, education, Sept. 1; Suzanne Clare Edwards, assistant professor, art, Sept. 1; Mable M. Nemoto, assistant professor, art, Sept. 1; Charles S. Duris, assistant professor, mathematics and engineering research, Sept. 1; Charles Campbell Hughes, associate professor, sociology and anthropology, and director, African Language and Area Center, Sept. 1; Edward A. Graham, Jr., instructor, humanities, Sept. 1; Edwin W. Watkins, managing editor, MSU Press, June 1; Mary Karl, librarian, library, June 1; Barbara W. Skerry, librarian, library, Sept. 1.

Sabbatical leaves were granted for: John C. Post, extension director, Arenac County, Sept. 17, 1962 to March 16, 1963, study at MSU; James E. Lincoln, 4-H Club agent, Genesee County, Sept. 24, 1962 to March 18, 1963, study at MSU; Leyton V. Nelson, professor, farm crops, March 1, 1963 to Aug. 31, 1963, study and travel in England and Europe; Robert F. Carlson, associate professor, horticulture, April 1, 1963 to Sept. 30, 1963, study in England, Sweden and France; Anthony Koo, professor, economics, Sept. 1, 1962 to August 31, 1963 for study and research in Taiwan; Robert N. Hammer, associate professor, chemistry, Sept. 1, 1962 to Aug. 31, 1963, for study and writing at universities of Kansas and Illinois; Allen K. Philbrick, professor, geography, Sept. 1, 1962 to Aug. 31, 1963, study and travel in the United States and Canada; John N. Winburne, assistant dean, University College, and professor, American thought and language, March 15, 1963 to Sept. 15, 1963, study and travel in England and Europe; Charles D. Kenny, associate professor, social science, Sept. 1, 1962 to Aug. 31, 1963, study at Stanford and the University of California; C.C. Lanzillotti, professor and head of economics, to the Nigeria program from May 19 to June 3; assignment of Edward A. Carlin, dean of University College, to the Nigeria Program from May 5 to May 20; assignment of John P. Henderson, associate professor of economics to the Nigeria program from June

Stock

(Continued from Page One)

Third was General Telephone & Electronics, off \$1.75 a share at \$19.25 on 108,800 shares.

Monday's drop, culminating a series of slides over the last week and more, came amid reports of continuing good business news.

Although recent slides have been spectacular, stocks actually have been slipping since March 16, when a recovery move peaked out.

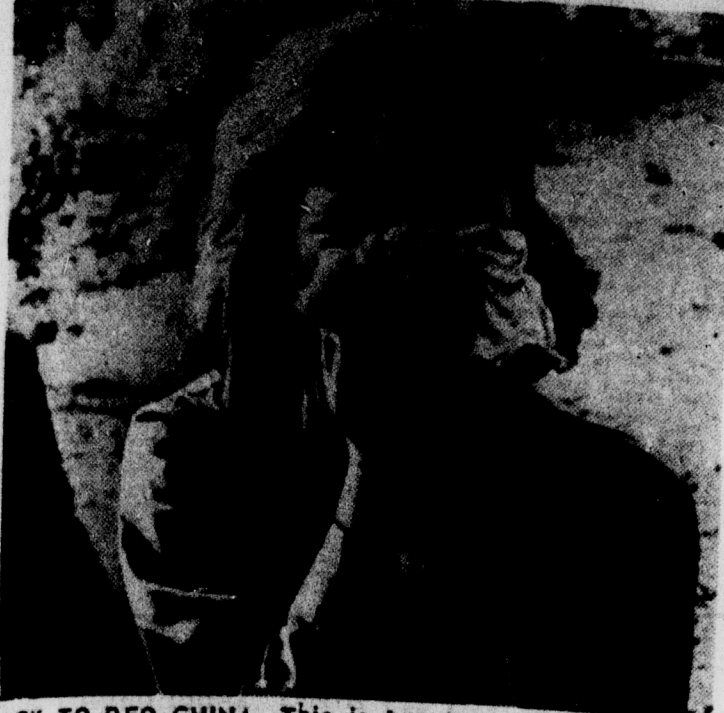

As stocks have sunk lower in recent weeks, however, some technicians said that all the clues and guidelines they rely on to forecast probable market movements had gone by the board. The ordinary guide lines were swamped in a sea of emotionalism -- just plain fear on the part of many investors, big as well as small -- that prices would go much lower before they go higher.

In the midst of the worst of today's selling, one security analyst said, "The big question is -- 'Who's doing the buying?'"

The trading was so heavy, he said, that the "specialists" engaged by the New York Stock Exchange to maintain orderly markets in the various stocks, would not have resources on their own to cope with the tremendous volume of sell orders. He surmised that many "bargainhunters," including big investors such as mutual funds and pension funds, must be picking up stock at today's cheap prices.

Brother Sister Picnic Goes Meet at Union

Students who have signed up for the American Brother-Sister program picnic to Kensington Park on Memorial day will meet at 9 a.m. in the U.N. lounge of the Union. The chartered Greyhound buses will return at 5:30 p.m.

BACK TO RED CHINA. This is Lee Ying, 19, one of more than one million Red Chinese who have recently fled into overcrowded Hong Kong. He is about to be forcibly returned to Red China, where there is a food shortage.

Refugees Throng Into Hong Kong

HONG KONG (AP) - Wong Tai Sin is fantastically crowded, noisy and smelly. Its residents sweat out the humid days cramped in tiny cell-like rooms.

Wong Tai Sin is one of the settlement areas British officials have constructed to house more than one million refugees from Red China who have crowded into this Crown colony in recent years.

For thousands who in past years have made it to Hong Kong, Wong Tai Sin has been an almost unbelievable break with a past of starvation and repression.

And for the thousands who tried to flee this month into overcrowded Hong Kong only to be caught and sent back to Red China, Wong Tai Sin was a dream. It meant three meals a day.

Ng Hing Fin, 40, who escaped his native Swatow in South China in 1957, smiled wryly when asked if life is better here.

"Of course this is better," he replied. "There is a food shortage back there."

Ng, wearing only trousers and undershirt, sat at a tiny table in the 20 by 15 foot room he occupies with his wife and four children on the second floor of a seven-story steel and concrete apartment building in Wong Tai Sin. More than 2,000 persons live in the building.

As a babble of voices rose, Ng explained that by working six days a week he and his wife manage to earn the equivalent

of about \$50 a month. The British government charges \$3 a month for rent; more than \$33 goes for food, \$5 for school fees, \$1 for electricity. No money is banked but by skimming the family can afford a new item of clothing for one of the children every few months.

Ng said recent refugees from Red China reported that Communist officials cut the monthly ration to 21 pounds or less per person a month in Kwangtung province. Somewhat proudly, Ng said he eats twice that much.

"All I want as a human being is to have enough to live and eat," he said.

Inundated by Chinese who just want to live and eat, the Hong Kong government strained its resources to the breaking point. In 1961, \$56 million -- 30 percent of the colony's budget -- was spent to care for refugees.

The government began ambitious building programs that turned a part of Kowloon peninsula into a forest of apartment buildings. Housing for 120,000 persons is scheduled to be built annually for the next five years.

Still half a million persons live in shacks on hillside overlooking magnificent Hong Kong harbor. About 250,000 live in substandard tenements and tens of thousands sleep in harbor sampans in doorways on rooftops.

for trips to the seashore our burlap beachcomber

Next to a date, the best beach companion ever...our plastic-lined burlap bag with a beachcomber's tendency to collect everything in sight from tanning lotion to books. Banded in black patent, ours has a rope drawing handle. Black, gold, persimmon.

LUGGAGE: Atlantic, flight, black and white tweed. 2 pieces. Ideal for going abroad. IV 7-5806. Reasonable. 44

MEN'S APPAREL, used. Suits, coats, Tux. Size 39 to 42. Sweaters, shirts and slacks. Summer and winter. Going into the Army. 339-2702. 45

'S' Nine May Still Meet W. Michigan

By MIKE SKINNER
Of The State News Staff

There is a chance that Michigan State's baseball team will play Western Michigan this season.

All hinges on a phone call from Charles Meher, Western's coach, on Thursday.

In the meantime Spartan Coach John Kobs has much to be proud of these days. His leftfielder, Joe Porrevecchio, was named to the All-Big Ten first team.

And two others, Dennis Ketchum at second base, and Jeff Abrecht in leftfield, were named to the third team.

Porrevecchio has a .392 season average, second highest on the team behind Jerry Sutton who leads the team in home runs with seven, and runs batted in with 32.

Ketchum had a tough early season battle with Bert Olah at second, but Ketchum won the job when the regular season opened.

Ketchum currently is hitting .383 and has 13 RBI's.

Abrecht was a late reporter to the squad and didn't make the team until after the season opened.

Abrecht was on the bench and Jay Bach was working the center field zone.

The reason is that Western qualified for the NCAA district four play-offs which start Tuesday at Kalamazoo. Since it's a double elimination tournament Western might be involved as long as Thursday.

Here's the situation: Two games are scheduled with Western Michigan, one Wednesday and the second Saturday. Wednesday's game is already out.

Ball Players Fall To Injury Jinx

NEW YORK, (AP)—It's the tightness of the pennant race and not the brittleness of the modern athlete which is responsible for the present rash of baseball injuries, the team physician of the New York Yankees said Monday.

"I'm speaking primarily of the American League race," Dr. Sidney Gaynor added. "The competition is so intense that the players are trying harder, putting out more and taking bigger risks."

"They're pulling muscles, running into fences and breaking bones in diving catches because every game means so much."

Two more big games were added to the game's mushrooming casualty list over the weekend. On Saturday, Al Kaline, Detroit right fielder, broke his collar bone, diving for a short fly ball on the final out of the Tigers' 2-1 victory over the New York Yankees at Yankee Stadium. He has been put on the disabled list Sunday.

Earl Battey, star catcher of the Minnesota Twins, suffered a split finger in the ninth inning of a doubleheader opener at Chicago.

They joined a distinguished list of early season cripples who

Here is the All-Big Ten first team:

Walt Zabinski OSU 1b
Eddie LaDuke Ind. 2b
Bob Klein OSU ss
John Machado OSU 3b
Gordie Arnsperger Pur. rf
Joe Porrevecchio MSU lf
Dennis Spalla Mich. cf
Lloyd Flodin Ill. c
Tom Fletcher Ill. p
Dave Roebuck Mich. p

could make up a potent All-Star squad. Not in modern memory have so many leading baseball players been knocked out of action so early.

Here is the rest of the list:

Al Kaline, Detroit outfielder broken collarbone, out two months.
Earl Battey, Minnesota catcher -- split finger on his right hand, status indefinite.
Mickey Mantle, New York Yankee centerfielder -- muscular tear in his right thigh, out two to three weeks.
Joe Adcock, Milwaukee first baseman -- pinched nerve in his back required hospitalization.
Gus Triandos, Baltimore catcher -- broken metacarpal joint on the right forefinger, placed on disabled list.
Jim Lemon, Minnesota outfielder -- stretched muscle in left shoulder, placed on disabled list.
Minnie Monson, St. Louis outfielder -- skull fracture and broken wrist from crashing into wall, on disabled list.
Ernie Banks, Chicago Cubs first baseman -- hit on head with

ON DISABLED LIST--Al Kaline, Detroit Tigers sensation right fielder was added to the Tigers' disabled list Monday. Terry Fox will probably rejoin the Tigers in Kaline's absence.

pitched ball May 26, momentarily out of action.
Whitley Ford, New York Yankee pitcher -- shoulder injury, temporarily out of action.
Luis Arroyo, New York Yankee relief ace -- strained left elbow, on disabled list.
Frank Lary, Detroit pitcher -- lame shoulder, in and out of action.
Bob Allison, Minnesota outfielder -- hit on leg by pitch, momentarily out of action.
The major run of mishaps and illnesses began in spring training March 5 when Gene Freese, hard-hitting Cincinnati infielder, broke his ankle in an intrasquad game at Tampa, and has continued unabated.

The Spartans finished with 32 points to Catholic University of Puerto Rico's 40 points.

Jerry Theyer took second place in the 165 pound division with Gordon Reuhs also finishing second in the 198 pound class.

Third place in the 181 pound class was captured by Bob Hedrick.

Schmitter has served at Michigan State since 1938. He holds a rare fencing master's diploma from the National Academy in Naples, Italy, which he received after studying under world famous fencing master Giuseppe Mangiarotti in Milan.

Schmitter and the others were selected by the U.S. Olympic committee. The U.S. team for 1963 Pan American Games competition will be picked following the nationals.

Softball Title Vacant

Champions were crowned recently in volleyball and bowling of the Independent League, while the all-university softball title will be proclaimed this week.

The Gutter Dusters, winners of block I in bowling, gained the overall title by defeating Vets II and Jokers in the elimination tournament. Evans Scholars, which captured the block IV title, was sidelined in a first round match.

Iranian Club ended the season with a perfect 5-0 mark to gain top position in the volleyball standings. Runner-up honors went to Elsworth House with a 4-1 slate.

Block winners of softball in Armstrong Hall were Archangely and Arhouse with identical records. Runner-ups in I and II were Arpent and Aristocrats, respectively.

Precinct three led block I of Bailey with 3-0, while precinct seven topped block II with 3-0, also. Precinct four emerged from a three-way tie to take runner-up honors in I. Six finished second in block II with 2-1.

Embassy and Emporor topped their respective blocks in Emmons with unbeaten marks. Competing in the all-university second flight will be Emerald from I and Raddiff from II.

Raddiff defeated Rangoon in a playoff game for the rather block I title. They both had identical regular season records of 2-1 and will represent their block in the tournaments. The block II winner at Rather was Ramsey. Second place honors went to Random.

Runner-up honors went to SAM, block II; ZBT, block IV, and LCA, block V. BTP and DTD must play for the block I position, while the DU and DSP will battle in block III.

Block I of the Independent League was taken by Vets with Vets I finishing second. Rozos ended undefeated in block II and were followed by the Twisters, 4-1.

The 7 Sevens 4-1 record was tops in III, while Magaffers 3-2 was second best. An unblemished

Precinct five of East Shaw topped block I despite a loss in four starts. They were followed in the standings by precinct four at 2-1-1. Precinct seven had things pretty much its own way in block II with 4-0. Precinct 10 with 3-1 was runner-up.

Quiet Village, 3-1, paced block I of West Shaw, while a three-way tie for second place is still unsettled. Block II has the same problem. Precinct 10 took first on 4-0, but the runner-up position is still pending playoff games.

Cachet and Cabanas tied for the championship of block I of South Case with 4-1. Cachet won the extra game and will be in the championship flight, while Cabanas will vie for flight II honors. In block II, Casino emerged on top and Carthage in second.

Five block champions were determined in the Fraternity League. They were AGR, 3-1; Phi Gam, 4-0; ATO, 4-0; Sigma Nu, 4-0, and Farmhouse, 4-0, respectively.

Runner-up honors went to SAM, block II; ZBT, block IV, and LCA, block V. BTP and DTD must play for the block I position, while the DU and DSP will battle in block III.

Block I of the Independent League was taken by Vets with Vets I finishing second. Rozos ended undefeated in block II and were followed by the Twisters, 4-1.

The 7 Sevens 4-1 record was tops in III, while Magaffers 3-2 was second best. An unblemished

The 7 Sevens 4-1 record was tops in III, while Magaffers 3-2 was second best. An unblemished

6-0 record owned by the Colts earned them top honors in VI. Tied for second with 3-1-2 are APCS I and CSO.

Howland and Bower finished one-two in VII with 5-0 and 4-1 standings, respectively.

The Has-Beens were the No. 1 team in block V with 4-1.

However, no runner-up team was listed.

Representing the Open League in the championship flight will be No Stars from block I and Coleoptera's from II. The second place finishers were Paperbacks and Kellogg Flakes, respectively.

Admen Not 'Hidden Persuaders', Survey of College Men Reports

"Note to Vance Packard: Michigan college men just don't dig advertising people as 'hidden persuaders,'" said Kenward L. Atkin, advertising instructor, who helped conduct a survey of Michigan College men.

"Results from a study of freshmen and junior males at Michigan State, Michigan, Alma and Albion reveal that more than two out of three look favorably upon advertising," Atkin said.

"Over all, the college men agree that advertising plays a dynamic and important role in our economy, fosters product demand, and creates jobs."

"Moreover, advertising is credited with raising the American standard of living and being an important informational medium in the market place. As a career choice, advertising rates high — ahead of such venerable professions as law, medicine, and engineering.

"On the other hand, advertising was seen by many students as somewhat dishonest, annoying at times, and immature. It is criticized for its materialism and commercialism and the effects of these forces on the quality of TV programming, price of products, and shallow social values."

"Yet, most felt that advertising and what it symbolizes is congruent with the dominant values in our culture."

These findings are a part of a preliminary report covering the first phase of a study conducted at the four schools by the Michigan Council, American Association of Advertising Agencies, under the direction of Robert Kierland, vice president

and director of marketing and research, D. P. Brother advertising agency, Detroit.

John Crawford and Kenward Atkin of the department of advertising resisted in designing the study as well as directing the MSU portion of the survey.

The study was made in an attempt to measure the collective student attitude toward advertising among younger people.

The initial survey, executed in January, was followed by an experimental stimulus consisting of twelve informational advertisements placed in the State News and the Alma Almanac to see if student attitudes can be modified.

The second survey was completed in early May. Final results of the study will be available this fall.

The 650 University men participating in the study rated advertising fourth in a field of 17 careers, with 46 per cent stating they would like it as a career. Business management 58 per cent, psychology 51 per cent, and teaching 50 per cent were the top choices.

At the bottom of the list were selling 30 per cent, accounting and journalism 29 per cent, politics 28 per cent, and retailing 24 per cent.

MSU men agreed very closely with the men in the other schools in virtually every area. The largest difference found concerned readership of college newspapers. The State News led in both the number of issues read each week and proportion of each issue read. Nearly 98 per cent of the MSU students said they read the State News "last week."

One unexpected finding was the lack of influence that college professors and high school teachers have on student attitudes toward advertising.

The study clearly shows that students discriminate between occupations and the gratifications they afford. The business executive, for instance, is seen as being responsible, successful, and civic minded. The psychologist is characterized as honest, intelligent, and thoughtful of others.

The advertising executive is considered creative, imaginative, and "Ivy League."

Atkin noted that, contrary to the "Ivy League" image held by many students, it is the big state universities of the Midwest that produce the largest number of advertising-oriented students today, not the Eastern schools. MSU now has one of the

largest enrollments in its advertising curriculum of any school in the nation.

Honors Assembly Set For Thursday

The annual Honors Convocation of the mass communications if the college of Communication Arts, will be held Thursday at 8 p.m. in the Kiva.

The Advertising department will present Aves Awards to the outstanding senior and the outstanding copywriter and announce the winner of internship with the Leo Burnett Co. and Campbell-Ewald Co., advertising agencies.

The School of Journalism will announce the winner of the annual Sigma Delta Chi award. Department of Television-Radio will announce the WLS-WLX scholarships awards, and make special honors presentations.

Selection for Kappa Tau Alpha, communication arts scholastic honorary, will be announced by Frank Senger, associated professor of advertising.

Following the presentations, Franklin Thomas, Detroit, vice president of J. Walter Thompson Co., world's largest advertising agency, will speak on "What Is the Advertising Business Really Like?"

Veterans May Sign Now for Checks

War veterans may sign up for their May and June checks now under policy PL 634 and PL 550.

Veterans should follow this schedule: I to F Tuesday, Q to Z Thursday.

HIDDEN PERSUADER—Using the services of a tape recorder, advertising instructor Kenward Atkin continues his survey of the advertising media. State News Photo by Ron Macomber.

Stop, Ye Ol' Lamp Lighters; It's Illegal on This Campus

Did you know that it is illegal for a student to fill a lamp while it is lighted? This is but one of the many outdated laws still in existence at MSU.

At the time — 1857 — there was good reason for the law, according to John N. Winburne, dean of the University College.

"Violation of this statute was sure grounds for expulsion, as MSU's first dormitory Boarding Hall located at the present site of the museum was burned to the ground because someone violated this law," he said.

Winburne, at the request of President Hannah, has been conducting research on University statutes for the purpose of making old laws more suited to the present situation on campus.

Another law states that no student may speak to kitchen help. The reason for this law was that kitchen help consisted mainly of girls who were under 20, Winburne said.

"One boy was expelled for leaning out a second-floor window talking to a girl," he added.

Winburne explained the old policy of dealing with absences from class. "Each instructor had to report excessive absences each week, and these names were read in chapel. Later, the names were posted on bulletin boards."

Cigarette butts on the floors of classrooms were no problem in the early days of MSU, since there was a law prohibiting the use of tobacco for any other purposes.

The familiar law that an exam cannot be given before regularly

scheduled is an old one. It was enacted in 1876 to prevent students from leaving school early to help with the harvest.

Health services were different from what they are today. Hospitals were erected only to isolate students to keep contagious diseases from spreading. MSU even had some serious epidemics of diphtheria and scarlet fever.

A student may be re-admitted to the University upon serving two years in the services regardless of his grades, since the time of the Spanish-American War, Winburne said.

"Executive", Book By Market Prof. To Be Published

"The Executive" by Eugene E. Jennings, professor of marketing, will be published this summer.

In his book, Jennings says that the problem of whether the autocratic, bureaucratic, or democratic view is best, but what ingredients from each of the three will make an effective executive style.

Each executive will find the combination of the three that fits the needs of his personality and his organization.

Jennings is also the author of "The Anatomy of Leadership."

Designer Says Floral Art Stated For Big Progress

Floral art stands at the threshold of its greatest advancement — that of free form, according to M.M. Benz, head of the Benz School of Floral Design in Houston, Texas.

The trend is now toward greater expression of one's self and individuality," Benz told a Federated Garden Clubs of Michigan conference last week at Kellogg Center.

Theatre Tryouts

University Theatre announces Monday that the first tryout for Summer Circle production will be held Thursday and Friday, at 7:30 p.m., in room Auditorium.

The shows to be cast "Front Page" and the new British hit "Five Finger Exercise."

Later tryouts for the remaining plays of the Summer Circle season, to be announced shortly, will also be open to anyone interested in acting or in backstage work.
