JUNIOR 500 QUEEN JUDY STELTER

U.S., Russia Announce Plan To Ease Atomic Arms Race

J. Stelter Chosen As 500 Queen

Judy Stelter, Buchanan sophomore, was chosen Junior 500 Queen at a banquet Sunday at the Lambda Chi Alpha fraternity house.

Named to her court were Jeri Pflanz, Detroit junior; Bobbi Forray, Park Ridge, Ill. sophomore; Stevie Lill, East Lansing freshman, and Jan Goines, Pontiac freshman.

The queen and her court will reign over the 17th annual Lambda Chi Alpha Junior 500 to be held at 1 p.m. on May 23. About 50 housing units will be competing for trophies.

The Junior 500 is a miniature of the Indianapolis 500.

The first Junior 500 was held in 1949 after the event was proposed by Duane Ziegler. Fraternities and housing units each entered a push cart built to meet certain qualifications.

The administration permitted the use of West Circle Drive as the race track for one hour on the day of the race.

During the past 16 years starters have included former Gov. Mennen Williams, Pete DePaulo, the first man to exceed 100 miles per hour at the Indianapolis 500, athletic director "Biggie" Munn, and football coach Duffy Daugherty.

This year the starter will be Frank Beeman, intramural director.

BLOOD DRIVE PREPARATIONS -- Beginning next Monday the annual spring ROTC blood drive will seek a new record of aid to the American Red Cross. Led by cadets of ROTC detachments, students across campus will join in the regular public service effort. Photo by Patti Prout

LBJ Says Cutback Will Maintain Power

England Expected To Endorse Move

NEW YORK (AP)--The United States and Soviet Russia Monday announced a cutback in the production of nuclear explosive materials, in an effort to ease the atomic arms race. Great Britain is expected to endorse the move.

President Johnson first revealed the plan

to a American newspaper editors in New York and told them, "We reduce tensions while maintaining all necessary power."

Shortly afterward, from Moscow, came a similar announcement in which Premier Khrush-

Laotian Leaders To Confer

SAIGON, Viet Nam (AP)--Neutralist Prince Souvanna Phouma and leaders of the right-wing military coup in Laos against him flew to a conference Monday with King Savang Vathana amid reports from U. S. diplomatic sources that the coup had collapsed.

Indications were that under strong pressure from the United States, Britain and France, and firm insistence by Gen. Phoumi Nosovan, the right-wing leader, Souvanna again would head the coalition regime that has ruled Laos uneasily the past 22 months.

But most information from Vientiane, the administrative capital, on political developments came from sketchy diplomatic reports. There was no direct confirmation that Souvanna was about to resume his job as premier.

Khrushchev Johnson

chev hailed the cutback as "an opportunity for improving mutual understanding with other states on the necessity of avoiding a nuclear war."

Washington sources described the nuclear cutback as a completely separate but parallel action on the part of the world's

(continued on page 3)

Election To Use New Procedures

A new system of balloting will be used in the re-election for All-University Student Government president and senior class secretary.

Instead of the slips of paper used in the first election, IBM-sized cards will be used. They will contain three boxes, one for each candidate and one for write-ins. To vote the student merely places an X in the box of his choice.

If the student chooses to vote for a write-in, he must put his X in the write-in box and write the name of his candidate on the line beside the box.

The ballots will be sorted, district by district, into three piles, one for each candidate and one for write-ins. The sorting will be done only by members of the elections commission.

The ballots will then be run through a counter at the Computer Center. When they are counted they will be rechecked to make sure all ballots are in the proper pile.

Write-ins will be counted by the elections commission, since a

wide selection of candidates falls into this category.

The new election is expected to be held next Tuesday, although this date must be approved by student congress.

The registration procedure will also be changed. Instead of filling out a blank requiring name, class, address, telephone number and other information, the student will just have to give his student number.

Jim Patton, Wilmette, Ill., sophomore and assistant elections commissioner, said the possibilities of using voting machines and computers had been investigated and rejected.

He said voting machines had been ruled out because of the cost, the trained personnel required and the short time before the next election.

Building Debts Paid Without Tax Dollars

MSU's outstanding debts--\$53.8 million in July, 1963--are being paid off without tax funds.

The debt, mainly attributed to new residence halls to hold more of the 38,000 students expected by 1970, is being paid back to bond holders gradually as more is borrowed.

Self-liquidating bonds, even at the current 2.25 to 3.75 per cent interest rates, are being retired regularly by use of an accelerated financing plan, said Merrill R. Pierson, assistant treasurer of the University.

The plan, which went into operation in the 1930s with the construction of Mary Mayo Hall, has kept the University in debt ever since to meet the demand for student housing and other student services.

Over \$32 million has been borrowed in the past three years for student housing alone.

Bonds have always been paid on time.

The size and number of facilities available today, compared

for example to Morrill Hall, show some of the reasoning behind the decision to continue the program. Morrill Hall, built in 1900, once had living facilities for women students, in addition to classrooms.

Due to better equipment and rising costs of material and labor, halls such as Wonders, Fr

(continued on page 4)

Plane Incident Scares Lady Bird

CLEVELAND (AP)--Mrs. Lyndon B. Johnson admitted she was frightened like everyone else when lightning struck a commercial plane which brought her here from Washington Monday.

The explosion-like report and blue-white flash jolted 40 passengers aboard the United Air Lines four-engine, jet-prop Viscount, but caused only minor damage and no injuries.

Johnson Thinks So

Rail Rift Closing?

WASHINGTON (AP)--President Johnson was described by a high source Monday as optimistic for settlement of the railroad crisis following reported tentative agreement on about a dozen issues.

The report from a highly reliable source who could not be quoted by name came after an earlier White House announcement that "some definite gains"

Abbot Coeds Resent Male Take-Over

Most coeds in Abbot Hall are reluctant to turn their dormitory over to the men next year.

"We're very mad," Barbara Friedmann, Detroit freshman, said, Monday. "I sat for three hours in the Mason lounge waiting to sign up for a room. If we apply at Phillips we can't get anything but third floor rooms."

Mary Ann Steger, Chelsea junior, said she and her friends had planned on moving to an apartment long before the announcement was made, but they would have been disappointed if they had planned on staying.

"I don't like coed living," she said. Pat Wilson, Detroit freshman, said she had just registered at

(continued on page 4)

Summer Term Schedules Ready

Summer term time schedules are now available in 106 Administration.

Summer term registration is June 22-23 for the full term and for the first half-term sections. The first half-term ends July 29.

Registration for the second half-term is July 29, with the first day of classes beginning July 30. Final examinations for the full term and the second half-term are Aug. 29 through Sept. 4.

had been made in efforts to avert a nationwide strike next Saturday.

The White House statement by Press Secretary George Reedy cautioned "there are some very difficult issues that still remain" in the long dispute over wages, jobs and working conditions.

The talks are in the eleventh day since Johnson won a 15-day strike postponement April 9.

It was learned from another source that one key issue on which tentative agreement has been reached involves union acceptance of a mileage change in wage structure.

This source, emphasizing that the tentative agreement "still depends on final and complete settlement" of all issues, said the mileage issue has ceased to be a problem at this point in the talks.

The mileage issue involves the railroads' dissatisfaction with the present wage structure under which they say some workers can receive a full day's pay

for as little as a 100-mile train run.

It was reported that tentative agreement on this issue paved the way for potential gains on others.

The White House has described the talks as centering on eight main categories--four major proposals by negotiators for nearly 200 railroads and four counter-proposals by the five unions involved.

Service Honorary Petitions Ready

Petitions for membership in Blue Key, national junior and senior men's service honorary, are available at the Union desk and at 101 Student Services.

Petitioning will take place from Wednesday until April 29. New members will be selected May 3. A formal dinner will be given May 14, from 5:30 to 7:30 p.m.

World News at a Glance

Moscow Seen Turning Toward West

NEW YORK (AP)--Britain's foreign secretary sees Soviet-Chinese rivalry turning Moscow toward the West, and France's foreign minister describes President Charles De Gaulle's Asian and Latin American policies as essentially anti-Communist.

The two offered their views on a wide range of world affairs in interviews screened especially in London and Paris for presentation at the annual meeting of the Associated Press Monday.

U.S. Planes To Remain Over Cuba

WASHINGTON (AP)--The United States served notice Monday that its planes will continue to fly over Cuba. It warned Castro that use of any newly acquired Soviet missiles against these aircraft would create "a highly dangerous situation."

The public warning was issued by the State Department as high officials expressed concern about what may happen if and when Prime Minister Fidel Castro gets control of advanced anti-aircraft rockets previously Russian-manned.

Fair Stall-In Forbidden

NEW YORK (UPI)--Leaders of the Brooklyn, Bronx and Manhattan chapters of COPE were enjoined by court order against staging a stall-in demonstration at the opening of the New York World's Fair Wednesday. The demonstrators are threatening to tie up all traffic leading to the fair grounds.

ALPHA XI DELTA TRIKE TEAM--Karen Kizer, Howell senior, and Joan Westerkamp, Huntington Woods senior, do a few minor repairs on their sorority tricycle in anticipation of May 8-10 Greek Week. Tickets are on sale in 307 A Student Services. See story p. 3. Photo by Larry Fritzman.

Dead Fish Line Red Cedar

There's something fishy along the Red Cedar River these days.

The fish don't seem to like the water any more. They would rather die than stay. And many of them are.

Fish, totaling into the hundreds and ranging from tiny varieties to two-foot long carp, rimmed parts of the Red Cedar River and lined stretches of its banks.

The highest concentration of dead or dying fish was in the river west of Kellogg Center.

Two maintenance men, pitchforks and pails in hand, were picking up the fish along the bank west of the Computer Center.

No official explanation was

available from University experts.

Walter M. Mallman, professor of microbiology and public health, discounted pesticides as the cause of death.

"I doubt very much if the pesticides had any real ef-

fect on the fish," he said. "There has been very little rain recently and as a result very little drainage into the river."

"I'm surprised that the carp are dying. They need very little oxygen. In fact, they can live in sewage."

'Drifters' Appearance To Be Greek Weekend Highlight

The Drifters, recorders of such hits as "A Rose in Spanish Harlem," "Save the Last Dance for Me," and "Up On the Roof," will be the featured attraction of

the eighth annual Greek Weekend, May 8 to 10. They will entertain fraternity and sorority affiliates and their guests Saturday at the Greek

Arms Cutback

(continued from page 1)
two foremost atomic powers. No deal was involved, these sources added.
Johnson flew here from Washington to address the annual Waldorf Astoria Hotel luncheon of the Associated Press. He told 1,700 publishers and their guests, a record attendance.
"I have ordered a further substantial reduction in our production of enriched uranium, to be carried out over a four-year period. When added to previous reductions, this will mean an over-all decrease in the production of plutonium by 20 per cent, and of enriched uranium by 40 per cent.
"By bringing production in line with need, we reduce tensions while maintaining all necessary power."

Johnson told the editors he expected similar action by Moscow—and this was forthcoming with the Soviet announcement of what it called a substantial cutback, including a halt to construction of two big new atomic reactors.
A TASS news agency announcement said: "On behalf of the Soviet government, Nikita Khrushchev stated that an opportunity for improving mutual understanding with other states on the necessity of avoiding a nuclear war had now arisen in connection with the question of the manufacture of fissionable materials for nuclear weapons."
Besides the United States, Russia and Britain, the world's only other nuclear producer is France.

Campus Briefs

Rush Opens For Cooperative Houses

Intercooperative Council, coordinating unit of MSU's eight men's cooperative living units, will hold spring term open rush today and Wednesday, at 8 p.m.
Houses open for rush today are: Beal, Elsworth, Montie and Motts. Wednesday: Bower, Hedrick, Howland and Ulrey.
Co-ops are non-profit organizations owned and operated by members who work four to six hours each week under the guidance of house officers and a specially appointed rules committee. Members cook, clean, wash dishes, etc.
Each house has a full athletic and social program. Co-op grade-point averages usually are above the all-University average.
The cost of living in a co-op ranges from \$155 to \$170 a term for room and board.

'Uses Of Computers'

"Uses of Computers in Functional Engineering" will be discussed by John L. Lewis, manager of the computer center of The Babcock and Wilcox Co. at 7:30 tonight.
He will talk before the MSU section of the American Society of Mechanical Engineers in East Lansing.

'Cybernetic Warfare'

The Conservative Club will present a tape recording on "Cybernetic Warfare" by Herbert Philbrick at 8 tonight in 34 Union.
A discussion, led by representatives from the Lansing Patriotic Society, will follow.

Economics Faculty-Graduate Colloquium at 3 p.m. today in 33 Union.

Chemistry

E. R. Van Artsdalen, head of the University of Virginia's chemistry department, will speak on "Chemistry and Fused Salts" in 122 Kedzie at 8 tonight.

Talk On Hiring

Two local employers will speak on hiring personnel at 7:30 tonight in Student Services lounge.
The talk is sponsored by Pi Omega Pi, national business education honorary. A question and answer period and refreshments will follow.
The meeting is open.

- Block and Bridle--7:30 p.m., Anthony Hall.

Enrollment Falls 70 Per Cent

ROTC Program Suffers Drop

Enrollment in ROTC has dropped about 70 per cent since the voluntary program went into effect in 1962, but officials here are not worrying.
Since 1962 freshman and sophomore men have not been required to take ROTC. The Board of Trustees, when adopting the voluntary program, indicated that it would review its decision after fall term 1965.
"It is true that ROTC enrollments have fallen off considerably," said William H. Combs, chairman of the Academic Senate's ROTC study committee. "There are about 1,400 or 1,500 enrolled in the Army and Air Force programs compared to about 4,000 before."
Enrollments in ROTC at Iowa State, Wisconsin and UCLA dropped from 60 to 80 per cent when those schools adopted a program similar to MSU's.
"Michigan State has followed the trends set at these other schools," Combs added.
Col. James F. Skells, military science chairman, said he is not worried about the present rate of sophomores going into the advanced program for juniors and seniors.
"I believe we will get just as many juniors as before the voluntary program went into effect," he said. "In previous years we have commissioned less than the 145 we expect to commission this term."
He indicated his department will not be able to announce accurate figures until this year's sophomores are commissioned.
He predicted, however, that of the 130 sophomores now applying for the advanced program, some 100 will be accepted.
The one bright spot is that while numbers have declined, the quality has gone up. About 40 per cent of the students now in the military science program have either received a scholarship or some other honor while attending MSU.
"The Army needs all the officers that ROTC can produce," he said.
"About 15,000 are required each year, with only about 500 coming from West Point."
"About 1,000 distinguished military graduates from ROTC receive direct commissions into the Army each year."
"This means that 13,500 officers must be produced through the ROTC reserve program or through the Army's Officer Candidate School (OCS)."
Of those ROTC graduates going into the Army, about 35 per cent stay longer than their obligation of two years, he added.
The Army also has a program in which an ROTC Reserve officer is called to active service for six months, but this program will not be in effect until 1966.

Food Science Lecture Today

Arnold Van Krevel of Massachusetts Institute of Technology will speak on "Physical-Chemical Problems of Lactose Crystallization" at 4 p.m. today in 10 Anthony Hall. His is the first of four guest lectures sponsored this term by the department of food science graduate seminar series.
E. A. Day of Oregon State University will speak on "Flavor Chemistry of Dairy Products," on April 28.
F. A. Kummennov, University of Illinois, will speak May 12 on "Relationship Between Fats and Various Degenerative Diseases."
J. R. Whitaker of the University of California will complete the series June 2, speaking on "New Methods of Protein Separation."

Carny Petitions

Petitions for the chairmanship of the 1965 Water Carnival will be available in 315 Student Services Wednesday through Monday from 3 to 5 p.m.
Senior Council will select the chairman for the May, 1965 event.

Soph Takes First In Meat Judging

A general agriculture student finished first in individual meat judging and the MSU team placed second in competition with nine other schools at the Southeastern Judging Contest Saturday at the University of Tennessee, Knoxville.

Virgil Worley, Osseo sophomore, achieved his overall first place with individual seconds in the beef grading and pork judging categories and first in beef judging.

The three-man team, consisting of Worley, Maurice Bennick, Coopersville sophomore, and John Fischer, Gaytown sophomore, placed first in the lamb judging division, second in lamb

No Sign Of Sign Is Seen

Alpha Phi Alpha fraternity reported Monday that its newly-installed sign has been taken. Members believe the sign was taken Monday between midnight and 1 a.m. They do not attribute the act to their pledges.

The sign, made of mahogany with gold lettering, contained the fraternity and chapter name and was displayed outside the chapter house at 1604 East Grand River Avenue.

The fraternity asks that the sign be returned.

'U.S.A.' Shows Kaleidoscopic Cross Section Of An Era

Red, white and blue banner headlines will flash across the Arena stage this week, blazing a path through thirty years of American life.

The Performing Arts Company's production of "U.S.A." will open Wednesday and run through Saturday. Mariam Duckwall, instructor in speech, has staged the Paul Shyre adaptation of John Dos Passos' famous trilogy of The 42nd Parallel, 1919, and The Big Money.

"U.S.A." is a kaleidoscopic cross section of representative forms of American life from the turn of the century until the depression years.

"The play is a living record of an era," Mrs. Duckwall said.

"Dos Passos has interwoven bits of newsreels, snatches of popular songs, brief headlines, and glimpses of the lives and fortunes of Americans into a rough cloth whose texture captures the restless energy of a great country."

Peter Landry, Ironwood senior, will play Moorehouse, a young man whose ambition is to become a songwriter, but whose determination to get ahead leads him into public relations.

His story includes courtship and eventual marriage to a wealthy young lady, Paris during the First World War, a love affair, and it ends in Great Neck, where he suffers a fatal coronary, baffled and obscurely defeated by life.

This excursion into the past includes nostalgic glimpses of people whose sole connection with the hero is the era they shared—people such as Eugene V. Debs, the Wright brothers, and Isadora Duncan.

The five other players in the

U.S.A. IN ARENA -- Eleanor Leinweaver, Houston graduate student, and Peter Landry, Ironwood senior, complete a scene from the upcoming Arena Theatre production of "U.S.A." opening Wednesday.

cast are Anthony Heald, Masapequa Park, N.Y. sophomore; Vicki Jean Sanchez, Wakefield, freshman; Dick Williams, Royal Oak sophomore; Mary Ellen Finucan, Lansing junior; and Eleanor Leinweaver, Houston, Tex., graduate student.

"In 'U.S.A.,' America emerges as a country of unbounded innocence, idealism, and energy chewed and ground to death by some monstrous machine invented by an idiot genius for exhibition in a universal Luna Park," Harold Clurman said.

Israeli Nation Marks 16th Anniversary

On April 17, the people of Israel celebrated the sixteenth birthday of another year of rapid, continued growth in almost every respect except area. Its population has grown to nearly 2.5 million.

Israel's economic growth rate is one of the highest in the world, exceeding those of Japan and West Germany. Industrial production in 1963 totaled \$1.4 billion. Exports that year amounted to \$600 million.

Israel can proudly point to its ocean-going fleet of over 40 modern cargo and passenger ships; to its efficient airline, one of the finest in the world; to its two top-rated universities—the Technion (2,500 students) in Haifa, and the Hebrew University (8,000 students) in Jerusalem; to an outstanding health insurance system and excellent doctors, nurses and hospital facilities; to a fine defense system; and to two atomic reactors.

Israel has its troubles, too. Probably the toughest and most persistent problems stem from the constant threats of annihilation by her Arab neighbors, who have never ceased to maintain a state of belligerence toward her.

Radio Show Blasts Red Hunt

A radio play which aims barbed satire at the late Sen. Joseph McCarthy of Wisconsin will be broadcast at 8 tonight in Union Parlor C.

"The Investigator," originally presented May 30, 1954, is pointedly critical of McCarthy's attempts to uncover Communists in nearly every area of American society. The Wisconsin senator's investigations lasted nearly four years.

Wednesday marks the tenth anniversary of the opening of the Army-McCarthy hearings, which led to public humiliation for McCarthy and formal censure by the Senate.

It was against the background of these hearings that "The Investigator" was produced by the Canadian Broadcasting Company. Arthur Weld, associate professor of TV-radio, said the program was not broadcast to U.S. residents.

The record was sold for a time on a "black market" under the counter basis and was channeled through regular outlets after the hearings ended.

The bitterness of the hearings reflected McCarthy's controversial status. He was accused by the Army of attempting to obtain favored treatment for a draft and personal friend, G. David Schine.

McCarthy struck back with the

Air Satire On Sen. McCarthy

charge that Army officials were trying to muzzle his investigation of Communist infiltration into their ranks.

The American public was divided in its opinion of McCarthy. Many regarded him as a political demagogue who was attempting to gain political power through a Communist witch-hunt.

Frat Convention Trains Officers

Alpha Gamma Rho fraternity held an officer training convention last weekend for delegates from chapters in the Great Lakes areas.

Speakers included Eldon Nonnemaker, assistant dean of students, William Gillis, chairman of the anti-taxation committee, and A. David Phendler, second national vice president.

Visiting officers represented nine of the 42 fraternity chapters. The conference was part of a national program designed to maintain unity among the chapters and to give officers and members an opportunity to benefit from each other's experiences.

Placement Bureau

Students must register at least two days before date of interview.

Friday, April 24

Armada Public Schools: elementary education, high school chemistry-physics, math,

English, biology-general science, special education M/F.

'Niners' Seek Thirteenth

Michigan State's baseball squad (12-3) attempts to extend its five-game winning streak against the University of Detroit in the Motor City this afternoon.

It will be the last game before the Big Ten season starts at Northwestern Friday for Coach Danny Litwhiler's Spartans. It

is the most important diamond encounter to date for the Green and White.

Litwhiler announced Monday that he would not make any changes in the Spartan lineup and has named left hander Bill Collins (2-2) to be the starting pitcher.

Titan Coach Lloyd Brazil, who

last year piloted a 15-9 club, is a bit pessimistic about this season's chances even though the club has rolled to a perfect 4-0 mark this spring.

"We have a young team," he said. "They're a good team--but too new to be improved over last year."

Several bright spots in the Detroit lineup indicated that Brazil's prediction may be false. Don Deptula, a .349 hitter last year as a third baseman, will be working at shortstop and his identical twin Dennis is the top prospect for the second base slot. First baseman Cliff Rothrock is also back.

Ricca Zuccaro, fleet center fielder who hit .309 last spring, will anchor a youthful outfield while senior captain John Hoyer holds down the catching job.

Detroit's mound staff is in good shape with Arnie Jent, 4-2 last season, being joined by sophomore southpaws Bill Stanforth and Mark Ottenbreit.

The Titans also have capable bench strength with versatile first year men Dick Rashid, Tom Siedlaczek and Tom Engel the leading substitutes.

Brazil will go with left hander Stanforth against the Spartans. The talented sophomore is 1-0 this season following a flawless ten inning stint in which he allowed only four hits and no runs, while striking out six for an earned run average of 0.00. Game time is 3:30 p.m. at Titan Field.

The NEWS In SPORTS

New Grid Substitution Rule Making Coach's Life Happy

By RICHARD SCHWARTZ
State News Sports Writer

A Spartan football coach with an optimistic outlook?

Yes, it can happen and it has. Only hitch is it's defensive backfield Coach Vince Carillot talking about his phase of the game.

"The main difference between last year and this year is that you have rookies pushing experience, instead of experience pushing experience," Carillot said. "And since a certain number of rookies must be cut, this makes for a fine competitive situation."

Although every position is up

for grabs according to Carillot, the main contenders for starting roles figure to be Don Japinga, Captain Charlie Migyanka, Lou Bobich and Herman Johnson.

Sophomores bidding for positions include John Gorman, Jerry Jones, Jim Summers, Phil Hoag, Steve Yarian and Jim Hornburger.

"From this list of sophomores and lettermen we must boil things down to two four-man units," Carillot explained. "I don't think I have to say anything about those who played last year, except that there'll have to work that much harder this season if we are going to get the same fine results."

"All the sophomores have shown good potential," he added. "Everyone of the kids you see working out there is going to help us some day. Some, I hope, next year."

Carillot feels it takes an "unusual breed" of football player to succeed as a defensive back. He reasons this way:

"The linemen have linebackers. The linebackers have the secondary. But the secondary has nobody."

"One mistake made by anyone on the secondary is fatal," he said. "Whereas up front you can get away with some things unnoticed."

The last few seasons Carillot's

chores were complicated by a substitution rule limiting the interchange of players. This meant that every player in the backfield had to be equally versed in both offensive and defensive techniques.

He feels that the new rule which is almost a reversion to the days of unlimited substitution will allow a player to better concentrate on the mastery of one set of skills.

"You could almost say it is an assistant coach's dream," Carillot said. "For once you can take a guy and work with him all the time instead of having him one minute and not the next."

Gymnast Does Well

Freshman gymnast Ron Aure tied for third place in the floor exercise competition during last weekend's United States Gymnastic Federation Championships at Iowa City.

Aure trailed Southern Illinois' National Champion Rusty Mitchell and Big Ten Champ George Hery, from Iowa, in the exercise event.

Aure, the only Spartan entered in the meet, took fifth in the long horse and tied for fifth in tumbling.
