M. S. C. HOST TO BOY SCOUTS AT ANNUAL RALLY

College Athletic Association Will Entertain for 11th Yearly Celebration.

WILL WITNESS GAME

Officials to Review Parade of Troops From Platform Between Halves.

With the prospect of over 700 Boy Scouts invading the campus of Michigan State college on Saturday, September 29, for the 11th annual Boy Scout Day, Coach Ralph H. Young, director of athletics, and his staff have been rapidly completing plans for their entertainment here.

This enormous gathering will be composed of scouts, scoutmasters and scout executives representing some 100 counties of the lower peninsula. They will be the guests of the college athletic department throughout the day, and following tours of the campus, the entire cavalcade will be admitted to the opening game on the Spartan's extensive 1934 football schedule, between Grinnell College and Michigan State. Between halves of the game, the scouts will stage their annual parade around the center track inside the stadium, each troop displaying their American flag and individual troop colors.

Besides admitting the scouts to the game gratis, the athletic department has also invited the entire school population of East Lansing and Lansing to be their guests on Saturday.

Encamp on Friday

Activities for the scouts will begin on Friday afternoon when the camps which compose the Chief Moseley council encamp upon the large freshman football field for their 6th annual Camp-on-a-Hill. In this council are 100 troops from Lansing and surrounding towns, and will be hosts to visiting troops from outside of the local territory. The rally will be along the usual route, with contests in wall scaling, staff throwing, fire-by-friction, first aid, signaling and knotting. Tents will be pitched on the football field, and the members of the Okemos council will set up and sleep there during Friday and Saturday.

Registration will be carried on in the main hall of the gymnasium from eight a. m. until noon Saturday, and at the same time, judges will conduct tours of the college which will include a general inspection of the campus, a trip through the college barns and showing of the prize livestock kept there, a tour of the college museum, the R. E. Olds Hall of engineering, and the State Police barracks and short wave broadcasting station.

From 12:45 until 1:45 the scouts will enter the stadium through gate 25, and will sit in a body to witness the game. In the line of march between halves will also be included, bands and drum and bugle corps representing the various cities and towns.

Officials Will Review

A reviewing stand has been erected on the 50 yard line of the field on the side of the college and Scouts who will witness the parade. Present upon the stand will be Pres. Robert S. Shaw of Michigan State College; Paul A. Marshall, president of the Chief Okemos council; Clarence Neitz, local scout executive; Lt. Col. Dorsey H. Rodney, U. S. A., commander of the college unit of the Reserve Officers' Training Corps; and Prof. Arthur J. Clark, head of the college chemistry department, and chairman of the college athletic council.

Members of the athletic department who have been designated as assisting officials for the day are: Leon D. Burhans, general chairman; Russell B. Daubert, in charge of stadium seating and director of the parade between halves; Fendley B. Collins, director of campus tours; and Thomas M. Aycock, in charge of registration.

LIST ORDER OF TROOPS—80
The line of parade will consist of 10 units. The second unit had been reserved for the Grand Rapids Scout Band, with Paul Nastenbrook in charge, but Thursday morning word was received that the Kent county boys could not attend. Therefore, their place in the parade will be taken by Eastern high school's band of Lansing. This musical unit will also play a concert from 1 o'clock until 2 o'clock on page 2.

Assumes Duties As Y Men's Secretary

MAY APPOINTED Y. M. DIRECTOR

Former Student Takes Over Duties to Succeed Norman Kunkel.

Rollo May, former M. S. C. student, was appointed director of the Michigan State College Y. M. C. A. this summer to take the place of Rev. Norman Kunkel, who was here five years and is now assisting in the federal relief work in Kent county. Mr. May's position is director of men students and secretary of the Michigan State Y. M. C. A.

When May attended Michigan State college, which was in 1926-7, he was on the Michigan State News staff, in the band, and active in church work. In addition to going to college here, May attended Oberlin college for two years and this past year studied philosophy of religion at Union Theological seminary, New York. From 1930 to '33, May was abroad most of the time. In 1930 he taught English in an American college at Saloniki, Greece. For 15 months May traveled in Turkey, northern Africa, and most of Europe. Two summers were spent in Austria, Hungary, Czechoslovakia and Poland in Alfred Adler's inter-school art.

The coming of May represents a new policy in the department of student work. He has had a great deal of experience with students and will meet them on their own level. May is in charge of the student employment bureau and has already had 55 personal interviews this fall and has placed 34 students.

May is secretary of the Michigan State College Y. M. C. A., which is open to all men students. Membership is on the basis of interest and participation and no membership fee will be charged. The program of the Y. M. C. A. will be work out of the interest and ideas of the students. Plans are being made by the Y. M. C. A. to pay visits within the next few weeks to new students in order to render any assistance to the newcomers and make them feel at home. In addition to this, the Frosh council meets every Monday night to discuss questions and problems which are of interest and concern to new students.

STATE ALUMNI TO MEET WITH M. E. A.

Two Groups to Convene in Petoskey Early in November.

Meeting in conjunction with the Michigan Educational Association, the M. S. C. alumni will convene in Petoskey Thursday evening, Nov. 4. Among the speakers at the meeting will be B. A. Walpole of the educational department and R. V. Dunn of the economics extension.

Glen O. Stewart, secretary of the Michigan State college Alumni association, is at present en route to Washington, D. C., to attend a meeting of the board of directors of the American Alumni Council. Mr. Stewart, secretary of this organization composed of all alumni secretaries in the United States, is accompanied by Miss Gladys Frank, recorder of the group.

The M. S. C. Record, official publication of the alumni, will be issued about Saturday, Sept. 29. The cover, formerly permanent, will now be changed each issue. The editors will attempt to show a new scene of the college every edition.

FROSH ENDORSE BLUE KEY PLAN ON POT SELLING

Class of '38 Favor Pot Transactions on Non-Profit Basis.

PRICE SET AT 35 CENTS

Pots to be on Sale at Wells; Military Department Orders Use.

Taking their own business into their own hands, the class of '38 showed a progressive spirit unique among first year students when over 75 of them met yesterday.

BULLETIN

Owing to administrative action late this morning, the plan of the freshman pots being purchased from the funds of the yearling class was necessarily abolished.

Immediately upon the dropping of this arrangement, however, Walter Eissler, president of Blue Key, received permission from the treasurer's office to secure the pots for the freshmen. An order was telephoned to Grand Rapids this noon by Eissler, and the caps will be here early next week. The plan of selling will continue at Wells Hall exactly as outlined, except that Blue Key will be the agent. The cost will remain the same.

afternoon and decided to appropriate funds from their treasury to buy pots which will be sold to their fellow classmates at cost price, 35 cents.

Held under the direction of Blue Key, junior men's service honorary, the meeting was featured by enthusiastic advocacy and weak disparagement of the suggestion of Walter Eissler, Blue Key president, that the freshmen, as long as they will be required to wear pots, buy them with their own money and effect a saving of over 50% on each cap.

Pledge Cooperation

Most of the speakers pledged whole-hearted cooperation to the present movement by campus leaders. (Continued on page 3)

HONOR SOCIETY WILL HOLD TEA

Tower Guard to Entertain Local Co-eds at Mary Mayo Sunday.

Tower Guard will give a tea Sunday afternoon for all the Lansing and East Lansing girls entering Michigan State this fall. The tea will be given in the parlor of East Mary Mayo hall from 3 until 5 o'clock.

This is the second year for the "town girls' tea," and it is hoped that the affair will become as much a tradition for the town girls as the "Here we come—Where from" pajama parties are for the girls in the dormitories. Few of the Lansing and East Lansing girls have a chance to meet each other through the pajama parties, and the Tower Guard each year gives this tea as an opportunity for the town girls to get acquainted.

Helen Amerman as president of Tower Guard is in charge of the tea, and her committees are: General arrangements, Margaret Hotchin and Kathleen Woodlock; invitations, Betty Lou Zeigler and Virginia Thomas; contact, Marilyn Radford and Johanna Sandham; refreshments, Agnes Rodney and Jane Shaw.

The tea is given not only to acquaint the girls with each other, but to acquaint the girls with the Tower Guard society. Tower Guard is an honorary for sophomore women having the qualifications of good character, high scholarship and potential leadership service to the college. Freshman girls are eligible for Tower Guard during spring term, and are tapped at a band concert. The Tower Guard pin is a gold replica of Beausport tower, the society colors are brick-red and cream, and their flower is the tallman rose. Honorary members of Tower Guard are Mrs. B. S. Shaw, Dean Ellenboth Conrad and Dean Marie Dye. Bonus Miss Mary Waller is not of Michigan State this year, Tower Guard is temporarily without an advisor.

Pots Mean School Spirit In Opinions of Students

All Agree That Old Tradition Makes for Class Unity

The Inquiring Reporter, wondering how the freshmen would take to rigid enforcement of pot-wearing, asked various students the following question: "What do you think will be the outcome of the present drive for greater school spirit among the freshmen?" He received these answers:

Harry M. Wismer, '37: My opinion is that the old traditions will be restored and that it will subsequently result in a finer institution backed up by a greater football team.

Sam Ketchman, '37: I believe that if the freshmen revive the school spirit it will help present a peppier body at all of our student functions.

Wallace Clark, '36: This drive should increase school spirit not only among the frosh, but in the entire student body.

Fred Middleton, '38: In my opinion the school spirit which once prevailed at State will be renewed, the Spartan athletic teams will benefit greatly by this new spirit, and I am certain that the freshmen are going to give 100 per cent cooperation in this move.

Angelia Rodney, '35: If carried out in the proper manner it should create a greater school spirit in the entire school.

Jack Warner, '36: This drive should put a lot of spirit into the entire student body. For the first time in years we might have a little support and backing for the sports.

N. H. VanDyke, '36: This drive should result in more school spirit if there is such a thing and if it is carried through in the proper manner.

Nonie Smith, '37: This action, by uniting the frosh, will make for stronger upper classes in the future.

Bill Betts, '35: I am sure that this drive will snap the frosh out of the attitude that they're downtrodden and abused.

Bill Stephenson, '36: The outcome should be a still more democratic spirit on a campus already noted for that quality.

Larry Hutchinson, '36: I believe the present drive for great school spirit among the freshmen will result in greater cooperation not only in regard to the freshman class, but also will lend greater significance to the meaning of the word spirit among the student body as a whole.

William Macaulay, '35: There won't be any outcome.

WAA RELEASES FALL PROGRAM

Fourteen Major Sports Are Offered for Co-ed Athletes.

Following the plan carried out by the Women's Athletic association every year, a large variety of sports are offered to all girls wishing to participate. Two hours are set aside every afternoon from 4 until 6 o'clock for the sports program. During this time instruction is given to those unacquainted with the sport in which they are entered and advanced work is provided for the others. In this way any girl may take part in any sport in which she is interested whether she has had previous instruction or not.

The Women's Athletic association, which is in connection with the women's physical education department has as its president Elizabeth Johnson. The other members of the executive board are Marian Tobey, vice president; Bonnie Croshaw, secretary; and Marian Andros, treasurer. As faculty advisors are the following: Miss Dorothy J. Parker, advisor of interclass sports; Miss Josephine Garvin, Green Splash and swimming; Miss Anne L. Kuehl, Orchestras; and Miss Elizabeth Daniels, in charge of intramural sports.

Although any girl may take part in W. A. A. sports, membership in the organization is not attained until 100 points have been earned in the various sports offered and providing that a C average is maintained in academic subjects. These points are awarded as follows: 100 points for team membership on the first team, or as an officer on the executive board of the organization; 50 points for membership on a second team or the holding of a position as manager of some sport; 25 points for the completion of the required number of practices in the sport, or participation in various events offered, such as the annual overnight canoe trip and cross-country hike.

The sports offered by W. A. A. are classified into major and minor or individual sports. No one is allowed to carry more than two major sports a term, and no girl with less than a C average may carry more than one. The sports classified as major are hockey, soccer, track, swimming, fencing, basketball, baseball, bowling, volleyball, archery, rifle, dancing and golf and tennis. Those in the individual classes are hiking, roller or ice skating, canoeing and riding.

Rules and notices concerning the various sports will be posted on the bulletin board in the gym.

FERA PROGRAM COMPLETE FOR ENSUING TERM

Local Administration Headed by Daniels, Crowe, and Mitchell.

HELP 12% OF STUDENTS

Several Employment Applicants Succeed in Finding Positions on Campus.

With its student quota now complete and practically all available jobs filled, the Michigan State college F. E. R. A. program is rapidly being whipped into shape for the coming school year.

The local section of the administration, designated as the division of part time jobs for college students, is headed by a faculty committee of three, Miss Elizabeth Daniels, women's physical education department; Professor S. E. Crowe of the mathematics department; and Professor F. Mitchell, education department, who is the chairman. Appointed by President Shay, these members have been working through the summer months and have succeeded in finding positions for all employment applicants.

The number of students eligible for F. E. R. A. is computed upon the total number of student enrollment in college on the date of October 7, 1933, of that total twelve per cent are allowed federal help. From that basis the local institution is able to provide for 308 self help positions. Federal regulations also stipulate that previous student funds acquired by a college for part time employment must be used along with the additional federal administration funds.

In order to be aided by F. E. R. A. money a student must prove by a signed affidavit that he needs the employment so as to remain in school. Preference is given to freshmen and students who have remained out of college for at least a year, one-half of the total amount of jobs being divided among them, with the other half going to the remaining three classes.

In the selection of appointments (Continued on page 3)

SOPH VIGILANCE GROUP FORMED

Student Council Approves Appointment of New Cheer Leader.

The all-important question of developing school spirit was the basis of discussion at the first meeting of the student council last Tuesday evening. Members spoke on the revival of old traditions on the campus, and ideas for carrying out the plan were submitted, one of them being suggested by Elton Mollett for the formation of a sophomore vigilance committee.

Under this system, which Mollett points out has proved very effective at Brown university, a committee of about 20 sophomores whose names are to be kept secret, will be named to serve as a check on the freshman class. Each week the committee will submit the names of all frosh who fail to comply with traditions, especially the wearing of pots, and the student council will take action on the enforcement of the rules. The names of the lax ones will be published weekly in the Michigan State News. President Armstrong named Harry Wismer, president of the sophomore class, to be responsible for the appointment of the committee.

The possibility of reviving the old tradition which requires all sophomore men to wear hats was discussed. It was also decided to postpone plans for pep meetings for football games until the next meeting.

Inasmuch as Wesley Hurd, present head cheer leader, is ineligible for the post, the council approved the appointment of Carlton Spencer, veteran at the job, to fill the vacancy. A letter from the Interfraternity council endorsing the wearing of pots was accepted. Present members of the council are: Bob Armstrong, Charles Kelley, Paul Kindig, Tom Otley, Otto Pongrace, Charles Palmer, and Douglas Craig, seniors; Elton Mollett, James Lewis, Fred Zeigel, juniors; and Harry Wismer, and Jim Williams, sophomores. (Continued on page 2)

Spartans to Tangle With Grinnell in Opener Tomorrow

Pioneers to Present Veteran Eleven for Curtain Raiser; Injuries Already Mar Spartan Squad as Suicide Schedule Gets Under Way.

By TOMMY WARNER

Coach Charles W. Bachman's 1934 grid machine will blast the lid off the present season at 2:00 p. m. tomorrow when they tangle with the veteran eleven from Grinnell college. The season this year promises to be a dramatic one, both from the benefits of sweeping rule changes regarding passes and also because, locally, the team will be a gambling one; winning or losing its games through spectacular offensive work.

After opening with Grinnell the Spartans will swing into the toughest and longest football campaign of recent history, locking horns with teams which may prove to be the leaders of their section of the country. Michigan, Carnegie Tech, Manhattan, Syracuse, Kansas, University of Detroit, Marquette and Texas are the teams which will battle it out with the Spartans before the season closes.

Grinnell will bring a team here composed of nine veterans and two sophomores who beat out veterans for their positions. The line will average 186 pounds and the backfield 165 pounds per man, and has several others from the squad which made State work to take them 14 to a last year. This is also Grinnell's opener, but despite filtering out from their camp indicates that they have a heavy, well-balanced team with some clever and shifty backs.

Boys Scouts Are Guests

The college also plays host to the Boy Scouts of the state and there will be a crowd of some 7,000 composed of scouts and Lansing and East Lansing school children who will be guests of the athletic department for this game. They will be gathered in the east stands and the scouts will put on a parade during the half.

After the usual warm ups of the Spartan and Pioneer teams at 1:30, the college military band will take the field under the direction of Leonard Falcone. The band has a new military advisor this year in the person of Capt. H. J. Golightly of the military department.

While there is the usual uncertainty of the opening game lineup, State will probably start Klewicki and Zarza at ends, Reaveley and Zindel at tackles, Gilliland and Wagner at guards, Vanderberg at center, Reynolds at halves, and McCarty at fullback. These boys have shown the most consistent improvement during the pre-season training and are the most logical selections for the starting lineup.

Grinnell will have Anderson and Phelps, two veterans, at ends, Morgan and Graves at tackles, the former playing a stellar game in the same position against State last year and the latter one of the sophomore replacements. Sutton and Meeter at guards, both veterans although Meeter was at the pivot post last year against State, Fowler at center, one of the new sophomores, Kinney, an ace passer and very good punt receiver at quarter, Clark and Bradley at halfbacks, Bradley being the only Michigan man on the squad, hauling from Harbor Springs and also a full blooded Cherokee Indian, and Fini at fullback.

Grinnell Dangerous This Year

The Grinnell squad, composed of the first team and 11 reserves, will leave Grinnell Friday morning and plan to spend that night in Jackson. They will arrive in Lansing about noon Saturday. Although Grinnell has been the loser in its two previous games with State, Coach Watt's Pioneers offer a dangerous threat to State this year.

Behind Klewicki and Zarza, the probable flank men for the opener, will be Allman and Baker as the next choice. All four men have been going great in the pre-season workouts.

Replacements for Reaveley and Zindel will be Brakeman and Dennis. At the tackle position State is woefully weak in seasoned material. Reaveley and Brakeman have seen some service in past seasons. Zindel is up from last year's freshman squad.

The guard position is one of the critical points in the Spartan line.

Ben Demaree, slated for a regular guard berth, is laid up with an injured heel which has been giving him a lot of trouble. Wagner, who played a fine game at tackle last year, has been shifted to guard and is showing promise of being even better in his present under way again.

CHEMISTRY DEPT. MINIMIZES COSTS

Saving Brought About Through Mass Buying.

The Chemistry Department has started a new method of buying chemicals in an effort to reduce the expenditures that are necessary each year. They do this by including the chemical orders of the fourteen departments in the college that use chemicals. This method of buying chemicals was used last summer and brought the total price of chemical purchases by this department from the usual \$12,000 to \$20,000. In this manner they are able to save from thirteen to fourteen per cent on the articles because the larger order brings a greater discount. The price of the chemicals used each year by the Chemistry Department usually amounts to \$8,000 while the price of apparatus totals \$4,000.

The laboratories in the Kedzie building in which the graduate students are working are getting under way again.

State Theatre Has Reduced Prices

Under new management the State Theatre opened last Saturday for the school season with greatly reduced prices.

It was about the same time last year that the picture houses opened and everyone began wondering why prices were so high. The explanation offered was that the pictures were all first run pictures and that the higher prices were necessary because of the expense incurred in securing the films. There was great deal of comment on the cost for admissions was seen ridiculous.

This year the show opened with a very picture. "The Girl From Missouri," followed by "Madame T. T.," "The Scarlet Empress," and "St. Petersburg." "Treasure Island," only just lately released. All of these pictures were shown at a price a little more than half that which was asked last year.

It is our opinion that students will gladly wait one or two weeks to see a picture if they can see that picture at a greatly reduced price. For the most part, stud-

Freshman Council To Hold Meeting Monday

The second meeting of the Freshman Council will be held in the social hall of Wells Monday evening at 8:00 to 9:15. Following the enthusiastic discussion of the last meeting on Frosh pots, the whole question of college traditions as they affect the Freshman. Prof. A. J. Clark has been scheduled to describe briefly the traditions that have held in the past at State, and the presidents of the Student Council, Sophomore Class and Blue Key will be called upon to present the question of traditions from their points of view.

ents at Michigan State are not wealthy. They attend the theaters and dances, but they aren't going to throw money away.

If the attendance at the theater under the new prices warrants it, the theater may be kept open all summer, something which has not been done in East Lansing for several years. If the management continues to place as high a quality of program before the students as it has already offered them, at a reasonable price, there seems little reason at all why this theater should not be open all year.

Praises Radio Station for Fine Work

In this issue appears an article announcing the broadcasting of the football games this fall through station WKAR. Such a forward step deserves mention, since it will be a very important part of the publicity drive which has helped Michigan State College so much in the past year.

To Mr. Coleman, the new supervisor of WKAR, should go a great share of the credit. Taking charge of the station only this fall he has already done a great deal to improve both the station and the school. The broadcasting of the games will include out of town contests, with the exception of the University of Michigan, as well as games played at the Spartan stadium.

Off to a splendid start, Mr. Coleman has only begun. Several larger projects are now under consideration for the station, and within the next few weeks, it is hoped that they may be announced in the State News. Congratulations, Mr. Coleman.

THE SPARTAN ORACLE
 BY JIM QUELLO

After a summer's lull, your oracle is back again to translate pertinent bits of gossip and rumors. As said before, the purpose of these columns is not to correct but to "laugh sidly and lengthily at the inane impudicitudes of society." So if you are not interested in slapstick you could very well omit this medley of scraps—and if you are interested it wouldn't be such a bad idea either. However, due to the fact necessary in handling societies and situations during this rush-mad period, we shall refrain from searing travesties.

WORLD'S NOOSE
 (Special to "The Anemia—It Lacks Circulation") Alas! The world has become an inferno of intrigue and confusion since we last commented on the topics of th edays. The League of Nations stood idly by while that Nazi man, Hitler, played the lead in a mid-summer reproduction of "St. Valentine's Day Massacre" with Il Duce musing in on his Austrian district. In New Orleans Huey Long and the mayor are all war out. Who wouldn't be after hearing Huey long? The ship of state was so badly damaged it needed a new Hull—It's a Hull of a note. Even the axes in the "New Deal" were trumpped and the NRA became so raw in spots that the pun "Nude Deal" was coined. And speaking of nudists—if the panic doesn't stop soon we'll all be members and who could bare it? Oh well, things aren't so bad for us. Look at the poor movie stars who have been slashed from \$1000 to a mere \$1000 a week—so it's not much use getting riled up and we might as well column down.

Baseball headline: Simmons flies out to Goose Goslin. Tech Tech—such playful men.

The other day an upper classman was accosted by a frosh who wanted to know where he could buy a gun to bring to military class.

And who were the frosh that wandered inside Mary Mayo's thinking it was the men's union?

HEARD IN CLASS
 Kimber: Anyone here who hasn't found a text yet?
 Spaniole: What text?

Rev. McCune attributed the number of absences in his religious class to males who couldn't find the church.

Beth Emery, expressive Mary Masonic, quotes "Get every time I leave the News office I find out in the furnace room." But she forgot to say who was with her.

Jack, the twip, twitters on hearing about a new entertainment hall. "Can I take a lady there or can I only take tracks?"

Another week-end and State socialites will again be seen strutting at oral tables—and as usual many of the men will complete the entertainment after the 12:30 curfew. It opens next Friday.

Headline: "Frat Council Endorses Pots." "The Specialist" will have to be revised now.

And my sympathies go out to the new junior transfer David Cleary—who as the Cleary of State News notoriety has a flaming red tuft that cushions his pate.

And then there was the North-western man who called his coed friend Pilgrim because every time he called he made a little more progress.

IT WAS DUCKIE, DEANIE
 Marion Johnson, former journalism instructor at the University of Minnesota, found his name a constant source of confusion to faculty and student bodies.

His limit was reached when he received a note from the dean of women inquiring about his rooming situation, she of course, thinking that he was a female. He countered with this little note.

"Dear Deanie: I am rooming over in the men's dorm and the boys are just darling."

Conrad and Hagen, the boys who last year brought Jan Garber to town are now duckering for the services of Herbie Kay, Frankie Masters of Louise Pandro.

By the way, there's a big social event coming off this week-end (Friday) under the sponsorship of Blue Key, and advance dope has it that it's to be great stuff, what with Nate Fry and unique decorations. Set 'em free there—it's only 10 cents per person.

Conducts Band At First Game

BAND MAKES FIRST APPEARANCE AT GAME
 (Continued from page 1)

Regan Heights; Carl W. Peterson, Proctor, Minn.; Morris S. Pheils, Sturgis; Lawrence Reed, Grand Rapids; Richard E. King, Lansing; Leon G. Rockwell, Beulah; Herbert W. Ross, Grand Rapids; Perry Rosman, Lakeview; Donald F. Sexsmith, Charlotte; John B. Shuff, Holt; Martin E. Sillanen, Kaleva; Max H. Smith, Sandusky; Donald S. Smith, Holt; Anthony Smirnotis, Sodus; William R. Steele, Grand Rapids; Louis V. Steybraker, Flint; Wynn Wakeenut, Lansing; Frank West, Grand Rapids; Lyle B. Willis, Grand Rapids; Emory Wellman, Beulah; J. Dean Winter, Flint; James H. Brian, Hartland; Gerald A. Brian, Hartland; and Skinner J. Albert, Marcellona.

PEOPLES CHURCH ACTIVITIES

Peoples church is one of the three most outstanding and unique experiments in our country in the field of inter-denominational cooperation. While more than 20 denominations are represented in its membership, four denominations, Baptist, Congregational, Methodist and Presbyterian, cooperated in the erection of the building and now jointly carry on the student department.

Students of M. S. C. who are members of the church in their home community are invited to unite with the Peoples church by affiliate membership. Membership in the home church will continue as before, and your affiliation here is automatically cancelled when you leave college.

Students who are not members of any other church or who wish their full membership transferred, are invited to unite with the Peoples church by active membership. A large group of students resident in East Lansing and many others are members.

This Sunday morning and on Oct. 6, an opportunity will be given students to sign a card in the morning service and in the student groups which meet during the day, designating their desire to join the church. Those who wish to join will then be received on Oct. 14 which will be observed as "Fellowship Sunday."

On the evening of Oct. 14, the new members and the members of the Religious Council (made up of the officers of the five religious organizations—the Y. W. C. A., the Y. M. C. A., the Spartan "Y," Forum, the Campus Girls' Assembly and the Student Christian union) will be guests of the Student Christian union at a fall supper.

The covenant of the church to which all who become members subscribe is as follows:

"I believe the teachings of Jesus Christ, and with the help of God, I will strive daily to live the life of service, unselfishness and purity which He exemplified to the world."

CAMPUS GIRLS ASSEMBLY
 The Campus Girls assembly extends a cordial invitation to all women students who would like to become a member in an intimate and friendly organization interested in thinking through the essential issues of every day living and developing appreciations to make life richer and more meaningful.

Each Sunday morning, such a group meets from 12 to 12:45 in student parlors on the second floor. The theme chosen for the term is: "A Man's Reach Should Exceed His Grasp, Or What's a Heaven For?"

This Sunday morning in order that new students may better understand the complete program of Peoples church as a community center, and an inter-denominational church project, and an institution which functions to the whole of life, Dr. McCune will take the group on a tour of the church plant. The tour will start from the chapel on first floor.

STUDENT CHRISTIAN UNION
 The Student Christian Union is an organization for both men and women students meeting each Sun-

Who Said Registration Was Tough . . .
 Dear S. O. S.:

If you have to wait in any kind of a line for only 3 times a year when you get out of college, my friend, you'll be lucky. I'm afraid you haven't had enough waiting in your young life to know what waiting is.

Have you ever seen men at employment gates of factories with burlap wrapped around their feet that have stood in snow and ice and exposed to zero weather for 12 to 15 hours. They could write and editorial on an "ornery system" more adequately, I'm sure.

You were thinking how disgusting it must be to 1300 freshmen to wait in line? I'll bet you 90 per cent earnestly did not mind it, other than think about what they were going to do when they reached the head of the line. If you are the type of a student you inferred the freshmen might be—I'm wondering where that job can be that you are going to get after you receive your diploma.

My dear fellow, the college offers loans, FEBA and department work, unbelievable low priced meals, lectures and concerts at a tenth of a normal admission price, etc., but to have your adviser, the treasurer and departmental heads brought to you for your convenience at registration time—well, it just isn't done at Class A colleges.

"Trying to drive students away?" Say, what do you suppose that publicity campaign was for?

My friend, nothing is hard if you take the right attitude toward it.

E. B. '34

100 Undergraduates Work for National Park Service

Leonard T. Samppala, Crystal Falls, Michigan, William E. Wellman, Beulah, Michigan and Bruce D. Fox, 1515 Plainfield avenue, Grand Rapids, Michigan, students at Michigan State College were employed this summer by the State Park Division of the National Park Service.

They and 97 other undergraduates in architecture, landscape architecture and engineering served in the capacity of draftsmen in the development of a nationwide system of state parks.

This development is part of the Emergency Conservation Work program carried on under direction of the State Park Division.

They were employed from July 1 through September 30, paid \$75 a month and assigned to the five state park district offices in White Plains, N. Y., Richmond, Oklahoma City, Indianapolis and San Francisco and to a number of individual state parks.

"The state park movement took on such proportions employment of more draftsmen was imperative and since the colleges have unusually capable men, we decided to give them a try," said Conrad L. Wirth, assistant director of the National Park Service directly in charge of the state park program. "The plan worked splendidly. The schools and the boys should be proud."

The state park movement has become an important conservation-recreation trend of Recovery. Secretary of the Interior Harold I. Ickes, upon seeing an account of the work accomplished in the first year, wrote to President Roosevelt. "It is with keen pleasure I report to you of a program that has met with conspicuous success."

Actual work is done by the Civilian Conservation Corps and financed with Emergency Conservation Work funds, Robert Fechner, director. When the program was launched in April 1933 there were 105 CCC companies assigned to state parks in 26 states. For the fourth ECW period, October 1934 through March 1935, there have been approved 293 companies for projects in 41 states. In addition 33 of the 173 draft relief companies are on state parks in 13 Midwestern states.

corps, and Boy Scout Troop No. 39 of Beverly Park, with E. G. Wood in charge; 2, Eastern high school band; 3, massed group of American flags; 4, Grand Lodge drum and bugle corps, with William Barker in charge; 5, Scouts; 6, Three Rivers drum and bugle corps, Troop 112, with Charles Gross in charge; 7, more Scouts; 8, more drum and bugle corps; 9, Troop 29, of Jackson; 10, Governor's troop of Lansing.

Suggest Change in Dormitory Phone Rules

Editor of the State News, Michigan State College, East Lansing, Michigan: Dear Editor:

Suppose that you had an important message which you wished to telephone to a person, but found that the call couldn't be made because of someone's fancy idea of discipline. Wouldn't you be rather disturbed in a way?

That is what happened. I had a message which required delivery Tuesday evening because of its importance. I called Mary Mayo, and without inquiring as to whether the call were of a serious nature or not, the operator there refused on the grounds that "freshman girls are not allowed phone calls after nine o'clock." This was at nine-thirty. The result was that I was obliged to carry a written message to the dormitory.

This interference with public utilities does not bother me, but the idea that relatives and friends must be inconvenienced because some persons think "We can make freshman girls squirm with this one," seems to be going too far.

Why not allow a one minute talking privilege. This would eliminate most of the unimportant calls, and give the house operators something to do. The authors of this call-refusing idea obviously had in mind control of too numerous unimportant calls, which is all right, but what about others?

"Ruffled"

PARKS FURNISH STUDENT WORK

100 Undergraduates Work for National Park Service

Leonard T. Samppala, Crystal Falls, Michigan, William E. Wellman, Beulah, Michigan and Bruce D. Fox, 1515 Plainfield avenue, Grand Rapids, Michigan, students at Michigan State College were employed this summer by the State Park Division of the National Park Service.

In addition 33 of the 173 draft relief companies are on state parks in 13 Midwestern states.

WHO'S HURT? OLIN REFUTES RUMORS

Contradictory to reports throughout Lansing and East Lansing, Dr. Olin of the college health department states that there have been few injuries on the football team. "There were absolutely no serious injuries up to date on the State football team. One minor injury, a broken collar bone, was reported Tuesday night. The student, J. Hawkins, a freshman, was back doctor stated. This is an unusually good start in athletics. Many serious injuries have been reported other years even in a shorter time than this."

Stating further, Dr. Olin says that the general health conditions are improved. A very small number have been receiving excuses because of illness. Also, the freshman class as a whole are an exceedingly healthy, sun-tanned, vigorous group.

GRID TEAM TO OPEN SCHEDULE TOMORROW
 (Continued from page 1)

The reserves for this position are missing. Dahlgren and Wilson are likely second choices.

State Centerpost Critical
 A center State will miss the temperamental Frank Butler, now with the Packers. Vandenberg, starting at this position, is a sophomore who had no experience with the frosh last season. Reserves for this position include Joe Buzoltz, who saw some competition last year, and Abe Katz. Sam Ketchman, another of the men expected to bolster the forward wall, is on the injured list with a bad ankle. Reynolds, who will start at quarter, is the hard luck boy of the

State squad, running into plenty in the last two seasons. Red Neumann will also be ready to act as pilot for the team, as well as Fred Ziegel.

A troop of light cavalry awaits a chance to gallop in the halfback berths. Warmbein and Collins will probably start, but before the game is over partisan fans will see Armstrong, a veteran from last year; Steve Sebo, speedy flash from the frosh team; Lehnhardt, the most outstanding back coming up from the frosh squad; and the best punters on the squad, Dick Edwards, who saw service last year will also be in there.

Paul Beaubien will probably be the heavy duty relief man for the bone-crushing McCarty. Beaubien is the boy who really went places in the fullback post when he heard Bachman was thinking of making a guard out of him. Another man for the pile-driver position will be Kurt Kuhne.

This year the games will be broadcast over station WKAR, and another innovation of this season will be the enclosed and heated press-box. After this game the student section of the stands will be moved from the west side to the east, although Spartan fans will view the team on the east side starting with this game.

The game will begin promptly at 2 p. m.

Blue Key and Football Party to Head Social Activities for Second Week-end on Campus

Sigma Alpha Epsilon, Sigma Nu, Eclectic, Hermians, and Phi Kappa Phi to Entertain With Open Houses; Numerous Sororities to Have Buffet Suppers.

The Blue Key Fall Term party in the Union ballroom tonight, featuring Nate Fry and his music, will be the big affair of the second week-end on campus. Red Drennan's orchestra will play for the Football Party at the Union Saturday night and seven fraternities are holding open houses. And then the freshman girls will be entertained at the traditional Friday night buffet suppers.

Colonel and Mrs. Dorsey R. Rodney and Mr. and Mrs. Charles Bachman will be patrons for the Blue Key party. Blue Key guests will be Acting Dean and Mrs. L. C. Emmons, Mr. and Mrs. H. H. Halladay, President and Mrs. R. S. Shaw, and Dean Elisabeth Conrad. Pi Kappa Phi fraternity will entertain at a radio party to-night, and Sigma Nu, Delta Sigma Phi, Sigma Alpha Epsilon, Hermian, Eclectic, and Phi Kappa Phi are entertaining tomorrow evening.

Sigma Nu Plan Open House
Harold Ferguson's orchestra will play at the Sigma Nu open house Saturday night. Dr. and Mrs. Haus will be patrons for the affair.

Radio Party at Pi Kappa Phi
Pi Kappa Phi will hold a radio party at the house this evening with Dr. and Mrs. L. B. Sholl and Mr. and Mrs. L. N. Field serving as patrons.

Theta Kappa Nu Open House
Ray Vickerstaff's orchestra will play at the Theta Kappa Nu open house Saturday night. Prof. and Mrs. S. G. Berquist will act as patrons.

Tu Open House Features New Band
Jim Ketchman's orchestra will make its first appearance on the campus at the Eclectic society open house Saturday night, coming over from Grand Rapids for the affair.

Phi Tau to Hold Open House
Mr. and Mrs. Fred Patton and Mr. and Mrs. P. Morrison will be patrons at the Phi Kappa Phi open house tomorrow evening. Johnny Baber's orchestra will play for dancing.

Will See Action Tomorrow

First Meeting of Home Ec. Club Is Held Wed.

The Home Economics club board met with its president, Esther Leiberman last Wednesday to discuss plans for the coming year. The following members were appointed for this year:

Program chairman, Margaret Halsey; Membership chairman, Dorothy Withers; Legislative chairman, Mary VanHaltren; Publicity chairman, Frieda Wiener; Project chairman, Margaret Konop; Finance chairman, Helen Ryerse.

Plans for the first open meeting of the Home Economics club are under the direction of Elinor Baird, chairman for the month of October. A membership drive is being conducted in all women's dormitories and in the sorority houses. Much interest and enthusiasm is being shown not only by the old members and officers, but also by the freshmen women. It is felt that this will be one of the most successful years of the Home Economics club.

FRESHMEN APPROVE NEW PURCHASE PLAN

(Continued from page 1)
ers toward more intense school spirit among the freshman class. Realizing that freshman classes in the past has been expected to support all school traditions and that the class of '34 is exempted from the movement ones, the speakers expressed a desire to work with Student Council and Blue Key in their efforts to support traditions on the campus.

Opposition came from only a few of the many men and girls who filled over a third of the Chemistry building lecture room to vote on the motion. Most of it was absolutely negative in character, the complainants were not necessarily against Eisler's proposal, but rather were strenuously against wearing pots at all.

"I think it's just a plan to make us feel uncomfortable," one of the dissenters declared. "It's done every year, but there's no sense to it. We aren't kids any more."

Another criticized the price. "Why not write several firms and ask their prices on the stuff. Thirty-three cents seems high to me. After all, there really isn't very much to a pot."

Lowest Price Quoted
Eisler replied that all firms had been consulted recently by the Varsity club when that organization was planning to sell pots this year, and that the lowest price had been the price of 33 cents quoted at the day's meeting. The affair is being conducted on a strictly non-profit basis, Eisler stated, the difference between the purchasing price of 33 cents and the sale price of 35 cents going for postage and handling charges. The pots will be on sale at Wells Hall as soon as they arrive.

In the past, freshmen have been forced to pay from 50 to 75 cents for their caps. As a result, many members of the class have refused spending two weeks at the Alpha Phi house.

Sigma Kappa
Mildred Nelson, 34, of Zeeland was a recent house guest of the Sigma Kappas.

COLLEGE BULLETIN

Fun night party at the Peoples church Friday evening at 8 o'clock. Songs, entertainment and games, and a special feature, "A Tragedy in Three Speeds," will fill the evening. Admission will be 10c.

First meeting of Lutheran Student club will be held Friday at 8 p. m. in the faculty dining room in the Union.

Blue Key fall party with Nate Fry and his orchestra in the Union ballroom Friday, Sept. 28, from 9 to 12. 40c per person. Alumni of Blue Key will be admitted at half price. Tickets at Union Desk or from members of Blue Key.

All college groups planning parties this fall term must be signed up in Dean Conrad's office by October 10.

All students interested in working on the High School News Service staff may sign up in the State News office, on the assignment sheet or may leave their names with Barbara Bradford. Phone 2-3374.

All licensed amateur radio operators are invited to join the State College Radio club which will meet for the first time on October 2 to 7 p. m., room 111, Olds hall. Interested radio fans are invited to attend a code class preceding the regular meeting. The code class will meet at 7 p. m. and the regular meeting will be at 8 p. m.

Union party in the Union ballroom Saturday, September 29. Red Drennan and his orchestra will furnish the music. 35c per person.

Freshman Council meeting at Wells Hall next Monday night at 8 o'clock.

All college golf tournament at Groesbeck course Saturday, Oct. 20, at 1 p. m. The fray will be open to all men students of State. A silver loving cup and a medal are being offered as prizes. An entry list is now posted in the Gym for those interested.

Football game with Grinnell tomorrow at 2 p. m.

A meeting of Alpha eta, honorary agricultural fraternity, will be held next Wednesday at 7:00 p. m. for the purpose of selecting new members from the junior and senior classes of the agricultural division.

Grange meeting postponed from tomorrow night until next week Saturday.

Phi Chi Alpha announces their new address as 323 Ann.

to pay the price and have brought about a weakening of the pot wearing tradition at State. Cognizant of this, the Student Council and Blue Key decided this year to eliminate handling profits and reduce the price to a minimum figure. Under such conditions, it is reasonable to expect that all freshmen will be able to comply with regulations.

In their drive for greater freshman spirit, the two student organizations are backed up by the mili-

W. A. A. Gives Team Hours for Sport Practices

W. A. A. sports practices start Wednesday, as announced on the bulletin board in the gym. Practice hours are as follows: Hockey, Monday and Wednesday from 5 to 6, and Tuesday and Thursday from 4 to 5. Soccer practices, Monday and Wednesday from 4 to 5, and Tuesday and Thursday from 5 to 6. Six practices are required in each of these two sports for team membership. Fencing practices are held Monday, Wednesday and Friday from 4 to 5. Announcement is made, however, that if enough sign up in the gym in favor of a 5 to 6 class, arrangement may be made for it. Eight practices are required in fencing for team membership.

Announcement was made that any girl participating in W. A. A. sports who has not had a medical exam this term, must have a heart examination before she may play. These examinations will be given only Wednesday and Thursday, Oct. 3 and 4, the hours to be posted at a later date. These two days will be the only opportunity for the examination.

FERA PROGRAM SET FOR ENSING YEAR

(Continued from page 1)
for part time positions an equitable division is made between the coeds and men students according to their regular enrollment numbers at Michigan State. This provides work for two men to every woman employed. The salary is on the same scale paid for college employment, which amounts to between 30 and 35 cents an hour on the local campus. No employee is allowed to work in excess of eight hours a day or thirty hours a week under the new N. R. A. rules, making the average wage between \$12 and \$15 a month.

At present the 306 Michigan State students on the F. E. R. A. payroll divide over forty-five hundred dollars a month while working at various jobs that include grading of papers, typing, filing, assisting in laboratory work, library work and special assignments for the buildings and grounds, forestry and agricultural divisions of the college.

CLASSIFIED

FOR SALE—Royal Typewriter, Tom Strothers, 320 Michigan.

WANTED—A woman over 25 to share apartment. Call at 130½ Grand River at noon or at six. Lenore Swift Nehart, 130½ Gd. River.

WORK WITH ANNUAL STAFF

Junior and senior students of the commercial art department are cooperating with the art editor of the Wolverine in preparing the art for the 1934-35 Wolverine. The department's policy of making frosh pots a necessary part of uniform equipment. After the pots arrive, all freshmen who come to class without them will be marked absent. However, no action will be taken until after the pots have been put on sale at Wells.

Lutheran Students To Hold Mixer Friday

James P. Hansen, president of the Lutheran Student club, announces that the first meeting of the club for the year 1934-35 will be held on Friday evening of this week in the faculty dining room of the Union building at 8 o'clock. The meeting will take care of the necessary business and there will be short talks by members of the executive committee and members of the welcoming committee. The Lutheran chaplain, Rev. George C. Bubolz, will have charge of devotions. The Bethlehem Lutheran leaguers are helping to sponsor this special program.

The Lutheran Student association was organized at Toledo, Ohio, in 1922. Through this association, Lutheran students become acquainted with each other.

Other officials of the local club are: Miss Edith Kelch, vice president, and Miss Virginia Anschutz, secretary-treasurer.

Cross-Country Men Begin Early Work With Nine Veterans

Coach Brown Looks Forward to Another National Championship Team; Porcage Only Member Missing From Last Year's I. C. A. A. A. Winners.

By JACK WARNER

A cross country team which has established a powerful reputation in the east and has made itself supreme in the midwest started practice on Monday, Sept. 17.

With the majority of last year's team back in training, Coach Lauren Brown looks forward to another successful season. Brown, a former Spartan distance ace and present coach of the nationally famous team, is the man responsible for the high rating of the team. In the fall of 1931 he took over the cross country team and won two dual meets with Butler and the University of Michigan, losing to Notre Dame by only one point. During this same year Clark Chamberlain took second in the National Intercollegiate A. A. cross country run in New York and then came through to win the National Senior A. A. U. meet at Ypsilanti.

In '32 Brown's team placed fourth in the National Intercollegiate meet at New York. They fared even better in their dual meets, overwhelming Butler, University of Michigan, and Notre Dame. For the first time in track history a western team won both the individual and team championships when Michigan State ran off with all the honors in the National I. C. A. A. A. U. meet in New York. Tom Otley, Spartan distance ace, led the entire field over the finish line. His time was 39:00, five seconds ahead of the pride of the east, Joe Mangano, of Cornell. The State runners captured the team trophy with a score of 34 points, placing first, seventh, 12th, 16th, and 19th. It was the first time that a State team had ever captured a national title.

Won A. A. U. Meet

As a fitting finish for such a season, Otley led his team to victory in the State A. A. U. meet. The squad took both the State A. A. U. title and the Center Intercollegiate championship. Otley came within ten seconds of the course record in the A. A. U. meet, winning with a time of 21:09 for the four mile run.

Eight veterans turned out for early practice. Of last year's team, Otley, Bechtold, N. Gardner, Hammer, Ryan, R. Gardner, Hertzler, and Dennis were rapidly getting into shape for the coming season. Added to these are several promising freshmen who will make the regulars fight for their positions. The most outstanding of these are Howard Dronowicz of Hanover, Forest Spencer of Lansing, Kenneth White of Jackson, Hills, also from Jackson, Smith of New York, and Bahl and Hovens of Detroit. As yet the workouts have been short workouts but within a week the boys will settle down to some real practice.

Big things are expected from Johnny Hammer, who has improved greatly since last year. In the K-4-A meet at New York he was the second man to finish and took a third in the Central Intercollegiate two mile run. In the National A. A. U. meet he placed third in the junior 10,000 meter run. Eddie Bechtold, a junior this

By TOMMY WARNER

Bachman's light cavalry will be a team of "gamblers" this season. . . if pre-season dope means anything. Games are going to be won or lost on long shots, and lots of those long shots will actually be aerial work. For the first time in our experience around this institution it's really hard to dish out any actual, well founded pipe-dreams. "It" will be sprinkled through this column like buckshot through a pheasant if we try predicting anything.

The greatest cause for concern is in the line. Graduation signed up the entire middle of the Spartan forward wall and only workouts under fire will tell whether Charley has a forward wall or just a rubber band. They look good . . . at times . . . but at times . . .

Fortunately there is plenty of variety in the backfield . . . and that's where the gambling comes into the story. There are some mighty sweet pass heaters on the squad, some good pass receivers and some darn good punters . . . if the line can give them a split second start on would-be tacklers. Just take the following dope and see what answer you get. Veteran ends, and the rest of the line not yet singled from the heat of combat. Demarest, most seasoned old timer of the grid doted out with an injured ankle. Sid Warner, who played a neat game at tackle last year, more a guard . . . and Heavely, Zindel, Gilliland and Vanderberg.

The field is alive with them. Russ Reynolds, a mighty sweet quarter with Red Neumann and Fred Ziegel as second and third relief. Halfbacks, Bob Armstrong, Dick Collins, Kurt Warmbein, Dick Edwards with experience from last year and Milt Lehardt, Al Apelt and Steve Schup from last year's frosh outfit. And McCrary, Beardsen, Kuhn ready to romp from the fullback post.

Grinnell comes here tomorrow with a veteran team from start to finish. Nine of the regular team have previous experience and the two sophomores I understand beat out veterans to get their positions. . . One of the regulars, Meeter, played center last year and has moved over to guard to make room for Fowler, one of the new sophomores. . . Fini and Kingery in the backfield will not be forgotten by those who saw last season's opener. The score 14 and 8, and State really struggled to take that. So it looks like the State backfield is going to start plenty fast to get into the clear on those boys.

We can be safe and predict one thing however. State will probably put on one of the flashiest passing attacks ever seen around this campus. . . what they may not be able to make through the line they're out to see if they can make through the air. The new rules on forward passes . . . to wit, that there is no penalty for a second incompleting forward pass and that the passing team does not lose possession of the ball when passed over the goal line unless on fourth down . . . is going to spread the defensive backfield quite a bit and make for a better mixture of running and passing plays. If the team gets in the rut and only uses a running attack they will probably be rocked back on their heels by their opponents. . . if they pass exclusively then it'll be just as easy to stop them. . . but if a good mixture of forwards, laterals and power plays is used the defensive backfield is going to go screwy trying to out-guess the quarterback. Which, by the way, is just the kind of team Harry Kipke is building up at Michigan.

Some dope on Grinnell: Uses a seven man, balanced line . . . which averages around 186 lbs. per man . . . the old punt formation in the backfield, at times shifting into a box formation similar to the orthodox Notre Dame system . . . and as the old timers among the fans recall, also has some wierd trick plays that seem to start from a simple line smash or an off-tackle power drive . . . last year we thought the team had gone wild on one play as it started to spread around the field line lime-rickey stains on a new tie when suddenly this lad Kingery went raring off to the left in a wide arc, apparently without interference; but ask the boys who stopped that play . . . he gained some 20 odd yards . . . Yes, Coach Watts has some darn nice foolers up his sleeve, too. The Pioneers have lost both their previous starts against State . . . but think back and recall who was playing for State in the last couple years . . . and they're out for blood with a veteran team of smart, hard playing pigskin pushers.

FROSH GRIDMEN BEGIN WORKOUT

Yearlings to be Managed as Separate Team Under New System.

With 130 ambitious frosh gridlers at their disposal, Coaches John Kobs, Ben VanAlstyne and Merv Vandermeer have every reason to predict a successful season for the Spartan yearlings. The record turnout depleted the freshman stockroom and started a drain on the remaining varsity equipment.

Although the coaches have not had sufficient time to peruse the entire squad, a formidable array of line material is known to be on hand while good ends and backs are not as plentiful as they might be. Some of the outstanding candidates for the line posts are Carr, who hails from West Carrollton, Ohio, and who was awarded a tackle post on the All-state team of Ohio; Bosko, an all-city tackle from Hamtramck with a year's experience at Notre Dame; and Szecepaniuk, an all-state tackle from Grand Rapids Union. Pingo seems to be the class of the backfield talent with an accurate kicking toe and first class ability along ball-toting lines. He attended Mt. Clemens high. Kobs thinks this year's team to be the best ever to don the freshman gear and sees a promising addition to the varsity next year.

A new plan is being inaugurated this season by Coach Bachman of the varsity whereby the frosh will not be used as "cannon fodder" by the varsity and consequently will not go into their own scheduled games with first team cleat marks displayed prominently on their persons. Neither will the yearlings go into their schedule starving for teamwork, blocking, deceptive plays, and well-rounded fundamentals if the coaches have their say.

The yearling gridiron schedule lists three home games and one abroad, the home games being played under the floodlights at Pottengill field in Lansing. The schedule for 1934 follows: Wednesday, Oct. 17—Varsity Reserves, here.

NATIONAL SPORT SUMMARY

By JACK WARNER

As a result of the games played Wednesday the National League pennant situation remains the same. What with all of this "rifling" we're just about gone nutting to figure out who will play who. And besides, they've even made a math problem out of it. But old Lady Luck has the whole thing in the palm of her hand, and she'll toss it whichever way she wants to.

The Tigers had a lot of fun in Wednesday's double-header with the White Sox. Gehringer's four hits in six times at bat put him up to within one point of Lou Gehrig. He wasn't the only one to "pull up his average. Tommy Bridges stayed in the game long enough to get credit for his 21st victory of the season. And Hank

Wednesday, Oct. 24—Detroit Frosh, here.
Friday, Nov. 2—Western Normal Frosh, here.
Saturday, Nov. 10—Detroit Frosh, at Detroit.

Greenberg is only three behind the record for two base hits. By winning these two games the Tigers have raised their total of triumphs to 99.

And the tea-drinkers are still raving about the outcome of the yacht races. His nibs, T. O. M. Sewith, wasn't quick enough on the draw about raising the quarrel flag, and the officials refused to recognize his claim. It was something about the Rainbow coming into the Endeavor's luff—or something. Well, luff to you, M. Sewith. On the other hand, it shouldn't be left up to the crew of one of the contestants to decide on the tools. If a couple of judges wouldn't be threats of war over anything like a yacht race.

Purely tripe. That University of Detroit passing attack is starting to click, and a very wicked click it is. Coach Kipke has a new backfield, a quartet which is likely to see a lot of action even after the return of Big Bad John Beegeri. . . And over our leased wire to Detroit we understand that the pennant winning Tigers were SKUNKED Thursday by the White Sox, 11 to 0, which is commonly known as giving them the works. . . and Gehringer got no

ART DEPARTMENT TO OPEN NEW CLASS FOR CHILDREN

The art department of Michigan State college announces the opening of the Children's Creative Art class by members of the art education class under the direction of Miss Alma Goetsch on Saturday morning, October 6, at 10 o'clock. A small fee will be charged to cover the cost of materials. Children between the ages of six and 12 years are eligible.

WKAR TO CARRY FOOTBALL DOPE

Play-by-Play Account of Games to be Broadcast by College Station.

Complete broadcast of all scheduled football games by Michigan State's radio station will inaugurate the service this year of station WKAR, according to Robert J. Coleman, supervisor of the State station.

Every game on the schedule will be broadcast play by play with the exception of the Michigan game which will be broadcast through the Detroit station.

A five-man staff of technicians will be on the field to make these broadcasts possible. Mr. Coleman, assisted by M. G. Farleman of the anthropology department, will be the announcer, while Wendell Patzell will serve as stationman. Tom Warner, sports editor of the State News, will be on the field to relay information to the broadcasting booth.

The broadcasting booth has been recently constructed in connection with the press stand and is entirely enclosed in glass. Microphones located throughout the stadium will be used to "catch" the band and cheering.

Out-of-town games will be broadcast through the cooperation of the Western Union Telegraph company, which will forward the games play-by-play to the local station.

TENNIS TOURNAMENT GETS UNDER WAY

The All-College tennis tournament got under way Thursday night with thirty-two entrants pairing off in the first round. This round will be completed by Saturday night, leaving sixteen men in the second round games which will begin next Monday.

At the present writing the affair is a wide-open race. One or two freshmen have fairly good records but there are any number of men who may dig up some latent power and crash through to the finals. Games will be played on Courts 2, 4, 5, and 6 along Grand River unless wet weather intervenes. In case rain makes the college courts unfit for play, match games will be run off on the downtown cement courts. The winner of each match should turn the match score in to the gym.

Tom Otley, the greatest of distance runners, will be back to help run off the schedule. Otley won the all-college run, the dual meets with Notre Dame and University of Michigan, the State Intercollegiate, and the Intercollegiate Amateur Athletic Association of America annual cross country meet.
