unexplained shifts in admissions policies" for the incoming freshman class.

Buckner said the shifts have provoked a number of questions:

• "Why, for instance, are many hundreds of students who were told that they could not meet MSU standards, now recieving letters saying they have been accepted to the University?

"'Why are they being provisionally admitted for "three terms only" as their certificates read?

• "Why are these students not eligible for financial aid (according to the financial aids dept.)?

"'Why have some people in the admissions department estimated that a great majority of these students will fail in the first year?

•"Why won't these students be receiving special supportive and counseling services that would at least give them a fighting

"Why the sudden pressure to choose a

Buckner said Sunday he obtained information substantiating his questions from "personnel in the admissions and financial aids departments."

Buckner said students to which his letter refers are "those who were first rejected because they didn't meet MSU standards and were later told they could come as regular students without special counseling or tutoring services."

He added that persons in the admissions (please turn to the back page)

Talks proceeded through the day Sunday with Asst. Secretary of Labor W.J. Usery Jr. mediating between the parties. Chamberlain said talks could continue until the deadline.

"We'll stay as long as he wants," the union chief said.

Chamberlain talked at length by long-distance telephone with his headquarters in Chicago.

"Everything is all set for tomorrow morning," he said.

Money is the sticking point in the talks, Chamberlain said. His union began with a demand for a 54 per cent increase in the \$3.78 hourly wage for skilled signalmen. He said the union was willing to stretch the term of the contract to the 42 months desired by management, provided enough money is offered.

Although the railroads have spoken favorably of a presidential emergency board's recommendation for a 42 per cent increase over 42 months, Chamberlain said industry bargainers had not formally offered that package. He declined to say what management's last offer had been.

Saturday Usery had said he was hopeful a strike could be headed off and said he saw signs both sides were willing to make concessions. Chamberlain's remarks seemed to dash cold water on those hopes.

A strike, unless stopped by a court order of Congress, would halt freight service and shut down passenger service for 300,000 big-city commuters and 55,000 intercity riders served by the fledgling Amtrak corporation, which took over virtually all city-to-city passenger trains May 1.

The two non-Amtrak passenger runs, between Denver and Ogden, Utah, and between Washington and New Orleans, also would be stopped.

Freight service would be halted, with possible exceptions for military cargo, perishables and livestock.

These categories sometimes have been given special consideration by strike-threatening rail unions although the signalmen did not do so when they set their strike deadline.

A similar situation existed last December. when other rail unions shut down service for one day. Only a special law passed in a midnight session of Congress got America's trains running again that time.

Congress made no special arrangements for meeting today. The House scheduled only non-controversial business for a session starting at noon, and the Senate was to convene at 9 a.m. with no major business expected before noon. 1242 may

Antiabortion factions rally

By CHARLES C. CAIN State News Staff Writer

bout 700 people gathered at the state itol Sunday to attend a "Rally for the orn," hoping to influence Michigan makers and citizens to oppose a nate-passed bill currently being sidered by a House committee which ald liberalize Michigan's century-old

ntiabortion groups who participated at rally include; People Taking Action inst Abortion, Michigan Committee for man Life, Concerned Citizens Against ortion, Michigan Right to Life mmittee, Law of Life and the Congress the Unborn.

he crowd consisted of predominately

middle-aged parents, many of whom brought their small children with them to carry signs in opposition to abortion reform.

"Let the Unborn Live," "Abortion is Murder," "Life is a Constituitonal Right," and "Abortion Kills, Choose Murder," were examples of the many signs carried by the parents and their children at the rally on the warm spring day.

Noticeably absent from the crowd were people under 25 and blacks.

Mary Randall, founder of the Michigan Right to Live Committee, gave the welcoming address to an enthusiastic

"It is a mockery of our constitutional

rights to protect only the life of those who are wanted," she said.

Sen. David A. Plawecki, D-Dearborn, was the first speaker to take the podium on the Capitol steps, and he spoke of some of the problems in the world today.

"We have in this world polluted waters, polluted land and polluted air," he said. 'We have crowded roads, unemployment, racial unrest and a host of other problems including, some would say, too many

"Yet I can live with these problems because as long as I live I can at least hope that these problems can be solved. "When we destroy human life we remove

the chance and the need for solving problems," he said.

Plawecki won his Senate seat last year from incumbent N. Lorraine Beebe was a staunch supporter of a similar liberal abortion bill defeated in the Michigan Senate last year.

Plawecki's campaign platform was almost exclusively antiabortion. Plawecki questioned whether allowing

legal abortions would not lead to taking away life for other reasons. "If a mother is allowed to take the life of a child because of personal problems

confronting her," the Dearborn lawmaker said, "shouldn't she also be allowed to take the life of her son or daughter who caused her grief and economic disadvantages?" Plawecki said any attempt to liberalize abortions by virtue of new law is out of the

realm of the legislators. "Laws which permit murder represent an attempt by the legislature to regulate the

morals of society," he said. Plawecki said the logical alternative to

abortion is family planning. Jacquie Davison, founder of the Happiness for Women organization, said the family is the backbone of the United

States and some groups, especially Women's Liberation, are dangerously preaching otherwise. Mrs. Davison, who lives in Arizona with her husband and seven children, told the crowd to unite and fight to defeat the

current abortion bill which would allow

any Michigan women to obtain a legal

PROF REPORTS

Students high on 'gas'

State News Staff Writer What began as a dentists' anesthetic and an energizer for aerosol whipped cream now appears to be the fastest spreading new "high" among area high school and college students, reports Dr. Edward Lynn, asst. professor of

psychiatry. In a study recently presented before the American Psychiatric Assn., Lynn and four coresearchers from MSU found nitrous oxide, better known as "laughing gas" or "nitrous," to be a

relatively safe, common and inexpensive method of obtaining what some users describe as a "total body orgasm."

Lynn said he began his research of nitrous to discover the extent to which it was used in the area, to study the physical and psychological effects of the gas and to compare the "subjective effects between freaks and straights."

Lynn said the most common method of using nitrous is to fill a plastic balloon with the gas and breathe the contents. Common sources of the gas include dentists' offices, aerosol whipped cream cans, high performance engine starters and restaurants that make their own whipped cream, he said.

While Lynn described nitrous as being "safer than any other drug I know of which is used on the street for pleasureable purposes," he did caution its use in confined spaces.

"As long as it is inhaled from a balloon with sufficient ventilation, I would say it is safe," he said. It is dangerous, however, when a large container is opened in a small space or when it is inhaled from a mask which covers the face, thus creating oxygen deprivation and possibly blackouts or suffocation."

Lynn said the subjects of his study said they felt "high" 15 to 30 seconds after inhaling nitrous. The initial peak effects lasted for about two to three minutes and were described as pleasurable by all. One subject described the effect as a

"mentholated stone," explaining that it was a "higher high" than marijuana but "much cooler." All described a "head rush" or tingling or warm feeling about the face and head and auditory illusory or hallucinatory phenomena. Rebreathing the gas from the balloon

prolonged the peak high. Although the peak effects dissipated in a few minutes, all subjects described a state of well-being that lasted from 30 seconds to several hours. All described more intense and prolonged experiences with subsequent trials using the same dosage. Lynn said several subjects reported amelioration of headaches, shoulder

pains, and mental depression as a reuslt of nitrous usage. He said the study also revealed somewhat different effects and results for "straights" (those with no previous

drug experience except alcohol or prescription drugs) and "freaks" (those with prior drug experience including marijuana, LSD, mescaline or heroin). Lynn said "freaks generally scored slightly higher on cognitive tests

adminstered during the "highs" and usually experienced a longer "afterglow" and "higher high." "This is probably due to the fact that people with previous drug experience

knew what to look for and could make it more vivid," Lynn said. "It's much the same thing as people smoking pot for the first time and not getting high." Lynn said adverse experiences with

nitrous were minimal in the experiment. Seven "straights" described various states they felt as being unpleasurable a light nausea the first time, a reminder of a previous uncomfortable experience, a bloated sensation, a decreased sense of control, warmth and perspiration and a dry throat.

Lynn said the results of the study revealed numerous possible medical uses of the gas. He said the fact that nitrous is safe and non-addicting and described by some subjects as being more pleasurable than heroin might make it valuable in breaking heroin addiction.

"Some people have told me that if they could get a steady supply of nitrous they could wipe out heroin completely," he said.

Lynn said other possible medical uses include use of nitrous as a relaxant in behavioral therapy and as an aid in hynosis.

Dems favor Kennedy or presidential office

RINCETON, N.J. (AP) — Sen. Edward Kennedy, D-Mass., has moved ahead of Ecmund Muskie as the first choice of stered Democrats to run for President, ording to the latest Gallup Poll.

SST renewal costs less

Chief White House lobbyist Clark MacGregor said Sunday in Washington that Boeing Corp. Chairman William Allen was wrong when he said resurrecting the supersonic transport project would cost up to \$1 billion.

"I am advised . . . today that the board chairman of Boeing spoke too hastily, that he was incorrect and that his technical people are in the process of revising those figures very sharply downward," MacGregor said.

A Boeing spokesman said there would be no comment Sunday on MacGregor's assertion.

Bishop eats grass at rally

A 66 - year - old Anglican bishop ate grass in Trafalgar Square in London Sunday to protest world

Two thousand youths cheered as the Rt. Rev. Kenneth Sansbury, general secretary of the British Council of Churches and asst. bishop of London, chewed and swallowed a plate of newly mown grass from a south London lawn.

It tasted "a little like lettuce," he said.

Black sheriff on trial

Alabama's first 20th century black sheriff, Lusius Amerson of Macon County, goes on trial today, accused of beating a black prisoner whose arrest on a drunk driving charge touched off a gunfight at the county jail.

Amerson, 37, and his chief deputy, Richard Coleman fr., also black, are charged under federal indictments with depriving the prisoner of his civil rights by inflicting "summary punishment" following the shootout at the Macon County jail in nearby Tuskegee last Aug. 22. Maximum penalty is one year in jail and a \$1,000 fine.

Obstacles seen to detente

Moscow's Pravda charged. Sunday that the U.S. military-industrial complex and the North Atlantic Treaty Organization (NATO) are the main obstacles to a genuine detente in Europe.

The Communist party paper said the NATO alliance is "a branch of the Pentagon and State Dept. . . and has become accustomed in the past 20 years to shape policies in western Europe."

"That is why it cannot conceal its irritation at the mounting tendencies in a number of western European governments to uphold the national interests of their states."

Wilson discusses LBJ, war

Former British Prime Minister Harold Wilson is quoted as saying that former President Lyndon Johnson missed a chance to end the Vietnam war in 1967 by withdrawing a truce proposal after it had been handed to Soviet Premier Aleksi Kosygin for transmission to Hanoi.

Wilson's version of the incident an excerpt from his memoirs - is carried in this week's Life magazine. It also appeared in the London Sunday Times.

Life said it asked Johnson for comment, but he indicated he will cover the incident in his own HAROLD WILSON memoirs, soon to appear.

Big emerald discovered

A 26 - year - old rock hound has dug up from a mine in an old North Carolina cornfield what is described as the largest emerald ever found in North America.

At a weekend conference at Tiffany & Co., Wayne Anthony of Lincolnton, N.C., said he found the emerald just two feet below the surface in a Hiddenite, N.C., mine in the North Carolina foothills last August.

The emerald crystal weighted 59 carats. Anthony sold it locally for \$700 to an unidentified buyer who had the stone cut, producing a 13.14 carat gem. Tiffany vice president Henry B. Platt set the stone's value at \$100,000.

REPORT READIED

Admissions panel nears completion

By BILL HOLSTEIN State News Staff Writer

The end is in sight for the Presidential Commission on Admissions and Student Body Composition, Chairman Ira Polley said Thursday.

deliberation, the commission is likely to submit its report to end of classes, Polley said.

position where the students on subcommittees. the commission will be able to this exercise.' The commissions

recommendations are expected to have a widespread impact on University policies concerning special programs, the enrollment mix, minority and disadvantage students, MSU's "mission and 27. goals" and admissions procedures and standards.

Polley said the first two of an anticipated seven chapters have been written and are currently being reviewed and polished by a drafting committee.

The first chapter will deal

with the question, "Why an admissions commission?" which Polley said is important in understanding the purpose and motives behind the commission. The second chapter will

discuss the procedures of the commission and the role of MSU in Michigan's system of higher education, he said.

Polley said.

He indicated the first two chapters are descriptive. analytical statements and are not 'essentially dependent on the recommendations that have been

"Chapters 4, 5 and 6 are the chapters that will reflect and After a full year of contain the great bulk of the information gathering and recommendations," Polley said.

The commission decided President Wharton before the early in March to limit its discussion to a set of about 60 "I hope it wouldn't be longer preliminary recommendations than the first week in June. I instead of the original 120 think all of us want to be in a recommendations from the five

The commission has discuss and act on any matters "hammered out positions" on that come up," he said. "There's the se preliminary a great deal of interest in ending recommendations and is now in the process of polishing parts of the report and writing other parts," Polley said.

> The commission has three additional meetings scheduled for Tuesday, May 25 and May

Polley emphasized that the report has still not been adopted by the full commission, a process which could entail more discussion of the recommendations concerning "emphasis" and "tone."

The report was originally expected to be submitted to President Wharton and the Academic Council at the end of winter term.

"I don't think the failure to meet the schedule has created any problem," he said.

Polley said the importance of the commission is in "It's not likely the first two recommending ways in which chapters will provoke the University can be more controversial sorts of questions," responsive to various outside groups.

GOAL: INDEPENDENCE

Post Office reorganizing

By RAY ANDERSON State News Staff Writer

Increased postal rates that ook effect Sunday under the 1970 Postal Reorganization Act mark the initial step in an effort by the Post Office to become a more than 60 per cent of the self-sustaining, quasi-public corporation.

Effective July 1, the Post Office, retitled the U.S. Postal Service and directed by a board of governors, is scheduled to set its own rates and create revenue in hopes of attaining complete self-sufficiency by 1978, A. Ray Krider, East Lansing postmaster,

Beyond the rate increases, Krider said the changes for MSU students will be "fortunately,

"MSU on the whole gets more detailed and personal delivery service than any other university in the U.S., largely on the premise of its being the oldest land-grant college," he said. "The only change on campus will be collection boxes at selected points near dorm

pick-up."

The postal department's interest in students and the University is understandable, because 70 per cent of East Lansing's incoming mail, and outgoing mail, is campus-related.

For that reason, Krider said he hopes the annex, located on 316 Abbott Road, can be kept open. "It is in the natural flow of

traffic and makes it easier for students to pick up registered mail that couldn't be delviered for one reason or another," he said.

The newly organized U.S. Postal Service should improve service for the entire community, explained Krider, because it will be a profit-making organization with funds for new innovations. The majority of the old system's difficulties stemmed from its being a government agency dependent on the frugality of congressional allocations, he

"If the Post Office had been organized like an industry instead of a government arm, we'd have modern equipment and operate more efficiently because we wouldn't have developed at minimal cost," he continued. "The mail is still sorted here like Ben Franklin did

Sorting machines are available but are often inefficient under normal operating conditions, he procedure is morally proper or said, and are therefore not used maintenance.

regularly because funds are not available for testing and The rate increases that went into effect Sunday are expected

to bring in an estimated \$23 million in additional revenue per such a procedure," the week and reduce government subsidies considerably.

Nixon cancer drive: more for him than us

MSU: what you see

not really what you get

There is an interesting little MSU - it - is philosophy." More like: take -

The all-out effort against cancer announced Tuesday by President Nixon is most welcome. Doctors have long claimed that all that is lacking to find a cancer cure is money and organization. The President has now provided both but has done so with so much hoopla that one can only wonder whether he is concerned about the quality of the nation's health care or is simply hoping for a cancer breakthrough before Election Day, 1972.

By taking personal charge of the cancer fight's organizational structure, Nixon has made an obvious play to identify himself with the fight against cancer. The desired result, no doubt, is that, should a cancer cure be developed, the public. will give Nixon the credit.

Still, cancer is the number two cause of death in this nation. A cure is desperately needed and Nixon's

announcement should not be denounced simply because he stands to gain politically from the move.

Unfortunately, Nixon's total health program still does not deal properly with this nation's complex health problems. Medical technology has provided us with the means to treat a wide range of illnesses. Yet the social aspects of medical care remain by and largely ignored.

Hospital care costs around \$100 a day now, meaning most American families cannot afford illness. Most rural and compacted urban areas do not even have enough doctors. These are real health problems facing America, problems to which the President has yet to address himself.

As things now stand, even if a team of researchers came up with a cancer solution tomorrow, most Americans could not afford to be

OUR READERS' MIND

Lansing needs new parade laws

To the Editor:

To the Lansing City Council:

The events of May 5, in which a group of students from MSU marched to the Capitol down Michigan Ave., and the subsequent declaration of Lansing Police Chief Husby of plans to prosecute these marchers have highlighted an urgent need to reassess and revamp the city ordinances pertaining to parade permits.

We believe that the ordinance, as it stands is intended to deny the expression of opinions by groups with whom city officials do not agree. The ordinance is hazy, giving wide latitude to officials in granting the permits, and enabling them to arbitrarily determine which groups shall be given the o, portunity to express views. As a State Journal editorial of May 8 points out, the or linance is most indefinite in establishing what constitutes a "parade or

Also, the ordinance requires that applications for a permit be made 30 days in advance of the event. This is especially destructive to free political expression as demonstrations of this kind, by their very nature, cannot be planned this far in advance. In this critical time, especially, major political developments can occur overnight and the people have a right to march and rally in direct response to these developments in order to make their views known to the government. Thus, this aspect of the ordinance interferes with the constitutionally guaranteed right of citizens to peaceably assemble and to freely express their views. Too, the

ordinance's failure to establish a definite time in which the city officials must respond makes it virtually impossible for definite plans to be made, and, again, seems to be designed to prevent free mass expression of a political nature.

For these reasons, action should be taken now to revoke this unconstitutional ordinance. The ordinance should be abolished and unless a better proposal can be formulated, we suggest that the previous ordinance be reinstated.

There is wide support for these demands to revoke the city ordinance. Many of the faculty and students on the MSU campus are strongly opposed to these unfair regulations regarding parade permits and want to see them changed. The State Journal also suggests that the ordinance should be reviewed and in fact, states that

Trustees have done it again

I have been noticing the vicious attacks made upon the trustees for their actions in the Van Tassell - Murray affair. With such archaic minds as the "Ad Hoc Committee for Reappointment and Tenure for 1971" acting as "rubber stamps" to the feudal lord structure of University departments, not just natural science, it is a wonder what the faculty members mean by "academic freedom" and "due process." The medieval minds that dominate most University departments deserve this frontal attack upon their so-called "prerogatives."

I and those who support true "academic freedom" on campus offer sincere "this law has proven to leave much to be

WASHINGTON - There was so much

publicity attached to the announcement

last week when the U.S Navy promoted its

first black officer to rear admiral that little

attention was paid to another breakthrough in rigid Navy tradition. With no little pride the Navy announced that it

had appointed its first white Anglo-Saxon

Protestant waiter to serve in a U.S. Navy

The lucky seaman was John Paul Jones

Up until Seaman Jones' appointment as mess boy, only Filipino and black sailors

were permitted to serve naval officers. But after a secret Defense Dept. race relations report, it was decided that if the Navy was going to have black admirals it would have

to have white mess boys to even things out. Although the U.S. Army, Air Force and

Marine Corps all use WASP mess

attendants, the Navy, according to the

report, had been dragging its feet. The

Navy kept saying that it couldn't find any

qualified WASP seamen to wait on officers'

tables. But the report found that mess boys

according to qualifications, but according

"There are many white sailors who are as

good at serving officers as blacks and

officers' mess.

VII of Akron, Ohio.

We will be waiting for your action. Peace Now.

> Dennis Sullivan for the Student **Mobilization Committee** May 12, 1971

EDITOR'S NOTE: The Lansing City Council has placed discussion of this letter on the agenda of its meeting, to be held at 7:30 p.m. today on the 10th floor of the City Hall. Interested students needing a ride to the meeting should meet at 7 p.m. in 320 Student Services Bldg.

congratulations to the trustees who challenged the unilateral and unfair actions of the Natural Science Dept. With our support, I hope the trustees will be continuing to drag MSU administrators and department heads, kicking and screaming, from the 13th century into the 1970s. The trustee's action is a lesson in true democracy and academic freedom to those who subvert their meaning to get rid of the "trouble makers." Again, well done, trustees! You have made me proud to be a student at MSU.

Michael S. Clinansmith East Lausing graduate student April 30, 1971 Filipinos," the report stated. "They have just not been given the opportunity to prove it. It is our opinion that if the U.S. Navy hopes to recruit more members of the Anglo-Saxon race, it had better open up its kitchen and pantries to Caucasia

WASP's moving up in Navy's mess halls

Stung by the report, the Navy denie that Jones had been appointed to serve i an officers' mess because he was white,

"Jones," a Navy spokesman said. "w selected because he was the most qualified waiter we could find."

The public information officer was questioned about the fact that Jones appointment came only one week after the Defense Dept. report was leaked to the

"I'll admit," he said, "It sounds like coincidence, but the U.S. Navy, and you are going to have to take my word for this has been looking for qualified WASP mes boys for the last 192 years.

"I would like to add, gentlemen, that John Paul Jones VII will not be the las WASP mess boy to make it in the Navy. is our policy to see that our officers galleys are staffed by the best me available, regardless of race, creed of

The public information officer the introduced Seaman Jones to the press Jones read a statement: "I am very proud to be the first one of my race to b selected by the U.S. Navy to serve in a officers' mess. For many years WAS seamen were only permitted to work in the pantry. I believe this policy, which wa now been changed, will benefit not only my brother WASPs, but the U.S. Navy a

Seaman Jones was asked if he expected to find any hostility among the other mes

"Perhaps at first, but I'm going to prov that WASPs can do anything Filipinos can I feel I represent every white Anglo-Saxo Protestant whose dream it has been for 19 years to serve in Navy officers' messes of land as well as on sea. This is a golder opportunity, and I plan to make the mos

POINT OF VIEW

An open letter from Jerusalem

EDITOR'S NOTE: The following Point of View was submitted by Paul Korda for the MSU Jewish Liberation Project. It was written by Eliezer Ben Yisrael, a Jew in Israel.

I am not a creature from another planet, as you seem to believe. I am a Jerusalemite like yourselves, a man of flesh and blood. I am a citizen of my city, an integral part of my people.

I have a few things to get off my chest. Because I am not a diplomat, I do not have to mince words. I do not have to please you, or even persuade you. I owe you nothing. You did not build this city; you do not live in it; you did not defend it when they came to destroy it. And we will be damned if we will let you take it away. There was a Jerusalem before there was

New York. When Berlin, Moscow, London and Paris were miasmal forest and swamp, there was a thriving Jewish community here. It gave something to the world which you nations have rejected ever since you established yourselves - a humane moral code.

Here the prophets walked, their words flashing like forked lightning. Here a people who wanted nothing more than to be left alone, fought off waves of heathen would-be conquerors, bled and died on the battlements, hurled themselves into the flames of their burning Temple rather than surrender; and when finally overwhelmed by sheer numbers and led away into captivity, swore that before they forgot Jerusalem, they would see their tongues cleave to their palates, their right arms

For two pain filled millenia, while we were your unwelcome guests, we prayed daily to return to this city. Three times a day we petitioned the Almighty: "Gather us from the four corners of the world, bring us upright to our land; return in mercy to Jerusalem, Thy city, and dwell in it as Thou promised."

On every Yom Kippur and Passover we fervently voiced the hope that next year would find us in Jerusalem. Your inquisitions, pogroms, expulsions, the ghettos into which you jammed us, your forced baptisms, your quota systems, your genteel anti-semitism, and the final unspeakable horror, the holocaust (and worse, your terrifying disinterest in it) all these have not broken us. They may have sapped what little moral strength you still possessed, but they forged us into steel. Do you think that you can break us now, after all we have been through? Do you really believe that after Dachau and Auschwitz we are frightened by your threats of blockades and sanctions? We have been to Hell and back - a Hell of your making. What more could you possibly have in your arsenal that could

I have watched this city bombarded twice by nations calling themselves civilized. In 1948, while you looked on apathetically, I saw women and children blown to smithereens, this after we had agreed to your request to internationalize the city. It was a deadly combination that did the job: British officers, Arab gunners and the American - made cannon.

And then the savage sacking of the Old City: the willful slaughter, the wanton destruction of every synagogue and religious school; the desecreation of Jewish cemeteries; the sale by a ghoulish government of tomb stones for building materials, for poultry runs, army camps even latrines.

And you never said a word.

Your hearts bled when Berlin came under siege. You rushed your airlift "to save the gallant Berliners." But you did not send one ounce of food when Jews starved in besieged Jerusalem. You thundered against the wall which the East Germans ran through the middle of the German capital - but not one peep out of you about that other wall, the one that tore through the heart of Jerusalem.

The only time you came to life was when the city was at last re-united. Then you wrung your hands and spoke loftily of "justice" and the need for the "Christian" quality of turning the other cheek.

The truth is - and you know it deep inside your gut - you would prefer the city to be destroyed rather than have governed by Jews. No matter ho diplomatically you phrase it, the age of prejudices seep out of every word.

If our return to the city has tied yo theology in knots, perhaps you had bett re-examine your catechisms. After what v have been through, we are not passive going to accommodate ourselves to the twisted idea that we are to suffer etern homelessness until we accept your Savid

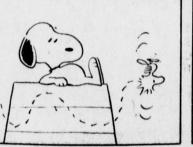

For the first time since the year there is now complete religious freedo for all in Jerusalem. For the first time sine the Romans put the torch to the Temp everyone has equal rights. (You prefern to have some more equal than others.) loathe the sword - but it was you forced us to take it up. We crave peace but we are not going back to the peace 1948 as you would like us to.

We are home. It has a lovely sound for nation you have willed to wander over the face of the globe. We are not leaving. "Next year" - and the year after, an

have redeemed the pledge made by 0 forefathers: Jerusalem is being rebuil after, and after, until the end of time-Jerusalem!"

Mr. Mitchell sees 'red'

"We have no take - the - world - as . uh, what was your student number?

Attorney General Mitchell, cohatchet man of the Nixon administration, has once again necromanced the ghost of Joe McCarthy. At a recent breakfast meeting with reporters, the attorney general stated that some leaders of last week's antiwar protest had "Communist-oriented or related backgrounds.'. He further indicated that he had "no doubt" that some antiwar groups were funded in part by "Communist sources."

Mr. Mitchell declined, however, to indicate what, if anything, a "Communist-oriented or related" background might be. Indeed, in the parlance of segments of the American right wing this moniker could easily be attached to anyone standing left of Strom Thurmond.

Mitchell was equally neglectful about spelling out what percentage of antiwar coffers are filled with "red" dollars. One wonders how many unknowing congressmen have had their campaigns helped, if ever so slightly, by Mitchellesque "Communists."

For a public official, the attorney general shows an accomplished knowledge of the well-turned buzz word--and a surprising lack of responsibility in wielding the broadsword of innuendo.

Winemaking class trains students to 'do it yourself'

By ANNE HEFKO

More than 20 MSU students have been fermenting wine this spring, following completion of a four-part Free University course on winemaking.

"You can make wine out of anything you find in the store," Richard Van Horn, Battle Creek senior and class instructor contends.

"I've had raisin wine, dandelion wine and even black walnut leaf wine," Van Horn

Van Horn said most "do it yourself" winemakers are not

By DAVID BASSETT State News Staff Writer

If you missed the Zubra-Guess Who concert Friday night you missed the greatest self-parody in rock and roll as well as the greatest put-on put-down of everything the "American Woman" rocky rolly money-grabbing scene stands for.

Mary Wilson, lead singer of Zubra and a former choirboy-pseudo-opera star from Traverse City, gave a brilliant display of how to almost wreck a great band with trite histrionics. A superbly accomplished jazz band that has been doing the local bar scene for some time, Zubra was enormously successful Friday despite the efforts of Wilson.

Apparently trying to be a combination of Zubin Mehta, Jim Morrison and Rasputin, Wilson repeatedly tried to draw the audience's attention away from Zubra's excellent musicians with his hand-waving attempts at unheeded direction.

Even when the band launched into a sentimental parody of Sha Na Na's parody of Danny and the Juniors, Wilson continued in his self-appointed role of a dignified orchestra director, holding his head high and his feet firmly planted as the band kick-stepped and falsettoed its way around the stage.

It was sad yet almost comical to watch the drummer, organist and horn players play every note in perfect synchronization while Wilson pranced about the stage with his arms raised in Chaplinesque anticipation. While the drummer joined in the act to some extent, the remainder of the band usually were too

preoccupied with their music to give Wilson an opening to disaster.

And the perfect remedy to Wilson was Burton Cummings, lead vocalist of the Guess Who, a rock performer rare enough to know exactly what he is doing and why.

With one of the strongest, clearest and most beautiful voices in rock, Cummings' true worth was shown in a 20-minute version of the million-selling "American Woman."

While Cummings' devastating voice is sufficient in itself to shatter Tricia Nixon's Lennox China, the lyrics of the three-minute original probably snapped her v-belt when he sang them to her last year in the White House.

"American woman, stay away from me. American woman, momma let me be. I don't need your war machines, I don't need your ghetto scenes. Colored lights can hypnotize, sparkle someone else's eyes," Cummings screamed.

As his hands remained firmly planted in his pockets and a

cigarette smoldered on the edge of his organ, he lept into deprecating attack on the trimmings of being a rock star similar to the Byrds' "So You Want to be a Rock and Roll Star."

"I grew my hair long, and I unbuttoned my shirt and I learned how to say 'groovy' and 'far out' and 'heavy' and 'peace' and all that other shit," he chanted.

From there he continued into a diatribe agianst the American woman who's "gonna mess your mind," who's "yappy bridge-playing suburban friends are gonna step on you."

When the announcer said, "They're through. You can clap, but they ain't gonna come back," after the Guess Who had left the stage, most of the audience probably was too overcome with the power and excellence of the band to appreciate the fact that what is labeled by most as a mindless teeny-rock group is quite possibly the only band willing to publicly testify to the absurdity of the

Sleuth fixation in 'Giants' weaves intrigue, warmth

I can't think of any movie that had less chance of succeeding than one about a man who thinks he is Sherlock Holmes. Yet, "They Might Be Giants," a film with such a plot, is a success - a modest success to be sure, but a warm and wonderfully

Thanks to George C. Scott's Woodward's super sanity and the collaboration again of director Anthony Harvey and writer James Golman (who did "The Lion in Winter") the film glides along on a quixotic course, intriguing and charming the

strange one all the same.

audience in turns. The film offers a precious thesis: that a man may be mad but he is often much more interesting and worth knowing

Director reports tee tor pool use

For the first time, rates will be charged at the outdoor pool at the Men's Intramural Building summer term.

Although the charge will be only 25 cents, this move to meet rising maintenance costs may be judged "all wet" by student swimmers who traditionally spend summer term by the pool. The pool opens Saturday.

Frank Beeman, intramural director, said the fees will be charged to cover the cost of conditioning the pool. Costs cover labor needed to drain, flush, sandblast and repaint the pool; remove rust from fixtures; replace broken tiles, and check electrical equipment, he said.

Students will be admitted free to the pool until June 21, when the new fee schedule will take effect. Students will be charged 25 cents but students who were last enrolled winter term will be charged 50 cents.

Faculty and staff charges will be 25 cents, but they may swim free indoors until June 21.

Spouses of students, faculty and staff members may use the pool after June 13 for 25 cents. Guests, including children over 13 years old, will be admitted after June 13 and charged 50 cents. A maximum of \$2 will be charged for the family swims which will be held every Friday evening beginning June 18. For safety reasons, children will not be allowed in the pool unless they are 53 inches tall or can swim 50 feet.

Kellogg Center and University conference: guests will be admitted to the pool for \$1 while high school students attending summer workshops will be charged the normal student fee of 25 cents.

Motor bike problem cited

By MICHAEL FOX State News Staff Writer

The All - University Traffic Committee (AUTC) Friday ffirmed its opposition to granting special privileges for torcycles to park on campus near residence halls.

Howard Wooldridge, Atlanta, Ga., sophomore, appeared before committee to complain of motorcycles being stolen or mantled while they are parked in regular residence hall parking which, he said, are not lighted or patrolled regularly. Wooldridge last week obtained resolutions from the ASMSU ard and Wilson, Wonders, Case and Holden residence halls to

ow motorcycles to be parked in hall bicycle racks with the nsent of hall managers. e said the bicycle racks are well lighted and that people uently pass near them at all times so the chance of a

not find the men. AN ESTIMATED \$200 in damage to a main entrance window at the Men's Intramural Building occurred late Saturday afternoon when an eight-year-old Lansing boy threw

a rock through the glass. Police said the boy, detained by a witness in the building at the time of the incident, was turned over to his father. No the men sitting in their probate action is expected against the boy, and the reason behind the incident was

FOUR PERSONS in a

Police said the man and his

AUTC pointed out Friday, however, that at its past two meetings it has passed resolutions unanimously against considering two - wheeled motor bikes in any category other than motor vehicles such as automobiles.

A letter to the committee from James Rust, University ombudsman, noted that two students had formerly complained to the ombudsman's office about the lack of security for motorcycles parked in the residence hall lots. Rust wrote that motorcycles seemed to be in a kind of "no man's land" because of their relatively small size.

AUTC objections to allowing motorcycles to park in bicycle racks included oil on the sidewalk, motor noise disturbing residents, the issue of applying equal rights to other student vehicles such as cars and state law which classifies the two - wheel motor bikes in the same category as cars.

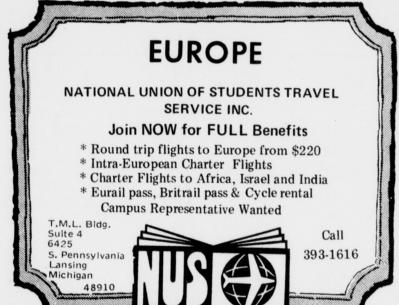

Committee members said Richard Bernitt, director of public safety, had informed AUTC that a higher percentage of thefts are reported for cars than for motorcycles.

"I am going to continue to go to all the residence hall councils," Wooldridge said. He said endorsements for parking motorcycles in bicycle racks from 15 to 20 residence halls would be more impressive than those from the four halls that support now his plan.

"I am going to check out other ideas - such as putting the cycles all in one big lighted and patrolled lot. I guess I have a lot of research to do on the motorcycle issue this summer," he said after the meeting.

AUTC also learned of a traffic problem at the site of the new Day Care Center in Spartan Village. No on-site parking was provided for the building and the 20 staff members of the center and visitors have been forced to park on the streets there.

In a letter to President Wharton, the committee recommended that parking; on Middlevale Road be prohibited to permit passage of campus buses, that location parking for the center be provided as soon as possible and that AUTC "be appraised in the future on what's going on."

Whites rout Green, 42-0

By GARY SCHARRER State News Sports Writer

The game was supposed to be close, the Green squad was slightly favored to win, but a fired-up White team upset the Green in a 42-0 rout in the annual intra-squad game Saturday afternoon.

Paced by the accurate passing of senior quarterback Mike Rasmussen, the outstanding receiving of Frank Butler and Billy Joe DuPree and the overpowering play of the offensive line, the underdog White unit scored an early touchdown and then built an impressive 35-0 halftime lead.

The White team scored the second time it received possession of the football. A Green punt from its end zone gave the White good field position on the Green 37 yard line. Rasmussen threw the first of three touchdown passes of the game for the first score. Butler took the 18-yard pass on the five yard line, batted it in the air but caught it going into

and Mark Charette started another White drive near the end of the first quarter, but it was stopped on a Green 14-yard line with a Charette fumble. Anderson, a sophomore-to-be, was taken out of the game with :28 to play in the initial quarter with a sprained knee injury.

The White squad broke the game wide open with four touchdowns in the second quarter. Rasmussen, receiving excellent protection from his linemen, Errol Roy, Bob McClowry, Bill Peters, Jim Higgins, and Chris King, had plenty of time to spot open

Passes from Rasmussen to DuPree and Steve Kough took the White team deep in Green territory. Rich Kluge scored on a 1-yard plunge.

Following the White kick-off, Ken Alderson picked off a George Mihaiu pass to set up to DuPree, who went high in the Spartans' dual meet loss to air with a one-handed snare. Indiana Saturday.

And that is news, because the his first 660 in a fine 1:19 two have been mainstays for the Spartans all year. But injuries knocked them out Saturday in the midst of their events, and the points MSU lost as a result undoubtedly contributed to Indiana's huge margin of victory in the dual.

The Hoosiers tallied 101 points and State had 52, but with Mock and Washington winning, the Spartans could have upped their total by 12 or so and lowered Indiana's correspondingly. But more important for the

Spartans than any dual meet loss, which counts nought toward the Big Ten less than two weeks away, are Washington and Mock.

Both suffered muscle strains in their legs. Neither injury is expected to be serious enough to keep either man out of the league meet, but each has been advised to stick to jogging for a conference. That's what re few days.

for the Spartans in the loss to the Big Ten champion and main obstacle to MSU's hopes for its first loop title since 1966.

Bob Cassleman and LaRue Butchee continued their fine running, with Cassleman winning

third best time in the league year, and anchoring the relay to a 3:13.2 win behind carries by Al Henderson, Murphy and Tom Spuller.

Butchee gave Big Ten champ Mike Goodrich a run the money in his event be losing in 21.7. And Eric A triple jumped 49-5 to crack Spartan varsity and I Young Field records.

"It was disappoint naturally," Spartan Coach F Dittrich said, "because I w figured we'd lose by that m but when you figure difference the injuries made, can see it would have chan the score.

217 E. GRAND RIVER

Judge a Mercedes-Benz over miles of twisting back roads. Not "once around the block in light traffic."

BUILD our automobiles to perform under stress. To take on roads that have potholes for pavement and elbows for

The kind of roads that can be found in Germany's Black Forest where we test our cars. But you can probably find a road

like that near you. And that's where you should head if you really want to find out what a Mercedes-Benz is all about.

Independent suspension You'll find our fully independent

racing-type suspension lets you finesse your way through those tricky bends and switchbacks.

Not plow through them Our rear axle is articulated. It flexes so each rear wheel can move up and down independently of the other-just as the front wheels do. Soaks up the bumps and dampens the bouncing.

Taut steering

Our optional power steering is very polite. It lets you drive. It doesn't drive you. It's taut and responsive, without the usual inch or two of sloppy play. You can feel the wheels tracking, even at high speeds.

Yet, when you're trying to squeeze into a tight parking spot, you can spin the wheel around, lock-to-lock, in three turns effortlessly.

Our engineers call this "progressive assistance."The more power you need in the steering, the more you get. But we don't overdo it. You'll never get the feeling that you're twirling a telephone dial instead of steering a car.

Four disc brakes

The brakes are built to give you a controlled, straight stop instead of that other kind. Even when you stop short from high speed (a nice way to say "panic stop").

We put four massive disc brakes on every Mercedes-Benz. Standard equipment. No options. Only one

American car provides four disc brakes as standard—and that's a two passenger model, not a full-sized

Engine: fragile as a rock

Our overhead cam engine can cruise at RPM levels that leave competitors floating their valves in disbelief.

Bearings are delicately machined to within 4/10,000ths of an inch. Pistons and connecting rods are painstakingly matched and balanced.

And each engine is bench-tested for at least 60 minutes.

Car & Driver claims that a Mercedes-Benz"will whistle across country at average speeds simply beyond the realm of comprehension for the average American driver."

Which doesn't surprise us at all. We don't build cars for the "average" American driver.

Ask your dealer for a test drive. Judge for yourself.

New brochures

You can get a brochure that will give you more details about Mercedes-Benz automobiles. Just send in this coupon.

If you're planning a European trip, check the box to see how much you can save with our overseas delivery plan. But the best thing you can do is

visit one of our showrooms. Our representative will be glad to tell you about any of our sixteen models. And be sure to take that test drive.

Batsmen win three, near title

By JOHN VIGES State News Sports Writer

Closing in rapidly on their first Big Ten championship since 1954, MSU kept straight on the road to the conference crown with three victories in four weekend games.

Power to spare marked two MSU wins, 16-6 and 14-5, over Northwestern Saturday but the Spartans had trouble against Wisconsin Friday, and had to be IN BIG TEN content with a split. The Spartans won the opener 6-3 before losing 7-5.

The trio of victories put Coach Danny Litwhiler's squad in excellent position to win it all in Big 10 play.

MSU is on the road, this upcoming weekend, for doubleheaders against Purdue and Illinois and if the Spartans can bring home two victories, they will represent the conference in the District 4 playoffs over Memorial Day weekend.

The closest contenders for the winners spot, Minnesota (11-5) and Illinois (9-5) each lost over the weekend. The Gophers split a twin bill with Illinois and the Illini also lost to Iowa.

MSU now owns a 10-2 mark in the Big Ten, good for a two game lead. The Spartans, ranked second in the nation, raised their season record to 33-7.

It was a momentous weekend for the Spartans in many aspects. Not only did they near the championship but Litwhiler reached his 400th win as a college coach, accumulated in 17 years, at MSU and Florida State.

Saturday's second win made this year's squad the winningest team in Spartan history, breaking the record set in 1968.

Rob Ellis set two personal marks in the record books. The explosive junior belted two home runs Saturday to set a new career mark and he also passed Steve Garvey for season runs batted in. Ellis and Ron Pruitt each slashed triples which tied them for the single season mark of six set in 1931 by Abe Eliowitz.

Ellis had an outstanding weekend, getting six hits in 12 appearances at the plate. He also drew four walks and belted two fly balls that sent Northwestern Steve Houghton grabbed the No. 5 honors and fielders all the way to the fence to make the catch.

By CRAIG REMSBURG State News Sports Writer

The MSU golf team, leading Purdue by three strokes with nine holes left to play, fell prey to a late Boilermaker charge and ended up in second place in the 52nd Big Ten Golf Tournament held in Columbus, Ohio over the weekend.

Purdue won its eleventh Big Ten title - but its first in six years — with a 1,501 score for 72 holes. The Spartans finished at 1,510 while host Ohio State was third, two strokes behind, at 1,512. Defending champion Indiana and Illinois placed in a tie for fourth at 1,523.

"Purdue has a real tough team - they just owned the Big Ten this spring," Spartan Coach Bruce Fossum said. "But I give my guys a lot of credit because they gave Purdue trouble."

The Spartan mentor said tourney officials set the course a little harder in the last round, moving the driving markers farther back at each hole and changing the cups at each green. This, combined with the thought that the players might have been tired after 63 holes of golf in just two days, could be a couple of reasons for the Spartan collapse. In the race for the individual

title, Minnesota's Dave Haberle won medalist honors, shooting three rounds of 72 - par for the 7,120 yd. Ohio State Scarlet

Art forms blended in

sky show The blending of two new art forms, music and lighting, will be featured in "Stellarphonic Moog," the next production at Abrams Planetarium beginning Friday.

The program features the moog synthesizer, on stage in the sky theater, in synchronization with a prerecorded 10-channel multistereo sound setup. The unusual lighting effects will be provided by the Eye See The Light Show Co. which did the lighting for the ARC 70 show at the planetarium in November.

The music for "Stellarphonic Moog" was written exclusively for the program and has been scored to enhance the lighting in the sky theater.

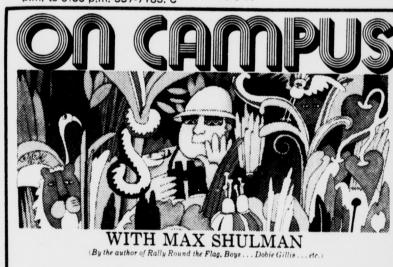

This special program will run through May 30.

Public shows are given at 8 and 10 p.m. Fridays; 4, 8 and 10 p.m. Saturdays, and 4 p.m. Sundays.

Admission is \$1.50. Advance tickets are available at the planetarium or the Union ticket

YOUNG COUPLE wants to live in a home this summer and next year in return for cooking, maintenance, etc. 351-9295.

Is There Life After Commencement?

If you are looking for the adorable whimsy which has made this column such a popular favorite among my wife and my little dog Spot, you will not find it today. For this is my last column of the school year and therefore a leave-taking, an occasion of sweet solemnity. I will not try to be funny in this final column. (I've been told I often achieved this goal in earlier columns, but those were only lucky accidents. Today it's on purpose.)

Further, because of the gravity of the occasion, there will be no commercials today for my sponsor, the brewers of Miller High Life Beer. In this decision the brewers of Miller High Life concurred readily-nay, enthusiastically!-an act of industrial statesmanship totally typical, you would say, if you knew the brewers of Miller High Life as I know the brewers of Miller High Life; I mean here are gentlemen gray at the temples and heavy with honors who still rush to the brewery as eagerly every morning as if they were youngsters only just beginning; I mean all they care about in the world, the brewers of Miller High Life, is to put the best of all possible beers inside the best of all possible cans and bottles and then go, heads high, into the market place with their wares, confident that the inborn ability to tell right from wrong, good from bad, meritorious from shoddy, which is the proud heritage of every American, will result in a modest return to themselves, the brewers of Miller High Life, for their long hours and dedicated labors-not, it goes without saying, that money is of any consequence to the brewers of Miller High Life; all these simple men require is plain, nourishing food, plenty of Miller High Life, and the knowledge that through their efforts the lives of beer drinkers everywhere have become a little more relevant-an attitude which I, for one, find heart-wrenching; indeed, so moved am I that I wish to state right here and now-I declare it publicly and proudly-that as long as there is breath in my body, I shall have only the highest regard for the brewers of Miller High Life, no matter how my lawsuit for back wages comes out.

(I am only having my little joke. Of course I'm not suing the brewers of Miller High Life for back wages. They have always paid me promptly and in full. True, they have not paid me in money, but I'll bet you never met anyone who's got as many Miller bottle caps as I do.)

But I digress. As I was saying, there will be no commercia today for Miller High Life because of the solemnity of the occasion. This is goodbye for many of you, especially those who were unable to avoid graduating. To these unfortunates I say, be of good cheer. It will accomplish nothing to slink home and assume the fetal position. Remember, there are other good things in the world besides going to college. I admit they don't spring to mind at the moment, but there must be. And if not, here's an easy solution: just dye your hair, shave your beard, change your name, and start over again at some other college.

And so in these last lambent moments, let me say to all of you, my gentle readers, it has been a great pleasure writing this column through the school year. Believe me, pleasure is not a common commodity in the life of a writer. There are an appalling number of hazards in this game-a drought of ideas, for one; catching your necktie in the roller of your typewriter, for another -so when a writer is blessed, as I have been, with an audience as alert and intelligent as you, he must take his hat in hand and his necktie out of the typewriter and make a thankful bow. This

Au revoir, gentle readers. Stay happy. Stay loose. And as you travel down life's highway, remember these lines from Shakespeare's immortal Pajama Game: Up your beer enjoyment, fellow.

Raise your pleasure quotient, neighbor. Switch to Miller, bright and mellow. You'll enjoy its groovy fleighbor.

Now that the year is over and the brewery has survived, we

Award - winning black cinematographer William Greaves will visit MSU to show one of his films and meet with students at 8 p.m. Tuesday in Conrad Hall auditorium.

Greaves' visit is sponsored by the Dept. of Art. Noting the considerable interest in filmmaking on campus, Erling B. Brauner, department chairman, said Greaves was invited because of his innovative use of film.

Greaves will be introduced by Dolores Wharton, wife of the president, who met Greaves through her interest in art and in contemporary black culture.

Greaves, who received the Emmy Award as executive producer of NET's "Black Journal," also won first place in the San Francisco and Chicago international film festivals for his film, "In the Company of Men." This documentary film has also received

four other awards. Unable to crack the discriminatory policies of the U.S. film industry in the early 1950s, he went to the National Film Board of Canada. For 19 years he worked there as writer, chief editor,

Ph. 332-4269 TAKE ADVANTAGE OF HI FI BUYS For here's another chance to take advantage of TEAC's new low prices on their professional level tape systems. Like the A-24 Stereo Cassette Deck. And there's no time like now to move up to Teac.

For today with the advancing popularity and reliability of cassettes such a deck is somewhat of a necessity for any "up to date" stereo system. And the A-24 is loaded with features, like - Auto - Stop for completely disengaging the drive and playing mechanism at the end of a cassette for long term performance and reliability. Hysteresis Synchronous Motor, Dual Level Controls, Snap - button operation, 3 Digit Index Counter, Headphone Jack and much more that makes this Teac a winner on quality. And the new low price makes it a true winner for that combination of economy and performance that everyone should look for in Hifi components. At \$179.50 - Look no further than HIFI BUYS and THE DISC SHOP. Special Offer - If you purchase a Teac cassette deck, like the A-24,

or the home plus the new, innovative care tape player - the AC-7, you'll receive your choice of a \$6.98 value pre-recorded tape
