

REVIEW

a journal of the
Fernand Braudel
Center for the Study
of Economies,
Historical Systems,
and Civilizations

Editor: Immanuel Wallerstein

Review is committed to the pursuit of a perspective which recognizes the primacy of analysis of economies over long historical time and large space, the holism of the socio-historical process, and the transitory (heuristic) nature of theories.

The contents of Volume IX (1985-86) include:
