This excellence was accounted for by the proprietor, who remarked that the "hens ate all the worms and curculio within their reach, even the cankerworms." He found less trouble with their roosting in trees than he expected, vate. In the prayer and class-room,

fowls were changed from one to an-other, as the condition of the fowls or have been years of great physical, and the orchard action seemed to require.

Young, plump, well-fed, but not too fat, poultry are the best. The skin should always be finely grained, clear and white; the breast full fleshed and broad, the toes pliable and easy to break when bent back; the birds must always be heavy in proportion to their size. This applies to fowls. As regards break when bent back; the birds must always be heavy in proportion to their size. This applies to fowls. As regards ducks and geese, their breasts must also be very plump, the feet flexible and yellow. When they are red and hard and the bills of the same color, the skin full of hair and coarse, they are old. For boiling, the white-legged poultry must be chosen, because when dressed, their appearance is by far more deli-

a great deal longer in the winter. Pigeons are the better for being cooked the same day they are killed, for they lose their flavor by hanging for even M. F. Chronic during the great reprint of 1876. Soon after, they with others connected themselves with the lose their flavor by hanging for even M. F. Chronic during the great reprint of 1876. Soon after, they with other connected themselves with the lose their flavor by hanging for even M. F. Chronic during the great reprint of the winter and spring of 1876. Soon after, they with other connected themselves with the the same day they are killed, for they lose their flavor by hanging for even so short a time. Turkeys are both her conversion to her death, she was sister B. professed religion, and united her conversion to her death, she was sister B. professed religion, and united the was sister B. professed religion and the was sister the writer. During the short time from the tough and poor eating if not kept long enough. A goose should hang up for some days in the winter before it is cooked. The same rule applies to fowls in the cold season. Take great care to cook your poultry thoroughly, for nothing is more revolting to the palate than underdone poultry. — Exchange.

LITERARY AND SCIENTIFIC.

the writer. During the short time from her death, she was sent to death, she was an earnest and faithful worker for the Master, always ready to give a reason for her hope. Personally inviting others to Jesus, she was the means of winning in the cold season. Take great care to cook your poultry thoroughly, for nothing is more revolting to the palate than underdone poultry. — Exchange.

LITERARY AND SCIENTIFIC, when she was very young. She adorned her profession with a consistent Christian life. Her testimonies and prayers in public and in the family circle were simply walking and talking with God, and always carried an influence not easily forgotten. She suffered much in her last sickness, but murmured not, "for," said she, "God is with me, and sustains me." May God sustain the husband and little daughsustain the husband and little daughter in their sorrow and affliction!

FRESHEST, of all the

MOODY LITERATURE

FIVE BOOKS IN ONE.

His Words, Work, and Workers,

Of the many volumes called out by the wonderful career of Messrs. MOODY AND SANKEY, all have hitherto been more or less fragmentary, and without systematic arrangement. In the above work the design has been to bring within the compass of a single volume

of generous size THE MAN HIMSELF: A Full and Systematic Presentation of his Bible Destrines: An account of his most prominent CO-WORKERS: and a chapter on that most marvelous movement in modern evangelism, THE GOSPEL TEMPERANCE REVIVAL.

In order to make the volume fresh and complete, Mr. Daniels, who edits this work, has made a visit to Boston to learn, by personal observation, as he has done in the case of the Moody and Sankey revivals in the other great cities on both sides of the Atlantic, the progress of the revival work there.

This volume contains 552 pages, crown octave, including twelve full-page illustrations; is elegantly printed on fine paper; is handsomely bound; and is not only a book of the WIDEST and MOST PERMANENT INTEREST and VALUE of any yet published in this line, but is also the

CHEAPEST FOR ITS PRICE.

Ministers, Students, Teachers, Farmers, Ladies, And other intelligent persons, are wanted to canvass for this work. It will be SOLD ONLY BY SUBSCRIPTION.

MOODY:

Edited by Rev. W. H. DANIELS, M. A. With an Introduction by Rev. Charles H. Fowler, D. D., LL. D

It is pre-eminently the best book on Mr. Moody and his Work that has yet appeared. Send postal card for full description, circulars, and terms to

ing the Blood, are the most congenial purgative yet perfected. Their effects abundantly show how much they exced all other Pills. They are safe and pleasant to take, but powerful to cure. They purse out the food hat more of the blood; they stimulate the singgled or disordered organs into action; and they imparbenith and tone to the whole being. They cure not only the every day complaints of every body, but formidable and dangerous diseases. Most skillful physicians, most eminent clerymen, and our beginning they are the safest and best physic for children, because mild as well as effectual. Being sagar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

Practical and Analytical Chemists.
